These tax provisions have become known euphemistically as the extenders inasmuch as Congress has extended these provisions generally 1 year at a time for the past several years.

These expiring tax provisions include such provisions as the research and experimentation tax credit—deduction of health insurance costs for self-employed individuals, the exclusion for employer-provided educational assistance, extension of qualified mortgages bonds which provides low interest mortgage for first time home buyers, and the low-income housing tax credit.

Several of the expiring provisions are of such unquestionable merit that they should have been extended permanently years ago. Unfortunately, revenue constraints in recent years have led us to extend them for only short periods of time.

I look forward to working with Chairman ROSTENKOWSKI next year in reviewing the entire list of expiring provisions. We should extend permanently those provisions that merit permanent extension and eliminate those that do not.

The bill is funded through a modification to the estimated tax payments for corporations. Under current law, a corporation generally is required to pay estimated tax payments equal to 90 percent of the corporation's final tax liability. Under the bill, this 90-percent requirement would be increased to 95 percent.

While this revenue raiser may sound rather innocuous at first blush, I have serious concerns about the proposal. No hearings have been held. I seriously doubt that 5 percent of the corporate tax directors in this country are even aware we are considering this proposal today.

Second, the Ways and Means Committee recently considered a similar modification to the estimated tax payment rules for individuals in the context of the unemployment bill. The committee soundly rejected the proposal until numerous concerns had been remedied.

The estimated tax payment process is not a simple one for small businesses that lack the sophistication to adequately comply.

The current law 90-percent rule provides a 10-percent margin of error to accommodate the good faith estimated tax calculations taxpayers are required to make four times each tax year. Increasing the degree of accuracy to 95 percent will strain the practical ability of many small business owners.

Unfortunately, the problem can be far worse for large corporations.

I recently heard from 1 corporation in my district that has approximately 300 domestic subsidiaries and 150 foreign subsidiaries. It is virtually impossible for this corporation to gather accurate tax information from this far-flung enterprise in order to file accurate estimated taxes. Because penalties for underpayment of estimated tax are nondeductible, this company will be forced to overpay its taxes, thereby providing an interest-free loan to the U.S. Government. This is fundamentally unfair.

In the coming months, we will have an opportunity to monitor the problems raised by this and past modifications to the estimated tax rules. I hope that we will have an opportunity next year to comprehensively review the estimated tax payment rules in order to simplify and improve these rules.

Mr. Speaker, I yield 1 minute to the gentleman from Rhode Island [Mr. MACHTLEY].

Mr. MACHTLEY. Mr. Speaker, I rise in strong support of H.R. 3909.

I wish to thank the chairman and the ranking member as well as the members of the committee for extending these very important programs; specifically, the mortgage revenue bond and the low-income housing tax credit. These programs provide 1.3 million Americans with homes, provides some 400,000 rental units. I believe these are the types of programs which have worked and which I hope, as the committee goes back to review this, they will make permanent.

I think our country needs the housing program; I think these are programs which have been proven.

Mr. Speaker, I commend the committee for extending these programs so that there is no disruption in the building programs and the housing for our homeless.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of this legislation.

Mr. Speaker, we have heard a lot of talk today dealing with the need for action on our economy. There is no question that we must take action to reverse this recession and its damaging impact on families across this great land.

Make no mistake about it, Democrats have a plan and are ready to act if the President will join us productively, rather than merely threaten another veto.

In the interim, I want to commend the chairman of the Ways and Means Committee for bringing this bill, extending critical expiring tax provisions to keep investment going in our economy. As I discussed with the chairman, this bill is a lifeline to our home building industry, without which this recession will only become deeper and more severe.

Housing starts are now at the lowest level of any year since World War II. Over 15 percent of those employed by the homebuilding industry on a national level—and over 60 percent in the Washington metropolitan region—are out of work today. This industry and its impact on our economy are clearly in a crisis.

At the same time, it is important to note that Housing has led our Nation out of every recession. Without a turnaround in the housing industry, we may continue to flounder and sink in the rough seas in which we now find ourselves.

This legislation will keep in place critical lifelines to the homebuilding industry. Without these extensions, financing that is now available through mortgage revenue bonds and capital that is available for low-income housing would dry up and turn a crisis into a disaster and a recession into a depression.

To point out the importance of these provisions, it is important to note that State-issued mortgage revenue bonds have funded more than 1.3 million lower income mortgages—and over 131,000 in 1990 alone. Local housing authorities have provided another 474,000 mortgage revenue bond [MRB] loans. In 1990, in Maryland, over 4,400 families have received MRB-assisted loans. This means jobs for employees of the homebuilding industry and means the recession is that much less painful.

The Chairman's bill will allow us to get to next year, when we can include these provisions in an overall package that focuses on spurring and sustaining economic growth.

I also commend the chairman on his commitment to review these issues next year and make them permanent if they are found to be productive. At long last we can stop the gameplaying of making these issues a political football on an annual basis and provide some confidence and stability to capital markets for the homebuilding industry. I thank the chairman for this action today and urge adoption of this important legislation.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. RANGEL].

Mr. RANGEL. Mr. Speaker, let me congratulate the Chairman, the gentleman from Illinois [Mr. ROSTENKOWSKI], and also the ranking Member, the gentleman from Texas [Mr. ARCHER], for coming together to make such an important issue to the American people and the Nation a nonpartisan issue.

Clearly, all 12 of these extenders have a great constituency, but I am concerned about the creation of jobs for the underprivileged, especially our teenagers, and the targeted job credits where we reach out and encourage people to hire the disadvantaged and give them the training necessary to keep them working, off the welfare rolls and out of trouble.

In addition, we are talking about the low-income housing credit, where 95 percent of all the housing that has been built in the last 3 years where the rent has been $450 or less per month has been built under the low-income housing credit.

So I do join with the minority and the majority, hoping that it soon will become permanent. But it took a lot of cooperation and a lot of work for us to get where we are today, and I congratulate both of these gentlemen.

□ 1250

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. KENNELLY].

Mrs. KENNELLY. Mr. Speaker, I rise today in strong support of the bill, and I rise in relief that we are considering H.R. 3909. I thank the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, and certainly thank the gentleman from Texas [Mr. ARCHER].

This legislation would extend the 12 tax provisions that are slated to expire on December 31, 1991. These include important programs like mortgage revenue bonds, the low-income housing tax credit, and the research and development tax credit.

Extending these proven programs is the least complicated and least costly way to stimulate the economy. I am the lead sponsor of the mortgage revenue bond extender. This is a vital program that helps working families purchase their first home. It is supported by 391 Members of the House.

The Mortgage Revenue Bond Program helped more than 605,000 families become homeowners in 1990 alone. Since 1988, 10,239 families in Connecticut have become first time homebuyers with the assistance of mortgage revenue bonds.

The Mortgage Revenue Bond Program is a proven program. It is one of the few things that is still moving homes in the residential real estatemarket. In addition, more than 60 percent of all lower priced RTC home sales have been financed by the Mortgage Revenue Bond Program, the only gold star the RTC can claim.

The extension of the Low-Income Housing Tax Credit Program will also provide much needed stimulus for our fragile economy. The low-income housing tax credit is the most important housing program we have today, providing for more new construction than any other Federal program. The credit produces 120,000 units of low-income rental housing each year. And since its inception this vital program has added 28,000 new low-income housing units in Connecticut.

If my colleagues really want to do something for jobs, and if they want to do something for real estate, and, most importantly, if they want to do something for the American people, here it is. Here is something practical we can do in this very good economic package in front of us, and I am delighted we have it and hope everybody comes together, as they have on the committee, to support it.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentlewoman from Connecticut [Mrs. KENNELLY] who just spoke is absolutely correct. The public would like for this Congress to come together without partisan bickering to try to help the economy, and this is one step today in this bill where we have come together, where we can go arm and arm, Democrats and Republicans, to the American people and say, "We do want to create jobs."

Mr. Speaker, this targeted jobs tax credit, which will be renewed by this bill, creates job opportunities for Americans. The mortgage revenue bond provision, which is renewed, will create the construction of more homes, and the sale of more homes and the creation of more jobs. The R&D tax credits will create more jobs for those people who are at the cutting edge of developing technology that will keep this country in the forefront and competing with its foreign trading partners. That is in addition to low income housing. The credit there will create more jobs.

So, this Congress is taking at least a small step forward in a positive way today to help to move us out of a recession and into greater job creation.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, I thank the gentleman from Illinois [Mr. ROSTENKOWSKI] for yielding this time to me, and let me say that I was pleased yesterday when the Committee on Ways and Means Democrats and Republicans decided together to do what I think all of us understand is necessary for the economy. These are public policies that are important, and we have decided to extend these extended tax provisions so we do not get in positions where our failure to extend them depresses the economy further and causes further loss of jobs. This is a package that will help stimulate and help produce some economic activity, and I am pleased to see that we can work together and can have a spirit of bipartisanship and harmony on these issues.

I do want to take one of these extenders and discuss it just for a moment. That is the 25-percent health insurance deduction for self-employed. I am pleased that that is not allowed to expire, that that is in fact extended, but it is not nearly enough. There is no excuse at all in these times when we talk about the need for incentives to have health insurance to say to a small business or a farmer on one side of the street, "You get a 25-percent deduction for your health insurance on your income tax, but your competitor across the street is incorporated, and you get, Mr. Competitor, a 100-percent deduction. If you're incorporated, you get a full 100-percent deduction for health insurance costs, but if you're a self proprietor or self-employed, you only get 25 percent."

Mr. Speaker, we have to correct that, and we have to do it soon. I am hoping next year when we discuss this we will decide that the self-employed, the unincorporated businesses of America, will have a 100-percent education for health insurance costs, just as the incorporated businesses have. There is no justification of that difference in public policy.

Once again let me say in the midst of all of this partisan chaos around there that this is at least one small shining example of how Republicans and Democrats can work together to bring something to the floor that is good for the country, and I congratulate the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, and I congratulate the ranking member, the gentleman from Texas [Mr. ARCHER] and the folks on that side of the aisle as well.

Mr. ARCHER. Mr. Speaker, I yield 3 minutes to the gentleman from Iowa [Mr. GRANDY].

Mr. GRANDY. Mr. Speaker, I thank the gentleman from Texas [Mr. ARCHER] for yielding this time to me, and let me agree with my friend, the gentleman from North Dakota [Mr. DORGAN] on the timeliness and importance of extending these expiration provisions. I salute the chairman, the gentleman from Illinois [Mr. ROSTENKOWSKI]. I salute the gentleman from Texas [Mr. ARCHER] and will expand only for a moment on how this is a small way is a package that Members on both sides of the aisles can take home and say, "We have done something for growth and for competitiveness."

The gentleman from North Dakota [Mr. DORGAN] expanded on the 25-percent deductibility, which is really not so much a tax issue as it is a fairness issue, and I will not elaborate on that except to say that both he and I have sponsored legislation to expand that deductibility to 100 percent, and indeed that proposal is incorporated in many of the health care reform packages that both Republicans and Democrats have offered.

But, as a Representative from a rural area, Mr. Speaker, let me highlight some provisions that I think are terribly important to rural communities that have suffered outmigration and has sustained a lack of growth for many years. In addition to health care deductibility for self-employed individuals, and in our case that usually means farmers, there are two other provisions that are terribly important. The provisions which extends the qualified small new manufacturing bonds are those bonds from which beginning farmer lender programs grow. Iowa has had a very successful beginning farmer program. It depends on these private activity bonds and will be allowed to continue at least for 6 months, which is good news for a lot of young farmers who otherwise would not be enfranchised in agriculture.

Similarly, the low-income housing tax credit more and more in rural areas where we are suffering a tremendous shortage in housing is now combining with Farmers Home and FHA to provide housing needs for the rural poor. That is a tremendously important extension.

Let me add one more personal note. To reauthorize section 127, which is employer-provided education assistance, is not only good tax policy, it is good competitive policy for this country. We all know and have heard in the Committee on Ways and Means and on the floor of this House how important it is to move our work force to a skill force. Unless employers get involved, this will not happen, so this provision, and hopefully others to come, provide a tremendous opportunity for growth and competitiveness.

I salute the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, and I salute the gentleman from Texas [Mr. ARCHER], and I encourage all Members to support enthusiastically the expiring provisions.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. ANDREWS].

Mr. ANDREWS of Texas. Mr. Speaker, I rise, too, in support of this important bipartisan legislation, the Tax Extension Act of 1991. This may be one of the most significant pieces of legislation that Congress considers this session to encourage risk-taking, investment, and jobs creation.

Mr. Speaker, history has shown us that the research and development tax credit has helped businesses develop new products that stimulate economic growth and make us more competitive with our trading partners. It is absolutely critical that we extend this important credit.

Second, Mr. Speaker, the targeted jobs credit has enabled many businesses to employ the disadvantaged. Over a half a million workers benefit from this specific tax provision.

Finally, the extension of the 25-percent tax deduction for the self-employed is absolutely critical if we are going to control insurance costs for small businesses. This is an issue that we must address as a Congress and in the Ways and Means Committee in this next legislative session. But today we are saying to the small businessman that we must keep their insurance costs from going up. We are, therefore, extending this important deduction.

Mr. Speaker, the Ways and Means Committee will be back 6 months from now to review these provisions and to look at other provisions that can encourage growth in our economy.

I want to commend the chairman and the ranking minority member. This is a bipartisan bill; it is an important piece of legislation, and I encourage its passage.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York. Mr. Speaker, I rise today to thank Chairman ROSTENKOWSKI for bringing this important legislation to the floor before adjournment. The extension of these provisions of the Tax Code are critically important as my letter to the committee last week, signed by 94 of our colleagues, pointed out. This bill is essential to the stability of our economy, particularly during this recession.

Among the programs extended are the low-income housing tax credit and Mortgage Revenue Bond Program which are very important to our housing industry, especially at this difficult time. The bill also extends the targeted jobs tax credit which has clearly served to create jobs that we need now more than ever. The research and experimentation tax credit is also important to expanding our economy, and this bill keeps that credit in operation as well. It also preserves the tax exclusion for employer-provided educational and legal expenses and tax provisions related to the value of donated works of art.

Mr. Speaker, we all know that these particular tax provisions have histories of success, and it is indeed good news that this bill is being moved quickly through the Congress before adjournment. I commend the committee for its timely action and urge my colleagues to lend their full support to its passage today. I submit my letter of November 22 along with the list of signers to be printed at this point in the RECORD.

HOUSE OF REPRESENTATIVES,
Washington, DC, November 22, 1991.
Hon. DAN ROSTENKOWSKI,
Chairman, Committee on Ways and Means, Longworth Building, Washington, DC.

DEAR MR. CHAIRMAN: We respectfully urge you to convene your committee at the first opportunity to consider a short term extension of the expiring provisions of the tax code before we adjourn for the year. At this time, when our economy is mired in recession, we must maintain the viability of these programs, all of which have positive economic and societal impacts.

Although we would urge a long term or even permanent extension of these provisions, we are aware of the constraints imposed by the 1990 Budget Agreement. Hence, we want you to know of our support for a short-term extension, even as short as three months, to keep these programs operating while we grapple with the tough economic and tax questions which we all know must be addressed in early 1992.

Mr. Chairman, we understand your reservations about opening up the tax code so late in the year, but we ask that you do so to ensure that the social and economic benefits from these important programs are not jeopardized at this critical time. While all of us have changes we would like to see in the tax code, we realize the overriding importance of maintaining continuity for these long-standing provisions which are set to expire December 31. We encourage you to bring an extension bill to the floor under suspension of the rules before we adjourn.

Sincerely,

Nita M. Lowey, Mike Espy, Claude Harris, John Cox, Jr., Lane Evans, W.G. Hefner, Frank Pallone, Jr., Tim Johnson, Hamilton Fish, Jr., Matthew J. Rinaldo, William H. Zeliff, Jr., Chalmers P. Wylie, Stephen L. Neal, and Beverly Byron.

John Conyers, Jr., Les AuCoin, Collin Peterson, David R. Nagle, James H. Bilbray, Glen Browder, Robert E. Cramer, Jr., Ben Nighthorse Campbell, William Lehman, Matthew McHugh, Glenn Anderson, Patricia Schroeder, J. Roy Rowland, David Price, Vic Fazio, and Robert J. Mrazek.

Ileana Ros-Lehtinen, Ben Jones, Bill Emerson, Robin Tallon, Richard Lehman, Jon Kyl, Scott Klug, Peter H. Kostmayer, Joseph Gaydos, Walter Jones, Thomas Ewing, Norman F. Lent, Mary Rose Oakar, and Henry J. Nowak.

John Tanner, Jim Jontz, Bernard J. Dwyer, James F. Sensenbrenner, Jr., Randy "Duke" Cunningham, Jack Reed, Craig Thomas, Robert A. Borski, Terry Bruce, Dick Swett, Dan Burton, Jose E. Serrano, James V. Hansen, Constance Morella, Howard Coble, Wally Herger, William L. Dickinson, Joel Hefley, Dan Schaefer, and Tom Lewis.

Tom Bevill, Larry Smith, Bill Alexander, Ronald K. Machtley, Porter Goss, Robert W. Davis, Charles Taylor, James H. Scheuer, Arthur Ravenel, Jr., Bill Lowery, Gerry Studds, Jerry F. Costello, Marilyn Lloyd, and Floyd Spence.

Gary Ackerman, Dave Camp, Thomas McMillen, Bart Gordon, Chester G. Atkins, Sam Gejdenson, Glenn English, Douglas "Pete" Peterson, Charles A. Hayes, Robert J. Lagomarsino, Dale E. Kildee, Wayne Owens, John M. Spratt, Jim Bacchus, Tom Andrews, Susan Molinari, and Alex J. McMillan,

Members of Congress.

□ 1300

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. LEVIN].

Mr. LEVIN of Michigan. Mr. Speaker, I would like to congratulate the chairman of the committee for finding a way to bridge this gap. The extenders are being extended because they have stood the test of time. These are deserving provisions. They have been placed in the rather unusual situation of every so often having to be renewed. But they are renewed because they serve basic economic needs for employers, large and small, for employers of all kinds.

Next year they are going to have to stand the rest of financial stringency, and I hope all of us who support the essence of these provisions will look ahead and try to find a way to fit these provisions into an overall tax package on a permanent basis.

So, Mr. Speaker, I rise in strong support of this action. It is a responsible one. In 6 months we will take another look and make sure we can handle this on a permanent basis.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Rhode Island [Mr. REED].

Mr. REED. Mr. Speaker, I rise in support of this measure and commend the chairman of the committee for his leadership.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. PANETTA].

Mr. PANETTA. Mr. Speaker, I want to commend the chairman of the committee and the committee for bringing this proposal to the floor.

I have some concerns obviously about the on-and-off nature of these extenders, but I think the most important point made by the committee is that in advancing these extenders they paid for them. The cost of these extenders for 5 years is $3.1 billion. They raised $3.1 billion by increasing the corporate estimated tax in terms of its payment.

There are a lot of tax proposals that are being thrown around here. Some of them are paid for, some of them are not. The worst thing we could do is to cut taxes for some people while increasing the worst tax of all, which is the deficit on the American people. That is a lesson that both the President and my colleagues need to learn.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Maryland [Mr. CARDIN].

Mr. CARDIN. Mr. Speaker, I want to thank my chairman for yielding me the time, and I want to congratulate the gentleman from Illinois [Mr. ROSTENKOWSKI] and the gentleman from Texas [Mr. ARCHER] for finding a way to bring this extender bill to the floor.

These expiring tax provisions are very important to our economy and very important to many programs that we have in our State and local governments and throughout our communities.

I want to underscore the point that the gentleman from Illinois [Mr. ROSTENKOWSKI] made earlier, and that is that we need to take up these expiring tax provisions next year. I hope at that time that we will be able to look at permanent extensions for these tax provisions and also look at ways in which we can modify some of these provisions to make them more effective. Unfortunately, we just extend many of these provisions without looking at each individual one. I think that is important, and I thank the chairman of the committee for giving us that opportunity again next year.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. THOMAS], a member of the committee.

Mr. THOMAS of California. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, it is ironic that the morning after the House passed a multimillion dollar campaign finance bill with no funding source, there is a discussion about a tax package that actually pays for itself. We are talking about $3.1 billion in which a committee, on which it is my pleasure to be a member, was at least responsible enough to include sufficient revenue for the revenue lost.

Last night in a fit of orgy this House passed a bill that includes tax credits that the Joint Tax Committee estimates will, over a 5-year period, cost about $780 million. It included a postage subsidy which was between $50 and $75 million a year, and it included matching funds which the other side of the aisle said all last night were to be paid for out of voluntary funds. If we would take a look at this morning's Washington Post, we would see that the gentleman from Connecticut has already reneged on that commitment and says he reserves the right to use tax dollars.

Mr. Speaker, I wish those Members who just took the microphone and talked about responsibility in terms of covering the cost of requests would have been at the microphone last night when this body unfortunately passed a multibillion-dollar package financing campaigns with taxpayers' money and did not have the coverage to pay for it.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. JOHNSON].

Mrs. JOHNSON of Connecticut. Mr. Speaker, I thank the gentleman very much for yielding this time to me.

Mr. Speaker, I rise in strong support of this bill to extend key expiring tax provisions.

There are disagreements in this House, and they are legitimate disagreements. We fight tough battles about what the future tax policy of this Nation ought to be and these are valid battles. But it indeed would be a shame if we were unable to provide the predictability of policy that is so important to the success of the programs that we currently have in place.

These extenders are the most successful housing policy the Federal Government participates in in my district and in my State. These extenders provide the most powerful and successful educational assistance to working people that my constituents enjoy. It is imperative in an era of skyrocketing health care costs that we preserve the right of self-employed, small businessmen and women to deduct at least 25 percent of their health care premiums. Failure to renew the targeted jobs tax credit would throw a new round of people into the unemployment lines in Connecticut. These programs funded through tax expenditures create opportunity for millions of Americans, and thousands of my constituents.

So, Mr. Speaker, I commend the chairman and the ranking member for being able to create the discipline in this and the other body to bring the bill to the floor. By so doing we restore the predictability and certainty that makes sound tax policy. We restore benefits to thousands of folks out there that are crucial to their well-being and to the opportunity they have to realize new dreams and we restore Congress' credibility as the steward of the people's interests.

Mr. ARCHER. Mr. Speaker, I yield 30 seconds to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. Mr. Speaker, I just wonder if there is a message in all the compliments that are being paid to the chairman. I usually only see these kinds of compliments when someone has either died or is retiring.

May I ask the chairman if there is a message there?

Mr. ROSTENKOWSKI. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the chairman of the committee.

Mr. ROSTENKOWSKI. Mr. Speaker, I am sure that the gentleman was aware that the extensions of gratitude were rendered to both Mr. ROSTENKOWSKI and the gentleman from Texas [Mr. ARCHER].

The SPEAKER pro tempore (Mr. MAZZOLI). The time of the gentleman from Pennsylvania [Mr. MURTHA] has expired.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Utah [Mr. ORTON].

Mr. ORTON. Mr. Speaker, I rise in enthusiastic support of extending these provisions in a manner that they may be paid for as we go.

Mr. ARCHER. Mr. Speaker, I think we should quit while we are ahead.

Mr. Speaker, I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, one certain evidence we have seen here is that the Congress can work together. These are very important provisions. They are provisions that both the minority and the majority, not only in the Committee on Ways and Means but in conference as well, have been struggling with for a long time. That is one of the reasons why in the past we did extend them permanently, and only because of budget constraints and revenues we continuously cut them back to a point where only this year we had them for 9 months.

I think there is much to be said about the Ways and Means Committee reviewing these extenders, as they are known, and doing something about them on a permanent basis.

Mr. Speaker, in conclusion, I wish to say that I am especially pleased that by this bill we are able to extend the low-income-housing tax credit for 6 months.

□ 1310

In Chicago alone it will enable us to create 2000 new units of housing for the poorest of the citizens. It is of the utmost importance to me, and I think to generally the poor people of the country, that we pass this legislation, both for our inner cities and rural areas. They certainly deserve it, are counting on it, and I think we should move with great dispatch.

Mr. FRANKS of Connecticut. Mr. Speaker, I rise in strong support of passage of H.R. 3909, which authorizes the extension of 12 expiring tax provisions.

It is fitting that as we begin to celebrate the holiday season, we can point to an issue which has united both sides of the aisle.

For too long, the Congress has delayed taking action on these expiring tax credits which have been an essential part of our economy.

While the 6 month extension of these tax credits will show the business community that Congress supports these credits and that we have a strong interest in seeing them continued, I hope Members will continue to support efforts to extend them permanently or on a yearly basis.

Premanent extension of these provisions will allow businesses to make the financial plans to fully utilize their credits on a yearly basis.

Earlier this year, I introduced the Small Business Jobs and Tax Benefits Act which would extend 5 of the 12 expiring provisions which I believe are crucial to the success and expansion of the small business community. I am pleased that these five expiring provisions were included in H.R. 3909.

Real long-term economic growth and expanded job opportunities will depend on Congress passing measures such as H.R. 3909 which create incentives for business to invest and expand.

These provisions will also assist employers who offer educational programs, target jobs to disadvantaged and disabled workers, relieve the burden of insurance for self-employed individuals, assist in the development of solar and geothermal energy equipment and exclude employer provided group legal services from taxes.

Mr. Speaker, I am also very concerned about the ability of working families to find affordable housing.

That is why I am very pleased two other provisions will be extended—the Mortgage Revenue Bond Program and the Low Income Housing Tax Assistance Program.

These will be the first step that Congress takes in passing legislation which will get our economy up and running again.

Mr. Speaker, I urge all Members to support this bill.

Mr. MOODY. Mr. Speaker, I rise in strong support of H.R. 3909, the bill to extend the 12 tax provisions that will expire at the end of this year. I commend Chairman ROSTENKOWSKI and my fellow members of the Ways and Means Committee for working together to find a way to extend these provisions.

I cosponsored legislation to extend these crucial provisions because each of them serves an essential need in our communities. Several of these items are among the most successful that we have enacted in the Ways and Means Committee in recent years.

I'd like to single out the targeted jobs tax credit and the low-income housing tax credit for special notice. Both of these tax credits are very important in my district and in my State. This Wisconsin Housing and Economic Development Authority has been especially supportive of the low-income housing credit, and have proclaimed it to be a major success in Milwaukee. Several other nongovernmental, nonprofit community groups make extensive use of these credits to build affordable housing for low-income families without the direct involvement of the Government.

The targeted jobs tax credit is another good example of a successful approach to using the private sector to address a public need by providing the necessary resources without Government micromanagement. This credit helps defray the costs of hiring young men and women that have had difficulty getting into or staying in the work force. It gives these workers real jobs in the private sector, providing them with experience and training.

This legislation also extends the 25-percent deductibility of health insurance for the self-employed. This is obviously a minimum necessity given the high and ever-growing cost of health insurance. However, it is only a stopgap measure. I have introduced legislation with my colleague BYRON DORGAN to make health insurance fully deductible for the self-employed. There is no reason that one set of businesses should be allowed to deduct 100 percent of this cost, and another set of businesses denied this benefit. The real long-term solution to this problem, however, is a fundamental reform of the health insurance system that puts serious controls on rising health costs. I hope we achieve this reform in this Congress by adopting a bill I have introduced to establish a single-payer health insurance system that will reduce costs for the vast majority of American families and businesses.

There are other provisions in this bill which I heartily support, including: mortgage revenue bonds to help working families buy their own homes; small issue manufacturing bonds to help communities attract and retain business for economic development; and the research and experimentation tax credit which continues to give American business the incentive to invest in research projects that will contribute to the long-term competitiveness of this economy.

While I am extremely happy that we are able to extend these provisions for 6 months, I think that it is essential that we make it a priority to permanently extend each of them before they expire next year. I look forward to working with Members of the committee and the House to find a way to do this.

Mr. REED. Mr. Speaker, I rise today in strong support of H.R. 3909 and in recognition of Chairman ROSTENKOWSKI's efforts to bring this legislation to the floor.

H.R. 3909 demonstrates our commitment to improving the economy, affordable housing, health care, jobs, and research. Its passage will continue for 6 months a host of programs of vital importance to our States. I would like to highlight a few.

The Mortgage Revenue Bond Program and the low-income housing tax credit are two of the most effective tools we have to create affordable housing as well as meet our goal of providing all Americans with decent, accessible, and safe housing.

Since its inception 12 years ago, the targeted jobs tax credit has helped millions of low-income Americans go from tax users to tax payers. At the same time, the targeted jobs tax credit also affords businesses, large and small, the opportunity to reduce their tax burden. The targeted jobs tax credit also increases hiring from groups in our society which are historically disadvantaged and structurally unemployed, and thus begin to break the vicious cycle of poverty.

While health insurance costs have been escalating dramatically for all businesses, the costs have been significantly higher for small business. New data on health coverage in small firms indicates that they still employ a disproportionately large share of workers without employer provided health insurance. Moreover, nearly half of the self-employed workforce is uninsured.

The continuation of the 25 percent deduction for health insurance costs provides an incentive for more small business owners to purchase health insurance for themselves and their employees.

Again, I would like to state my support for the worthy programs I mentioned above as well as continuing the authority of States to issue tax-exempt small issue manufacturing bonds.

Mr. BLACKWELL. Mr. Speaker, I rise today to express my strong support for H.R. 3909. This economy needs a jump start and I can think of no better way to help get it going than by supporting this bill that will give tax credits for the construction of low-income housing. The low-income housing tax credit is the Nation's primary affordable housing tool, responsible for 94 percent of all low-income housing starts and more than 35 percent of all rental housing starts each year. In addition, this bill allows tax exempt status for mortgage revenue bonds, and gives tax credit for the hiring of disabled and disadvantaged workers. I firmly believe that we need affordable housing for the poor and the working class. We need jobs for all Americans, including the disabled, and we must support programs that encourage people to further their education. This comprehensive bill will offer millions of people the push that they need to get on with their lives. By supporting this legislation, we can help these people, and stimulate our fragile economy at the same time.

Ms. SLAUGHTER of New York. Mr. Speaker, I rise in support of the H.R. 3909, the compromise bill on extenders that will temporarily rescue the 12 expiring provisions of the Tax Code. I commend the wisdom of the Ways and Means Committee and the Senate Finance Committee in recognizing the importance of these expiring provisions.

While I strongly support the tax breaks for low-income housing, research and experimentation, and employer-provided educational assistance, among others, there is one expiring provision about which I have been particularly concerned. That provision is the deduction for interest on industrial revenue bonds, [IDB's] issued to provide capital for small manufacturers.

By providing a sound, responsible, reliable means of capital development, IDB's have played a critical role for small manufacturing firms. Such firms have long been a key component of the economy of my district, which includes parts of Greater Rochester, NY. While the manufacturing sector of our economy has been in decline in recent years, IDB's have been a useful mechanism in the struggle to reverse this trend. By reducing the cost of capital, IDB's encourage investment by small manufacturing firms. In recent years in New York, estimates are that $1 of every $10 invested in the small manufacturing industries has involved IDB's. In the Rochester area alone, IDB-financed projects have created more than 1,000 new jobs over the last 4 years.

I have fought to keep open the manufacturing sector's access to needed capital by introducing legislation, both this year and last, to extend the tax exemption on IDB's for a 5-year period. A 5-year extension is needed because our practice of piecemeal extensions of shorter time periods has discouraged some manufacturers from using IDB financing. While IDB's do work, small manufacturers need a program in place that provides continuity and an adequate planning horizon. Accordingly, H.R. 3909's 6-month extension is only a partial victory for small manufacturers. Congress must recognize the job creation and economic stimulus potential of a full 5-year extension of the IDB exemption.

As American manufacturers struggle to survive a recession, a credit crunch, and stiffening foreign competition, we owe nothing less to this backbone sector of our Nation's economy.

Ms. PELOSI. Mr. Speaker, I rise today in strong support of H.R. 3909, to extend 12 expiring tax provisions for 6 months. I would like to commend Chairman ROSTENKOWSKI and Ranking Member ARCHER for their work to develop this package. I know that bringing this bill to the floor today was not easy and required persistence, creativity, and commitment.

Included in these provisions are a number of important programs. Of particular interest to my constituents are the extension of the low-income housing tax credit and the mortgage revenue bond [MRB] programs. These two programs provide much need assistance for the development of affordable housing. I was pleased to work with Representative MACHTLEY in initiating a letter to Chairman ROSTENKOWSKI and Ranking Member ARCHER, cosigned by 225 of our colleagues, urging that these 2 worthy programs be extended.

The tax credit is a significant Federal incentive for the production and rehabilitation of low-income rental housing. Fully utilized, the credit is capabile of facilitating the production and rehabilitation of over 120,000 units of low-income house annually. If made permanent, the tax credit over the next decade could save approximately 620,000 low-income rental units which would otherwise be lost from the house stock. In the San Francisco Bay area, the tax credit has been used in a number of innovative affordable projects. I am very pleased that today we are acting to prevent its expiration.

The Mortgage Revenue Bond Progam, too, plays a significant role in providing affordable housing. The MRB Progam help to reduce home mortgage costs for lower income families, and in my city of San Francisco, helps to provide for moderate-income workers in the city who would otherwise not able to afford to live there. Nationwide, MRB's have assisted over 1.3 million low- and moderate-income families become homeowners.

The bill before us today takes a step in the direction of reordering our domestic priorities. The mechanism developed to raise the revenue needed to extend these expiring tax provisions will speed up tax collections on corporations. Currently, corporations pay taxes based on 90 percent of the current year's tax liability without having to pay an assessment for failure to pay estimated tax. H.R 3909 will require corporations with taxable income over $1 million to pay quarterly taxes based on 95 percent of their income. We implemented a similar change for individuals in orfer to fund the extension of unemployment benefits. It is fitting that today we are using changes to coporate taxation to fund the development of affordable housing.

Again, I would like to commend Chairman ROSTENKOWSKI and Congressman ARCHER for their success with this measure. I urge my colleagues to support H.R. 3909.

Mrs. ROUKEMA. Mr. Speaker, I rise today in strong support of H.R. 3909, a bill to extend for 6 months 12 vital tax provisions that are due to expire on December 31, 1991.

On November 23, I wrote to the chairman of the Ways and Means Committee, Mr. ROSTENKOWSKI, urging that he bring before the full House, prior to adjournment of this first session, legislation to extend these crucial tax provisions. I wish to thank both the chairman and the ranking Republican member of the Ways and Means Committee, Mr. ARCHER, for their efforts to bring this bill before us today.

Given our current recessionary economy, this bill is among the most important legislative initiatives that we will consider prior to adjournment. A number of New Jersey businesses have brought to my attention their strong support for extending various of these 12 tax provisions that they view as crucial to their operations. Also, I wish to point out that this bill will help to ensure the availability of affordable housing for low- and moderate-income families, health insurance benefits for self-employed persons and their families, and employer-sponsored educational benefits for many Americans.

As the ranking Republican member of the Banking, Housing and Urban Affairs Subcommittee on Housing, and a strong proponent of affordable housing alternatives, I am particularly pleased to note that H.R. 3909 extends both the low-income housing tax credit and the authority of States to issue tax-exempt mortgage-revenue bonds. Earlier this year, I cosponsored H.R. 413 and H.R. 1067, bills to extend on a permanent basis the low-income housing tax credit and mortgage-revenue bond programs, respectively. Government entities and individual groups, together with many Members of this body committed to affordable housing, know the successful history of these programs.

Mr. Speaker, the mortgage-revenue bond program has enabled many low- and moderate-income Americans to purchase their own homes. In New Jersey, where real estate prices are amongst the highest in the Nation, and the gap between household income and home purchase prices has widened, mortgage-revenue bonds and the low-income housing tax credit are the only forms of Federal assistance remaining to facilitate affordable housing.

Mr. Speaker, the bill before us also extends the health insurance deduction for self-employed individuals and their families. Without this provision, many more American families would likely find themselves without necessary health care coverage. One illness or medical emergency could thrust such families into poverty. Thus, the extension of this provision will serve to protect the health and economic well-being of self-employed persons and their families.

I also wish to address the extreme importance of extending tax credits for business research and experimentation [R&E]. Since its enactment in 1981, this tax credit has proven to be an extremely effective incentive to American companies to increase their level of research on new technologies and new products. American businesses would be severely disadvantaged in international markets if the research and experimentation tax credits were allowed to lapse. It is estimated that the extension of these tax credits could lead to $27.5 billion in increased spending for R&E from 1991 to 1995. In addition to the obvious technological research benefits of this increased R&E spending, it would also serve to stimulate jobs, thereby bolstering local economies and businesses.

Last year, during the final hours of the budget debate, Congress approved a 12-month extension of these tax provisions. This year, under the resulting 1990 budget agreement, we must offset this 6-month extension of these tax provisions. This bill does so by speeding up tax collection from certain corporations who make quarterly estimated tax payments. Since a large number of such corporations benefit from these tax provisions, this is an appropriate offset.

While a permanent extension of these credits would be preferable, I believe that we will revisit this issue next year when we tackle the difficult economic and tax issues that we all know must be addressed at the earliest possible opportunity.

Mr. Speaker, I urge my colleagues to lend their support to this bill. It is good for business, good for job creation, good for the economy, and good for America. I also urge our colleagues in the other body to act quickly on this high-priority measure so that we may ensure that there will be no interruption in the operation of these 12 essential programs.

Ms. DeLAURO. Mr. Speaker, today, on the last day of this legislative session, we are debating one of the most important bills we have considered this year. H.R. 3909, which will extend a number of crucial tax incentives, is good news for businesses in my State and around the country.

The Government policies addressed in this legislation will help businesses that are struggling to survive this recession—they must not be allowed to lapse. Between 1980 and 1990, an average of 183 businesses per year declared bankruptcy in my State of Connecticut. This year, 526 businesses declared bankruptcy in the first 8 months. Clearly, something must be done.

This bill would extend a dozen vital tax measures scheduled to expire at the end of this year. The incentives in this bill will help businesses, expecially in the slumping real estate sector, to endure these tough economic times. If we allow them to expire, we risk doing serious damage to businesses already weakened by the recession.

Some of the most significant provisions are: Tax credits for business research and experimentation, which will help American businesses and universities invest in the future; low-income housing tax credits and mortgage-revenue bonds, which are vital to the development of affordable housing for low- and moderate-income Americans; deductions of health insurance costs for the self-employed, which allow self-employed individuals to deduct their health care costs in the same manner as larger businesses; and the targeted jobs tax credit, which encourages businesses to hire disabled and disadvantaged workers.

Other provisions in this bill include: Exclusion from taxes of employee-provided education assistance, tax credits for business investment in solar and geothermal energy equipment, and authority to issue tax-exempt small issue manufacturing bonds.

This legislation will not solve the economic ills facing our country. We need to do much, much more. The bill before us extends most of the expiring tax incentives only through the first 6 months of next year. Many, if not most, of these provisions will need to be extended further, and some are worthy of permanent extension.

But this bill represents our commitment to helping businesses through this devastating period and creating new growth, new jobs, and new hope for the future. For businesses surviving on the edge, this legislation will bring a much needed reprieve from the economic pressures they face.

Mr. Speaker, we cannot afford to allow these vital programs to expire. I call on my colleagues to join me in supporting this important proposal.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time and yield back the balance of my time.

The SPEAKER pro tempore, (Mr. Mazzoli). The question is on the motion offered by the gentleman from Illinois [Mr. Rostenkowski] that the House suspend the rules and pass the bill (H.R. 3909) as amended.

The question was taken.

Mr. ARCHER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 5 of rule I and the Chair's prior announcement, further proceedings on this motion will be postponed.

FOOD, AGRICULTURE, CONSERVATION AND TRADE ACT AMENDMENTS OF 1991

Mr. de la GARZA. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 305) concurring in the Senate amendment to H.R. 3029 with an amendment.

The Clerk read as follows:

H. Res. 305

Resolved, That upon adoption of this resolution, the House shall be considered to have taken from the Speaker's table the bill (H.R. 3029) to make technical corrections to agricultural laws, with the Senate amendment thereto, and to have concurred in the Senate amendment with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Food, Agriculture, Conservation, and Trade Act Amendments of 1991".

SEC. 2. TABLE OF CONTENTS.

The table of contents for this Act is as follows:

TITLE I—AGRICULTURAL COMMODITY PROGRAMS

Sec. 101. References.
Sec. 102. Conserving use acres.
Sec. 103. Double cropping of 0/92 acres.
Sec. 104. Announcement of acreage reduction programs for rice.
Sec. 105. Corn and sorghum bases.
Sec. 106. Cover crops on reduced acreage.
Sec. 107. Cotton user marketing certificates.
Sec. 108. Malting barley.
Sec. 109. Deficiency payments for wheat, barley, and oats.
Sec. 110. Minor oilseed loan rates.
Sec. 111. Sugar.
Sec. 112. Crop acreage base.
Sec. 113. Miscellaneous amendments to the Agricultural Act of 1949.
Sec. 114. Miscellaneous amendments relating to the Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 115. Miscellaneous amendments to the Agricultural Adjustment Act.
Sec. 116. Miscellaneous amendments to the Agricultural Adjustment Act of 1938.
Sec. 117. Section redesignation.
Sec. 118. Other miscellaneous commodity amendments.
Sec. 119. Sense of Congress regarding imported barley and oats.

Sec. 120. Cotton classing fees.
Sec. 121. Sense of Congress regarding targeted option payments.
Sec. 122. Transfer of peanut quota undermarketings.
Sec. 123. Cotton futures contracts.
Sec. 124. Lamb price and supply reporting services report and system.
Sec. 125. Cotton first handler marketing certificates.
Sec. 126. Production of black-eyed peas for donation.
Sec. 127. Milk price support program limited to 48 contiguous States.
Sec. 128. Modification of milk production termination program.
TITLE II—CONSERVATION
Sec. 201. Amendments to the Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 202. Amendment to the Soil Conservation and Domestic Allotment Act.
Sec. 203. Farms for the Future.
Sec. 204. Amendments to the Food Security Act of 1985.
TITLE III—AGRICULTURAL TRADE
Sec. 301. Superfluous punctuation in farmer to farmer provisions.
Sec. 302. Punctuation correction in Enterprise for the Americas Initiative.
Sec. 303. Spelling correction in section 604.
Sec. 304. Missing word in section 606.
Sec. 305. Punctuation error in section 607.
Sec. 306. Typographical correction in section 612.
Sec. 307. Erroneous quotation.
Sec. 308. Punctuation correction.
Sec. 309. Date correction.
Sec. 310. Missing subtitle heading correction.
Sec. 311. Redesignation of subsection.
Sec. 312. Date correction to section 404.
Sec. 313. Date correction to section 416.
Sec. 314. Redesignation of section.
Sec. 315. Cross reference correction.
Sec. 316. Placement clarification.
Sec. 317. Punctuation correction.
Sec. 318. Elimination of obsolete cross reference.
Sec. 319. Cross reference correction.
Sec. 320. Correcting clerical errors in section 204 of the Agricultural Trade Act of 1978.
Sec. 321. Capitalization correction.
Sec. 322. Correction of error in date.
Sec. 323. Correction of typographical error.
Sec. 324. Cross reference correction.
Sec. 325. Elimination of superfluous word.
Sec. 326. Cross reference correction.
Sec. 327. Amendment to section 602.
Sec. 328. Section 407 corrections.
Sec. 329. Section 407(b) amendment.
Sec. 330. Supplemental views in annual report.
Sec. 331. Consultations with Congress.
Sec. 332. Statute designation.
Sec. 333. Correction of placement and indentation of subparagraph.
Sec. 334. Export credit guarantee program.
Sec. 335. Technical amendments to the Food for Progress Program.
Sec. 336. Miscellaneous amendment to the Agricultural Trade Development and Assistance Act of 1954.
Sec. 337. Reporting requirements.
Sec. 338. Sharing United States agricultural expertise and information.
Sec. 339. Conforming amendment relating to the Environment for the Americas Board.
TITLE IV—RESEARCH
Sec. 401. Competitive, special, and facilities research grants.
Sec. 402. National Agricultural Research, Extension, and Teaching Policy Act of 1977.
Sec. 403. Rural development and small farm research and education.
Sec. 404. National Genetic Resources Program.
Sec. 405. Alternative agricultural research and commercialization.
Sec. 406. Deer tick research.
Sec. 407. Miscellaneous research provisions.
Sec. 408. Sustainable agriculture research and education.
TITLE V—CREDIT
Sec. 501. Amendments to the Consolidated Farm and Rural Development Act.
Sec. 502. Amendments to the Farm Credit Act of 1971.
Sec. 503. Federal Agricultural Mortgage Corporation.
TITLE VI—CROP INSURANCE AND DISASTER ASSISTANCE
Sec. 601. Federal crop insurance.
Sec. 602. Disaster relief.
TITLE VII—RURAL DEVELOPMENT
Sec. 701. Amendments to the Consolidated Farm and Rural Development Act.
Sec. 702. Amendments to the Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 703. Amendments to the Rural Electrification Act of 1936.
Sec. 704. Rural health leadership development.
TITLE VIII—AGRICULTURAL PROMOTION
Sec. 801. Short title.
Sec. 802. Pecans.
Sec. 803. Mushrooms.
Sec. 804. Potatoes.
Sec. 805. Limes.
Sec. 806. Soybeans.
Sec. 807. Honey.
Sec. 808. Cotton.
Sec. 809. Fluid milk.
Sec. 810. Wool.
TITLE IX—FOOD AND NUTRITION PROGRAMS
Subtitle A—Food Stamp Program
Sec. 901. Application of Food Stamp Act of 1977 to disabled persons.
Sec. 902. Categorical eligibility for recipients of general assistance.
Sec. 903. Exclusions from income.
Sec. 904. Resources that cannot be sold for a significant return.
Sec. 905. Resource exemption for households exempt under AFDC or SSI.
Sec. 906. Technical amendment on transitional housing.
Sec. 907. Performance standards for employment and training programs.
Sec. 908. Suspension of certain requirements, and study, of food stamp program on Indian reservations.
Sec. 909. Value of allotment.
Sec. 910. Prorating within a certification period.
Sec. 911. Recovery of claims caused by nonfraudulent household errors.
Sec. 912. Demonstration projects for vehicle exclusion limit.
Sec. 913. Definition of retail food store.
Subtitle B—Commodity Distribution
Sec. 921. Extension of elderly commodity processing demonstrations.
Sec. 922. Reduction of Federal paperwork for distribution of commodities.
Subtitle C—Indian Subsistence Farming Demonstration Grant
Sec. 931. Purposes.
Sec. 932. Definitions.
Sec. 933. Indian subsistence farming demonstration grant program.
Sec. 934. Training and technical assistance.
Sec. 935. Tribal consultation.
Sec. 936. Use of grants.
Sec. 937. Amount and term of grant.
Sec. 938. Other requirements.
Sec. 939. Authorization of appropriations.
Subtitle D—Technical Amendments
Sec. 941. Technical amendments to the Food Stamp Act of 1977.
Sec. 942. Amendment relating to the Hunger Prevention Act of 1988.
TITLE X—MISCELLANEOUS TECHNICAL CORRECTIONS
Sec. 1001. Organic certification.
Sec. 1002. Agricultural fellowships.
Sec. 1003. Outreach and assistance for socially disadvantaged farmers and ranchers.
Sec. 1004. Protection of pets.
Sec. 1005. Critical agricultural materials.
Sec. 1006. Amendments to FIFRA and related provisions.
Sec. 1007. Grain standards.
Sec. 1008. Packers and stockyards.
Sec. 1009. Redundant language in Warehouse Act.
Sec. 1010. Clarification of Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 1011. Perishable agricultural commodities.
Sec. 1012. Egg products inspection.
Sec. 1013. Prevention of introduction of brown tree snakes to Hawaii from Guam.
Sec. 1014. Grant to prevent and control potato diseases.
Sec. 1015. Collection of fees for inspection services.
Sec. 1016. Exemption and study of certain food products.
Sec. 1017. Fees for laboratory accreditation.
Sec. 1018. State and private forestry technical amendments.
TITLE XI—EFFECTIVE DATES
Sec. 1101. Effective dates.

TITLE I—AGRICULTURAL COMMODITY PROGRAMS

SEC. 101. REFERENCES.

Except as otherwise specifically provided, whenever in this title a section is amended, repealed, or referenced, such amendment, repeal, or reference shall be considered to be made to that section of the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.).

SEC. 102. CONSERVING USE ACRES.

(a) RICE.—Section 101B(c)(1)(E) (7 U.S.C. 1441-2(c)(1)(E)) is amended—

(1) by indenting 2 ems the left margin of clauses (i) and (ii) and redesignating such clauses as subclauses (I) and (II), respectively;

(2) by striking "(E) ALTERNATIVE CROPS.—The Secretary" and inserting the following:

"(E) ALTERNATIVE CROPS.—

"(i) INDUSTRIAL AND OTHER CROPS.—The Secretary";

(3) by indenting 2 ems the left margin of clause (i) (as amended by paragraph (2));

(4) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(5) by striking "rye, mung beans," and inserting "rye, millet, mung beans,";

(6) in subclause (I) (as redesignated by paragraph (1)), by striking "and will not affect farm income adversely"; and

(7) by adding at the end the following new clause:

"(ii) SESAME AND CRAMBE.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame and crambe. In implementing this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 205, the Secretary shall provide that, in order to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of sesame or crambe produced on the farm.".

(b) Cotton.—Section 103B(c)(1)(E) (7 U.S.C. 1444–2(c)(1)(E)) is amended—

(1) by indenting 2 ems the left margin of clauses (i) and (ii) and redesignating such clauses as subclauses (I) and (II), respectively;

(2) by striking "(E) Alternative crops.—The Secretary" and inserting the following:

"(E) Alternative crops.—

"(i) Industrial and other crops.—The Secretary";

(3) by indenting 2 ems the left margin of clause (i) (as amended by paragraph (2));

(4) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(5) by striking "rye, mung beans," and inserting "rye, millet, mung beans,";

(6) in subclause (I) (as redesignated by paragraph (1)), by striking "and will not affect farm income adversely"; and

(7) by adding at the end the following new clause:

"(ii) Sesame and crambe.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame and crambe. In implementing this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 205, the Secretary shall provide that, in order to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of sesame or crambe produced on the farm.".

(c) Feed Grains.—Section 105B(c)(1)(F) (7 U.S.C. 1444f(c)(1)(F)) is amended—

(1) in clause (i)—

(A) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(B) by striking "rye, mung beans," and inserting "rye, millet, mung beans,"; and

(C) in subclause (I), by striking "and will not affect farm income adversely"; and

(2) in clause (ii), by striking "mustard seed, and" and inserting "mustard seed, sesame, crambe, and".

(d) Wheat.—Section 107B(c)(1)(F) (7 U.S.C. 1445b–3a(c)(1)(F)) is amended—

(1) in clause (i)—

(A) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(B) by striking "rye, mung beans," and inserting "rye, millet, mung beans,"; and

(C) in subclause (I), by striking "and will not affect farm income adversely"; and

(2) in clause (ii), by striking "mustard seed, and" and inserting "mustard seed, sesame, crambe, and".

SEC. 103. DOUBLE CROPPING OF 0/92 ACRES.

(a) Feed Grains.—Section 105B(c)(1)(F) (7 U.S.C. 1444f(c)(1)(F)) is amended by adding at the end the following new clause:

"(iii) Double cropping.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 504(b)(1). The planting of soybeans as such subsequently planted crop shall be limited to farms determined by the Secretary to have an established history of double cropping soybeans during at least 3 of the preceding 5 years. In implementing this clause, the Secretary shall require producers to agree to forego eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.".

(b) Wheat.—Section 107B(c)(1)(F) (7 U.S.C. 1445b–3a(c)(1)(F)) is amended by adding at the end the following new clause:

"(iii) Double cropping.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 504(b)(1). The planting of soybeans as such subsequently planted crop shall be limited to farms determined by the Secretary to have an established history of double cropping soybeans during at least 3 of the preceding 5 years. In implementing this clause, the Secretary shall require producers to agree to forego eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.".

SEC. 104. ANNOUNCEMENT OF ACREAGE REDUCTION PROGRAMS FOR RICE.

Section 101B(e)(1) (7 U.S.C. 1441–2(e)(1)) is amended by striking subparagraph (C) and inserting the following new subparagraph:

"(C) Announcements.—

"(i) Preliminary announcement.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall make a preliminary announcement of any such program not later than December 1 of the calendar year preceding the year in which the crop is harvested (or, for the 1992 crop, as soon as practicable after the date of enactment of this subparagraph). The preliminary announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the rice crop acreage base described in paragraph (2)(A).

"(ii) Final announcement.—Not later than January 31 of the calendar year in which the crop is harvested, the Secretary shall make a final announcement of the program. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the rice crop described in paragraph (2)(A).".

SEC. 105. CORN AND SORGHUM BASES.

Section 105B(e)(2) (7 U.S.C. 1444f(c)(2)) is amended by adding at the end the following new subparagraph:

"(H) Corn and sorghum bases.—Notwithstanding any other provision of this Act, with respect to each of the 1992 through 1995 crops of corn and grain sorghums—

"(i) the Secretary shall combine the permitted acreages established under subparagraph (D) for a farm for a crop year for corn and grain sorghums;

"(ii) for each crop year, the sum of the acreage planted and considered planted to corn and grain sorghum, as determined by the Secretary under this section and title V, shall be prorated to corn and grain sorghum based on the ratio of the crop acreage base for the individual crop of corn or grain sorghum, as applicable, to the sum of the crop acreage bases for corn and grain sorghum established for each crop year; and

"(iii) for each crop year, the sum of the corn and grain sorghum payment acres, as determined under subsection (c), shall be prorated to corn and grain sorghum based on the ratio of the maximum payment acres for the individual crop of corn or grain sorghum, as applicable, to the sum of the maximum payment acres for corn and grain sorghum established for each crop year.".

SEC. 106. COVER CROPS ON REDUCED ACREAGE.

(a) Rice.—Clause (i) of section 101B(e)(4)(B) (7 U.S.C. 1441–2(e)(4)(B)(i)) is amended to read as follows:

"(i) Required.—

"(I) In general.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of rice under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of rice, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) Arid areas.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) Approval of cover crops and practices.—The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

(b) Cotton.—Clause (i) of section 103B(e)(4)(B) (7 U.S.C. 1444–2(e)(4)(B)(i)) is amended to read as follows:

"(i) Required.—

"(I) In general.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of upland cotton under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of upland cotton, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) Arid areas.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) APPROVAL OF COVER CROPS AND PRACTICES.—The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

(c) FEED GRAINS.—Clause (i) of section 105B(e)(4)(B) (7 U.S.C. 1444f(e)(4)(B)(i)) is amended to read as follows:

"(i) REQUIRED.—

"(I) IN GENERAL.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of feed grains under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of feed grains, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) ARID AREAS.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) APPROVAL OF COVER CROPS AND PRACTICES.—The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

(d) WHEAT.—Clause (i) of section 107B(e)(4)(B) (7 U.S.C. 1445b-3a(e)(4)(B)(i)) is amended to read as follows:

"(i) REQUIRED.—

"(I) IN GENERAL.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of wheat under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of wheat, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) ARID AREAS.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) APPROVAL OF COVER CROPS AND PRACTICES.—The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

SEC. 107. COTTON USER MARKETING CERTIFICATES.

(a) ISSUANCE.—Section 103B(a)(5)(E) (7 U.S.C. 1444-2(a)(5)(E)) is amended—

(1) by striking clause (i) and inserting the following new clause:

"(i) ISSUANCE.—Subject to clause (iv), during the period beginning August 1, 1991, and ending July 31, 1996, the Secretary shall issue marketing certificates or cash payments to domestic users and exporters for documented purchases by domestic users and sales for export by exporters made in the week following a consecutive 4-week period in which—

"(I) the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound; and

"(II) the prevailing world market price for upland cotton (adjusted to United States quality and location), established under subparagraph (C), does not exceed 130 percent of the current crop year loan level for the base quality of upland cotton, as determined by the Secretary.";

(2) in clause (ii), by striking "marketing certificates" and inserting "marketing certificates or cash payments"; and

(3) by adding at the end the following new clause:

"(iv) EXCEPTION.—The Secretary shall not issue marketing certificates or cash payments under clause (i) if, for the immediately preceding consecutive 10-week period, the Friday through Thursday average price quotation for the lowest priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificate issued under this subparagraph, exceeds the Northern Europe price by more than 1.25 cents per pound.".

(b) PREVAILING WORLD MARKET PRICE.—Section 103B(a)(5)(C)(ii) (7 U.S.C. 1444-2(a)(5)(C)(ii)) is amended by striking "and (B)" and inserting ", (B), and (E)".

SEC. 108. MALTING BARLEY.

Section 105B (7 U.S.C. 1444f) is amended—

(1) in subsection (e)(2)(G), by adding at the end the following new sentence: "The Secretary shall make an annual determination of whether to exempt such producers from compliance with any acreage limitation under this paragraph and shall announce such determination in the Federal Register."; and

(2) by striking subsection (p) and inserting the following new subsection:

"(p) MALTING BARLEY.—

"(1) ASSESSMENT REQUIRED.—In order to help offset costs associated with deficiency payments made available under this section to producers of barley, the Secretary shall provide for an assessment for each of the 1991 through 1995 crop years to be levied on any producer of malting barley produced on a farm that is enrolled for the crop year in the production adjustment program under this section. The Secretary shall establish such assessment at not more than 5 percent of the value of the malting barley produced on program payment acres on the farm during each of the 1991 through 1995 crop years. The production per acre on which the assessment is based shall not be greater than the farm program payment yield.

"(2) VALUE OF MALTING BARLEY.—The Secretary may establish the value of such malting barley at the lesser of the State or national weighted average market price received by producers of malting barley for the first 5 months of the marketing year. In calculating the State or national weighted average market price, the Secretary may exclude the value of malting barley that is contracted for sale by producers prior to planting.

"(3) EXCEPTION TO ASSESSMENT.—In counties where malting barley is produced, participating barley producers may certify to the Secretary prior to computation of final deficiency payments that part or all of the producer's production was (or will be) sold or used for nonmalting purposes. The portion certified as sold or used for nonmalting purposes shall not be subject to the assessment. The Secretary may require producers to provide to the Secretary such documentation as the Secretary considers appropriate to carry out this paragraph.".

SEC. 109. DEFICIENCY PAYMENTS FOR WHEAT, BARLEY, AND OATS.

Section 114(c) (7 U.S.C. 1445j(c)) is amended—

(1) in the material preceding the paragraphs, by striking "sections" and inserting "section";

(2) by redesignating paragraph (3) as paragraph (4); and

(3) by striking paragraph (2) and inserting the following new paragraphs:

"(2) With respect to feed grains (excluding barley and oats), 75 percent of the final projected deficiency payment for the crop, reduced by the amount of the advance, shall be made available as soon as practicable after the end of the first 5 months of the applicable marketing year.

"(3) With respect to wheat, barley, and oats, the final projected deficiency payment for the crop, reduced by the amount of the advance, shall be made available as soon as practicable after the end of the first 5 months of the applicable marketing year. Such projected payment shall be based on the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 10 cents per bushel with respect to wheat or 7 cents per bushel with respect to barley and oats.".

SEC. 110. MINOR OILSEED LOAN RATES.

Section 205(c) (7 U.S.C. 1446f(c)) is amended—

(1) in paragraph (2), by striking "flaxseed" and inserting "flaxseed, individually,";

(2) in paragraph (3), by striking "that, in the case of cottonseed, in no event less" and inserting "in no event shall the level for such oilseeds (other than cottonseed) be less"; and

(3) by adding after and below paragraph (3) the following new sentence:

"To ensure that producers have an equitable opportunity to produce an alternative crop in areas of limited crop options, the Secretary may limit, insofar as practicable, adjustments in the loan rate established under paragraph (2) applicable to a particular region, State, or county for the purpose of reflecting transportation differentials such that the regional, State, or county loan rate does not increase or decrease by more than 9 percent from the basic national loan rate.".

SEC. 111. SUGAR.

(a) Sugar Price Support and Marketing Assessments.—Section 206 (7 U.S.C. 1446g) is amended—

(1) in subsection (e), by striking "announce the loan rate" and inserting "announce the basic loan rates for beet sugar and cane sugar";

(2) in subsection (f), by striking "Loans" and inserting "Except as provided in subsection (g), loans";

(3) by striking subsection (g) and inserting the following new subsection:

"(g) Supplementary Nonrecourse Loans.—The Secretary shall make available to eligible processors price support loans with respect to sugar processed from sugar beets and sugarcane harvested in the last 3 months of a fiscal year. Such loans shall mature at the end of the fiscal year. The processor may repledge the sugar as collateral for a price support loan in the subsequent fiscal year, except that the second loan shall—

"(1) be made at the loan rate in effect at the time the second loan is made; and

"(2) mature in 9 months less the quantity of time that the first loan was in effect."; and

(4) in subsection (i)—

(A) by striking paragraphs (1), (2), and (3) and inserting the following new paragraphs:

"(1) Sugarcane.—Effective only for marketings of raw cane sugar during the 1992 through 1996 fiscal years, the first processor of sugarcane shall remit to the Commodity Credit Corporation a nonrefundable marketing assessment in an amount equal to .18 cents per pound of raw cane sugar, processed by the processor from domestically produced sugarcane or sugarcane molasses, that has been marketed (including the transfer or delivery of the sugar to a refinery for further processing or marketing).

"(2) Sugar beets.—Effective only for marketings of beet sugar during the 1992 through 1996 fiscal years, the first processor of sugar beets shall remit to the Commodity Credit Corporation a nonrefundable marketing assessment in an amount equal to .193 cents per pound of beet sugar, processed by the processor from domestically produced sugar beets or sugar beet molasses, that has been marketed.

"(3) Collection.—

"(A) Timing.—Marketing assessments required under this subsection shall be collected on a monthly basis and shall be remitted to the Commodity Credit Corporation within 30 days after the end of each month. Any cane sugar or beet sugar processed during a fiscal year that has not been marketed by September 30 of that year shall be subject to assessment on that date. The sugar shall not be subject to a second assessment at the time that it is marketed.

"(B) Manner.—Subject to subparagraph (A), marketing assessments shall be collected under this subsection in the manner prescribed by the Secretary and shall be nonrefundable."; and

(B) in paragraph (4), by striking "collect or remit the reduction" and inserting "remit the assessment".

(b) Security Interests.—Subsection (b) of section 405 (7 U.S.C. 1425) is amended to read as follows:

"(b) Sugarcane and Sugar Beets.—The security interests obtained by the Commodity Credit Corporation as a result of the execution of security agreements by the processors of sugarcane and sugar beets shall be superior to all statutory and common law liens on raw cane sugar and refined beet sugar in favor of the producers of sugarcane and sugar beets and all prior recorded and unrecorded liens on the crops of sugarcane and sugar beets from which the sugar was derived. The preceding sentence shall not affect the application of section 401(e)(2).".

(c) Sugar Information Reporting.—Section 359a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359aa) is amended—

(1) by striking subsection (a) and inserting the following new subsection:

"(a) Duty of Processors, Refiners and Manufacturers To Report.—

"(1) Processors and refiners.—All sugarcane processors, cane sugar refiners, and sugar beet processors shall furnish the Secretary, on a monthly basis, such information as the Secretary may require to administer sugar programs, including the quantity of purchases of sugarcane, sugar beets, and sugar, and production, importation, distribution, and stock levels of sugar.

"(2) Manufacturers of crystalline fructose.—All manufacturers of crystalline fructose from corn (hereafter in this part referred to as 'crystalline fructose') shall furnish the Secretary, on a monthly basis, such information as the Secretary may require with respect to the manufacturer's distribution of crystalline fructose.";

(2) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively;

(3) by inserting after subsection (a) the following new subsection:

"(b) Duty of Producers To Report.—The Secretary may require a producer of sugarcane or sugar beets to report, in the manner prescribed by the Secretary, the producer's sugarcane or sugar beet yields and acres planted to sugarcane or sugar beets, respectively."; and

(4) in subsection (d) (as redesignated by paragraph (2))—

(A) by striking "data on imports," and inserting "data on production, imports,"; and

(B) by inserting "composite data on distributions of" after "sugar and".

(d) Marketing Allotments for Sugar and Crystalline Fructose.—Section 359b of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359bb) is amended—

(1) by striking subsection (a) and inserting the following new subsection:

"(a) Sugar Estimates.—

"(1) In general.—Before the beginning of each of the fiscal years 1992 through 1996, the Secretary shall estimate—

"(A) the quantity of sugar that will be consumed in the United States during the fiscal year (other than sugar imported for the production of polyhydric alcohol or to be refined and reexported in refined form or in sugar containing products) and the quantity of sugar that would provide for reasonable carryover stocks;

"(B) the quantity of sugar that will be available from carry-in stocks or from domestically-produced sugarcane and sugar beets for consumption in the United States during the year; and

"(C) the quantity of sugar that will be imported for consumption in the United States during the year (other than sugar imported for the production of polyhydric alcohol or to be refined and reexported in a refined form or in sugar containing products), based on the difference between—

"(i) the sum of the quantity of estimated consumption and reasonable carryover stocks; and

"(ii) the quantity of sugar estimated to be available from domestically-produced sugarcane and sugar beets and from carry-in stocks.

"(2) Quarterly reestimates.—The Secretary shall make quarterly reestimates of sugar consumption, stocks, production, and imports for a fiscal year no later than the beginning of each of the second through fourth quarters of the fiscal year.";

(2) by striking subsection (b) and inserting the following new subsection:

"(b) Sugar Allotments.—

"(1) In general.—For any fiscal year in which the Secretary estimates, under subsection (a)(1)(C), that imports of sugar for consumption in the United States (other than sugar imported for the production of polyhydric alcohol or to be refined and reexported in refined form or in sugar containing products) will be less than 1,250,000 short tons, raw value, the Secretary shall establish for that year appropriate allotments under section 359c for the marketing by processors of sugar processed from domestically-produced sugarcane and sugar beets, at a level that the Secretary estimates will result in imports of sugar of not less than 1,250,000 short tons, raw value, for that year.

"(2) Products.—The Secretary may include sugar products, whose majority content is sucrose or crystalline fructose for human consumption, derived from sugarcane, sugar beets, molasses or sugar in the allotments under paragraph (1) if the Secretary determines it to be appropriate for purposes of this part."; and

(3) in subsection (d)(4), by inserting after "the United States" the following: "(including, with respect to any integrated processor and refiner, the movement of raw cane sugar into the refining process)".

(e) Establishment of Marketing Allotments.—Section 359c of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359cc) is amended—

(1) in subsection (b)(1)—

(A) by striking "from the estimated sugar consumption" and inserting "from the sum of the estimated sugar consumption and reasonable carryover stocks (at the end of the fiscal year)"; and

(B) in subparagraph (A), by striking "(representing minimum imports of sugar for consumption in the United States during the fiscal year)";

(2) in subsection (b)(2), by striking "prevent the accumulation of sugar acquired by" and inserting "avoid the forfeiture of sugar to";

(3) in subsection (f)—

(A) in the subsection heading, by striking "Sugarcane Allotment" and inserting "Cane Sugar Allotments"; and

(B) by striking "allotted among the 5 States in the United States in which sugarcane is produced" and inserting "allotted, among the 5 States in the United States in which sugarcane is produced,";

(4) in subsection (g)—

(A) by striking paragraph (1) and inserting the following new paragraph:

"(1) In general.—The Secretary shall, based on reestimates under section 359b(a)(2)—

"(A) adjust upward or downward marketing allotments established under subsections (a) through (f) in a fair and equitable manner;

"(B) establish marketing allotments for the fiscal year or any portion of such fiscal year; or

"(C) suspend the allotments,

as the Secretary determines appropriate, to reflect changes in estimated sugar consumption, stocks, production, or imports.".

(B) by striking paragraph (3) and inserting the following new paragraph:

"(3) Reductions.—Whenever a marketing allotment for a fiscal year is required to be reduced during the fiscal year under this subsection, if the quantity of sugar marketed, including sugar pledged as collateral for a price support loan under section 206 of the Agricultural Act of 1949 (7 U.S.C. 1446g), for the fiscal year at the time of the reduction by any individual processor covered by the allotment exceeds the processor's reduced allocation, the allocation of an allotment, if any, next established for the processor shall be reduced by the quantity of the excess sugar marketed."; and

(5) by striking subsection (h) and inserting the following new subsection:

"(h) Filling Cane Sugar and Beet Sugar Allotments.—Each marketing allotment for cane sugar established under this section may only be filled with sugar processed from domestically grown sugarcane, and each marketing allotment for beet sugar established under this section may only be filled with sugar processed from domestically grown sugar beets.".

(f) Allocation of Marketing Allotments.—Section 359d of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359dd) is amended—

(1) in subsection (a)(2) by striking "after such hearing" both places it appears and inserting "after a hearing, if requested by interested parties,"; and

(2) by striking subsection (b) and inserting the following new subsection:

"(b) Filling Cane Sugar Allotments.—Except as otherwise provided in section 359e, a State cane sugar allotment established under section 359c(f) for a fiscal year may be filled only with sugar processed from sugarcane grown in the State covered by the allotment.".

(g) Reassignments of Deficits.—Section 359e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ee) is amended to read as follows:

"SEC. 359e. REASSIGNMENT OF DEFICITS.

"(a) Estimates of Deficits.—At any time allotments are in effect under this part, the Secretary, from time to time, shall determine whether (in view of then-current inventories of sugar, the estimated production of sugar and expected marketings, and other pertinent factors) any processor of sugarcane will be unable to market the sugar covered by the portion of the State cane sugar allotment allocated to the processor and whether any processor of sugar beets will be unable to market sugar covered by the portion of the beet sugar allotment allocated to the processor.

"(b) Reassignment of Deficits.—

"(1) Cane sugar.—If the Secretary determines that any sugarcane processor who has been allocated a share of a State cane sugar allotment will be unable to market the processor's allocation of the State's allotment for the fiscal year—

"(A) the Secretary first shall reassign the estimated quantity of the deficit to the allocations for other processors within that State, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors;

"(B) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit proportionately to the allotments for other cane sugar States, depending on the capacity of each other State to fill the portion of the deficit to be assigned to it, with the reassigned quantity to each State to be allocated among processors in that State in proportion to the allocations of the processors; and

"(C) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(2) Beet sugar.—If the Secretary determines that a sugar beet processor who has been allocated a share of the beet sugar allotment will be unable to market that allocation—

"(A) the Secretary first shall reassign the estimated quantity of the deficit to the allotments for other sugar beet processors, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors; and

"(B) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(3) Corresponding increase.—The allocation of each processor receiving a reassigned quantity of an allotment under this subsection for a fiscal year shall be increased to reflect the reassignment.".

(h) Provisions Applicable to Producers.—Section 359f(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ff(b)) is amended—

(1) in paragraph (1)(A), by striking "250 producers in such State" and inserting "250 sugarcane producers in the State (other than Puerto Rico)";

(2) in paragraph (2), by striking "establish proportionate shares for the crop of sugarcane that is harvested during" and inserting "establish a proportionate share for each sugarcane-producing farm that limits the acreage of sugarcane that may be harvested on the farm for sugar or seed during"; and

(3) by striking paragraphs (3), (4), and (5) and inserting the following new paragraphs:

"(3) Method of determining.—For purposes of determining proportionate shares for any crop of sugarcane:

"(A) The Secretary shall establish the State's per-acre yield goal for a crop of sugarcane at a level (not less than the average per-acre yield in the State for the preceding 5 years, as determined by the Secretary) that will ensure an adequate net return per pound to producers in the State, taking into consideration any available production research data that the Secretary considers relevant.

"(B) The Secretary shall adjust the per-acre yield goal by the average recovery rate of sugar produced from sugarcane by processors in the State.

"(C) The Secretary shall convert the State allotment for the fiscal year involved into a State acreage allotment for the crop by dividing the State allotment by the per-acre yield goal for the State, as established under subparagraph (A) and as further adjusted under subparagraph (B).

"(D) The Secretary shall establish a uniform reduction percentage for the crop by dividing the State acreage allotment, as determined for the crop under subparagraph (C), by the sum of all adjusted acreage bases in the State, as determined by the Secretary.

"(E) The uniform reduction percentage for the crop, as determined under subparagraph (D), shall be applied to the acreage base for each sugarcane-producing farm in the State to determine the farm's proportionate share of sugarcane acreage that may be harvested for sugar or seed.

"(4) Acreage base.—For purposes of this subsection, the acreage base for each sugarcane-producing farm shall be determined by the Secretary, as follows:

"(A) The acreage base for any farm shall be the number of acres that is equal to the average of the acreage planted and considered planted for harvest for sugar or seed on the farm in each of the 5 crop years preceding the fiscal year the proportionate share will be in effect.

"(B) Acreage planted to sugarcane that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers may be considered as harvested for the production of sugar or seed for purposes of this paragraph.

"(5) Violation.—

"(A) In general.—Whenever proportionate shares are in effect in a State for a crop of sugarcane, producers on a farm shall not knowingly harvest, or allow to be harvested, for sugar or seed an acreage of sugarcane in excess of the farm's proportionate share for the fiscal year, or otherwise violate proportionate share regulations issued by the Secretary under section 359h(a).

"(B) Civil penalty.—Any producer who violates subparagraph (A) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of the quantity of sugar produced from that quantity of sugarcane involved in the violation. The quantity of sugarcane involved shall be determined based on the per-acre yield goal established under paragraph (3).".

(i) Special Rules.—Section 359g of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359gg) is amended—

(1) by striking subsections (a) and (b) and inserting the following new subsections:

"(a) Transfer of Acreage Base History.—For the purpose of establishing proportionate shares for sugarcane farms under section 359f, the Secretary, on application of any producer, with the written consent of all owners of a farm, may transfer the acreage base history of the farm to any other parcels of land of the applicant.

"(b) Preservation of Acreage Base History.—If for reasons beyond the control of a producer on a farm, the producer is unable to harvest an acreage of sugarcane for sugar or seed with respect to all or a portion of the proportionate share established for the farm under section 359f, the Secretary, on the application of the producer and with the written consent of all owners of the farm, may preserve for a period of not more than 3 consecutive years the acreage base history of the farm to the extent of the proportionate share involved. The Secretary may permit the proportionate share to be redistributed to other farms, but no acreage base history for purposes of establishing acreage bases shall accrue to the other farms by virtue of the redistribution of the proportionate share."; and

(2) in subsection (c)—

(A) by striking "hearing and"; and

(B) by inserting "required to be" after "proportionate share was".

(j) REGULATIONS.—Subsection (a) of section 359h of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359hh(a)) is amended to read as follows:

"(a) REGULATIONS.—The Secretary or the Commodity Credit Corporation, as appropriate, shall issue such regulations as may be necessary to carry out the authority vested in the Secretary in administering this part."; and

(k) APPEALS.—Paragraph (2) of section 359i(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ii(b)(2)) is amended to read as follows:

"(2) HEARING.—The Secretary shall provide each appellant an opportunity for a hearing before an administrative law judge in accordance with sections 554 and 556 of title 5, United States Code. The expenses for conducting the hearing shall be reimbursed by the Commodity Credit Corporation.".

SEC. 112. CROP ACREAGE BASE.

(a) ACREAGE CONSIDERED PLANTED.—Section 503(c) (7 U.S.C. 1463(c)) is amended—

(1) by redesignating paragraphs (6) and (7) as paragraphs (7) and (8) respectively; and

(2) by inserting after paragraph (5) the following new paragraph:

"(6) acreage in an amount not to exceed 20 percent of the crop acreage base for a crop of feed grains or wheat if—

"(A) the acreage is planted to dry peas, (limited to Austrian peas, wrinkled, seed, green, yellow, and umatilla) and lentils; and

"(B) payments are not received by producers under sections 105B(c)(1)(E) and 107B(c)(1)(E), as the case may be;".

(b) ADJUSTMENT OF BASES.—Section 503(h) (7 U.S.C. 1463(h)) is amended—

(1) by striking "BASES.—The county" and inserting the following: "BASES.—

"(1) IN GENERAL.—The county"; and

(2) by adding at the end the following new paragraph:

"(2) RESTORATION OF CROP ACREAGE BASE.—

"(A) IN GENERAL.—For the 1992 through 1995 crop years, the county committee shall allow an eligible producer to increase individual crop acreage bases on the farm, subject to subsection (a)(2), above the levels of base that would otherwise be established under this section, in order to restore the total of crop acreage bases on the farm for the 1992 through 1995 crop years to the same level as the total of crop acreage bases on the farm for the 1990 crop year.

"(B) ELIGIBLE PRODUCER DEFINED.—For the purposes of this paragraph, the term 'eligible producer' means a producer of upland cotton or rice who, the appropriate county committee determines—

"(i) was required to reduce one or more individual crop acreage bases on the farm during the 1991 crop year in order to comply with subsection (a)(2) and the change in the calculation of cotton and rice crop acreage bases to a 3-year formula as provided in this section; and

"(ii) has participated in the price support program during the 1991 crop year and each subsequent crop year through the current crop year.

"(C) REGULATIONS.—The Secretary shall issue regulations to carry out this paragraph.".

(c) PLANTING FLEXIBILITY.—Section 504(b)(1) (7 U.S.C. 1464(b)(1)) is amended—

(1) by striking "and" at the end of subparagraph (C);

(2) by striking the period at the end of subparagraph (D) and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(E) mung beans.".

SEC. 113. MISCELLANEOUS AMENDMENTS TO THE AGRICULTURAL ACT OF 1949.

The Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is further amended—

(1) in section 101B(c)(1)(B) (7 U.S.C. 1441–2(c)(1)(B)), by redesignating the second clause (ii) as clause (iii);

(2) in section 103B(a) (7 U.S.C. 1444–2(a))—

(A) in paragraph (1)(B), by striking "upland cotton," and inserting "upland cotton),"; and

(B) in paragraph (3), by striking "the date of enactment of this Act" and inserting "November 28, 1990";

(3) in section 103B(n)(1)(D) (7 U.S.C. 1444–2(n)(1)(D)), by striking "effective date of the proclamation" and inserting "date the special quota is established by the Secretary";

(4) in section 105B(c)(1)(B)(iii)(IV)(bb) (7 U.S.C. 1444f(c)(1)(B)(iii)(IV)(bb)) by striking "(bb) BARLEY CALCULATIONS.—" and inserting "(bb) BARLEY CALCULATIONS.—";

(5) in section 105B(g) (7 U.S.C. 1444f(g))—

(A) in paragraph (1), by striking "subsection (d)" and inserting "subsection (e)"; and

(B) in paragraph (6)(E), by striking "is" both places it appears and inserting "are";

(6) in section 107B(g)(1) (7 U.S.C. 1445b–3a(g)(1)), by striking "subsection (d)" and inserting "subsection (e)";

(7) in section 110 (7 U.S.C. 1445e)—

(A) in subsection (n), by striking "the date of enactment of this section" and inserting "November 28, 1990";

(B) by redesignating subsection (o) as subsection (p) and transferring such subsection to the end of the section; and

(C) in the second subsection (k)—

(i) by redesignating such subsection as subsection (o);

(ii) by striking "(o) In" and inserting "(o) REVIEW.—In"; and

(iii) by striking "subsection (e)(1)" and inserting "this section";

(8) in section 201 (7 U.S.C. 1446), by redesignating subsection (b) (as amended by section 1161(b)(3) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3521)) as subsection (c);

(9) in section 202 (7 U.S.C. 1446a)—

(A) by striking "Administrator of Veterans' Affairs" each place it appears and inserting "Secretary of Veterans Affairs"; and

(B) by striking "Administrator" each place it appears and inserting "Secretary of Veterans Affairs";

(10) in section 204(h)(3) (7 U.S.C. 1446e(h)(3)), by adding at the end the following new sentence: "A refund under this subsection shall not be considered as any type of price support or payment for purposes of sections 1211 and 1221 of the Food Security Act of 1985 (16 U.S.C. 3811 and 3821).";

(11) in section 406(b)(4) (7 U.S.C. 1426(b)(4)), by striking "the date of enactment of this subsection" and inserting "November 28, 1990,"; and

(12) in section 426 (7 U.S.C. 1433e)—

(A) in subsection (c)—

(i) by striking "division" in paragraphs (1) and (6) and inserting "Division"; and

(ii) by striking "subsection (e)" in paragraph (7) and inserting "subsection (f)";

(B) in subsection (f), by striking "county or State" and inserting "State or county";

(C) in subsection (g), by striking "County Committees" and inserting "county committees"; and

(D) in subsection (h), by striking "section 8(e)" and inserting "section 8(b)".

SEC. 114. MISCELLANEOUS AMENDMENTS RELATING TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

(a) IN GENERAL.—The Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3359) is amended—

(1) in section 1124 (7 U.S.C. 1445e note; 104 Stat. 3506), by striking "warehouse" both places it appears and inserting "warehousemen";

(2) in section 1156 (7 U.S.C. 1421 note), by striking subsection (b) and inserting the following new subsection:

"(b) FUNDS.—The Corporation shall expend such funds as may be required to conduct the pilot program for futures options contract trading in the manner specified in this subtitle and the regulations issued, and contracts entered into, to carry out this subtitle, except that funds of the Corporation may not be used to carry out this subtitle unless the Secretary, in the sole discretion of the Secretary, determines in advance that such funds shall be used for this purpose.";

(3) in section 1353 (7 U.S.C. 1622 note; 104 Stat. 3567), by striking "et seq" and inserting "et seq.";

(4) in section 2241 (7 U.S.C. 1421 note; 104 Stat. 3963)—

(A) in subsection (a)(4)(A), by inserting "extra long staple cotton," after "upland cotton," each place it appears;

(B) in subsection (b)(1), by inserting "extra long staple cotton," after "upland cotton,"; and

(C) in subsection (b)(4), by inserting "extra long staple cotton," after "upland cotton,";

(5) in section 2243(b)(2)(A) (7 U.S.C. 1421 note; 104 Stat. 3966), by striking "to harvest" and inserting "for harvest";

(6) in section 2249 (7 U.S.C. 1421 note; 104 Stat. 3972), by striking "chapter" and inserting "subchapter" each place it appears;

(7) in section 2250(b)(1) (7 U.S.C. 1421 note; 104 Stat. 3973), by striking "cotton" and inserting "upland cotton, extra long staple cotton";

(8) in section 2257 (7 U.S.C. 1421 note; 104 Stat. 3974), by striking "chapter" and inserting "subchapter" each place it appears;

(9) in section 2258 (7 U.S.C. 1421 note; 104 Stat. 3975), by striking "chapter" and inserting "subchapter";

(10) in section 2259 (7 U.S.C. 1421 note; 104 Stat. 3975), by striking "chapter" and inserting "subchapter";

(11) in section 2263 (7 U.S.C. 1421 note; 104 Stat. 3975), by striking "chapter" and inserting "subchapter" each place it appears;

(12) in section 2265 (7 U.S.C. 1421 note; 104 Stat. 3976), by striking "chapter" and inserting "subchapter";

(13) in section 2266(a) (7 U.S.C. 1421 note; 104 Stat. 3976), by striking "subchapter" and inserting "chapter";

(14) in section 2267 (7 U.S.C. 1421 note; 104 Stat. 3976)—

(A) in subsection (a), by striking "subchapter" and inserting "chapter" each place it appears; and

(B) in subsection (b), by striking "chapter 1" and inserting "this chapter";

(15) in section 2268(b) (7 U.S.C. 1421 note; 104 Stat. 3976), by striking "subchapter" and inserting "chapter"; and

(16) in section 2271 (7 U.S.C. 1421 note; 104 Stat. 3977), by striking "payment of" and inserting "payments or".

(b) Price Support for High Moisture Feed Grains.—

(1) In general.—Section 105B of the Agricultural Act of 1949 (7 U.S.C. 1444f) is amended—

(A) by redesignating subsection (q) as subsection (r); and

(B) by inserting after subsection (p) the following new subsection:

"(q) Price Support for High Moisture Feed Grains.—

"(1) Recourse loans.—Notwithstanding any other provision of law, effective for each of the 1991 through 1995 crops of feed grains, the Secretary (through the Commodity Credit Corporation) shall make available recourse loans, as determined by the Secretary, to producers on a farm who—

"(A) normally harvest all or a portion of their crop of feed grains in a high moisture state, hereinafter in this subsection defined as a feed grain having a moisture content in excess of Commodity Credit Corporation standards for loans made by the Secretary under paragraphs (1) and (6) of subsection (a);

"(B)(i) present certified scale tickets from an inspected, certified commercial scale, including licensed warehouses, feedlots, feed mills, distilleries, or other similar entities approved by the Secretary, pursuant to regulations issued by the Secretary; or

"(ii) present field or other physical measurements of the standing or stored feed grain crop in regions of the country, as determined by the Secretary, that do not have certified commercial scales from which certified scale tickets may be obtained within reasonable proximity of harvest operation;

"(C) certify that they were the owners of the feed grain at the time of delivery to, and that the quantity to be placed under loan was in fact harvested on the farm and delivered to, a feedlot, feed mill, or commercial or on-farm high-moisture storage facility, or to such facilities maintained by the users of such high-moisture feed grain;

"(D) comply with deadlines established by the Secretary for harvesting the feed grain and submit applications for loans within deadlines established by the Secretary; and

"(E) participate in an acreage limitation program for the crop of feed grains established by the Secretary.

"(2) Eligibility of acquired feed grains.—The loans shall be made on a quantity of feed grains of the same crop acquired by the producer equivalent to a quantity determined by multiplying—

"(A) the acreage of the feed grain in a high moisture state harvested on the producer's farm; by

"(B) the lower of the farm program payment yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such high moisture feed grain was obtained.".

(2) Conforming amendment.—Section 404 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1444f–1) is repealed.

SEC. 115. MISCELLANEOUS AMENDMENTS TO THE AGRICULTURAL ADJUSTMENT ACT.

The Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended—

(1) in section 8b(b)(2) (7 U.S.C. 608b(b)(2)), by striking "(7 U.S.C. 1445c–2)" and inserting "(7 U.S.C. 1445c–3)"; and

(2) in section 8c(5)(B)(ii) (7 U.S.C. 608c(5)(B)(ii)), is amended by striking "and," before clause (f) and inserting ", and".

SEC. 116. MISCELLANEOUS AMENDMENTS TO THE AGRICULTURAL ADJUSTMENT ACT OF 1938.

The Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) is amended—

(1) in section 319(l) (7 U.S.C. 1314e(l))—

(A) by inserting "in a State" after "one farm";

(B) by striking "of Tennessee"; and

(C) by adding at the end the following new sentence: "This subsection shall apply only to the States of Tennessee and Virginia.";

(2) in section 374(a) (7 U.S.C. 1374(a))—

(A) by inserting after "30 inch rows" the following: "(or, at the option of those cotton producers who had an established practice of using 32 inch rows before the 1991 crop, 32 inch rows)"; and

(B) by adding at the end the following new sentence: "For the 1992 through 1995 crops, the rules establishing the requirements for eligibility for conserving use for payment acres shall be the same rules as were in effect for 1991 crops."; and

(3) in section 379(a) (7 U.S.C. 1379(a))—

(A) by striking "or" at the end of paragraph (4);

(B) by striking the period at the end of paragraph (5) and inserting "; or";

(C) by striking "; or" at the end of paragraph (6) and inserting a period; and

(D) by redesignating paragraph (7) as subsection (c), moving such subsection to appear after subsection (b), and conforming the left margin of such subsection to subsection (b).

SEC. 117. SECTION REDESIGNATION.

(a) Section Redesignation.—Sections 359 and 359a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359 and 1359a) are redesignated as sections 358d and 358e, respectively.

(b) Conforming Amendments as Result of Redesignations.—

(1) Price support program.—The Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is amended—

(A) in section 108A(3)(A) (7 U.S.C. 1445c–2(3)(A)), by striking "section 359" each place it appears and inserting "section 358d"; and

(B) in section 108B(c)(1) (7 U.S.C. 1445c–3(c)(1)), by striking "sections 359 and 359a" each place it appears and inserting "sections 358d and 358e".

(2) Marketing quotas.—The Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) is amended—

(A) in section 358(v)(3) (7 U.S.C. 1358(v)(3)), by striking "section 359(c)" and inserting "section 358d(c)";

(B) in section 358–1(e)(3) (7 U.S.C. 1358–1(e)(3)), by striking "section 359(c)" and inserting "section 358d(c)";

(C) in section 358d (7 U.S.C. 1359), as redesignated by subsection (a)—

(i) by striking "section 359(a)" in subsection (b) and inserting "subsection (a)"; and

(ii) by striking "section 108B" each place it appears in subsections (m)(1)(C), (p)(1), and (r)(2)(A) and inserting "section 108A"; and

(D) in section 358e(b)(1) (7 U.S.C. 1359a(b)(1)), as redesignated by subsection (a), by striking "section 359(c)" and inserting "section 358d(c)".

SEC. 118. OTHER MISCELLANEOUS COMMODITY AMENDMENTS.

(a) Missing Language.—Section 5(i)(3) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) is amended by striking "(42 U.S.C. 1396d(5)))" and inserting "(42 U.S.C. 1396d(5))))".

(b) Missing Language.—Section 1001(2)(B)(iv) of the Food Security Act of 1985 (7 U.S.C. 1308(2)(B)(iv)) is amended by inserting "section" before "107B(c)(1)".

(c) Extra Language.—Section 1001A(a)(2) of the Food Security Act of 1985 (7 U.S.C. 1308–1(a)(2)) is amended by striking "0 to".

(d) Amendment to Food and Agriculture Act of 1962.—Section 326 of the Food and Agriculture Act of 1962 (7 U.S.C. 1339a) is amended by adding at the end the following sentences: "The authority provided in this section shall be in addition to any other authority provided to the Secretary under any other Act. This section shall be applicable to an action taken by a representative of the Secretary that occurs before, on, or after November 28, 1990. This section shall not apply to a pattern of conduct where authorized representatives of the Secretary take actions or provide advice with respect to producers that the representatives and producers know are inconsistent with applicable laws and regulations.".

(e) Amendment to the Food, Agriculture, Conservation, and Trade Act of 1990.—Section 102(b)(1)(B) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1446e–1(b)(1)(B)) is amended by striking "Commodity Credit Corporation" and inserting "Secretary".

(f) Clarification of Amendment.—Section 704 of the National Wool Act of 1954 (7 U.S.C. 1782) is amended by striking "SEC." and all that follows through "If payments" in the first sentence of subsection (a) and inserting the following:

"SEC. 704. PAYMENT AS MEANS OF PRICE SUPPORT.

"(a) Use of Payments.—If payments".

SEC. 119. SENSE OF CONGRESS REGARDING IMPORTED BARLEY AND OATS.

(a) Findings.—Congress finds that—

(1) significant quantities of barley and oats are currently being imported into the United States from Norway, Sweden, and Finland origins, and there is reason to believe that such imports will continue in the future;

(2) such imported barley and oats are being purchased at a price artificially established at a level significantly below that of domestically produced barley and oats due to unfair and predatory export subsidies and schemes employed by the exporting countries of origin; and

(3) it is likely that the continued importation of such quantities of subsidized barley and oats will significantly and adversely affect producers of domestic barley and oats and impair the operations of existing farm commodity programs for barley and oats in the United States.

(b) Sense of Congress.—Based on these findings, it is the sense of Congress that the Secretary of Agriculture and the President of the United States should immediately and aggressively employ all available options under existing laws, including those under section 22 of the Agricultural Adjustment Act (7 U.S.C. 624), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, in order to prevent material damage to the producers of domestic barley and oats and to prevent material interference with the programs established pursuant to section 105B of the Agricultural Act of 1949 (7 U.S.C. 1444f).

SEC. 120. COTTON CLASSING FEES.

(a) Extension of Authorization.—The first sentence of section 3a of the Cotton Statistics and Estimates Act (7 U.S.C. 473a) is amended to read as follows: "Effective for each of fiscal years 1992 through 1996, the Secretary of Agriculture shall make cotton classification services available to producers of cotton and shall provide for the collection of classification fees from participating producers, or agents who voluntarily agree to collect and remit the fees on behalf of producers.".

(b) FEES.—The first proviso in the second sentence of section 3a of such Act is amended—

(1) by striking clauses (1) and (2) and inserting the following new clauses: "(1) the uniform per bale classification fee to be collected from producers, or their agents, for the classification service in any year shall be the fee established in the previous year for the prevailing method of classification service, exclusive of adjustments to the fee made in the previous year under clauses (2), (3), and (4), and as may be adjusted by the percentage change in the implicit price deflator for the gross national product as indexed during the most recent 12-month period for which statistics are available; (2) the fee calculated in accordance with clause (1) for a crop year may be increased by an amount not to exceed 1 percent for every 100,000 running bales, or portion thereof, that the Secretary estimates will be classed by the United States Department of Agriculture in the crop year below the level of 12,500,000 running bales, or decreased by a quantity not to exceed 1 percent for every 100,000 running bales, or portion thereof, that the Secretary estimates will be classed by the United States Department of Agriculture in the crop year above the level of 12,500,000 running bales;"; and

(2) by striking clause (7) and inserting the following new clause: "(7) the Secretary shall announce the uniform classification fee and any surcharge for the crop not later than June 1 of the year in which the fee applies.".

(c) CLARIFICATION OF SERVICES.—The third sentence of section 3a of such Act is amended to read as follows: "Classification services, other than the prevailing method, provided at the request of the producer shall not be subject to the restrictions specified in clauses (1), (2), and (3) of the preceding sentence.".

(d) REPEAL OF STUDY ON PROCESSING CERTAIN COTTON GRADES.—Section 3 of the Uniform Cotton Classing Fees Act of 1987 (7 U.S.C. 473a note) is repealed.

(e) EFFECTIVE DATE.—Subsections (a), (b), and (c), and the amendments by subsections (a), (b), and (c), shall be effective for the period beginning on the date of enactment of this Act and ending on September 30, 1996.

SEC. 121. SENSE OF CONGRESS REGARDING TARGETED OPTION PAYMENTS.

(a) FINDINGS.—Congress finds that—

(1) thousands of agricultural producers are facing extremely difficult economic times and low commodity prices;

(2) the conditions on each farm are unique and require a unique plan to meet the income, conservation, and soil and weather conditions of the farm; and

(3) agricultural producers need the maximum possible flexibility to tailor the agricultural price support and production adjustment program to their farms' individual needs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Agriculture should offer targeted option payments for each of the 1992 through 1995 crops of wheat, feed grains, upland cotton, and rice as authorized by sections 107B(e)(3), 105B(e)(3), 103B(e)(3), and 101B(e)(3) of the Agricultural Act of 1949 (7 U.S.C. 1445b–3a(e)(3), 1444f(e)(3), 1444–2(e)(3), and 1441–2(e)(3)), respectively.

SEC. 122. TRANSFER OF PEANUT QUOTA UNDERMARKETINGS.

Section 358b(a) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358b(a)) is amended—

(1) in paragraph (1)—

(A) by inserting "(including any applicable undermarketings)" after "any part of the poundage quota"; and

(B) by inserting "(including any applicable undermarketings)" after "any such lease of poundage quota";

(2) in the first sentence of paragraph (2), by striking "for the farm" and inserting "(including any applicable undermarketings)"; and

(3) in paragraph (3), by inserting after "farm poundage quota" the following: "(including any applicable undermarketings)".

SEC. 123. COTTON FUTURES CONTRACTS.

Subsection (c)(1) of the United States Cotton Futures Act (7 U.S.C. 15b(c)(1)) is amended by inserting before the period at the end the following: ", except that any cotton futures contract that, by its terms, is settled in cash is excluded from the coverage of this paragraph and Act".

SEC. 124. LAMB PRICE AND SUPPLY REPORTING SERVICES REPORT AND SYSTEM.

(a) REPORT.—Not later than 90 days after the date of enactment of this Act, the Secretary of Agriculture shall submit a report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on measures that are necessary to improve the lamb price and supply reporting services of the Department of Agriculture, including recommendations to establish a complete information gathering system that reflects the market structure of the national lamb industry. In preparing the report, the Secretary shall examine measures to improve information on—

(1) price reporting series of wholesale, retail, box, carcass, pelt, offal, and live lamb sales in the United States, including markets in—

(A) California (including San Francisco);

(B) the East Coast region (including Washington, D.C.);

(C) the Midwest region (including Chicago, Illinois);

(D) Texas;

(E) the Rocky Mountain region; and

(F) Florida;

(2) sheep and lamb inventories, including on-feed reports;

(3) the price and supply relationships between retailers and breakers;

(4) the viability of voluntary or mandatory reporting for sheep prices; and

(5) information on the import and export of sheep, analyzed by cut, carcass, box, breeder stock, and sex.

(b) PRICE DISCOVERY AND REPORTING SYSTEM.—

(1) SYSTEM REQUIRED.—Based on the report required under subsection (a), the Secretary shall—

(A) develop a price discovery system formula for the lamb market, such as carcass equivalent pricing; and

(B) establish a price discovery and reporting system for the lamb market to assist lamb producers to better allocate their resources and make informed production and marketing decisions.

(2) IMPLEMENTATION.—The price discovery and reporting system for the lamb market shall be implemented by the Secretary not later than 180 days after the date of the submission of the report.

(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to develop and establish the system required under this subsection.

(c) CONSULTATION.—In preparing the report required under subsection (a) and establishing the price discovery and reporting system required under subsection (b), the Secretary shall consult with lamb producers and other persons in the national lamb industry.

SEC. 125. COTTON FIRST HANDLER MARKETING CERTIFICATES.

Section 103B(a)(5)(B) (7 U.S.C. 1444–2(a)(5)(B)) is amended—

(1) by inserting "or cash payments" after "marketing certificates" each place it appears in clauses (i) and (ii); and

(2) in clause (iii), by inserting "or cash payment" after "certificate".

SEC. 126. PRODUCTION OF BLACK-EYED PEAS FOR DONATION.

(a) 50/92 PROGRAM FOR COTTON.—Section 103B(c)(1)(D) (7 U.S.C. 1444–2(c)(1)(D)) is amended by adding at the end the following new clause:

"(ix) BLACK-EYED PEAS FOR DONATION.—The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, all or any part of the acreage required to be devoted to conservation uses as a condition for qualifying for payments under this subparagraph to be devoted to the production of black-eyed peas if—

"(I) the producer agrees to donate the harvested peas from the acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note)) that is approved by the Secretary; and

"(II) the Secretary finds that such action will not result in the disruption of normal channels of trade.".

(b) ACREAGE REDUCTION PROGRAM.—Section 103B(e)(2) of such Act (7 U.S.C. 1444–2(e)(2)) is amended by adding at the end the following new subparagraph:

"(G) BLACK-EYED PEAS FOR DONATION.—The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, producers on a farm to plant black-eyed peas on not more than one-half of the reduced acreage on the farm if—

"(i) the producer agrees to donate the harvested peas from such acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note)) that is approved by the Secretary; and

"(ii) the Secretary finds that such action will not result in the disruption of normal channels of trade.".

SEC. 127. MILK PRICE SUPPORT PROGRAM LIMITED TO 48 CONTIGUOUS STATES.

(a) IN GENERAL.—Section 204 (7 U.S.C. 1446e) is amended—

(1) in subsection (a), by inserting "produced in the 48 contiguous States" after "the price of milk";

(2) in subsection (c)(1), by inserting before the period the following: "produced in the 48 contiguous States";

(3) in subsection (d)(5)(B), by striking "United States" both places it appears and inserting "48 contiguous States and the District of Columbia"; and

(4) in subsections (g)(1) and (h)(1), by striking "United States" each place it appears and inserting "48 contiguous States".

(b) EFFECTIVE DATE.—This section and the amendments made by this section shall take effect as of January 1, 1991.

SEC. 128. MODIFICATION OF MILK PRODUCTION TERMINATION PROGRAM.

(a) CERTAIN TRANSFERS AUTHORIZED.—If the Secretary of Agriculture determines that a natural disaster renders unusable the land or milk production facilities of the producers on a farm, the Secretary shall allow the producers to transfer the production unit (including dairy animals and equipment) to a farm idled under the milk production termination program established under section 201(d)(3) of the Agricultural Act of 1949 (7 U.S.C. 1446(d)(3)), without penalty, if the producers on the farm agree to comply with all terms and conditions of the program contract for the remainder of the contract period.

(b) APPLICATION.—This section shall apply with respect to any natural disaster occurring during the period beginning on October 1, 1990, and ending on February 1, 1991.

TITLE II—CONSERVATION

SEC. 201. AMENDMENTS TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

(a) AMENDMENTS TO SECTION 1451.—Section 1451 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5822) is amended—

(1) in subsection (b)(1)(D), by striking "(e)" and inserting "(f)";

(2) in subsection (d), by inserting "each of" before "the calendar";

(3) in subsection (f)(5), by striking "assisting" and inserting "assist"; and

(4) in subsection (h)(7)(B)—

(A) in clause (i), by inserting before the period at the end of the first sentence the following: ", but only to the extent that such number exceeds the number of acres resulting from the reduction in payment acres under an amendment made by section 1101 of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508; 104 Stat. 1388-1)"; and

(B) in clause (ii), by striking "under" and all that follows through "Agricultural" and inserting "under section 101B(c)(1)(D), 103B(c)(1)(D), 105B(c)(1)(E), or 107B(c)(1)(E) of the Agricultural".

(b) AMENDMENTS TO SECTION 1466.—Section 1466 of such Act (7 U.S.C. 4201 note) is amended—

(1) in subsection (c), by striking "Funds" and inserting "funds"; and

(2) in each of subsections (e) and (f), by striking "section (b)" and inserting "subsection (b)".

(c) AMENDMENT TO SECTION 1468(a)(2).—Section 1468(a)(2) of such Act (7 U.S.C. 4201 note) is amended by striking "Funds" and inserting "funds".

(d) AMENDMENTS TO SECTION 1473(a).—Section 1473(a) of such Act (7 U.S.C. 5403(a)) is amended—

(1) in paragraph (1), by striking "subparagraph (B)" and inserting "paragraph (2)"; and

(2) in paragraph (2), by striking "subparagraph (A)" " and inserting "paragraph (1)".

(e) AMENDMENT TO SECTION 1483(c).—Section 1483(c) of such Act (7 U.S.C. 5503(c)) is amended by inserting "and" after "Animal".

(f) AMENDMENT TO SECTION 1485.—Section 1485 of such Act (7 U.S.C. 5505) is amended—

(1) in subsection (a), by striking "Administrator" both places it appears " and inserting "Director";

(2) in subsection (a)(3), by striking "Atmospheric Agency, the" " and inserting "Atmospheric Administration, the"; and

(3) in subsection (b)(3), by striking "subsection (a)" " and inserting "this subsection".

(g) AMENDMENTS TO SECTION 1499.—Section 1499 of such Act (7 U.S.C. 5506) is amended—

(1) in the 4th sentence of subsection (a)—

(A) by inserting "Agricultural" before "Environmental"; and

(B) by striking "1612" and inserting "1472";

(2) in subsection (b)—

(A) by striking "AFFECT" and inserting "EFFECT"; and

(B) by inserting "and section 1499A" after "subsection (a)"; and

(3) in subsection (c), by inserting "and" after "Animal".

(h) NEW SECTION.—

(1) EDUCATION PROGRAM.—Such Act is amended by inserting after section 1499 (7 U.S.C. 5506) the following new section:

"SEC. 1499A. EDUCATION PROGRAM REGARDING HANDLING OF AGRICULTURAL CHEMICALS AND AGRICULTURAL CHEMICAL CONTAINERS.

"Subject to the availability of funds appropriated in advance, the Secretary of Agriculture shall direct the Extension Service to operate a program in each State to catalogue the Federal, State, and local laws and regulations that govern the handling of unused or unwanted agricultural chemicals and agricultural chemical containers in the State. The program established under this section shall make available to producers of agricultural commodities and the general public, and provide on request, educational materials developed or collected by the program.".

(2) The table of contents in section 1(b) of such Act (104 Stat. 3363) is amended by inserting after the item relating to section 1499 the following new item:

"Sec. 1499A. Education program regarding handling of agricultural chemicals and agricultural chemical containers.".

SEC. 202. AMENDMENT TO THE SOIL CONSERVATION AND DOMESTIC ALLOTMENT ACT.

The 14th sentence of the 5th undesignated paragraph of section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) is amended by inserting ", except that, in the case of a person elected to be a national officer or State president of the National Association of Farmer Elected Committeemen, the limitation shall be four consecutive terms" before the period.

SEC. 203. FARMS FOR THE FUTURE.

(a) IN GENERAL.—Sections 1465 through 1469 of the Farms for the Future Act of 1990 (7 U.S.C. 4201 note) are amended to read as follows:

"SEC. 1465. SHORT TITLE, PURPOSE, AND DEFINITION.

"(a) SHORT TITLE.—This chapter may be cited as the 'Farms for the Future Act of 1990'.

"(b) PURPOSE.—It is the purpose of this chapter to promote a national farmland protection effort to preserve our vital farmland resources for future generations.

"(c) DEFINITIONS.—As used in this chapter:

"(1) ALLOWABLE INTEREST RATE.—The term 'allowable interest rate' refers to the interest rate that the State trust fund pays on each eligible loan (including the interest paid by the State trust fund, State, or State agency on bonds or other obligations described in paragraph (2)).

"(2) ELIGIBLE LOAN.—The term 'eligible loan' means each loan made by lending institutions to each State trust fund, or to the State acting in conjunction with the State trust fund, to further the purposes of this chapter, and the proceeds from any issuance of obligations, or other bonded indebtedness, of any eligible State, the State trust fund, or any agency of an eligible State, except that no eligible loan shall bear an interest rate in excess of 10 percent per year.

"(3) ELIGIBLE STATE.—The term 'eligible State' means—

"(A) the State of Vermont; and

"(B) at the option of the Secretary and subject to appropriations, any State that—

"(i) operates or administers a land preservation fund that invests funds in the protection or preservation of farmland for agricultural purposes; and

"(ii) works in coordination with the governing bodies of counties, towns, townships, villages, or other units of general government below the State level, or with private nonprofit or public organizations, to assist in the preservation of farmland for agricultural purposes.

"(4) LENDING INSTITUTION.—The term 'lending institution' means any Federal or State chartered bank, savings and loan association, cooperative lending agency, other legally organized lending agency, State government or agency, political subdivision of a State, or any nonprofit conservation organization.

"(5) PROGRAM.—The term 'program' means the farmland preservation program established under this chapter to be known as the 'Agricultural Resource Conservation Demonstration Program'.

"(6) SECRETARY.—The term 'Secretary' means the Secretary of Agriculture.

"(7) STATE.—The term 'State' means any State of the United States, the Commonwealth of Puerto Rico, and the Virgin Islands of the United States.

"(8) STATE TRUST FUND.—The term 'State trust fund' means any trust fund or an account established by an eligible State, or other public instrumentality of the eligible State, where such eligible State is approved to participate by the Secretary in the program under application procedures set forth in section 1466(j) or 1468.

"SEC. 1466. ESTABLISHMENT OF PROGRAM.

"(a) IN GENERAL.—

"(1) PURPOSE.—The Secretary shall establish and implement a program, to be known as the 'Agricultural Resource Conservation Demonstration Program', to provide Federal guarantees and interest assistance for eligible loans described in section 1465(c)(2) made to, or issued for the benefit of, State trust funds.

"(2) ASSISTANCE.—Under the program the Secretary shall guarantee for a period of 10 years the timely payment of the principal amount and interest due on each eligible loan described in section 1465(c)(2) made to, or issued for the benefit of, State trust funds and shall for each such 10-year period subsidize the interest on such eligible loans at the allowable interest rate for the first 5 years after the loan is made, or issued, and at no less than 3 percentage points for the second 5 years under procedures described in subsection (b).

"(b) MANDATORY ASSISTANCE TO EACH STATE TRUST FUND.—The Secretary shall—

"(1) fully guarantee with the full faith and credit of the United States each eligible loan described in section 1465(c)(2) made to, or issued for the benefit of, each State trust fund under procedures established by the Secretary;

"(2) annually pay to each State trust fund an amount calculated by applying the allowable interest rate to the amount of each loan described in section 1465(c)(2) made to, or issued for the benefit of, each State trust fund during each of the first 5 years after the date on which each such loan was made or issued; and

"(3) annually pay to each State trust fund, for each year during the second 5-year period after each such eligible loan is made to, or issued for the benefit of, the State trust fund, an amount calculated by applying the interest rate difference, between the rate of interest charged to borrowers of direct loans as described in section 316(a)(2) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1946(a)(2)) and the allowable interest rate, to the amount of each such loan made to, or issued for the benefit of, the State trust fund, as determined under procedures established by the Secretary.

"(c) FUNDING.—

"(1) ISSUANCE OF STOCK.—The Secretary of Agriculture shall make and issue stock, in the same manner as notes are issued under section 309(c) or 309A(d) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1929(c) or 1929a(d)), to the Secretary of the Treasury for the purpose of obtaining funds from the Secretary of the Treasury that are necessary for discharging the obligations of the Secretary of Agriculture under this chapter. The stock shall not pay dividends and shall not be redeemable.

"(2) PURCHASE OF STOCK.—The Secretary of the Treasury shall provide the funding necessary to implement this chapter. The Secretary of the Treasury shall purchase any stock of the Secretary of Agriculture issued to implement this chapter. The Secretary of the Treasury shall use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code. The purposes for which the securities may be issued under such chapter are extended to include the raising of funds to purchase stock issued by the Secretary of Agriculture to implement this chapter with respect to each eligible State. The Secretary of Agriculture shall make and issue such stock as is necessary to fund this chapter to the Secretary of Treasury who shall promptly purchase the stock (within 60 days) being offered by the Secretary of Agriculture.

"(3) COMMODITY CREDIT CORPORATION.—If the Secretary of Agriculture fails to issue stock as required under this chapter, or if funding is otherwise not provided as set forth in this chapter, for the eligible State described in section 1465(c)(3)(A), notwithstanding any other provision of law, the Secretary of Agriculture shall use the funds, services and facilities of the Commodity Credit Corporation to carry out the requirements of this chapter. The procedure described in paragraph (2) shall be used to reimburse the Corporation for funds expended to carry out this paragraph.

"(d) REQUIRED PURCHASES OF STOCK.—The Secretary shall promptly notify the Secretary of the Treasury, in writing, each time an application of an eligible State is approved by the Secretary under this chapter. The Secretary of the Treasury shall promptly purchase stock (within 60 days) offered by the Secretary under subsection (c) and the Secretary of Agriculture shall deposit the proceeds from each such sale of stock in accounts created to administer the program.

"(e) ENTITLEMENTS.—The Secretary is entitled to receive funds, and shall receive funds, from the Secretary of the Treasury in an amount equal to the total par-value of the stock issued to the Secretary of the Treasury. Each State trust fund is entitled to receive, and the Secretary of Agriculture shall promptly pay to each such trust fund, amounts calculated under procedures described in subsection (b).

"(f) REGULATIONS.—Except regarding the eligible State described in section 1465(c)(3)(A), the Secretary shall promulgate proposed and final regulations, under the prior public comment provisions of section 553 of title 5, United States Code, setting forth—

"(1) the application procedures for eligible States;

"(2) the factors to be used in approving applicants;

"(3) procedures for the prompt payment of the obligations of the Secretary under subsection (b);

"(4) recordkeeping requirements for approved State trust funds;

"(5) requirements to prevent program abuse and procedures to recover improperly obtained funds;

"(6) rules permitting State trust funds to act as revolving funds or to otherwise accumulate additional capital, based on investments, to be subsequently used to promote the purposes of this chapter; and

"(7) any other rules necessary and appropriate to carry out the program.

"(g) DURATION OF PROGRAM.—The program established under this chapter shall expire on September 30, 1996, except that any financial obligations of the Secretary shall continue to be met as required by this chapter.

"(h) ELIGIBLE USES FOR GUARANTEED LOAN FUNDS.—

"(1) IN GENERAL.—Funds from eligible loans (including proceeds from the sale of bonds or other obligations described in section 1465(c)(2)) guaranteed under this chapter, and any earnings of the State trust funds, may be used—

"(A) to purchase development rights, conservation easements or other types of easements, or to purchase agricultural land in fee simple or some lesser estate in land;

"(B) to pay all reasonable and customary costs including appraisal, survey and engineering fees, and legal expenses;

"(C) to pay the costs of enforcing easements or land use restrictions;

"(D) to cover the costs of complying with any regulations issued by the Secretary under this program and the costs of implementing the farmland plan of operation, except that the guaranteed loan proceeds shall not be used to pay overhead expenses of the State trust fund (rent, utilities, salaries, wages, insurance premiums, and the like); and

"(E) to generate earnings (including through investments not exceeding 10 years in duration for each eligible loan), to be used for future farmland preservation efforts, through investments in direct obligations of the United States or obligations guaranteed by the United States or an agency thereof or by depositing funds in any member bank of the Federal Reserve System or any Federally insured State nonmember bank.

"(2) COLLATERAL FOR LOANS.—To the extent consistent with relevant banking laws and practices, the investments or deposits described in paragraph (1)(E) may serve as collateral for loans made to, or on behalf of, the State trust fund.

"(i) STATE USE OF GUARANTEED LOAN FUNDS.—The Secretary may issue regulations or procedures requiring each State trust fund to report to the Secretary regarding the uses of the eligible loans (described in section 1465(c)(2)) guaranteed by the Secretary and the Secretary may monitor the uses of the funds to ensure that the loans are used for purposes related to this chapter. Neither the Secretary or the lending institution shall have the power to require approval of each specific use of the loans guaranteed by the Secretary, the specific terms of each use of the loan funds, or the specific provisions of each purchase or investment made with loans guaranteed by the Secretary. The Secretary may require that each State trust fund provide a State farmland preservation plan of operation to the Secretary setting forth the plans for administering the program in the State and may require each State trust fund to periodically report to the Secretary on the purchases of interests in farmland and on other specific uses of the funds.

"(j) SPECIAL RULES FOR THE PILOT PROJECT STATE.—Notwithstanding any other provisions of this chapter, the following special rules shall apply to the eligible State described in section 1465(c)(3)(A):

"(1) PROVISION OF LOAN GUARANTEE AND INTEREST ASSISTANCE AGREEMENT.—Within 30 days of the date any State trust fund in the eligible State receives a commitment for each eligible loan from a lending institution, the Secretary shall provide the lending institution with the loan guarantee and the interest assistance agreement so that the lending institution may disburse the full amount of the loan proceeds to the State trust fund on the date of loan closing to carry out this program. After the loan closing, the lending institution shall have no obligation to monitor or approve the use of loan proceeds by the State trust fund.

"(2) APPROVAL OF APPLICATION.—The Secretary shall annually approve the completed application from the eligible State within 30 days after receipt if the application sets forth the general goals and policies of the State trust fund. The Secretary shall provide the Federal assistance required under this chapter beginning on the date the application or plan is approved.

"(3) AMOUNT OF GUARANTEES.—The Secretary shall calculate the total amount of guarantees to be provided for fiscal year 1992 in an amount equal to double the sum of—

"(A) the amount that was made available in fiscal year 1991 to the State trust fund (the Vermont Conservation and Housing Board regardless of whether the fund had been approved by the Secretary in fiscal year 1991), by the State described in section 1465(c)(3)(A), political subdivisions thereof, charitable organizations, private persons, or any other entity, in addition to the proceeds from the sale of obligations of the State related to the purposes of the State trust fund and the fair market value of donations of interests in land to the State trust fund; and

"(B) the matching contribution calculated under section 1468(c) for fiscal year 1992 for the State.

"(k) MISCELLANEOUS PROVISIONS.—

"(1) OPERATION.—Each State trust fund may operate through nonprofit corporations, municipalities, or other political subdivisions of States in carrying out the purposes of the program established in this chapter.

"(2) EARNINGS.—Earnings on funds of each State trust fund may be used for any purposes related to carrying out the operations of the trust fund in a manner not inconsistent with the requirements of this chapter or the farmland preservation plan.

"SEC. 1467. FEDERAL ACCOUNTS AND COMPLIANCE.

"(a) ACCOUNTS.—To carry out the purposes of this chapter, the Secretary may establish in the Treasury of the United States an account, to be known as the 'Agricultural Resource Conservation Revolving Fund' (hereafter referred to in this chapter as the 'Fund'), for the use by the Secretary to meet the obligations of the Secretary under this chapter.

"(b) Compliance.—If the Secretary determines that any State trust fund is failing to comply, to a significant degree, with any requirements of this chapter, the Secretary shall report the failure to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate, shall fully investigate the matter, may decline to provide additional Federal guarantees or interest subsidies to the State trust fund, and shall take other steps as may be appropriate to prevent the use of Federal assistance in a manner not consistent with this chapter.

"SEC. 1468. APPLICATIONS AND ADMINISTRATION.

"(a) Applications.—In applying for assistance under this chapter an eligible State described in section 1465(c)(3)(B) shall—

"(1) prepare and submit, to the Secretary, an application at such time, in such manner, and containing such information as the Secretary shall require;

"(2) agree that the State trust fund will use any funds provided, or guaranteed, by the Secretary under this chapter in a manner that is consistent with the chapter and the regulations promulgated by the Secretary; and

"(3) agree to comply with any other requirements set forth in agreements with the Secretary or as the Secretary may prescribe by regulation.

"(b) Annual Applications.—Eligible States described in section 1465(c)(3)(B) may apply for Federal assistance under this chapter on an annual basis. The Secretary shall approve or disapprove each application for assistance, and notify the applicant of the action not later than 30 days after receipt of a complete application.

"(c) Match and Maximum Amount.—

"(1) In general.—The total amount of any guarantees provided by the Secretary under this program for each eligible State shall equal an amount that is equal to double the amount that is, or shall be, made available to the trust fund (including matching funds described in paragraphs (2) through (4)) in each such eligible State by the State, political subdivisions thereof, charitable organizations, private persons, or any other entity, for acquiring interests in land to protect and preserve important farmlands for future agricultural use but in no event shall the total Federal share exceed $10,000,000 in any fiscal year for any given State.

"(2) Earnings.—Earnings of the State trust fund and funds expended by the State or the State trust fund prior to loan closing for purposes consistent with this chapter, and in the same fiscal year, may be considered as matching funds.

"(3) Obligations.—Proceeds from the sale of tax-exempt general obligation bonds, or other obligations, of the State or State trust fund shall be an allowable source of matching funds under this chapter for the same fiscal year.

"(4) Land.—The fair market value of any donation of an interest in land to the State trust fund, or a charitable organization working with the State trust fund, may be considered as matching funds, for the same fiscal year, if—

"(i) the fair market value is based on an appraisal determined to be adequate by the State trust fund; and

"(ii) the donation is consistent with the State farmland preservation plan,

except that the value of land donated to charitable organizations by the State trust fund shall not be included as part of the match.

"(d) Clarification of Federal Law.—Sellers of land, or of interests in land, to any State trust fund are not, and shall not be considered by the Secretary as, recipients or beneficiaries of Federal assistance.

"SEC. 1469. REPORT.

"Not later than September 30, 1992, and annually thereafter, the Secretary of Agriculture shall prepare and submit, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, a report concerning the operation of the program established under this chapter.".

(b) Regulations.—Section 1470 of the Farms for the Future Act of 1990 (7 U.S.C. 4201 note) is amended—

(1) by striking "This" and inserting "(a) In General.—This"; and

(2) by adding at the end the following new subsection:

"(b) Regulations.—Not later than December 31, 1991, the Secretary of Agriculture shall publish in the Federal Register interim final regulations to implement this chapter. The regulations shall not require each State's program to give a priority to the acquisition of land, or interests in land, that is subject to significant urban pressure.".

(c) Reports; Stock Issuance.—Such Act is amended by adding at the end the following new sections:

"SEC. 1470A. COMPTROLLER GENERAL REPORTS.

"On February 15 of 1992, and on December 1 of each of the years 1992 through 1996, the Comptroller General of the United States shall report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, on whether the Secretary of Agriculture is complying with the requirements of this chapter. The report shall include information concerning loans guaranteed under this chapter and the steps the Secretary of Agriculture has taken to comply with this chapter.

"SEC. 1470B. SPECIAL RULES FOR ISSUANCE OF STOCK FOR 1992.

"The Secretary shall issue the stock required to be issued to the Secretary of Treasury under this chapter with respect to the eligible State described in section 1465(c)(3)(A), for fiscal year 1992, on or before December 20, 1991.".

SEC. 204. AMENDMENTS TO THE FOOD SECURITY ACT OF 1985.

Title XII of the Food Security Act of 1985 (16 U.S.C. 3801 et seq.) is amended—

(1) in section 1211 (16 U.S.C. 3811)—

(A) in paragraph (1)(D), by striking "(16 U.S.C. 1421 note)" and inserting "(7 U.S.C. 1421 note)";

(B) in paragraph (3)(D), by inserting "of subtitle D" after "chapter 2"; and

(C) in paragraph (3)(E), by inserting "of subtitle D" after "chapter 3";

(2) in section 1212 (16 U.S.C. 3812)—

(A) in subsection (f)(4)(A), by striking "such violations" and inserting "such violation"; and

(B) in subsection (g)(2), by striking "XIII," and inserting "XIII";

(3) in section 1221(1)(D) (16 U.S.C. 3821(1)(D)), by striking "(16 U.S.C. 1421 note)" and inserting "(7 U.S.C. 1421 note)";

(4) in section 1223 (16 U.S.C. 3823), by striking "and" at the end of paragraph (3);

(5) in section 1232(a) (16 U.S.C. 3832(a))—

(A) by striking the extra semicolon at the end of paragraph (6); and

(B) in paragraph (7)—

(i) by striking "fall and winter"; and

(ii) by striking "for an applicable reduction in rental payment" and inserting "and occurs during the 7-month period in which grazing of conserving use acreage is allowed in a State under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) or after the producer harvests the grain crop of the surrounding field for a reduction in rental payment commensurate with the limited economic value of such incidental grazing".

(6) in section 1237(d) (16 U.S.C. 3837(d)), by striking "subsection (d)" and inserting "subsection (c)";

(7) in section 1239(b)(1)(A) (16 U.S.C. 3839(b)(1)(A)), by striking "corridors," and inserting "corridors;"; and

(8) in section 1247(b) (16 U.S.C. 3847(b)), by striking "subsection 1234(b)" and inserting "section 1234(b)".

TITLE III—AGRICULTURAL TRADE

SEC. 301. SUPERFLUOUS PUNCTUATION IN FARMER TO FARMER PROVISIONS.

Section 501(a)(3) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1737(a)(3)) is amended by striking the comma after "public".

SEC. 302. PUNCTUATION CORRECTION IN ENTERPRISE FOR THE AMERICAS INITIATIVE.

Section 603(a)(3) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738b(a)(3)) is amended by inserting a hyphen between "Inter" and "American".

SEC. 303. SPELLING CORRECTION IN SECTION 604.

Section 604(a)(2) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738c(a)(2)) is amended by striking "AVALIABILITY" and inserting "AVAILABILITY".

SEC. 304. MISSING WORD IN SECTION 606.

Section 606(c) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738e(c)) is amended by inserting "accounts" after "Corporation".

SEC. 305. PUNCTUATION ERROR IN SECTION 607.

Section 607(a) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C 1738f(a)) is amended by striking the quotation mark before "Fund" and inserting it after "Fund" the last place it appears.

SEC. 306. TYPOGRAPHICAL CORRECTION IN SECTION 612.

Section 612(a)(1) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C 1738k(a)(1)) is amended by striking "462), and—" and inserting "2281 et seq.);".

SEC. 307. ERRONEOUS QUOTATION.

Section 1515(b) of the Food, Agriculture, Conservation, and Trade Act of 1990 is amended by striking "title I and" and inserting "titles I and".

SEC. 308. PUNCTUATION CORRECTION.

Section 103(d)(2) of the Agricultural Trade Act of 1978 (7 U.S.C. 5603(d)(2)) is amended by inserting a close parenthesis mark before the final period.

SEC. 309. DATE CORRECTION.

Section 203(g)(3) of the Agricultural Trade Act of 1978 (7 U.S.C. 5623(g)(3)) is amended by striking "the date of enactment of this Act" and inserting "November 28, 1990,".

SEC. 310. MISSING SUBTITLE HEADING CORRECTION.

Title II of the Agricultural Trade Act of 1978 is amended by inserting after the title heading the following:

"Subtitle A—Programs".

SEC. 311. REDESIGNATION OF SUBSECTION.

Section 301 of the Agricultural Trade Act of 1978 (7 U.S.C. 5651) is amended by redesignating subsection (g) as subsection (f).

SEC. 312. DATE CORRECTION TO SECTION 404.

Section 404 of the Agricultural Trade Act of 1978 (7 U.S.C. 5664) is amended by striking out "the date of enactment of this Act" and inserting "November 28, 1990".

SEC. 313. DATE CORRECTION TO SECTION 416.

Section 416(e) of the Agricultural Trade Act of 1978 (7 U.S.C. 5676(e)) is amended by striking out "the effective date of this section" and inserting "November 28, 1990".

SEC. 314. REDESIGNATION OF SECTION.

The Agricultural Trade Act of 1978 is amended by redesignating section 506 (7 U.S.C. 5695) as section 505.

SEC. 315. CROSS REFERENCE CORRECTION.

Section 601 of the Agricultural Trade Act of 1978 (7 U.S.C. 5711) is amended by striking "section 104" each place it appears and inserting "section 103".

SEC. 316. PLACEMENT CLARIFICATION.

Section 1532 of the Food, Agriculture, Conservation, and Trade Act of 1990 is amended by striking "thereof" and inserting "of title I".

"(c) Exceptions.—The reporting and recordkeeping requirements of this section shall not apply with respect to cigars, cigar tobaccos, pipe tobacco, chewing tobacco in retail packaging, and snuff in retail packaging. In order to qualify for the exception under this subsection, the tobacco must have a certification that its end use is for cigars, cigar tobacco, pipe tobacco, chewing tobacco in retail packaging, or snuff in retail packaging.".

SEC. 338. SHARING UNITED STATES AGRICULTURAL EXPERTISE AND INFORMATION.

Section 1542(d) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5622 note) is amended—

(1) by striking the subsection heading and inserting the following:

"(d) E (Kika) de la Garza Agricultural Fellowship Program.—The Secretary of Agriculture (hereafter in this section referred to as the 'Secretary') shall establish a program, to be known as the 'E (Kika) de la Garza Agricultural Fellowship Program', to develop agricultural markets in emerging democracies and to promote cooperation and exchange of information between agricultural institutions and agribusinesses in the United States and the Soviet Union, as follows:

"(1) Development of agricultural systems.—";

(2) in paragraph (1), by indenting 2 ems the left margin of subparagraphs (A) and (B) and redesignating such subparagraphs as clauses (i) and (ii), respectively;

(3) in paragraph (2), by indenting 2 ems the left margin of subparagraphs (A) and (B) and redesignating such subparagraphs as clauses (i) and (ii), respectively;

(4) by indenting 2 ems the left margin of paragraphs (1) through (9) and redesignating

such paragraphs as subparagraphs (A) through (I), respectively;

(5) by striking "subsection" each place it appears and inserting "paragraph";

(6) by striking "paragraph (1)" each place it appears and inserting "subparagraph (A)";

(7) by striking "paragraph (2)(A)" each place it appears and inserting "subparagraph (B)";

(8) by striking "paragraph (2)(B)" each place it appears and inserting "subparagraph (B)";

(9) in paragraph (1)(B) (as so redesignated)—

(A) by striking "and" at the end of clause (i);

(B) by striking the period at the end of clause (ii) and inserting "; and"; and

(C) by adding at the end the following new clause:

"(iii) by providing for necessary subsistence expenses in emerging democracies and necessary transportation expenses of United States agricultural producers and other individuals knowledgeable in agricultural and agribusiness matters to assist in transferring their knowledge and expertise to entities in emerging democracies.";

(10) in paragraph (1)(I) (as so redesignated), by striking "$5,000,000" and inserting "$10,000,000"; and

(11) by adding at the end the following new paragraph:

"(2) AGRICULTURAL INFORMATION PROGRAM.—

"(A) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program, administered to complement the emerging democracies export promotion program developed under this section, to initiate and develop collaboration between the United States Department of Agriculture, United States agribusinesses, and appropriate agricultural institutions in the Soviet Union in order to promote the exchange of information and resources that will make a long-term contribution to the establishment of a free market food production and distribution system in the Soviet Union and the enhancement of agricultural trade with the United States.

"(B) IMPLEMENTATION.—The Secretary shall draw on the Department of Agriculture's experience to design, implement, and evaluate, on a cost-sharing basis with cooperating agricultural institutions, a program to—

"(i) compile, through contacts with the Government of the Soviet Union and private sector officials in the Soviet Union, a list of their agricultural institutions, including the location, capabilities, and needs of the institutions;

"(ii) make such information available through an appropriate agency of the Department of Agriculture to agribusinesses and agricultural institutions in the United States and other agencies of the United States Government; and

"(iii) carry out a program—

"(I) to review available agricultural information resources, to determine which would be useful for the purposes of this program;

"(II) to arrange for the exchange of persons associated with such agricultural institutions and agribusinesses with experience or interest in the areas of need identified in clause (i); and

"(III) to help establish contacts between agricultural entrepreneurs and businesses in the United States and the Soviet Union, which may include individuals and entities participating in the program established under paragraph (1), to facilitate cooperation and joint enterprises.

"(C) CONSULTATION AND COORDINATION.—The Secretary shall consult and coordinate with the Secretary of State and the Agency for International Development in the formulation and implementation of this program in conjunction with overall assistance to the Soviet Union.

"(D) DEFINITION.—For the purposes of this subsection, the term 'Soviet Union' means the Soviet Union, its successor entities, or any of the individual republics of the Soviet Union.

"(E) AUTHORIZATION FOR APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out the program established under this paragraph.".

SEC. 339. CONFORMING AMENDMENT RELATING TO THE ENVIRONMENT FOR THE AMERICAS BOARD.

(7) in subsection (j) (as redesignated by section 1497(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3630)), by inserting "APPLICATION OF OTHER LAWS.—" after "(j)"; and

(8) by redesignating subsections (j), (k), and (l) (as inserted by section 1615(b) of such Act (104 Stat. 3731)) as subsections (k), (l), and (m), respectively.

SEC. 402. NATIONAL AGRICULTURAL RESEARCH, EXTENSION, AND TEACHING POLICY ACT OF 1977.

The National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101 et seq.) is amended—

(1) in section 1407(e) (7 U.S.C. 3122(e)) by striking the semicolon at the end of paragraph (7) and inserting a period;

(2) in section 1408 (7 U.S.C. 3123)—

(A) in subsection (e), by striking "government" and inserting "Government"; and

(B) in subsection (g)(1), by striking "Federally" and inserting "federally";

(3) in sections 1404(18) and 1408A(a) (7 U.S.C. 3103(18) and 3123a(a)), by inserting "and" after "Science";

(4) in section 1408A(c)(2)(H) (7 U.S.C. 3123a(c)(2)(H)), by striking "farmerworkers" and inserting "farmworkers";

(5) in section 1412 (7 U.S.C. 3127), by striking "and Advisory Board" in subsections (b) and (c) and inserting ", Advisory Board, and Technology Board";

(6) in section 1417(i) (7 U.S.C. 3152(c)), by striking the second sentence;

(7) in section 1419(b) (7 U.S.C. 3154(b)), by striking "subsection (c)" and inserting "subsection (d)";

(8) in section 1432 (7 U.S.C. 3194), by striking "SEC. 1432. (a)";

(9) in section 1446(d)(2) (7 U.S.C. 3222a(d)(2), by striking "the needs identified" and inserting "the purposes identified";

(10) in section 1446(e) (7 U.S.C. 3222a(e)), by striking "objective or" and inserting "objective of";

(11) in section 1458(a) (7 U.S.C. 3291(a)), by striking the period at the end of paragraph (3) and inserting a semicolon;

(12) in section 1463(a) (7 U.S.C. 3311), by striking "subtitle H and";

(13) in section 1473 (7 U.S.C. 3319), by striking "subsection (c)(2)" and inserting "subsection (c)(1)(B)"; and

(14) by repealing section 1473E (7 U.S.C. 3319e).

SEC. 403. RURAL DEVELOPMENT AND SMALL FARM RESEARCH AND EDUCATION.

(a) PROGRAMS AUTHORIZED.—Section 502 of the Rural Development Act of 1972 (7 U.S.C. 2662) is amended—

(1) in subsection (f)—

(A) by striking the subsection heading and inserting "COMPETITIVE GRANTS FOR FINANCIALLY STRESSED FARMERS, DISLOCATED FARMERS, AND RURAL FAMILIES.—"; and

(B) in paragraph (2), by striking "during the period beginning on the date of the enactment of this Act and ending on" and inserting "until"; and

(2) in the subsections following subsection (g)—

(A) by striking "(b) RURAL DEVELOPMENT EXTENSION" and inserting "(h) RURAL DEVELOPMENT EXTENSION";

(B) by striking "(h) RURAL HEALTH" and inserting "(i) RURAL HEALTH";

(C) by striking "(h) RESEARCH GRANTS.—" and inserting "(j) RESEARCH GRANTS.—"; and

(D) by arranging such subsections to appear in the proper order.

(b) Distribution of Funds.—Section 503(c)(1) of that Act (7 U.S.C. 2663(c)(1)) is amended—

(1) by striking "the provisions of section 502(e) of this title" and inserting "subsections (e) and (i) of section 502"; and

(2) by striking "objectives of section 502(e) of this title" and inserting "objectives of those subsections".

SEC. 404. NATIONAL GENETIC RESOURCES PROGRAM.

(a) In General.—Subtitle C of title XVI of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3744) is amended—

(1) in the subtitle heading, by striking "**Genetics**" and inserting "**Genetic**"; and

(2) in section 1633(a) (7 U.S.C. 5842(a)), by striking "Resources program" and inserting "Resources Program".

(b) Table of Contents.—The item relating to such subtitle in section 1(b) of such Act (104 Stat. 3365) is amended to read as follows:

"Subtitle C—National Genetic Resources Program".

SEC. 405. ALTERNATIVE AGRICULTURAL RESEARCH AND COMMERCIALIZATION.

(a) Punctuation Correction.—Section 1658(d) of the Alternative Agricultural Research and Commercialization Act of 1990 (7 U.S.C. 5902(d)) is amended—

(1) by striking the period at the end of paragraph (2) and inserting "; and"; and

(2) by striking "; and" at the end of paragraph (3) and inserting a period.

(b) Establishment of Regional Centers.—Section 1663(a)(2) of such Act (7 U.S.C. 5907(a)(2)) is amended by striking "A Regional Center may not be established or operated" and inserting "No Regional Centers may be established".

SEC. 406. DEER TICK RESEARCH.

Section 1672 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5925) is amended—

(1) in subsection (i), by striking "Agricultural Research Service" and inserting "Secretary of Agriculture, acting through the Cooperative State Research Service, to make competitive grants"; and

(2) in subsection (k)(1), by striking "Except for research funded under subsection (i), research" and inserting "Research".

SEC. 407. MISCELLANEOUS RESEARCH PROVISIONS.

Title XVI of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3703) is amended—

(1) in section 1604(a) (Public Law 101–624; 104 Stat. 3706), by striking "(7 U.S.C. 3122(a))" and inserting "(7 U.S.C. 3122)".

(2) in section 1619(b)(8) (7 U.S.C. 5801(b)(8)), by striking "Marianas Islands" and inserting "Mariana Islands";

(3) in section 1628(c) (7 U.S.C. 5831(c)), by striking "education" and inserting "educational";

(4) in section 1629(c)(1) (7 U.S.C. 5832(c)(1)), by striking "insure" and inserting "ensure";

(5) in section 1634(l) (7 U.S.C. 5843(l)), by striking "committee established" and inserting "council established";

(6) in section 1638(b)(5) (7 U.S.C. 5852(b)(5)), by striking "National Sciences Foundation" and inserting "National Science Foundation";

(7) in section 1639(a) (7 U.S.C. 5853(a)), by striking "Act" and inserting "subtitle";

(8) in section 1652(b)(1) (7 U.S.C. 5883(b)(1)), by striking "pheremones" and inserting "pheromones";

(9) in section 1668(g)(2) (7 U.S.C. 5921(g)(2)), by striking "Witholdings" and inserting "Withholdings";

(10) in section 1670(d) (7 U.S.C. 5923(d)), by striking "acquaculture" and inserting "aquaculture";

(11) in section 1672(c) (7 U.S.C. 5925(c)), by redesignating paragraphs (A) through (I) as paragraphs (1) through (9), respectively;

(12) in section 1673(f) (7 U.S.C. 5926(f)), by striking "programs or" and inserting "programs of";

(13) in section 1674 (7 U.S.C. 5927)—

(A) in subsection (d)(3)(A), by striking "Schedules" and inserting "Schedule"; and

(B) in subsection (f), by striking "Committee" both places it appears and inserting "Committees";

(14) in section 1675(c) (7 U.S.C. 5928(c))—

(A) by striking paragraph (1) and inserting the following new paragraph:

"(1) Establishment.—Notwithstanding subsection (g)(1), the Secretary shall establish not more than four centers."; and

(B) in paragraph (2), by striking "Periods and preferences.—Grants" and inserting the following: "Operating grants.—The Secretary shall make grants to operate the centers established under paragraph (1). Such grants shall be competitively awarded based on merit and relevance in reference to meeting the purposes specified in subsection (a). Such grants";

(15) in section 1677 (7 U.S.C. 5930)—

(A) by striking "Reservation" each place it appears in subsections (a), (b), and (e) and inserting "reservation";

(B) by striking "Reservations" both places it appears in subsection (a) and inserting "reservations"; and

(C) by striking "Tribal" in subsection (c) and inserting "tribal";

(16) in section 1678(d) (7 U.S.C. 5931(d)), by striking "Teaching, and Extension" and inserting "Extension, and Teaching"; and

(17) in section 1681(a)(2), (7 U.S.C. 5934(a)(2)), by striking "teacheal mite" and inserting "tracheal mite".

SEC. 408. SUSTAINABLE AGRICULTURE RESEARCH AND EDUCATION.

Section 1624 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5814) is amended by striking "and 1623" and inserting "and 1622".

TITLE V—CREDIT

SEC. 501. AMENDMENTS TO THE CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT.

(a) Amendments to Section 304.—Section 304 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1924) is amended—

(1) by striking subsection (a); and

(2) by redesignating subsection (d) as subsection (a) and moving such subsection to appear before subsection (b).

(b) Amendment to Section 312(a).—Section 312(a) of such Act (7 U.S.C. 1942(a)) is amended by striking "systems." and all that follows and inserting "systems (for purposes of this subtitle, the term 'solar energy' means energy derived from sources (other than fossil fuels) and technologies included in the Federal Nonnuclear Energy Research and Development Act of 1974) (42 U.S.C. 5901 et seq.), (12) training in maintaining records of farming and ranching operations for limited resource borrowers receiving loans under section 310D, and (13) borrower training under section 359.".

(c) Amendments to Section 331.—

(1) Direct amendments.—Section 331(b)(4) of such Act (7 U.S.C. 1981(b)(4)) is amended—

(A) by striking "this title"; and

(B) by striking "1949 from" and inserting "1949, from".

(2) Indirect amendments.—

(A) Clarification of repeal.—Section 1805 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3819) is amended by striking subsections (b) and (c) and inserting the following:

"(b) Payment of Accrued Interest.—Section 331 (7 U.S.C. 1981) is amended by striking subsection (h) and redesignating subsections (i) and (j) as subsections (h) and (i), respectively.".

(B) Clarification of technical corrections.—Section 2388(d)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 4052) is amended—

(i) by inserting ", as amended by section 1805(b) of this Act," before "is amended";

(ii) in clause (i) of subparagraph (A), by striking "(h), and (i)" and inserting "and (h)";

(iii) by striking clause (iv) and redesignating clauses (v), (vi), and (vii) of subparagraph (A) as clauses (iv), (v), and (vi), respectively;

(iv) in clause (iv) of subparagraph (A) (as so redesignated by clause (iii) of this subparagraph), by striking "(i)" and inserting "(h)"; and

(v) in clause (vi) of subparagraph (A) (as so redesignated by clause (iii) of this subparagraph)—

(I) by striking "(j)" and inserting "(i)"; and

(II) by striking "(10)" and inserting "(9)".

(d) Amendments to Section 331E.—

(1) In general.—Section 331E of such Act (7 U.S.C. 1981e) is amended—

(A) by striking "The" and inserting "(a) In General.—The"; and

(B) by adding at the end the following new subsection:

"(b) Calculation of Yields.—

"(1) In general.—For purposes of averaging past yields of the farm of a borrower or applicant over a period of crop years to calculate future yields for the farm under this title (except for loans under subtitle C), the Secretary shall permit the borrower or applicant to exclude the crop year with the lowest actual or county average yield for the farm from the calculation, if the borrower or applicant was affected by a disaster during at least 2 of the crop years during the period.

"(2) Affected by a disaster.—For purposes of paragraph (1), a borrower or applicant was affected by a disaster if the Secretary finds that the borrower or applicant's farming operations have been substantially affected by a natural disaster in the United States or by a major disaster or emergency designated by the President under the Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), including a borrower or applicant who has a qualifying loss but is not located in a designated or declared disaster area.

"(3) Application of subsection.—Paragraph (1) shall apply to all actions taken by the Secretary to carry out this title (except for loans under subtitle C) that involve the yields of a farm of a borrower or applicant, including making loans and loan guarantees, servicing loans, and making credit sales.".

(2) Regulations.—

(A) Interim regulations.—Notwithstanding section 553 of title 5, United States Code, as soon as practicable after the date of enactment of this Act and without a requirement for prior public notice and comment, the Secretary of Agriculture shall issue interim regulations that provide for the implementation of the amendment made by paragraph (1) beginning in crop year 1992.

(B) Final regulations.—The Secretary of Agriculture shall provide for public notice and comment before the issuance of final regulations to implement the amendment made by paragraph (1).

(3) Effective Date.—

(A) In general.—Except as provided in subparagraph (B), the amendment made by paragraph (1) shall become effective on the date of publication of the interim regulations issued pursuant to paragraph (2)(A).

(B) Exception.—The amendment made by paragraph (1) shall apply to each primary loan servicing application submitted on or after the date of enactment of this Act.

(e) Amendments to Section 333(2)(A).—Section 333(2)(A) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1983(2)(A)) is amended by redesignating clauses (1), (2), and (3), as clauses (i), (ii), and (iii), respectively.

(f) Amendments to Section 335(e)(1).—Section 335(e)(1) of such Act (7 U.S.C. 1985(e)(1)) is amended—

(1) in subparagraph (A)(i), by striking "the borrower" and all that follows through "the 'borrower-owner')" and inserting "borrower-owner (as defined in subparagraph (F)"; and

(2) by adding at the end the following new subparagraph:

"(F) As used in this paragraph, the term 'borrower-owner' means—

"(i) a borrower from whom the Secretary acquired real farm or ranch property (including the principal residence of the borrower) used to secure any loan made to the borrower under this title; or

"(ii) in any case in which an owner of property pledged the property to secure the loan and the owner is different than the borrower, the owner.".

(g) Amendments to Section 352.—Section 352 of such Act (7 U.S.C. 2000) is amended—

(1) in subsection (a)—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2) The term 'borrower-owner' means—

"(A) a borrower of a loan made or insured by the Secretary or the Administrator who meets the eligibility requirements of subsection (c)(1); or

"(B) in any case in which an owner of homestead property pledged the property to secure the loan and the owner is different than the borrower, the owner.".

(2) by striking "borrower" each place it appears and inserting "borrower-owner".

(h) Amendments to Section 353.—Section 353 of such Act (7 U.S.C. 2001) is amended—

(1) in subsection (c)(6)(A)(ii), by striking "the date of enactment of this paragraph" and inserting "November 28, 1990"; and

(2) in subsection (m), by striking "335(e)(1)(A)" and inserting "335(e)(1)".

(i) Amendments to Section 363.—Section 363 of such Act (7 U.S.C. 2006e) is amended—

(1) by striking "3801(a)(16))" and inserting "3801(a)(16)))"; and

(2) by striking "prior to the date of enactment of this section" and inserting "before November 28, 1990".

SEC. 502. AMENDMENTS TO THE FARM CREDIT ACT OF 1971.

(a) Amendments to Section 1.11(a).—Section 1.11(a) of the Farm Credit Act of 1971 (12 U.S.C. 2019(a)) is amended—

(1) by striking "(a) Agricultural or Aquatic Purposes" and inserting the following:

"(a) Agricultural or Aquatic Purposes";

(2) by striking "(1) In general" and inserting the following:

"(1) In general"; and

(3) by striking "(2) Limitation on loans for basic processing and marketing operations" and inserting the following:

"(2) Limitation on loans for basic processing and marketing operations".

(b) Amendment to Section 2.0(b)(8).—Section 2.0(b)(8) of such Act (12 U.S.C. 2071(b)(8)) is amended by striking "charter to" and inserting "charter, to".

(c) Amendment to Section 2.1.—Section 2.1 of such Act (12 U.S.C. 2072) is amended by striking "or stockholder" and inserting "stockholder, or agent".

(d) Amendment to Section 2.11.—Section 2.11 of such Act (12 U.S.C. 2092) is amended by striking "or stockholder" and inserting "stockholder, or agent".

(e) Amendment to Section 3.7(b).—

(1) In general.—Section 3.7(b) of such Act (12 U.S.C. 2128(b)) is amended—

(A) by inserting "(1)" after the subsection designation;

(B) by striking "(1) a domestic" and inserting "(A) a domestic";

(C) by inserting "or products thereof" after "commodities";

(D) by striking "(2) a domestic" and inserting "(B) a domestic"

(E) by striking "clause (1) of this subsection" and inserting "subparagraph (A)"; and

(F) by adding at the end the following new paragraphs:

"(2) A bank for cooperatives is authorized to make or participate in loans and commitments, and to extend other technical and financial assistance, to any domestic or foreign entity that is eligible for a guarantee or insurance as described in subparagraphs (A) and (B) with respect to transactions involving the Soviet Union (its successor entities or any of the individual republics of the Soviet Union) or an emerging democracy (as defined in section 1542(f) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5622 note)) for the export of agricultural commodities and products thereof from the United States, including (where applicable) the cost of freight, if in each case—

"(A) the loan involved is unconditionally guaranteed or insured by a department, agency, bureau, board, commission, or establishment of the United States or any corporation wholly owned directly or indirectly by the United States; and

"(B) the guarantee or insurance—

"(i) covers at least 95 percent of the amount loaned for the purchase of the commodities or products; and

"(ii) is issued on or before September 30, 1995.

"(3) A bank for cooperatives is authorized to provide such services as may be customary and normal in maintaining relationships with domestic or foreign entities to facilitate the activities specified in paragraphs (1) and (2), consistent with this Act.".

(2) Conforming amendment.—Section 3.8(b)(1)(D) of such Act (12 U.S.C. 2129(b)(1)(D)) is amended by striking "section 3.7(f)" and inserting "subsection (b) or (f) of section 3.7".

(f) Amendments to Section 3.8.—Section 3.8 of such Act (12 U.S.C. 2129) is amended—

(1) in subsection (a)(4), by striking "(4) A" and inserting "(4) a"; and

(2) in subsection (b)(1), by moving subparagraph (D) 2 ems to the right so that the left margin of such subparagraph is aligned with the left margin of subparagraph (C).".

(g) Amendment to Section 4.28.—Section 4.28 of such Act (12 U.S.C. 2214) is amended by striking "2.17" and inserting "2.16".

(h) Amendment to Section 5.17(a)(8)(B)(ii).—Section 5.17(a)(8)(B)(ii) of such Act (12 U.S.C. 2252(a)(8)(B)(ii)) is amended by striking the last period.

(i) Amendment to Section 5.35(3).—Section 5.35(3) of such Act (12 U.S.C. 2271(3)) is amended by striking "D" and inserting "E".

(j) Amendment to Section 5.58(4)(B).—Section 5.58(4)(B) of such Act (12 U.S.C. 2277a-7(4)(B)) is amended by inserting after "and the Corporation," the following: "in any capacity,".

(k) Amendments to Section 5.65.—Section 5.65(d)(1) of such Act (12 U.S.C. 2277a-14(d)(1)) is amended by striking "insured".

(l) Amendments to Section 6.2(d).—Section 6.2(d) of such Act (12 U.S.C. 2278a-2(d)) is amended by striking "subchapter 1" each place such term appears and inserting "subchapter I".

(m) Amendments to Section 6.23.—Section 6.23 of such Act (12 U.S.C. 2278b-3) is amended by inserting before the period at the end the following: ", except in the event of a restructuring or liquidation to a successor System institution".

(n) Amendment to Section 7.11(a)(2).—Section 7.11(a)(2) of such Act (12 U.S.C. 2279e(a)(2)) is amended by striking "30 days" and inserting "60 days".

SEC. 503. FEDERAL AGRICULTURAL MORTGAGE CORPORATION.

(a) Section 8.11 of the Farm Credit Act of 1971 (12 U.S.C. 2279aa-11) is amended—

(1) by amending paragraph (1) of subsection (a) to read as follows:

"(1) Authority.—Notwithstanding any other provision of this Act, the Farm Credit Administration shall have the authority to provide, acting through the Office of Secondary Market Oversight—

"(A) for the examination of the Corporation and its affiliates; and

"(B) for the general supervision of the safe and sound performance of the powers, functions, and duties vested in the Corporation and its affiliates by this title, including through the use of the authorities granted to the Farm Credit Administration under—

"(i) part C of title V; and

"(ii) beginning 6 months after the date of enactment of this section, section 5.17(a)(9).";

(2) by adding at the end of subsection (a) the following new paragraph:

"(3) Office of Secondary Market Oversight.—

"(A) Not later than 180 days after the date of enactment of this paragraph, the Farm Credit Administration Board shall establish within the Farm Credit Administration the Office of Secondary Market Oversight.

"(B) The Farm Credit Administration Board shall carry out the authority set forth in this section through the Office of Secondary Market Supervision.

"(C) The Office of Secondary Market Supervision shall be managed by a full-time Director who shall be selected by and report to the Farm Credit Administration Board.";

(3) by adding at the end thereof the following new subsection:

"(f) The Farm Credit Administration Board shall ensure that—

"(1) the Office of Secondary Market Supervision has access to a sufficient number of qualified and trained employees to adequately supervise the secondary market activities of the Corporation; and

"(2) the supervision of the powers, functions, and duties of the Corporation is performed, to the extent practicable, by personnel who are not responsible for the supervision of the banks and associations of the Farm Credit System.";

(b) Title VIII of the Farm Credit Act of 1971 (12 U.S.C. 2279aa et seq.) is amended—

(1) by inserting after section 8.0 the following:

"Subtitle A—Establishment and Activities of Federal Agricultural Mortgage Corporation"; and

(2) by inserting after section 8.14 the following new subtitle:

"Subtitle B—Regulation of Financial Safety and Soundness of Federal Agricultural Mortgage Corporation

"SEC. 8.31. DEFINITIONS.

"For purposes of this subtitle:

"(1) Compensation.—The term 'compensation' means any payment of money or the provision of any other thing of current or potential value in connection with employment.

"(2) Core capital.—The term 'core capital' means, with respect to the Corporation, the sum of the following (as determined in accordance with generally accepted accounting principles):

"(A) The par value of outstanding common stock.

"(B) The par value of outstanding preferred stock.

"(C) Paid-in capital.

"(D) Retained earnings.

"(3) Director.—The term 'Director' means the Director of the Office of Secondary Market Oversight of the Farm Credit Administration, appointed under section 8.11(a)(3).

"(4) Office.—The term 'Office' means the Office of Secondary Market Oversight of the Farm Credit Administration, established in section 8.11(a).

"(5) Regulatory capital.—The term 'regulatory capital' means, with respect to the Corporation, the core capital of the Corporation plus an allowance for losses and guarantee claims, as determined in accordance with generally accepted accounting principles.

"(6) State.—The term 'State' means the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

"SEC. 8.32. RISK-BASED CAPITAL LEVELS.

"(a) Risk-Based Capital Test.—Not later than the expiration of the 2-year period beginning on the date of the enactment of this Act, the Director of the Office of Secondary Market Oversight shall, by regulation, establish a risk-based capital test under this section for the Corporation. When applied to the Corporation, the risk-based capital test shall determine the amount of regulatory capital for the Corporation that is sufficient for the Corporation to maintain positive capital during a 10-year period in which both of the following circumstances occur:

"(1) Credit risk.—With respect to securities representing an interest in, or obligations backed by, a pool of qualified loans owned or guaranteed by the Corporation and other obligations of the Corporation, losses on the underlying qualified loans occur throughout the United States at a rate of default and severity (based on any measurements of default reasonably related to prevailing industry practice in determining capital adequacy) reasonably related to the rate and severity that occurred in contiguous areas of the United States containing an aggregate of not less than 5 percent of the total population of the United States that, for a period of not less than 2 years (as established by the Director), experienced the highest rates of default and severity of agricultural mortgage losses, in comparison with such rates of default and severity of agricultural mortgage losses in other such areas for any period of such duration, as determined by the Director.

"(2) Interest rate risk.—Interest rates on Treasury obligations of varying terms increase or decrease over the first 12 months of such 10-year period by not more than the lesser of (A) 50 percent (with respect to the average interest rates on such obligations during the 12-month period preceding the 10-year period), or (B) 600 basis points, and remain at such level for the remainder of the period. This paragraph may not be construed to require the Director to determine interest rate risk under this paragraph based on the interest rates for various long-term and short-term obligations all increasing or all decreasing concurrently.

"(b) Considerations.—

"(1) Establishment of test.—In establishing the risk-based capital test under subsection (a)—

"(A) the Director shall take into account appropriate distinctions based on various types of agricultural mortgage products, varying terms of Treasury obligations, and any other factors the Director considers appropriate;

"(B) the Director shall conform loan data used in determining credit risk to the minimum geographic and commodity diversification standards applicable to pools of qualified loans eligible for guarantee;

"(C) the Director shall take into account retained subordinated participating interests under section 8.6(b)(2);

"(D) the Director may take into account other methods or tests to determine credit risk developed by the Corporation before the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991; and

"(E) the Director shall consider any other information submitted by the Corporation in writing during the 180-day period beginning on the date of the enactment of such Act.

"(2) Revising test.—Upon the expiration of the 5-year period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, the Director shall examine the risk-based capital test under subsection (a) and may revise the test. In making examinations and revisions under this paragraph, the Director shall take into account that, before the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, the Corporation has not issued guarantees for pools of qualified loans. To the extent that the revision of the risk-based capital test causes a change in the classification of the Corporation within the enforcement levels established under section 8.35, the Director shall waive the applicability of any additional enforcement actions available because of such change for a reasonable period of time, to permit the Corporation to increase the amount of regulatory capital of the Corporation accordingly.

"(c) Risk-Based Capital Level.—For purposes of this subtitle, the risk-based capital level for the Corporation shall be equal to the sum of the following amounts:

"(1) Credit and interest rate risk.—The amount of regulatory capital determined by applying the risk-based capital test under subsection (a) to the Corporation, adjusted to account for foreign exchange risk.

"(2) Management and operations risk.—To provide for management and operations risk, 30 percent of the amount of regulatory capital determined by applying the risk-based capital test under subsection (a) to the Corporation.

"(d) Specified Contents.—The regulations establishing the risk-based capital test under this section shall contain specific requirements, definitions, methods, variables, and parameters used under the risk-based capital test and in implementing the test (such as loan loss severity, float income, loan-to value ratios, taxes, yield curve slopes, default experience, prepayment rates, and performance of pools of qualified loans). The regulations shall be sufficiently specific to permit an individual other than the Director to apply the test in the same manner as the Director.

"(e) Availability of Model.—The Director shall make copies of the statistical model or models used to implement the risk-based capital test under this section available for public acquisition and may charge a reasonable fee for such copies.

"SEC. 8.33. MINIMUM CAPITAL LEVEL.

"(a) In General.—Except as provided in subsection (b), for purposes of this subtitle, the minimum capital level for the Corporation shall be an amount of core capital equal to the sum of—

"(1) 2.50 percent of the aggregate on-balance sheet assets of the Corporation (other than assets referred to in paragraph (3)), as determined in accordance with generally accepted accounting principles;

"(2) 0.45 percent of the unpaid principal balance of outstanding securities guaranteed by the Corporation and backed by pools of qualified loans and substantially equivalent instruments issued or guaranteed by the Corporation, and other off-balance sheet obligations of the Corporation; and

"(3) the percentage of the aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g) that is determined under subsection (c).

"(b) 18-Month Transition.—During the 18-month period beginning upon the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, for purposes of this subtitle, the minimum capital level for the Corporation shall be an amount of core capital equal to the sum of—

"(1) 1.50 percent of the aggregate on-balance sheet assets of the Corporation (other than assets referred to in paragraph (3)), as determined in accordance with generally accepted accounting principles;

"(2) 0.40 percent of the unpaid principal balance of outstanding securities guaranteed by the Corporation and backed by pools of qualified loans and substantially equivalent instruments issued or guaranteed by the Corporation, and other off-balance sheet obligations of the Corporation; and

"(3) the percentage of the aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g) that is determined under subsection (c).

"(c) Linked Portfolio Assets.—The percentage of any aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g) that is referred to in subsections (a)(3) and (b)(3) of this section (and in section 8.34(3)(A)) shall be—

"(1) during the 5-year period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991—

"(A) 0.45 percent of any such assets not exceeding $1,000,000,000;

"(B) 0.75 percent of any such assets in excess of $1,000,000,000 but not exceeding $2,000,000,000;

"(C) 1.00 percent of any such assets in excess of $2,000,000,000 but not exceeding $3,000,000,000;

"(D) 1.25 percent of any such assets in excess of $3,000,000,000 but not exceeding $4,000,000,000;

"(E) 1.50 percent of any such assets in excess of $4,000,000,000 but not exceeding $5,000,000,000; and

"(F) 2.50 percent of any such assets in excess of $5,000,000,000.

"(2) after the expiration of such 5-year period, 2.50 percent of any such aggregate assets.

"SEC. 8.34. CRITICAL CAPITAL LEVEL.

"For purposes of this subtitle, the critical capital level for the Corporation shall be an amount of core capital equal to the sum of—

"(1) 1.25 percent of the aggregate on-balance sheet assets of the Corporation (other than assets referred to in paragraph (3)), as determined in accordance with generally accepted accounting principles;

"(2) 0.25 percent of the unpaid principal balance of outstanding securities guaranteed by the Corporation and backed by pools of qualified loans and substantially equivalent instruments issued or guaranteed by the Corporation, and other off-balance sheet obligations of the Corporation; and

"(3) a percentage of any aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g), which shall be—

"(A) during the 5-year period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, one-half of the percentage that is determined under section 8.33(c)(1); and

"(B) after the expiration of such 5-year period, 1.25 percent of any such aggregate assets.

"SEC. 8.35. ENFORCEMENT LEVELS.

"(a) IN GENERAL.—The Director shall classify the Corporation, for purposes of this subtitle, according to the following enforcement levels:

"(1) LEVEL I.—The Corporation shall be classified as within level I if the Corporation—

"(A) maintains an amount of regulatory capital that is equal to or exceeds the risk-based capital level established under section 8.32; and

"(B) equals or exceeds the minimum capital level established under section 8.33.

"(2) LEVEL II.—The Corporation shall be classified as within level II if—

"(A) the Corporation—

"(i) maintains an amount of regulatory capital that is less than the risk-based capital level; and

"(ii) equals or exceeds the minimum capital level; or

"(B) the Corporation is otherwise classified as within level II under subsection (b) of this section.

"(3) LEVEL III.—The Corporation shall be classified as within level III if—

"(A) the Corporation—

"(i) does not equal or exceed the minimum capital level; and

"(ii) equals or exceeds the critical capital level established under section 8.34; or

"(B) the Corporation is otherwise classified as within level III under subsection (b) of this section.

"(4) LEVEL IV.—The Corporation shall be classified as within level IV if the Corporation—

"(A) does not equal or exceed the critical capital level; or

"(B) is otherwise classified as within level IV under subsection (b) of this section.

"(b) DISCRETIONARY CLASSIFICATION.—If at any time the Director determines in writing (and provides written notification to the Corporation and the Farm Credit Administration) that the Corporation is taking any action not approved by the Director that could result in a rapid depletion of core capital or that the value of the property subject to mortgages securitized by the Corporation or property underlying securities guaranteed by the Corporation, has decreased significantly, the Director may classify the Corporation—

"(1) as within level II, if the Corporation is otherwise within level I;

"(2) as within level III, if the Corporation is otherwise within level II; or

"(3) as within level IV, if the Corporation is otherwise within level III.

"(c) QUARTERLY DETERMINATION.—The Director shall determine the classification of the Corporation for purposes of this subtitle on not less than a quarterly basis (and as appropriate under subsection (b)). The first such determination shall be made for the quarter ending March 31, 1992.

"(d) NOTICE.—Upon determining under subsection (b) or (c) that the Corporation is within level II or III, the Director shall provide written notice to the Congress and to the Corporation—

"(1) that the Corporation is within such level;

"(2) that the Corporation is subject to the provisions of section 8.36 or 8.37, as applicable; and

"(3) stating the reasons for the classification of the Corporation within such level.

"(e) IMPLEMENTATION.—Notwithstanding paragraphs (1) and (2) of subsection (a), during the 30-month period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, the Corporation shall be classified as within level I if the Corporation equals or exceeds the minimum capital level established under section 8.33.

"SEC. 8.36. MANDATORY ACTIONS APPLICABLE TO LEVEL II.

"(a) CAPITAL RESTORATION PLAN.—If the Corporation is classified as within level II, the Corporation shall, within the time period provided in section 8.40(b) and in consultation with the Director, submit to the Director a capital restoration plan that complies with section 8.40 and, after approval, carry out the plan.

"(b) RESTRICTION ON DIVIDENDS.—If the Corporation is classified as within level II, the Corporation may not make any payment of dividends that would result in the Corporation being reclassified as within level III or IV.

"(c) RECLASSIFICATION FROM LEVEL II TO LEVEL III.—The Director shall immediately reclassify the Corporation as within level III (and the Corporation shall be subject to the provisions of section 8.37), if—

"(1) the Corporation is within level II; and

"(2)(A) the Corporation does not submit a capital restoration plan that is substantially in compliance with section 8.40 within the applicable period or the Director does not approve the capital restoration plan submitted by the Corporation; or

"(B) the Director determines that the Corporation has failed to make, in good faith, reasonable efforts necessary to comply with the capital restoration plan and fulfill the schedule for the plan approved by the Director.

"(d) EFFECTIVE DATE.—This section shall take effect upon the expiration of the 30-month period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991.

"SEC. 8.37. SUPERVISORY ACTIONS APPLICABLE TO LEVEL III.

"(a) MANDATORY SUPERVISORY ACTIONS.—

"(1) CAPITAL RESTORATION PLAN.—If the Corporation is classified as within level III, the Corporation shall, within the time period provided in section 8.40(b) and in consultation with the Director, submit to the Director a capital restoration plan that complies with section 8.40 and, after approval, carry out the plan.

"(2) RESTRICTIONS ON DIVIDENDS.—

"(A) PRIOR APPROVAL.—If the Corporation is classified as within level III, the Corporation—

"(i) may not make any payment of dividends that would result in the Corporation being reclassified as within level IV; and

"(ii) may make any other payment of dividends only if the Director approves the payment before the payment.

"(B) STANDARD FOR APPROVAL.—If the Corporation is classified as within level III, the Director may approve a payment of dividends by the Corporation only if the Director determines that the payment (i) will enhance the ability of the Corporation to meet the risk-based capital level and the minimum capital level promptly, (ii) will contribute to the long-term safety and soundness of the Corporation, or (iii) is otherwise in the public interest.

"(3) RECLASSIFICATION FROM LEVEL III TO LEVEL IV.—The Director shall immediately reclassify the Corporation as within level IV (and the Corporation shall be subject to the provisions of section 8.38), if—

"(A) the Corporation is classified as within level III; and

"(B)(i) the Corporation does not submit a capital restoration plan that is substantially in compliance with section 8.40 within the applicable period or the Director does not approve the capital restoration plan submitted by the Corporation; or

"(ii) the Director determines that the Corporation has failed to make, in good faith, reasonable efforts necessary to comply with the capital restoration plan and fulfill the schedule for the plan approved by the Director.

"(b) DISCRETIONARY SUPERVISORY ACTIONS.—In addition to any other actions taken by the Director (including actions under subsection (a)), the Director may, at any time, take any of the following actions if the Corporation is classified as within level III:

"(1) LIMITATION ON INCREASE IN OBLIGATIONS.—Limit any increase in, or order the reduction of, any obligations of the Corporation, including off-balance sheet obligations.

"(2) LIMITATION ON GROWTH.—Limit or prohibit the growth of the assets of the Corporation or require contraction of the assets of the Corporation.

"(3) PROHIBITION ON DIVIDENDS.—Prohibit the Corporation from making any payment of dividends.

"(4) ACQUISITION OF NEW CAPITAL.—Require the Corporation to acquire new capital in any form and in any amount sufficient to provide for the reclassification of the Corporation as within level II.

"(5) RESTRICTION OF ACTIVITIES.—Require the Corporation to terminate, reduce, or modify any activity that the Director determines creates excessive risk to the Corporation.

"(6) CONSERVATORSHIP.—Appoint a conservator for the Corporation consistent with part C of title V.

"(c) EFFECTIVE DATE.—This section shall take effect on January 1, 1992.

(c) AMENDMENT TO SECTION 8.3(c).—Section 8.3(c) of such Act (12 U.S.C. 2279aa–3(c)) is amended—

(1) by redesignating paragraph (13) as paragraph (14); and

(2) by inserting after paragraph (12) the following new paragraph:

"(13) To establish, acquire, and maintain affiliates (as such term is defined in section 8.11(g)) under applicable State laws to carry out any activities that otherwise would be performed directly by the Corporation under this title.".

(d) Amendment to Section 8.6.—Section 8.6 of such Act (12 U.S.C. 2279aa–6) is amended by adding at the end the following new subsection:

"(g) Purchase of Guaranteed Securities.—

"(1) Purchase authority.—The Corporation (and affiliates) may purchase, hold, and sell any securities guaranteed under this section by the Corporation that represent interests in, or obligations backed by, pools of qualified loans. Securities issued under this section shall have maturities and bear rates of interest as determined by the Corporation.

"(2) Issuance of debt obligations.—The Corporation (and affiliates) may issue debt obligations solely for the purpose of obtaining amounts for the purchase of any securities under paragraph (1), for the purchase of qualified loans (as defined in section 8.0(9)(B)), and for maintaining reasonable amounts for business operations (including adequate liquidity) relating to activities under this subsection.

"(3) Terms and limitations.—

"(A) Terms.—The obligations issued under this subsection shall have maturities and bear rates of interest as determined by the Corporation, and may be redeemable at the option of the Corporation before maturity in the manner stipulated in the obligations.

"(B) Requirement.—Each obligation shall clearly indicate that the obligation is not an obligation of, and is not guaranteed as to principal and interest by, the Farm Credit Administration, the United States, or any other agency or instrumentality of the United States (other than the Corporation).

"(C) Authority.—The Corporation may not issue obligations pursuant to paragraph (2) under this subsection while any obligation issued by the Corporation under section 8.13(a) remains outstanding.".

TITLE VI—CROP INSURANCE AND DISASTER ASSISTANCE

SEC. 601. FEDERAL CROP INSURANCE.

The Federal Crop Insurance Act (7 U.S.C. 1501 et seq) is amended—

(1) in section 506(d) (7 U.S.C. 1506(d))—

(A) by striking "section 508(c)" and inserting "section 508(f)"; and

(B) by striking the semicolon at the end and inserting a period;

(2) in section 506(m) (7 U.S.C. 1506(m))—

(A) by striking "wilfully" and inserting "willfully"; and

(B) by striking "to" after "exceed";

(3) in section 507(c)(2) (7 U.S.C. 1507(c)(2)), by inserting a comma after "private insurance companies";

(4) in section 508(a) (7 U.S.C. 1508(a)), by striking "(1)";

(5) in section 508 (7 U.S.C. 1508), by redesignating subsections (l), (m), and (n) as subsections (k), (l), and (m), respectively; and

(6) in section 518 (7 U.S.C. 1518) by striking "subsection (a) or (i)" and inserting "subsection (a) or (k)".

SEC. 602. DISASTER RELIEF.

(a) 1989 Act.—Section 104(d)(1) of the Disaster Assistance Act of 1989 (7 U.S.C. 1421 note) is amended by inserting "(A)" after the paragraph heading.

(b) 1988 Act.—Section 301(b) of the Disaster Assistance Act of 1988 (7 U.S.C. 1464 note) (as amended by section 1541 of the Food, Agriculture, Conservation, and Trade Act of 1990) is amended—

(1) in the subsection heading, by striking "Sunflower Seed" and inserting "Sunflowerseed"; and

(2) in paragraph (2)(A)—

(A) by inserting a comma after "(7 U.S.C. 612c)" in clause (i);

(B) by striking "such Act" in clause (i) and inserting "such section"; and

(C) by striking "sunflower seed" in clause (iv) and inserting "sunflowerseed".

(c) Clarification of Amendment.—Section 2232(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101-510; 104 Stat. 3959) is amended—

(1) by striking "is amended to read:" and inserting "is amended by striking the material before the clauses and inserting the following:";

(2) by inserting open double quotes before "(A)"; and

(3) by moving the left margin of subparagraph (A) 2 ems to the right.

TITLE VII—RURAL DEVELOPMENT

SEC. 701. AMENDMENTS TO THE CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT.

(a) Amendments to Section 306(a).—Section 306(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)) is amended—

(1) in paragraph (11)(B)(ii)—

(A) in subclause (I), by inserting "and" after the semicolon; and

(B) in subclause (II), by striking "; and" and inserting a period; and

(2) by striking paragraph (21).

(b) Amendments to Section 306C(a)(2).—Subparagraphs (A) and (B) of section 306C(a)(2) of such Act (7 U.S.C. 1926c(a)(2)(A) and (B)) are each amended by moving the left margin of such subparagraphs 2 ems to the right.

(c) Amendments to Section 310B.—Section 310B of such Act (7 U.S.C. 1932) is amended—

(1) in subsection (i)(2)(B)(iv), by striking "(ii) of this subsection" and inserting "(iii) of this subparagraph";

(2) in subsection (i)(5)(A), by striking "365(b)(3)," and inserting "365(b)(3)),";

(3) by transferring to the end of such section the provision added by section 2386 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 4051);

(4) by redesignating the provision so transferred as subsection (j); and

(5) in subsection (j) (as so redesignated), by striking "The Secretary" and inserting "Grants to Broadcasting Systems.—The Secretary.

(d) Amendments to Section 364(e).—Section 364(e) of such Act (7 U.S.C. 2006f(e)) is amended—

(1) in paragraph (2), by striking "the date of enactment of this section" and inserting "November 28, 1990"; and

(2) in paragraph (3), by striking "the date of enactment of this section" and inserting "November 28, 1990,".

(e) Amendments to Section 365(b).—Section 365(b) of such Act (7 U.S.C. 2008(b)) is amended—

(1) in paragraph (4)(A), by striking "(3)(C)" and inserting "(3)(A)(iii)"; and

(2) in paragraph (5), by striking "(3)(B)" and inserting "(3)(A)(ii)".

(f) Amendment to Section 366(h).—Section 366(h) of such Act (7 U.S.C. 2008a(h)) is amended by striking "of such officer" and inserting "of such officer's".

(g) Amendment to Section 367(b)(1).—Section 367(b)(1) of such Act (7 U.S.C. 2008b(b)(1)) is amended by striking "365(b)(6)" and inserting "366(b)(6)".

(h) Miscellaneous Amendments.—

(1) Identical amendments.—Each of the following provisions of such Act is amended by striking "this Act" each place such term appears and inserting "this title":

(A) Section 306(a)(12)(D) (7 U.S.C. 1926(a)(12)(D)).

(B) Section 306(a)(20) (7 U.S.C. 1926(a)(20)).

(C) Section 310B(d)(5) (7 U.S.C. 1932(d)(5)).

(D) Section 310B(d)(7) (7 U.S.C. 1932(d)(7)).

(E) Section 331(b)(3) (7 U.S.C. 1981(b)(3)).

(F) Section 346(b)(3)(C) (7 U.S.C. 1994(b)(3)(C)).

(2) Other miscellaneous amendment.—Section 352(b)(3) of such Act (7 U.S.C. 2000(b)(3)) is amended by striking "be".

SEC. 702. AMENDMENTS TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

(a) Amendment to Section 2302(b)(1).—Section 2302(b)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2006f note) is amended by striking "the date of enactment of this section" and inserting "November 28, 1990".

(b) Amendments to Section 2311.—Section 2311 of such Act (7 U.S.C. 2007a) is amended—

(1) in paragraph (2)(A)(ii)—

(A) by striking "4(b)" and inserting "4(e)";

(B) by striking "the section 4(c)" and inserting "section 4(l)"; and

(C) by striking "450b(c)))" and inserting "450b(l)))"; and

(2) in paragraph (4), by striking "this Act" and inserting "this chapter".

(c) Amendments to Section 2313.—Section 2313 of such Act (7 U.S.C. 2007c) is amended—

(1) in subsection (a)(2), by striking "Fund established under paragraph (1)" and inserting "Rural Business Investment Fund";

(2) in subsection (b)(1), by striking "fund established by subsection (a)" and inserting "Rural Business Investment Fund"; and

(3) in subsection (c)(6), by inserting "Business Investment" before "Fund".

(d) Amendment to Section 2314(a)(1)(A)(i).—Section 2314(a)(1)(A)(i) of such Act (7 U.S.C. 2007d(a)(1)(A)(i)) is amended by striking "from the Fund under this chapter" and inserting "under this chapter from the Rural Business Investment Fund".

(e) Amendment to Section 2315(d)(2).—Section 2315(d)(2) of such Act (7 U.S.C. 2007e(d)(2)) is amended by striking "engage in conduct, in".

(f) Amendments to Section 2322.—Section 2322 of such Act (7 U.S.C. 1926–1) is amended—

(1) in subsection (d)(1)(B)—

(A) by striking "section 306(a)(9) and 306(a)(10)" and inserting "paragraphs (9) and (10) of section 306(a)"; and

(B) by striking "sections 306(a)(19)(A) and (B)" and inserting "subparagraphs (A) and (B) of section 306(a)(19)"; and

(2) in subsection (i)(1), by striking "and (3)".

(g) Amendment to Section 2332.—Section 2332 of such Act (7 U.S.C. 950aaa–1) is amended by striking "Federal government" and inserting "Federal Government".

(h) Amendments to Section 2388(h).—

(1) Amendments.—Section 2388(h) of such Act (104 Stat. 4053) is amended—

(A) in paragraph (1), by inserting "and" after the semicolon;

(B) in paragraph (2), by striking "; and" and inserting a period; and

(C) by striking paragraph (3).

(2) Special rule.—The Consolidated Farm and Rural Development Act shall be applied and administered as if the amendment made by 2388(h)(3) of the Food, Agriculture, Conservation, and Trade Act of 1990 had never been enacted.

(i) Repeal of Section 2388(i).—Subsection (i) of section 2388 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 4053) is hereby repealed and the Consolidated Farm and Rural Development Act shall be applied and administered as if the amendments made by such subsection had never been enacted.

SEC. 703. AMENDMENTS TO THE RURAL ELECTRIFICATION ACT OF 1936.

(a) Amendment to Section 11A.—Section 11A(e) of the Rural Electrification Act of 1936 (7 U.S.C. 911a(e)) is amended by striking "1 percent" and inserting "2 percent".

(b) Repeal of Section 17.—Section 17 of such Act (7 U.S.C. 917) is repealed.

(c) Amendments to Section 501.—Section 501 of such Act (7 U.S.C. 950aa) is amended—

(1) in paragraph (6), by inserting "and" after the semicolon;

(2) by striking paragraph (7); and

(3) by redesignating paragraph (8) as paragraph (7).

(d) Amendment to Section 502.—Section 502(a)(2) of such Act (7 U.S.C. 950aa–1(a)(2)) is amended by striking "as defined in this Act".

SEC. 704. RURAL HEALTH LEADERSHIP DEVELOPMENT.

(a) In General.—Section 502(i)(1) of the Rural Development Act of 1972 (7 U.S.C. 2662) (as redesignated by section 403(a)(2)(B) of this Act) is amended by adding at the end the following new subparagraph:

"(C) Rural health leadership development.—The Secretary, in consultation with the Office of Rural Health Policy of the Department of Health and Human Services, may make grants to academic medical centers or land grant colleges and universities, or any combination thereof, for the establishment of rural health leadership development education programs that shall assist rural communities in developing health care services and facilities that will provide the maximum benefit for the resources invested and assist community leaders and public officials in understanding their roles and responsibilities relative to rural health services and facilities, including—

"(i) community decisions regarding funding for and retention of rural hospitals;

"(ii) rural physician and allied health professionals recruitment and retention;

"(iii) the aging rural population and senior services required to care for the population;

"(iv) the establishment and maintenance of rural emergency medical services systems; and

"(v) the application of computer-assisted capital budgeting decision aids for rural health services and facilities.".

(b) Conforming Amendment.—The first sentence of section 502(i)(4) of the Rural Development Act of 1972 (7 U.S.C. 2662) (as redesignated by section 403(a)(2)(B) of this Act) is amended by inserting after "to States" the following "or entities described in paragraph (1)(C)".

TITLE VIII—AGRICULTURAL PROMOTION

SEC. 801. SHORT TITLE.

Section 1901 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6001 note; 104 Stat. 3838) is amended by striking "This Act" and inserting "This title".

SEC. 802. PECANS.

Subtitle A of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6001 et seq., 104 Stat. 3838) is amended—

(1) in section 1907(22) (7 U.S.C. 6002(22)), by striking "inshell" and inserting "in-shell";

(2) in section 1910(b)(8)(G) (7 U.S.C. 6005(b)(8)(G))—

(A) by striking "paragraph 3(A), (B), and (C)," and inserting "subparagraphs (A), (B), and (C) of paragraph (3),"; and

(B) by striking "paragraph (3)(D) and (E)" and inserting "subparagraphs (D) and (E) of paragraph (3)"; and

(3) in section 1915(b)(2) (7 U.S.C. 6010(b)(2)), by striking "section" after "1913 or".

SEC. 803. MUSHROOMS.

Subtitle B of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6101 et seq.; 104 Stat. 3854) is amended—

(1) in section 1925(h) (7 U.S.C. 6104(h)), by striking "government" and inserting "governmental";

(2) in section 1928(d)(1)(A) (7 U.S.C. 6107(d)(1)(A)), by striking "United States district court" and inserting "United States District Court"; and

(3) in section 1929(b)(2) (7 U.S.C. 6108(b)(2)), by striking "section" after "1927 or".

SEC. 804. POTATOES.

Section 310(a)(2) of the Potato Research and Promotion Act (7 U.S.C. 2619(a)(2)) is amended by striking "(2) when" and inserting "(2) When".

SEC. 805. LIMES.

Subtitle D of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6201 et seq.; 104 Stat. 3870) is amended—

(1) in section 1955(e)(1)(B) (7 U.S.C. 6204(e)(1)(B)), by striking "government employees" and inserting "Government employees";

(2) in section 1958(d)(1) (7 U.S.C. 6207(d)(1)), by striking "United States district court" and inserting "United States District Court"; and

(3) in section 1959(b)(2) (7 U.S.C. 6208(b)(2)), by striking "section" after "1957 or".

SEC. 806. SOYBEANS.

Subtitle E of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6301 et seq.; 104 Stat. 3881) is amended—

(1) in section 1969 (7 U.S.C. 6304)—

(A) in subsection (g)(2)(A)(ii), by striking "Argicultural" and inserting "Agricultural";

(B) in subsection (l)(2)(F)(vii)(V), by striking "that requests" and inserting "that request"; and

(C) in subsection (q)(4)—

(i) by inserting a comma after "and"; and

(ii) by striking the semicolon after "Board";

(2) in section 1970(b)(3) (7 U.S.C. 6305(b)(3)), by striking "this Act" and inserting "this subtitle"; and

(3) in section 1974 (7 U.S.C. 6309)—

(A) in subsection (b)(3), by striking "section 1969(k)(4)" and inserting "section 1969(l)(4)"; and

(B) by redesignating the second subsection (b) as subsection (c).

SEC. 807. HONEY.

The Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4601 et seq.) is amended—

(1) in section 9(h) (7 U.S.C. 4608(h)), by inserting "to" before "an importer"; and

(2) in section 11A(b)(2) (7 U.S.C. 4610a(b)(2)), by striking "section" after "10 or".

SEC. 808. COTTON.

(a) Cotton Promotion Act.—The Cotton Research and Promotion Act (7 U.S.C. 2101 et seq.) is amended—

(1) in section 7(e)(4) (7 U.S.C. 2106(e)(4)), by striking "title" and inserting "Act";

(2) in section 8(b)(2) (7 U.S.C. 2107(b)(2)), by striking "section 17C(2)" and inserting "section 17(c)(2)";

(3) in section 10(b) (7 U.S.C. 2109(b)), by striking "section 8(b) or 8(c)" and inserting "subsection (b) or (c) of section 8"; and

(4) in section 11(a) (7 U.S.C. 2110(a))—

(A) by inserting "of this Act" after "section"; and

(B) by striking "of this Act," after "subsection (b),".

(b) Reports.—Section 1998 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2101 note; 104 Stat. 3913) is amended by striking "title" each place it appears in subsections (a) and (b) and inserting "subtitle".

SEC. 809. FLUID MILK.

Section 1999L(b) of the Fluid Milk Promotion Act of 1990 (7 U.S.C. 6411(b); 104 Stat. 3922) is amended by striking "this subsection" and inserting "this section".

SEC. 810. WOOL.

Section 708 of the National Wool Act of 1954 (7 U.S.C. 1787) is amended by inserting after the third sentence the following new sentence: "In any agreement entered into under this section, the Secretary shall prohibit the use of any funds made available through pro rata deductions from payments under section 704 of this title in any manner for the purpose of influencing legislation or government action or policy, except for the development or recommendation to the Secretary of amendments to the research and promotion program.".

TITLE IX—FOOD AND NUTRITION PROGRAMS

Subtitle A—Food Stamp Program

SEC. 901. APPLICATION OF FOOD STAMP ACT OF 1977 TO DISABLED PERSONS.

Section 3 of the Food Stamp Act of 1977 (7 U.S.C. 2012) is amended by inserting after "title I, II, X, XIV, or XVI of the Social Security Act" both places it appears in subsections (g)(7) and (i) the following: ", or are individuals described in paragraphs (2) through (7) of subsection (r),".

SEC. 902. CATEGORICAL ELIGIBILITY FOR RECIPIENTS OF GENERAL ASSISTANCE.

The third sentence of section 5(a) of the Food Stamp Act of 1977 (7 U.S.C. 2014(a)) is amended by striking "appropriate for categorical treatment" and inserting "based on income criteria comparable to or more restrictive than those under subsection (c)(2), and not limited to one-time emergency payments that cannot be provided for more than one consecutive month,".

SEC. 903. EXCLUSIONS FROM INCOME.

Section 5(d) of the Food Stamp Act of 1977 (7 U.S.C. 2014(d)) is amended—

(1) in paragraph (3)—

(A) in subparagraph (A), by striking "to the extent" and all that follows through "involved)" and inserting "awarded to a household member enrolled"; and

(B) in subparagraph (B)—

(i) by inserting after "amount" the following: "used for or"; and

(ii) by striking "or program for" and inserting "program, or other grantor, for tuition and mandatory fees (including the rental or purchase of any equipment, materials, and supplies related to the pursuit of the course of study involved),";

(2) by striking "and" at the end of paragraph (14); and

(3) by inserting before the period at the end the following: ", and (16) any amounts necessary for the fulfillment of a plan for achieving self-support of a household member as provided under section 1612(b)(4)(B)(iv) of the Social Security Act (42 U.S.C. 1382a(b)(4)(B)(iv))".

SEC. 904. RESOURCES THAT CANNOT BE SOLD FOR A SIGNIFICANT RETURN.

Section 5(g)(5) of the Food Stamp Act of 1977 (7 U.S.C. 2014(g)(5)) is amended by adding at the end the following new sentences: "A resource shall be so identified if its sale or other disposition is unlikely to produce any significant amount of funds for the support of the household. The Secretary shall not require the State agency to require verification of the value of a resource to be excluded under this paragraph unless the State agency determines that the information provided by the household is questionable.".

SEC. 905. RESOURCE EXEMPTION FOR HOUSEHOLDS EXEMPT UNDER AFDC OR SSI.

Subsection (j) of section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014(j)) is amended to read as follows:

"(j) Notwithstanding subsections (a) through (i), a State agency shall consider a household member who receives supplemental security income benefits under title XVI of the Social Security Act (42 U.S.C. 1382 et seq.), aid to the aged, blind, or disabled under title I, II, X, XIV, or XVI of such Act (42 U.S.C. 301 et seq.), or who receives benefits under a State plan approved under part A of title IV of such Act (42 U.S.C. 601 et seq.) to have satisfied the resource limitations prescribed under subsection (g).".

SEC. 906. TECHNICAL AMENDMENT ON TRANSITIONAL HOUSING.

Section 5(k)(2)(F) of the Food Stamp Act of 1977 (7 U.S.C. 2014(k)(2)(F)) is amended by inserting before the semicolon the following: ", if the State agency calculates a shelter allowance to be paid under the State plan separate and apart from payments for other household needs even though it may be paid in combination with other allowances in some cases".

SEC. 907. PERFORMANCE STANDARDS FOR EMPLOYMENT AND TRAINING PROGRAMS.

(a) IN GENERAL.—Subparagraph (L) of section 6(d)(4) of the Food Stamp Act of 1977 (7 U.S.C. 2015(d)(4)(L)) is amended to read as follows:

"(L)(i) The Secretary shall establish performance standards and measures applicable to employment and training programs carried out under this paragraph that are based on employment outcomes, including increases in earnings.

"(ii) Final performance standards and measures referred to in clause (i) shall be published not later than 12 months after the date that the final outcome-based performance standards are published for job opportunities and basic skills training programs under part F of title IV of the Social Security Act (42 U.S.C. 681 et seq.).

"(iii) The standards shall encourage States to serve those individuals who have greater barriers to employment and shall take into account the extent to which persons have elected to participate in employment and training programs under this paragraph. The standards shall require participants to make levels of efforts comparable to those required under the regulations set forth in section 273.7(f)(1) of title 7, Code of Federal Regulations in effect on January 1, 1991.

"(iv) The performance standards in effect under subparagraph (K) shall remain in effect during the period beginning on October 1, 1988, and ending on the date the Secretary implements the outcome-based performance standards described in this subparagraph.

"(v) A State agency shall be considered in compliance with applicable performance standards under subparagraph (K) if the State agency operates an employment and training program in a manner consistent with its approved plan and if the program requires participants to make levels of effort comparable to those required under the regulations set forth in section 273.7(f)(1) of title 7, Code of Federal Regulations in effect on January 1, 1991.".

(b) LIMITATION.—Section 6(d)(4)(K)(i) of such Act is amended—

(1) by striking "50 percent through September 30, 1989" and inserting "10 percent in fiscal years 1992 and 1993, and 15 percent in fiscal years 1994 and 1995"; and

(2) by adding at the end the following new sentence: "The Secretary shall not require the plan of a State agency to provide for the participation of a number of recipients greater than 10 percent in fiscal years 1992 and 1993, and 15 percent in fiscal years 1994 and 1995, of the persons who are subject to employment requirements under this section and who are not exempt under subparagraph (D).".

SEC. 908. SUSPENSION OF CERTAIN REQUIREMENTS, AND STUDY, OF FOOD STAMP PROGRAM ON INDIAN RESERVATIONS.

(a) SUSPENSION OF REQUIREMENTS.—

(1) STAGGERED ISSUANCE OF COUPONS.—No State agency shall be required to implement section 7(h)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2016(h)(1)), regarding the staggering of issuance of food stamp coupons, until April 1, 1993. The Secretary of Agriculture shall issue final regulations requiring the staggered issuance of coupons no later than December 1, 1992.

(2) EXEMPTION FROM MONTHLY REPORTING SYSTEMS.—No State agency shall be required to exempt households residing on Indian reservations from food stamp program monthly reporting systems until April 1, 1993. The Secretary shall issue final regulations requiring the exemption of households residing on Indian reservations from food stamp program monthly reporting systems no later than December 1, 1992.

(b) STUDY.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Comptroller General of the United States shall report to the Committee on Agriculture, Nutrition and Forestry of the Senate and the Committee on Agriculture of the House of Representatives on the difficulties that residents of Indian reservations experience in obtaining food stamp benefits, in using food stamp benefits, and in purchasing food economically with food stamps.

(2) COMPONENTS.—In carrying out paragraph (1), the Comptroller General shall—

(A) examine whether monthly reporting requirements are a burden to food stamp households residing on Indian reservations;

(B) examine whether prices at food stores serving reservations are increased during the parts of months when food stamps are issued or are decreased during times of the month when most households have exhausted their food stamp allotments;

(C) examine whether eligible households residing on reservations would prefer that the households' food stamp issuances be—

(i) staggered throughout the month;

(ii) concentrated on the same day of each month; or

(iii) staggered during approximately the first 2 weeks of the month; and

(D) analyze problems associated with transportation difficulties in terms of food stamp program participation and any actions that could be taken at the Federal, State, or local level to remedy the problems.

(3) CONSULTATION.—In completing the report and recommendations, the Comptroller General shall consult with Indian tribes, State agencies, and other appropriate parties.

SEC. 909. VALUE OF ALLOTMENT.

Section 8(b) of the Food Stamp Act of 1977 (7 U.S.C. 2017(b)) is amended—

(1) by striking "the allotment provided any eligible household" and inserting "benefits that may be provided under this Act, whether through coupons, access devices, or otherwise"; and

(2) by striking "an allotment" and inserting "benefits".

SEC. 910. PRORATING WITHIN A CERTIFICATION PERIOD.

Section 8(c) of the Food Stamp Act of 1977 (7 U.S.C. 2017(c)) is amended—

(1) in paragraph (1), by adding at the end the following new sentence: "Households shall receive full months' allotments for all months within a certification period, except as provided in the first sentence of this paragraph with respect to an initial month."; and

(2) in paragraph (2)(B), by striking "previous participation in such program" and inserting "the expiration of a certification period or after the termination of the certification of a household, during a certification period, when the household ceased to be eligible after notice and an opportunity for a hearing under section 11(e)(10)".

SEC. 911. RECOVERY OF CLAIMS CAUSED BY NONFRAUDULENT HOUSEHOLD ERRORS.

The first sentence of section 13(b)(2)(A) of the Food Stamp Act of 1977 (7 U.S.C. 2022(b)(2)(A)) is amended by inserting before the period the following: ", except that the household shall be given notice permitting it to elect another means of repayment and given 10 days to make such an election before the State agency commences action to reduce the household's monthly allotment".

SEC. 912. DEMONSTRATION PROJECTS FOR VEHICLE EXCLUSION LIMIT.

The Secretary of Agriculture shall solicit requests to participate in the demonstration projects required by section 17(h) of the Food Stamp Act of 1977 (7 U.S.C. 2026(h)) by May 1, 1992. The projects shall commence operations no later than January 1, 1993.

SEC. 913. DEFINITION OF RETAIL FOOD STORE.

Section 11002(f)(3) of the Homeless Eligibility Clarification Act (Public Law 99-570; 7 U.S.C. 2012 note) is amended by striking "and (b)" and inserting ", (b), and (c)".

Subtitle B—Commodity Distribution

SEC. 921. EXTENSION OF ELDERLY COMMODITY PROCESSING DEMONSTRATIONS.

Section 1114(a)(2)(D) of the Agriculture and Food Act of 1981 (7 U.S.C. 1431e(2)(D)) is amended by striking "1992 and 1993" and inserting "1992, 1993, and 1994".

SEC. 922. REDUCTION OF FEDERAL PAPERWORK FOR DISTRIBUTION OF COMMODITIES.

(a) HUNGER PREVENTION ACT.—Section 110 of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note) is amended—

(1) in paragraphs (1) and (2) of subsection (c), by inserting after "to needy persons" each place it appears the following: "and to other institutions that can demonstrate, in accordance with subsection (j)(3), that they serve predominantly needy persons"; and

(2) by adding at the end the following new subsections:

"(j) PRIORITY SYSTEM FOR STATE DISTRIBUTION OF COMMODITIES.—

"(1) SOUP KITCHENS.—In distributing commodities under this section, the distributing agency, under procedures determined appropriate by the distributing agency, shall offer, or otherwise make available, its full allocation of commodities for distribution to soup kitchens and other like organizations that serve meals to homeless persons, and to food banks for distribution to such organizations.

"(2) INSTITUTIONS THAT SERVE ONLY LOW-INCOME RECIPIENTS.—If distributing agencies determine that they will not likely exhaust their allocation of commodities under this section through distribution to institutions referred to in paragraph (1), the distributing agencies shall make the remaining commodities available to food banks for distribution to institutions that distribute commodities to the needy. When such institutions distribute commodities to individuals for home consumption, eligibility for such commodities shall be determined through a means test as determined appropriate by the State distributing agency.

"(3) OTHER INSTITUTIONS.—If the distributing agency's commodity allocation is not likely to be exhausted after distribution under paragraphs (1) and (2) (as determined by the food bank), food banks may distribute the remaining commodities to institutions that serve meals to needy persons and do not employ a means test to determine eligibility for such meals, provided that the organizations have documented, to the satisfaction of the food bank, that the organizations do, in fact, serve predominantly needy persons.

"(k) SETTLEMENT AND ADJUSTMENT OF CLAIMS..—

"(1) IN GENERAL.—The Secretary or a designee of the Secretary shall have the authority to—

"(A) determine the amount of, settle, and adjust any claim arising under this section; and

"(B) waive such a claim if the Secretary determines that to do so will serve the purposes of this section.

"(2) LITIGATION.—Nothing contained in this subsection shall be construed to diminish the authority of the Attorney General of the United States under section 516 of title 28, United States Code, to conduct litigation on behalf of the United States.".

(b) EMERGENCY FOOD ASSISTANCE ACT.—The Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by adding at the end the following new section:

"SEC. 215. SETTLEMENT AND ADJUSTMENT OF CLAIMS.

"(a) IN GENERAL.—The Secretary or a designee of the Secretary shall have the authority to—

"(1) determine the amount of, settle, and adjust any claim arising under this Act; and

"(2) waive such a claim if the Secretary determines that to do so will serve the purposes of this Act.

"(b) LITIGATION.—Nothing contained in this section shall be construed to diminish the authority of the Attorney General of the United States under section 516 of title 28, United States Code, to conduct litigation on behalf of the United States.".

(c) COMMODITY SUPPLEMENTAL FOOD PROGRAM.—Section 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) is amended by adding at the end the following new subsection:

"(k)(1) The Secretary or a designee of the Secretary shall have the authority to—

"(A) determine the amount of, settle, and adjust any claim arising under the commodity supplemental food program; and

"(B) waive such a claim if the Secretary determines that to do so will serve the purposes of the program.

"(2) Nothing contained in this subsection shall be construed to diminish the authority of the Attorney General of the United States under section 516 of title 28, United States Code, to conduct litigation on behalf of the United States.".

Subtitle C—Indian Subsistence Farming Demonstration Grant

SEC. 931. PURPOSES.

The purposes of this subtitle are to—

(1) provide technical assistance and training through the Extension Service in the Department of Agriculture to Indian tribes and Alaska Natives for the development and operation of subsistence farming programs to improve the nutritional health of Indians living on or near Indian reservations;

(2) establish the Indian subsistence farming demonstration grant program within the Department of Agriculture; and

(3) provide a supplemental source of fresh produce for Indians and Alaska Natives who—

(A) have special dietary needs;

(B) are participating in—

(i) the food stamp program established under the Food Stamp Act of 1977 (7 U.S.C. 2011 et. seq.); or

(ii) the food distribution program on Indian reservations established under section 4(b) of such Act (7 U.S.C. 2013(b)); or

(C) have income below 185 percent of the poverty line referred to in section 5(c)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2014(c)(1)).

SEC. 932. DEFINITIONS.

For the purposes of this subtitle:

(1) ELIGIBLE RECIPIENT.—The term "eligible recipient" means an Indian who—

(A) is identified by the Secretary as having special dietary needs;

(B) is participating in—

(i) the food stamp program established under the Food Stamp Act of 1977 (7 U.S.C. 2011 et. seq.); or

(ii) the food distribution program on Indian reservations established under section 4(b) of such Act (7 U.S.C. 2013(b)); or

(C) has income below 185 percent of the poverty line referred to in section 5(c)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2014(c)(1)).

(2) INDIAN.—The term "Indian" means a person who is a member of an Indian tribe, or who is an Alaska Native and a member of a Regional Corporation (as defined in section 3(g) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(g)).

(3) INDIAN RESERVATION.—The term "Indian reservation" has the same meaning given to the term "reservation" under section 3(d) of the Indian Financing Act of 1974 (25 U.S.C. 1452(d)).

(4) INDIAN TRIBE.—The term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community (including any Alaska Native village, Regional Corporation, or Regional Corporation (as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)), which is recognized as eligible for the special services provided by the United States to Indians because of their status as Indians.

(5) INTER-TRIBAL CONSORTIUM.—The term "inter-tribal consortium" means a partnership between—

(A) an Indian tribe or tribal organization on an Indian reservation; and

(B) one or more Indian tribes or tribal organizations of other Indian tribes.

(6) PROGRAM.—The term "program" means any subsistence farming program funded or assisted under this subtitle.

(7) SECRETARY.—The term "Secretary" means the Secretary of Agriculture.

SEC. 933. INDIAN SUBSISTENCE FARMING DEMONSTRATION GRANT PROGRAM.

(a) IN GENERAL.—The Secretary may establish an Indian subsistence farming demonstration grant program that provides grants to any Indian tribe, or intertribal consortium, for the establishment on Indian reservations of subsistence farming operations that grow fresh produce for distribution to eligible recipients.

(b) APPLICATION.—Any Indian tribe or tribal consortium may submit to the Secretary an application for a grant under this subtitle. Any such application shall—

(1) be in such form as the Secretary may prescribe;

(2) be submitted to the Secretary on or before the date designated by the Secretary; and

(3) specify—

(A) the nature and scope of the subsistence farming project proposed by the applicant;

(B) the extent to which the project plans to use or incorporate existing resources and services available on the reservation; and

(C) the number of Indians who are projected as eligible recipients of produce grown under the project.

SEC. 934. TRAINING AND TECHNICAL ASSISTANCE.

The Extension Service may conduct, with respect to the projects established under this title, site surveys, workshops, short courses, training, and technical assistance on such topics as nutrition food preservation and preparation techniques, spacing, depth of seed placement, soil types, and other aspects of subsistence farming operations.

SEC. 935. TRIBAL CONSULTATION.

An Indian tribe participating in any subsistence farming program established under this subtitle shall consult with appropriate tribal and Indian Health Service officials regarding the specific dietary needs of the population to be served by the operation of the Indian subsistence farming project.

SEC. 936. USE OF GRANTS.

Funds provided under this subtitle may be used for—

(1) the purchase or lease of agricultural machinery, equipment, and tools for the operation of the program;

(2) the purchase of seeds, fertilizers, and such other resources as may be required for the operation of the program;

(3) the construction of greenhouses, fences, and other structures or facilities;

(4) accounting and distribution of produce grown under the program; and

(5) the employment of persons for the management and operation of the program.

SEC. 937. AMOUNT AND TERM OF GRANT.

(a) AMOUNT.—The maximum amount of any grant awarded under this subtitle shall not exceed $50,000.

(b) TERM.—The maximum term of any grant awarded under this subtitle shall be 3 years.

SEC. 938. OTHER REQUIREMENTS.

Each recipient of a grant awarded under this subtitle shall—

(1) furnish the Secretary with such information as the Secretary may require to—

(A) evaluate the program for which the grant is made;

(B) ensure that the grant funds are expended for the purposes for which the grant was made; and

(C) ensure that the produce grown is distributed to eligible recipients on the reservation; and

(2) submit to the Secretary at the close of the term of the grant a final report that shall include such information as the Secretary may require.

SEC. 939. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this subtitle $2,000,000 for each of the fiscal years 1993 through 1995.

Subtitle D—Technical Amendments

SEC. 941. TECHNICAL AMENDMENTS TO THE FOOD STAMP ACT OF 1977.

The Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) is amended—

(1) in section 3 (7 U.S.C. 2012)—

(A) in subsection (j), by striking "section 3(p) of this Act" and inserting "subsection (p)";

(B) in subsection (o)(6), by striking "per centun" and inserting "percent"; and

(C) by redesignating subsection (u) as subsection (t);

(2) in section 5 (7 U.S.C. 2014)—

(A) in subsection (d)(2), by striking "section 5(f) of this Act" and inserting "subsection (f)";

(B) in subsection (h)(1), by striking "Disaster Relief and Emergency Assistance Act" and inserting "Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.)"; and

(C) in subsection (k)(2), by moving the margin of subparagraph (E) to the left so as to align with the margin of subparagraph (D);

(3) in section 6 (7 U.S.C. 2015)—

(A) in subsection (c)(1)(A), by moving the margin of clause (ii) to the left so as to align with the margin of clause (i);

(B) in subsection (d)(1)(A)—

(i) by striking "who is physically" and inserting "who is a physically";

(ii) by striking "Secretary;" in clause (i) and all that follows through "refuses" in clause (ii) and inserting "Secretary; (ii) refuses"; and

(iii) by striking "two months" in clause (ii) and all that follows through "refuses" in clause (iii) and inserting "two months; or (iii) refuses";

(C) in subsection (d)(4)(B)(vii)—

(i) by striking "Secretary,," and inserting "Secretary,"; and

(ii) by striking "aimed an" and inserting "aimed at";

(D) in subsection (d)(4)(D)(iii), by striking "clauses (i) or (ii)" and inserting "clause (i) or (ii)"; and

(E) in subsection (d)(4)(I)(i)(II)—

(i) by striking "601 et seq.))" and inserting "601 et seq.)"; and

(ii) by striking ", but in" and inserting "), but in";

(4) in section 9(a)(1) (7 U.S.C. 2018(a)(1)), by redesignating paragraphs (1), (2), and (3) as subparagraphs (A), (B), and (C), respectively;

(5) in section 11(e) (7 U.S.C. 2020(e))—

(A) in paragraph (2), by striking the period at the end and inserting a semicolon;

(B) in paragraph (3)—

(i) in subparagraph (D), by inserting a close parenthesis after "section 6"; and

(ii) in subparagraph (E), by striking "verified under this Act, and that the State agency shall provide the household" and inserting "verified under this Act,
and that the State agency shall provide the household"; and

(C) in paragraph (15), by striking the period at the end and inserting a semicolon;

(6) in section 11 (7 U.S.C. 2020), by redesignating subsection (p) as subsection (b) and transferring such subsection to the location after subsection (a);

(7) in section 16 (7 U.S.C. 2025)—

(A) in subsection (g), by inserting a comma after "1991"; and

(B) in subsection (h)(4), by striking "the Act" and inserting "this Act";

(8) in the first sentence of section 17(b)(3)(C) (7 U.S.C. 2026(b)(3)(C)), by striking "402(g)(1)(A)" and inserting "402(g)(1)(A))";

(9) in section 19(b)(1)(A)(i) (7 U.S.C. 2028(b)(1)(A)(i)), by striking "directly." and inserting "directly";

(10) in section 20(g)(2) (7 U.S.C. 2029(g)(2))—

(A) by moving the margins of subparagraphs (A) and (B) 2 ems to the left; and

(B) in subparagraph (B), by moving the margins of clauses (i) and (ii) 2 ems to the left; and

(11) in section 22 (7 U.S.C. 2031)—

(A) by inserting the following section heading above the section designation:

"FOOD STAMP PORTION OF MINNESOTA FAMILY INVESTMENT PLAN";

(B) in subsection (d)(2)(B), by striking "paragraph (b)(3)(D)(iii)" and inserting "subsection (b)(3)(D)(iii)"; and

(C) in subsection (h), by striking "subsection b(12)" and inserting "subsection (b)(12)".

SEC. 942. AMENDMENT RELATING TO THE HUNGER PREVENTION ACT OF 1988.

Section 1772(h)(5) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3809) is amended by striking "Relief" and inserting "Prevention".

TITLE X—MISCELLANEOUS TECHNICAL CORRECTIONS

SEC. 1001. ORGANIC CERTIFICATION.

Title XXI of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat 3935) is amended—

(1) in section 2105 (7 U.S.C. 6504), by striking the period at the end of paragraph (2) and inserting "; and";

(2) in section 2110 (7 U.S.C. 6509)—

(A) in subsection (d)(1)(B), by striking "paraciticides" and inserting "parasiticides"; and

(B) by redesignating subsection (h) as subsection (g);

(3) in section 2111(a)(1) (7 U.S.C. 6510(a)(1)), by striking "post harvest" and inserting "postharvest";

(4) in section 2112(b) (7 U.S.C. 6511(b)), by striking "PRE-HARVEST" and inserting "PREHARVEST";

(5) in section 2116(j)(2) (7 U.S.C. 6515(j)(2)), by striking "certifying such" and inserting "such certifying";

(6) in section 2118(c)(1)(B)(i) (7 U.S.C. 6517(c)(1)(B)(i)), by striking "paraciticides" and inserting "parasiticides"; and

(7) in section 2119(a) (7 U.S.C. 6518(a)), by striking "(to" and inserting "to";

(8) in section 2120(f) (7 U.S.C. 6519(f)), by inserting a comma after "et seq.)" the first place it appears; and

(9) in section 2121(b) (7 U.S.C. 6520(b)), by striking "District Court for the District" and inserting "district court for the district".

SEC. 1002. AGRICULTURAL FELLOWSHIPS.

Section 1543(e) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 3293; 104 Stat. 3694) is amended by striking "Program" and inserting "program".

SEC. 1003. OUTREACH AND ASSISTANCE FOR SOCIALLY DISADVANTAGED FARMERS AND RANCHERS.

Section 2501 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2279) is amended—

(1) in subsection (a)(3), by striking "section" and inserting "subsection";

(2) in subsection (c)(1)(C), by inserting "program" after "agricultural"; and

(3) in subsection (d)(3), by striking "Not later than 1 year after the date of enactment of this Act," and inserting "Not later than November 28, 1991,".

SEC. 1004. PROTECTION OF PETS.

Section 28(b)(2)(F) of the Animal Welfare Act (7 U.S.C. 2158(b)(2)(F)) is amended by striking "subsection (b)" and inserting "subsection (a)".

SEC. 1005. CRITICAL AGRICULTURAL MATERIALS.

The Critical Agricultural Materials Act (7 U.S.C. 178 et seq.) is amended—

(1) in section 5(b)(9) (7 U.S.C. 178c(b)(9)), by striking the first comma after "industrial purposes"; and

(2) in section 11 (7 U.S.C. 178i), by striking "insure" both places it appears and inserting "ensure".

SEC. 1006. AMENDMENTS TO FIFRA AND RELATED PROVISIONS.

(a) IN GENERAL.—The Federal Insecticide, Fungicide, and Rodenticide Act is amended—

(1) in section 2(e)(1) (7 U.S.C. 136(e)(1))—

(A) by striking "section 4" and inserting "section 11";

(B) by striking "use" in the second sentence and inserting "uses"; and

(C) by striking "section 2(ee) of this Act" and inserting "subsection (ee)";

(2) in section 2(q)(2)(A)(i) (7 U.S.C. 136(q)(2)(A)(i)), by striking "size of form" and inserting "size or form";

(3) in section 3(c)(1) (7 U.S.C. 136a(c)(1))—

(A) by striking subparagraphs (E) and (F);

(B) by redesignating subparagraph (D) as subparagraph (F);

(C) by inserting after subparagraph (C) the following:

"(D) the complete formula of the pesticide;

"(E) a request that the pesticide be classified for general use or for restricted use, or for both; and"; and

(D) in subparagraph (F) (as so redesignated)—

(i) by striking "(i) with" and inserting "(i) With";

(ii) by striking the semicolon at the end of clauses (i), (ii), and (iii) and inserting a period;

(iii) by striking "(ii) except" and inserting "(ii) Except"; and

(iv) by striking "(iii) after" and inserting "(iii) After";

(4) by conforming the left margin of paragraph (3) of section 4(f) (7 U.S.C. 136a–1(f)) to the left margin of the preceding paragraph;

(5) in section 6(f)(3)(B) (7 U.S.C. 136d(f)(3)(B)), by striking "an unreasonable adverse affect" and inserting "an unreasonable adverse effect";

(6) in section 11 (7 U.S.C. 136i)—

(A) in the section heading, by striking "APPPLICATORS" and inserting "APPLICATORS";

(B) in subsection (b), by striking "this paragraph" each place it appears and inserting "subsection (a)(2)"; and

(C) in subsection (c), by striking "subsections (a) and (b)" and inserting "subsection (a)";

(7) in section 12(a)(2) (7 U.S.C. 136j(a)(2))—

(A) by striking "thereunder. It" in subparagraph (F) and inserting "thereunder, except that it";

(B) by striking "or" at the end of subparagraph (O); and

(C) by striking the period at the end of subparagraph (P) and inserting a semicolon;

(8) in section 14(a)(2) (7 U.S.C. 136l(a)(2))—

(A) by striking ": *Provided*, That" and inserting ", except that"; and

(B) by striking "use" and inserting "uses";

(9) in section 17(a) (7 U.S.C. 136o), by removing the last sentence from paragraph (2) and placing it as full measure sentence under such paragraph;

(10) in section 20(a) (7 U.S.C. 136r(a)), by striking "insure" and inserting "ensure"; and

(11) in section 26(c) (7 U.S.C. 136w–1(c)), by striking "use" and inserting "uses".

(b) GENDER.—

(1) Such Act is amended by striking "he" each place it appears in sections 3(c)(2)(A), 3(c)(5), 3(c)(6), 3(d)(1)(A), 3(d)(1)(B), 3(d)(1)(C), 3(d)(2), 5(b), 5(e), 5(f), 6(a)(1), 6(b), 6(c)(1), 6(c)(3), 7(b), 8(a), 9(c)(3), 10(c), 11(b), 16(b), 16(d), 18, 20(a), 21(b), 25(a)(3), 25(b), 25(c)(5), and 25(d) (7 U.S.C. 136a(c)(2)(A), 136a(c)(5), 136a(c)(6), 136a(d)(1)(A), 136a(d)(1)(B), 136a(d)(1)(C), 136a(d)(2), 136c(b), 136c(e), 136c(f), 136d(a)(1), 136d(b), 136d(c)(1), 136d(c)(3), 136e(b), 136f(a), 136g(c)(3), 136h(c), 136i(b), 136n(b), 136n(d), 136p, 136r(a), 136s(b), 136w(a)(3), 136w(b), 136w(c)(5), and 136w(d)) and inserting "the Administrator".

(2) Such Act is amended by striking "his" each place it appears in sections 3(c)(2)(A), 3(c)(3)(A), 3(c)(6), 6(b), 6(c)(1), 6(d), 10(b), 11(a)(2), 16(b), 17(c), 18, 21(b), and 25(c)(4) (7 U.S.C. 136a(c)(2)(A), 136a(c)(3)(A), 136a(c)(6), 136d(b), 136d(c)(1), 136d(d), 136h(b), 136i(a)(2), 136n(b), 136o(c), 136p, 136s(b), and 136w(c)(4)) and inserting "the Administrator's".

(3) Such Act is amended—

(A) in section 2(e)(2) (7 U.S.C. 136(e)(2)), by striking "him or his" and inserting "the applicator or the applicator's";

(B) in section 2(e)(3), by striking "he" and inserting "the applicator";

(C) in section 6(a)(2) (7 U.S.C. 136d(a)(2), by striking "he" and inserting "the registrant";

(D) in section 6(c)(3), by striking "him" and inserting "the Administrator";

(E) in section 6(d), by striking "him" and inserting "the Administrator";

(F) in section 7(c)(1) (7 U.S.C. 136e(c)(1), by striking "he" each place it appears and inserting "the producer";

(G) in section 7(c)(2)—

(i) by striking "him" and inserting "the Administrator"; and

(ii) by striking "he" and inserting "the producer";

(H) in the fourth sentence of section 9(a)(2) (7 U.S.C. 136g(a)(2)), by striking "he" and inserting "the officer or employee";

(I) in the third sentence of section 9(c)(1), by striking "his" and inserting "the person's";

(J) in section 10(a) (7 U.S.C. 136h(a)), by striking "his" and inserting "the applicant's";

(K) in section 11(a)(1) (7 U.S.C. 136i(a)(1))—

(i) in the ninth sentence, by striking "his" and inserting "the applicator"; and

(ii) in the last sentence, by striking "him" and inserting "the Administrator";

(L) in section 12(a)(2)(C) (7 U.S.C. 136j(a)(2)(C))—

(i) by striking "his" and inserting "the person's"; and

(ii) by striking "he" and inserting "the person";

(M) in section 12(a)(2)(D), by striking "his" and inserting "the person's";

(N) in section 12(b)(1)—

(i) by striking "he" and inserting "the person";

(ii) by striking "him" and inserting "the person";

(O) in section 12(b)(3), by striking "his official duties" and inserting "the official duties of the public official"; and

(P) in the second sentence of section 16(b) (7 U.S.C. 136n(b)), by striking "him" and inserting "the Administrator".

(c) UNEXECUTABLE AMENDMENT.—The phrase sought to be struck in section 102(b)(2)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1988 (Public Law 100–532; 102 Stat 2667) shall be deemed to be "an end-use product".

(d) RECORDKEEPING.—Section 1491 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 136i–1) is amended—

(1) in subsection (a), by striking "(7 U.S.C. 136a(d)(1)(C))" and inserting "(7 U.S.C. 136a(d)(1)(C)))"; and

(2) in subsection (d)(1), by inserting "of" after "fine".

(e) MAINTENANCE FEE.—Paragraph (5) of section 4(i) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136a–1(i)(5)) is amended to read as follows:

"(5) MAINTENANCE FEE.—

"(A) Subject to other provisions of this paragraph, each registrant of a pesticide shall pay an annual fee by January 15 of each year of—

"(i) $650 for the first registration; and

"(ii) $1,300 for each additional registration, except that no fee shall be charged for more than 200 registrations held by any registrant.

"(B) In the case of a pesticide that is registered for a minor agricultural use, the Administrator may reduce or waive the payment of the fee imposed under this paragraph if the Administrator determines that the fee would significantly reduce the availability of the pesticide for the use.

"(C) The amount of each fee prescribed under subparagraph (A) shall be adjusted by the Administrator to a level that will result in the collection under this paragraph of, to the extent practicable, an aggregate amount of $14,000,000 each fiscal year.

"(D) The maximum annual fee payable under this paragraph by—

"(i) a registrant holding not more than 50 pesticide registrations shall be $55,000; and

"(ii) a registrant holding over 50 registrations shall be $95,000.

"(E)(i) For a small business, the maximum annual fee payable under this paragraph by—

"(I) a registrant holding not more than 50 pesticide registrations shall be $38,500; and

"(II) a registrant holding over 50 pesticide registrations shall be $66,500.

"(ii) For purposes of clause (i), the term 'small business' means a corporation, partnership, or unincorporated business that—

"(I) has 150 or fewer employees; and

"(II) during the 3-year period prior to the most recent maintenance fee billing cycle, had an average annual gross revenue from chemicals that did not exceed $40,000,000.

"(F) If any fee prescribed by this paragraph with respect to the registration of a pesticide is not paid by a registrant by the time prescribed, the Administrator, by order and without hearing, may cancel the registration.

"(G) The authority provided under this paragraph shall terminate on September 30, 1997.".

(f) REGISTRATION AND EXPEDITED PROCESSING FUND.—Section 4(k)(3)(A) of such Act (7 U.S.C. 136a–1(k)(3)(A)) is amended by striking "each fiscal year not more than $2,000,000 of the amounts in the fund" and inserting "for each of the fiscal years 1992, 1993, and 1994, 1/7th of the maintenance fees collected, up to $2 million each year".

SEC. 1007. GRAIN STANDARDS.

The United States Grain Standards Act (7 U.S.C. 71 et seq.) is amended—

(1) in section 3 (7 U.S.C. 75), by striking "The" in subsections (i), (j), (k), (u), (v), (w), (x), (z), and (aa) and inserting "the";

(2) in section 16(a) (7 U.S.C. 87e(a)), by striking "Administrtor." in the second sentence and inserting "Administrator."; and

(3) in section 17B(a) (7 U.S.C. 87f–2(a))—

(A) by striking "The" and inserting "On December 1 of each year, the";

(B) by striking "committee on Agriculture" and inserting "Committee on Agriculture; and

(C) by striking "one year" and all that follows through "such committees".

SEC. 1008. PACKERS AND STOCKYARDS.

The Packers and Stockyards Act, 1921 (7 U.S.C. 181 et seq.) is amended—

(1) in section 202(c) (7 U.S.C. 192(c)), by striking "dealer. any" and inserting "dealer, any"; and

(2) in section 406(b)(2) (7 U.S.C. 227(b)(2)), by striking the comma after "unmanufactured form,".

SEC. 1009. REDUNDANT LANGUAGE IN WAREHOUSE ACT.

Section 17(c)(1)(B) of the United States Warehouse Act (7 U.S.C. 259(c)(1)(B)) is amended by striking ", or to a specified person".

SEC. 1010. CLARIFICATION OF FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

Notwithstanding any other provision of law, the Secretary of Agriculture is directed immediately to implement the establishment within the Department of Agriculture of the Rural Development Administration established by subtitle A of title XXIII of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2006f et seq.) and the amendments made by such subtitle.

SEC. 1011. PERISHABLE AGRICULTURAL COMMODITIES.

The Perishable Agricultural Commodities Act, 1930 (7 U.S.C. 499a et seq.), is amended—

(1) in the first section (7 U.S.C. 499a)—

(A) by striking out "That when used in this Act—" and inserting the following:

"SECTION 1. SHORT TITLE AND DEFINITIONS.

"(a) SHORT TITLE.—This Act may be cited as the 'Perishable Agricultural Commodities Act, 1930'.

"(b) DEFINITIONS.—For purposes of this Act:"; and

(B) by striking the semicolon at the end of paragraphs (1), (2), (3), (4), (5), (6), and (9) and inserting a period;

(2) in section 4(a) (7 U.S.C. 499d(a)), by striking "anual" in the material before the first proviso and inserting "annual";

(3) in section 5(c)(2) (7 U.S.C. 499e(c)(2)), by striking "(as" and inserting ", as";

(4) in section 6 (7 U.S.C. 499f)—

(A) by adding a period at the end of subsection (c); and

(B) by striking the semicolon at the end of subsection (d) and inserting a period;

(5) in section 7 (7 U.S.C. 499g), by striking the semicolon at the end of subsections (a), (b), and (c) and inserting a period;

(6) in section 8(a) (7 U.S.C. 499h(a))—

(A) by redesignating paragraphs (a) and (b) as paragraphs (1) and (2), respectively; and

(B) by striking the semicolon at the end of the subsection and inserting a period;

(7) in section 14(a) (7 U.S.C. 499n(a))—

(A) by striking "(7 U.S.C., Supp. 2, secs. 1 to 17 (a))" and inserting "(7 U.S.C. 1 et seq.)"; and

(B) by striking the semicolon at the end of the subsection and inserting a period; and

(8) by striking section 18 (7 U.S.C. 499r).

SEC. 1012. EGG PRODUCTS INSPECTION.

(a) FINDINGS AND PURPOSES.—

(1) FINDINGS.—Congress finds that—

(A) food borne illness is a serious health problem;

(B) its incidence can be reduced through proper handling of food; and

(C) eggs are perishable and therefore are particularly susceptible to supporting microbial growth if proper temperature controls are not maintained.

(2) Purposes.—It is the purpose of this section to prescribe the temperature at which eggs are maintained in order to reduce the potential for harmful microbial growth to protect the health and welfare of consumers.

(b) Inspection of Egg Products.—Section 5 of the Egg Products Inspection Act (21 U.S.C. 1034) is amended by adding at the end the following new subsection:

"(e)(1) Subject to paragraphs (2), (3), and (4), the Secretary shall make such inspections as the Secretary considers appropriate of a facility of an egg handler (including a transport vehicle) to determine if shell eggs destined for the ultimate consumer—

"(A) are being held under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit after packing; and

"(B) contain labeling that indicates that refrigeration is required.

"(2) In the case of a shell egg packer packing eggs for the ultimate consumer, the Secretary shall make an inspection in accordance with paragraph (1) at least once each calendar quarter.

"(3) The Secretary of Health and Human Services shall cause such inspections to be made as the Secretary considers appropriate to ensure compliance with the requirements of paragraph (1) at food manufacturing establishments, institutions, and restaurants, other than plants packing eggs.

"(4) The Secretary shall not make an inspection as provided in paragraph (1) on any egg handler with a flock of not more than 3,000 layers.

"(5) A representative of the Secretary and the Secretary of Health and Human Services shall be afforded access to a place of business referred to in this subsection, including a transport vehicle, for purposes of making an inspection required under this subsection.".

(c) Prohibited Acts.—Section 8 of such Act (21 U.S.C. 1037) is amended—

(1) by redesignating subsections (c) through (e) as subsections (d) through (f), respectively; and

(2) by inserting after subsection (b) the following new subsection:

"(c) No egg handler shall possess any eggs after the eggs have been packed into a container that is destined for the ultimate consumer unless the eggs are stored and transported under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit, as prescribed by rules and regulations promulgated by the Secretary.".

(d) Penalties.—Section 12 of such Act (21 U.S.C. 1041) is amended—

(1) in the first sentence of subsection (a), by striking "$1,000" and inserting "$5,000";

(2) by designating the last sentence of subsection (a) as subsection (d) and transferring such subsection to the end of the section;

(3) by redesignating subsection (b) as subsection (e) and transferring such subsection to the end of the section;

(4) by redesignating subsection (c) as subsection (b); and

(5) by inserting after subsection (b) the following new subsection:

"(c)(1)(A) Except as otherwise provided in this subsection, any person who violates any provision of this Act or any regulation issued under this Act, other than a violation for which a criminal penalty has been imposed under this Act, may be assessed a civil penalty by the Secretary of not more than $5,000 for each such violation. Each violation to which this subparagraph applies shall be considered a separate offense.

"(B) No penalty shall be assessed against any person under this subsection unless the person is given notice and opportunity for a hearing on the record before the Secretary in accordance with sections 554 and 556 of title 5, United States Code.

"(C) The amount of the civil penalty imposed under this subsection—

"(i) shall be assessed by the Secretary, by written order, taking into account the gravity of the violation, degree of culpability, and history of prior offenses; and

"(ii) may be reviewed only as provided in paragraph (2).

"(2)(A) The determination and order of the Secretary under this subsection shall be final and conclusive unless the person against whom such a violation is found under paragraph (1) files an application for judicial review within 30 days after service of the order in the United States court of appeals for the circuit in which the person has its principal place of business or in the United States Court of Appeals for the District of Columbia Circuit.

"(B) Judicial review of any such order shall be based on the record on which the determination and order are based.

"(C) If the court determines that additional evidence needs to be taken, the court shall order the hearing to be reopened for this purpose in such manner and on such terms and conditions as the court considers proper. The Secretary may modify the findings of the Secretary as to the facts, or make new findings, on the basis of the additional evidence so taken.

"(3) If any person fails to pay an assessment of a civil penalty after the penalty has become a final and unappealable order, or after the appropriate court of appeals has entered a final judgment in favor of the Secretary, the Secretary shall refer the matter to the Attorney General. The Attorney General shall institute a civil action to recover the amount assessed in an appropriate district court of the United States. In the collection action, the validity and appropriateness of the Secretary's order imposing the civil penalty shall not be subject to review.

"(4) All penalties collected under this subsection shall be paid into the Treasury of the United States.

"(5) The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty assessed under this subsection.

"(6) Paragraph (1) shall not apply to an official plant.".

(e) Reporting of Violation to United States Attorney for Institution of Criminal Proceedings.—The last sentence of section 13 of such Act (21 U.S.C. 1042) is amended by inserting before the period at the end the following: "or an action to assess civil penalties".

(f) Imports.—Section 17(a) of such Act (21 U.S.C. 1046(a)) is amended—

(1) by designating the first, second, and third sentences as paragraphs (1), (2), and (4), respectively; and

(2) by inserting after paragraph (2) (as so designated) the following new paragraph:

"(3) No eggs packed into a container that is destined for the ultimate consumer shall be imported into the United States unless the eggs are accompanied by a certification that the eggs have at all times after packaging been stored and transported under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit, as required by sections 5(e) and 8(c).".

(g) Relation to Other Authorities.—The first sentence of section 23(b) of such Act (21 U.S.C. 1052(b)) is amended by striking "and (2)" and inserting the following: "(2) with respect to egg handlers specified in paragraphs (1) and (2) of section 5(e), no State or local jurisdiction may impose temperature requirements pertaining to eggs packaged for the ultimate consumer which are in addition to, or different from, Federal requirements, and (3)".

(h) Effective Date.—This section and the amendments made by this section shall become effective 12 months after the Secretary of Agriculture promulgates final regulations implementing this section and the amendments.

SEC. 1013. PREVENTION OF INTRODUCTION OF BROWN TREE SNAKES TO HAWAII FROM GUAM.

(a) In General.—The Secretary of Agriculture shall, to the extent practicable, take such action as may be necessary to prevent the inadvertent introduction of brown tree snakes into other areas of the United States from Guam.

(b) Introduction Into Hawaii.—The Secretary shall initiate a program to prevent, to the extent practicable, the introduction of the brown tree snake into Hawaii from Guam. In carrying out this section, the Secretary shall consider the use of sniffer or tracking dogs, snake traps, and other preventative processes or devices at aircraft and vessel loading facilities on Guam, Hawaii, or intermediate sites serving as transportation points that could result in the introduction of brown tree snakes into Hawaii.

(c) Authority.—The Secretary shall use the authority provided under the Federal Plant Pest Act (7 U.S.C. 150aa et seq.) to carry out subsections (a) and (b).

(d) Control of Brown Tree Snakes.—The Act of March 2, 1931 (46 Stat. 1468, chapter 370; 7 U.S.C. 426) is amended by inserting "brown tree snakes," after "rabbits,".

(e) Importation of Brown Tree Snakes.—The first sentence of section 42(a)(1) of title 18, United States Code, is amended by inserting "brown tree snakes," after "reptiles,".

SEC. 1014. GRANT TO PREVENT AND CONTROL POTATO DISEASES.

Notwithstanding any other provision of law, funds available to the Animal and Plant Health Inspection Service of the Department of Agriculture for fiscal year 1992 shall be made available as a grant in the amount of $530,000 to the State of Maine Department of Agriculture, Food, and Rural Resources for potato disease detection, control, prevention, eradication and related activities, including the payment of compensation to persons for economic losses associated with such efforts conducted or to be conducted in the State of Maine. Any unobligated balances of funds previously appropriated or allocated for potato disease efforts by the Secretary of Agriculture shall remain available until expended by the Secretary.

SEC. 1015. COLLECTION OF FEES FOR INSPECTION SERVICES.

Section 2509(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (21 U.S.C. 136a(a)) is amended—

(1) in paragraph (1)—

(A) by striking "(1) Quarantine and Inspection.—The Secretary" and inserting the following:

"(1) Quarantine and inspection.—

"(A) In general.—The Secretary";

(B) by indenting 2 ems the left margin of paragraph (1); and

(C) by adding at the end the following new subparagraphs:

"(B) AIRPORT INSPECTION SERVICES.—For airport inspection services, the Secretary shall collect no more than $69,000,000 in fiscal year 1992 and $75,000,000 in fiscal year 1993 from international airline passengers and commercial aircraft operators.

"(C) COMMERCIAL TRUCK AND RAILROAD CAR INSPECTION SERVICES.—For commercial truck and railroad car inspection services, the Secretary shall collect no more than $3,667,000 in fiscal year 1992 and $3,890,000 in fiscal year 1993 from commercial truck and railroad car operators.

"(D) COSTS.—Fees, including fees from international airline passengers and commercial aircraft operators, may only be collected to the extent that the Secretary reasonably estimates that the amount of the fees are commensurate with the costs of agricultural quarantine and inspection services with respect to the class of persons or entities paying the fees. The costs of such services with respect to passengers as a class includes the costs of related inspections of the aircraft.";

(2) in paragraph (3)(B), by striking clause (ii) and inserting the following new clause:

"(ii) REIMBURSEMENT.—The Secretary of the Treasury shall use the Account to provide reimbursements to any appropriation accounts that incur the costs associated with the administration of this subsection and all other activities carried out by the Secretary at ports in the customs territory of the United States and at preclearance or preinspection sites outside the customs territory of the United States in connection with the enforcement of the animal quarantine laws. Any such reimbursement shall be subject to appropriations under clause (v)."; and

(3) in paragraph (4), by striking "The" and inserting "Subject to the limits set forth in paragraph (1), the".

SEC. 1016. EXEMPTION AND STUDY OF CERTAIN FOOD PRODUCTS.

(a) AMENDMENTS TO FEDERAL MEAT INSPECTION ACT.—Section 23 of the Federal Meat Inspection Act (21 U.S.C. 623) is amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by inserting after subsection (b) the following new subsection:

"(c)(1) Under such terms and conditions as the Secretary shall prescribe through rules and regulations issued under section 24 that may be necessary to ensure food safety and protect public health such as special handling procedures, the Secretary shall exempt pizzas containing a meat food product from the inspection requirements of this Act if—

"(A) the meat food product components of the pizzas have been prepared, inspected, and passed in a cured or cooked form as ready-to-eat in compliance with the requirements of this Act; and

"(B) the pizzas are to be served in public or private nonprofit institutions.

"(2) The Secretary may withdraw or modify any exemption under this subsection whenever the Secretary determines such action is necessary to ensure food safety and to protect public health. The Secretary may reinstate or further modify any exemption withdrawn or modified under this subsection.".

(b) AMENDMENTS TO POULTRY PRODUCTS INSPECTION ACT.—Section 15 of the Poultry Products Inspection Act (21 U.S.C. 464) is amended—

(1) by redesignating subsection (d) and (e) as subsections (e) and (f), respectively;

(2) in subsection (e) (as so redesignated), by striking "(c)" and inserting "(d)"; and

(3) by inserting after subsection (c) the following new subsection:

"(d)(1) Under such terms and conditions as the Secretary shall prescribe through rules and regulations issued under this section that may be necessary to ensure food safety and protect public health such as special handling procedures, the Secretary shall exempt pizzas containing a poultry product from the inspection requirements of this Act if—

"(A) the poultry product components of the pizzas have been prepared, inspected, and passed in a cured or cooked form as ready-to-eat in compliance with the requirements of this Act; and

"(B) the pizzas are to be served in public or private nonprofit institutions.

"(2) The Secretary may withdraw or modify any exemption under this subsection whenever the Secretary determines such action is necessary to ensure food safety and to protect public health. The Secretary may reinstate or further modify any exemption withdrawn or modified under this subsection.".

(c) REGULATIONS.—No later than August 1, 1992, the Secretary of Agriculture shall issue final rules, through prior notice and comment rulemaking procedures, to implement the exemption authorized by section 23(c) of the Federal Meat Inspection Act (as added by subsection (a)) and the exemption authorized by section 15(d) of the Poultry Products Inspection Act (as added by subsection (b)). Prior to the issuance of the final rules, the Secretary shall hold at least one public hearing examining the public health and food safety issues raised by the granting of each of the exemptions.

(d) STUDIES.—

(1) IN GENERAL.—Not later than 24 months after the date of enactment of this Act, the Secretary of Agriculture, in consultation with the National Academy of Sciences, shall conduct—

(A) a study to develop criteria for, and evaluate, present and future inspection exemptions for meat food products and poultry products under the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) and the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), respectively, which shall examine the potential effect on consumers, on the affected industries, on public health and food safety, on the role of the Department of Agriculture, and the scientific basis for the exemptions; and

(B) a study of the appropriateness of granting an exemption from the requirements of the Federal Meat Inspection Act or the Poultry Products Inspection Act, as appropriate, for wholesale meat outlets selling to hotels, restaurants, or other similar institutional users provided that the processing of meat by the outlets is limited to cutting, slicing, grinding, or repackaging into smaller quantities.

(2) RESULTS.—On completion of each study required under paragraph (1), the Secretary shall provide the results of the study to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

SEC. 1017. FEES FOR LABORATORY ACCREDITATION.

Section 1327 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 138f) is amended to read as follows:

"SEC. 1327. FEES.

"(a) IN GENERAL.—At the time that an application for accreditation is received by the Secretary and annually thereafter, a laboratory seeking accreditation by the Secretary under the authority of this subtitle, the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), or the Poultry Products Inspection Act (21 U.S.C. 451 et seq.) shall pay to the Secretary a nonrefundable accreditation fee. All fees collected by the Secretary shall be credited to the account from which the expenses of the laboratory accreditation program are paid and, subject to subsection (e), shall be available immediately and remain available until expended to pay the expenses of the laboratory accreditation program.

"(b) AMOUNT OF FEE.—The fee required under this section shall be established by the Secretary in an amount that will offset the cost of the laboratory accreditation programs administered by the Secretary under the statutory authorities set forth in subsection (a).

"(c) REIMBURSEMENT OF EXPENSES.—Each laboratory that is accredited under a statutory authority set forth in subsection (a) or that has applied for accreditation under such authority shall reimburse the Secretary for reasonable travel and other expenses necessary to perform onsite inspections of the laboratory.

"(d) ADJUSTMENT OF FEES.—The Secretary may, on an annual basis, adjust the fees imposed under this section as necessary to support the full costs of the laboratory accreditation programs carried out under the statutory authorities set forth in subsection (a).

"(e) APPROPRIATIONS PREREQUISITE.—No fees collected under this section may be used to offset the cost of laboratory accreditation without appropriations made under subsection (f).

"(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated each fiscal year such sums as may be necessary for laboratory accreditation services under this section.".

SEC. 1018. STATE AND PRIVATE FORESTRY TECHNICAL AMENDMENTS.

(a) COOPERATIVE FORESTRY ASSISTANCE.—The Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101 et seq.) is amended—

(1) in section 5(d) (16 U.S.C. 2103a(d)), by striking "State Foresters" each place it appears and inserting "State foresters";

(2) in section 7 (16 U.S.C. 2103c)—

(A) in subsection (d)(2), by striking "Not later than 1 year after the date of enactment of this section," and inserting "Not later than November 28, 1991,";

(B) in subsection (e), by striking "Within 1 year from the date of enactment of this section and in consultation with State Forest Stewardship Advisory Committees established under section 15(b)" and inserting "Not later than November 28, 1991, and in consultation with State Forest Stewardship Coordinating Committees established under section 19(b)"; and

(C) in subsection (f), by striking "subsection (d)" and inserting "subsection (e)";

(3) in section 9 (16 U.S.C. 2105)—

(A) in subsection (g)(1)(C), by striking "subsection (e)" and inserting "subsection (f)";

(B) in subsection (g)(3)(E), by striking "subsection (e)" and inserting "subsection (f)";

(C) in subsection (h)(1), by striking "subsection (f)" and inserting "subsection (g)"; and

(D) in subsection (h)(2), by striking "subsection (f)(3)" and inserting "subsection (g)(3)"; and

(4) in section 10(g)(2) (16 U.S.C. 2106(g)(2)), by striking "fire fighting organization" and inserting "firefighting organization".

(b) COMMISSION ON STATE AND PRIVATE FORESTS.—Section 1245(g)(4) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3549; 16 U.S.C. 1601 note) is amended by striking "the Director of the Office Technology Assessment may furnish".

(c) FOREST PRODUCTS INSTITUTE.—Section 1247(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3551; 16 U.S.C. 2112 note) is amended by striking "in this section" the second place it appears.

(d) RENEWABLE RESOURCES EXTENSION.—Section 3(a) of the Renewable Resources Extension Act of 1978 (16 U.S.C. 1672(a)) is amended—

(1) by striking "and" at the end of paragraph (8);

(2) by striking the period at the end of the first paragraph (9) (as added by section 1219(b)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3539) and inserting "; and"; and

(3) by redesignating the second paragraph (9) (as added by section 1251(b)(3) of such Act (104 Stat. 3552) as paragraph (10).

(e) AMERICA THE BEAUTIFUL.—Section 1264(n)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3556; 16 U.S.C. 2101 note) is amended by striking "this Act" and inserting "this subtitle".

(f) REFORESTATION ASSISTANCE.—Section 1271(c)(3)(C) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3558; 16 U.S.C. 2106a) is amended—

(1) by inserting "(16 U.S.C. 2101 et seq.)" after "1978"; and

(2) by striking "(16 U.S.C. 590h, 590l, or 590p)" and inserting "(16 U.S.C. 590p(b))".

SEC. 1019. REPEAL.

Public Law 76–543 (54 Stat. 231) is hereby repealed.

TITLE XI—EFFECTIVE DATES

SEC. 1101. EFFECTIVE DATES.

(a) IN GENERAL.—Except as otherwise provided in this Act, this Act and the amendments made by this Act shall take effect on the date of enactment of this Act.

(b) INCLUSION IN FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.—The amendments made by the following provisions of this Act shall take effect as if included in the provision of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624) to which the amendment relates:

(1) Section 201 (other than section 201(h)).

(2) Section 307.

(3) Subsections (a) through (c), (e), (h), and (i) of section 501.

(4) Subsections (a), (b), (f) through (i), and (l) of section 502.

(5) Section 602(c).

(6) Section 701 (except as provided in subsection (c) of this section).

(7) Section 702.

(8) Section 703(c).

(c) MISCELLANEOUS AMENDMENTS TO CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT.—The amendments made by section 701(h) of this Act to any provision specified therein shall take effect as if such amendments had been included in the Act that added the provision so specified at the time such Act became law.

(d) FOOD AND NUTRITION PROGRAMS.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, title IX of this Act, and the amendments made by title IX of this Act, shall take effect and be implemented no later than February 1, 1992.

(2) PASS ACCOUNTS EXCLUSION.—

(A) IN GENERAL.—The amendment made by section 903(3) of this Act shall take effect on the earlier of—

(i) the date of enactment of this Act;

(ii) October 1, 1990, for food stamp households for which the State agency knew, or had notice, that a member of the household had a plan for achieving self-support as provided under section 1612(b)(4)(B)(iv) of the Social Security Act (42 U.S.C. 1382a(b)(4)(B)(iv)); or

(iii) beginning on the date that a fair hearing was requested under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) contesting the denial of an exclusion for food stamp purposes for amounts necessary for the fulfillment of such a plan for achieving self-support.

(B) LIMITATION ON APPLICATION OF SECTION.—Notwithstanding section 11(b) of the Food Stamp Act of 1977 (as redesignated by section 941(6) of this Act), no State agency shall be required to search its files for cases to which the amendment made by section 903(3) of this Act applies, except where the excludability of amounts described in section 5(d)(16) of the Food Stamp Act of 1977 (as added by section 903(3) of this Act) was raised with the State agency prior to the date of enactment of the Act.

(3) PERFORMANCE STANDARDS FOR EMPLOYMENT AND TRAINING PROGRAMS.—The amendments made by section 908 of this Act shall take effect on September 30, 1991.

(4) RECOVERY OF CLAIMS CAUSED BY NONFRAUDULENT HOUSEHOLD ERRORS.—The amendment made by section 911 of this Act shall take effect on the date of enactment of this Act.

(5) DEFINITION OF RETAIL FOOD STORE.—The amendment made by section 913 of this Act shall take effect on October 1, 1990, and shall not apply with respect to any period occurring before such date.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas [Mr. DE LA GARZA] will be recognized for 20 minutes, and the gentleman from Missouri [Mr. COLEMAN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the House amendment to the Senate amendment to H.R. 3029, the Food, Agriculture, Conservation and Trade Act Amendments of 1991, is a bipartisan, House-Senate compromise making technical and a limited number of substantive changes in our agriculture, export promotion and nutrition programs.

The House version of H.R. 3029 was overwhelmingly approved 417 to 5 on July 31. The Senate measure was approved by voice vote just last Friday, November 22. Over the weekend the staff of the House and Senate Agriculture Committees worked quickly to resolve the areas of minor differences between the two bills and today Members of the House and Senate resolved the remaining outstanding issues.

The bulk of the compromise language on H.R. 3029 involves correcting technical and drafting errors and clarifying various provisions in Public Law 101-624, the Food, Agriculture, Conservation and Trade Act of 1990, that was signed into law last November.

There are some provisions in this bill that contain somewhat more substantive policy changes. Most of these provisions seek to correct implementation problems which have come to our attention since enactment of the 1990 Farm Act. These problems involve unclear wording in last year's farm bill or issues raised by farmers and others in the initial interpretations of the law made by the U.S. Department of Agriculture.

This bill also contains some substantative policy changes that originated in the other body that were found acceptable by our side and are included in this House amendment.

We have worked closely with the Department of Agriculture in drafting this bill, and although we do not have a formal statement of administration views on this bill, I believe the administration will support this legislation.

Basically, the compromise on H.R. 3029 seeks to achieve the original intent of the 1990 farm bill by providing the Department of Agriculture the direction it needs to carry out these programs in a fair and equitable manner.

Mr. Speaker, I briefly want to highlight the major provisions in each title of the House amendment to the Senate amendment of H.R. 3029:

TITLE I—AGRICULTURAL COMMODITY PROGRAMS

The bill clarifies various provisions in the operations of various commodity programs that were reauthorized in the 1990 Farm Act. Provisions contained in the bill also ensure that farmers can take full advantage of the planting flexibility provisions of last year's farm act.

TITLE II—CONSERVATION

The bill contains several provisions making technical improvements to the conservation and environmental aspects of commodity program operations authorized or reauthorized in the 1990 Farm Act.

TITLE III—AGRICULTURAL TRADE

The bill contains mainly technical corrections to the 1990 Farm Act's trade title.

TITLE IV—RESEARCH

The bill contains various technical corrections to the 1990 Farm Act's research title, including a clarification on the number of regional Alternative Agricultural Research and Commercialization Centers to be created out of appropriated funds.

TITLE V—CREDIT

The bill requires Farmers Home Administration to allow a farmer borrower who has been affected by disaster during at least 2 previous crop years to exclude the lowest yield from the calculation of the farm's future yields. The bill also authorizes the bank for cooperatives to make loans for the export of agricultural commodities if certain conditions are met.

TITLE VI—CROP INSURANCE AND DISASTER ASSISTANCE

The bill makes a limited number of technical corrections in the wording of the 1990 Farm Act's crop insurance and disaster relief title.

TITLE VII—RURAL DEVELOPMENT

The bill makes various technical changes to the operations of the rural development lending programs administered by Farmers Home Administration and the Rural Electrification Administration. The bill also authorizes the establishment of a rural health leadership development program by the U.S. Department of Agriculture, in consultation with the Department of Health and Human Services, to help rural areas develop health care services and facilities.

TITLE VIII—AGRICULTURAL PROMOTION

The bill makes various technical corrections to the research and promotion programs for pecans, mushrooms, potatoes, limes, soybeans, honey, cotton, fluid milk, and wool that were authorized in the 1990 Farm Act.

TITLE IX—FOOD AND NUTRITION PROGRAMS

The bill has several provisions which clarify and makes explicit certain changes in the Food Stamp and Nutrition Programs to benefit low-income Americans. The bill also establishes a grant program and technical assistance to help Indian tribes and Alaska Natives develop and operate subsistence farming programs to improve the nutrition and health of Indians living on or near Indian reservations.

TITLE X—MISCELLANEOUS TECHNICAL CORRECTIONS

The bill makes various technical changes or corrections in the 1990 Farm Act's provisions on organic certification, pesticide programs, forestry programs, and the maintenance fees authorized for pesticide registrations, for international passenger inspection services, and for laboratory accreditation. In addition, the bill contains provisions regarding the inspection of eggs, preventive measures to stop the spread of brown tree snakes from Guam, and exempting pizzas containing meat products from duplicative inspection under certain circumstances.

The Committee on Agriculture has been and wants to continue to be sensitive to the budget problems our Nation faces. I would point out to my colleagues that this technical corrections bill is not only budget neutral—it actually provides us with some budget savings over the next 5 years.

Based on preliminary estimates by the Congressional Budget Office, the bill is scored as saving about $2 million in fiscal year 1992 and $0.3 million over the next 5 years. Preliminary estimates by the Department of Agriculture indicates the bill will cost nothing in fiscal year 1992 and save $7 million over the next 5 years.

Mr. Speaker, this bill will help our farm programs operate more effectively and as we in Congress intended when we debated and passed the 1990 farm bill. This bill will benefit the entire agricultural sector of our economy and it will strengthen the interests of consumers who are concerned about the availability of a safe, abundant and affordable supply of food and fiber. I urge my colleagues to support passage of this very necessary piece of legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. COLEMAN of Missouri. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3029, a bill making technical corrections to the 1990 Food, Agriculture, Conservation, and Trade Act.

This bill passed the House last July 31 by a vote of 417 to 5, and the legislation has changed relatively little since it was acted upon by the House. It does make minor, technical corrections to the 1990 farm bill, and I understand the administration has no objections to its adoption.

For instance, the bill deals with conserving use acres, double cropping on 0/92 acres, clarifying corn and sorghum bases, and deficiency payments for wheat, barley, and oats to name four of the technical provisions contained in the commodity program title.

Other provisions of the bill concern conservation, agricultural trade, research, credit, rural development, agricultural promotion programs, food and nutrition matters and other technical, miscellaneous corrections to the bill.

In concluding, Mr. Speaker, I want to assure my colleagues in the Banking Committee who are concerned about the provisions dealing with Farmer Mac's linked portfolio strategy: the Agriculture Committee will actively oversee the Farm Credit Administration's regulation of Farmer Mac. We will work closely with the Banking Committee in carrying out that responsibility. I appreciate the Banking Committee's agreeing to this compromise.

Mr. Speaker, I urge the House to agree to the Senate amendments and finish this important piece of legislation.

Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska [Mr. BEREUTER].

Mr. BEREUTER. Mr. Speaker, I rise to support the 1990 farm bill technical corrections measure since it has many important provisions including the provisions related to feed grain base flexibility, introduced by my distinguished colleague from Nebraska [Mr. BARRETT], and this Member and important provisions on wheat deficiency payments. It also clarifies the authority of the Federal Agricultural Mortgage Corporation, so called Farmer Mac, to engage in certain activities. However, I support the legislation with reservations because of some of the provisions related to the Farm Credit Administration relations to Farmer Mac.

As provided by the bill, the Corporation, known as Farmer Mac, would be allowed to undertake secondary market activities—for example, set up subsidiaries and go to debt markets—in a manner similar to those engaged by the Fannie Mae and Freddie Mac. Farmer Mac has called its activity the linked portfolio strategy and is intended to offer more attractive interest rates to borrowers.

Specifically, however, this Member would like to draw the attention of this body to other provisions pertaining to regulation of Farmer Mac. In exchange for authorizing the linked portfolio strategy, some members of the Agriculture Committee have insisted that the Farm Credit Administration retain regulatory and rulemaking authority over Farmer Mac—through a separate Office of Secondary Market Supervision to be established within the Farm Credit Administration.

This Member again states that allowing the Farm Credit Administration to regulate Farmer Mac is the worst of all options. It is a blatant conflict of interest to allow a regulator to supervise a secondary market as well as the market's participants, in this case, the Farm Credit System institutions.

Mr. Speaker, this Member expects only the worst in terms of quality of regulation from the Farm Credit Administration and it will be up to the agency to prove me wrong.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Oklahoma [Mr. ENGLISH], the chairman of the Subcommittee on Conservation, Credit and Rural Development.

Mr. ENGLISH. Mr. Speaker, I, too, would like to rise in support of this legislation. I think that as the chairman has stated, whenever this legislation left the House of Representatives it was primarily a technical corrections bill. Most of the provisions in it still are.

The other body did add a few substantive items, and one of those dealt with, as has been referred to before, Farmer Mac. The provisions that are contained in the bill are a compromise between various concerns with regard to the Farmer Mac operation.

Mr. Speaker, I think this legislation contains a proper approach, one that is balanced and one that I wholeheartedly support.

Mr. COLEMAN of Missouri. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. COMBEST].

Mr. COMBEST. Mr. Speaker, I rise in strong support of the conference report to the 1990 farm bill technical corrections bill. This legislation contains technical changes to the 1990 farm bill. These alterations resolve minor problems which have been discovered during implementation of farm programs. Section 107, black-eyed peas for donation, is one such provision which will help ease the ability of farmers to satisfy the rising demand for food donations to food banks, food pantries and soup kitchens. This is the same provision, with minor modifications, which was offered to the House Agriculture Cotton, Rice and Sugar Subcommittee mark-up of the technical corrections legislation.

The intent of the language is to give the U.S. Department of Agriculture [USDA] the authority to allow mechanical harvesting of black-eyed peas on cotton-conserving-use acres and set-aside acreage for donation to charitable organizations. The language in section 107 provides that the Secretary of Agriculture shall not prohibit implementation of this section unless he determines that it would disrupt the normal channels of trade. The Secretary should implement the section in such a manner to ensure optimum producer participation. Clearly, the intent of the legislation is not designed to negatively impact the market for black-eyed peas raised for sell but rather it is designed to provide for the mechanical harvest of black-eyed peas for donation to food-bank-type charitable organizations.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I rise in support of H.R. 3029 which makes technical changes to farm programs enacted by the farm bill, the Food, Agriculture, Conservation, and Trade Act of 1990.

Since February, the Committee on Agriculture has taken an active oversight role in the implementation of the 1990 farm bill. I appreciate and compliment Chairman DE LA GARZA and ranking member, Mr. COLEMAN, for their efforts in getting this bill to the floor today. I know producers in Kansas and all over rural America, preparing for spring planting, appreciate your efforts as well.

Last March the Subcommittee on Wheat, Soybeans, and Feed Grains, held a hearing in Washington to discuss with producer groups their problems with the farm bill. The subcommittee then traveled to Bonner Springs, KS, to hear from farmers themselves about how they are dealing with the farm bill's new programs.

I am sure the subcommittee will stay active in overseeing this farm bill as the years progress, but I must say these two hearings were very helpful in outlining a few issues the House and Senate Agriculture Committees overlooked when completing the details of the 1990 farm act.

Mr. Speaker, the provisions contained in H.R. 3029 are budget neutral, so they will not cost the Government any additional money to implement. They will, however, make sure the programs of the 1990 act are implemented the way in which we intended.

Second, Mr. Speaker, the provisions in H.R. 3029 expand upon a number of objectives established in the 1985 Food Security Act and then again extended in the 1990 Farm Act. First and foremost of these objectives was the committee's desire to include more planting options for producers participating in farm programs. For many years, farmers were restricted to growing only the crops for which they have a history of planting. The committee remedied this in the 1990 farm bill by allowing them to divert a percentage of their acres to other crops.

Because producers are receiving less Government support on their acres than ever before, H.R. 3029 comes at an important time. In short, the bill lifts planting restrictions to enable farmers to respond even better to market prices. The provisions outlined below, which are amendments to the wheat, feed grains, and oilseeds titles of the 1990 farm bill, are an attempt to do just that; they loosen program constraints and expand certain programs.

One, H.R. 3029 allows the planting of certain minor use, experimental, and industrial-use crops on conserving-use acres—0/92 program.

Two, H.R. 3029 allows producers who plant minor oilseeds, or minor use, experimental, or industrial-use crops, on conserving use acres to double crop that acreage with soybeans. However, the producer must have a history of double-cropping soybeans to take advantage of this option.

Three, H.R. 3029 gives the State and county ASCS committees more control over the types of cover crops that must be planted on set-aside acres. It also gives the State committees discretion to exempt certain arid areas of their States from this planting requirement.

Four, H.R. 3029 requires the Department of Agriculture to provide wheat, oats, and barley producers' income-support payments more expeditously than provided in the 1990 farm bill.

Five, corn and grain-sorghum producers will be allowed once again, as they were under the 1985 farm bill, to combine their corn and grain-sorghum acreages and plant whichever crop best fits their crop rotation practice. This provision is particularly important to producers in Kansas and the Plains States.

Six, H.R. 3029 allows producers, through the 1995 crop year, to plant as much as 20 percent of a crop-acreage base to peas and lentils. This provision extends a similar provision which was in effect for the 1989 through 1991 crop years.

Mr. Speaker, I know that my producers in Kansas and all other wheat and feed grains producers in this country will benefit from these changes in the farm programs. In fact they have been waiting for us to act on this bill. At a time when Government support for agriculture is declining, farmers need the flexibility to grow different crops for the best market return without being penalized by the farm program. My subcommittee worked very hard in analyzing different flexibility options and I believe this bill incorporates the best of those options.

Finally, Mr. Speaker, in the 1990 farm bill, we created a new oilseed program, providing marketing loans or price supports to oilseeds such as sunflower, canola, flaxseed, and rapeseed. As with all new programs, the potential for problems to arise is not uncommon. I want to take this time to recognize one potential problem and assure my colleagues that I will actively monitor this and, if required, to address it further through legislation.

In implementing the new minor oilseeds program, the Department decided to establish separate loan programs for oil-type and confection sunflowerseed. Under normal circumstances, processors of confection seed must offer a premium of 2 to 3 cents per pound over prevailing prices for oil-type seed to ensure sufficient production. This incentive is required to offset higher management and input costs and risk involved in production of confection seed.

With loan support of 8.9 cents per pound under the 1990 farm bill for oil-type seed, confection processors will, under normal circumstances, need to offer 11 cents or higher to encourage production of confection seed. In the event prices for oil-type sunflower fall below the prevailing loan level, the price differential between oil-type and confection seed could widen beyond the traditional 2 to 3 cent spread. This situation could well result in making U.S. confection seed and products uncompetitive in foreign markets, and encourage confection seed production in other countries.

If this happens, I will take the necessary action to correct it. This program was created to spur the production of minor oilseeds, especially sunflowers, not to spur the growth of imports.

In closing, I strongly encourage my colleagues to vote for this bill. To jog your memories, the House passed almost the same bill on July 30th of this year. These technical changes, will undoubtedly make the 1990 farm bill a better bill and a better bill for farmers.

Mr. COLEMAN of Missouri. Mr. Speaker, I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank members of the committee and staff on both sides who have worked so diligently to get us to the point where we are at. Everything to my knowledge is in agreement and accord. Not everyone is entirely happy, but I appreciate this very much.

Mr. WEBER. Mr. Speaker, I intend to support this legislation because it will help Minnesota farmers. However, I rise to express my opposition to the provision concerning exemptions from inspection under the Federal Meat Inspection Act. While the amendment does contain significant provision to assure protection of public health, I remain concerned that the structure of this amendment grants an exemption from Federal meat inspection before undertaking the assessment of public health implications. It is shoot public health first and ask questions later approach. A sounder policy for granting exemptions from a major requirement of a public health protection statue would be for the assessment of the public health implications to precede the grant of the exemption.

The Federal Meat Inspection Act and the Poultry Products Inspection Act are among the Nation's oldest statutes designed to protect the public health. These acts achieve their purpose by requiring the daily presence of a Government inspector at facilities manufacturing meat and poultry products for resale. Such inspection ensures that exacting manufacturing and processing requirements result in wholesome and properly labeled meat and poultry products. In effect, these inspectors are the eyes of consumers.

This continuous inspection is necessary because products of animal origin can be carriers for disease and microbiological contaminants that could jeopardize the public. Hence inspection is generally required of all further processing of the cured/cooked product when it is used in further processed products designated for resale. There are many reasons for such inspection. First, further processing of the meat may reintroduce old dangers or create new dangers, such as under processing a canned meat product. Second, a safe cooked/cured product may be recontaminated during processing or distribution. Third, manufacture for resale, by definition, means a third party will handle the product and may introduce new dangers of mishandling.

Notwithstanding the above, it is appropriate, from time to time, to review whether inspection is necessary in every instance. There may be limited situations when the risks discussed above are not present, or where there are protections available other than continuous Federal inspection. If such situations are identified, consideration should be given to exempting the processing of such products from inspection.

However, before protections are lowered or altered, it must be clearly established that consumers will not be placed at risk; microbiological contaminants are an ever present threat. This provision does not abandon these principles nor, if properly implemented, does it lower public health protections.

SECTION-BY-SECTION ANALYSIS

This section requires the Secretary to exempt pizzas from inspection requirements of the FMIA. However, this authority is limited both procedurally and substantively. Further, the section mandates the Secretary, in consultation with NAS, to conduct a study to evaluate present and future exemptions.

Subsection (a) would amend section 23 of the FMIA, 21 U.S.C. §623, to require the Secretary to exempt from inspection, by regulation, the processing of pizzas containing previously inspected and passed meat components in a cured or cooked form. In promulgating regulations to implement this provision, the Secretary shall prescribe whatever terms and conditions are necessary to ensure food safety and public health. These terms and conditions are to be issued under §§21 and 24 of the FMIA. Section 21 is the Secretary's general rulemaking authority to adopt regulations for the efficient execution of the act. It is not expressly cited in the statute as the Secretary has the clear authority to adopt any and all needed conditions for the exemption. Section 24 authorizes the establishment of storage and handling requirements for facilities not processing under inspection. It is anticipated that these requirements will include those applicable to inspected establishments, as is the case for exempt custom operations. 9 CFR §30.31(a)(2)(i). It is also expected the Secretary will impose whatever additional requirements may be necessary to ensure that public health problems do not arise. Thereby, the Secretary will ensure public safety in the absence of the daily inspection.

Further, the exemption may be granted for the processing of pizzas which contain only cooked or cured meat and if the product will be distributed only to public or private nonprofit institutions that operate under supervision that the Secretary determines will protect public health, such as the direct supervision of a registered dietician. The Secretary has broad authority to withdraw or modify any exemption.

Subsection (b) requires the Secretary to implement subsection (a) through notice and comment rulemaking, which shall include at least one public hearing examining public health and food safety issues raised by the granting of this exemption. In such rulemaking, the Secretary is required to develop such terms and conditions as may be necessary to ensure food safety and protect the public health from any increased risk associated with granting of an exemption under subsection (a). This rulemaking should be completed by August 1, 1992.

Subsection (c) requires the Secretary, in consultation with the National Academy of Sciences, to conduct a study to evaluate and develop criteria for exemptions from inspection of meat food products, as well as reviewing existing exemptions.

ANALYSIS

The legislation would provide a procedural and substantive framework for the Secretary to grant an exemption from inspection of pizzas.

As an initial matter, the new authority granted by this legislation would exempt the processing of pizzas from the requirement of daily inspection if certain conditions are met. The processing operation and products manufactured under such an exemption would still remain within the Secretary's authority and would be subject to the adulteration, misbranding, and other provisions of the FMIA or the PPIA, including storage, handling, processing and facility requirements.

The Secretary has broad authority to impose additional requirements upon an exemption as necessary to assure the exemption does not endanger public health. Moreover, the Secretary has broad discretionary authority to withdraw or modify such exemptions to effectuate the purposes or provisions of the act. The Secretary would expressly be given the authority to withdraw or modify any exemption in particular instances or at particular facilities, subject to appropriate due process protections. Further, the Secretary may indefinitely suspend a previously granted exemption and then reassess the exemption through a new rulemaking proceeding if there is basis to believe a risk to public health exists.

Subsections (a) would impose several procedural preconditions on the grant of an exemption. The requirement to grant an exemption applies only where such an exemption would not enganger public health. Since an exemption from inspection would not necessitate continuous inspection, the Secretary must obtain the broadest public review and comment in assessing whether an exemption creates unacceptable public health risks. Notice and comment rulemaking provides an appropriate structure for the Secretary to receive such input, and hence is required. Such rulemaking, which includes a public hearing, shall focus on evaluating the public health implications of granting any proposed exemption. The notice and comment rulemaking is to identify public health problems that may arise through such an exemption, and to guarantee that such risks must be fully eliminated through the terms and conditions, the Secretary must adopt as a precondition of implementation of the exemption. The Secretary's duty with respect to such terms and conditions could not be cast in stronger terms. School children and, perhaps, the ill or elderly are likely consumers of these noninspected pizzas. Therefore, such terms and conditions must go beyond merely providing for food safety.

The requirement for the Secretary to grant an exemption from inspection of pizzas must not be construed as a statutory mandate to lower food safety protections for the vulnerable populations of private and nonprofit institutions. Indeed, the mandate to ensure food safety and protect public health in the absence of continuous inspection premised on the expectation that the Secretary will prescribe existing terms and conditions on these facilities. Even if the inspector is not present on a daily basis, equipment and facilities must adhere to high standards of cleanliness and safe food handling must be assured. Only when the Secretary has developed such terms and conditions should the Secretary promulgate a final rule to implement subsection (a). If such terms and conditions cannot be established, no regulations to grant the exemption should be published.

Earlier versions of this provision, passed by both the House and Senate, authorized, but did not require, the Secretary to grant exemptions. In this provision, the word "shall" replaces the word "may" to make clear that it is the firm intent of Congress that the Secretary must address this issue. The new authority established herein is not mere discretionary authority for the Secretary to exercise to the extent, and at whatever time, the Secretary deems appropriate. The Secretary is obliged by this authority to prosecute a thorough and carefully considered rulemaking. However, this requirement does not relieve the Secretary of his public health protection duties.

The substantive requirements of the legislation have been designed to make certain that a product exemption will not be granted where there are substantial risks inherent in manufacturing the pizza for resale. To be eligible for exemption, the meat component of the pizza must have been previously inspected and passed by USDA in a cured or cooked form. Failure to start with such meat would clearly entail risk. Furthermore, there are risks inherent in the storage handling and processing of meat. The legislation requires the Secretary to mandate requirements for facilities processing without daily inspection. Sanitary specifications for facilities, equipment, and storage rules, as well as acceptable processing methods must be adopted to fully eliminate the risks preparing meat food products. Finally, the pizza may only be distributed to public or nonprofit private institutions. Such institutions may purchase such products for immediate consumption, thereby avoiding some food handling risks. Given that these institutions, by definition, do not have a profit motive, there is a presumption that they are insulated from pressures to compromise public health. The sponsors envision that such institutions will be operated under supervision that assures that food handling and sanitation practices protect public health, such as the direct supervision of a registered dietician.

Admittedly, the Secretary bears a substantial burden to develop terms and conditions that are so effective as to ensure food safety when an inspector is not present on a daily basis. However, development of such terms and conditions is more appropriately within the exercise of the Secretary's informed expertise, including consideration of pertinent operational data and the relevant scientific basis, and public comment. In the evaluation of information from these sources, the Secretary would consider the history and nature of the product, whether a pattern of insanitary conditions may exist in the industry, educational level and training of personnel, compliance with ingredient specifications, and the health status and vulnerabilities of likely consumers, among others.

The Secretary retains broad discretion to withdraw or modify such exemption to effectuate the purposes of the act. When this authority is exercised with respect to a particular facility, due process protections must, of course, be afforded. Regarding an exemption generally, in the event new evidence arises or the Secretary, in his discretion, otherwise determines that a risk to public health exists, such exemption should be suspended pending completion of a rulemaking to reevaluate the matters and promulgate such new terms and conditions as are required to ensure food safety and protect public health or eliminate the exemption.

In addition, the Secretary is expected to assure that manufacturers of exempt products comply with all relevant labeling requirements. Failure to require scrupulous adherence to such labeling requirements would result in an unlevel playing field for competitors and disserve institutional consumers who increasingly rely on product labeling. The Secretary is expected to promptly exercise his discretionary authority to refuse or withdraw an exemption from inspection in any case where an exempt facility manufactures for resale a product that fails to fully comply with relevant labeling requirements.

In the development of this legislation, concerns were expressed regarding current exemption provisions of the FMIA. It is alleged that these provisions have resulted in a patchwork of inconsistent exemption decisions, not based on a public health standard. Accordingly, subsection (c) of the legislation would require the Secretary to begin reviewing these exemptions by directing the Secretary to undertake a study, in consultation with the National Academy of Sciences, to develop criteria for, and evaluate, present and future exemptions for meat and poultry products, as well as the affects those exemptions would have on public health. Once that study is completed, within 24 months from the date of enactment, it is anticipated that the Secretary will work with the Congress to resolve the controversy and ensure public health protection. The sponsors envision the fruit of this study to be a coherent policy for product exemptions.

Mr. Roberts. Mr. Speaker, I rise in support of H.R. 3029, the Flood, Agriculture, Conservation and Trade Act Amendments of 1991. It was about this time 1 year ago when we completed action on the 1990 farm bill—a bill designed to bring consistency and predictabiliy into our Federal farm programs, and to assist this Nation's farmers and stockmen in their efforts to provide this Nation's consumers with a high quality, low cost, food supply second to none in terms of wholesomeness and variety.

Unfortunately during our efforts to complete the 1990 farm bill, technical mistakes with the language were overlooked. And, as the USDA worked to implement the legislation, they discovered the authority to make common sense adjustments to the Federal farm programs in certain areas, was severly limited.

This legislation is aimed at correcting those mistakes and providing other critically needed technical changes to the 1990 farm bill.

For example, this bill will correct the problem faced by feed grain producers who lost an important flexibility option. In the 1985 farm bill, Congress authorized USDA to allow corn and grain sorghum producers to interchange plantings of these two feed grains on their crop bases. Congress fully intended to extend this option for the term of the 1990 farm bill.

A technical glitch in the commodity program provisions effectively eliminated the corn/sorghum substitution option.

I strongly support this bill's correction provision to restore the feed grain flexibility needed by corn and sorghum producers to meet farm management challenges such as safer pest control, water conservation and marketing options.

I also appreciate the provisions to correct the Secretary of Agriculture's problem in implementing the high moisture loan program. This program option helps stockmen meet the feeding needs of their livestock operations, as well as providing a viable marketing option for feed grain farmers.

I am disappointed that the urgency of adjournment has affected the reconciliation of the differences between the two technical correction bills, forcing the omission of various report language statements intended to clarify congressional intent relative to certain 1990 farm bill provisions.

Originally, for example H.R. 3029 included report language addressing concerns over the administration of the sunflower marketing loan program relative to the establishment of separate loan programs for oil and confection sunflowers. Historically, confection sun seed processors must pay a 2-to 3-cent premium to ensure sufficient production to meet processing needs.

The major concern involves a scenario where sunflower oilseed prices fall below the announced loan rate forcing confection sunflower seed market rates to be set at an uncompetitive price relative to foreign markets. USDA's Foreign Agriculture Service has worked hand-in-glove with the U.S. sunflower industry to establish stable markets for U.S. grown confection sunflower seed products.

I remain concerned that if the current two-program loan system causes confection sunflower market prices to go beyond the historical price spread, there is a significant potential for our domestic sunflower industry to be dealt a severe blow by foreign competitors. I strongly urge the USDA to keep vigilant in monitoring the sunflower marketing loan programs, market prices and the activities of U.S. competitors in these newly developed markets. In addition, I ask my colleagues to be prepared to address this issue in the future.

Finally, Mr. Speaker, I want to mention this bill contains language to address a problem faced by the Environmental Protection Agency in their efforts to fulfill the mandates of the 1988 amendments of FIFRA. Due to unforseen circumstances, the EPA has been unable to meet the goal of collecting $14 million in reregistration fees as was agreed to by EPA and the chemical industry. The provisions in this bill, which were cooperatively worked out by the Agency and registrants, will enable EPA to meet the fee collection goal and help keep the reregistration process on schedule to the extent possible.

I would inform my colleagues that FIFRA will be a major item on agriculture's agenda next year and look forward to working with my colleagues on the issues of food and pesticide safety.

Certainly there are many other noteworthy provisions of this package that time does not permit us to discuss in detail. I want to commend the staff who worked very hard and diligently to prepare this urgently needed corrections package for our consideration before adjournment. I urge my colleagues support of its passage.

Mr. PENNY. Mr. Speaker, I strongly support the technical amendments to the 1990 farm bill. I applaud the efforts of Chairman DE LA GARZA, Congressman THOMAS COLEMAN, ranking minority member, and our counterparts on the Senate Aguriculture Committee for their hard work on this legislation. Included in this package are several provisions of great importance to farmers in Minnesota, and throughout the nation.

The amendments will restore the price support loan program for high-moisture corn established in the 1985 Food Security Act. This program is especially important for dairy farmers for corn used on the farm for feed or sold as silage. This loan program has kept many of our family dairy farmers in Minnesota in business by providing short-term operating loan funds.

The legislation also makes clarifications of the planting requirements for cover crops on acreage set aside for conserving uses. This is an important provision for plantings to reduce erosion and provide wildlife habitat on farms that are enrolled in commodity acreage reduction programs. The bill will allow producers to plant and maintain perennial grasses as cover crops rather than planting a new crop each year.

Finally, the bill gives producers additional flexibility to plant alternative crops on acreage enrolled in the acreage reduction programs. A major focus of the 1990 farm bill was increased planting flexibility for farmers to allow them to respond more easily and quickly to rapidly changing market forces and reduced federal agricultural price supports. This amendment will allow the planting of certain minor-use, industrial, and experimental crops on such acreage, thus giving our farmers more viable options in their cropping programs.

Mr. BARRETT. Mr. Speaker, I rise in support of H.R. 3029, legislation making technical corrections and amendments to the 1990 farm bill. I'm particularly pleased with a provision of the bill that addresses problems farmers would face in coming seasons, because of an unintended effect of last year's farm bill.

Under the 1985 farm bill, producers could plant corn or grain sorghum on a combined corn and grain base, in a manner that is best suited to their rotation and production needs. Unfortunately, the 1990 farm bill unintentionally took away that flexibility. The 1990 act separates corn and sorghum base acres and does not allow their interchange—thereby eliminating the farmer's ability to undertake the best management practices in the farm operation.

The loss of this flexibility could have a dramatic impact on Nebraska's economy. The value of our corn and grain sorghum production reaches over $2.2 billion annually, and generated more than $1.8 billion in cash receipts in 1989 for Nebraska farmers. If Secretary of Agriculture Clayton Yeutter had not found a way to provide for the fair and equitable establishment of corn and sorghum bases during the 1991 crop year, we would have seen a decline in farm income.

To address this problem, I introduced H.R. 980, the Corn and Grain Sorghum Base Clarification Act. This would expressly provide the Secretary of Agriculture the authority to allow producers to interchange corn and sorghum base acres. I am pleased that the committee included language in section 105, similar to H.R. 980 in the legislation we are considering.

Mr. Speaker, I strongly urge my colleagues to join me in supporting H.R. 3029.

Mr. FASCELL. Mr. Speaker, I rise in support of H.R. 3029. I would like to take this opportunity to thank Chairman DE LA GARZA for the cooperation of the Committee on Agriculture in working to accommodate the concerns of the Committee on Foreign Affairs with regard to the trade title of this bill, over which the Foreign Affairs Committee has a jurisdictional interest.

The bill before us today contains an agricultural information program to support collaboration between the United States Department of Agriculture, United States agri-businesses, and appropriate agricultural institutions in the Soviet Union. At the request of the Committee on Foreign Affairs, the bill now provides that the Secretary of Agriculture is required to consult and coordinate with the Secretary of State and the Administrator of the Agency for International Development on the formulation and implementation of this program. While it is my understanding that the primary purpose of this program is to promote United States agricultural exports, coordination with other United States Government programs being developed for the Soviet Union is necessary to assure that various agencies of the United States Government do not work at cross purposes or with incomplete information as to what other agencies may be undertaking.

Chairman DE LA GARZA has proposed that United States land-grant universities should receive support for the establishment of programs of linkage and exchange with agricultural institutions in the republics of the former Soviet Union. Indeed, I understand that a number of U.S. universities have already on their own initiated such programs. The Agency for International Development has for many years supported the land-grant universities and other universities with similar programs in other countries, and I urge A.I.D. to support the efforts of United States universities to establish linkages with institutions in the Soviet Union. I would hope, however, that other United States Government agencies would not seek to establish similar programs of university-to-university exchange just for the former Soviet Union.

I appreciate the concern of the Committee on Agriculture concerning the need for stability in the agricultural sector of the former Soviet Union as it seeks to make a difficult and perhaps painful transition to a free-market agricultural economy. I hope that resources of the Department of Agriculture can be used effectively in coordination with other resources of the U.S. Government to support this transition.

Mr. COLEMAN of Missouri. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and agree to the resolution House Resolution 305.

The question was taken; and (two-thirds having voted in favor thereof) the resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING CORRECTION OF ENROLLMENT OF H.R. 3029, FOOD, AGRICULTURE, CONSERVATION AND TRADE ACT AMENDMENTS OF 1991, PURSUANT TO H. RES. 305

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that the clerk be authorized to correct spelling, punctuation, section designation, errors, and conform the table of contents necessary to reflect the action of the House in agreeing to H. Res. 305.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 5 of rule I, the Chair will now redesignate the time for further proceedings on questions postponed on today and on the legislative day of November 23. Such proceedings will be resumed today after further consideration of H.R. 2929 in the Committee of the Whole pursuant to House Resolution 279.

MODIFICATION TO BLAZ AMENDMENTS EN BLOC NO. 10 TO H.R. 2929, THE CALIFORNIA DESERT PROTECTION ACT OF 1991

Mr. BLAZ. Mr. Speaker, I ask unanimous consent that when H.R. 2929 is considered in the Committee of the Whole, in lieu of my amendment No. 10 made in order under the rule, I be permitted to offer a modified amendment in the form of an amendment at the desk.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Guam [Mr. BLAZ]?

Mr. VENTO. Mr. Speaker, I reserve the right to object so that I may again ask the gentleman from Guam to confirm that this is the same proposed amendment that he and I agreed upon earlier.

Mr. BLAZ. Mr. Speaker, will the gentleman from Minnesota yield under his reservation?

Mr. VENTO. I am glad to yield to the gentleman.

Mr. BLAZ. Mr. Speaker, I thank the gentleman for yielding, and I can assure him that this is the same modification to my amendment that he and I have worked out together. I am renewing my unanimous-consent request of Friday.

Mr. VENTO. Mr. Speaker, I again thank the gentleman from Guam for his cooperation and persistence with regard to this important matter. I believe that this Vento-Blaz form of the Blaz amendment fully and properly addresses both the genuinely necessary renewal of the military withdrawals of the China Lake and Chocolate Mountain areas, and the perceived need of the military for a disclaimer concerning continued overflights by military aircraft of the lands dealt with in this bill. I fully support the proposed amendment, and so I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Guam?

There was no objection.

The SPEAKER pro tempore. The modification will be printed in the RECORD at this point.

The text of the amendment, as modified, is as follows:

Amendment as modified, offered by Mr. BLAZ: Instead of the matter proposed to be inserted, insert the following: Page 65, after line 15, and the following new title:

TITLE VIII—MILITARY LANDS AND OVERFLIGHTS

SEC. 801. SHORT TITLE AND FINDINGS.

(a) SHORT TITLE.—This title may be cited as the "California Military Lands Withdrawal and Overflights Act of 1991".

(b) FINDINGS.—The Congress finds that—

(1) the Federal lands within the desert regions of California have provided essential opportunities for military training, research, and development for the Armed Forces of the United States and allied nations;

(2) alternative sites for military training and other military activities carried out on

Federal lands in the California desert area are not readily available;

(3) While changing world conditions have lessened to some extent the immediacy of military threats to the national security of the United States and its allies, there remains a need for military training, research, and development activities of the types that have been carried out on Federal lands in the California desert area; and

(4) continuation of existing military training, research, and development activities, under appropriate terms and conditions, is not incompatible with the protection and proper management of the natural, environmental, cultural, and other resources and values of the Federal lands in the California desert area.

SEC. 802. WITHDRAWALS.

(a) CHINA LAKE.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragarph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) use as a research, development, test, and evaluation laboratory;

(B) use as a range for air warfare weapons and weapon systems;

(C) use as a high hazard training area for aerial gunnery, rocketry, electronic warfare and countermeasures, tactical maneuvering and air support; and

(D) subject to the requirements of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands, located within the boundaries of the China Lake Naval Weapons Center, comprising approximately 1,100,000 acres in Inyo, Kern, and San Bernardino Counties, California, as generally depicted on a map entitled "China Lake Naval Weapons Center Withdrawal—Proposed", dated January 1985, and filed in accordance with section 803.

(b) CHOCOLATE MOUNTAIN.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragraph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing and the geothermal leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) testing and training for aerial bombing, missile firing, tactical maneuvering and air support; and

(B) subject to the provisions of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands comprising approximately 226,711 acres in Imperial County, California, as generally depicted on a map entitled "Chocolate Mountain Aerial Gunnery Range Proposed—Withdrawal" dated November 1991 and filed in accordance with section 803.

SEC. 803. MAPS AND LEGAL DESCRIPTIONS.

(a) PUBLICATION AND FILING REQUIREMENT.—As soon as practicable after the date of enactment of this title, the Secretary of the Interior shall—

(1) publish in the Federal Register a notice containing the legal description of the lands withdrawn and reserved by this title; and

(2) file maps and the legal description of the lands withdrawn and reserved by this title with the Committee on Energy and Natural Resources of the United States Senate and with the Committee on Interior and Insular Affairs of the United States House of Representatives.

(b) TECHNICAL CORRECTIONS.—Such maps and legal descriptions shall have the same force and effect as if they were included in this title except that the Secretary of the Interior may correct clerical and typographical errors in such maps and legal descriptions.

(c) AVAILABILITY FOR PUBLIC INSPECTION.—Copies of such maps and legal descriptions shall be available for public inspection in the Office of the Director of the Bureau of Land Management, Washington, District of Columbia; the Office of the Director, California State Office of the Bureau of Land Management, Sacramento, California; the office of the commander of the Naval Weapons Center, China Lake, California; the office of the commanding officer, Marine Corps Air Station, Yuma Arizona; and the Office of the Secretary of Defense, Washington, District of Columbia.

(d) REIMBURSEMENT.—The Secretary of Defense shall reimburse the Secretary of the Interior for the cost of implementing this section.

SEC. 804. MANAGEMENT OF WITHDRAWN LANDS.

(a) MANAGEMENT BY THE SECRETARY OF THE INTERIOR.—(1) Except as provided in subsection (g), during the period of the withdrawal the Secretary of the Interior shall manage the lands withdrawn under section 802 pursuant to the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) and other applicable law, including this title.

(2) To the extent consistent with applicable law and Executive orders, the lands withdrawn under section 802 may be managed in a manner permitting—

(A) the continuation of grazing pursuant to applicable law and Executive orders where permitted on the date of enactment of this title;

(B) protection of wildlife and wildlife habitat;

(C) control of predatory and other animals;

(D) recreation (but only on lands withdrawn by section 802(a) (relating to China Lake));

(E) the prevention and appropriate suppression of brush and range fires resulting from nonmilitary activities; and

(F) geothermal leasing on the lands withdrawn under section 802(a) (relating to China Lake).

(3)(A) All nonmilitary use of such lands, including the uses described in paragraph (2), shall be subject to such conditions and restrictions as may be necessary to permit the military use of such lands for the purposes specified in or authorized pursuant to this title.

(B) The Secretary of the Interior may issue any lease, easement, right-of-way, or other authorization with respect to the nonmilitary use of such lands only with the concurrence of the Secretary of the Navy.

(b) CLOSURE TO PUBLIC.—(1) If the Secretary of the Navy determines that military operations, public safety, or national security require the closure to public use of any road, trail, or other portion of the lands withdrawn by this title, the Secretary may take such action as the Secretary determines necessary or desirable to effect and maintain such closure.

(2) Any such closure shall be limited to the minimum areas and periods which the Secretary of the Navy determines are required to carry out this subsection.

(3) Before and during any closure under this subsection, the Secretary of the Navy shall—

(A) keep appropriate warning notices posted; and

(B) take appropriate steps to notify the public concerning such closures.

(c) MANAGEMENT PLAN.—The Secretary of the Interior (after consultation with the Secretary of the Navy) shall develop a plan for the management of each area withdrawn under section 802 during the period of such withdrawal. Each plan shall—

(1) be consistent with applicable law;

(2) be subject to conditions and restrictions specified in subsection (a)(3);

(3) include such provisions as may be necessary for proper management and protection of the resources and values of such area; and

(4) be developed not later than three years after the date of enactment of this title.

(d) BRUSH AND RANGE FIRES.—The Secretary of the Navy shall take necessary precautions to prevent and suppress brush and range fires occurring within and outside the lands withdrawn under section 802 as a result of military activities and may seek assistance from the Bureau of Land Management in the suppression of such fires. The memorandum of understanding required by subsection (e) shall provide for Bureau of Land Management assistance in the suppression of such fires, and for a transfer of funds from the Department of the Navy to the Bureau of Land Management as compensation for such assistance.

(e) MEMORANDUM OF UNDERSTANDING.—(1) The Secretary of the Interior and the Secretary of the Navy shall (with respect to each land withdrawal under section 802) enter into a memorandum of understanding to implement the management plan developed under subsection (c). Any such memorandum of understanding shall provide that the Director of the Bureau of Land Management shall provide assistance in the suppression of fires resulting from the military use of lands withdrawn under section 802 if requested by the Secretary of the Navy.

(2) The duration of any such memorandum shall be the same as the period of the withdrawal of the lands under section 802.

(f) ADDITIONAL MILITARY USES.—(1) Lands withdrawn by section 802 may be used for defense-related uses other than those specified in such section. The Secretary of Defense shall promptly notify the Secretary of the Interior in the event that the lands withdrawn by this title will be used for defense-related purposes other than those specified in section 802. Such notification shall indicate the additional use or uses involved, the proposed duration of such uses, and the extent to which such additional military uses of the withdrawn lands will require that additional or more stringent conditions or restrictions be imposed on otherwise-permitted nonmilitary uses of the withdrawn land or portions thereof.

(g) MANAGEMENT OF CHINA LAKE.—(1) The Secretary of the Interior may assign the management responsibility for the lands withdrawn under section 802(a) to the Secretary of the Navy who shall manage such lands, and issue leases, easements, rights-of-way, and other authorizations, in accordance with this title and cooperative management arrangements between the Secretary of the Interior and the Secretary of the Navy. In the case that the Secretary of the Interior assigns such management responsibility to the Secretary of the Navy before the development of the management plan under subsection (c), the Secretary of the Navy (after consultation with the Secretary of the Interior) shall develop such management plan.

(2) The Secretary of the Interior shall be responsible for the issuance of any lease, easement, right-of-way, and other authorization with respect to any activity which involves both the lands withdrawn under section 802(a) and any other lands. Any such authorization shall be issued only with the consent of the Secretary of the Navy and, to the extent that such activity involves lands withdrawn under section 802(a), shall be subject to such conditions as the Secretary of the Navy may prescribe.

(3) The Secretary of the Navy shall prepare and submit to the Secretary of the Interior an annual report on the status of the natural and cultural resources and values of the lands withdrawn under section 802(a). The Secretary of the Interior shall transmit such report to the committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(4) The Secretary of the Navy shall be responsible for the management of wild horses and burros located on the lands withdrawn under section 802(a) and may utilize helicopters and motorized vehicles for such purposes. Such management shall be in accordance with laws applicable to such management of public lands and with an appropriate memorandum of understanding between the Secretary of the Interior and the Secretary of the Navy.

(5) Neither this title nor any other provision of law shall be construed to prohibit the Secretary of the Interior from issuing and administering any lease for the development and utilization of geothermal steam and associated geothermal resources on the lands withdrawn under section 802(a) pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) and other applicable law, but no such lease shall be issued without the concurrence of the Secretary of the Navy.

(6) This title shall not affect the geothermal exploration and development authority of the Secretary of the Navy under section 2689 of title 10, United States Code, except that the Secretary of the Navy shall obtain the concurrence of the Secretary of the Interior before taking action under that section with respect to the lands withdrawn under section 802(a).

SEC. 805. DURATION OF WITHDRAWALS.

(a) DURATION.—The withdrawal and reservation established by this title shall terminate 15 years after the date of enactment of this title.

(b) DRAFT ENVIRONMENTAL IMPACT STATEMENT.—No later than 12 years after the date of enactment of this title, the Secretary of the Navy shall publish a draft environmental impact statement concerning continued or renewed withdrawal of any portion of the lands withdrawn by this title for which that Secretary intends to seek such continued or renewed withdrawal. Such draft environmental impact statement shall be consistent with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applicable to such a draft environmental impact statement. Prior to the termination date specified in subsection (a), the Secretary of the Navy shall hold a public hearing on any draft environmental impact statement published pursuant to this subsection. Such hearing shall be held in the State of California in order to receive public comments on the alternatives and other matters included in such draft environmental impact statement.

(c) EXTENSIONS OR RENEWALS.—The withdrawals established by this title may not be extended or renewed except by an Act or joint resolution.

SEC. 806. ONGOING DECONTAMINATION.

(a) PROGRAM.—Throughout the duration of the withdrawals made by this title, the Secretary of the Navy, to the extent funds are made available, shall maintain a program of decontamination of lands withdrawn by this title at least at the level of decontamination activities performed on such lands in fiscal year 1986.

(b) REPORTS.—At the same time as the President transmits to the Congress the President's proposed budget for the first fiscal year beginning after the date of enactment of this title and for each subsequent fiscal year, the Secretary of the Navy shall transmit to the Committees on Appropriations, Armed Services, and Energy and Natural Resources of the Senate and to the Committees on Appropriations, Armed Services, and Interior and Insular Affairs of the House of Representatives a description of the decontamination efforts undertaken during the previous fiscal year on such lands and the decontamination activities proposed for such lands during the next fiscal year including:

(1) amounts appropriated and obligated or expended for decontamination of such lands;

(2) the methods used to decontaminate such lands;

(3) amount and types of contaminants removed from such lands;

(4) estimated types and amounts of residual contamination on such lands; and

(5) an estimate of the costs for full decontamination of such lands and the estimate of the time to complete such decontamination.

SEC. 807. REQUIREMENTS FOR RENEWAL.

(a) NOTICE AND FILING.—(1) No later than three years prior to the termination of the withdrawal and reservation established by this title, the Secretary of the Navy shall advise the Secretary of the Interior as to whether or not the Secretary of the Navy will have a continuing military need for any of the lands withdrawn under section 802 after the termination date of such withdrawal and reservation.

(2) If the Secretary of the Navy concludes that there will be a continuing military need for any of such lands after the termination date, the Secretary shall file an application for extension of the withdrawal and reservation of such needed lands in accordance with the regulations and procedures of the Department of the Interior applicable to the extension of withdrawals of lands for military uses.

(3) If, during the period of withdrawal and reservation, the Secretary of the Navy decides to relinquish all or any of the lands withdrawn and reserved by this title, the Secretary shall file a notice of intention to relinquish with the Secretary of the Interior.

(b) CONTAMINATION.—(1) Before transmitting a notice of intention to relinquish pursuant to subsection (a), the Secretary of Defense, acting through the Department of Navy, shall prepare a written determination concerning whether and to what extent the lands that are to be relinquished are contaminated with explosive, toxic, or other hazardous materials.

(2) A copy of such determination shall be transmitted with the notice of intention to relinquish.

(3) Copies of both the notice of intention to relinquish and the determination concerning the contaminated state of the lands shall be published in the Federal Register by the Secretary of the Interior.

(c) DECONTAMINATION.—If any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is contaminated, and the Secretary of the Interior, in consultation with the Secretary of the Navy, determines that decontamination is practicable and economically feasible (taking into consideration the potential future use and value of the land) and that upon decontamination, the land could be opened to operation of some or all of the public land laws, including the mining laws, the Secretary of the Navy shall decontaminate the land to the extent that funds are appropriated for such purpose.

(d) ALTERNATIVES.—If the Secretary of the Interior, after consultation with the Secretary of the Navy, concludes that decontamination of any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is not practicable or economically feasible, or that the land cannot be decontaminated sufficiently to be opened to operation of some or all of the public land laws, or if Congress does not appropriate a sufficient amount of funds for the decontamination of such land, the Secretary of the Interior shall not be required to accept the land proposed for relinquishment.

(e) STATUS OF CONTAMINATED LANDS.—If, because of their contaminated state, the Secretary of the Interior declines to accept jurisdiction over lands withdrawn by this title which have been proposed for relinquishment, or if at the expiration of the withdrawal made by this title the Secretary of the Interior determines that some of the lands withdrawn by this title are contaminated to an extent which prevents opening such contaminated lands to operation of the public land laws—

(1) the Secretary of the Navy shall take appropriate steps to warn the public of the contaminated state of such lands and any risks associated with entry onto such lands;

(2) after the expiration of the withdrawal, the Secretary of the Navy shall undertake no activities on such lands except in connection with decontamination of such lands; and

(3) the Secretary of the Navy shall report to the Secretary of the Interior and to the Congress concerning the status of such lands and all actions taken in furtherance of this subsection.

(f) REVOCATION AUTHORITY.—Notwithstanding any other provision of law, the Secretary of the Interior, upon deciding that it is in the public interest to accept jurisdiction over lands proposed for relinquishment pursuant to subsection (a), is authorized to revoke the withdrawal and reservation established by this title as it applies to such lands. Should the decision be made to revoke the withdrawal and reservation, the Secretary of the Interior shall publish in the Federal Register an appropriate order which shall—

(1) terminate the withdrawal and reservation;

(2) constitute official acceptance of full jurisdiction over the lands by the Secretary of the Interior; and

(3) state the date upon which the lands will be opened to the operation of some or all of the public lands laws, including the mining laws.

SEC. 808. DELEGABILITY.

(a) DEFENSE.—The functions of the Secretary of Defense or the Secretary of the Navy under this title may be delegated.

(b) INTERIOR.—The functions of the Secretary of the Interior under this title may be delegated, except that an order described in section 807(f) may be approved and signed only by the Secretary of the Interior, the Under Secretary of the Interior, or an Assistant Secretary of the Department of the Interior.

SEC. 809. HUNTING, FISHING, AND TRAPPING.

All hunting, fishing, and trapping on the lands withdrawn by this title shall be conducted in accordance with the provisions of section 2671 of title 10, United States Code.

SEC. 810. IMMUNITY OF UNITED STATES.

The United States and all departments or agencies thereof shall be held harmless and shall not be liable for any injury or damage to persons or property suffered in the course of any geothermal leasing or other authorized nonmilitary activity conducted on lands described in section 802 of this title.

SEC. 811. EL CENTRO RANGES.

The Secretary of the Interior is authorized to permit the Secretary of the Navy to use until January 1, 1994, the approximately 44,870 acres of public lands in Imperial County, California, known as the East Mesa and West Mesa ranges, in accordance with the Memorandum of Understanding dated June 29, 1987, between the Bureau of Land Management, the Bureau of Reclamation, and the Department of the Navy. Such use shall be consistent with such Memorandum of Understanding and such additional terms and conditions as the Secretary of the Interior may require in order to protect the natural, scientific, environmental, cultural, and other resources and values of such lands and to minimize the extent to which use of such lands for military purposes impedes or restricts use of such or other public lands for other purposes. All military uses of such lands shall cease on January 1, 1994, unless authorized by subsequent Act of Congress.

SEC. 812. MILITARY OVERFLIGHTS.

(a) DISCLAIMER.—Nothing in this Act shall preclude low-level overflights by military aircraft, the designation of new units of special airspace, or the use or establishment of military flight training routes over the new units of the National Park or National Wilderness Preservation Systems (or any additions to existing units of such Systems) designated by this Act.

(b) MONITORING.—The Secretary of the Interior shall monitor the effects of aircraft overflights on the resources and values of the units of the National Park System and National Wilderness Preservation System designated or expanded by this Act, and on visitor enjoyment of such units. The Secretary of the Interior shall actively seek the assistance of the Secretary of Defense, consistent with national security needs, to resolve concerns related to such overflights and to prevent, eliminate, or minimize the derogation of resources and values and of visitor enjoyment associated with overflight activities.

□ 1320

PRESS CONFERENCE FROM THE OVAL OFFICE

(Mr. GINGRICH asked and was given permission to address the House for 1 minute.)

Mr. GINGRICH. Mr. Speaker, as I promised earlier, I wanted to read into the RECORD the transcript, 11:35 a.m. this morning, the Oval Office.

QUESTION. Mr. President, what do you really think about the economic package that was presented to you yesterday?

The PRESIDENT. I'm for it.

QUESTION. You're for it?

The PRESIDENT. Yes.

QUESTION. How strongly?

The PRESIDENT. That's what I've said.

QUESTION. Enough to keep Congress in session?

The PRESIDENT. Listen, Congress has been here all year long. If they want to pass this, let them pass it today.

QUESTION. You're not going to ask them to stay in?

The PRESIDENT. I want the package passed and I want to see it done fast. And I've wanted a lot of legislation that they've had all year to pass. And this kind of ploy at the end is just that—it's a ploy. We've got a good package up there. I've had one up there all year long. Now there's another good one. Let's see them vote on it. They can vote if they want to. This idea of dancing around, that's not good enough for the American people.

QUESTION. The Republicans—

The PRESIDENT. Look, we've got to get on with our business here. Put me down as enthusiastically for it.

QUESTION. You were misinterpreted, weren't you?

The PRESIDENT. Misinterpreted. If they just print what I say, what our statements say, then we would avoid some of this intepretation. I am for this; would like to see it voted on today. And there's no point in Congress sticking around, in my view.

QUESTION. Sir, the economy troubled ordinary Americans wonder why not keep them in?

The PRESIDENT. Because they've been here all year long and the economy is in trouble. That's the answer.

PARLIAMENTARY INQUIRY

Mr. ABERCROMBIE. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore (Mr. MAZZOLI). The gentleman will state it.

Mr. ABERCROMBIE. Mr. Speaker, did the gentleman read the entire transcript or read it selectively? I have the transcript here, and I notice he has left key words out at key points.

The SPEAKER pro tempore. The Chair would advise the gentleman that that is not a parliamentary inquiry.

CALIFORNIA DESERT PROTECTION ACT OF 1991

The SPEAKER pro tempore. Pursuant to House Resolution 279 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 2929.

□ 1322

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 2929) to designate certain lands in the California desert as wilderness, to establish the Death Valley, Joshua Tree, and Mojave National Park, and for other purposes, with Mr. GLICKMAN, Chairman pro tempore, in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore (Mr. GLICKMAN). When the Committee of the Whole rose on Friday, November 22, 1991, amendment No. 1 offered by the gentleman from California [Mr. LEWIS] has been disposed of.

It is now in order to consider amendment No. 2 printed in House Report 102-314.

Mr. LEHMAN of California. Mr. Chairman, if I might, that amendment will be offered later in the en bloc amendment offered by the gentleman from California [Mr. MILLER]. We are not going to offer it at this time.

The CHAIRMAN pro tempore. Since that amendment will be deferred, it is now in order to consider amendment No. 3 printed in House Report 102-314.

PARLIAMENTARY INQUIRY

Mr. LEWIS of California. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. LEWIS of California. Mr. Chairman, the bill has been brought up in relatively short notice in terms of the circumstance of these closing moments. Is there a way of giving reasonable notice, of deferring this?

I do not want to see a Member lose their opportunity because they do not know that we are up yet.

Mr. LEHMAN of California. Mr. Chairman, I have no objection, if the gentleman from California [Mr. DANNEMEYER] wants to reserve his space.

Mr. LEWIS of California. Mr. Chairman, it is clear that really none of these Members are here. It is a delicate circumstance.

The CHAIRMAN pro tempore. Without objection, the gentleman may strike the last word. In the Committee of the Whole, the Chair cannot entertain the request to change the order of amendments when it was stated in the rule.

There was no objection.

Mr. LEWIS of California. Mr. Chairman, I move to strike the last word.

My concern is that we do have a number of amendments that Members are serious about because we are in the closing day and because of the confusing schedule.

I would hope that we could give Members who have amendments filed notice immediately, if we could proceed with that, so that we do not literally cut the sand from under the feet of a Member who is legitimately in line to be heard but may not know that he is up yet, if there is a way we can handle that.

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. LEWIS of California. I yield to the gentleman from Minnesota.

PARLIAMENTARY INQUIRY

Mr. VENTO. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. VENTO. Mr. Chairman, I note that the gentleman from Guam [Mr. BLAZ] has an amendment that is not controversial and the gentleman is present. If we could ask unanimous consent, I thought perhaps we could move ahead with that.

The CHAIRMAN pro tempore. The Chair would state that the gentleman from California [Mr. MILLER] chairman of the committee can offer amendments en bloc at any time. The Chair unfortunately cannot by unanimous consent recognize for amendments out of order since in the Committee of the Whole and the order was provided in the rule.

The Chair would recommend either that the gentleman from California be recognized or else the Chair would recognize Members to strike the last word, without objection, if there is no objection, for a short period of time until such time as we get reasonable notice to Members.

The Chair agrees with the gentleman from California, this bill did come up instantly.

It is now in order to consider amendment No. 3 printed in House Report 102-314.

AMENDMENTS EN BLOC OFFERED BY MR. DANNEMEYER

Mr. DANNEMEYER. Mr. Chairman, I offer amendments en bloc.

The CHAIRMAN pro tempore. The Clerk will designate the amendments en bloc.

The text of the amendments en bloc is as follows:

Amendments en bloc offered by Mr. DANNEMEYER:

Page 43, strike line 11 and all that follows through line 7 on page 54 (all of title IV), and redesignate succeeding titles accordingly.

Page 55, strike lines 11 through 20, and on line 21 strike "(4)" and insert "(3)".

The CHAIRMAN pro tempore. Under the rule, the gentleman from California [Mr. DANNEMEYER] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

The Chair recognizes the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. Mr. Chairman, I rise in support of this amendment to strike from the bill the inclusion of what is known as the East Mohave area. I think it is appropriate to talk about the political force that essentially is driving the consideration by the House to lock up this area of our State.

Three years ago I sent an intern to the records of the Federal Elections Commission and asked that intern to check an analysis of the records on file there for some of the organizations that comprise the Environmental Party in American politics.

This list is by no means exclusive, but the organizations in that unit include the following: The Center for Marine Conservation, the Clean Water Action Project, the Environmental Defense Fund, Greenpeace U.S.A., National Audubon Society, National Wildlife Federation, Natural Resources Defense Council, the Nature Conservancy, Public Interest Research Groups, the Sierra Club, the Wilderness Society, and the World Wildlife Fund.

This is a short list, by no means exclusive. These organizations have a combined membership in the country of a little less than 13 million people who annually put up $335 million to influence public policy.

□ 1330

Of that sum, about $127 million is spent on grassroots lobbying. The two major political parties in the country, the Democratic Party and the Republican Party, have a contributing base of about 2.3 million people, that is at the national level, who annually put up about $93 million to influence all aspects of public policy. So the Environmental Party has four times the contributing base and four times the resources to influence public policy.

No one who hears my comments should believe that these people do not have the right to organize into a party and influence public policy. I am not saying that at all. I am just saying that we Americans better wake up to the reality that this Environmental Party seeks to change our society to one that worships the creation rather that the creator. If you wander through life and you do not believe in a hereafter, which I believe the leaders of the Environmental Party do not, what they see in this world is all there ever will be and they get disturbed when anybody wants to tear down a tree and make a piece of lumber to build a house, or if somebody wants to catch a fish or if somebody wants to bag a deer and eat that meat or share it with somebody else, these people in the Environmental Party get real uptight. This is the movement we are dealing with in this issue.

In the East Mojave area I think we should understand something. It is comprised of 210,000 acres. The Union Pacific Transcontinental Railroad cuts across the area for 55 miles and forms 35 miles of the southwest boundary. We have about 40,000 miners mining the minerals in the State of California, and about 20,000 have their jobs in this area. The reality is if this bill passes is that these 20,000 jobs are going to be gone.

I have never been able to understand why the proponents of this legislation who profess such a tender concern for the working men and women of our society; namely, the members of the Democratic Party, are so unconcerned about the loss of jobs and economic growth and activity that is going to take place in the State of California if this measure is adopted.

Let me just recite to my colleagues some of the activity that is going on in this area. Over 10,000 mining claims exist. Four hundred and thirty thousand acres in the East Mojave have been leased for oil and gas development. Over 2,500 miles of major and secondary roads cover the proposed monument. Since grazing allotments encompass more than 90 percent of the East Mojave, over 700 miles of cattle fence, water pipelines, tanks, troughs, an corrals exist in this area.

AT&T, Sprint, and Wiltel have miles of cable, including fiberoptics, running across the area. A natural gas pipeline runs almost 40 miles along the southern section of the proposed monument. Southern California Edison maintains 75 miles of wood pole power lines. Pacific telephone lines wind on for 120 miles inside the designated area. High voltage steel tower transmission lines criss-cross the area. Southern California Edison shares 425 miles of power lines with the Los Angeles Department of Water and Power.

In short, this is a developed area of southern California. It is desert area, it is true, but it is a vast resource of minerals that the people of this country need, the 20,000 people working in this region of our State need for a livelihood.

I ask for an "aye" vote for this amendment that would delete this portion from the bill.

The CHAIRMAN. The time of the gentleman from California [Mr. DANNEMEYER] has expired.

Does the gentleman from California [Mr. LEHMAN] oppose the amendment?

Mr. LEHMAN of California. Mr. Speaker, I am opposed to the amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] is recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, it is hard to take this amendment seriously, but I will, and it is certainly not my intention to get into a theological discussion this afternoon with my good friend, the gentleman from California [Mr. DANNEMEYER].

This is one of the most important parts of this legislation that Mr. DANNEMEYER seeks to gut, the designation of the East Mojave as a national monument. When we examined all of the areas in the California Desert, 25 million acres, we found the East Mojave to be one of the most deserving of protection, and in fact so well deserving that we decided to give it a higher designation. The original proposal had this area designated as a national park. We made it as a national monument in the legislation on the floor to facilitate some more multiple use planning.

Both the Bureau of Land Management and the National Park Service professional staff have studied the Mojave's resources and have made strong recommendations for designation of the area as a national park. I quote from the Park Service study on the East Mojave:

> Cultural and natural resource values of the East Mojave study area are so diverse and outstanding that the area readily qualifies for national park or monument status. In all the California Desert, and I am quoting from this study by the Park Service, there is no finer grouping of different wildlife habitats than the East Mojave.

What about the mineral and geological aspects of the East Mojave? Well, it is not as Mr. DANNEMEYER has stated. According to a recent U.S. Geological Survey report on the East Mojave, and I quote from it,

> The prospects for further mineral discoveries in the Mojave are relatively poor.

In the parlance of mineral resources, this does not appear to be an area of world class deposits.

Again with respect to the wilderness areas in this bill, the mining can continue. Mining has not been prohibited and will not be. Indeed, with respect to the major mine in the East Mojave we have not designated that land as wilderness to even give them a further protection there in the park to continue to mine under the auspices of the Park Service.

The East Mojave is the gem of the California Desert. We recognize it as such in this legislation. Not even the gentleman from California [Mr. LEWIS], who in his substitute last week changed the designations of this area went as far as the gentleman from California [Mr. DANNEMEYER] and removed all protections of this area, whether it is wilderness or Park Service. This takes all protection from the East Mojave and keeps the status quo.

Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO], the chairman of the Subcommittee on National Parks and Public Lands.

Mr. VENTO. Mr. Chairman, I rise in opposition to these Dannemeyer amendments en bloc.

These amendments would delete from the bill the sections that establish the East Mojave National Monument and that designate as wilderness some of the lands within that unit of the National Park System.

As has been noted before, national monument status for the East Mojave area has been supported by the professional judgment of the land managers: In 1979, the BLM reported that—

> Cultural and natural resource value of the East Mojave area are so diverse and outstanding that the area readily qualifies for national park or monument status.

And in 1987, after reviewing the proposed designation of the area as a national park, the professional staff of the National Park Service's western region found that the area met the required criteria specified in the service's management policies, and they concluded that the area would be a worthy and valuable addition to the National Park System.

The Interior Committee agreed with those professional judgments, and the House should do so, too, and should reject these Dannemeyer amendments en bloc.

The Dannemeyer amendments also should be rejected because they would delete from the bill all the wilderness designations for lands within the East Mojave area. The President has proposed that some of these lands be designated as wilderness.

The substitute offered by the gentleman from California [Mr. LEWIS], designated some of these lands as wilderness. The gentleman offering these amendments voted for that substitute, so he evidently supports designation of some wilderness in the East Mojave. The gentleman's amendment has consequences that he doesn't intend or he has changed his views.

The lands that would be designated as wilderness by the bill have wilderness values, and they should be so designated and managed, which would not occur if these Dannemeyer en bloc amendments were adopted. I urge the House to reject the Dannemeyer amendments.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the distinguished gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I rise in opposition to this amendment. The amendment would gut the essence of this legislation. It is extremely important to protect this extraordinarily fragile and vital resource. The East Mojave, as the chairman of the subcommittee indicated, was originally designated a national park. It is now designated a national monument. The subcommittee chairman read quotes that are extremely important that emphasize that the staff of both the BLM and the National Park Service have come to the conclusion that the East Mojave is worthy of national park status.

I would like to respond briefly to two points of the proponent, one to suggest that this is a lockup, a canard. The fact is this is a preservation provision that is essential to this extraordinary resource. Second, although I do not intend, either, to get into a theological debate, to suggest that this amendment should be passed because somehow environmentalists are subversive or ungodly is not worthy of a response, but certainly is not an appropriate reason to not protect this extraordinarily precious resource.

Mr. LEHMAN of California. Mr. Chairman, I yield myself the remaining time.

The CHAIRMAN. The gentleman from California is recognized for 1 minute.

Mr. LEHMAN of California. Mr. Chairman, the quote I read earlier was from the Bureau of Land Management desert planning staff that was submitted to the Park Service on the study of the East Mojave. As I alluded to, a study was also done by the National Park Service. The Regional Director of the Park Service recommended that the Mojave, and I quote, "would be a worthy and valuable addition to the National Park System."

□ 1340

In addition, we have allowed for in the bill under national monument status that we can make some adjustments outside just the domain of being in the park as far as land use management in the area is concerned. We have accommodated the utilities that exist in the area and none of them are opposed to this legislation. We have worked with the cattle interests in the area and have gone beyond what is usually done in a national park in terms of the 10-year phaseout or an immediate phaseout and given them up to 25 years for those six operations in the area.

Mr. Speaker, this is a bad amendment. It kills our bill. I ask for a "no" vote.

The CHAIRMAN. The question is on the amendments en bloc offered by the gentleman from California [Mr. DANNEMEYER].

The amendments en bloc were rejected.

The CHAIRMAN. It is now in order to consider amendment No. 4 printed in House Rept. 102-314.

For what purpose does the gentleman from Montana [Mr. MARLENEE] rise?

AMENDMENTS OFFERED BY MR. MARLENEE

Mr. MARLENEE. Mr. Chairman, I offer amendments.

The CHAIRMAN. The Clerk will designate the amendments.

The text of the amendments is as follows:

> Amendments offered by Mr. MARLENEE: Page 44, line 16, insert "(a)" after "402.".
>
> Page 44, after line 25, add the following:
>
> (b) The Secretary shall permit hunting on all lands within the monument in accordance with applicable Federal and State law. The Secretary may, after consultation with the California Department of Fish and Game, designate zones where, and establish periods when, such activities will not be permitted for reasons of public safety, administration, fish and wildlife habitat, or public use and enjoyment, subject to terms and conditions as he deems necessary in furtherance of this Act. Nothing in this Act shall be construed as affecting the jurisdiction or responsibilites of the State of California with respect to fish and wildlife.

The CHAIRMAN. Under the rule, the gentleman from Montana [Mr. MARLENEE] will be recognized for 5 minutes and a Member opposed will be recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I oppose the amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair recognizes the gentleman from Montana [Mr. MARLENEE].

Mr. MARLENEE. Mr. Chairman, I yield 2 minutes to the gentleman from Pennsylvania [Mr. SCHULZE].

Mr. SCHULZE. Mr. Chairman I rise in strong support of the Marlenee amendment to H.R. 2929, the California Desert Protection Act. The Marlenee amendment would protect hunters rights in the Mojave National Monument created by H.R. 2929.

Public lands provide access to hunters who don't have the financial ability to own their own land or belong to a private hunting club.

Restricting access to an additional 1.5 million acres would further diminish the multiple use of our public lands. In addition to prohibiting hunting on the Mojave Monument, the designation of 4.3 million acres of wilderness in H.R. 2929 further restricts the opportunity for hunters.

Although hunting is allowed in wilderness areas, restricted access to those areas makes it much more difficult for the hunter to utilize the area.

Hunting and hunters have contributed greatly to wildlife and wildlife management. The foundation for the conservation of desert bighorn sheep and many other conservation organizations should be commended for their work in reestablishing viable wildlife populations.

They should not be punished by having access to public lands denied or restricted.

Allowing hunting in this area will contribute greatly to the management of wildlife species. In my home State of Pennsylvania, we have the Gettysburg National Military Park and the Eisenhower National Historic Site. Both of these areas are managed by the Park Service and hunting is not allowed.

Because no hunting is allowed, deer populations have soared and are six times greater than the carrying capacity of the ecosystem. This is causing severe economic and environmental stress.

Do not let this happen in the Mojave National Monument. For the conservation of our Nation's wildlife, I urge my colleagues to support the Marlenee amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, I oppose this amendment. The gentleman from Minnesota [Mr. VENTO] will go into the arguments with regard to Park Service rules.

The desert has 25 million acres in it, my friends. Three million acres are in the Mojave area and have always been off limits to hunting. Less than 1 million acres are in Joshua Tree and have always been off limits. That leaves 21 million acres.

With this bill, an additional 1.5 million acres out of the mix would be put in the national monument and hunting will not be allowed in that area. There will still be almost 19 million acres on the desert where you can hunt.

Now, the good gentleman talks about wildlife in this area. The facts should be clearly on top, especially with respect to deer. Last year in California we shot 30,000 deer statewide. How many were shot in the East Mojave? Exactly 25.

In response to that statistic, in committee the gentleman from Montana [Mr. MARLENEE] said, well, a lot of us like maybe not just to shoot, but to go walk around out there.

Well, that is fine, but you still have 19 million acres on which to do that.

Everyone in this bill in order to protect the California desert is being asked to give just a little. The utilities have given a little. The cattle interests are giving a little. The mining interests are giving a little. This should not be the only group not to give anything to protect the species in the area.

Mr. Chairman, I ask for a no vote.

Mr. MARLENEE. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, recently a "Dear Colleague" letter was circulated by those who oppose this amendment. That "Dear Colleague" letter said this would destroy the few remaining big game species in that area. What a misleading statement that is; what a blatantly/misleading statement that is.

I assure you and I assure all my colleagues that it must be an insult to the California State Fish and Game Department, under those whose control the harvesting of wild game takes place.

It further states that there are very few animals to hunt and very few animals taken. That is not the question. What we are trying to do here is protect the areas and the accessibility and the opportunity for sportsmen across the United States of America, sportsman who in fact have put waterholes and water out there, reintroduced the big horn desert sheep in that particular area, and now the antihunters are going to tell those sportsmen they are going to remove 1.5 million acres because somebody said we ought not to allow hunting.

They will also tell you that this is unprecedented that we are allowing hunting on national parks, but there is a precedent. In these particular areas, Big Cypress Reserve of Florida, Delware Water, Fire Island National, Glenn Canyon area, all these areas are in the National Park System and allow hunting to take place.

The harvesting of game is natural and it must take place to prevent overpopulation and degradation of the envionment.

I am chagrined that such a misleading "Dear Colleague" letter would be sent out.

You know, this amendment is simple. It is either you are for the sportsmen or you are against them.

We want no net loss of hunting or hunting areas to take place.

Mr. LEHMAN of California. Mr. Chairman, I yield 2 minutes to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in strong opposition to the amendment, which would open to hunting the new East Mojave National Monument designated by this bill.

I am a hunter and I do not think we need to hunt in national parks and monuments.

The fact of the matter is the list the gentleman from Montana placed up there are not national parks or monunments. There is only one national park on that list, and that is the Grand Tetons, and that is the hunting of elk, and the individuals who do that have to be deputize to do so, so what we are about to do or what the gentleman proposes to do is to throw our a 75-year history of policy with regard to national parks and monuments that are established to preserve the species in perpetuity, but the gentleman would say we are going to reverse this whole policy. We are going to stand it on its head because the hunters of America look at this as a symbol. I do not think this is a symbol. I think we have to get down to the facts, and the facts are that in order for people to hunt, there has to be game in these particular areas. There is very little game in these areas.

What we are saying in this type of Mojave Desert area is that we want to see the natural processes take place without being interfered with by man, permitting the types of desert species that occur there to live in as natural a condition as possible.

We know that most hunters are good people; they are conservationists. We also know that there are a lot of directional and informational signs that get shot up and a lot of other damage that goes on in some of these areas because some people—some hunters—are not as responsible.

So I will just emphasize, Mr. Chairman, we are being asked here to reverse a 75-year time-honored policy with regard to the National Park System. All the other units that permit such activities are preserves. In Alaska we have some examples, and the Tetons, where individuals have to be deputized in order to hunt.

The amendment would undermine one of the basic, longstanding principles under which National Park System monuments and national parks are managed—that they are sanctuaries for wildlife, and are off limits to sport hunting.

I understand that supporters of this amendment claim that it is necessary in order to save hunting on public lands in California. Of course, that is not the case. Just in the California desert alone, there are millions and millions of acres of public lands that would be left wide open to hunting by this bill. Establishment of the East Mojave National Monument is not a threat to hunting on these other lands, and there is no need to save hunting through this amendment.

Furthermore, hunters hunt game—they don't hunt acres. It's true the East Mojave is a fairly large area, but it is not really one that is important for hunters. We have been told that of some 30,000 deer taken by hunters in California annually, only about 25 or 30 come from the East Mojave area.

Twenty-five or thirty deer out of 30,000 deer taken annually in California. Obviously, the East Mojave is not an important part of the deer hunting scene in California. And the story is the same for other game species as well.

The fact is, the East Mojave is a rugged desert area, remote from any major population centers. Closing it to hunting will not have any significant effect on hunting opportunities for the sportsmen of California.

The author of the amendment is well aware that there are some types of National Park System units where hunting is permitted—but he is not proposing to change the designation of the East Mojave. So, what is the purpose of this amendment? The answer is, It is an attack on the principle that national parks and national monuments are off limits to hunting.

Finally, Mr. Chairman, I note that many of the backers of this amendment are opposed to the bill, and at the same time they urge a vote for the amendment, they urge opposition to final passage. That tells me that this amendment isn't intended to address any real need to save hunting, but is strictly an attempt to derail the conservation designations in this overall desert legislation and it generally damages 75 years of time honored policy. Not to hunt in national parks and monuments.

I urge the House to reject the amendment.

Mr. MARLENEE. Mr. Speaker, I yield 30 seconds to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. Mr. Chairman and my colleagues, this is another part of the desert lockout bill. I told you the other day that the desert lockout bill locks out 100,000 blue collar families from the California desert, and the South Algodones is doomed.

In this particular area, they are locking out 22,000 blue collar families that, yes, they cannot go deer hunting north in Montana or Wyoming, but they do take the kids and they go out with their campers from L.A., from San Diego and other points in the inland empire to go hunting for a couple days for dove, for quail, and for rabbits in the desert.

□ 1350

This is another part of the Democrat lockout bill.

Support the Marlenee amendment.

Mr. MARLENEE. Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield my remaining 2 minutes to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. I thank the gentleman for yielding.

Mr. Chairman, let me begin by responding to my friend from California who talked about 22,000 hunters in this area. Those 22,000 hunters bagged all of 25 deer last year in the East Mojave.

Now there may be 22,000 hunters, there may be 22,000 hunters in the entire wilderness area, but let us get our facts straight. This bill leaves 9 million wilderness acres available for hunting. The part of the bill that we are talking about is an area which claimed 25 deer, 25 deer.

Now we are talking about the East Mojave. When people claim this is a lockout, which the other side consistently does, let us talk about what we are protecting. We are protecting an essential part of the fragile resource, which we discussed in the last amendment, which was defeated on a voice vote.

This amendment is nothing more than a subterfuge for eroding protection in National Park Service land, national parks and national mounuments in those areas.

It is an effort to allow hunting in parks. It is extraordinarily important to understand what is at stake here. We are simply suggesting that this fragile resource in the East Mojave, leaving 9 million wilderness acres available for hunting, should be protected.

To my friends on the other side who suggest that somehow there is an overpopulation-of-wildlife problem here, that is simply contravened by the facts. This area, this entire area, netted 25 deer. And for the extraordinary effort that is occurring to try to keep hunting in an area which claimed 25 deer in the last year, I believe that tells us what the real intent of this amendment is. The real intent of the amendment is to open up our national parks and to open up our national monuments to hunting.

The CHAIRMAN. The Chair recognizes the gentleman from Montana [Mr. MARLENEE] for 30 seconds.

Mr. MARLENEE. I yield myself 30 seconds.

Mr. Chairman, this is not to open up a national park. They are the ones on that side of the aisle who are creating a new national park that will reserve, 1.5 million acres and take it away from the sportsmen, the sportsmen who have developed the area, who provided watering holes and reintroduced species.

We are not talking about how many game animals that have been harvested during this period of time. We are talking about the opportunities, as my good friend, DUNCAN HUNTER, understands very well, the opportunity to go out there with your family and enjoy a day of hunting and field activity.

The CHAIRMAN. The time of the gentleman from Montana [Mr. MARLENEE] has expired. All time has expired.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from Montana.

The CHAIRMAN. The gentleman is recognized.

Mr. VENTO. Regular order, Mr. Chairman.

Mr. Chairman, under the rule there are 10 minutes given to this amendment. I would ask would it not be appropriate at this time to call for the question?

The CHAIRMAN. The Chair would remind the gentleman from Minnesota [Mr. VENTO] that under the rule the chairman or ranking minority member of the Committee on Interior and Insular Affairs may offer pro forma amendments.

PARLIAMENTARY INQUIRY

Mr. VENTO. Mr. Chairman, as the chairman, I would make a parliamentary inquiry: Has Mr. BLAZ assumed that role?

The CHAIRMAN. Yes. Mr. BLAZ assumed that position during the entire general debate.

The Chair is trying to be consistent.

The gentleman from Montana [Mr. MARLENEE] is recognized.

Mr. MARLENEE. Mr. Chairman, I realize there is an attempt to muzzle this side of the aisle continually, and particularly to muzzle this side of the aisle——

PARLIAMENTARY INQUIRY

Mr. VENTO. Mr. Chairman, a point of parliamentary inquiry. Is a different amendment being offered by the gentleman from Guam?

Mr. MARLENEE. Mr. Chairman, I do not yield. I do not yield. I do not yield.

The CHAIRMAN. The Chair would remind the gentleman from Minnesota the gentleman from Montana [Mr. MARLENEE] has been recognized.

Mr. MARLENEE. Mr. Chairman, as I said, I realize there is a continual attempt by the animal activists to eliminate hunting wherever that opportunity exists. If it was of no significance, why is this amendment supported to such a great degree by the National Rifle Association and other conservation groups such as Quail Unlimited, California Wildlife Federation, California Chapter of the Izaak Walton League, Society for the Conservation of Bighorn Sheep, Safari Club International, Fish and Wildlife Legislative Fund, the International Association of Fish and Wildlife Agencies.

They recognize that we have got to be in a position of no net loss on hunting. Otherwise, we are going to have those strict preservationists take from the American sportsman all of the opportunity to enjoy and participate in outdoor activity.

The CHAIRMAN. The gentleman from Guam [Mr. BLAZ] controls the time, and it will be designated by the gentleman from Guam and not by the Chair.

Mr. BLAZ. I thank the Chair.

Mr. Chairman, I yield to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. I thank the gentleman for yielding.

Mr. Chairman, at this point in the debate I also want to offer my thanks to the gentleman from Guam for his very statesmanlike handling of this particular piece of legislation that has been, I think, a very difficult piece of legislation.

Let me just say to the people on the other side of the aisle who have talked about deer hunting on the Mojave and said, "You are not shooting any deer, so let us lock it up," the Mojave is not a deer hunting area. The Mojave is a place where blue-collar families can get on highway 10 from Los Angeles, millions of them, and you will see literally thousands and thousands of pickups and campers leaving on an exodus every Friday night to go out to the Mojave with their family and to go hunting for a few duck, quail, chukar partridge, maybe jackrabbits and cotton-tail rabbits.

It is not a deer hunting area, but it is a place where the average family in California that cannot afford to go fly fishing in New Zealand, like some of the Sierra Clubbers can, can go out and have a decent time.

We are locking up California, and we are locking it up from precisely the same people, blue-collar people who lost 114,000 jobs over the last year. The Democratic leadership ought to be concentrating on a jobs package, which they refused to bring up today, that will help middle-class America instead of locking them out of national lands.

Mr. SCHULZE. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I am happy to yield to the gentleman from Pennsylvania.

Mr. SCHULZE. I thank the gentleman for yielding.

Mr. Chairman, earlier one of our colleagues referred to the fact that there were something like 30,000 deer harvested in all of California. Let me tell you that close to 40,000 deer a year are killed on the highways in the Commonwealth of Pennsylvania, at an average cost of about $1,000 per incident, not counting the loss of life and limb and hospital bills associated with that. Much of this is due to some unwise utilization of hunting and preservation in certain areas. We have got to have a balance.

The greatest conservationists in the United States of America are the sportsmen of America. They do not want to eliminate species. They have spent thousands and thousands of dollars continuing the propagation of bighorn sheep in this very area.

Mr. HUNTER. I thank the gentleman for his comments. The people who built water guzzlers, they have gone out there and built water guzzlers for small game and big game in the 110-degree heat in the desert, have been sportsmen. They have been people who like to hunt and fish. They developed this desert so that Californians can use it.

We are now in the process of locking Californians out of their own desert.

Mr. MARLENEE. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Montana.

Mr. MARLENEE. I thank the gentleman for yielding.

Mr. Chairman, I note the "Dear Colleague" said that opening up this hunting would destroy the few remaining species of big-game species. How would they do that? That is an incredible statement. How would they do that?

Mr. HUNTER. In the first place, they would not do it because the vast majority of the people who hunt in the Mojave are people who hunt small game, like dove and quail and rabbits.

Second, you have very stringent game laws, and you have game management very effective in California. We can see to it that you have no overharvest.

The facts are that American sportsmen and Californians ought to be trusted. The whole theme of the Democratic side is you cannot trust Californians to use their own public lands. Let us lock them out with their off-road vehicles, they cannot use them in the desert where you have sand dunes; let us lock them out of the hunting areas because you cannot trust them.

You cannot trust them. You have to trust people who live in condominiums in San Francisco and who can go off to foreign countries and have great vacations and come back and say, "Now, for an encore, I am going to lock out some middle-class people."

The CHAIRMAN. The time of the gentleman from Guam [Mr. BLAZ] has expired.

The question is on the amendments offered by the gentleman from Montana [Mr. MARLENEE].

The question was taken, and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. VENTO. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 235, noes 193, not voting 6, as follows:

NOT VOTING—6

Byron
Edwards (OK)
Ford (MI)
Lowery (CA)
Reed
Towns

□ 1420

The Clerk announced the following pairs:

On this vote:

Mr. LOWERY of California for, with Mr. TOWNS against.

Mrs. SCHROEDER, Mr. JAMES, and Mr. HUGHES changed their vote from "aye" to "no."

Mrs. LLOYD and Messrs. TRAXLER, WILSON, CARR, PICKLE, SIKORSKI, BARNARD, ERDREICH, MARTINEZ, and BRYANT changed their vote from "no" to "aye."

So the amendments were agreed to.

The result of the vote was announced as above recorded.

□ 1420

The CHAIRMAN. It is now in order to consider amendment No. 5 printed in House Report 102-314.

AMENDMENTS EN BLOC OFFERED BY MR. DELAY

Mr. DELAY. Mr. Chairman, I offer amendments en bloc.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendments en bloc is as follows:

Amendments en bloc offered by Mr. DELAY: Page 54, beginning on line 1, strike "thereof" and all that follows through "title." on line 7, and insert "thereof.".

Page 65, after line 6, insert the following new section:

LAND ACQUISITION ON A WILLING SELLER BASIS

SEC. 612. Lands may not be acquired by the Secretary for the purposes of this Act without the consent of the owner thereof.

Mr. DELAY (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. Under the rule, the gentleman from Texas [Mr. DELAY] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Is the gentleman from California [Mr. LEHMAN] opposed to the amendments?

Mr. LEHMAN of California. I am opposed to the amendments, Mr. Chairman.

The CHAIRMAN. The Chair recognizes the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, currently the Federal government may acquire land without the consent of the owner. This is an infringement on property rights, and should not be allowed to occur except in the gravest of situations. The situation described in H.R. 2929 is not grave. In fact, the bill has been criticized by many, including members of the California delegation, for designating lands that do not meet minimum wilderness protection standards, as well as protecting more land than necessary to preserve the California desert.

My amendment would establish some reason and fairness by requiring that the Federal Government obtain the consent of the property owner before taking his or her land for public use. Already the Federal Government owns, manages, or controls approximately one-third of all of the Nation's land. If one includes State and local government holdings, the total Government land ownership of the United States jumps to about 40 percent. Most of this federally-owned land is located in the West, with about 63 percent of all the land in the 13 Western States owned by the Federal Government.

We have to establish some restraints on this outrageous land grab. Do you realize that the millions of acres of land affected by this bill will be the second largest land withdrawal in U.S. history after Alaska? As Mr. John Kenneth Galbraith, a well-known liberal perceptfully observed:

> The public lands of the United States exceed the combined areas of Germany, France, Italy, Belgium, Holland, Switzerland, Denmark, Hungary, and Albania. Where socialized ownership of land is concerned, only the U.S.S.R. and China can claim company with the United States.

This statement clearly shows that the U.S. Government is far exceeding its bounds in the taking of land. The irony is that the Soviet Government is finally selling its land to private citizens, while the United States continues to move in the opposite direction by taking land away from its citizens. Considering our country was founded with the belief that the cornerstone of all our freedom depends upon the widest possible distribution of property, securely protected under a system of private ownership, this is a staggeringly high percentage of government ownership of land and resources.

H.R. 2929, the California Desert Protection Act, if passed, will add another 828,000 acres of State and privately owned land to the Federal inventory. This may be a silly question, but do we need this?

Furthermore, this bill does not account for either the wishes of the landowners or how they will be compensated. H.R. 2929 allows the Federal Government to acquire these lands through exchange, but considering there are only 550,000 acres of suitable land available in California for exchange, this still leaves several hundred thousand acres of land unaccounted for. And, although the bill also allows for the purchase of land, we must keep in mind that we are deeply in debt at this time. While the Constitution allows the taking of land for public use, the fifth amendment requires that there be just compensation. This bill does not reflect the constitutional mandate.

Giving the Government the power to take land without any restraints regarding the willingness of the property owner will only tempt it to continue to acquire more land which we do not need. My amendment will require the consent of the owners of the land included in this bill before the Federal Government may purchase it, which will help curb the Government's hungry appetite. I urge you to support this amendment to H.R. 2929 and help keep these lands in the hands of citizens, where it belongs.

□ 1430

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1½ minutes.

Mr. Chairman, the gentleman from Texas has completely misstated the language in the bill and has completely misinterpreted existing law. Under existing law, condemnation is prohibited in the Wilderness Act and thus, in over half the acreage in the bill, no condemnation could take place anyway.

Second, there is language in this bill which we inserted requiring consent of a property owner in the Mojave before an action could take place unless they were using the land in such a way that was adverse to the monument.

Third, over seven eighths of the holdings in this bill, that is over 85 percent, are owned by two entities, the State of California and the Catellus Land Co.

We have already worked out the details for change with regard to those, those entities, at their request. There is no taking of private land in the bill, as I just said. We have developed an exchange procedure for seven eighths of the holdings.

The experience in the area is exactly the contrary to what the gentleman has stated. In the Death Valley National Monument there has been absolutely no condemnation since it was created.

It is interesting how some opponents get upset regarding Federal ownership of land. Remember that this is BLM desert land, leftover land in the West that no one else wanted. Suddenly, when we try to protect it from destruction, we are told it ought to be put in private hands.

It has long been the goal of the land management agencies to consolidate land holdings.

Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to these amendments en bloc by the gentleman from Texas. This legislation has no or insignificant impact on public land ownership. It deals with how we manage such lands. Public lands are the heritage of all Americans. We don't have to apologize for that.

The amendments would restrict the authority of the Secretary of the Interior with respect to acquisition of lands—authority that he has today. The effect of the amendments would be to limit the Secretary so that acquisitions would occur only on a willing-seller basis. The basic law that governs BLM lands provides this authority nationwide. Just the classification changes are no basis for such a restriction; if anything, such a tool is needed even more under these designations.

As a practical matter, Mr. Chairman, it is unlikely that there will be any significant acquisitions in the desert on any other basis. The American people, through the National Government, are already the major landowner there. The second largest landowner is the State of California which has school lands granted by the United States at the time California was admitted to the Union—and the State is not only willing, but eager, to transfer these lands to the National Government under the exchange provisions of the bill.

So, the amendments are not necessary. Furthermore, Mr. Chairman, as a matter of sound land management, the National Government should retain the option of making unrestricted acquisitions in those exceptional circumstances that may arise where that would be necessary to protect the public interest. By denying that option, these amendments en bloc would place an unnecessary and unwise restriction on the National Government.

Mr. Chairman, it is interesting that the gentleman from Texas wants to amend the bill in order to restrict the National Government in this way. The substitute bill offered by the Gentleman from California [Mr. LEWIS] did not include any such restriction—and the gentleman from Texas voted for that substitute, which suggests that his support for these restrictions is selective, and not across the board.

The en bloc amendments are unnecessary, unwise, and would be bad public policy. I urge their rejection by the House.

Mr. DELAY. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Alaska [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Chairman, I rise in support of this amendment. If there is no private land under this bill that is taken without the consent of the owner, then there should be no objection to the amendment. May I suggest respectfully, we have already $3 and $5 billion authorized private land that the Congress has not acquired. I believe very strongly that the protection of the private land is crucial. In fact, if the individual does not want to sell his land, he should not be required to do that.

The gentleman from Texas is absolutely correct. We own over 647 million acres of land in the United States and it does not take one nickel of taxes.

Remember, every acre of land that we take out and put into public ownership does not produce $1 for the workingman, nor does it produce any dollar for the Treasury to conduct the programs. Yet we continue to do that. So this is wrong. This is a simple amendment that says if the owner does not wish to sell that land, he does not have to sell the land. There is private land in this bill.

I urge adoption of the amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER], chairman of the Committee on Interior and Insular Affairs.

Mr. MILLER of California. Mr. Chairman, the suggestion is somehow that this is a great land grab if we look here at the map, the blue is the State land. In the bill it says upon request of the State Lands Commission. The same is true for the biggest private land holder; 735 acres out of 830,000 acres is upon request of those landowners to engage in the exchange. The rest of it is protected not by the amendment of the gentleman from Texas [Mr. DELAY], not by this bill, but by the Constitution of the United States.

There is nothing we can do about that. People are entitled to that compensation should there be a taking. There will be no taking without compensation. That is the Constitution.

So the gentleman ought not to misrepresent the bill or misrepresent the facts. It is about upon request. On page 51, section 610 "Upon request the California State Lands Commission," and I think it is very important for Members to understand that.

The suggestion is here somehow this committee is willy-nilly going around scooping up lands in the California desert, and that is simply not the case. This is after years of study, and the private landowners, the State landowners have come to us and asked for those exchanges.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. Mr. Chairman, I thank the gentleman for yielding time to me.

The last amendment passed, and I think a number of Members were not aware fully of its impact. But they better be aware of the full impact of what this amendment does. This is the Liberty Lobby amendment.

Oh, it hurts. This will start unraveling the capability of the Federal Government to protect anything in this country; the Liberty Lobby would like to take all Government lands away from Government ownership.

This will start the ball rolling in that direction. Be very careful, my colleagues, there will be no protection of anything in this country, not the Everglades in Florida, not the national parks, and certainly not this property in California if we vote yes.

I urge my colleagues to vote "no." This can be one of the most devastating votes that they could make on this bill. It is wrong and the concept is wrong.

I say to our Republican colleagues, if they do not like it, they can vote against it, too.

Mr. LEHMAN of California. Mr. Chairman, I yield 30 seconds to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I would just like to underscore two of the key issues here. No. 1, there is no taking of private land required by this bill, and we ought to get the facts straight.

In terms of the Catellus property and the State Lands property, seven-eighths of the properties here, those entities prefer exchanges. The exchange has been worked out. This is a red herring.

It is not necessary. It presents a danger that does not exist in the bill. I strongly urge a no vote on the DeLay amendment. It raises an assertion that is flatly false.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

Mr. DANNEMEYER. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. DANNEMEYER. Mr. Chairman, I would like to ask the gentleman from California [Mr. LEHMAN] a question. I do not want to misstate him, but I thought I heard him say there is no private land to be taken in this land grab.

Mr. LEHMAN of California. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. LEHMAN of California. Mr. Chairman, that is correct.

Mr. DANNEMEYER. Mr. Chairman, if the gentleman will continue to yield, I ask the gentleman from California [Mr. LEHMAN] does he see this map?

Mr. LEHMAN of California. Mr. Chairman, if the gentleman will continue to yield, that is by request, as the gentleman from California stated it.

Mr. DANNEMEYER. Mr. Chairman, this is a map of the East Mojave area. On the legend the white is the private ownership that has existed there for sometime. The blue is the State land. The yellow is the BLM and look at the checkered white land on this map. This is private land. People are using it for all of the purposes for which private property exists in this country. And all the amendment of the gentleman from Texas [Mr. DELAY] says is that before this land grab can be successful with this private land, these private property owners have to consent.

I concede that the Government could take private land for building a road, or a school, or a highway, that is part of America.

1440

But this is different. Right now the Environmental Party in America wants to grab to itself all the land that it can. There are people in this movement in this country who believe that all undeveloped land belongs only in public ownership. I suggest that these private property owners have the right to say that before their land is part of this land grab they have to consent.

Mr. LEWIS of California. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. LEWIS of California. Mr. Chairman, I thank the gentleman for yielding.

I want to follow up on the point Mr. DANNEMEYER has been making. There are a minimum of 584,000 acres of private land which would be affected by passage of H.R. 2929. Some suggest that these lands can be negotiated away by way of a trade for other public lands. The fact is that there has been no trade. Any private holder, whether they are a public interest or otherwise, that wants to try to trade with our agencies faces considerable delay and substantial doubt as to the final outcome.

In the meantime, the private landholders have been there for generations. They deserve a fair hearing, and assurance that they will get fair compensation for their land. Their voice should be heard when they agree to a transfer, before they agree to a transfer of that land.

Mr. THOMAS of California. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Chairman, I thank the gentleman for yielding.

I think we should listen to the chairman of the committee very carefully. What he said was a right was guaranteed in the Constitution, and that is correct, a right for compensation. That is not what this amendment is about. The Chairman knows that.

There was the only asbestos-free talc mine in the United States that was taken, that was taken. Was there compensation? Yes. Was there permission? No. This amendment requires permission. That is all.

Mr. DELAY. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from Texas.

Mr. DELAY. Mr. Chairman, I appreciate the gentleman yielding.

I cannot believe what I am hearing. I have to charge that there are some serious misrepresentations going on here. I am not trying to inflame the passions of people that want to grab this land. All I am saying is let us have a little fairness here. If a group does not want to give up their land, then they should not have to. I am not attempting to do anything to compensation. If they have a land swap deal with private ownerships that went consent, my amendment does not touch that at all. But if in this case, if there is a landowner here that does not want to give up his land and there are private landowners here that do not want to give up their land, then they should not be made to do so.

I have a list of 23 organizations that agree with me. I think Members ought to really pay attention to what is going on here. What I am talking about is a land grab for no outrageous reason other than an environmental group wants to take land, more land, and put land into the environmental system. I am just trying to slow down what is happening here.

Mr. LEHMAN of California. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentleman from California is recognized for 5 minutes under the rule.

Mr. LEHMAN of California. Mr. Chairman, I yield to the gentleman from Minnesota, [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I will just reiterate that we are not changing any of the laws with regard to the powers of the Secretary of the Interior. The Secretary of the Interior has the same powers under the proposals that are being made here generally that he has in terms of the public domain. In fact, with respect to the lands that have been illustrated here in terms of the Mojave National Monument, there is a special provision on page 53 of the bill that points out, and I will read it, Mr. Chairman, "Lands or interests therein within the boundary of the monument which are not owned by the State of California or any political subdivision may be acquired only with the consent of the owner," only with the consent of the owner.

There is an exception made if after written notice the owner had the opportunity for comment that the property was to somehow be developed in an adverse way within a national monument, that then we would have the opportunity, for instance, to stop such development, Mr. Chairman.

So the provisions of this bill are very reasonable. The powers that the Secretary has today are reasonable. We are not changing those powers generally. If anything, we are restricting them in this bill. We should not accept this type of general amendment which would take away the power of the Secretary of the Interior to manage the public lands and the designations that we are making in this bill.

Mr. Chairman, I request a no vote on the DeLay amendment.

Mr. LEHMAN of California. Mr. Chairman, it is amazing to me how selective Mr. DELAY is being with this amendment. Imagine the mischief in this country if this amendment were applied to the highway system. Imagine the mischief in this country if this amendment were applied to the military and expansion of military bases, one of which is being proposed under this legislation. There are no trades in the bill. There is a provision to allow for trades, a provision that has already been negotiated out with the entities that own seven-eighths of the property. There is no controversy over it.

We are talking here also, the Members should know, about State lands in California, land use for the State Teachers Retirement System. I hope the gentleman from California on the other side has no objection to that.

Mr. MILLER of California. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from California.

Mr. MILLER of California. Mr. Speaker, I think the gentleman from California [Mr. LEHMAN] just put his finger on it. Later tonight hopefully or early tomorrow morning you are going to vote on a $151 billion highway bill and transit bill. Which of you would put in the way of the transit or highway system in your State or your district this requirement, that one willing seller would hold up a highway, or buyer, because they chose not to do it?

For 75 years the Department of Interior has amassed what many of us refer to when we go back to our districts as the crown jewels of this country: The National Park System, the national monuments, some of the wilderness areas. We talk about how proud we are, and the millions and millions of Americans that have visited them every day. This bill seeks to do for the desert that which we do for the Grand Tetons, that which we did for Yellowstone or for Glacier or for Olympic National Park, that which we did for Fire Island.

It is the same process but now we are into an ideological debate here about the Environmentalist Party seeking to violate the Constitution or people's rights.

But when you come here to expand a military base there will be no amendment about willing sellers and willing buyers. Later tonight, in a $151 billion transportation bill, none of you will give the right to a landowner in your district to delay a single highway, an off ramp, an access road, or a transit pass. None of you will do that because you know what this amendment does. This amendment simply creates mischief.

Yes, utilities and cities and States and the Federal Government from time to time have a right under eminent domain to take property. In this particular case, we have some three-quarters of the land where the sellers are excited to engage in an exchange. So let us keep our eye and understanding out of the ideological debate here about whether or not this is a taking or a willing seller and willing buyer. The gentleman knows exactly what his amendment does.

There will later be amendments offered in this process to expand Fort Irwin or to engage in the military, and I suspect that not the gentleman or anyone else will suggest that the willing seller, willing buyer provision would stand in the way of that provision.

The CHAIRMAN. All time has expired.

The question is on the amendment en bloc offered by the gentleman from Texas [Mr. DELAY].

The question was taken; and the Chair being in doubt, the Committee divided and there were—ayes 43, noes 43.

RECORDED VOTE

Mr. DELAY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device and there were—ayes 143, noes 289, not voting 2, as follows:

[Roll No. 430]

NOT VOTING—2

Lowery (CA)
Roe

☐ 1512

Mr. REED changed his vote from "aye" to "no."

Mr. APPLEGATE and Mr. RIDGE changed their vote from "no" to "aye."

So the amendments en bloc were rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 6 printed in House Report 102–314.

AMENDMENTS EN BLOC OFFERED BY MR. ALLARD

Mr. ALLARD. Mr. Chairman, pursuant to the rule, I offer amendments en bloc.

The CHAIRMAN. The Clerk will designate the amendments en bloc.

The text of the amendments en bloc is as follows:

Amendments en bloc offered by Mr. ALLARD:

Page 60, line 17, after "by this Act," insert the following: "and subject to the limitations set forth in subsection (e),".

Page 61, after line 15, insert the following:

(e) With respect to the Havasu and Imperial Wilderness areas designed by section 111(a) of this Act, no rights to water of the Colorado are reserved, either expressly, impliedly, or otherwise.

The CHAIRMAN. Under the rule, the gentleman from Colorado [Mr. ALLARD] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Does the gentleman from California [Mr. LEHMAN] rise in opposition to the amendment?

Mr. LEHMAN of California. Yes, Mr. Chairman.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes in opposition to the amendment.

The Chair recognizes the gentleman from Colorado [Mr. ALLARD].

Mr. ALLARD. Mr. Chairman, I offer amendments en bloc today to prevent a Federal reserve water right created in the California Desert Protection Act from interfering with the Colorado River Compact. The amendment I have today has been voted on by this body before. It was passed in the Arizona Wilderness Act of 1990.

Mr. Chairman, this amendment has been taken word for word from that provision. This amendment applies to the same refugee areas, the Imperial and the Havasu refuge areas. It has an unintended consequence not brought to our attention until after the full committee. The only difference is this bill affects the California side of the Colorado River which divides these same refuge areas.

Mr. Chairman, this is an important issue. I know it was not the intent of the sponsors to introduce a bill to this body that will undo the extremely complicated and fragile Colorado River Compact system. We must not let Federal reserve water rights take precedence over the Colorado River Compact worked out by California, Arizona, Nevada, Utah, New Mexico, Colorado, and Wyoming.

Mr. Chairman, the Committee on Interior and Insular Affairs in its report on H.R. 2889 states its intent that the bill would not affect water rights on the Colorado River, but the report is not legally binding. The report language offered by the committee after passing the Arizona bill recognized the fact that it does not have the law behind it. My amendment puts into law this clarification.

I hope the sponsors will view this as a friendly amendment.

Mr. Chairman, I yield 1 minute to the gentleman from Colorado [Mr. HEFLEY].

Mr. HEFLEY. Mr. Chairman, I thank the gentleman from Colorado [Mr. ALLARD] for yielding this time to me.

Mr. Chairman, I rise in support of the amendment offered by my friend, the gentleman from Colorado [Mr. ALLARD]. Mr. ALLARD's amendment clarifies the intent of Congress with respect to wilderness water rights for the Colorado River. This amendment is identical to one added to last year's Arizona Desert Wilderness Act. That law has now been embraced as boilerplate for the water law throughout the Western States.

Mr. Chairman, the Colorado River supplies water for the rest of the West. The Colorado is at the center of a body of law intended to safeguard the rights and needs of all. It is essential then that any legislation be neutral in its impact on the river or on the water compacts and water rights associated with it.

The amendment of the gentleman from Colorado [Mr. ALLARD] provides this safeguard in a way that builds on past precedent and improves the underlying bill, and I urge my colleagues to join me in voting for this amendment.

Mr. ALLARD. Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, I am rising in opposition to the amendments en bloc offered by the gentleman from Colorado [Mr. ALLARD], and I understand the gentleman's statement, that he means this not as a harmful amendment to the bill. He is trying to clarify something.

Mr. Chairman, we are opposed on this side. We think the amendment is unnecessary, and we fear it could create problems that might not be anticipated right now.

The boundaries of the wilderness area in question were specifically drawn above the historic high-water mark just to make sure that there was no question as to whether the Colorado River would be involved. The lines were drawn above the high water mark.

The report language specifically states, and I quote from it:

> The Committee notes, with regard to this section on water rights, that boundaries of both of the Wildlife Refuge wilderness units designated in section 111 are above the historic high water mark of the Colorado River. Neither of these wilderness areas include any portion of the Colorado River. Therefore, the express reservation of water for wilderness purposes in section 608 does not affect the Colorado River, its water management or any compacts associated with it.

□ 1520

Finally, the Colorado River is 100 percent appropriated whether we in California like that or not, and there is no water right there for the Federal Government to obtain. We have taken care of the problem in the legislation. The area in question is not included, and the report language adequately clarifies that.

Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Chairman, I appreciate what the gentleman from Colorado [Mr. ALLARD] is trying to do, and I understand why they are offering the amendment, but I must say that I think that in fact this amendment is somewhat mischievous as to what is really settled law with respect to the compact, and to suggest that somehow a Federal water right could be perfected in the lower basin and then somebody could go to the northern basin to perfect that water right is to stand the compact on its head. I would really raise the question with the gentleman that to pursue this amendment and lend that suggestion, whether it is in this bill or whether it is the question of that being opened up, raises a question, and I would ask him if he might reconsider.

We have worked with the gentleman. We recognize the concerns of all the parties to the compact. As the gentleman from California [Mr. LEHMAN] pointed out, the boundaries have been drawn in a very conservative fashion, recognizing there is no abutment to the Colorado River. I really raise this issue in all sincerity, that to suggest anybody in the southern basin could perfect a water right in any fashion where there is no water and then somehow go and deal with that in the north, I think the legislation speaks to that and I would hope the Members would oppose the amendment.

The CHAIRMAN. The time of the gentleman from California [Mr. MILLER] has expired.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 additional minute to the gentleman from California [Mr. MILLER].

Mr. ALLARD. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from Colorado.

Mr. ALLARD. Mr. Chairman, I would just like to point out to the gentleman from California that the language we have in this amendment is the exact same language that is in the Arizona Wilderness Act, and this particular language was a hard-fought compromise in 1990 when that language came through, and the same set of facts that applied in that period of time still apply at this time.

I think this is a very important amendment, and I would ask that the sponsor of the bill go ahead and accept the amendment. It is really a technical amendment.

Mr. MILLER of California. Mr. Chairman, reclaiming my time, I understand that.

The CHAIRMAN. The time of the gentleman from California [Mr. MILLER] has expired.

Mr. ALLARD. Mr. Chairman, I yield 1 minute to the gentleman from Arizona [Mr. RHODES.]

Mt. RHODES. Mr. Chairman, I thank the gentleman for yielding time to me.

The Imperial Havasu Refuge is astraddle the river. On the Arizona side of the river, the law specifically says that as to those refuges there is no Federal reserve water right in the Colorado River. If as to the California side of the two refuges we are silent except for report language, my concern is that we are lending confusion to the managers of those lands.

My concern also is having the report language refer to the historical high-water mark of the river. Those of us who live in both Arizona and California know that that river fluctuates both in terms of width and breadth and also height frequently and historically, and the historical high-water mark of the river could well not be the historical high-water mark of the river once you Californians get over your drought and the river gets back to where it is supposed to be.

It simply seems to me that consistency calls for having the language defining the water rights or the lack of water rights of these two refuges be consistent on both sides of the river.

Mr. Chairman, I urge adoption of the Allard amendment.

The CHAIRMAN. The gentleman from Colorado [Mr. ALLARD] has 1 minute remaining, and the gentleman from California [Mr. LEHMAN] has 2½ minutes remaining.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I would just like to reiterate what Chairman MILLER suggested here. We do not mean any mischief on this side as far as what water rights are going to be under the legislation. There is a possibility of talking about this and trying to work it out. If you think the language on this side does some harm to you, let me just say that we are not willing at this time to accept the language that you have, not knowing what the impacts of it might be down the line.

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Chairman, I would ask the gentleman from Colorado whether there are any areas of this wilderness in the bill that touch the Colorado River. The fact is that they do not, so that being the case, does the gentleman believe a wilderness could have a water right outside the wilderness boundaries?

That is what this is about. We are setting some precedents here in terms of granting water rights outside. A lot of people argue about water rights within a wilderness. Now, this language would suggest that the water rights of the wildness somehow go outside. This does not even touch the Colorado River.

I might say, with reference to the hard-fought Arizona water language, that we really did not have any debate at all on that particular portion of the water rights. It came back from the Senate. I was the manager, along with Congressman Udall. We accepted it. It was not necessary in the Arizona bill, and it is not necessary in this bill.

I think the mischief is that you are, I think, accidentally trying to create water rights outside of a wilderness that do not exist. We argue about them within. There is no reason to try to suggest there are water rights outside. We are not suggesting that, and we hope the gentleman from Colorado is not suggesting it.

Mr. ALLARD. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from Colorado.

Mr. ALLARD. The precedent has been set in the Arizona wilderness bill. We are just using the same language. We are even applying it to the same refuge area.

Mr. VENTO. Mr. Chairman, if the gentleman from California will yield further, yes, the precedent has been set. It is a bad precedent, and we ought not duplicate it here, because you are extending it outside the wilderness where there is no wilderness designation. It is a bad precedent, and we should not set it.

Mr. LEHMAN of California. Mr. Chairman, I would suggest that the gentleman is also setting a bad precedent for his own purposes in that if this were to pass, in future acts, if there were nothing done with respect to rivers outside a wilderness area, somebody might interpret that because nothing was done, there might be a right there, and that would certainly harm interests that were not intended to be harmed under this legislation.

Mr. Chairman, I urge a "no" vote on the amendment.

The CHAIRMAN. The gentleman from Colorado [Mr. ALLARD] has 1 minute remaining.

Mr. ALLARD. Mr. Chairman, I yield my remaining 1 minute to the gentleman from Utah [Mr. ORTON].

Mr. ORTON. Mr. Chairman, I rise in strong support of this amendment. It is designed to accomplish one simple but essential goal. It clarifies that the California Desert Protection Act has absolutely no impact on the carefully balanced compact which determines water rights in the Colorado River.

Water is absolutely essential to life for those of us who live in the arid west. Our agriculture, industry, and even the population density in our dry Western States could not exist without a very well-developed system to store, transport and efficiently utilize water. My own State of Utah is the second driest in the Nation. Water is our life blood and is an issue of overriding importance to us. I realize that it is hard for those of my colleagues from States with higher levels of precipitation to understand our overriding preoccupation with water.

Almost 40 years ago, the States in the Colorado River Basin finally arrived at an agreement on how the flow of the Colorado River would be utilized. This Colorado River Basin compact was enacted into law and has worked well in the years since. Like most water agreements, it is a very delicately balanced compromise between competing interests.

In the Western States there is never enough water. That is the reality we must always live with. So the water which is available must be clearly allocated among many competing uses.

What this amendment will do is simply ensure that the carefully crafted agreement among the Colorado River Basin States is not inadvertently upset by the legislation before us to designate wilderness in California.

This is a simple amendment which is identical to one which the House has placed in previous legislation. When the Congress enacted the Arizona wilderness bill in the last session, it included this identical provision. We are asking for nothing more than what has already been agreed to in the past to ensure that the rights to water in the Colorado are not affected by wilderness designation.

There is another important element of this issue which I hope all of my colleagues will consider. When the Congress enacted the Wilderness Act in 1964, and FLPMA in 1976, it created wilderness designation as a category or system of management of public lands. I can find no provision of either act which would create any water rights attached to public lands or being reserved to the Federal Government. Water rights lie within the jurisdiction of the separate States and must be reserved to the States, not preempted by the Federal Government. While water is perhaps more essential to those of us who live in areas where it is scarce, the question raised by claims of Federal reserved water rights is one which goes far beyond the arid public land States of the West. I would submit that ownership of water rights is vital to every State. Whether it is for municipal use, transportation, agriculture, industry, or recreation, the rights and responsibilities of the various States versus the Federal Government is a question which must be reserved to State statute.

I would urge all my colleagues to realize the true implications of this amendment and support it.

The CHAIRMAN. All time for debate has expired.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentleman from Guam [Mr. BLAZ] is recognized for 5 minutes.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from Wyoming [Mr. THOMAS].

Mr. THOMAS of Wyoming. Mr. Chairman, I thank the gentleman for his time.

There is no question for those of us who come from the arid public land States that there is nothing more important than water rights. There is nothing more important to us than having it clearly defined in the law where we stand in the future with regard to water. It has to do with the shifting of rivers, it has to do with the use of the boundary, a boundary of the wilderness or a park area. The shifting may change that. It has particular importance in the Colorado River where we have now congressionally approved compacts between the upper and the lower.

I think this amendment is simply designed to make it certain that we do not find ourselves in court wondering what the interpretation of the law would be, and I certainly stand in support of the amendment offered by the gentleman from Colorado [Mr. ALLARD].

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from Utah [Mr. HANSEN].

Mr. HANSEN. Mr. Chairman, I rise in strong support of the Allard amendment.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from Colorado [Mr. ALLARD].

☐ 1530

MR. ALLARD. Mr. Chairman, I would just summarize by quickly saying I think this is an important amendment. I think a precedent has been set prior to this time, and we need to continue it in order to honor it in this body. So I am going to ask for a yes vote on the Allard amendment.

Mr. OWENS of Utah. Mr. Chairman it is clear from the report language of the committee that there is no intention to effect a reserved water right to the Colorado River in this wilderness bill. The boundaries of the wilderness areas in the Imperial and Havasu National Wildlife Refuges next to the river do not even extend to the historic high water mark—a sure indication that no reserved water right is sought on the Colorado River.

That having been said, while there is no clear need for this amendment, I also do not see the harm in clarifying the committee's intent directly in the text of the bill. In any case, this legislation is not likely to emerge from the Senate without this language which mirrors the language the Senate added to the Arizona Wilderness Area last year for the same refuges on the other side of the Colorado River.

Nothing causes as much suspicion and consternation in the West, especially in Upper Basin States like Utah, as the possibility that rights under the Colorado River Compact might be affected. We can allay those fears simply by establishing that the intent of this bill was not to establish a Federal reserved water right on the Colorado. When proponents of wilderness, myself included, can make rational compromises, then I think we should. Even as I vote for this amendment, I want my colleagues to understand that I am in no way repudiating the Winters Doctrine and the importance of Federal reserved water rights to wilderness areas. I believe that wilderness is entitled to the water necessary to fulfill the purpose of its establishment. I am simply saying that we should, as much as possible, signal our willingness to work to calm fears and exhibit a spirit of compromise on issues this emotionally powerful.

Mr. BLAZ. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendments en bloc offered by the gentleman from Colorado [Mr. ALLARD].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. ALLARD. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 155, noes 274, not voting 5, as follows:

NOT VOTING—5

Hammerschmidt
Johnston
Roe
Washington
Wilson

☐ 1554

Mr. HYDE changed his vote from "no" to "aye."

So the amendments en bloc were rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 7 printed in House Report 102-314.

AMENDMENT OFFERED BY MR. DANNEMEYER

Mr. DANNEMEYER. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. DANNEMEYER: Page 61, line 7, after section 611 insert the following new section:

ECONOMIC IMPACT STATEMENT

SEC. 612. (a) Notwithstanding any other provision of this Act, lands in the State of California designated in sections 102, 402, and 501 of this Act shall not be designated as wilderness or established as a national park or monument unless—

(1) the Secretary has prepared an economic impact analysis with respect to each land designation;

(2) the Secretary determines, based on that analysis, that the environmental benefits of each land designation outweigh the economic costs of each land designation; and

(3) the Secretary publishes an economic impact statement describing the findings of that analysis.

(b)(1) The Secretary shall perform an economic impact analysis in accordance with this paragraph with respect to each land designation in sections 102, 402, and 501.

(2) An economic impact analysis under this paragraph shall include the following:

(A) The economic consequences of each land designation, including aggregate statistical data which indicates—

(i) identifiable and potential job losses or diminishments resulting from a designation,

(ii) identifiable losses or diminishments in the value of real property resulting from a designation; and

(iii) losses or diminishments in the value of business enterprises resulting from a designation.

(B) The effect that a designation will have on revenues received by the Federal Government or by State and local governments, including any revenue losses attributable to losses or diminishments in value described in clause (i).

(C) The effects that a designation will have on outlays by Federal, State, and local governments, including—

(i) effects on payments made pursuant to paragraph (1),

(ii) effects on expenditures required for Federal unemployment compensation, aid to families with dependent children, medicaid, and other Federal, State, and local programs,

(iii) the effect that a designation will have on the competitive position of any individual business or aggregate industry affected by a designation, determined jointly with the Secretary of Commerce, and

(iv) any other potential economic, budgetary, or ecological effects that the Secretary considers appropriate.

(c) Not later than one year after the date of enactment, the Secretary shall determine, based on the analysis performed under paragraph (2), whether the economic costs of each designation outweigh the environmental benefits of each designation.

(d) In implementing this Act with respect to each land designation in subsections 102, 402, and 501, the Secretary shall limit losses incurred by persons as a result of each land designation.

(e) The Secretary shall pay to any person who incurs an economic loss as a result of a land designation the amount of that loss, including—

(1) any diminishment in the value of tangible or intangible property, and

(2) any loss resulting from the loss or diminishment of a job.

(f) The Secretary shall issue regulations establishing procedures for obtaining payments under this subsection.

(g) A person may not recover any amount under this subsection for any de minimis or wholly speculative loss.

(h) Any denial by the Secretary of an application for payment under this subsection may be appealed in the appropriate Federal district court of the United States, including any determination by the Secretary that a person is ineligible for payment by reason of paragraph (3).

(i) Any person (including any State or local governmental entity) may intervene in any proceeding under this subsection for the purpose of assisting the Secretary in issuing payments under this subsection to individuals or businesses who suffer demonstrable loss as a result of a land designation.

The CHAIRMAN. Under the rule, the gentleman from California [Mr. DANNEMEYER] will be recognized for 5 minutes and a Member opposed will be recognized for 5 minutes.

Is the gentleman from California [Mr. LEHMAN] opposed to the amendment?

Mr. LEHMAN of California. I am, Mr. Chairman.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair recognizes the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this map to my left tells quite a story. The western United States is owned predominantly by the Federal Government. Government ownership of land in my State of California is about 46 percent of the 100 million acres.

These landgrabbers today want some more land, another 4.5 million acres.

Our world really is turned upside down, because we have an Endangered Species Act which has been in the law since 1973, which requires an environmental impact statement to determine whether or not we are going to list one of these critters on the list of endangered species.

In my State of California we have seen thousands of people in the lumber industry in northern California out of work because of the spotted owl. In my area of southern California, the Least Bell's bireo, a little bird, threatens the whole Santa Ana River flood control project.

There is nothing in this Endangered Species Act that gives any consideration to the impact on jobs and businesses and private property when we list one of these critters. I say it is high time in this country, Mr. Chairman, that we have a law which says that we should recognize jobs, and people, and businesses, and private property at least on the same basis as we recognize critters. What is more important in this world, people or animals?

Our world is turned upside down. The Environmental Party likes it that way. They want to preserve the creation, worship the creation rather than the Creator, and I say just the opposite should be the case.

All my amendment does is say that we have to prepare an economic impact statement in order to determine what the impact is going to be on jobs, on property and businesses if this law comes into existence.

When Members read the report on pages 70 and 71, it is uncertain as to what the cost is going to be. Now they have conveniently shunted aside any evaluation of the minerals under the ground. It so happens in my State of California that the mineral reserves are estimated at $360 billion.

Mr. ROHRABACHER. Mr. Chairman, will the gentleman yield?

Mr. DANNEMEYER. I yield to my friend from California.

Mr. ROHRABACHER. Mr. Chairman, let us note that in the middle of the worst drought in California history, 1.8 billion gallons of water were dumped into the ocean because of a bird nest on the Prado Dam. Things are topsy-turvy. The gentleman is right. We are putting more value on the life of small critters and things rather than on human life and the lifestyles of the people themselves.

I think that this body should have some reflection on the values that our legislation maintains in this country.

□ 1600

Mr. DANNEMEYER. I thank my colleague for his comment.

Mr. Chairman, this economic impact statement that I ask be adopted would show that we in California lead all States in the production of asbestos, borates, portland cement, diatomite, calcined gypsum, construction sand and gravel, tungsten, yttrium, and rare earths.

We have over 40,000 people working in the mining industry in the State of California, about 20,000 of them are going to be put out of work.

Now, the unemployment rate in California today is 7.3 percent. That is a half a percentage point higher than the Nation.

We have been talking in this Chamber in the last few days about jobs creation. This bill is a Job Unemployment Act of 1991 waiting to be adopted.

Where in the world in the tender concern in the hearts of the Democrat leadership who are pushing this bill for the 20,000 people who are going to be put out of work in the mining industry in the State of California if this turkey becomes law?

I do not understand this at all, and this is the reason for this economic impact statement which would also show that each $1 million in mining output in the desert provides about 15.1 jobs, $334,000 plus of personal income, $28,000 in local tax revenues, $47,000 in State tax revenues, and $1.8 million overall to the southern California economy.

Gold production in the desert area is about 400,000 ounces in 1989.

We have 12 of 21 geothermal sites in California or in the desert that supply about 450,000 watts of power.

Mr. ROHRABACHER. Mr. Chairman, will the gentleman yield for a question?

Mr. DANNEMEYER. I yield to my colleague, the gentleman from California.

Mr. ROHRABACHER. Mr. Chairman, there has been a lot of talk in this body about which party represents the working men and women of America.

I would like to know how this proposal the gentleman is making today affects them.

The CHAIRMAN. The time of the gentleman from California [Mr. DANNEMEYER] has expired.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, the other gentleman from California has talked here for 5 minutes about the Endangered Species Act. The Endangered Species Act is not in this bill. The Endangered Species Act is not affected by this bill, nor will it be affected by the gentleman's amendment.

No one who wants any level of protection, no matter how minimal it is on the California desert, could support the amendment of the gnetleman from California [Mr. DANNEMEYER].

The gentleman from California [Mr. LEWIS] did not have this provision in his substitute before us last week. Even in the substitute of the gentleman from California [Mr. LEWIS] the findings state:

> It is in the national interst that these wilderness areas be promptly designated as components of the National Wilderness Preservation system.

The purpose of this amendment is to make sure that they are never designated. It is an amendment to delay forever.

But what about the economic consequencies? It is not as if they had not been studied.

Again I quote from the U.S. Geological Survey:

> The prospects for future mineral discoveries in the Mojave are relatively poor. In the parlance of mineral resources, this does not appear to be an area of world calss deposits.

None of the 14 minerals identified by the Office of Technology Assessment of meeting the criteria for strategic minerals is produced anywhere in the Calfiornia desert conservation area.

The Mountain Pass Mine which produces 97 percent of the U.S. output of rare earth minerals is excluded from the boundaries of the Mojave Monument.

This idea that there are thousands of jobs lost is ludicrous. In 1990, the U.S. Department of Commerce statistics state there were 1,100 mining jobs in all of San Bernardino County, and understand that the mines in wilderness areas are protected. Understand that the other major ones have been taken out. Understand that when the national monument is created there will be many, many new jobs associated with that monument in its place.

Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I actually think in general in concept the idea of an economic impact statement has some merit, I do not believe it has any merit as applied to this particular bill for several reasons.

First of all, this bill has been around now for 5 years. This is the third Congress that has looked at this bill. We have had extensive hearings.

This proposal, this suggestion, has never been made at the committee level, has never been made at the subcommittee level, and frankly what an impact statement would be designed to review has been studied very thoroughly in the deliberations leading up to the floor consideration of this bill.

As the gentleman from California [Mr. LEHMAN] has indicated, mines within the boundaries of this legislation are protected.

This does not put people out of work. This does not cost jobs. This bill simply does not deal with any of the things that the author of the amendment suggested that it would do.

The fact of the matter is that this is a proposal in terms of Death Valley, in terms of Johua Tree, in terms of the East Mojave. It has been looked at carefully. It has been analyzed carefully.

The economic consequences of these provisions have been evaluated and analyzed and studied and all the representations that have been made have been found wanting.

I would say that if there was a serious suggestion to have an economic impact statement, that that could have been made at any point in time during the 5 years in which this bill was considered, but to bring it up today at the 11th hour on the House floor and to support it with a range of arguments that have been repudiated thoroughly throughout this process simply is an effort again to delay extraordinarily important desert protection legislation that Congress should act upon positively today.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to the amendment.

The Dannemeyer amendment providing for an economic impact statement may sound appealing on the surface, but I assure my colleagues that this would lead us into unchartered waters.

The bottom line of this amendment as an example states that the Secretary of the Interior shall pay to any person who incurs any economic loss as the result of land designation the amount of that loss.

Then it goes on to include all sorts of tangible and intangible losses, an appeals process. This could subject the Federal Government to unreasonable and unlimited costs.

Where is the CBO estimate on this?

The fact of the matter is they have been arguing in the courts and the Supreme Court for years about whether the classification or zoning of land is an authority of the National Government or any local government.

This particular amendment makes a finding in favor of the landowners. It comes down and states that classification changes must be paid for by the Federal Government.

The truth of the matter is that we have very little understanding of many of the impacts of the environmental classification and the species. The fauna and flora. We ought to do a much better job regarding the science of such ecosystems.

This is not a debate about the Endangered Species Act. This is simply a stumbling block that is attempting to be placed in the way of the designation of the California Desert Act, and as such it should be defeated.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. Mr. Chairman, I thank my colleague, the delegate from Guam [Mr. BLAZ] for yielding to me.

I want to say one more time to the Members that I appreciate the very fine job the gentleman has done in helping to add some balance to this debate.

Mr. Chairman, it was suggested earlier by the gentleman from California [Mr. LEVINE] and others that I did not include an economic impact statement in my substitute.

Mr. Chairman, we do have economic impacts regarding this bill versus the substitute that I had before the House the other day. The Bureau of Land Management did give us a guesstimate. If H.R. 2929 became law, the cost would be somewhere between $290 and $610 million.

If our substitute had been implemented instead, the Bureau of Land Management suggested the spread might be between $45 and $170 million.

To say the least, there is a huge difference reflected in these estimates.

The guesstimates were that if H.R. 29 was implemented that the loss of jobs would be in the neighborhood of 20,000 jobs, versus less than 2,000 jobs in the substitute.

Indeed, this proposal is going to have a huge economic effect. Detailed economic impact analysis is appropriate for H.R. 2929 since it was not a product of a public process.

□ 1610

Let me make the point in this way: Two organizations have very sizable holdings in this territory. The California Public Employees Retirement System has large holdings that they had planned to be developed for the benefit of retirees. Everybody admits that there is potential resource value that has not been evaluated or tapped.

The California Teachers Association has similar holdings. Their retirees are at risk without effective evaluation of the underlying resource potential here. To suggest that economic impact evaluation would not help them in their eventual decisions as to what is required for a trade of land, for example, is unreasonable.

These lands have great economic potential for the retired teachers of California and for the retired employees of California.

Mr. Chairman, are the ranking members suggesting that we should ask them to trade their land without an economic evaluation first? Certainly not.

Mr. DANNEMEYER is simply suggesting that, up front, such evaluation should be made because the studies, the detailed have not been done. The people who will lose if you do not accept this kind of approach are the people of California. A very significant number of the landholders are the retired former employees of the people of California.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. I thank the gentleman for yielding.

Let me tell my colleagues just what my amendment would do. It would require the Secretary to determine that environmental benefits must outweigh economic losses or costs before land in the above sections can be designated. Now, that is a balance in our law that I think is missing in a very significant way today because what we have done—look at this map. At least a third of the western part of the United States is already in public ownership.

How much land is enough? How much land does the environmental party need before it satisfies its lust to take all land in private ownership and put it into public ownership?

Now, it may create a world where we have clean air and clean water in America, but I ask you one simple question: Where are the jobs going to be for the people of this country who want to work and make a living? Somebody has to watch out for these people, and that is what this amendment does. It just says there has got to be balance when we make these environmental decisions.

The CHAIRMAN. The time of the gentleman from Guam [Mr. BLAZ] has expired.

Mr. LEHMAN of California. Mr. Chairman, I move to strike the penultimate word.

Mr. Chairman, first of all, contrary to the presentation just made, there is no increase in the amount of Federal land owned under this legislation. The land that is being changed is having its designation changed, not its ownership. The Federal Government owns the land now, and the Federal Government will continue to own the land in the future. We are changing the way in which the land is managed.

The provisions in the bill allowing for acquisition on a case-by-case basis in the future provide for exchange of land. Again, there is not going to be a change in the value of land owned by the Federal Government, and probably not in the amount.

So that is not really an issue here. The CBO estimate of the cost of this legislation shows that it is negligible. As far as mining is concerned, it says:

> Loss of receipts from mining activities relative to current law, we do not expect the loss of receipts to the Federal Government from mineral leasing activities to be significant over the next 5 years.

The report shows zero, zero outlays for 1990, 1991, 1992, 1993, 1994, and 1995.

The costs here are not significant. The great cost is not acting to protect the desert. The great cost is to those of us in California and those around the country if we fail to act to save the desert now while we still have a chance.

Are we going to let amendments like this drive off the day of decision until it is too late to protect the endangered species? Until it is too late to protect the land from total degradation?

Or are we going to do it now while we still have a chance?

That is the issue. That is the heart of the matter.

Mr. Chairman, I yield to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. I thank the gentleman for yielding.

Mr. Chairman, the gentleman's amendment goes to a different direction; it has nothing to do with public ownership of land versus nonpublic. It has to do with how we conduct the policy on public lands, the designations. He is saying that the Secretary "shall pay to any person who incurs an economic loss as a result of land designation, that means zoning, the amount that that loss, including," and then he goes through all that. So he is on uncharted waters in terms of in fact committing the Congress and the U.S. Government to such payment.

The other thing the gentleman says is that we are going to turn over to the Secretary of the Interior the right to make the decision on how this land should be designated.

Well, Mr. Chairman, the reason that our committee has so many measures on the floor is because Congress has reserved to itself the right to make designations as to wilderness, as to parks and other uses of our land.

We do not give that job to the bureaucrats the unelected in this country. We think it is an important decision that ought to rest with Congress.

I do not care if it is done under an economic impact statement excuse or done on some other basis; in other words, Congress ought to be involved in the terms of making such decisions.

I think that that by itself is enough reason to vote "no" on this amendment. We should not transfer this unlimited power in the California desert to the Secretary of the Interior or to anyone else. We ought to make the decisions on the floor ourselves with regard to wilderness, with regard to parks and monuments. That is what we have been struggling to do this week, and I hope we will do so by defeating this poorly crafted amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. I thank the gentleman for yielding.

Mr. Chairman, in a nutshell this amendment is an amendment designed to kill desert protection. Let us be candid about what we are trying to do here.

This is an amendment that seeks to impose requirements on this legislation that simply cannot be met. It is impossible, it is simply impossible to quantify the educational, the scientific, the scenic, the historic, and natural values associated with preserving desert lands for future generations. That is the essence of this legislation.

One point on cost: Mr. LEWIS raises a number of cost figures. It is important to understand that CBO spells out $6 million in cost beyond those that are currently undertaken by the Federal Government in order to provide this type of desert protection.

For an additional $6 million a year, that is an extraordinary good deal for the American taxpayer, for the American citizen and those future taxpayer, for the American citizen and those future generations who will, I think, be pleased that this legislation is enacted into law.

Mr. LEHMAN of California. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from California [Mr. DANNEMEYER].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. DANNEMEYER. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 110, noes 316, not voting 8, as follows:

☐ 1638

Mr. GLICKMAN changed his vote from "aye" to "no."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 8 printed in House Report 102–314.

AMENDMENT OFFERED BY MR. NICHOLS

Mr. NICHOLS. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. NICHOLS: Page 61, line 17, insert "(a)" after "SEC. 609.

Page 61, after line 19, insert the following: (b) EFFECTIVE DATE.—This section shall take effect in the fiscal year following the first fiscal year after the date of enactment of this Act in which Federal revenues are equal to or greater than Federal expenditures.

☐ 1640

The CHAIRMAN. Under the rule, the gentleman from Kansas [Mr. NICHOLS] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I am opposed to the amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair recognizes the gentleman from Kansas [Mr. NICHOLS].

Mr. NICHOLS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the Department of Interior already faces a budget shortfall of astronomical proportions. When I say astronomical, I mean approaching $8½ to $10½ billion. That may not seem like much here in Washington, but that is an awful lot of money to the citizens of this country.

To break that down, this means that the U.S. Department of the Interior already faces a $3 to $5 billion backlog of land acquisition—a $5 billion backlog in major repairs and construction—and a $375 million shortfall in their annual operations budget. Why are we proposing to spend more money than the department has?

We, as a nation, must learn fiscal responsibility. We are writing checks on a line of credit that long ago went bad—the pot of gold is empty. We have absolutely no right, no right whatsoever, to authorize any additional spending unless it is an urgent investment in the ongoing prosperity and well-being of the citizen taxpayers of this country. And that, my colleagues, is why I offer this amendment today.

I am not against protecting the very fragile and uniquely beautiful environment and ecosystem of the California desert. I have visited the area with my family. We have driven through Death Valley and marveled at the region.

I wholeheartedly understand the desire to add to the already existing expanses of protected desert wilderness in the California desert. However, now is not the time. Not with a record deficit of $269 billion this year alone. Not at a time when our Government needs to drastically reevaluate its spending practices. Not when the taxpayers of our Nation are frustrated by the political process that is supposed to be protecting them.

My amendment merely places a condition on the expenditures of funds for the enactment of this act until Congress is able to balance the budget.

All across America, families are having to carefully limit their spending for the upcoming holiday season, while Congress continues to spend like everyday is Christmas. Why can't this great body, full of so many honorable and distinguished Members, use good, sound judgment when it comes to spending money. The time to reduce spending is not some time in the future, it is now.

I urge you to vote "aye" on my balanced budget amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1 minute.

This is not a balanced budget amendment. In fact, it has nothing to do with the balanced budget. All of the expenditures by the Park Service can continue to go on even with this amendment.

All the amendment affects is the ability of the Federal Government to enter into the land exchange after 1996 with the State teachers retirement system in California. Under this amendment none of those exchanges will be allowed to take place. Those exchanges are not going to cost the Federal Government any money.

As the bill states, property will be exchanged value for value and we will have an even playing field.

We have done that to ensure that the Federal Government does not lose any money and that the State teachers retirement system is held whole in its land holdings and so that we can consolidate the national monument.

This amendment will not pay them any money. It will place a hardship on the State teachers retirement system and do great damage to this bill.

Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to the Nichols so-called balanced-budget amendment. The fact of the matter is that almost all these lands that are being designated here are already managed by the Federal land management agencies, by the Park Service, by the Bureau of Land Management. So we are transferring some of these lands from the jurisdiction of the BLM to the Park Service. There may be some turf battles involved, but the fact of the matter is the money within the Department of the Interior can flow to the Park Service in these instances.

Likewise, they may, for instance, as we look at these designations, we are asking the BLM to manage some of the lands as wilderness area and releasing other lands from being managed as wilderness.

Furthermore the private land would be insignificant because most of this is public land.

I would challenge the gentleman's figures that he has on the chart concerning the backlog; the figure is closer to $3 billion. In any case the land acquisition funding is not based on a pot of gold. It is based on a pot of oil, offshore Continental Shelf receipts, the land-water conservation fund which are credited to the land-water acquisition programs which has over $7 billion available until appropriated.

Mr. NICHOLS. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Smoke and mirrors, Mr. Chairman. They say there will be no cost. What about the cost of the 20,000 jobs that will be lost?

I would hate to manage millions of dollars and millions of acres myself. The gentleman said it is all BLM land. I thought we were just talking about exchange of millions of acres of land that would come into this. Who is going to maintain that? Who is going to maintain the roads? Who is going to maintain the water? Who is going to maintain the rest of it?

We the taxpayers are going to do that. It is going to take this public land off the tax rolls.

What about the revenue from the mineral sources? The other side of the aisle and many Members on this side of the aisle are always looking for alternative fuel sources. What about the geothermal that will not be looked into because this bill only covers, as I understand it, existing lines, existing coverages.

Some of my friends say, I've got to protect my environment vote. My heart bleeds for them. How about protecting the people instead of their environmental vote?

Take a look at the map that was up here before. If Members on the east coast had to live with the amount of Government-owned land, I do not think they could stand it. Remember the four Congressmen that represent that area want "no" on 2929 and "yes" on this amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute and 30 seconds to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I will just mention briefly that the common thrust of these amendments is to do one thing. It is to delay this bill so long that California desert protection will never occur. I do not know that there is a coordinated effort with regard to these amendments. I suspect there is not. But there is one common theme. It is delay, delay, delay until this basically cannot occur.

The other point that I just want to emphasize is that that the subcommittee chairman emphasized. We have gone to great lengths to protect the retired teachers of the States of California in this bill. The lands that are being exchanged are lands that are very important to the retired teachers in California. This provision would hurt California's retired teachers by blocking the exchange that has been very carefully worked out and that the State retired teachers and the public lands commission are strongly supporting.

I strongly urge a "no" vote on this amendment.

☐ 1650

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. LEVINE of California. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Chairman, the House had a similar amendment before us when we were dealing with the Flint Hills Prairie Park. That amendment was defeated on a vote of 153 to 249. I think the House would do well to defeat this amendment on the same basis it defeated that amendment.

Mr. NICHOLS. Mr. Chairman, I yield 1 minute to the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, I appreciate the gentleman from California trying to make this my amendment by saying this is delay, delay, delay, delay, but I must point out that it is the gentleman from Kansas [Mr. NICHOLS] that brought the amendment and it is not a delay tactic. What it is is fiscal responsibility.

What we are saying is right now we cannot pay for the land that we have tried to acquire. I am told that the Park Service is in arrears right now $4 to $5 billion, trying to pay for the land they have already acquired. Since they cannot pay for it, land not only in this desert but in other areas of the country, this land cannot be used, it cannot be sold, nobody will use it. It is amazing to me that if we do not have the money now to pay for land, and we do not have the money, even if it is not true, I am just told that it is true, but even if it is not true, we do not have the money when we are talking about a $350 billion deficit, we do not have the money for this kind of action. All the gentleman is saying is we cannot do it until we have the money.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER], the chairman of the full committee.

Mr. MILLER of California. Mr. Chairman, I would hope that we would reject this amendment. I think we should understand that what is happening in this legislation is that we seek for the most part the exchange of lands. There are very substantial private inholdings within the boundaries of this area. Many in the private sector would like to exchange those lands out. Their lands are not productive for any economic purpose. They are valuable from an environmental point of view, from a cultural point of view, from an anthropological point of view, but the fact is they have no economic value for that company, that holding. They believe they can trade those off for lands of economic value which they can then use, they can use in their endeavors to create jobs, to create economic activity. We will be able to put the park and the monument and others together for the purposes of better management.

So this makes sense all around. This is a win-win. This allows the private sector to go out and utilize its expertise and talents on those lands. It allows the public sector to have the most economical unit in order to run. This is a very foolish amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] has 45 seconds remaining.

Mr. LEHMAN of California. Mr. Chairman, I yield myself the 45 seconds.

Again, this amendment has nothing to do with anything except some land that the State teachers' retirement system in California owns. It has nothing to do with purchasing any other land. The provisions of the bill allow that the State of California, the State lands commission, may exchange those lands with lands offered to it by the Federal Government after the year 1996. That is all we allow for in the bill.

The losers, if this amendment is going to pass, are going to be the State of California and the State teachers' retirement system in California, an innocent party. It is not going to be anything else and it is not going to be anyone else.

We have carefully worked out the compromise with the State lands commission and the state teachers' retirement system over months and months of work. This House should abide by that work at this time.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from Kansas [Mr. NICHOLS].

The question was taken; and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. NICHOLS. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 133, noes 292, not voting 9, as follows:

☐ 1713

Mr. MOODY change is vote from "aye" to "no."

Mr. JAMES and Mr. RAY changed their vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 10, printed in House Report 102-314.

AMENDMENT AS MODIFIED OFFERED BY MR. BLAZ

Mr. BLAZ. Mr. Chairman, I offer an amendment as modified.

The CHAIRMAN. The Clerk will designate the amendment as modified.

The text of the amendment, as modified, is as follows:

Amendment as modified; offered by Mr. BLAZ; instead of the matter proposed to be inserted, insert the following:

Page 65, after line 15, add the following new title:

TITLE VIII—MILITARY LANDS AND OVERFLIGHTS

SEC. 801. SHORT TITLE AND FINDINGS.

(a) SHORT TITLE.—This title may be cited as the "California Military Lands Withdrawal and Overflights Act of 1991".

(b) FINDINGS.—The Congress finds that—

(1) the Federal lands within the desert regions of California have provided essential opportunities for military training, research, and development for the Armed Forces of the United States and allied nations;

(2) alternative sites for military training and other military activities carried out on Federal lands in the California desert area are not readily available;

(3) while changing world conditions have lessened to some extent the immediacy of military threats to the national security of the United States and its allies, there remains a need for military training, research, and development activities of the types that have been carried out on Federal lands in the California desert area; and

(4) continuation of existing military training, research, and development activities, under appropriate terms and conditions, is not incompatible with the protection and proper management of the natural, environmental, cultural, and other resources and values of the Federal lands in the California desert area.

SEC. 802. WITHDRAWALS.

(a) CHINA LAKE.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragraph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) use as a research, development, test, and evaluation laboratory;

(B) use as a range for air warfare weapons and weapon systems;

(C) use as a high hazard training area for aerial gunnery, rocketry, electronic warfare and countermeasures, tactical maneuvering and air support; and

(D) subject to the requirements of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands, located within the boundaries of the China Lake Naval Weapons Center, comprising approximately 1,100,000 acres in Inyo, Kern, and San Bernardino Counties, California, as generally depicted on a map entitled "China Lake Naval Weapons Center Withdrawal—Proposed", dated January 1985, and filed in accordance with section 803.

(b) CHOCOLATE MOUNTAIN.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragraph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing and the geothermal leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) testing and training for aerial bombing, missile firing, tactical maneuvering and air support; and

(B) subject to the provisions of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands comprising approximately 226,711 acres in Imperial County, California, as generally depicted on a map entitled "Chocolate Mountain Aerial Gunnery Range Proposed—Withdrawal" dated November 1991 and filed in accordance with section 803.

SEC. 803. MAPS AND LEGAL DESCRIPTIONS.

(a) PUBLICATION AND FILING REQUIREMENT.—As soon as practicable after the date of enactment of this title, the Secretary of the Interior shall—

(1) publish in the Federal Register a notice containing the legal description of the lands withdrawn and reserved by this title; and

(2) file maps and the legal description of the lands withdrawn and reserved by this title with the Committee on Energy and Natural Resources of the United States Senate and with the Committee on Interior and Insular Affairs of the United States House of Representatives.

(b) TECHNICAL CORRECTIONS.—Such maps and legal descriptions shall have the same force and effect as if they were included in this title except that the Secretary of the Interior may correct clerical and typographical errors in such maps and legal descriptions.

(c) AVAILABILITY FOR PUBLIC INSPECTION.—Copies of such maps and legal descriptions shall be available for public inspection in the Office of the Director of the Bureau of Land Management, Washington, District of Columbia; the Office of the Director, California State Office of the Bureau of Land Management, Sacramento, California; the office of the commander of the Naval Weapons Center, China Lake, California; the office of the commanding officer, Marine Corps Air Station, Yuma Arizona; and the Office of the Secretary of Defense, Washington, District of Columbia.

(d) REIMBURSEMENT.—The Secretary of Defense shall reimburse the Secretary of the Interior for the cost of implementing this section.

SEC. 804. MANAGEMENT OF WITHDRAWN LANDS.

(a) MANAGEMENT BY THE SECRETARY OF THE INTERIOR.—(1) Except as provided in subsection (g), during the period of the withdrawal the Secretary of the Interior shall manage the lands withdrawn under section 802 pursuant to the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) and other applicable law, including this title.

(2) To the extent consistent with applicable law and Executive orders, the lands withdrawn under section 802 may be managed in a manner permitting—

(A) the continuation of grazing pursuant to applicable law and Executive orders where permitted on the date of enactment of this title;

(B) protection of wildlife and wildlife habitat;

(C) control of predatory and other animals;

(D) recreation (but only on lands withdrawn by section 802(a) (relating to China Lake));

(E) the prevention and appropriate suppression of brush and range fires resulting from nonmilitary activities; and

(F) geothermal leasing on the lands withdrawn under section 802(a) (relating to China Lake).

(3)(A) All nonmilitary use of such lands, including the uses described in paragraph (2), shall be subject to such conditions and restrictions as may be necessary to permit the military use of such lands for the purposes specified in or authorized pursuant to this title.

(B) The Secretary of the Interior may issue any lease, easement, right-of-way, or other authorization with respect to the nonmilitary use of such lands only with the concurrence of the Secretary of the Navy.

(b) CLOSURE TO PUBLIC.—(1) If the Secretary of the Navy determines that military operations, public safety, or national security require the closure to public use of any road, trail, or other portion of the lands withdrawn by this title, the Secretary may take such action as the Secretary determines necessary or desirable to effect and maintain such closure.

(2) Any such closure shall be limited to the minimum areas and periods which the Secretary of the Navy determines are required to carry out this subsection.

(3) Before and during any closure under this subsection, the Secretary of the Navy shall—

(A) keep appropriate warning notices posted; and

(B) take appropriate steps to notify the public concerning such closures.

(c) MANAGEMENT PLAN.—The Secretary of the Interior (after consultation with the Secretary of the Navy) shall develop a plan for the management of each area withdrawn under section 802 during the period of such withdrawal. Each plan shall—

(1) be consistent with applicable law;

(2) be subject to conditions and restrictions specified in subsection (a)(3);

(3) include such provisions as may be necessary for proper management and protection of the resources and values of such area; and

(4) be developed not later than three years after the date of enactment of this title.

(d) BRUSH AND RANGE FIRES.—The Secretary of the Navy shall take necessary precautions to prevent and suppress brush and range fires occurring within and outside the lands withdrawn under section 802 as a result of military activities and may seek assistance from the Bureau of Land Management in the suppression of such fires. The memorandum of understanding required by subsection (e) shall provide for Bureau of Land Management assistance in the suppression of such fires, and for a transfer of funds from the Department of the Navy to the Bureau of Land Management as compensation for such assistance.

(e) MEMORANDUM OF UNDERSTANDING.—(1) The Secretary of the Interior and the Secretary of the Navy shall (with respect to each land withdrawal under section 802) enter into a memorandum of understanding to implement the management plan developed under subsection (c). Any such memorandum of understanding shall provide that the Director of the Bureau of Land Management shall provide assistance in the suppression of fires resulting from the military use of lands withdrawn under section 802 if requested by the Secretary of the Navy.

(2) The duration of any such memorandum shall be the same as the period of the withdrawal of the lands under section 802.

(f) ADDITIONAL MILITARY USES.—(1) Lands withdrawn by section 802 may be used for defense-related uses other than those specified in such section. The Secretary of Defense shall promptly notify the Secretary of the Interior in the event that the lands withdrawn by this title will be used for defense-related purposes other than those specified in section 802. Such notification shall indicate the additional use or uses involved, the proposed duration of such uses, and the extent to which such additional military uses of the withdrawn lands will require that additional or more stringent conditions or restrictions be imposed on otherwise-permitted nonmilitary uses of the withdrawn land or portions thereof.

(g) MANAGEMENT OF CHINA LAKE.—(1) The Secretary of the Interior may assign the management responsibility for the lands withdrawn under section 802(a) to the Secretary of the Navy who shall manage such lands, and issue leases, easements, rights-of-way, and other authorizations, in accordance with this title and cooperative management arrangements between the Secretary of the Interior and the Secretary of the Navy. In the case that the Secretary of the Interior assigns such management responsibility to the Secretary of the Navy before the development of the management plan under subsection (c), the Secretary of the Navy (after consultation with the Secretary of the Interior) shall develop such management plan.

(2) The Secretary of the Interior shall be responsible for the issuance of any lease, easement, right-of-way, and other authorization with respect to any activity which involves both the lands withdrawn under section 802(a) and any other lands. Any such authorization shall be issued only with the consent of the Secretary of the Navy and, to the extent that such activity involves lands withdrawn under section 802(a), shall be subject to such conditions as the Secretary of the Navy may prescribe.

(3) The Secretary of the Navy shall prepare and submit to the Secretary of the Interior an annual report on the status of the natural and cultural resources and values of the lands withdrawn under section 802(a). The Secretary of the Interior shall transmit such report to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(4) The Secretary of the Navy shall be responsible for the management of wild horses and burros located on the lands withdrawn under section 802(a) and may utilize helicopters and motorized vehicles for such purposes. Such management shall be in accordance with laws applicable to such management on public lands and with an appropriate memorandum of understanding between the Secretary of the Interior and the Secretary of the Navy.

(5) Neither this title nor any other provision of law shall be construed to prohibit the Secretary of the Interior from issuing and administering any lease for the development and utilization of geothermal steam and associated geothermal resources on the lands withdrawn under section 802(a) pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) and other applicable law, but no such lease shall be issued without the concurrence of the Secretary of the Navy.

(6) This title shall not affect the geothermal exploration and development authority of the Secretary of the Navy under section 2689 of title 10, United States Code, except that the Secretary of the Navy shall obtain the concurrence of the Secretary of the Interior before taking action under that section with respect to the lands withdrawn under section 802(a).

SEC. 805. DURATION OF WITHDRAWALS.

(a) DURATION.—The withdrawal and reservation established by this title shall terminate 15 years after the date of enactment of this title.

(b) DRAFT ENVIRONMENTAL IMPACT STATEMENT.—No later than 12 years after the date of enactment of this title, the Secretary of the Navy shall publish a draft environmental impact statement concerning continued or renewed withdrawal of any portion of the lands withdrawn by this title for which that Secretary intends to seek such continued or renewed withdrawal. Such draft environmental impact statement shall be consistent with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applicable to such a draft environmental impact statement. Prior to the termination date specified in subsection (a), the Secretary of the Navy shall hold a public hearing on any draft environmental impact statement published pursuant to this subsection. Such hearing shall be held in the State of California in order to receive public comments on the alternatives and other matters included in such draft environmental impact statement.

(c) EXTENSIONS OR RENEWALS.—The withdrawals established by this title may not be extended or renewed except by an Act or joint resolution.

SEC. 806. ONGOING DECONTAMINATION.

(a) PROGRAM.—Throughout the duration of the withdrawals made by this title, the Secretary of the Navy, to the extent funds are made available, shall maintain a program of decontamination of lands withdrawn by this title at least at the level of decontamination activities performed on such lands in fiscal year 1986.

(b) REPORTS.—At the same time as the President transmits to the Congress the President's proposed budget for the first fiscal year beginning after the date of enactment of this title and for each subsequent fiscal year, the Secretary of the Navy shall transmit to the Committees on Appropriations, Armed Services, and Energy and Natural Resources of the Senate and to the Committees on Appropriations, Armed Services, and Interior and Insular Affairs of the House of Representatives a description of the decontamination efforts undertaken during the previous fiscal year on such lands and the decontamination activities proposed for such lands during the next fiscal year including:

(1) amounts appropriated and obligated or expended for decontamination of such lands;

(2) the methods used to decontaminate such lands;

(3) amount and types of contaminants removed from such lands;

(4) estimated types and amounts of residual contamination on such lands; and

(5) an estimate of the costs for full decontamination of such lands and the estimate of the time to complete such decontamination.

SEC. 807. REQUIREMENTS FOR RENEWAL.

(a) NOTICE AND FILING.—(1) No later than three years prior to the termination of the withdrawal and reservation established by this title, the Secretary of the Navy shall advise the Secretary of the Interior as to whether or not the Secretary of the Navy will have a continuing military need for any of the lands withdrawn under section 802 after the termination date of such withdrawal and reservation.

(2) If the Secretary of the Navy concludes that there will be a continuing military need for any of such lands after the termination date, the Secretary shall file an application for extension of the withdrawal and reservation of such needed lands in accordance with the regulations and procedures of the Department of the Interior applicable to the extension of withdrawals of lands for military uses.

(3) If, during the period of withdrawal and reservation, the Secretary of the Navy decides to relinquish all or any of the lands withdrawn and reserved by this title, the Secretary shall file a notice of intention to relinquish with the Secretary of the Interior.

(b) CONTAMINATION.—(1) Before transmitting a notice of intention to relinquish pursuant to subsection (a), the Secretary of Defense, acting through the Department of Navy, shall prepare a written determination concerning whether and to what extent the lands that are to be relinquished are contaminated with explosive, toxic, or other hazardous materials.

(2) A copy of such determination shall be transmitted with the notice of intention to relinquish.

(3) Copies of both the notice of intention to relinquish and the determination concerning the contaminated state of the lands shall be published in the Federal Register by the Secretary of the Interior.

(c) DECONTAMINATION.—If any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is contaminated, and the Secretary of the Interior, in consultation with the Secretary of the Navy, determines that decontamination is practicable and economically feasible (taking into consideration the potential future use and value of the land) and that upon decontamination, the land could be opened to operation of some or all of the public land laws, including the mining laws, the Secretary of the Navy shall decontaminate the land to the extent that funds are appropriated for such purpose.

(d) ALTERNATIVES.—If the Secretary of the Interior, after consultation with the Secretary of the Navy, concludes that decontamination of any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is not practicable or economically feasible, or that the land cannot be decontaminated sufficiently to be opened to operation of some or all of the public land laws, or if Congress does not appropriate a sufficient amount of funds for the decontamination of such land, the Secretary of the Interior shall not be required to accept the land proposed for relinquishment.

(e) STATUS OF CONTAMINATED LANDS.—If, because of their contaminated state, the Secretary of the Interior declines to accept jurisdiction over lands withdrawn by this title which have been proposed for relinquishment, or if at the expiration of the withdrawal made by this title the Secretary of the Interior determines that some of the lands withdrawn by this title are contaminated to an extent which prevents opening such contaminated lands to operation of the public land laws—

(1) the Secretary of the Navy shall take appropriate steps to warn the public of the contaminated state of such lands and any risks associated with entry onto such lands;

(2) after the expiration of the withdrawal, the Secretary of the Navy shall undertake no activities on such lands except in connection with decontamination of such lands; and

(3) the Secretary of the Navy shall report to the Secretary of the Interior and to the Congress concerning the status of such lands and all actions taken in furtherance of this subsection.

(f) REVOCATION AUTHORITY.—Notwithstanding any other provision of law, the Secretary of the Interior, upon deciding that it is in the public interest to accept jurisdiction over lands proposed for relinquishment pursuant to subsection (a), is authorized to revoke the withdrawal and reservation established by this title as it applies to such lands. Should the decision be made to revoke the withdrawal and reservation, the Secretary of the Interior shall publish in the Federal Register an appropriate order which shall—

(1) terminate the withdrawal and reservation;

(2) constitute official acceptance of full jurisdiction over the lands by the Secretary of the Interior; and

(3) state the date upon which the lands will be opened to the operation of some or all of the public lands laws, including the mining laws.

SEC. 808. DELEGABILITY.

(a) DEFENSE.—The functions of the Secretary of Defense or the Secretary of the Navy under this title may be delegated.

(b) INTERIOR.—The functions of the Secretary of the Interior under this title may be delegated, except that an order described in section 807(f) may be approved and signed only by the Secretary of the Interior, the Under Secretary of the Interior, or an Assistant Secretary of the Department of the Interior.

SEC. 809. HUNTING, FISHING, AND TRAPPING.

All hunting, fishing, and trapping on the lands withdrawn by this title shall be conducted in accordance with the provisions of section 2671 of title 10, United States Code.

SEC. 810. IMMUNITY OF UNITED STATES.

The United States and all departments or agencies thereof shall be held harmless and shall not be liable for any injury or damage to persons or property suffered in the course of any geothermal leasing or other authorized nonmilitary activity conducted on lands described in section 802 of this title.

SEC. 811. EL CENTRO RANGES.

The Secretary of the Interior is authorized to permit the Secretary of the Navy to use until January 1, 1994, the approximately 44,870 acres of public lands in Imperial County, California, known as the East Mesa and West Mesa ranges, in accordance with the Memorandum of Understanding dated June 29, 1987, between the Bureau of Land Management, the Bureau of Reclamation, and the Department of the Navy. Such use shall be consistent with such Memorandum of Understanding and such additional terms and conditions as the Secretary of the Interior may require in order to protect the natural, scientific, environmental, cultural, and other resources and values of such lands and to minimize the extent to which use of such lands for military purposes impedes or restricts use of such or other public lands for other purposes. All military uses of such lands shall cease on January 1, 1994, unless authorized by subsequent Act of Congress.

SEC. 812. MILITARY OVERFLIGHTS.

(a) DISCLAIMER.—Nothing in this Act shall preclude low-level overflights by military aircraft, the designation of new units of special airspace, or the use or establishment of military flight telephone routes over the new units of the National Park or National Wilderness Preservation Systems (or any additions to existing units of such Systems) designated by this Act.

(b) MONITORING.—The Secretary of the Interior shall monitor the effects of aircraft overflights on the resources and values of the units of the National Park System and National Wilderness Preservation System designated or expanded by this Act, and on visitor enjoyment of such units. The Secretary of the Interior shall actively seek the assistance of the Secretary of Defense, consistent with national security needs, to resolve concerns related to such overflights and to prevent, eliminate, or minimize the derogation of resources and values and of visitor enjoyment associated with overflight activities.

The CHAIRMAN. Under the rule, the gentleman from Guam, Mr. BLAZ, will be recognized for 5 minutes, and a member opposed will be recognized for 5 minutes.

Does the gentleman from California [Mr. LEHMAN] oppose the amendment?

Mr. LEHMAN of California. I do not, Mr. Chairman.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] does not oppose the amendment.

The Chair recognizes the gentleman from Guam [Mr. BLAZ].

Mr. BLAZ. Mr. Chairman, I have an inquiry then. If the gentleman from California [Mr. LEHMAN] does not oppose the amendment, since 10 minutes are allowed for this amendment, do I have 10 minutes to dispense?

The CHAIRMAN. The Chair will then ask is there any opposition to the amendment?

Without objection, the gentleman from Guam [Mr. BLAZ] will be recognized for 10 minutes.

There was no objection.

Mr. BLAZ. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, prior to the debate I sought unanimous consent that the proposed Blaz amendment and the proposed vento amendment be merged. That was granted. My comments, then, relate to the Vento-Blaz formulation.

Mr. Chairman, I offer this amendment in conjunction with Mr. Vento because it has become apparent to all of us that the end of the cold war has, sadly, not opened an era of world peace. Rather, the fall of the Iron Curtain has revealed an array of regional conflicts which previously had been concealed by the global nature of the stand-off between the United States and the Soviet Union.

The Persian Gulf war is only one example of how these smaller conflicts can reach the United States with devastating impact. Or course, we all applaud the military cutbacks which the end of the cold war will permit. But we must not persuade ourselves that our military is superfluous. Indeed, if we learned anything from the Persian Gulf, it is that as our military becomes smaller, its training must be enhanced to assure that our vital interests as a Nation will be preserved.

As technologically advanced as our arsenal is, it will prove no more effective than a club and a rock, unless the personnel who man it have acquired the necessary skills. The California desert provides the area and the facilities where these skills can be honed. This amendment, which I join Mr. VENTO in offering, will help assure that when we must next send our young people in harm's way, they will be going forth fully prepared. It is the most that we can do for our brave men and women in uniform, and it is the least that should be expected of us as a Nation.

I urge all my colleagues in the House to support this amendment.

Mr. Chairman, it is my understanding since some of my colleagues on both sides would like some time, that I am now prepared to yield time to those who wish time. But before I yield to the gentleman who is standing, let me say I mentioned last week and I mentioned today again this gentleman absolutely enjoyed working with the gentleman from Minnesota [Mr. VENTO], the gentleman from California [Mr. LEHMAN], and the gentleman from California [Mr. MILLER], and the gentleman from California [Mr. LEVINE] as well.

□ 1720

Mr. Chairman, I yield 2 minutes to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in support of this amendment. As modified by the gentleman from Guam under his unanimous-consent request, the new Vento-Blaz amendment is similar to my own amendment, which is made in order under the rule.

Mr. Chairman, this amendment would add to the bill provisions related to continued military use by the Navy of more than 1.3 million acres of Federal lands in the California desert and continued low-level overflights by military aircraft of other areas covered by the bill.

The amendment is similar to a bill—H.R. 3565—which I introduced last month and that was cosponsored by Chairman MILLER of the Interior Committee and the gentlemen from California, Mr. LEHMAN and Mr. LEVINE. It is also similar to a bill, sponsored by our colleague from Maryland, Mrs. BYRON, that the House passed in 1987 but on which the Senate did not complete action.

The lands covered by this amendment have been used by the Navy for many yuears and for a variety of important purposes. Past withdrawals for military use have expired—and under the Engle Act such withdrawals in peacetime can be renewed only by congressional action such as this amendment.

The amendment would add a new title, title VIII, to the bill, It would renew the military withdrawal of the China Lake Naval Weapons Center and the Chocolate Mountain Aerial Gunnery Range and would also authorize continued military use of certain other lands in Imperial County, CA, by the Navy.

The Subcommittee on National Parks and Public Lands, which I chair, held a hearing on these provisions on November 5, and this Vento-Blaz amendment includes some revisions made in response to suggestions by the administration.

For example, the amendment would delete from the Chocolate Mountain withdrawal 640 acres, as proposed by the Interior Department, to accommodate mineral exploration. At the hearing, the Defense Department indicated that this was acceptable to them. Similarly, language related to possible recreational use of the withdrawn lands has been narrowed so that it applies only to China Lake—again, as suggested by the Interior Department.

In the same way, this Vento-Blaz amendment includes language related to military overflights that is based on administration suggestions at that same hearing. That language would add to H.R. 2929 a provision stating that nothing in the bill is to be construed as precluding low-level military overflights of lands covered by the bill or as prohibiting either the designation of new units of special airspace of the establishment of military flight training routes over the lands covered by the bill.

Mr. Chairman, provisions related to overflights are not actually a necessary part of this or any bill designating wilderness areas or to provide for adding lands to the National Park System. Such designations, by themselves, do not have any direct effect on low-level overflights, civilian or military, which are regulated by other existing laws and policies.

However, because some have argued that enactment of legislation like H.R. 2929 could have such a direct effect on existing patterns of military overflights, I think adding language to clarify this matter may be helpful—and that is what this amendment does.

In summary, Mr. Chairman, this amendment will assure continued military use of the important China Lake and Chocolate Mountain areas, and will clarify that the designation of other California desert lands as wilderness or National Park System areas will not by itself block continued military overflights of those lands. I urge adoption of the amendment.

Mr. BLAZ. Mr. Chairman, I have an inquiry at this point. I must admit that I did not hear what was said at the beginning. Do I have 5 minutes or do I have 10 minutes?

The CHAIRMAN. There was no Member rising in opposition. The gentleman from Guam [Mr. BLAZ] had 10 minutes, and he has 3½ minutes remaining.

Mr. BLAZ. Mr. Chairman, in that case, I yield 2 minutes to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Chairman, I would like to have the Members of the House consider that, if they think there is no cost in H.R. 2929, when they come to pay for their parks and recreation on the east coast, think about where the money is going to come from. It is all going to California.

Mr. Chairman, I would like to thank the gentleman from Guam [Mr. BLAZ]. Not many people know General BLAZ. He, as a boy, came from Guam, and looked at the 9th Marine Regiment and said, "I think I can do that." Well, General BLAZ grew up to lead the 9th Marine Regiment and is very noteworthy in his attempts in what he is trying to do.

However, Mr. Chairman, I would like to point out some shortfalls. I rise in support of the amendment of the gentleman from Guam [Mr. BLAZ], but opposed to H.R. 2929.

The amendment of the gentleman from Guam [Mr. BLAZ] does a lot of different things. One of the points in the whip notice is it says 30 years for renewals. It is actually 15 years, as combined, as I understand it, with Mr. VENTO'S. One of the things with the gentleman from Minnesota [Mr. VENTO] is the El Centro ranges that go out in 1994. Those are the ranges where I, as a pilot, Jonathan Livingston Seagull trained on Inky Barley Pitty Baggage Rakey's Litter. That is where we drop our practice bombs, and I know that they can request a renewal, but then they have to support and requisition an environmental-impact statement, and the Navy has to give a report of decontamination.

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. CUNNINGHAM. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Chairman, I would just point out that this is because they had not made a formal request under the Engel Act. We have no illusions about anything, and these are standard procedures under the Engel Act, as is the 15 years.

Mr. Chairman, I thank the gentleman from California [Mr. CUNNINGHAM] for yielding.

Mr. CUNNINGHAM. Mr. Chairman, 15 years is not my point. It is that they phased out in 1994, and that this training is critical. This is where our young pilots train from the training squadrons, and without that we are lost. If my colleagues want to cut the military, they want them well equipped, well trained, well, there needs more in this amendment. We also need buffer zones around.

Mr. BLAZ. Mr. Chairman, I yield 1 minute to the gentlewoman from Maryland [Mrs. BYRON].

Mrs. BYRON. Mr. Chairman, let me thank the gentleman from Guam [Mr. BLAZ] and the gentleman from California [Mr. CUNNINGHAM] who has just spoken from the well.

Mr. Chairman, I have been assured by the Department of Defense that by 1994, that is adequate time for them to get the request in for a continuation of the use of those areas.

Let me say to my colleague, the gentleman from Guam [Mr. BLAZ] who serves on both the Committee on Armed Services and the Committee on Interior and Insular Affairs with me, and also to the gentleman from Minnesota [Mr. VENTO], chairman of the Subcommittee on National Parks and Public Lands, that I want to thank him for putting the language of a bill that I had passed by this body in 1987. Once again DOD was here in November to testify in a hearing that we had, and the testimony was that they stated at the time with a modification of the gentleman's amendment it met all of their concerns and, therefore, they are in favor of the amendment as drafted.

As my colleagues know, we spent a great deal of time on Friday discussing this amendment. My colleagues from California, Top Gun CUNNINGHAM, and I had a discussion, but I think this amendment answers the questions that DOD was concerned about.

Mr. LEHMAN of California. Mr. Chairman, I move to strike the last word, and I will only take 30 seconds. I just want to get on the record the answer to two questions.

I ask the gentleman from Guam, "Mr. BLAZ, are the land withdrawal provisions in your amendment the ones the Navy wants?"

Mr. BLAZ. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from Guam.

Mr. BLAZ. Yes, it is.

Mr. LEHMAN of California. And is the overflight language which is put forth in the amendment the overflight language that the Defense Department has asked for?

Mr. BLAZ. Yes, it is.

Mr. LEHMAN of California. Mr. Chairman, I thank the gentleman from Guam for his good work in this area.

Mr. BLAZ. Mr. Chairman, I move to strike the last word on my own amendment.

The CHAIRMAN. The gentleman from Guam is recognized for 5 minutes.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. Mr. Chairman, I appreciate the gentleman from Guam [Mr. BLAZ] yielding this time to me.

Mr. Chairman, the amendment presented by the gentleman from Guam and the gentleman from Minnesota is very helpful to some of the concerns that we have about the military mission that is so critical to this country's role in the world. The National Training Center for the Army and the Marine Corps base at Twentynine Palms were very fundamental to the kind of training that caused us to be so successful in our venture in the Middle East. I know that the gentleman presenting this amendment and the Department of Defense feel very strongly that this amendment does not solve all of the problems involved.

I have a letter dated November 21 of this year to the chairman of the Committee on Armed Services that says:

> DEAR MR. CHAIRMAN: We oppose the California Desert Protection Act, 2929, and support the California Public Lands Wilderness Act, H.R. 3066. Adoption of amendments to H.R. 2929 expected to be offered by Congressman VENTO and Congressman BLAZ would address defense concerns relating to military overflight, the National Training Center and land withdrawals, but H.R. 2929 still would not address the following needs.

They list three critical needs which have been previously addressed in the RECORD. Can we carry forward the training mission that is so vital to the future of our national defense H.R. 2929 is in effect?

The answer to that according to the Secretary of Defense is no.

So, Mr. Chairman, while I rise in support of the amendment of the gentleman from Guam [Mr. BLAZ], let us state clearly for the record that we have not met the challenge of meeting the tremendous potential of this region. Our ability to defend ourselves and to move forward in our support of freedom throughout the world, depends on resolving these issues.

☐ 1730

Mr. BLAZ. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendments en bloc, as modified, offered by the gentleman from Guam [Mr. BLAZ].

The amendments en bloc, as modified, were agreed to.

The CHAIRMAN. It is now in order to consider amendment No. 12 printed in House Report 102-314.

AMENDMENT OFFERED BY MR. DELAY

Mr. DELAY. Mr. Chairman, I offer an amendment made in order under the rule.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. DELAY:

Page 65, after line 15, add the following new title:

TITLE VIII—REQUIREMENT FOR LAND DISPOSAL UPON LAND ACQUISITION

LAND DISPOSAL UPON LAND ACQUISITION

SEC. 801. Within one year of acquiring any non-Federal land or interest therein for any purpose of this Act, the Secretary shall dispose of all right, title, and interest in and to a quantity of Federal lands equal in value to the non-Federal land or interest acquired, as determined by the Secretary.

The CHAIRMAN. Under the rule, the gentleman from Texas [Mr. DELAY] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I am opposed to the amendment and would ask for the time.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair now recognizes the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, although our operating deficit currently stands at $412 billion, H.R. 2929 requires the Federal Government to spend even more money for the management and acquisition of land. This is simply fiscally irresponsible.

The Federal Government already owns approximately one-third of all of the land in the United States. We certainly do not need more. More importantly, we cannot afford it.

The Bureau of Land Management [BLM] estimates that there are 828,000 acres of non-Federal land included in the land covered by the conservation and protection provisions of H.R. 2929. Using current appraisal data and mapping the area by value, BLM has estimated that the value of these 828,000 acres of land ranges from a low of $180 million to a high of $500 million. In addition, the total of all administrative costs and clearances could exceed $49 million. These are not insignificant amounts of money which we would have to spend if this bill were passed.

Furthermore, as these figures provided by the National Park Service show, the NPS currently has a total shortfall of $8.38 to $10.38 billion; $3-$5 billion of this shortfall is in land it is authorized to acquire and has not yet paid for. It also has a shortfall of $5 billion in major facility repair and construction costs, and needs $375 million for annual park operations. It is unbelievable that some Members of this body are supporting H.R. 2929, a bill which will only add to the National Park Service's debt and burden it with additional land it will not be able to care for.

H.R. 2929 would also add to the Federal backlog of land it owes. Most people do not realize that the State of California is still negotiating for 51,000 acres of land that were part of its original statehood grant and have not yet been received. How can we even consider acquiring more of California's land before we have paid off our decades-old debt?

Even more outrageous is the fact that H.R. 2929 delays payment for the acquisition of land until after the budget agreement expires. The supporters of this bill know that we do not have the money or enough California land to pay for what it requires and are blatantly trying to avoid following the rules that this House passed to try to stem the growth of the deficit. The bill instead establishes the California desert lands credit account in the amount of the appraised value of the remaining land which has not been accounted for, with the intent to pay for it after October 1, 1995. If this is not a sign of fiscal irresponsibility then I don't know what is.

I am offering an amendment which will curb these fiscal excesses. My amendment will require the Federal Government to sell land of an equal value in exchange for acquiring additional land. If the land in question is considered truly vital for the public good and the Federal Government feels it necessary to acquire it, there must be some other less valuable piece of land which the Government could exchange for it. This will serve to keep the Government from purchasing more and more land which it cannot pay for.

I am merely asking that we maintain an equilibrium. I am not asking that we get rid of land, just that we have no net gain of Federal land so as not to continue to plunge further into debt. I urge you to support my amendment as an act of fiscal responsibility.

Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume, and I rise in opposition to the amendment.

Mr. Chairman, I think that Members should be aware of the ramifications of this. It is hard to take this amendment too seriously due to the enormous impact it might have beyond the bill we are talking about today.

The requirement that we sell off Federal land whenever we acquire any Federal land, as written in this amendment, would impact all the 50 States, not just the State of California vis-a-vis the actions we take in the California desert. If we acquire land with respect to the desert, we would have to sell land anywhere in the United States, not just in the vicinity of the desert.

Again we have required in the bill, in the exchange provisions, that there be a value-for-value trade at the time each exchange is made. Where there is Federal land available and where we need to acquire Federal land from the State teachers or in the amendment that the gentleman from California [Mr. MILLER] will offer in a couple of minutes, from Catallas, we will be able to do so by trading for other Federal land of equal appraised value somewhere else. The requirement placed here would make it virtually impossible to carry out the purposes of the act.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. The Chair will state that the gentleman from Texas [Mr. DELAY] has 1 minute remaining, and the gentleman from California [Mr. LEHMAN] has 3½ minutes remaining.

Mr. DELAY. Mr. Chairman, I will just quickly use my remaining 1 minute.

Mr. Chairman, I appreciate what the chairman of the subcommittee is saying, but it is obvious that they do not want to stop here. They want to increase the bank of Federal lands in this country. The fiscal irresponsibility embodied in this bill is truly astounding. How much clearer can it be?

Proponents of the Desert Protection Act claim that the land would be paid for through the exchange, as the subcommittee chairman says. However, there is only 550,000 acres of Federal land available in California for disposal, and H.R. 2929 will require the acquisition of 828,000 acres. To pay for all that land through equal exchange, California would have to be given Federal land outside the State, which means California would end up owning land in Oklahoma or New York, it is that crazy. Obviously this would not be a very good solution.

I am just saying that we should not be increasing the bank of Federal land in this country if we do not have the money for it. We can sell land if we want more land, but we should sell land in an equivalent amount.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to the amendment.

The amendment provides a solution where no problem exists. California has no problem in terms of the exchanges because there is Federal land in California which can provide the exchanges to block up and provide for the conservation units in the California desert. This reaches out and grabs into every 1 of the 50 States. You could have a 100-acre exchange in California and lose land in Minnesota or Washington or someplace else. The truth of the matter is that there is no great Federal grab that is going on. Our Nation has tried throughout its history to provide lands for homesteads, for schools, and for other purposes.

□ 1740

The lands that remain here are the lands that nobody wanted. These were considered the wastelands.

We see special value in these lands. We want to take and preserve them for the parks, for the wilderness, and other areas in this country for future generations. This is our American heritage. Let us try and hold it together.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Chairman, I would just say that the President had a policy of no new net wetlands. This is a sort of a no new net national park.

If we create the Mojave National Park, then we have to give back land out of the Grand Tetons. And if we want to expand Yellowstone to protect the park, we can give back some of Colorado, the Colorado National Park. Or if we want to expand Yosemite, we can give back Fire Island.

The bill provides for the exchange of lands between the private sector and the public sector. That is what the legislation does. For this amendment to come along is just ludicrous at this point, to suggest that somehow this is a workable policy or that this will save the taxpayers money.

These lands are there. They are there to be exchanged. For the gentleman from the State of Texas, which has so much RTC property, he ought to be happy that the California State teachers retirement system is even thinking of bidding on RTC properties down the road.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume.

I think the amendment is seriously flawed from a practical aspect. The requirement that Federal lands be disposed of within 1 year is totally impractical and in fact would have serious consequences right now when there is so much real estate on the market. It is flawed. We have worked out the problems in this bill with respect to exchange. I ask for a no vote on the amendment.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. DELAY].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. DELAY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 49, noes 379, not voting 6, as follows:

□ 1801

Mr. HEFLEY and Mr. ROSTENKOWSKI changed their vote from "aye" to "no."

Mr. SMITH of Texas changed his vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENTS, EN BLOC AS MODIFIED, OFFERED BY MR. MILLER OF CALIFORNIA

Mr. MILLER of California. Mr. Chairman, I offer amendments en bloc.

The CHAIRMAN. The Clerk will report the amendments en bloc.

The Clerk read as follows:

Amendments en bloc, as modified, offered by Mr. MILLER of California:

Page 7, lines 1 and 2, strike "seven hundred and thirty" and insert in lieu thereof "three hundred and eighty".

Page 13, line 14, move section 102(25) to page 8, line 10, and renumber all the remaining wilderness areas in section 102 in sequential order.

Page 16, line 2, strike "twenty-eight thousand eight hundred and twenty" and insert in lieu thereof "twenty-nine thousand five hundred and eighty".

Page 16, lines 3 through 8, strike "two maps" and everything that follows through line 8, and insert in lieu thereof "a map entitled 'Kelso Dunes Wilderness—Proposed 1', dated October 1991, a map entitled 'Kelso Dunes Wilderness—Proposed 2', dated May 1991, and a map entitled 'Kelso Dunes Wilderness—Proposed 3', dated September 1991, and which shall be known as the Kelso Dunes Wilderness.".

Page 16, line 21, strike "forty-eight acres" and insert in lieu thereof "three hundred and sixty-eight acres".

Page 17, line 6, strike "forty-five thousand six hundred and eighty acres" and insert in lieu thereof with "forty-six thousand four hundred and sixty acres".

Page 17, line 15, strike "three hundred", and insert in lieu thereof "four hundred".

Page 18, line 6, strike "twenty-five", and insert in lieu thereof "five".

Page 19, line 16, strike "five hundred and eighty", and insert in lieu thereof "two hundred and forty".

Page 20, lines 7 through 11, strike "two maps" and everything that follows and insert in lieu thereof "a map entitled 'Old Woman Mountains Wilderness—Proposed 1', dated May 1991 and a map entitled 'Old Woman Mountains Wilderness—Proposed 2', dated October 1991, and which shall be known as the Old Woman Mountains Wilderness.".

Page 25, line 23, strike "five hundred and forty", and insert in lieu thereof "eight hundred".

Page 25, line 25, strike "dated May 1991", and insert in lieu thereof "dated October 1991".

Page 33, line 12 and 13, strike "a map entitled 'Havasu Wilderness'" and insert in lieu thereof "a map entitled 'Havasu Wilderness—Proposed'".

Page 33, lines 18 and 19, strike "a map entitled 'Imperial Refuge Wilderness'", and insert in lieu thereof "two maps entitled 'Imperial Refuge Wilderness—Proposed " and 'Imperial Refuge Wilderness—Proposed 2,'".

Page 33, line 20, strike "known as Imperial Wilderness" and insert in lieu thereof "known as Imperial Refuge Wilderness".

Page 40, line 7, strike "dated May 1991 or prior" and insert in lieu thereof "dated October 1991 or prior".

Page 44, line 8, strike "service" and insert in lieu thereof "services".

Page 48, line 23, strike "in a right-of-way identified in paragraph (1)" and insert "in the Southern California Edison Company validly issued Eldorado-Lugo Transmission Line right-of-way and Mojave-Lugo Transmission Line right-of-way".

Page 49, line 14, strike "replacement" and insert "upgraded".

Page 49, line 23, strike "Eldorado rights-of-way" and insert in lieu thereof "Eldorado rights-of-way and Mojave right-of-way".

Page 50, line 3, strike "in the Mojave right-of-way".

Page 55, line 3, strike "six hundred" and insert "seven hundred".

Page 55, lines 12 and 13, strike "ninety-four thousand five hundred acres" and insert in lieu thereof "ninety-five thousand fifty-six acres".

Page 55, line 16, strike "dated September 1991 or prior" and insert in lieu thereof "dated October 1991 or prior".

Page 55, line 19, strike "dated September 1991 or prior" and insert in lieu thereof "dated October 1991 or prior".

Page 64, line 5, strike "October 1, 1995" and insert "October 1, 1996".

Page 26 lines 17 through 23; page 26, strike lines 11 through 19; page 27, strike lines 3 through 9; and redesignated the paragraphs in section 102 accordingly.

Page 31, line 20, insert "(a)" after "Sec. 108.".

Page 31, line 23, insert ", except for those areas provided for in subsection (b)," after "Act".

Page 32, after line 5, insert the following new subsection:

(b) Subject to valid existing rights, the Federal lands identified on maps as "Avawatz Mountains Wilderness—Proposed", dated May 1991; "South Avawatz Wilderness—Proposed", dated May 1991; and two maps entitled "Soda Mountains Wilderness—Proposed 1", dated May 1991, and "Soda Mountains Wilderness—Proposed 2", dated January 1989, are hereby withdrawn from disposition under the public lands laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and form operation of the Geothermal Steam Act of 1970.".

Page 65, lines 5 and 6 and insert in lieu thereof the following:

EXCHANGES

SEC. 611. (a) Upon request of the Catellus Development Corporation (hereafter in this section referred to as "Catellus"), the Secretary shall enter into negotiations for an agreement or agreements to exchange Federal lands or interests therein on the list referred to in subsection (b)(2) of this section for lands of Catellus or interests therein which are located within the boundaries of one or more of the wilderness areas or park units designated by this Act.

(b) Within six months after the date of enactment of this Act, the Secretary shall send to Catellus and to the Committees a list of the following:

(1) Lands of Catellus or interests therein (including mineral interests) which are located within the boundaries of the wilderness areas or park units designated by this Act.

(2) Lands, wherever located, under the Secretary's jurisdiction to be offered for exchange, in the following priority:

(A) Lands, including lands with mineral and geothermal interests, which have the potential for commercial development but which are not currently under lease or producing Federal revenues.

(B) Federal lands managed by the Bureau of Reclamation that the Secretary determines are not needed for any Bureau of Reclamation project.

(C) Any public lands that the Secretary, pursuant to the Federal Land Policy and Management Act of 1976, has determined to be suitable for disposal through exchange.

(c)(1) If an agreement under this section is for (A) an exchange involving lands outside the State of California, (B) more than 5,000 acres of Federal land or interests therein in California, or (C) Federal lands in any State valued at more than $5,000,000, the Secretary shall provide to the Committees a detailed report of such land exchange agreements.

(2) All land exchange agreements shall be consistent with the Federal Land Policy and Management Act of 1976.

(3) Any report submitted to the Committee under this subsection shall include the following:

(A) A complete list and appraisal of the lands or interests in land proposed for exchange.

(B) A complete list of the lands, if any, to be acquired by the United States which contain any hazardous waste, toxic waste, or radioactive waste which requires removal or remedial action under Federal or State law, together with the estimated costs of any such action.

(4) An agreement under this subsection shall not take effect unless approved by a joint resolution enacted by the Congress.

(d) The Secretary shall provide the California State Lands Commission with a 180-day right of first refusal to exchange for any federal lands or interests therein, located in the State of California, on the list referred to in subsection (b)(2). Any lands with respect to which a right of first refusal is not noticed within such period or exercised under this subsection shall be available to Catellus for exchange in accordance with this section.

(e) On January 3, 1996, the Secretary shall provide to the Committees a list and appraisal consistent with the Federal Land Policy and Management Act of 1976 of all Catellus lands eligible for exchange under this section for which an exchange has not been completed. With respect to any of such lands for which an exchange has not been completed by October 1, 1996 (hereafter in this section referred to as "remaining lands"), the Secretary shall establish an account in the name of Catellus (hereafter in this section referred to as the "exchange account"). Upon the transfer of title by Catellus to all or a portion of the remaining lands to the United States, the Secretary shall credit the exchange account in the amount of the appraised value of the transferred remaining lands at the time of such transfer.

(f) Catellus may use the credit in the exchange account to bid, as any other bidder, for any property real, personal, or mixed, wherever located, owned or controlled by the United States, including in a corporate capacity or as a receiver, conservator, or similar fiduciary capacity to be sold in accordance with the applicable laws and regulations of the Federal agency or instrumentality, or any element thereof, offering such property for sale. Upon approval by the Secretary in writing, the credits in Catellus's exchange account may be transferred or sold in whole or in part by Catellus to any other party, thereby vesting such party with all the rights formerly held by Catellus. The exchange account shall be adjusted to reflect successful bids under this section or payments or forfeited deposits, penalties, or other costs assessed to the bidder in the course of such sales.

(g)(1) The Secretary shall not accept title pursuant to this section to any lands unless such title includes all right, title, and interest in and to the fee estate.

(2) Notwithstanding paragraph (1), the Secretary may accept title to any subsurface estate where the United States holds title to the surface estate.

(3) This subsection does not apply to easements and rights-of-way for utilities or roads.

(h) In no event shall the Secretary accept title under this section to lands which contain any hazardous waste, toxic waste, or radioactive waste which requires removal or remedial action under Federal or State law unless such remedial action has been completed prior to the transfer.

(i) For purposes of the section, any appraisal shall be consistent with the provisions of section 206 of the Federal Land Policy and Management Act of 1976.

(j) As used in this section, the term "Committees" means the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

Mr. MILLER of California (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

There was no objection.

The CHAIRMAN. Under the rule, the gentleman from California [Mr. MILLER] will be recognized for 10 minutes and the gentleman from Guam [Mr. BLAZ] will be recognized for 10 minutes.

The Chair recognizes the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, it is my understanding that the amendment that we are now offering has no opposition. There is no controversy to the amendment. We will quickly move and hopefully pass this by a voice vote and then we will go to a vote immediately on final passage. That is my understanding from the other side of the aisle. Is that correct?

Mr. BLAZ. Mr. Chairman, if the gentleman will yield, that is correct.

Mr. MILLER of California. Mr. Chairman, I offer these en bloc amendments. They are mainly technical amendments to the bill that have been worked out with the minority and the majority of the staffs of the subcommittee. I would hope the Members would support them.

Mr. LEWIS of California. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I yield to my colleague, the gentleman from California.

Mr. LEWIS of California. Mr. Chairman, I appreciate my colleague yielding to me.

Mr. Chairman, as I understand the amendment, it is designed to address certain public employee lands in order that those lands might be disposed of in a way that at least the author of the amendment deems to be appropriate. Is that correct?

Mr. MILLER of California. That is correct.

Mr. LEWIS of California. The point of this amendment that does concern me is that there are very sizable numbers of acres of land in the territory that we are dealing with here in this bill in which a combination of two very important groups of public employees have significant investments.

The Members should know that in this case the California Teachers' Association has very sizable investments in thousands of acres of land. The teachers have investments by way of their retirement funds in thousands of acres of lands, invested because they hoped they would be kept for various natural resources to benefit their retirees. There is a process whereby those lands will be dealt with.

As I understand, this amendment deals with public employees who have a similar investment in acres of land. They invested those retirement dollars in order to hope for future potential resources that might be discovered. So I have a couple of questions in connection with that.

The provisions that relate to the teachers indicate that the teachers get a buyout after the year 2000 for whatever is left in their credit exchange account, as I understand it.

Mr. MILLER of California. Should the money be appropriated; that is correct.

Mr. LEWIS of California. Should the money be appropriated—I do not think there is any doubt about that, is there?

Mr. MILLER of California. The teachers do not doubt it; the gentleman is correct.

Mr. LEWIS of California. The State teachers get a buyout after the year 2000 for any amount left in their credit account, and I am asking, do the public employees have such a right?

Mr. MILLER of California. That is correct. That is in the body of the bill.

Mr. LEWIS of California. I am not sure it is correct. My understanding is that the teachers have that right, but the public employees do not have that right.

Mr. MILLER of California. Mr. Chairman, I cannot hear the gentleman.

Mr. LEWIS of California. It is my understanding that the teachers have that right, but the public employees' language does not provide them with that right; they have a different disposal mechanism.

Mr. MILLER of California. That is correct.

Mr. LEWIS of California. The public employees, as I understand it, can exchange for public lands outside the State of California, is that correct?

Mr. MILLER of California. That is provided that it is approved by the Congress.

Mr. LEWIS of California. It is my understanding that the State teachers cannot—they cannot exchange lands outside the State of California under this bill.

Mr. MILLER of California. That is at their request; the gentleman is correct. They have requested that they not be provided lands outside of California.

Mr. LEWIS of California. Well, Mr. Chairman, I appreciate the gentleman responding to my questions. I will ask for my own time and then comment on the amendment on my own time.

Mr. Chairman, I thank the gentleman.

Mr. BLAZ. Mr. Chairman, I yield myself such time as I may consume, and I yield to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. Mr. Chairman, I take this time because I believe a very important problem continues to exist with the bill.

Mr. Chairman, one of the complications of this bill that is very, very important to the citizens of California, but particularly important to retired former employees in California, is the fact that this bill has not settled the potential erosion of very significant investments for the retired teachers and the retired public employees in our State.

I had planned a motion to recommit in order to have a thorough and extensive discussion of this matter, but I am not sure that the House is either patient enough to put up with more dialog on this bill or that all that time is necessary. The points I wish to make now are pretty fundamental.

A wilderness package was put together that provided for 2.3 million acres of wilderness land and minimized these conflicts. If it had been enacted, it would have become the largest wilderness area in the continental United States.

□ 1810

That bill did not begin to create problems that might erode the future retirement benefits of former public employees of our State. As of this moment, the California Teachers Association literally owns nearly 300,000 acres of land in the territory that would be put in a wilderness area under H.R. 2929. Those lands were purchased because of their considered judgment about future retirement potential from the natural resources that can be tapped over time.

The teachers were somewhat ahead of the game. Some time ago they recognized the tremendous potential and resource value in those lands.

Looking around the scene, the investment advisers for the public employees said, "I wonder why the teachers are investing in all that land out there?" After they got a lot of advice and counsel from highly paid experts, they came to the conclusion it was because the teachers saw a tremendous profit potential there.

The public employees said, "How can we possibly take advantage of a similar circumstance for our retired employees?" Well, there was not very much land left that had huge investment potential. So they looked around in the private sector. It turned out, lo and behold, that the Santa Fe Railroad had an investment corporation that held hundreds of thousands of acres of land in this same territory.

What happened? The public employees bought 20 percent of the Santa Fe Railroad's property firm. Can you imagine that? Now, why would the public employees do that? Well, simply because they were looking for the investment potential in terms of America's natural resources in that very land.

They both were negotiating with the public commission that was drafting the bill which I offered earlier as a substitute. That bill excluded most of these territories, so that the teachers and the public employees could take advantage of that speculation for their future retirees' benefit.

In this bill, we give them a beg and a promise. We kiss them on the cheek, and we say, "Hey, we are your friends. We will give you a promise about the future. We will trade that land off. But remember, friend, you teachers, you retired employees, you are our constituents. We got the votes, we will tell you what to do." So they forced some of their leadership to sign off in a haphazard fashion to a solution that is not a solution at all.

There is huge investment potential here that can cause retired employees and retired teachers in our State to hope that they will be able to keep up with inflation from those investments. This bill will totally undermine that future potential.

It is important that the Members know that this bill, H.R. 2929, does create unnecessary problems for retired teachers and retired public employees in our State. That is the reason I was asking for an "aye" vote the other day on our substitute. It is one of the many substantive reasons why we ought to vote "no" on this bill on final passage.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the subcommittee chairman, the gentleman from California [Mr. LEHMAN].

Mr. LEHMAN of California. Mr. Chairman, the facts here ought to be very clear. There is a difference between the land owned by the old Santa Fe Land Co. and the land owned by the California State retired teachers.

Over 100 years ago, the Federal Government gave land to the State of California, land that no one else wanted, including the Federal Government, for the purposes of education. The State of California turned the land over to State teachers, and it ended up in their retirement system.

It was a land grant over 100 years ago from the Federal Government, far different from the situation with Catellus, the successor to the Santa Fe Land Co., which 1 year ago was invested in by CALPERS, the California Public Employee Retirement System. Now, this bill has been around for over 5 years, and it has been around the House, and this issue, in a form very similar to what it is today.

They made that investment 1 year ago, a 20-percent investment in Catellus.

They could sell that land tomorrow, just like they could sell any investment, but the obligation of the Federal Government here with respect to the two, I believe, is quite different. The State teachers system did not select their lands on the basis of any plan as the gentleman suggested. They received those lands as a grant from the National Government when California was admitted as a State. And all during the 100 years, the teachers retirement system has held that land, they have not sought to develop that land in any manner whatsoever. We have worked this out. I ask for a "no" vote.

Mr. BLAZ. Mr. Chairman, may I inquire how much time remains?

The CHAIRMAN. The gentleman from Guam [Mr. BLAZ] has 5 minutes remaining, and the gentleman from California [Mr. MILLER] has 5 minutes remaining.

Mr. BLAZ. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. THOMAS].

Mr. THOMAS of California. I thank the gentleman for yielding.

I just think it is kind of telling that what we have in this amendment is an offering for a land exchange. We had an amendment defeated earlier, in which people who had paid their own money privately invested in the land were going to be forced from the land even if they were unwilling sellers.

They were going to be forced from the land because the gentleman from California, the chairman of the committee, has said there was a constitutional provision which would allow the Government to take the land and give them what the Government thought was reasonable compensation.

Mr. Chairman, I think it is ironic that the company that was mentioned in this amendment is the successor to the railroad which the Government gave the land to as an inducement for it to build the railroad.

What the chairman is engaged in is taking the public's land, which was given to a private corporation as a stimulus to build the railroad and which has been held over the years and has accumulated value, and now they have a special amendment to allow them to exchange that land, some of it valuable, some of it less valuable, for other land, some of it valuable, some of it less valuable, rather than using another approach. It just seems to me that for all of the arguments about the encroachment of corporations, of individuals, and of rights, that most ironic amendment offered today is the fact that the public-used land to induce growth through a private company, and here we are coming full circle with an amendment which will bribe these folks with yet more land.

It was public land, should be public land, and you are going to use public land to buy them out.

Mr. MILLER of California. Mr. Chairman, I yield 30 seconds to the author of the bill, the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. I thank the gentleman for yielding.

I think, for the record, in light of the comments we have just heard on a technical amendment that does not deal with a land exchange, but with regard to the land exchange the record should reflect, No. 1, the California Retired Teachers Association, in a letter to the committee on October 25, supports the bill. And the company that includes the public employees retirement investors, in a letter to the committee of November 13, states, "We fully support the amendment and would no longer oppose the bill if the amendment is adopted." Both TERS and the retired teachers are happy with the amendment and urge support for the bill.

Mr. BLAZ. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. I thank the gentleman for yielding.

Mr. Chairman, I rise only to make a final point regarding this measure.

I want to remind those Members who either may have forgotten or were not able to be here when we had the first discussion regarding this bill: There were four Members of Congress who stood at once as we began this debate. We represent the territory that we are dealing with in this bill. Together, the population they represent would make us the 23d largest State in the country.

□ 1820

We represent territory that would make us the 29th State in terms of size, and yet as this bill went together the four Members who represent the territory, as well as the people they represent, were not consulted. In turn, those Members supported the substitute on the floor that was the result of almost 10 years of public dialog, 4 years of public hearings, and some 40,000 individual citizens' input.

Mr. Chairman, if we care about anything around here as a body, at least we should be willing to focus upon the Members who represent these districts.

The CHAIRMAN. The gentleman from California [Mr. MILLER] is recognized for 2 minutes.

Mr. MILLER of California. Mr. Speaker and Members of the House, perhaps the California delegation is giving the Members the finest Christmas present they could have received today because those of my colleagues who feared a powerful, unified delegation of 52 Members after reapportionment can now rest easy.

This bill has been attacked by my colleagues within the delegation and by those from without the delegation. They have tried numerous efforts today. My colleagues have voted every 10 minutes as they have attacked this bill, trying to lead us to believe that this is some kind of effort to create a park where a park is not justified.

The fact is over the last decade a park has been justified, and that is what all of the studies have found, and now we seek to implement it. We seek to implement it through the regular order. We seek to implement it through the hearings that were held, and the witnesses that were heard and the participation of all the members of our committee.

Now we come to the last noncontroversial amendment, an amendment that was asked for, and I cannot quite get this clear between my two colleagues whether we are doing too much for the teachers and these people or whether we are doing too little. That is not quite clear, but they asked for this amendment because they want to be able to exchange their lands out, and that is what we do in this bill which my colleagues have already voted on. This is just a technical amendment.

Mr. Chairman, I say to my colleagues, "One of these groups was given the lands when California became a State. Can't do much with the land. It's valuable from an environmental point of view, but it doesn't generate much income. They'd like to see if they can swap it out. The other is a private sector company that believes that they would like to swap their land out of the holdings of the monument so that they could see if they could become more productive on some other land because this land isn't terribly productive."

That is what we do, that is the regular order, that is what we have done in parks, and monuments and wilderness all over the country.

Mr. Chairman, I would urge my colleagues to support this amendment, there is no opposition to it, and then I would urge my colleagues to support the final passage of this legislation because this has been a long tortuous task, but is is clearly the right thing to do, and I urge an aye vote.

This amendment addresses concerns raised by the Catellus Development Corporation and the 950,000 members of the California Public Employees Retirement System.

Catellus and its stockholders, including the members of the California Public Employees Retirement System, own approximately 410,000 acres of land that would become inholdings within the park unit and monument areas designated in the California Desert Protection Act.

Mr. Chairman, using the numbers provided in the BLM's report inholding acquisition costs, the lands owned by Catellus are located in areas where land values range from $100 to $400 per acre. If we assume BLM's numbers are accurate, and some people including Catellus say they are high—this means the 410,000 acres of Catellus lands are worth from $41 to $164 million. Our amendment would allow Catellus to realize the value of these lands, while at the same time protecting the taxpayer's pocketbook.

The amendment is very similar to a provision included in the California Desert Protection Act to address concerns raised by the California State Lands Commission and the retired teachers in California.

The amendment directs the Secretary of the Interior to enter into land exchange negotiations with Catellus. The agreement would provide for the exchange of lands owned by Catellus for surplus nonrevenue producing Federal lands under the Interior Department's jurisdiction.

All land exchange agreements must be consistent with the Federal Land Policy and Management Act. Any land exchange agreement involving more than 5,000 acres of Federal land, any transaction valued at more than $5,000,000, or any exchange involving lands outside the State of California must be approved by a joint resolution of Congress.

Mr. Chairman, it is our hope that land exchanges will be successfully completed. However, if Catellus continues to own inholdings in the park units, and monument or wilderness areas after October 1, 1996, the Secretary is directed to establish a monetary credit account in the name of Catellus. The amount of the account shall be equivalent to the appraised value of the remaining inholdings. Catellus could then use this account to bid as any other bidder for excess or Federal property offered in a public sale.

Mr. Chairman, this amendment has the support of environmental organizations, as well as the California Public Employees Retirement System, and Catellus. It is an attempt to fairly deal with the largest inholder within the park, wilderness, and monument areas designated by this bill. The amendment allows the landowner to receive fair market value for its lands at the same time as it ensures that Federal taxpayers will receive fair market value for their public land. The exchange only occurs if Catellus wishes to give the Federal Government title to the Catellus lands.

Mr. BLAZ. Mr. Chairman, I am about to yield back the remaining time, but, before I do that, I just want to say to you that I appreciate more than I can express your indulgence and your courtesy to the gentleman from Guam.

Mrs. SCHROEDER. Mr. Chairman, I rise in support of the Vento-Blaz amendment to H.R. 2929, the California Desert Protection Act. The amendment is similar to H.R. 3565, which was referred jointly to the Committees on Armed Services and Interior and Insular Affairs.

This amendment withdraws 1.3 million acres of land from appropriation under the public land laws, allowing for its continued use for military purposes. The withdrawal for China Lake Naval Weapons Center in Inyo, Kern, and San Bernardino Counties and the Chocolate Mountain Aerial Gunnery Range in Imperial County would last for 15 years.

The area covered by the withdrawal meets the requirement of the Department of Defense for these two locations. Previous withdrawals of these lands for military purposes expired many years ago. The amendment also permits use by the Navy of the El Centro Ranges, also in Imperial County, until January 1, 1994.

The Vento-Blaz amendment also addresses the issue of military overflights. In section 812, the amendment clearly states that nothing in this bill precludes current or future military use of airspace. The section requires the Secretary of Interior to monitor the effects of overflights, and to work with the Secretary of Defense to prevent, eliminate, and minimize any adverse impact on resources, values, and visitor enjoyment caused by overflights.

This amendment is very similar to a bill passed by the House in the 100th Congress, H.R. 1548, and is modeled closely on the Military Lands Withdrawal Act of 1986, Public Law 99–606, 100 Stat. 3457–68. It has been slightly modified from the bill originally introduced this year, H.R. 3565, to address concerns raised by the Departments of Interior and Defense during hearings by the Interior Committee.

As chairwoman of the Armed Services Subcommittee on Military Installations and Facilities, I support the withdrawal of these lands from the protected California desert to allow for the continuation of military purposes set forth in the amendment. I salute the chairman of the National Parks and Public Lands Subcommittee, the gentleman from Minnesota [Mr. VENTO] and my colleague on the Armed Services Committee, the gentleman from Guam [Mr. BLAZ] for offering this amendment to address specific military concerns raised by the California Desert Protection Act.

Mr. BLAZ. Mr. Chairman, I yield back the balance of my time.

Mr. MILLER of California. Mr. Chairman, I yield back the balance of my time

Mr. LEHMAN of California. Mr. Chairman, I yield back the balance of our time.

The CHAIRMAN. The question is on the amendments en bloc, as modified, offered by the gentleman form California [Mr. MILLER].

The amendments en bloc, as modified, were agreed to.

The CHAIRMAN. The question is on the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mrs. KENNELLY) having assumed the chair, Mr. BARNARD, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2929) to designate certain lands in the California desert as wilderness, to establish the Death Valley, Joshua Tree, and Mojave National Parks, and for other purposes, pursuant to House Resolution 279, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the committee amendment in the nature of a substitute adopted by the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. LEWIS of California. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 297, noes 136, not voting 1, as follows:

NOT VOTING—1

Ridge

☐ 1845

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. GILMAN. Mr. Speaker, although I was present on the floor of the House, my vote was not recorded on rollcall No. 433, the Nichols amendment to H.R. 2929. Had my vote been recorded it would have been a "nay."

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN ENROLLMENT OF H.R. 2929, CALIFORNIA DESERT PROTECTION ACT OF 1991

Mr. LEHMAN of California. Madam Speaker, I ask unanimous consent that in the enrollment of H.R. 2929, the Clerk may correct cross-references, change section, subsection, and paragraph numbers, and make other necessary technical and conforming changes.

The SPEAKER pro tempore (Mrs. KENNELLY). Is there objection to the request of the gentleman from California?

There was no objection.

GENERAL LEAVE

Mr. LEHMAN of California. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 2929, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2797

Mr. VOLKMER. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2797.

The SPEAKER pro tempore (Mr. SHARP). Is there objection to the request of the gentleman from Missouri?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2540

Mr. DEFAZIO. Mr. Speaker, I ask unanimous consent that to have my name removed from cosponsorship of H.R. 2540.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

CEILING WITH RESPECT TO HEALTH EDUCATION ASSISTANCE LOANS

Mr. WAXMAN. Mr. Speaker, I ask unainmous consent to take from the Speaker's table the Senate bill (S. 2050) to ensure that the ceiling established with respect to health education assistance loans does not prohibit the provision of Federal loan insurance to new and previous borrowers under such loan program, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. LENT. Mr. Speaker, reserving the right to object, while I do not object, I make this reservation for the purpose of asking the gentleman from California [Mr. WAXMAN] if he will explain what is in this bill.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. LENT. I yield to the gentleman from California.

Mr. WAXMAN. Mr. Speaker, I thank the gentleman for yielding.

The purpose of S. 2050 is to authorize the Secretary of Health and Human Services to approve Federal loan insurance to new borrowers in the Health Education Assistance Loan [HEAL] Program. We have been advised by the Department that in the absence of legislation reauthorizing the HEAL Program for fiscal year 1992, the Department would be limited to insuring loans only to students who had previously received assistance. This would impose severe hardship upon students entering school who had depended upon these loans for their tuition. Legislation extending the HEAL Program has passed the House and is awaiting conference with the Senate. Although we anticipate swift resolution of the differences between House and Senate bills, this cannot occur until early next year. In the interim it is essential that the Department have sufficient authority to make new loans.

At the appropriate time, I will offer an amendment that will make a technical correction in the Senate-passed bill and authorize a small pilot program for training individuals in clinical pharmacology. If successful, this program can assist the Food and Drug Administration in attracting skilled scientific personnel to promote public health by improving the quality and speed of the drug approval process.

I know of no objection to the legislation.

Mr. LENT. Mr. Speaker, continuing my reservation, I rise in support of S. 2050, as amended. This legislation has been worked out with the Senate and includes the following two provisions.

An extension of the credit limit for the Health Education Assistance Loan [HEAL] Program for new borrowers. Since the Congress has not yet completed its work on the reauthorization of the health manpower programs contained in title VII of the Public Health Service Act, this provision is necessary to address an immediate problem. For students who are first time borrowers under the HEAL Program, current law only authorizes such loans through fiscal year 1991. This bill extends that authority for another year.

A provision to authorize $750,000 per year for fiscal year 1992–1996 for a pilot Clinical Pharmacology Training Program to be administered by the Food and Drug Administration. There is currently a shortage of trained clinical pharmacologists, which is hindering the development of new drugs. In addressing this need, it is particularly important to determine the feasibility of expanding clinical pharmacology programs into medical schools currently without such programs.

Mr. Speaker, I know of no objection to this bill.

Mr. LENT. Mr. Speaker, I withdrew my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2050

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. HEALTH EDUCATION ASSISTANCE LOANS.

Notwithstanding section 728(a) of the Public Health Service Act (42 U.S.C. 294a(a)), or any other provision of law, Federal loan insurance may be provided under subpart I of part C of the Public Health Service Act for loans to new and previous borrowers under such subpart in fiscal year 1992. With respect to fiscal year 1992, the ceiling referred to in such section 728(a) shall be $290,000,000, as provided for in the Act entitled an Act "Making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies, for the fiscal year ending September 30, 1992, and for other purposes".

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. WAXMAN

Mr. WAXMAN. Mr. Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. WAXMAN:

Strike all after the enacting clause and insert the following:

SECTION 1. HEALTH EDUCATION ASSISTANCE LOANS.

Notwithstanding section 728(a) of the Public Health Service Act (42 U.S.C. 294a(a)), or any other provision of law, Federal loan insurance may be provided under subpart I of part C of title VII of the Public Health Service Act for loans to new and previous borrowers under such subpart in fiscal year 1992. With respect to fiscal year 1992, the ceiling referred to in such section 728(a) shall be $290,000,000, as provided for in the Act entitled "An Act making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies, for the fiscal year ending September 30, 1992, and for other purposes.".

SEC. 2. PILOT PROGRAM IN CLINICAL PHARMACOLOGY.

(a) ESTABLISHMENT.—The Commissioner of Food and Drugs is authorized to award through a competitive bid process a grant for a pilot program for the training of individuals in clinical pharmacology at an appropriate medical school without such a program. Such grant shall be for the purpose of evaluating the extent to which such a program can contribute to an identifiable increase in the number of trained biomedical, scientific personnel in clinical pharmacology.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for fiscal years 1992 through 1996 $750,000 for each fiscal year to carry out this section.

Mr. WAXMAN (during the reading). Mr. Speaker, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from California [Mr. WAXMAN].

The amendment in the nature of a substitute was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed.

A motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY TO HAVE UNTIL MIDNIGHT, FRIDAY, DECEMBER 6, 1991, TO FILE SUNDRY REPORTS

Mr. BROWN. Mr. Speaker, I ask unanimous consent that the Committee on Science, Space, and Technology have until midnight, Friday, December 6, 1991 to file the following late reports: H.R. 191, Technology Transfer Improvements Act of 1991, H.R. 2941, Surface Transportation Research and Development Act of 1991, and, H.R. 3507, American Industrial Quality and Training Act of 1991.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

□ 1850

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. SHARP). Pursuant to clause 5 of rule I, the Chair will now redesignate the time for further proceedings on suspension requests postponed on today and on the legislative day of Saturday, November 23, 1991. Such proceedings will be resumed later today.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 3595. An act to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the Medicaid program and to maintain the treatment of intergovernmental transfers as such a source.

The message also announced that the Senate had passed a bill and joint resolution of the following titles, in which the concurrence of the House is requested:

S. 754. An act to provide that a portion of the income derived from trust or restricted land held by an individual Indian shall not be considered as a resource or income in determining eligibility for assistance under any Federal or federally assisted program; and

S.J. Res. 229. Joint resolution designating the month of May, 1992, as "National Trauma Awareness Month".

The message also announced that the Senate agrees to the Report of the Committee of Conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the bill (H.R. 1724) "An act to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary."

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 1724, EXTENSION OF NONDISCRIMINATORY TREATMENT TO CERTAIN COUNTRIES, EXTENSION OF UNEMPLOYMENT BENEFITS; AND CHEMICAL AND BIOLOGICAL WEAPONS CONTROL, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Ms. SLAUGHTER of New York, from the Committee on Rules, submitted a privileged report (Rept. No. 102–389) on the resolution (H. Res. 306) waiving all points of order against the conference report on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2212, UNITED STATES-CHINA ACT OF 1991

Ms. SLAUGHTER of New York, from the Committee on Rules, submitted a privileged report (Rept. No. 102–390) on the resolution (H. Res. 307) waiving all points of order against the conference report on the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

CONFERENCE REPORT ON H.R. 1724, EXTENSION OF NONDISCRIMINATORY TREATMENT TO CERTAIN COUNTRIES, EXTENSION OF UNEMPLOYMENT BENEFITS: AND CHEMICAL AND BIOLOGICAL WEAPONS CONTROL

Ms. SLAUGHTER of New York. Mr. Speaker, by the direction of the Committee on Rules, I call up House Resolution 306 and, pursuant to House Resolution 294, ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 306

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The gentlewoman from New York [Ms. SLAUGHTER] is recognized for 1 hour.

Ms. SLAUGHTER of New York. Mr. Speaker, for the purposes of debate only, I yield the customary 30 minutes to the gentleman from Tennessee [Mr. QUILLEN], pending which I yield myself such time as I may consume.

During consideration of this resolution all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 306 waives all points of order against the conference report on H.R. 1724 and against its consideration. The rule also provides that the conference report will be considered as having been read.

The House passed H.R. 1724 under suspension of the rules on October 8, 1991. The Senate, after enacting the Emergency Unemployment Compensation Act of 1991 without amendment, took up H.R. 1724 and added one amendment, to change the extended unemployment benefits.

Mr. Speaker, the Senate unemployment amendment provides all States with at least 13 weeks of extended unemployment benefits and provides reachback for all States. The program is shortened from July 4, 1992, the program would now expire June 13, 1992.

Last week, the House took up H.R. 1724, agreed to the Senate amendment and further amended the bill to add the text of four bills: H.R. 3347, repeal of the ban on importing Soviet gold coins; H.R. 3313, extension of MFN treatment to Estonia, Latvia, and Lithuania; H.R. 661, trade preference for the Andean region; and H.R. 3409, control of chemical and biological weapons act.

Mr. Speaker, the conference report is identical to the most recent House-passed version, with one exception. The conference report strikes certain provisions from the text of H.R. 3409, the chemical and biological weapons; the provisions that are removed are identical to provisions already enacted into law in Public Law 102–138, the State Department Authorization Act for fiscal year 1992.

Mr. Speaker, this is the customary rule for conference reports. I urge my colleagues to adopt the rule and move this important legislation forward.

Mr. QUILLEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentlewoman from New York [Mrs. SLAUGHTER] has ably described the rule.

This conference report contains a number of important trade provisions. Among other things, it extends most-favored-nation treatment to Hungrary and Czechoslovakia, repeals the ban on importation of Soviet gold coins, and provides for controls and sanctions against foreign persons and countries involved in the production and use of chemical and biological weapons.

The conference report also includes the Andean initiative to provide trade alternatives for the Andean nations of South America to combat illegal drugs. This initiative was proposed by the administration. I would like to note here, Mr. Speaker, that the administration does support this conference report.

Most importantly, Mr. Speaker, this conference report provides for modifications to the Emergency Unemployment Compensation Act of 1991 which the President recently signed. It replaces the three-tier benefit system of 6, 13, or 20 weeks of extended benefits in that legislation with a two-tier system. This new system provides all States with at least 13 weeks of extended unemployment benefits and 20 weeks for unemployed in the same 9 States plus Puerto Rico that would have received 20 weeks under the prior legislation.

Mr. Speaker, I support this rule so that the House may proceed with passage of the conference report.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana [Mr. JACOBS].

ADJOURNMENT TOMMYROT

(By unanimous consent, Mr. JACOBS was allowed to proceed out of order.)

Mr. JACOBS. Mr. Speaker, a few nights ago CBS rebroadcast some of Ed Sullivan's old programs, and they included Richard Burton in Camelot.

That, together with the nasty rumor that is going about whether the sun will rise on Wednesday of this week at adjournment, has brought out the poet in me.

Each evening between now and December,
Before you drift to sleep upon your cot,
Think back on all the tales that you remember,
About adjournment tommyrot.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1900

Mr. ROSTENKOWSKI. I submitted the following conference report and statement on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary:

CONFERENCE REPORT (H. REPT. 102-391)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

SEC. 4. REPEAL OF THE PROHIBITION ON THE IMPORTATION OF SOVIET GOLD COINS.

Section 510 of the Comprehensive Anti-Apartheid Act of 1986 (22 U.S.C. 5100) is repealed.

TITLE I—EXTENSION OF NONDISCRIMINATORY TREATMENT TO ESTONIA, LATVIA, AND LITHUANIA.

SEC. 101. CONGRESSIONAL FINDINGS.

The Congress finds the following:

(1) The Government of the United States extended full diplomatic recognition to Estonia, Latvia, and Lithuania in 1922.

(2) The Government of the United States entered into agreements extending most-favored-nation treatment with the Government of Estonia on August 1, 1925, the Government of Latvia on April 30, 1926, and the Government of Lithuania on July 10, 1926.

(3) The Union of Soviet Socialist Republics incorporated Estonia, Latvia, and Lithuania involuntarily into the Union as a result of a secret protocol to a German-Soviet agreement in 1939 which assigned those three states to the Soviet sphere of influence; and the Government of the United States has at no time recognized the forcible incorporation of those states into the Union of Soviet Socialist Republics.

(4) The Trade Agreements Extension Act of 1951 required the President to suspend, withdraw, or prevent the application of trade benefits, including most-favored-nation treatment, to countries under the domination or control of the world Communist movement.

(5) In 1951, responsible representatives of Estonia, Latvia, and Lithuania stated that they did not object to the imposition of "such controls as the Government of the United States may consider to be appropriate" to the products of those countries, for such time as those countries remained under Soviet domination or control.

(6) In 1990, the democratically elected governments of Estonia, Latvia, and Lithuania declared the restoration of their independence from the Union of Soviet Socialist Republics.

(7) The Government of the United States established diplomatic relations with Estonia, Latvia, and Lithuania on September 2, 1991, and on September 6, 1991, the State Council of the transitional government of the Union of Soviet Socialist Republics recognized the independence of Estonia, Latvia, and Lithuania, thereby ending the involuntary incorporation of those countries into, and the domination of those countries by, the Soviet Union.

(8) Immediate action should be taken to remove the impediments, imposed in response to the circumstances referred to in paragraph (5), in United States trade laws to the extension of nondiscriminatory treatment (most-favored-nation treatment) to the products of those countries.

(9) As a consequence of establishment of United States diplomatic relations with Estonia, Latvia, and Lithuania, these independent countries are eligible to receive the benefits of the Generalized System of Preferences provided for in title V of the Trade Act of 1974.

SEC. 102. EXTENSION OF NONDISCRIMINATORY TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA.

(a) IN GENERAL.—Notwithstanding any provision of title IV of the Trade Act of 1974 (19 U.S.C. 2431 et seq.) or any other provision of law, nondiscriminatory treatment (most-favored-nation treatment) applies to the products of Estonia, Latvia, and Lithuania.

(b) CONFORMING TARIFF SCHEDULE AMENDMENTS.—General Note 3(b) of the Harmonized Tariff Schedule of the United States is amended by striking out "Estonia", "Latvia", and "Lithuania".

(c) EFFECTIVE DATE.—Subsection (a) and the amendments made by subsection (b) apply with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of the enactment of this Act.

SEC. 103. TERMINATION OF APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO THE BALTICS.

Title IV of the Trade Act of 1974 (19 U.S.C. 2431 et seq.) shall cease to apply to Estonia, Latvia, and Lithuania effective as of the 15th day after the date of the enactment of this Act.

SEC. 104. SENSE OF THE CONGRESS REGARDING PROMPT PROVISION OF GSP TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA.

It is the sense of the Congress that the President should take prompt action under title V of the Trade Act of 1974 to provide preferential tariff treatment to the products of Estonia, Latvia, and Lithuania pursuant to the Generalized System of Preferences.

TITLE II—TRADE PREFERENCE FOR THE ANDEAN REGION

SEC. 201. SHORT TITLE.

This title may be cited as the "Andean Trade Preference Act".

SEC. 202. AUTHORITY TO GRANT DUTY-FREE TREATMENT.

The President may proclaim duty-free treatment for all eligible articles from any beneficiary country in accordance with the provisions of this title.

SEC. 203. BENEFICIARY COUNTRY.

(a) DEFINITIONS.—For purposes of this title—

(1) The term "beneficiary country" means any country listed in subsection (b)(1) with respect to which there is in effect a proclamation by the President designating such country as a beneficiary country for purposes of this title.

(2) The term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

(3) The term "HTS" means Harmonized Tariff Schedule of the United States.

(b) COUNTRIES ELIGIBLE FOR DESIGNATION; CONGRESSIONAL NOTIFICATION.—(1) In designating countries as beneficiary countries under this title, the President shall consider only the following countries or successor political entities:

Bolivia
Ecuador
Colombia
Peru.

(2) Before the President designates any country as a beneficiary country for purposes of this title, he shall notify the House of Representatives and the Senate of his intention to make such designation, together with the considerations entering into such decision.

(c) LIMITATIONS ON DESIGNATION.—The President shall not designate any country a beneficiary country under this title—

(1) if such country is a Communist country;

(2) if such country—

(A) has nationalized, expropriated or otherwise seized ownership or control of property owned by a United States citizen or by a corporation, partnership, or association which is 50 percent or more beneficially owned by United States citizens,

(B) has taken steps to repudiate or nullify—

(i) any existing contract or agreement with, or

(ii) any patent, trademark, or other intellectual property of,

a United States citizen or a corporation, partnership, or association, which is 50 percent or more beneficially owned by United States citizens, the effect of which is to nationalize, expropriate, or otherwise seize ownership or control of property so owned, or

(C) has imposed or enforced taxes or other exactions, restrictive maintenance or operational conditions, or other measures with respect to property so owned, the effect of which is to nationalize, expropriate, or otherwise seize ownership or control of such property, unless the President determines that—

(i) prompt, adequate, and effective compensation has been or is being made to such citizen, corporation, partnership, or association,

(ii) good-faith negotiations to provide prompt, adequate, and effective compensation under the applicable provisions of international law are in progress, or such country is otherwise taking steps to discharge its obligations under international law with respect to such citizen, corporation, partnership, or association, or

(iii) a dispute involving such citizen, corporation, partnership, or association, over compensation for such a seizure has been submitted to arbitration under the provisions of the Convention for the Settlement of Investment Disputes, or in another mutually agreed upon forum, and

promptly furnishes a copy of such determination to the Senate and House of Representatives;

(3) if such country fails to act in good faith in recognizing as binding or in enforcing arbitral awards in favor of United States citizens or a corporation, partnership, or association which is 50 percent or more beneficially owned by United States citizens, which have been made by arbitrators appointed for each case or by permanent arbitral bodies to which the parties involved have submitted their dispute;

(4) if such country affords preferential treatment to the products of a developed country, other than the United States, and if such preferential treatment has, or is likely to have, a significant adverse effect on United States commerce, unless the President—

(A) has received assurances satisfactory to him that such preferential treatment will be eliminated or that action will be taken to assure that there will be no such significant adverse effect, and

(B) reports those assurances to the Congress;

(5) if a government-owned entity in such country engages in the broadcast of copyrighted material, including films or television material, belonging to United States copyright owners without their express consent or such country fails to work towards the provision of adequate and effective protection of intellectual property rights;

(6) unless such country is a signatory to a treaty, convention, protocol, or other agreement regarding the extradition of United States citizens; and

(7) if such country has not or is not taking steps to afford internationally recognized worker rights (as defined in section 502(a)(4) of the Trade Act of 1974) to workers in the country (including any designated zone in that country).

Paragraphs (1), (2), (3), (5), and (7) shall not prevent the designation of any country as a beneficiary country under this title if the President determines that such designation will be in the national economic or security interest of the United States and reports such determination to the Congress with his reasons therefor.

(d) Factors Affecting Designation.—In determining whether to designate any country a beneficiary country under this title, the President shall take into account—

(1) an expression by such country of its desire to be so designated;

(2) the economic conditions in such country, the living standards of its inhabitants, and any other economic factors which he deems appropriate;

(3) the extent to which such country has assured the United States it will provide equitable and reasonable access to the markets and basic commodity resources of such country;

(4) the degree to which such country follows the accepted rules of international trade provided for under the General Agreement on Tariffs and Trade, as well as applicable trade agreements approved under section 2(a) of the Trade Agreements Act of 1979;

(5) the degree to which such country uses export subsidies or imposes export performance requirements or local content requirements which distort international trade;

(6) the degree to which the trade policies of such country as they relate to other beneficiary countries are contributing to the revitalization of the region;

(7) the degree to which such country is undertaking self-help measures to protect its own economic development;

(8) whether or not such country has taken or is taking steps to afford to workers in that country (including any designated zone in that country) internationally recognized worker rights;

(9) the extent to which such country provides under its law adequate and effective means for foreign nationals to secure, exercise, and enforce exclusive rights in intellectual property, including patent, trademark, and copyright rights;

(10) the extent to which such country prohibits its nationals from engaging in the broadcast of copyrighted material, including films or television material, belonging to United States copyright owners without their express consent;

(11) whether such country has met the narcotics cooperation certification criteria set forth in section 481(h)(2)(A) of the Foreign Assistance Act of 1961 for eligibility for United States assistance; and

(12) the extent to which such country is prepared to cooperate with the United States in the administration of the provisions of this Act.

(e) Withdrawal or Suspension of Designation.—(1) The President may—

(A) withdraw or suspend the designation of any country as a beneficiary country, or

(B) withdraw, suspend, or limit the application of duty-free treatment under this title to any article of any country,

if, after such designation, the President determines that as a result of changed circumstances such a country should be barred from designation as a beneficiary country.

(2)(A) The President shall publish in the Federal Register notice of the action the President proposes to take under paragraph (1) at least 30 days before taking such action.

(B) The United States Trade Representative shall, within the 30-day period beginning on the date on which the President publishes under subparagraph (A) notice of proposed action—

(i) accept written comments from the public regarding such proposed action,

(ii) hold a public hearing on such proposed action, and

(iii) publish in the Federal Register—

(I) notice of the time and place of such hearing prior to the hearing, and

(II) the time and place at which such written comments will be accepted.

(f) Triennial Report.—On or before the 3rd, 6th, and 9th anniversaries of the date of the enactment of this title, the President shall submit to the Congress a complete report regarding the operation of this title, including the results of a general review of beneficiary countries based on the considerations described in subsections (c) and (d). In reporting on the considerations described in subsection (d)(11), the President shall report any evidence that the crop eradication and crop substitution efforts of the beneficiary are directly related to the effects of this title.

SEC. 204. ELIGIBLE ARTICLES.

(a) In General.—(1) Unless otherwise excluded from eligibility by this title, the duty-free treatment provided under this title shall apply to any article which is the growth, product, or manufacture of a beneficiary country if—

(A) that article is imported directly from a beneficiary country into the customs territory of the United States; and

(B) the sum of—

(i) the cost or value of the materials produced in a beneficiary country or 2 or more beneficiary countries under this Act, or a beneficiary country under the Caribbean Basin Economic Recovery Act or 2 or more such countries, plus

(ii) the direct costs of processing operations performed in a beneficiary country or countries (under this Act or the Caribbean Basin Economic Recovery Act),

is not less than 35 percent of the appraised value of such article at the time it is entered.

For purposes of determining the percentage referred to in subparagraph (B), the term "beneficiary country" includes the Commonwealth of Puerto Rico and the United States Virgin Islands. If the cost or value of materials produced in the customs territory of the United States (other than the Commonwealth of Puerto Rico) is included with respect to an article to which this paragraph applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in subparagraph (B).

(2) The Secretary of the Treasury shall prescribe such regulations as may be necessary to carry out subsection (a) including, but not limited to, regulations providing that, in order to be eligible for duty-free treatment under this title, an article must be wholly the growth, product, or manufacture of a beneficiary country, or must be a new or different article of commerce which has been grown, produced, or manufactured in the beneficiary country; but no article or material of a beneficiary country shall be eligible for such treatment by virtue of having merely undergone—

(A) simple combining or packaging operations, or

(B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(3) As used in this subsection, the phrase "direct costs of processing operations" includes, but is not limited to—

(A) all actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control, and similar personnel; and

(B) dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned or are not costs of manufacturing the product, such as (i) profit, and (ii) general expense of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, interest, and salesmen's salaries, commissions or expenses.

(4) If the President, pursuant to section 223 of the Caribbean Basin Economic Recovery Expansion Act of 1990, considers that the implementation of revised rules of origin for products of beneficiary countries designated under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2701 et seq.) would be appropriate, the President may include similarly revised rules of origin for products of beneficiary countries designated under this title in any suggested legislation transmitted to the Congress that contains such rules of origin for products of beneficiary countries under the Caribbean Basin Economic Recovery Act.

(b) Exceptions to Duty-Free Treatment.—The duty-free treatment provided under this title shall not apply to—

(1) textile and apparel articles which are subject to textile agreements;

(2) footwear not designated at the time of the effective date of this Act as eligible for the purpose of the generalized system of preferences under title V of the Trade Act of 1974;

(3) tuna, prepared or preserved in any manner, in airtight containers;

(4) petroleum, or any product derived from petroleum, provided for in headings 2709 and 2710 of the HTS;

(5) watches and watch parts (including cases, bracelets and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material which is the product of any country with respect to which HTS column 2 rates of duty apply;

(6) articles to which reduced rates of duty apply under subsection (c);

(7) sugars, syrups, and molasses classified in subheadings 1701.11.03, 1701.12.02, 1701.99.02, 1702.90.32, 1806.10.42, and 2106.90.12 of the HTS; or

(8) rum and tafia classified in subheading 2208.40.00 of the HTS.

(c) Duty Reductions for Certain Goods.—(1) Subject to paragraph (2), the President shall proclaim reductions in the rates of duty on handbags, luggage, flat goods, work gloves, and leather wearing apparel that—

(A) are the product of any beneficiary country; and

(B) were not designated on August 5, 1983, as eligible articles for purposes of the generalized system of preferences under title V of the Trade Act of 1974.

(2) The reduction required under paragraph (1) in the rate of duty on any article shall—

(A) result in a rate that is equal to 80 percent of the rate of duty that applies to the article on December 31, 1991, except that, subject to the limitations in paragraph (3), the reduction may not exceed 2.5 percent ad valorem; and

(B) be implemented in 5 equal annual stages with the first 1/5 of the aggregate reduction in the rate of duty being applied to entries, or withdrawals from warehouse for consumption, of the article on or after January 1, 1992.

(3) The reduction required under this subsection with respect to the rate of duty on any article is in addition to any reduction in the rate of duty on that article that may be proclaimed by the President as being required or appropriate to carry out any trade agreement entered into under the Uruguay Round of trade negotiations; except that if the reduction so proclaimed—

(A) is less than 1.5 percent ad valorem, the aggregate of such proclaimed reduction and the reduction under this subsection may not exceed 3.5 percent ad valorem, or

(B) is 1.5 percent ad valorem or greater, the aggregate of such proclaimed reduction and the reduction under this subsection may not exceed the proclaimed reduction plus 1 percent ad valorem.

(d) SUSPENSION OF DUTY-FREE TREATMENT.—(1) The President may by proclamation suspend the duty-free treatment provided by this title with respect to any eligible article and may proclaim a duty rate for such article if such action is proclaimed under chapter 1 of title II of the Trade Act of 1974 or section 232 of the Trade Expansion Act of 1962.

(2) In any report by the United States International Trade Commission to the President under section 202(f) of the Trade Act of 1974 regarding any article for which duty-free treatment has been proclaimed by the President pursuant to this title, the Commission shall state whether and to what extent its findings and recommendations apply to such article when imported from beneficiary countries.

(3) For purposes of section 203 of the Trade Act of 1974, the suspension of the duty-free treatment provided by this title shall be treated as an increase in duty.

(4) No proclamation providing solely for a suspension referred to in paragraph (3) of this subsection with respect to any article shall be taken under section 203 of the Trade Act of 1974 unless the United States International Trade Commission, in addition to making an affirmative determination with respect to such article under section 202(b) of the Trade Act of 1974, determines in the course of its investigation under such section that the serious injury (or threat thereof) substantially caused by imports to the domestic industry producing a like or directly competitive article results from the duty-free treatment provided by this title.

(5)(A) Any action taken under section 203 of the Trade Act of 1974 that is in effect when duty-free treatment is proclaimed under section 202 of this title shall remain in effect until modified or terminated.

(B) If any article is subject to any such action at the time duty-free treatment is proclaimed under section 202 of this title, the President may reduce or terminate the application of such action to the importation of such article from beneficiary countries prior to the otherwise scheduled date on which such reduction or termination would occur pursuant to the criteria and procedures of section 204 of the Trade Act of 1974.

(e) EMERGENCY RELIEF WITH RESPECT TO PERISHABLE PRODUCTS.—(1) If a petition is filed with the United States International Trade Commission pursuant to the provisions of section 201 of the Trade Act of 1974 regarding a perishable product and alleging injury from imports from beneficiary countries, then the petition may also be filed with the Secretary of Agriculture with a request that emergency relief be granted pursuant to paragraph (3) of this subsection with respect to such article.

(2) Within 14 days after the filing of a petition under paragraph (1) of this subsection —

(A) if the Secretary of Agriculture has reason to believe that a perishable product from a beneficiary country is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing a perishable product like or directly competitive with the imported product and that emergency action is warranted, he shall advise the President and recommend that the President take emergency action; or

(B) the Secretary of Agriculture shall publish a notice of his determination not to recommend the imposition of emergency action and so advise the petitioner.

(3) Within 7 days after the President receives a recommendation from the Secretary of Agriculture to take emergency action pursuant to paragraph (2) of this subsection, he shall issue a proclamation withdrawing the duty-free treatment provided by this title or publish a notice of his determination not to take emergency action.

(4) The emergency action provided by paragraph (3) of this subsection shall cease to apply—

(A) upon the taking of action under section 203 of the Trade Act of 1974,

(B) on the day a determination by the President not to take action under section 203(b)(2) of such Act becomes final,

(C) in the event of a report of the United States International Trade Commission containing a negative finding, on the day of the Commission's report is submitted to the President, or

(D) whenever the President determines that because of changed circumstances such relief is no longer warranted.

(5) For purposes of this subsection, the term "perishable product" means—

(A) live plants and fresh cut flowers provided for in chapter 6 of the HTS;

(B) fresh or chilled vegetables provided for in headings 0701 through 0709 (except subheading 0709.52.00) and heading 0714 of the HTS;

(C) fresh fruit provided for in subheadings 0804.20 through 0810.90 (except citrons of subheadings 0805.90.00, tamarinds and kiwi fruit of subheading 0810.90.20, and cashew apples, mameyes colorados, sapodillas, soursops and sweetsops of subheading 0810.90.40) of the HTS; or

(D) concentrated citrus fruit juice provided for in subheadings 2009.11.00, 2009.19.40, 2009.20.40, 2009.30.20, and 2009.30.60 of the HTS.

(f) SECTION 22 FEES.—No proclamation issued pursuant to this title shall affect fees imposed pursuant to section 22 of the Agricultural Adjustment Act of 1933 (7 U.S.C. 624).

SEC. 205. RELATED AMENDMENTS.

(a) INCREASE IN DUTY-FREE TOURIST ALLOWANCE.—Note 4 to subchapter IV of chapter 98 of the HTS is amended by inserting before the period the following: "or a country designated as a beneficiary country under the Andean Trade Preference Act".

(b) TREATMENT OF INSULAR POSSESSIONS PRODUCTS.—General Note 3(a)(iv) of the HTS (relating to products of the insular possessions) is amended by adding at the end thereof the following:

"(E) Subject to the provisions in section 204 of the Andean Trade Preference Act, goods which are imported from insular possessions of the United States shall receive duty treatment no less favorable than the treatment afforded such goods when they are imported from a beneficiary country under such Act.".

SEC. 206. INTERNATIONAL TRADE COMMISSION REPORTS ON IMPACT OF THE ANDEAN TRADE PREFERENCE ACT.

(a) IN GENERAL.—The United States International Trade Commission (hereinafter in this section referred to as the "Commission") shall prepare, and submit to the Congress, a report regarding the economic impact of this title on United States industries and consumers, and, in conjunction with other agencies, the effectiveness of this title in promoting drug-related crop eradication and crop substitution efforts of the beneficiary countries, during—

(1) the 24-month period beginning with the date of enactment of this title; and

(2) each calendar year occurring thereafter until duty-free treatment under this title is terminated under section 208(b).

For purposes of this section, industries in the Commonwealth of Puerto Rico and the insular possessions of the United States shall be considered to be United States industries.

(b) REPORT REQUIREMENTS.—(1) Each report required under subsection (a) shall include, but not be limited to, an assessment by the Commission regarding—

(A) the actual effect, during the period covered by the report, of this title on the United States economy generally as well as on those specific domestic industries which produce articles that are like, or directly competitive with, articles being imported into the United States from beneficiary countries;

(B) the probable future effect that this title will have on the United States economy generally, as well as on such domestic industries, before the provisions of this title terminate; and

(C) the estimated effect that this title has had on the drug-related crop eradication and crop substitution efforts of the beneficiary countries.

(2) In preparing the assessments required under paragraph (1), the Commission shall, to the extent practicable—

(A) analyze the production, trade and consumption of United States products affected by this title, taking into consideration employment, profit levels, and use of productive facilities with respect to the domestic industries concerned, and such other economic factors in such industries as it considers relevant, including prices, wages, sales, inventories, patterns of demand, capital investment, obsolescence of equipment, and diversification of production; and

(B) describe the nature and extent of any significant change in employment, profit levels, and use of productive facilities, and such other conditions as it deems relevant in the domestic industries concerned, which it believes are attributable to this title.

(c) SUBMISSION DATES; PUBLIC COMMENT.—(1) Each report required under subsection (a) shall be submitted to the Congress before the close of the 9-month period beginning on the day after the last day of the period covered by the report.

(2) The Commission shall provide an opportunity for the submission by the public, either orally or in writing, or both, of information relating to matters that will be addressed in the reports.

SEC. 207. IMPACT STUDY BY SECRETARY OF LABOR.

The Secretary of Labor, in consultation with other appropriate Federal agencies, shall undertake a continuing review and analysis of the impact that the implementation of the provisions of this title has with respect to United States labor; and shall make an annual written report to Congress on the results of such review and analysis.

SEC. 208. EFFECTIVE DATE AND TERMINATION OF DUTY-FREE TREATMENT.

(a) EFFECTIVE DATE.—This title shall take effect on the date of enactment.

(b) TERMINATION OF DUTY-FREE TREATMENT.—No duty-free treatment extended to beneficiary countries under this title shall remain in effect 10 years after the date of the enactment of this title.

TITLE III—CONTROL AND ELIMINATION OF CHEMICAL AND BIOLOGICAL WEAPONS

SEC. 301. SHORT TITLE.

This title may be cited as the "Chemical and Biological Weapons Control and Warfare Elimination Act of 1991".

SEC. 302. PURPOSES.

The purposes of this title are—

(1) to mandate United States sanctions, and to encourage international sanctions, against countries that use chemical or biological weapons in violation of international law or use lethal chemical or biological weapons against their own nationals, and to impose sanctions against companies that aid in the proliferation of chemical and biological weapons;

(2) to support multilaterally coordinated efforts to control the proliferation of chemical and biological weapons;

(3) to urge continued close cooperation with the Australia Group and cooperation with other supplier nations to devise ever more effective controls on the transfer of materials, equipment, and technology applicable to chemical or biological weapons production; and

(4) to require Presidential reports on efforts that threaten United States interests or regional stability by Iran, Iraq, Syria, Libya, and others to acquire the materials and technology to develop, produce, stockpile, deliver, transfer, or use chemical or biological weapons.

SEC. 303. MULTILATERAL EFFORTS.

(a) MULTILATERAL CONTROLS ON PROLIFERATION.—It is the policy of the United States to seek multilaterally coordinated efforts with other countries to control the proliferation of chemical and biological weapons. In furtherance of this policy, the United States shall—

(1) promote agreements banning the transfer of missiles suitable for armament with chemical or biological warheads;

(2) set as a top priority the early conclusion of a comprehensive global agreement banning the use, development, production, and stockpiling of chemical weapons;

(3) seek and support effective international means of monitoring and reporting regularly on commerce in equipment, materials, and technology applicable to the attainment of a chemical or biological weapons capability; and

(4) pursue and give full support to multilateral sanctions pursuant to United Nations Security Council Resolution 620, which declared the intention of the Security Council to give immediate consideration to imposing "appropriate and effective" sanctions against any country which uses chemical weapons in violation of international law.

(b) MULTILATERAL CONTROLS ON CHEMICAL AGENTS, PRECURSORS, AND EQUIPMENT.—It is also the policy of the United States to strengthen efforts to control chemical agents, precursors, and equipment by taking all appropriate multilateral diplomatic measures—

(1) to continue to seek a verifiable global ban on chemical weapons at the 40 nation Conference on Disarmament in Geneva;

(2) to support the Australia Group's objective to support the norms and restraints against the spread and the use of chemical warfare, to advance the negotiation of a comprehensive ban on chemical warfare by taking appropriate measures, and to protect the Australia Group's domestic industries against inadvertent association with supply of feedstock chemical equipment that could be misused to produce chemical weapons;

(3) to implement paragraph (2) by proposing steps complementary to, and not mutually exclusive of, existing multilateral efforts seeking a verifiable ban on chemical weapons, such as the establishment of—

(A) a harmonized list of export control rules and regulations to prevent relative commercial advantage and disadvantages accruing to Australia Group members,

(B) liaison officers to the Australia Group's coordinating entity from within the diplomatic missions,

(C) a close working relationship between the Australia Group and industry,

(D) a public unclassified warning list of controlled chemical agents, precursors, and equipment,

(E) information-exchange channels of suspected proliferants,

(F) a "denial" list of firms and individuals who violate the Australia Group's export control provisions, and

(G) broader cooperation between the Australia Group and other countries whose political commitment to stem the proliferation of chemical weapons is similar to that of the Australia Group; and

(4) to adopt the imposition of stricter controls on the export of chemical agents, precursors, and equipment and to adopt tougher multilateral sanctions against firms and individuals who violate these controls or against countries that use chemical weapons.

SEC. 304. UNITED STATES EXPORT CONTROLS.

(a) IN GENERAL.—The President shall—

(1) use the authorities of the Arms Export Control Act to control the export of those defense articles and defense services, and

(2) use the authorities of the Export Administration Act of 1979 to control the export of those goods and technology,

that the President determines would assist the government of any foreign country in acquiring the capability to develop, produce, stockpile, deliver, or use chemical or biological weapons.

(b) EXPORT ADMINISTRATION ACT.—Section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2405) is amended—

(1) by redesignating subsections (m) through (r) as subsections (n) through (s), respectively; and

(2) by inserting after subsection (l) the following:

"(m) CHEMICAL AND BIOLOGICAL WEAPONS.—

"(1) ESTABLISHMENT OF LIST.—The Secretary, in consultation with the Secretary of State, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall establish and maintain, as part of the list maintained under this section, a list of goods and technology that would directly and substantially assist a foreign government or group in acquiring the capability to develop, produce, stockpile, or deliver chemical or biological weapons, the licensing of which would be effective in barring acquisition or enhancement of such capability.

"(2) REQUIREMENT FOR VALIDATED LICENSES.—The Secretary shall require a validated license for any export of goods or technology on the list established under paragraph (1) to any country of concern.

"(3) COUNTRIES OF CONCERN.—For purposes of paragraph (2), the term 'country of concern' means any country other than—

"(A) a country with whose government the United States has entered into a bilateral or multilateral arrangement for the control of goods or technology on the list established under paragraph (1); and

"(B) such other countries as the Secretary of State, in consultation with the Secretary and the Secretary of Defense, shall designate consistent with the purposes of the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991.".

SEC. 305. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

(a) AMENDMENT TO EXPORT ADMINISTRATION ACT.—The Export Administration Act of 1979 is amended by inserting after section 11B the following:

"CHEMICAL AND BIOLOGICAL WEAPONS PROLIFERATION SANCTIONS

"SEC. 11C. (a) IMPOSITION OF SANCTIONS.—

"(1) DETERMINATION BY THE PRESIDENT.—Except as provided in subsection (b)(2), the President shall impose both of the sanctions described in subsection (c) if the President determines that a foreign person, on or after the date of the enactment of this section, has knowingly and materially contributed—

"(A) through the export from the United States of any goods or technology that are subject to the jurisdiction of the United States under this Act, or

"(B) through the export from any other country of any goods or technology that would be, if they were United States goods or technology, subject to the jurisdiction of the United States under this Act,

to the efforts by any foreign country, project, or entity described in paragraph (2) to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons.

"(2) COUNTRIES, PROJECTS, OR ENTITIES RECEIVING ASSISTANCE.—Paragraph (1) applies in the case of—

"(A) any foreign country that the President determines has, at any time after January 1, 1980—

"(i) used chemical or biological weapons in violation of international law;

"(ii) used lethal chemical or biological weapons against its own nationals; or

"(iii) made substantial preparations to engage in the activities described in clause (i) or (ii);

"(B) any foreign country whose government is determined for purposes of section 6(j) of this Act to be a government that has repeatedly provided support for acts of international terrorism; or

"(C) any other foreign country, project, or entity designated by the President for purposes of this section.

"(3) PERSONS AGAINST WHICH SANCTIONS ARE TO BE IMPOSED.—Sanctions shall be imposed pursuant to paragraph (1) on—

"(A) the foreign person with respect to which the President makes the determination described in that paragraph;

"(B) any successor entity to that foreign person;

"(C) any foreign person that is a parent or subsidiary of that foreign person if that parent or subsidiary knowingly assisted in the activities which were the basis of that determination; and

"(D) any foreign person that is an affiliate of that foreign person if that affiliate knowingly assisted in the activities which were the basis of that determination and if that affiliate is controlled in fact by that foreign person.

"(b) CONSULTATIONS WITH AND ACTIONS BY FOREIGN GOVERNMENT OF JURISDICTION.—

"(1) CONSULTATIONS.—If the President makes the determinations described in subsection (a)(1) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of sanctions pursuant to this section.

"(2) ACTIONS BY GOVERNMENT OF JURISDICTION.—In order to pursue such consultations with that government, the President may delay imposition of sanctions pursuant to this section for a period of up to 90 days. Following these consultations, the President shall impose sanctions unless the President determines and certifies to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1). The President may delay imposition of sanctions for an additional period of up to 90 days if the President determines and certifies to the Congress that that government is in the process of taking the actions described in the preceding sentence.

"(3) REPORT TO CONGRESS.—The President shall report to the Congress, not later than 90 days after making a determination under sub-

section (a)(1), on the status of consultations with the appropriate government under this subsection, and the basis for any determination under paragraph (2) of this subsection that such government has taken specific corrective actions.

"(c) SANCTIONS.—

"(1) DESCRIPTION OF SANCTIONS.—The sanctions to be imposed pursuant to subsection (a)(1) are, except as provided in paragraph (2) of this subsection, the following:

"(A) PROCUREMENT SANCTION.—The United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from any person described in subsection (a)(3).

"(B) IMPORT SANCTIONS.—The importation into the United States of products produced by any person described in subsection (a)(3) shall be prohibited.

"(2) EXCEPTIONS.—The President shall not be required to apply or maintain sanctions under this section—

"(A) in the case of procurement of defense articles or defense services—

"(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

"(ii) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

"(iii) if the President determines that such articles or services are essential to the national security under defense coproduction agreements;

"(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose sanctions;

"(C) to—

"(i) spare parts,

"(ii) component parts, but not finished products, essential to United States products or production, or

"(iii) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

"(D) to information and technology essential to United States products or production; or

"(E) to medical or other humanitarian items.

"(d) TERMINATION OF SANCTIONS.—The sanctions imposed pursuant to this section shall apply for a period of at least 12 months following the imposition of sanctions and shall cease to apply thereafter only if the President determines and certifies to the Congress that reliable information indicates that the foreign person with respect to which the determination was made under subsection (a)(1) has ceased to aid or abet any foreign government, project, or entity in its efforts to acquire chemical or biological weapons capability as described in that subsection.

"(e) WAIVER.—

"(1) CRITERION FOR WAIVER.—The President may waive the application of any sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies to the Congress that such waiver is important to the national security interests of the United States.

"(2) NOTIFICATION OF AND REPORT TO CONGRESS.—If the President decides to exercise the waiver authority provided in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to exercise the waiver authority.

"(f) DEFINITION OF FOREIGN PERSON.—For the purposes of this section, the term 'foreign person' means—

"(1) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

"(2) a corporation, partnership, or other entity which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States.".

(b) AMENDMENT TO ARMS EXPORT CONTROL ACT.—The Arms Export Control Act is amended by inserting after chapter 7 the following:

"CHAPTER 8—CHEMICAL OR BIOLOGICAL WEAPONS PROLIFERATION

"SEC. 81. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

"(a) IMPOSITION OF SANCTIONS.—

"(1) DETERMINATION BY THE PRESIDENT.—Except as provided in subsection (b)(2), the President shall impose both of the sanctions described in subsection (c) if the President determines that a foreign person, on or after the date of the enactment of this section, has knowingly and materially contributed—

"(A) through the export from the United States of any goods or technology that are subject to the jurisdiction of the United States,

"(B) through the export from any other country of any goods or technology that would be, if they were United States goods or technology, subject to the jurisdiction of the United States, or

"(C) through any other transaction not subject to sanctions pursuant to the Export Administration Act of 1979,

to the efforts by any foreign country, project, or entity described in paragraph (2) to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons.

"(2) COUNTRIES, PROJECTS, OR ENTITIES RECEIVING ASSISTANCE.—Paragraph (1) applies in the case of—

"(A) any foreign country that the President determines has, at any time after January 1, 1980—

"(i) used chemical or biological weapons in violation of international law;

"(ii) used lethal chemical or biological weapons against its own nationals; or

"(iii) made substantial preparations to engage in the activities described in clause (i) or (ii);

"(B) any foreign country whose government is determined for purposes of section 6(j) of the Export Administration Act of 1979 (50 U.S.C. 2405(j)) to be a government that has repeatedly provided support for acts of international terrorism; or

"(C) any other foreign country, project, or entity designated by the President for purposes of this section.

"(3) PERSONS AGAINST WHOM SANCTIONS ARE TO BE IMPOSED.—Sanctions shall be imposed pursuant to paragraph (1) on—

"(A) the foreign person with respect to which the President makes the determination described in that paragraph;

"(B) any successor entity to that foreign person;

"(C) any foreign person that is a parent or subsidiary of that foreign person if that parent or subsidiary knowingly assisted in the activities which were the basis of that determination; and

"(D) any foreign person that is an affiliate of that foreign person if that affiliate knowingly assisted in the activities which were the basis of that determination and if that affiliate is controlled in fact by that foreign person.

"(b) CONSULTATIONS WITH AND ACTIONS BY FOREIGN GOVERNMENT OF JURISDICTION.—

"(1) CONSULTATIONS.—If the President makes the determinations described in subsection (a)(1) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of sanctions pursuant to this section.

"(2) ACTIONS BY GOVERNMENT OF JURISDICTION.—In order to pursue such consultations with that government, the President may delay imposition of sanctions pursuant to this section for a period of up to 90 days. Following these consultations, the President shall impose sanctions unless the President determines and certifies to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1). The President may delay imposition of sanctions for an additional period of up to 90 days if the President determines and certifies to the Congress that that government is in the process of taking the actions described in the preceding sentence.

"(3) REPORT TO CONGRESS.—The President shall report to the Congress, not later than 90 days after making a determination under subsection (a)(1), on the status of consultations with the appropriate government under this subsection, and the basis for any determination under paragraph (2) of this subsection that such government has taken specific corrective actions.

"(c) SANCTIONS.—

"(1) DESCRIPTION OF SANCTIONS.—The sanctions to be imposed pursuant to subsection (a)(1) are, except as provided in paragraph (2) of this subsection, the following:

"(A) PROCUREMENT SANCTION.—The United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from any person described in subsection (a)(3).

"(B) IMPORT SANCTIONS.—The importation into the United States of products produced by any person described in subsection (a)(3) shall be prohibited.

"(2) EXCEPTIONS.—The President shall not be required to apply or maintain sanctions under this section—

"(A) in the case of procurement of defense articles or defense services—

"(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

"(ii) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

"(iii) if the President determines that such articles or services are essential to the national security under defense coproduction agreements;

"(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose sanctions;

"(C) to—

"(i) spare parts,

"(ii) component parts, but not finished products, essential to United States products or production, or

"(iii) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

"(D) to information and technology essential to United States products or production; or

"(E) to medical or other humanitarian items.

"(d) TERMINATION OF SANCTIONS.—The sanctions imposed pursuant to this section shall

apply for a period of at least 12 months following the imposition of sanctions and shall cease to apply thereafter only if the President determines and certifies to the Congress that reliable information indicates that the foreign person with respect to which the determination was made under subsection (a)(1) has ceased to aid or abet any foreign government, project, or entity in its efforts to acquire chemical or biological weapons capability as described in that subsection.

"(e) WAIVER.—

"(1) CRITERION FOR WAIVER.—The President may waive the application of any sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies to the Congress that such waiver is important to the national security interests of the United States.

"(2) NOTIFICATION OF AND REPORT TO CONGRESS.—If the President decides to exercise the waiver authority provided in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to exercise the waiver authority.

"(f) DEFINITION OF FOREIGN PERSON.—For the purposes of this section, the term 'foreign person' means—

"(1) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

"(2) a corporation, partnership, or other entity which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States.".

SEC. 306. DETERMINATIONS REGARDING USE OF CHEMICAL OR BIOLOGICAL WEAPONS.

(a) DETERMINATION BY THE PRESIDENT.—

(1) WHEN DETERMINATION REQUIRED; NATURE OF DETERMINATION.—Whenever persuasive information becomes available to the executive branch indicating the substantial possibility that, on or after the date of the enactment of this title, the government of a foreign country has made substantial preparation to use or has used chemical or biological weapons, the President shall, within 60 days after the receipt of such information by the executive branch, determine whether that government, on or after such date of enactment, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals. Section 307 applies if the President determines that that government has so used chemical or biological weapons.

(2) MATTERS TO BE CONSIDERED.—In making the determination under paragraph (1), the President shall consider the following:

(A) All physical and circumstantial evidence available bearing on the possible use of such weapons.

(B) All information provided by alleged victims, witnesses, and independent observers.

(C) The extent of the availability of the weapons in question to the purported user.

(D) All official and unofficial statements bearing on the possible use of such weapons.

(E) Whether, and to what extent, the government in question is willing to honor a request from the Secretary General of the United Nations to grant timely access to a United Nations fact-finding team to investigate the possibility of chemical or biological weapons use or to grant such access to other legitimate outside parties.

(3) DETERMINATION TO BE REPORTED TO CONGRESS.—Upon making a determination under paragraph (1), the President shall promptly report that determination to the Congress. If the determination is that a foreign government had used chemical or biological weapons as described in that paragraph, the report shall specify the sanctions to be imposed pursuant to section 307.

(b) CONGRESSIONAL REQUESTS; REPORT.—

(1) REQUEST.—The Chairman of the Committee on Foreign Relations of the Senate (upon consultation with the ranking minority member of such committee) or the Chairman of the Committee on Foreign Affairs of the House of Representatives (upon consultation with the ranking minority member of such committee) may at any time request the President to consider whether a particular foreign government, on or after the date of the enactment of this title, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals.

(2) REPORT TO CONGRESS.—Not later than 60 days after receiving such a request, the President shall provide to the Chairman of the Committee on Foreign Relations of the Senate and the Chairman of the Committee on Foreign Affairs of the House of Representatives a written report on the information held by the executive branch which is pertinent to the issue of whether the specified government, on or after the date of the enactment of this title, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals. This report shall contain an analysis of each of the items enumerated in subsection (a)(2).

SEC. 307. SANCTIONS AGAINST USE OF CHEMICAL OR BIOLOGICAL WEAPONS.

(a) INITIAL SANCTIONS.—If, at any time, the President makes a determination pursuant to section 306(a)(1) with respect to the government of a foreign country, the President shall forthwith impose the following sanctions:

(1) FOREIGN ASSISTANCE.—The United States Government shall terminate assistance to that country under the Foreign Assistance Act of 1961, except for urgent humanitarian assistance and food or other agricultural commodities or products.

(2) ARMS SALES.—The United States Government shall terminate—

(A) sales to that country under the Arms Export Control Act of any defense articles, defense services, or design and construction services, and

(B) licenses for the export to that country of any item on the United States Munitions List.

(3) ARMS SALES FINANCING.—The United States Government shall terminate all foreign military financing for that country under the Arms Export Control Act.

(4) DENIAL OF UNITED STATES GOVERNMENT CREDIT OR OTHER FINANCIAL ASSISTANCE.—The United States Government shall deny to that country any credit, credit guarantees, or other financial assistance by any department, agency, or instrumentality of the United States Government, including the Export-Import Bank of the United States.

(5) EXPORTS OF NATIONAL SECURITY-SENSITIVE GOODS AND TECHNOLOGY.—The authorities of section 6 of the Export Administration Act of 1979 (50 U.S.C. 2405) shall be used to prohibit the export to that country of any goods or technology on that part of the control list established under section 5(c)(1) of that Act (22 U.S.C. 2404(c)(1)).

(b) ADDITIONAL SANCTIONS IF CERTAIN CONDITIONS NOT MET.—

(1) PRESIDENTIAL DETERMINATION.—Unless, within 3 months after making a determination pursuant to section 306(a)(1) with respect to a foreign government, the President determines and certifies in writing to the Congress that—

(A) that government is no longer using chemical or biological weapons in violation of international law or using lethal chemical or biological weapons against its own nationals,

(B) that government has provided reliable assurances that it will not in the future engage in any such activities, and

(C) that government is willing to allow on-site inspections by United Nations observers or other internationally recognized, impartial observers, or other reliable means exist, to ensure that that government is not using chemical or biological weapons in violation of international law and is not using lethal chemical or biological weapons against its own nationals,

then the President, after consultation with the Congress, shall impose on that country the sanctions set forth in at least 3 of subparagraphs (A) through (F) of paragraph (2).

(2) SANCTIONS.—The sanctions referred to in paragraph (1) are the following:

(A) MULTILATERAL DEVELOPMENT BANK ASSISTANCE.—The United States Government shall oppose, in accordance with section 701 of the International Financial Institutions Act (22 U.S.C. 262d), the extension of any loan or financial or technical assistance to that country by international financial institutions.

(B) BANK LOANS.—The United States Government shall prohibit any United States bank from making any loan or providing any credit to the government of that country, except for loans or credits for the purpose of purchasing food or other agricultural commodities or products.

(C) FURTHER EXPORT RESTRICTIONS.—The authorities of section 6 of the Export Administration Act of 1979 shall be used to prohibit exports to that country of all other goods and technology (excluding food and other agricultural commodities and products).

(D) IMPORT RESTRICTIONS.—Restrictions shall be imposed on the importation into the United States of articles (which may include petroleum or any petroleum product) that are the growth, product, or manufacture of that country.

(E) DIPLOMATIC RELATIONS.—The President shall use his constitutional authorities to downgrade or suspend diplomatic relations between the United States and the government of that country.

(F) PRESIDENTIAL ACTION REGARDING AVIATION.—(i)(I) The President is authorized to notify the government of a country with respect to which the President has made a determination pursuant to section 306(a)(1) of his intention to suspend the authority of foreign air carriers owned or controlled by the government of that country to engage in foreign air transportation to or from the United States.

(II) Within 10 days after the date of notification of a government under subclause (I), the Secretary of Transportation shall take all steps necessary to suspend at the earliest possible date the authority of any foreign air carrier owned or controlled, directly or indirectly, by that government to engage in foreign air transportation to or from the United States, notwithstanding any agreement relating to air services.

(ii)(I) The President may direct the Secretary of State to terminate any air service agreement between the United States and a country with respect to which the President has made a determination pursuant to section 306(a)(1), in accordance with the provisions of that agreement.

(II) Upon termination of an agreement under this clause, the Secretary of Transportation shall take such steps as may be necessary to revoke at the earliest possible date the right of any foreign air carrier owned, or controlled, directly or indirectly, by the government of that country to engage in foreign air transportation to or from the United States.

(iii) The Secretary of Transportation may provide for such exceptions from clauses (i) and (ii) as the Secretary considers necessary to provide for emergencies in which the safety of an aircraft or its crew or passengers is threatened.

(iv) For purposes of this subparagraph, the terms "air transportation", "air carrier", "foreign air carrier", and "foreign air transportation" have the meanings such terms have under section 101 of the Federal Aviation Act of 1958 (49 U.S.C. App. 1301).

(c) REMOVAL OF SANCTIONS.—The President shall remove the sanctions imposed with respect to a country pursuant to this section if the President determines and so certifies to the Congress, after the end of the 12-month period beginning on the date on which sanctions were initially imposed on that country pursuant to subsection (a), that—

(1) the government of that country has provided reliable assurances that it will not use chemical or biological weapons in violation of international law and will not use lethal chemical or biological weapons against its own nationals;

(2) that government is not making preparations to use chemical or biological weapons in violation of international law or to use lethal chemical or biological weapons against its own nationals;

(3) that government is willing to allow on-site inspections by United Nations observers or other internationally recognized, impartial observers to verify that it is not making preparations to use chemical or biological weapons in violation of international law or to use lethal chemical or biological weapons against its own nationals, or other reliable means exist to verify that it is not making such preparations; and

(4) that government is making restitution to those affected by any use of chemical or biological weapons in violation of international law or by any use of lethal chemical or biological weapons against its own nationals.

(d) WAIVER.—

(1) CRITERIA FOR WAIVER.—The President may waive the application of any sanction imposed with respect to a country pursuant to this section—

(A) if—

(i) in the case of any sanction other than a sanction specified in subsection (b)(2)(D) (relating to import restrictions) or (b)(2)(E) (relating to the downgrading or suspension of diplomatic relations), the President determines and certifies to the Congress that such waiver is essential to the national security interests of the United States, and if the President notifies the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives of his determination and certification at least 15 days before the waiver takes effect, in accordance with the procedures applicable to reprogramming notifications under section 634A of the Foreign Assistance Act of 1961, or

(ii) in the case of any sanction specified in subsection (b)(2)(D) (relating to import restrictions), the President determines and certifies to the Congress that such waiver is essential to the national security interest of the United States, and if the President notifies the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives of his determination and certification at least 15 days before the waiver takes effect; or

(B) if the President determines and certifies to the Congress that there has been a fundamental change in the leadership and policies of the government of that country, and if the President notifies the Congress at least 20 days before the waiver takes effect.

(2) REPORT.—In the event that the President decides to exercise the waiver authority provided in paragraph (1) with respect to a country, the President's notification to the Congress under such paragraph shall include a report fully articulating the rationale and circumstances which led the President to exercise that waiver authority, including a description of the steps which the government of that country has taken to satisfy the conditions set forth in paragraphs (1) through (4) of subsection (c).

(e) CONTRACT SANCTITY.—

(1) SANCTIONS NOT APPLIED TO EXISTING CONTRACTS.—(A) A sanction described in paragraph (4) or (5) of subsection (a) or in any of subparagraphs (A) through (D) of subsection (b)(2) shall not apply to any activity pursuant to any contract or international agreement entered into before the date of the presidential determination under section 306(a)(1) unless the President determines, on a case-by-case basis, that to apply such sanction to that activity would prevent the performance of a contract or agreement that would have the effect of assisting a country in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals.

(B) The same restrictions of subsection (p) of section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2405), as that subsection is so redesignated by section 304(b) of this title, which are applicable to exports prohibited under section 6 of that Act shall apply to exports prohibited under subsection (a)(5) or (b)(2)(C) of this section. For purposes of this subparagraph, any contract or agreement the performance of which (as determined by the President) would have the effect of assisting a foreign government in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals shall be treated as constituting a breach of the peace that poses a serious and direct threat to the strategic interest of the United States, within the meaning of subparagraph (A) of section 6(p) of that Act.

(2) SANCTIONS APPLIED TO EXISTING CONTRACTS.—The sanctions described in paragraphs (1), (2), and (3) of subsection (a) shall apply to contracts, agreements, and licenses without regard to the date the contract or agreement was entered into or the license was issued (as the case may be), except that such sanctions shall not apply to any contract or agreement entered into or license issued before the date of the presidential determination under section 306(a)(1) if the President determines that the application of such sanction would be detrimental to the national security interests of the United States.

SEC. 308. PRESIDENTIAL REPORTING REQUIREMENTS.

(a) REPORTS TO CONGRESS.—Not later than 90 days after the date of the enactment of this title, and every 12 months thereafter, the President shall transmit to the Congress a report which shall include—

(1) a description of the actions taken to carry out this title, including the amendments made by this title;

(2) a description of the current efforts of foreign countries and subnational groups to acquire equipment, materials, or technology to develop, produce, or use chemical or biological weapons, together with an assessment of the current and likely future capabilities of such countries and groups to develop, produce, stockpile, deliver, transfer, or use such weapons;

(3) a description of—

(A) the use of chemical weapons by foreign countries in violation of international law,

(B) the use of chemical weapons by subnational groups,

(C) substantial preparations by foreign countries and subnational groups to do so, and

(D) the development, production, stockpiling, or use of biological weapons by foreign countries and subnational groups; and

(4) a description of the extent to which foreign persons or governments have knowingly and materially assisted third countries or subnational groups to acquire equipment, material, or technology intended to develop, produce, or use chemical or biological weapons.

(b) PROTECTION OF CLASSIFIED INFORMATION.—To the extent practicable, reports submitted under subsection (a) or any other provision of this title should be based on unclassified information. Portions of such reports may be classified.

SEC. 309. REPEAL OF DUPLICATIVE PROVISIONS.

(a) REPEAL.—Title V of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (Public Law 102–138), and the amendments made by that title, are repealed.

(b) REFERENCES TO DATE OF ENACTMENT.—The reference—

(1) in section 11C(a)(1) of the Export Administration Act of 1979, as added by section 305(a) of this Act, to the "date of the enactment of this section",

(2) in section 81(a)(1) of the Arms Export Control Act, as added by section 305(b) of this Act, to the "date of the enactment of this section", and

(3) in section 306(a)(1) of this Act to the "date of the enactment of this title",

shall be deemed to refer to the date of the enactment of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (Public Law 102–138).

And the House agree to the same.

DAN ROSTENKOWSKI,
SAM GIBBONS,
Managers on the Part of the House.

LLOYD BENTSEN,
BOB PACKWOOD,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the text of the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment to the text of the bill inserted a new section at the end of the bill.

The House agreed to the Senate amendment with an amendment which inserted after the matter inserted by the Senate the combined texts of H.R. 3347, H.R. 3313, H.R. 661, and H.R. 3409 as reported to the House.

The Senate recedes from its disagreement to the amendment of the House inserting the texts of H.R. 3347, H.R. 3313, H.R. 661, and H.R. 3409, with an amendment to the text of H.R. 3409. The House recedes to the amendment of the Senate. The differences between the text of the bill as amended by the Senate, the House amendment, and the amendment agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

TERMINATION OF THE APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO CZECHOSLOVAKIA AND HUNGARY

(Sections 1 and 2 of House bill; sections 1 and 2 of House bill as amended by Senate; sections 1 and 2 of conference agreement.)

CONGRESSIONAL FINDINGS AND PREPARATORY PRESIDENTIAL ACTION

(Section 1 of House bill; section 1 of House bill as amended by Senate; section 1 of conference agreement.)

Present Law

No provision.

Section 1 contains Congressional findings and notes preparatory Presidential action. Subsection (a) makes a number of findings related to Hungary's and Czechoslovakia's respect for fundamental human rights; their policies of free emigration for their citizens; and the political and economic reforms undertaken by both countries. Subsection (b) notes that the President, in anticipation of the enactment of the bill, has directed the U.S. Trade Representative to negotiate with both countries to preserve the commitments contained in the bilateral commercial agreements that are consistent with the General Agreement on Tariffs and Trade; and to obtain other appropriate commitments.

House Bill as Amended by Senate

Identical provision.

Conference Agreement

The conferees agree to both the House and Senate provisions.

TERMINATION OF APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO CZECHOSLOVAKIA AND HUNGARY

(Section 2 of House bill; section 2 of House bill as amended by Senate; section 2 of conference agreement.)

Present Law

Title IV of the Trade Act of 1974, as amended by the Customs and Trade Act of 1990, sets forth three requirements relating to freedom of emigration which must be met, or waived by the President, in order for the President to grant nondiscriminatory, most-favored-nation (MFN) status to a nonmarket economy country. Title IV also requires that a trade agreement providing MFN status remain in force between the United States and the nonmarket economy country receiving MFN status and sets forth minimum provisions which must be included in such an agreement.

Presidential waivers and reports under Title IV—and thus a country's MFN status—are subject to disapproval by Congress. If the President determines that a country is in full compliance with the Jackson-Vanik freedom of emigration requirements, section 402(b) requires that he submit a report to the Congress by June 30 and December 31 of each year that such country receives MFN treatment, describing the nature of the country's emigration laws and policies. The country's MFN status may be revoked, if a joint resolution disapproving the December 31 compliance report is enacted into law within 90 legislative days of the delivery of the report to Congress. If such a resolution is enacted, the country's MFN status is rescinded, effective 60 calendar days after enactment.

Annual Presidential recommendations under section 402(d) for a 12-month extension of authority to waive Jackson-Vanik freedom of emigration requirements (either generally or for specific countries) are subject to a joint resolution of disapproval passed by the Congress within 60 calendar days after expiration of the previous waiver extension. An additional 15 legislative days, following the 60 calendar day period for initial passage, is available for consideration of any veto message. If such a resolution is enacted, the country's MFN status is rescinded, effective 60 calendar days after enactment.

House Bill

Section 2 provides for the termination of application of Title IV of the Trade Act of 1974 to Czechoslovakia and Hungary. Subsection (a) authorizes the President to determine that such title should no longer apply to Hungary or Czechoslovakia, or to both; and after making such a determination, proclaim the extension of nondiscriminatory, MFN treatment to the products of that country. Subsection (b) provides that after the extension under subsection (a) of MFN treatment to the products of a country, Title IV of the Trade Act of 1974 shall cease to apply to that country.

House Bill as Amended by Senate

Identical provision.

Conference Agreement

The conferees agree to both the House and Senate provisions.

AMENDMENTS TO THE EMERGENCY UNEMPLOYMENT COMPENSATION ACT OF 1991

(Section 3 of House bill as amended by Senate; section 3 of conference agreement.)

Present Law

All States are eligible to provide Emergency Unemployment Compensation (EUC) benefits to unemployed workers who have exhausted their unemployment benefits under existing programs. These benefits are available between November 17, 1991, and July 4, 1992.

There are three levels of weeks of eligibility for EUC benefits. The number of weeks of benefits payable to an unemployed worker in a particular State is determined by combinations of State adjusted insured unemployment rates (AIURs), exhaustion rates (ERs), and total unemployment rates (TURs). All rates are rounded to the nearest tenth of a percentage point. For example, 2.95 percent would be rounded to 3.0 percent.

The AIUR for a State is the insured unemployment rate for a given month plus the number of workers who have exhausted their regular State benefits in the last three months added to the numerator.

The ER is the percentage obtained by dividing the average monthly number of workers who have exhausted their regular State benefits during the last 12 months by the average monthly number of individuals filing initial claims for regular State benefits during the last 12-month period ending 6 months earlier. (For the reachback and initial benefit periods an eight-month average ending with September was used.)

The TUR is the percentage obtained from the ratio of all unemployed workers to all workers in the labor force in that State during the last six months for which data are published.

States can receive 6, 13, or 20 weeks as follows:

All States get at least 6 weeks.

States with AIURs of at least 4 percent *or* AIURs of at least 2.5 percent *and* exhaustion rates of at least 29 percent get at least 13 weeks.

States with AIURs of at least 5 percent or TURs of at least 9 percent get 20 weeks.

Once a State has "triggered on" for a 6, 13, or 20 weeks period of EUC benefits, the State remains triggered on that tier for at least 13 weeks, even if it drops to a lower tier during that period. Alternatively, if a State's moves to a higher tier during that period, workers in that State qualify for the additional benefits.

Also, once an unemployed worker becomes eligible for 6, 13, or 20 weeks of EUC benefits, the worker is paid for all weeks to which he is entitled, even if the State drops to a lower tier or the program expires before the worker has received the full number of weeks of benefits.

Unemployed workers who have exhausted their benefits under the regular unemployment program between March 1 and November 16 are eligible to receive EUC benefits in States which qualify as 13- or 20-week States or which had AIURs of at least 3 percent. Qualifying States are eligible for a minimum of 6 weeks of "reachback" benefits, however, States on the second and third tiers are eligible to pay for 13 or 20 weeks, respectively.

House Bill

No provision.

Senate Amendment

The Senate amendment replaces the three tier system of 20, 13, and 6 weeks of emergency unemployment compensation with a two tier system of 20 and 13 weeks. The 9 States and Puerto Rico with total unemployment rates of at least 9 percent or adjusted insured unemployment rates of at lest 5 percent still would receive 20 weeks of benefits. The other 41 States and the District of Columbia and Virgin Islands would receive 13 weeks of benefits. In addition, reachback coverage would be added for all States so that the 18 States and the Virgin Islands that do not currently receive these benefits would become eligible to provide them. Finally, the expiration date of the program would change from July 4, 1992, to June 13, 1992.

Conference Agreement

The conferees agree to the Senate amendment.

REPEAL OF THE PROHIBITION ON THE IMPORTATION OF SOVIET GOLD COINS

(Section 4 of House amendment; section 4 of conference agreement.)

Present Law

Section 510 of the Comprehensive Anti-Apartheid Act of 1986 prohibits the importation into the United States by any person, including a bank, of any gold coins minted in the Union of Soviet Socialist Republics (USSR) or offered for sale by the Government of the USSR. Any individual who violates the prohibition or implementing regulations is subject to a fine of not more than five times the value of the gold coins involved.

Imports of gold coins enter the United States duty-free.

House Amendment

Section 4 repeals section 510 of the Comprehensive Anti-Apartheid Act of 1986.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

EXTENSION OF NONDISCRIMINATORY TREATMENT TO ESTONIA, LATVIA, AND LITHUANIA

(Title I of House amendment; Title I of conference agreement.)

CONGRESSIONAL FINDINGS

(Section 101 of House amendment; section 101 of conference agreement.)

Present Law

No provision.

House Amendment

Section 101 makes a number of findings relating to the history of U.S. diplomatic relations with the Baltic states; their forcible incorporation into the Soviet Union in 1940; and their successful efforts to restore their independence from the Soviet Union, which occurred on September 6, 1991.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

EXTENSION OF NONDISCRIMINATORY TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA

(Section 102 of House amendment; section 102 of conference agreement.)

Present Law

The law governing U.S. trade relations with nonmarket economy counties is Title IV of the Trade Act of 1974 (the so-called Jackson-Vanik amendment), as amended by the Customs and Trade Act of 1990. That title requires the President to deny MFN status to those nonmarket economy countries which did not receive such status on the date of enactment. Because Estonia, Latvia, and Lithuania on the date of enactment were under the forcible control of the Soviet Union, this prohibition applied to those states.

Title IV also authorizes the President to extend MFN status to a nonmarket economy country, if that country meets three requirements relating to the freedom of emigration of its citizens. Alternatively, the President may waive those requirements and extend MFN status on an annual basis to a nonmarket economy country, subject to disapproval by Congress. Finally, Title IV requires that a trade agreement providing MFN status remain in force between the United States and the nonmarket economy country receiving MFN status; and it sets forth minimum provisions which must be included in such an agreement.

General Note 3(b) of the Harmonized Tariff Schedule of the United States includes Estonia, Latvia, and Lithuania on the list of countries subject to Column 2 (non-MFN) rates of duty.

House Amendment

Section 102 applies nondiscriminatory, MFN treatment to the products of Estonia, Latvia, and Lithuania, notwithstanding Title IV or any other provision of law. It amends General Note 3(b) to remove these three countries from the application of Column 2 (non-MFN) rates of duty.

These provisions apply with respect to goods imported on or after the 15th day after the date of enactment of the Act.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

TERMINATION OF APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO THE BALTICS

(Section 103 of House amendment; section 103 of conference agreement.)

Present Law

Title IV of the Trade Act of 1974, as amended, has applied to Estonia, Latvia, and Lithuania by virtue of their forcible incorporation into the Soviet Union in 1940.

House Amendment

Section 103 provides that title IV shall cease to apply to Estonia, Latvia, and Lithuania, effective as of the 15th day after the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

SENSE OF THE CONGRESS REGARDING PROMPT PROVISION OF GSP TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA

(Section 104 of House amendment; section 104 of conference agreement.)

Present Law

Title V of the Trade Act of 1974 authorizes the President to provide duty-free, Generalized System of Preferences (GSP) treatment to any eligible article from designated beneficiary developing countries, subject to certain conditions and limitations. Under Section 502, the President is prohibited from designating as beneficiary developing countries certain specified developed countries, including the Soviet Union; communist countries unless certain criteria are satisfied; and countries which do not meet other specified criteria. Because Estonia, Latvia, and Lithuania are now independent of the Soviet Union, they are eligible for GSP benefits, subject to the criteria of Title V.

House Amendment

Section 104 expresses the sense of the Congress that the President should take prompt action under Title V to provide GSP benefits to the products of Estonia, Latvia, and Lithuania.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

TRADE PREFERENCE FOR THE ANDEAN REGION

(Title II of House amendment.)

SHORT TITLE

(Section 201 of House amendment.)

Present Law

No provision.

House Amendment

Section 201 provides that the title may be cited as the "Andean Trade Preference Act" (ATPA).

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

AUTHORITY TO GRANT DUTY-FREE TREATMENT

(Section 202 of House amendment.)

Present Law

Bolivia, Ecuador, Colombia, and Peru receive most-favored-nation, column 1 rate of duty treatment and are designated as beneficiary countries for duty-free treatment on eligible articles under the Generalized System of Preferences (GSP) program.

House Amendment

Section 202 authorizes the President to proclaim duty-free treatment for all eligible articles from any beneficiary country in accordance with the provisions of the ATPA.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

BENEFICIARY COUNTRY

(Section 203 of House amendment.)

Present Law

No provision. The designation authority and criteria that apply under section 212 (b) and (c) of the Caribbean Basin Economic Recovery Act (CBERA) to beneficiary countries under the Caribbean Basin Initiative (CBI) program, are nearly identical to the provisions of section 203. Section 212 of the CBERA has similar withdrawal and suspension authorities and notification and reporting requirements with respect to CBI beneficiary countries.

House Amendment

Section 203 authorizes the President to consider only Bolivia, Ecuador, Colombia, and Peru for designation as beneficiary countries under the ATPA. Before designating any country, the President must notify the Congress of his intention to make the designation, together with the considerations entering into the decision. Designation by the President of a country as a beneficiary country is subject to 7 specific conditions, most of which are subject to waiver if he determines that designation of the country will be in the national economic or security interest of the United States and reports that determination and the reasons therefor to the Congress. The President must also take 12 other specific factors into account in designating any beneficiary country.

The President may withdraw or suspend beneficiary country status or duty-free treatment on any article of any beneficiary country if he determines after designation that the country should be barred from designation because of changed circumstances. The President must submit to the Congress every 3 years a complete report on the operation of the ATPA.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

ELIGIBLE ARTICLES

(Section 204 of House amendment.)

Present Law

Imports from the Andean countries are subject to normal customs provisions for determining origin, except that articles eligible for duty-free treatment under the GSP program are subject to the rules-of-origin specified under section 503 of the Trade Act of 1974. The rule-of-origin requirements for duty-free treatment under the ATPA are nearly identical to the requirements under section 213(a) of the CBERA for determining origin under the CBI program.

Section 223 of the CBERA provides that if the President considers that implementation of revised rules of origin for products of CBI beneficiary countries would be appropriate, he shall transmit such legislation to the Congress, after taking into account a report and recommendations of the U.S. International Trade Commission (ITC) and advice from various sources.

The product exclusions from eligibility for duty-free treatment and the duty reductions on imports of certain leather products under the CBI program are identical to the ATPA, except that rum is eligible for duty-free treatment under the CBERA.

Additional U.S. Notes 2, 3, and 4 of Chapter 17 of the Harmonized Tariff Schedule of the United States (HTS) authorize the imposition of duties or quotas on imports of sugars, syrups, and molasses. Presidential Proclamation 6179, signed on September 13, 1990, provided for the establishment of tariff-rate quotas on sugar imports beginning on October 1, 1990, to replace the system of absolute quotas. Under the tariff-rate quota system, the Secretary of Agriculture announces a quantity of sugar that will be subject to current tariff rates (the "lower tier" tariff rate), which is then allocated among country suppliers. Any additional quantities of sugar above these allocated amounts are subject to a tariff rate of 16 cents per pound, raw value (the "upper tier" tariff rate). GSP and CBI beneficiary countries are eligible to receive duty-free treatment on the quantities of sugar permitted entry at the lower tier tariff rate. All four Andean countries currently have sugar import allocations subject to GSP duty-free treatment.

The CBI program contains identical authorities for granting import relief and taking emergency action on agricultural perishable products.

House Amendment

Section 204 requires duty-free treatment on any article, not otherwise excluded from eligibility, which is the growth, product, or manufacture of a beneficiary country if (1) that article is imported directly from a beneficiary country into the U.S. customs territory; and (2) the sum of (a) the cost or value of materials produced in one or more Andean beneficiary countries or one or more CBI beneficiary countries, plus (b) the direct costs of processing operations performed in one or more Andean or CBI beneficiary countries is not less than 35 percent of the appraised value of the article (which may include Puerto Rico and Virgin Islands content and up to 15 percent of the value of U.S. content). Section 204 also specifies requirements which the Secretary of the Treasury must prescribe in regulations. The President may include revised rules of origin for duty-free treatment under the ATPA similar to revised rules for CBI duty-free treatment in any suggested legislation submitted to the Congress pursuant to section 223 of the CBERA.

Section 204 excludes from eligibility for duty-free treatment: (1) Textiles and apparel articles, which are subject to textile agreements; (2) footwear ineligible for GSP duty-free treatment; (3) canned tuna; (4) petroleum or petroleum products; (5) certain watches and watch parts; (6) handbags, luggage, flat goods, work gloves, and leather wearing apparel ineligible for GSP duty-free treatment, which are subject to 20 percent duty reductions not to exceed 2.5 percent ad valorem implemented over 5 years; (7) sugars, syrups, and molasses subject to overquota rates of duty; and (8) rum.

The President may suspend duty-free treatment on any eligible article under import relief or national security authorities. In any report to the President on an import relief investigation involving a duty-free article under the ATPA, the ITC must state whether and to what extent its injury findings and remedy recommendations apply to imports from beneficiary countries. Under emergency relief provisions for imports of perishable agricultural products, within 7 days after receiving a recommendation from the Secretary of Agriculture (within 14 days after the filing of a petition) that emergency action is warranted, the President must withdraw duty-free treatment or determine not to take emergency action. No proclamation under the ATPA shall affect fees imposed pursuant to section 22 of the Agricultural Adjustment Act of 1933.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

RELATED AMENDMENTS

(Section 205 of House amendment.)

Present Law

Note 4 and tariff items under subchapter IV of chapter 98 of the HTS provide a duty-free tourist allowance to returning U.S. residents arriving directly or indirectly from foreign countries (including Andean countries) of $400, or $600 in the case of CBI beneficiary countries. U.S. residents returning from foreign countries may bring in not more than one liter of alcoholic beverages duty-free and excise-tax free; residents returning from CBI beneficiary countries may enter one additional liter duty-free if produced in a CBI beneficiary country.

General Note 3(a)(iv) of the HTS provides that goods imported from U.S. insular possessions shall receive no less favorable duty treatment than accorded to eligible articles imported from beneficiary countries under the GSP or CBI programs.

House Amendment

Section 205 increases the duty-free tourist allowances for U.S. residents returning directly or indirectly from Andean beneficiary countries from $400 to $600 and for one additional liter of alcoholic beverages if produced in an Andean country.

Goods imported from U.S. insular possessions will receive duty treatment no less favorable than the treatment afforded such goods imported from a beneficiary country under the ATPA.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

INTERNATIONAL TRADE COMMISSION REPORTS ON IMPACT OF THE ANDEAN TRADE PREFERENCE ACT

(Section 206 of House amendment.)

Present Law

No provision. Section 215 of the CBERA requires a similar report by the ITC with respect to the CBI program.

House Amendment

Section 206 requires the ITC to prepare and submit to the Congress a report on the economic impact of the ATPA on U.S. industries and consumers and on the effectiveness of duty-free treatment in promoting drug-related crop eradication and crop substitution efforts of the beneficiary countries, initially on the first two years of the program and annually thereafter.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

IMPACT STUDY BY SECRETARY OF LABOR

(Section 207 of House amendment.)

Present law

No provision. Section 216 of the CBERA contains an identical requirement with respect to the CBI program.

House Amendment

Section 207 requires the Secretary of Labor to make an annual report to the Congress of its review and analysis of the impact of the ATPA on U.S. labor.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

EFFECTIVE DATE AND TERMINATION OF DUTY-FREE TREATMENT

(Section 208 of House amendment.)

Present Law

No provision.

House Amendment

Section 208 provides that the ATPA takes effect on the date of enactment, and that duty-free treatment terminates 10 years after the date of enactment.

Conference Agreement

The Senate recedes.

CONTROL AND ELIMINATION OF CHEMICAL AND BIOLOGICAL WEAPONS

(Title III of House amendment; Title III of conference agreement.)

SHORT TITLE

(Section 301 of House amendment; section 301 of conference agreement.)

Present Law

Title V of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (Public Law 102–138) entitles the provisions of that title the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

PURPOSES

(Section 302 of House amendment; section 302 of conference agreement.)

Present Law

Title V of Public Law 102–138 states the purposes of the title as mandating U.S. sanctions and encouraging international sanctions against chemical and biological weapons (CBW) country violators, supporting multilateral proliferation controls, urging cooperation with the Australia Group and other suppliers' groups, and requiring Presidential reports on chemical and biological weapons proliferation.

House Amendment

Same as present law.

UNITED STATES EXPORT CONTROLS

(Section 304 of House amendment; section 304 of conference agreement.)

Present Law

Title V of Public Law 102–138 directs the President to use the authorities of the Arms Control Act and the Export Administration Act of 1979 to control the exports of defense articles and services and other goods and technologies which he determines would assist a country in acquiring the capability to develop, produce, stockpile, deliver, or use chemical or biological weapons. It also provides for a list of goods and technology.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

SANCTIONS AGAINST CERTAIN FOREIGN PERSONS

(Section 305 of House amendment; section 305 of conference agreement.)

Present Law

Title V of Public Law 102–138 directs the President to impose sanctions on foreign persons who have knowingly and materially contributed to efforts by certain countries, projects, or entities to use, develop, produce, stockpile, or acquire chemical or biological weapons. It urges the President to undertake consultation with the country of jurisdiction in order to secure corrective action. It permits the President to delay imposition of sanctions against a foreign person for up to 90 days to pursue consultations and corrective action. It requires the President to report within 90 days after his determination on the status of the consultations and permits him to delay the imposition of sanctions for an additional 90 days if the President determines and certifies to Congress that the government is pursuing corrective actions. Upon making a determination that a foreign person has engaged in the prohibited activities, the President is required to impose government procurement sanctions against that person for at least 12 months, after which the sanctions may be terminated if the President determines and certifies that the violations have ceased. Certain exceptions also are provided (e.g., for certain defense articles and services or existing contracts). This section also provides for a Presidential waiver after 12 months, based on the President's determination that such a waiver is important to the national security interests of the United States.

House Amendment

Section 305 adds import sanctions to the sanctions which must be imposed against a foreign person found to be engaged in prohibited activities.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

DETERMINATIONS REGARDING USE OF CHEMICAL OR BIOLOGICAL WEAPONS

(Section 306 of House amendment; section 306 of conference agreement.)

Present Law

Title V of Public Law 102–138 directs the President, once information becomes available to him, to determine, within 60 days of his receipt of pertinent information, whether any foreign country has used or made substantial preparation to use chemical weapons in violation of international law or against its own nationals. It also stipulates that the Senate Foreign Relations Committee and House Foreign Affairs Committee Chairmen, upon consultation with their ranking Minority Members, may request from the President a report on the information held by the Executive branch pertinent to the suspected violation.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

SANCTIONS AGAINST USE OF CHEMICAL OR BIOLOGICAL WEAPONS

(Section 307 of House amendment; section 307 of conference agreement.)

Present Law

Title V of Public Law 102–138 applies to any government which the President determines has used, or is making substantial preparation to use, chemical or biological weapons in violation of international law or against its own nationals. It establishes a two-tier sanctions regime. Once a determination is made, the President shall impose immediately the specified U.S. Government-associated sanctions (foreign assistance, arms sales, arms sales financing, government credit or financing, exports of national security-sensitive goods and technology). If, after 3 months, the President is not able to certify to Congress that the violation has ceased, that the government in question has provided assurances about no further use, and that the government is willing to allow onsite inspections by international observers, then the President shall impose three out of five possible sanctions (multilateral development bank assistance, bank loans, further export restrictions, diplomatic relations, landing rights). The President may remove the country sanctions after 12 months if he determines and can certify these same changes in conduct by the government in question.

The Presidential waiver authority in present law allows the President to waive the imposition of sanctions if he determines and certifies to Congress that it is essential to the national security interests of the United States; and if the President notifies the Committee on Foreign Relations in the Senate and the Committee on Foreign Affairs in the House of Representatives of his determination and certification at least 15 days before the waiver takes effect, in accordance with foreign aid reprogramming procedures. The President also must report on the rationale for, and circumstances of, his waiver.

The President also may waive the sanctions if he determines and certifies to the Congress that there has been a fundamental change in the leadership and policies of the government of the sanctioned country, and if the President notifies the Congress at least 20 days before the waiver takes effect.

Present law also provides contract sanctity for contracts and agreements entered into before the date on which the President imposes sanctions unless such contract sanctity would assist the country in using chemical or biological weapons in violation of international law.

House Amendment

The landing rights sanction in section 307 specifies the steps to be taken by the Secretary of Transportation in implementing this sanction and providing for emergency procedures.

With respect to import sanctions, the President must notify the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives, rather than the Committees on Foreign Relations and Foreign Affairs, of his determination and certification at least 15 days before the waiver takes effect. The notification requirement with respect to sanctions other than import sanctions is unchanged.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

PRESIDENTIAL REPORTING REQUIREMENTS

(Section 308 of House amendment; section 308 of conference agreement.)

Present Law

Title V of Public Law 102–138 requires a Presidential report to Congress 90 days after enactment of the amendment and every 12 months thereafter. This report is intended to be comprehensive and to include such information as a description of actions taken to carry out this title; efforts by countries and subnational groups to develop, produce, and use chemical or biological weapons; and any use of such weapons by a country in violation of international law.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

REPEAL OF DUPLICATIVE PROVISIONS

(Section 309 of Senate amendment to House amendment; section 309 of conference agreement.)

Present Law

Title V of Public Law 102–138 establishes a framework of sanctions for the proliferation and use of chemical and biological weapons.

House Amendment

No provision.

Senate Amendment to House Amendment

Section 309 repeals Title V of Public Law 102–138 and the amendments to other laws made by that title. It establishes the effective date of Title III of H.R. 1724 and the amendments to other laws contained therein as the date of enactment of Public Law 102–138.

Conference Agreement

The House recedes.

DAN ROSTENKOWSKI,
SAM GIBBONS,
Managers on the Part of the House.

LLOYD BENTSEN,
BOB PACKWOOD,
Managers on the Part of the Senate.

Mr. ROSTENKOWSKI. Mr. Speaker, pursuant to House Resolution 306, I call up the conference report on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. SHARP). Pursuant to the rule, the conference report is considered as having been read.

The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 30 minutes, and the gentleman from Texas [Mr. ARCHER] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks on the conference report presently being considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the conference report on H.R. 1724. This report contains modifications to the recently enacted Emergency Unemployment Compensation Act of 1991 and a number of very important trade provisions.

The original bill provides for termination of the Jackson-Vanik provisions of the Trade Act of 1974 and permanent extension of most-favored-nation treatment to Hungary and Czechoslovakia.

On November 20, the House concurred in the Senate amendment to H.R. 1724, which replaces the three-tier benefit system enacted in the Emergency Unemployment Compensation Program of 6, 13, and 20 weeks with a two-tier system of 13 and 20 weeks. An additional 24 State programs could provide 13 weeks of extended benefits instead of 6 weeks, and 19 additional State programs would be eligible for the reachback provisions under the new program. To pay for these two changes, the duration of the program would be cut by 3 weeks, from July 4 to June 13, 1992, but no State would lose benefits.

Because this bill will be enacted after the effective date of the program, there are certain requirements in present law relating to eligibility requirements for extended benefits that States will not be able to meet. I want to clarify that it is the expectation of the conferees that the Department of Labor will waive these requirements, in order that States will not be penalized for failure to take actions that, given the retroactive nature of this legislation, they cannot reasonable be expected to take.

The conference report includes the provisions of all four trade bills which the House passed by voice voter on November 20 as a composite amendment to the Senate-passed bill. The Senate agreed to repeal of the ban in the Comprehensive Anti-Apartheid Act of 1986 on importation of Soviet gold coins, the extension of unconditional most-favored-nation status to the Baltic States of Estonia, Latvia, and Lithuania, and United States export controls and sanctions against foreign persons and countries involved in the production and use of chemical and biological weapons.

Finally, Mr. Speaker, the Senate agreed to the provisions of H.R. 661, the Andean Trade Preference Act, an administration initiative to provide economic alternatives for the Andean nations to combat illegal drugs. The conference agreement fulfills the instruction passed on November 21 to the House conferees to insist on the position of the House with regard to this legislation.

Mr. Speaker, I urge my colleagues to support the conference report on H.R. 1724.

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House conferees were very successful in winning approval of all of H.R. 1724's trade provisions. Those initiatives are important. The conference acted wisely.

Several of the provisions are reflective of the improved international situation in which we find ourselves.

They achieve permanent normalized trade relations with Hungary, Czechoslovakia, and the Baltic nations of Estonia, Latvia, and Lithuania.

Permanent most-favored-nation treatment is a positive signal we can send those who have struggled for economic reform and political freedom.

MFN for the Soviet Union is not contained in this bill. It is addressed, however, in a separate resolution which we passed last week—and which passed the Senate yesterday. This conference report does, however, contain a related measure.

It repeals the prohibition on the importation of gold coins from the Soviet Union—fulfilling a commitment made by the United States during talks on the bilateral trade agreement.

The chemical and biological weapons control measure contained in the conference report retains important waiver authority and flexibility for the President. It will be helpful in crafting an effective and judicious response to violations in this area.

I was particularly pleased by the inclusion of the Andean trade initiative in the final agreement. It is an important part of the President's war on illicit drug production. It fulfills his commitment to the Presidents of Bolivia, Columbia, Ecuador, and Peru to help them stimulate other exports.

Last week's 416-to-0 vote in the House on PHIL CRANE's motion to instruct conferees sent a clear signal to the Senate. This antidrug initiative is important.

The Senate got our message. The measure stayed in the conference agreement.

Final passage will send an equally clear signal to the Andean nations. The United States stands with them in their efforts to combat illegal drug trafficking by developing other products for export.

I can't say enough about the tireless efforts of our colleague PHIL CRANE, the ranking Republican on the Trade Subcommittee. He has been the congressional leader on the Andean initiative and deserves great credit for moving it forward. So does Chairman ROSTENKOWSKI—for holding firm on the House position in the face of last minute Senate hesitancy.

These trade issues are important. They deserve our support. I want to vote for them. Once again I can't. They remain packaged with still another unemployment benefit expansion—at levels I cannot support.

Less than 2 weeks ago, President Bush signed into law a $5.2 billion program of temporary extended benefits.

That plan had serious flaws—but at least it targeted relief to workers in States with high unemployment levels.

The package before us today amends that brand new law. It provides 7 more weeks of benefits in States which need them the least. Sixteen of those States have insured unemployment rates under 2 percent. Once again, Congress has cringed before the icon of political expediency.

This expansion strikes a blow at the foundation of the unemployment compensation program. It perverts the basic premise of extended benefits—that they should be concentrated in those areas where it's hardest for unemployed workers to find a job.

It's no fun being a lonely dissenting voice on this issue. The conference report will be adopted with little opposition.

It's important, though, that someone reminds this body of the groundwork we are laying today.

The next time we see the extended benefits issue, the call will be for a costly, permanent, nontargeted program which will require a significant tax increase.

I reserve the balance of my time.

Mr. PEASE. Mr. Speaker, I yield 2 minutes to the gentleman from Oklahoma [Mr. MCCURDY].

Mr. MCCURDY. Mr. Speaker, the conference report on H.R. 1724 contains virtually all of the provisions on chemical and biological weapons proliferations found in the conference report on H.R. 1415, the State Department authorization for fiscal years 1992 and 1993, which was passed by the House on October 8, 1991.

When the State Department authorization conference report was on the floor, I engaged in a colloquy with the gentleman from California [Mr. BERMAN]. The purpose of the colloquy was to clarify the circumstances in which the President could delay a determination that a foreign person had knowing and materially contributed to the proliferation of chemical or biological weapons.

Inasmuch as the provisions which gave rise to the colloquy are contained in the conference report now before us, and the purpose of legislative history, I include at this point in the RECORD a reflection of the colloquy between Mr. BERMAN and myself as it appeared on page H7640 of the CONGRESSIONAL RECORD for October 8, 1991.

Mr. MCCURDY. Mr. Speaker, will the gentlemen yield?

Mr. BERMAN. I yield to the gentlemen from Oklahoma.

Mr. MCCURDY. Mr. Speaker, if the chairman of the subcommittee would allow it, I would like to engage him in a colloquy.

I would like to clarify the provisions in H.R. 1415 that amend the Export Administration Act and the Arms Export Control Act to provide for sanctions against foreign companies involved in the development or production of chemical and biological weapons. These provisions mandate sanctions once the President makes a determination that a foreign person has "knowingly and materially" contributed to the efforts by any foreign country to develop or use biological or chemical weapons.

I strongly endorse this effort to sanction foreign companies involved in the proliferators of chemical and biological weapons. I rise to clarify one point concerning the Presidential determinations called for in these provisions. It has come to my attention that, in rare circumstances, a premature determination might inhibit the flow of information which is necessary to the full imposition of sanctions against all violators. It seems to me that the President should be allowed to delay such a determination where it is necessary to protect intelligence sources and methods which are being used to acquire further, possibly more important, information on CBW proliferation.

Is it your understanding that the protection of intelligence sources or methods for the stated purpose may be a factor in deciding on the timing of a Presidential determination that a foreign person is contributing to CBW proliferation?

Mr. BERMAN. Mr. Speaker, reclaiming any time, to answer the gentleman from Oklahoma [Mr. MCCURDY], chairman of the House Permanent Select Committee on Intelligence, it is my understanding that the President, in rare circumstances, could delay a determination that a foreign person has knowingly and materially contributed to CBW proliferation if such a delay is necessary to protect intelligence sources or methods essential to the acquisition of further intelligence about CBW proliferation. Such a delay would be appropriate, for example, where the United States is using the sensitive intelligence sources or methods to gather information on other CBW proliferation, or where additional time is needed to develop nonsensitive information that could be used to explain publicly the imposition of sanctions. However, such a delay should not be indefinite, because the ultimate purpose of these provisions is to sanction those foreign persons that we know to be knowingly and materially involved in CBW proliferation. Moreover, the delay should only be for the purpose of furthering our policy of sanctioning those proliferators. A delayed determination would not be justified to further any other policy.

Mr. McCURDY. Mr. Speaker, if the gentleman would continue to yield, I thank my colleague for this clarification. I, too, would like to add my congratulations to the chairman of the subcommittee for his stewardship of this bill this year.

□ 1910

Mr. ARCHER. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois. [Mr. CRANE].

Mr. CRANE. Mr. Speaker, I am forced to rise in opposition to this conference report despite the fact that I strongly favor many of the trade-related initiatives within it, including a measure which I sponsored myself. I cannot, however, in good conscience support an unemployment measure which would expand benefits to States which have an unemployment rate of less than 2 or 3 percent. Surely, our country cannot afford to be so generous as to expand such benefits to States which clearly do not have an unemployment problem.

Despite my strong objection to the unemployment provision, I would like to remind my colleagues of the positive aspects of this legislation. H.R. 1724 includes two measures to extend Most-Favored-Nation trading status to Czechoslovakia and Hungary as well as to each of the individual Baltic States. Granting MFN to these deserving nations will show that America is committed to helping the growing number of Democratic nations throughout the world.

I am particularly pleased that the Andean Trade Preference Act has been incorporated into H.R. 1724. Having introduced the bill earlier this year, I have been very interested in seeing it move rapidly through the legislative process. The fact that it has come to the floor this quickly is evidence of this body's firm commitment to the war against drugs.

Drafted by the Administration, the Andean Trade Preference Act is a very important aspect of the President's enterprise for the Americas initiative. This bill is designed to assist the Andean Nations; Colombia, Bolivia, Ecuador, and Peru, in their struggle to eliminate the production, processing and shipment of illegal drugs by removing the duties on a number of products originating in the region. As a result of this measure, the poor peasant farmers—who have been forced to rely on the drug trade to earn their daily bread—will be provided with an opportunity to engage in legitimate crop production.

Since nearly all of the cocaine entering the United States originates in the Andean region, our country stands to gain a great deal from the Andean Trade Preference Act. And while this act alone will not eliminate the flow of cocaine into the United States, this program coupled with the others which fall under the purview of the enterprise for the Americas initiative, will contribute significantly to the growth and prosperity of the Andean countries, thereby giving them the means to address the serious drug problems facing our hemisphere.

In addition, passage of this measure will in effect be an acknowledgement of the substantial sacrifices the Andean countries have already made in the war against drugs. And perhaps today's actions will spur even greater efforts in that direction.

I wish to thank Chairman GIBBONS, Chairman ROSTENKOWSKI, and the ranking Republican on the Ways and Means Committee, BILL ARCHER, for all their efforts in helping to move the Andean legislation so swiftly.

It is truly with deep regret that I must vote against H.R. 1724.

Mr. PEASE. Mr. Speaker, I yield 1 minute to the gentleman from Kentucky [Mr. MAZZOLI].

Mr. MAZZOLI. Mr. Speaker, I thank the gentleman from Ohio, the acting chairman, for yielding this time to me, and commend the full committee chairman, the gentleman from Illinois [Mr. ROSTENKOWSKI], and our congressional classmate, the gentleman from Texas [Mr. ARCHER] for the work they have done.

Mr. Speaker, certainly I rise in support of permanent MFN status for the emerging East Bloc nations of Hungary and Czechoslovakia, and also for those brave nations, formerly a part of the U.S.S.R.; but in addition to those wonderful things, I would like to speak momentarily in favor of the amendments made by the distinguished Committee on Ways and Means on the formulas for the extension of unemployment benefits to the states.

My home State of Kentucky was one which would have received only 6 weeks, a very welcome 6 weeks, I must say, under the original bill, but now it will receive 13 weeks, which is even more important to the many thousands upon thousands of unemployed in Louisville and Jefferson County and throughout the Commonwealth of Kentucky.

So I realize it took a lot of doing to reach this point tonight. I want to thank all those responsible and rise in very strong support of this conference report.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. SANTORUM].

Mr. SANTORUM. Mr. Speaker, I thank the distinguished ranking minority member for whom I have as much respect for as any Member in this body for yielding me this time.

I was not going to speak on this bill, but when I heard the gentleman say he was a lone voice speaking out against this unemployment compensation switch, I wanted to join him in that. I voted against this bill the last time for that specific reason.

We in Pennsylvania are hurting and have been hurting for a long time in my area. This recession has taken a very heavy toll, but the people in Pennsylvania under this bill are going to get less benefits than they would under the bill that is currently the law right now, because they shortened the timeframe that allows us to get benefits, so I am voting against this bill. I think every Member from Pennsylvania should vote against this bill.

If we are really serious about extending unemployment compensation benefits to the people who are hurting, who cannot get jobs, not in States in which we have 3-percent unemployment and have healthy economies, but in States where people are really hurting, if that is what this body cares about, about people who are hurting out there who cannot find jobs, then this is a sham. We should be giving those benefits to people who need them and in the States where it is hard to find jobs, and this is the State of Pennsylvania.

So I rise in support of the position of the gentleman on that and I will be opposing the vote, even though there may be many things in this bill, as the gentleman from Illinois just said, that I support and in fact was a cosponsor of the legislation; but I find this absolutely repugnant for this precedent and for this insult to the people who are really hurting in this country.

I also find it very ironic that we are here discussing unemployment compensation extensions when what we should be discussing is getting these people a job and considering a growth package right now before we get out of here for Thanksgiving.

Mr. PEASE. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I must say it pains me that my colleagues on the Ways and Means Committee, the distinguished gentleman from Texas [Mr. ARCHER] and the distinguished gentleman from Illinois [Mr. CRANE] like this bill a lot, but they cannot quite bring themselves to vote for it. Some of us, I guess, on this side, are going to have to provide the votes to give not only trade preferences to some very important nations around the world, but also unemployment benefits to workers who badly need them.

I rise to support of all the sections of this bill, particularly the portions dealing with MFN for Czechoslovakia and Hungary and the Batlic states.

Eastern Europe is going through a dramatic transformation. The people of those countries need a great deal of help in adjusting to changing their systems from one of communism to one of free enterprise and democracy. There is a limit to how much we can do in terms of actual aid to those countries, but certainly providing them with trading privileges, allowing them to join the community of nations in the trading arena can mean a great deal to them, can encourage investment in those countries, can allow them over a period of a few years hopefully to transform their economies and that will be the best contribution we can make to those countries.

Mr. Speaker, I had the privilege of being in Estonia in the first part of September of this year on the day that the Supreme Soviet officially recognized the independence of Estonia. On that occasion we were speaking to some Estonian officials about granting MFN and saying that we were going to do it for the Soviet Union and we were not sure whether we ought to make the granting of MFN for Estonia a part of the granting of that MFN for the Soviet Union or whether we ought to act separately.

I remember vividly that the Estonian official with whom we are talking turned and said, "As of today, the Soviet Union is a foreign nation as far as Estonia is concerned."

Last week, as has been noted, we did provide MFN to the Soviet Union. Today we do so for Estonia, Latvia, and Lithuania as well. I think that is a very appropriate step on our part.

Now, as far as unemployment compensation is concerned, I think we ought to set their record straight. We have heard three speakers now on the Republican side of the aisle complain about this bill, complain about what they would term I guess excessive generosity of these benefits.

I would hope perhaps the gentleman from Pennsylvania [Mr. SANTORUM] who spoke just before myself would leave his home in Pittsburgh and drive down the turnpike a little ways to Youngstown, OH, and tell unemployed workers in Youngstown that they are not entitled, that they are not worthy of the employment benefits which we provide in this bill.

□ 1920

I am from Ohio. We have serious economic problems, high levels of unemployment in Ohio, and I certainly take exception to anybody who claims that we are not deserving, that our workers are not deserving of 13 weeks of unemployment compensation.

Let me enter into the RECORD a little history, as far as the unemployment compensation is concerned.

Early in the Reagan administration, at the insistence of the Reagan administration, the trigger mechanism for extended benefits was changed so it made it virtually impossible for States to trigger onto extended benefits, which I guess is the way the Reagan administration wanted it to be.

We had the anomaly that later on in the 1980's when we had extremely high unemployment in some States it still was not high enough to trigger onto extended benefits because the trigger was what they called the insured unemployment rate, which is those people who are collecting unemployment at any given time. And in many, many States with very high lingering, continuing high unemployment the number of people who are insured and collecting unemployment was rather small because they, most of them, had already exhausted their benefits.

So I and others during the 1980's have been working to make the trigger something other than the insured unemployment rate. We tried to use the total unemployment rate, much more indicative in deciding whether a State needs extended benefits or not. We passed two bills in this House and sent them to the President. Both of them used the total unemployment rate as the trigger mechanism.

The President thwarted our effort both times.

Three weeks ago we reported out of the Committee on Ways and Means again a bill that uses the total unemployment rate as the trigger mechanism. Using that trigger mechanism many States qualify for 6 weeks, some for 13, some for 20, and many of them qualified for reachback, for the persons who had already exhausted their benefits.

But the Bush administration was not happy with that. They could not tolerate so many unemployed people getting benefits. So they insisted on going back to the insured unemployment rate. And what that did was to knock several States back from 13 to 6 weeks and it knocked a number of States out of eligibility for reachback provisions at all.

The Senate in its wisdom during deliberations last week insisted that that injustice be corrected. That injustice has been corrected in the legislation before us now.

Under this legislation those in all States would be eligible for at least 13 weeks, some for 20 weeks, and most would be eligible, in fact, all would be eligible for some reachback provisions.

If my colleagues from the other side of the aisle want to complain that an arbitrary eligibility for at least 13 weeks goes contrary to reasoned determination of how many people are unemployed in any State, I would remind them that the real atrocity of the last 10 years has been the insistence of the Republican administrations, two of them, on using the insured unemployment rate, which certainly did not measure in any reasoned or rational way the necessity in one State or another to have extended benefits.

I think this is a very good package. I commend it to the support of my colleagues.

Mr. GUARINI. Mr. Speaker, I rise in strong support of the conference report on H.R. 1724, particularly as it relates to the Andean Trade Preference Act. I am pleased to be one of the original cosponsors of this most important piece of legislation, and it has been one of my top legislative priorities.

The Andean Trade Preference Act is targeted at four countries—Colombia, Boliva, Peru, and Ecuador. These countries have been waging a life and death struggle against illegal drugs. They are also emerging democracies. This legislation will help promote their economic development. In so doing, these nations will be able to combat more effectively the narcotics problem and provide a standard of living for their people conducive to democratic development.

Nearly all the world's coca is produced in Peru and Bolivia. Colombia, as we all know, is the major processing point for cocaine. Although there is much that must be done in the United States to curb the demand for drugs, we cannot ignore the supply side of the equation. These countries, at great cost, have made considerable progress in dealing with the drug problem. Assassination and terrorism are scourges that they must live with.

President Bush, at the Cartagena summit, recognized the importance of increasing economic opportunities for these countries if they are to have any chance in their fight against illegal drugs. The President also recognized the mutual economic benefit to both Latin America and the United States of increased trading opportunities within our hemisphere.

This legislation will serve both purposes. The United States will have increased access to goods from the Andean region, as well as new export opportunities. This bill will improve economic prospects in the Andean region and create growth opportunities. It will lead to progress in eradicating the production, processing and shipment of illegal drugs. Improved trade will also enable these countries to buy more of our goods.

I urge my colleagues to support this conference report.

Mr. ARCHER. Mr. Speaker, I have no further requests for time and I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time and I move the previous question on the conference report.

The previous question was ordered.

The conference report was agreed to.

A motion to reconsider was laid on the table.

CORRECTING TECHNICAL ERROR IN ENROLLMENT OF H.R. 1724

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent for the immediate consideration of the concurrent resolution (H. Con. Res. 249) correcting a technical error in the enrollment of the bill, H.R. 1724.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

Mr. ARCHER. Mr. Speaker, reserving the right to object, I shall not object, but I take this time for the purpose of requesting the chairman of the Committee on Ways and Means to explain what is involved.

Mr. ROSTENKOWSKI. Mr. Speaker, will the gentleman yield?

Mr. ARCHER. I yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. I thank the gentleman for yielding.

Mr. Speaker, this resolution makes clear that individuals whose unemployment insurance benefit year expired after February 28, 1991 would be eligible for so-called reachback benefits under the Emergency Unemployment Compensation Act of 1991. It was requested by the administration, and it is consistent with the intent of this act.

Mr. ARCHER. Mr. Speaker, there is no opposition to this resolution as I understand it.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The SPEAKER pro tempore. The reading of the concurrent resolution will be dispensed with.

The text of the concurrent resolution is as follows:

H. CON. RES. 249

Resolved by the House of Representatives (the Senate concurring),

That, in the enrollment of the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, the Clerk of the House of Representatives shall make the following correction:

Strike section 3(a)(3) of the bill and insert the following:

(3) Section 102(f)(3)(A) of the Emergency Unemployment Compensation Act of 1991 is amended to read as follows:

"(A) IN GENERAL.—If any individual has a benefit year which ends after February 28, 1991, such individual shall be entitled to emergency unemployment compensation under this Act in the same manner as if such individual's benefit year ended no earlier than the last day of the first week following November 16, 1991."

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON H.R. 2212, UNITED STATES-CHINA ACT OF 1991

Mr. FROST. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 307 and ask for its immediate consideration.

The SPEAKER pro tempore. The Clerk read the resolution, as follows:

H. RES. 307

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The question is, Will the House now consider House Resolution 307?

The question was taken; and (two-thirds having voted in favor thereof) the House agreed to consider House Resolution 307.

The SPEAKER pro tempore. The gentleman from Texas [Mr. FROST] is recognized for 1 hour.

Mr. FROST. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from New York, [Mr. SOLOMON], pending which I yield myself such time as I may consume. During debate on this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, H. Res. 307 waives all points of order against the conference report on H.R. 2212 and against its consideration. The rule also dispenses with the reading of the conference report.

Mr. Speaker, H.R. 2212 stipulates that the President may not waive the Jackson-Vanik requirements with respect to granting MFN status to the products of the People's Republic of China unless he reports that China has met certain human rights objectives. In particular, China must account for and release citizens held for the 1989 Tiananmen Square incident.

In addition, Mr. Speaker, the President must report that China has made significant progress on trade and weapons proliferation issues.

Mr. Speaker, Representative PELOSI deserves our praise for her patience and perseverance. This measure is in large part due to her hard work. Chairman ROSTENKOWSKI also deserves our gratitude as does Mr. SOLOMON. They have worked hard to shepherd this measure through the Congress. We hope the President will sign it.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this rule, providing consideration for the conference report on the Pelosi bill which places conditions on the further extension of most-favored-nation trade status to the People's Republic of China. And I pay special tribute to the bill's sponsor, the gentlewoman from California [Ms. PELOSI], for without her driving determination, my colleagues, this bill would not be before us today.

I can assure you of that, Mr. Speaker, there are so many problems in our relations with Communist China that it's just hard to know where to start.

Whether we look at Chinese missile sales to unsavory governments throughout the World—at Chinese assistance to countries in building nuclear reactors, capable of producing fissionable materials for nuclear bombs—at Chinese repression in Tibet and slave labor production of goods—and so on, it's just plain clear that the Chinese Communist Government must change its ways.

Mr. Speaker, of course, nothing sticks in our craw more than the massacre perpetrated by Communist-led troops in Tiananmen Square, a little over 2 years ago.

Yes. Hundreds of innocent people died.

No. We have not forgotten.

Mr. Speaker, I am pleased to stand here and offer my support for the rulemaking in order the conference report on H.R. 2212, a bill that will place conditions on any further extension of United States trade benefits to the so-called People's Republic of China.

Frankly, Mr. Speaker, I would have preferred, to cut off those benefits completely—to place punishing tariffs on their goods, goods—often made with slave labor and often bearing the counterfeit trademark of American-made goods—often secreted into the United States through third countries in clear violation of the bilateral trade agreements that that Government solemnly signed with us.

Mr. Speaker, in each of the last 2 years, I offered this House a chance to end most-favored-nation status for Communist China—to end it outright.

In both cases, an overwhelming majority of the Members voted for that course of action in passing my bills that recinded special trade preference for China.

Regrettably, the Senate failed to uphold the House's action in both cases.

Mr. Speaker, when I stood in the well of this House speaking on behalf of my first effort to cut off most-favored-nation status for Communist China, I pointed out that an article in the Chinese Communist Press, at that time, indicated that the Chinese Communist leadership felt, as early as 1 year after its Tiananmen massacre, that the world was already losing its concern for justice in that bloody crime.

I said then that Communist China would not respect democratic rights any more after the extension of most-favored-nation status, than it did before.

I believe that the facts since then, have borne me out.

Mr. Speaker, the Tiananmen Square massacre took place so soon after the extension of most-favored-nation status in 1989, that we could not act in time.

In 1990, our efforts died in the Senate.

Now, in 1991, a conference report is before us. One that will make it difficult for the so-called People's Republic of China, to get another extension next year without changing its ways.

Yes; I am disappointed that we have not yet cut off MFN.

But, yes; I am pleased at the progress that we are making toward that goal and this bill is a strong step in that direction.

The Communist Chinese Government knows now that we have not forgotten and that we will not forget.

Mr. Speaker, in closing, let me say this. I greatly respect President Bush and how hard he is working—using a carrot-and-stick approach—to get the Communists to respect their people's freedom and rights.

He is working to strengthen the international controls covering Chinese arms sales, and working to cut off Chinese counterfeit and slave-labor-manufactured goods.

□ 930

He just recently sent Secretary of State Baker to Beijing with, what I am sure, was a clear message that their actions will have consequences.

But our purpose here today is to show that there is indeed a stick—a big stick—and that there will indeed be consequences for Communist China—if his calls for reform continue to fall on deaf ears.

My colleagues, passage of the bill this rule makes in order will help President Bush get the message across to the old men in the so called Great Hall of the People that we, the American people, will not tolerate a ruthless regime that has no respect for the human rights of decent, helpless people, the citizens of China. Mr. Speaker, that is why I urge support of this rule, and I urge support of the conference report that will follow it.

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, for the purposes of debate only, I yield 2 minutes to the gentleman from Ohio [Mr. PEASE].

Mr. PEASE. Mr. Speaker, I rise in support of this bill, in very strong support, and I thank our chairman, the gentleman from Illinois [Mr. ROSTENKOWSKI], for his active leadership in bringing it to the floor today.

Mr. Speaker, It is going to be unusual, I think for almost anybody to stand up on the floor today and discuss this bill without making reference to the gentlewoman from California [Ms. PELOSI]. If ever there was a bill which owed its progress to one person, this is it. She has been absolutely tenacious in advancing the bill, pushing and retrieving it from various backwaters, making sure that it did not get forgotten and getting it on the floor today, and I would like to commend her for the outstanding job that she has done in getting this piece of legislation before us.

Mr. Speaker, after Tiananmen Square I tried to figure out what our response should be. I introduced very shortly thereafter a bill to condition MFN for China. We had a debate 2 years ago, and last year, earlier this year on that, my bill, and that of the gentlewoman from California [Ms. PELOSI] and others. I am pleased that my bill played a small part in this effort but whatever role I played is small compared to that of the gentlewoman from California [Ms. PELOSI], and I want to give full credit to her.

Mr. Speaker, I rise then in support of this rule and in support of the conference report.

Mr. SOLOMON. Mr Speaker, I yield such time as he may consume to the distinguished gentleman from California. [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, I rise in strong support of the gentlewoman from California [Ms. PELOSI]. She chose to come over to this side of the aisle with her fight against the MFN for China unless they met certain requirements, and I think that these requirements are in order. It is very seldom, I think, that we can find that on foreign issues that we can support the other side of the aisle, and this is one that I am glad to. Every country that I would ever have fought against in combat, the Chinese, and the Soviets, and even the French, would supply weapons to those countries. It is not just the slavery, it is not just the drug trade, but I think the weapons sales and how they could influence the future of the world.

Mr. Speaker, I think to give them most-favored-nation status would be a crime in itself, and I thank the gentlewoman from California [Ms. PELOSI] for her foresight.

Mr. SOLOMON. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. Mr. Speaker, I thank the distinguished gentleman from New York [Mr. SOLOMON] for yielding this time to me and for his hard work on this bill, and also the distinguished gentlewoman from California [Ms. PELOSI] for her leadership on this bill.

Mr. Speaker, let me simply say that we are right now facing a world in which dangerous technology is being transferred at a very rapid rate, and this technology is going to result in over 15 nations having ICBM capability within a very short period of time, and other lesser missile technology and lesser missile capability that can mean in the end dead Americans in a conflict and dead allies of America.

Mr. Speaker, we saw in the Iraqi situation a lot of Western technology coming back at us and back at our soldiers and sailors in the sands of the Middle East. China can either have a salutary effect on this situation, or they can exacerbate this enormous problem of technology transfer to irresponsible parties. So far China has opted for the latter route, and they have in transferring Silkworm missiles and other technology to adversaries of America placed the men and women of America's Armed Forces in harm's way.

Mr. Speaker, I applaud the authors of this measure for the conditions that they are laying down for China to follow.

□ 1940

I think China is going to largely determine whether or not the terrorists with high technology, in this new era we are moving into as we leave the Soviet-United States confrontation era, the era with terrorists and their high technology, will be largely affected by the political decisions that China makes. I hope that China makes the right decisions. If they do not make the right decisions, they certainly should not be the beneficiaries of American trade preferences.

Second, Members of this House have visited Chinese labor camps and have seen for themselves that slave labor indeed is being used to make products that are competing with American products on American shelves at American retail outlets. That is absolutely unacceptable, and I know that this measure offered by the gentlewoman from California [Ms. PELOSI] and the gentleman from New York addresses this area also, that of slave labor being utilized to create indeed exports to the very country that is condemning the activities that took place at Tiananmen Square in actions subsequent to those.

Let me thank the gentlewoman from California [Ms. PELOSI] and the gentleman for their leadership in this area, and I thank the chairman of the full committee, the gentleman from Illinois [Mr. ROSTENKOWSKI].

Mr. Speaker, I stand in full support of the resolution.

Mr. SOLOMON. Mr. Speaker, I yield such time as he may consume to another distinguished Californian, the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I thank the gentleman for yielding time to me, and I rise in strong support of this rule and of the measure.

I want to join in congratulating the gentlewoman from California [Ms. PELOSI] as well as the gentleman from New York [Mr. SOLOMON], along with the many others who have been working on this legislation for a long time now.

I would like to join in the remarks that the gentleman from New York made about President Bush and Secretary of State Baker with regard to this issue. Recently I had the occasion to hear Jim Baker explain what had happened in China. I think some progress is being made, but I think—and he probably would not agree with this—that by passing this resolution we will help them, not hurt them, and get the Chinese to do the right thing.

Mr. SOLOMON. Mr. Speaker, I yield 4 minutes to the gentleman from South Carolina [Mr. RAVENEL].

Mr. RAVENEL. Mr. Speaker, I rise in strong support of the legislation, and I want to associate myself with the remarks previously made by the gentlewoman from California [Ms. PELOSI] and the gentleman from New York [Mr. SOLOMON].

I was over there during the summer with a group that was sponsored by the Chamber of Commerce of Hong Kong. Quite frankly, I had never been to the Far East, and we were just absolutely amazed by what we encountered when we went over there. Senator Brown headed the delegation, and there were about a dozen Members of Congress who went with us.

We found that the Chinese people were well-fed and well-clothed, but if they professed themselves politically, they were grabbed up off the street or wherever they happened to be and they were summarily thrown into jail. They disappeared and, I imagine, in some instances worse.

The estimates over there are that there are approximately 10 million people working in prisons in China, and they manufacture every conceivable thing under the sun. Most of those manufactured items are shipped to Hong Kong. The labels are changed, and then they are sold throughout the world. A great many of those prison-made items are sold in the United States.

In my State of South Carolina we are losing approximately 5,000 textile jobs a year, so it affects us directly.

We were denied permission to visit the dissidents who were in prison over there, one in particular, a young man by the name of Wang Juntao. Everywhere we went, we requested permission to see the leaders, and finally we got to the First Secretary of the Communist party in China, and he said, no, he could not make arrangements for us to meet Wang Juntao, who was being held under very severe conditions.

So I asked the man, I said, "Let me tell you something, man. You are the head knocker here in China. If you can't make arrangements for us to meet Mr. Wang Juntao, who in the world can?"

Well, he sloughed that answer off, but subsequently, through some efforts of some good Caucasians who were over there, we were able to meet with his wife, Mrs. Ho. You probably read just the other day when Mrs. Ho tried to meet with some of Secretary Baker's delegation, she was arrested and held overnight. This is a charming young lady. She confirmed what we had been told about the conditions under which these young folks were held.

At one of the meetings we had with the Chinese officials, one of them approached me on a lesser level, I feel sure, and he said, "What do you think we ought to do?"

I said, "We need a sign. We need an expression of good will back in the United States, in the Congress, before we vote on most-favored-nation status."

He said, "What would you suggest?"

I said, "Why don't you let these young kids go? You've got less than a hundred of them now still in jail from the Tianamen Square situation. Why don't you just let them go and let them come to the United States? We will take them as political refugees. They will all continue their education at colleges and universities around our country, and probably in 10 or 15 years they will all be Chinese millionaires. That is the kind of thing you need to do as an expression of good will."

Of course, we have heard nothing from them. They are just as intransigent now as they were back then. I thought surely when Mr. Baker went to China as a representative of the President, he would have more success than our delegation and Ms. PELOSI's delegation had. But absolutely not. They have absolutely stonewalled the situation.

What they cannot understand is why we associate trade with human rights. They just cannot understand this. We told them repeatedly all of this. We said that in our country the two are inseparable, and the American people do not want to do business with people who treat folks like they are treating them

So I think the legislation provided by this rule is apropos and very much on time. I hope that all the Members will vote for the rule by a substantial margin.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Texas [Mr. BARTON], who has been so active and helpful in this area.

Mr. BARTON of Texas. Mr. Speaker, I, too, rise in strong support of the rule and the legislation, the conference report granting most-favored-nation trade status for China.

I would like to commend the gentlewoman from California [Ms. PELOSI] for the continuing good work she has done on this issue, as well as the gentleman from New York [Mr. SOLOMON], the gentleman from New York [Mr. GREEN], the gentleman from Washington [Mr. MILLER], the gentleman from Georgia [Mr. JONES], and many, many others for the fine work they have done.

I consider this bill to be a continuing step in our efforts to make the current leadership in communist China understand that the American people will not forget what happened at Tiananmen Square, that we are sincerely dedicated to keeping hope alive that one day freedom will be allowed to flourish in that land. This is another bill that would do that.

I would point out that last week several of my colleagues and I introduced another piece of legislation that will allow those Chinese students and adult nonstudents who are in this country and were in this country when Tiananmen Square occurred to stay in this country permanently should they choose to do so, if the President has not certified that conditions exist so that they would be allowed to return peacefully to China.

We all know that Secretary of State Jim Baker recently returned to China. He went there with high hopes, and unfortunately those hopes were frustrated.

□ 1950

The Chinese Government refused to make any concessions. In fact, several individuals that wanted to meet with the Secretary were prevented forcefully from meeting with him.

While the Secretary went with all the good intentions, he did not come back with any substantive progress.

This bill that we will vote on later this evening is a cleaned up version of the bill that passed the House overwhelmingly not too many months ago. It is a much cleaner bill. It is much more narrowly drawn, much more straightforward, but still has real conditions for MFN to be granted. It would require that the Chinese release the prodemocracy demonstrators currently imprisoned in China or Tibet; it would require that they commit not to sell missiles to Syria or Iran; it would require that there be significant progress in human rights, in nuclear proliferation, and in trade.

It is a straightforward piece of legislation. If we pass it tonight overwhelmingly, I am sure that when we reconvene in the second session of this Congress, that it will also pass in the Senate, and hopefully the President will sign it and it will set the stage to really begin the process of bringing China back into the League of Nations.

Mr. Speaker, I thank the gentleman for allowing me this time.

Mr. FROST. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to take a minute to commend my colleague from Texas [Mr. BARTON] who just spoke, who has consistently spoken out on this issue over a long period of time, even when other Members were not calling attention to it.

Mr. SOLOMON. Mr. Speaker, in yielding back the balance of my time, let me just point out that there are few countries left in the world that still operate under the failed political philosophy of communism, a philosophy that has no respect for human life and human decency at all. I guess there is still Cuba, there is still Vietnam, there is still North Korea, and, of course, there is still the People's Republic of China with one-fifth of the world's population.

That is a shame. Many countries throughout the world are throwing off the shackles of communism and moving toward democracy. But it isn't happening yet in China.

If we are going to be successful in China, I just want to say once again that the gentlewoman from California [Mr. PELOSI] in her dogged determination to see this bill through the House and the Senate and back here with this conference report in what we hope are the waning hours of this session this year, will certainly have to get all the credit in the world. I pay deep tribute to her for that.

Mr. Speaker, I hope that every Member will support this rule and then give unanimous support to a very fine bill that will send the right message to the Chinese leadership: That we will not tolerate this kind of treatment of decent human beings.

Mr. Speaker, I urge support of the rule.

Mr. Speaker, I yield back the balance of my time.

Mr. FROST. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

Mr. ROSTENKOWSKI submitted the following conference report and statement on the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes:

CONFERENCE REPORT (H. REPT. 102-392)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2212), regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "United States-China Act of 1991".

SEC. 2. FINDINGS AND POLICY.

(a) FINDINGS.—The Congress makes the following findings:

(1) The Chinese people have provided a dramatic demonstration of their desire for democratic freedoms. Thousands of courageous Chinese students and workers, men and women, demonstrated on June 4, 1989, that they were willing to die, or face imprisonment or exile, in pursuit of democratic self-determination and human rights.

(2) The Government of the People's Republic of China, which is a member of the United Nations and obligated to uphold the Charter of the United Nations and the Universal Declaration of Human Rights, continues to engage in flagrant violations of internationally recognized human rights, including—

(A) torture and cruel, inhuman, or degrading treatment or punishment;

(B) prolonged detention without charges and trial and sentencing of persons solely for the nonviolent expression of their political views;

(C) arbitrary arrest and the unacknowledged detention of persons; and

(D) use of forced labor of prisoners to produce cheap products for export to countries, including the United States, in violation of international labor treaties and United States law.

(3) The Government of the People's Republic of China has denied Chinese citizens who support the pro-democracy movement and others the right of free, unimpeded emigration.

(4) The Government of the People's Republic of China has restricted the number of students permitted to study abroad, required some college students to attend military indoctrination courses, and required university graduates to work 5 years after graduation and to pay large sums of money before being eligible to apply for study outside China.

(5) The Government of the People's Republic of China continues to violate the internationally recognized human rights of the people of Tibet and uses the People's Liberation Army and police forces to intimidate and repress Tibetan and Chinese citizens peacefully demonstrating for democratic change and religious freedom.

(6) The Government of the People's Republic of China is engaging in unfair trade practices against the United States by failing to protect intellectual property rights, raising tariffs, employing taxes as a surcharge on tariffs, using discriminatory customs rates, imposing import quotas and other quantitative restrictions, barring the importation of some items, using licensing and testing requirements to limit imports, and falsifying country of origin documentation to transship textiles to the United States through third countries.

(7) The Government of the People's Republic of China has not demonstrated its willingness and intention to participate as a full and responsible party in good faith efforts to control the proliferation of dangerous military technology and weapons, including biological, chemical, and nuclear weapons technologies.

(8) The Government of the People's Republic of China has interfered with the movement toward self-rule by the people of Hong Kong in their political, cultural, and economic activities.

(9) The President of the United States has suspended all government-to-government sales and commercial exports of defense articles and services to China and issued an Executive order to treat sympathetically requests by Chinese students in the United States to extend their stay.

(10) United States policy toward China has failed to prevent or discourage the People's Republic of China from—

(A) committing violations of internationally recognized human rights, including the rights of the people of Tibet;

(B) taking action that results in the proliferation of dangerous military technology and weapons; and

(C) engaging in unfair trade practices against the United States.

(b) POLICY.—It is the sense of the Congress that—

(1) with respect to the actions of the People's Republic of China in the areas of human rights, weapons proliferation, and unfair trade practices, the President should take such actions as necessary to achieve the purposes of this Act, including, but not limited to—

(A) instructing the United States delegation to the United Nations Commission on Human Rights to actively seek the appointment of a special rapporteur to investigate violations of internationally recognized human rights in China and to seek allied and Soviet support for such an investigation;

(B) directing the United States Trade Representative to take appropriate action pursuant to section 301 of the Trade Act of 1974 with respect to the trade practices of the People's Republic of China which are unreasonable, unjustifiable, or discriminatory and which burden or restrict United States commerce;

(C) interacting more forcefully with our allies, especially Japan and European countries, to accomplish the restriction of transfers of technology to China; and

(D) encouraging members of the Missile Technology Control Regime, and other countries, as appropriate, to set up a working group to develop a common policy concerning missile transfers to other countries by the People's Republic of China;

(2) the sanctions being applied against the People's Republic of China on the date of enactment of this Act should be continued and strictly enforced; and

(3) the President should submit the report required by the Joint Resolution relating to the approval and implementation of the proposed agreement for nuclear cooperation between the United States and the People's Republic of China (Public Law 99–183; 99 Stat. 1174).

SEC. 3. ADDITIONAL OBJECTIVES WHICH THE GOVERNMENT OF CHINA MUST MEET IN ORDER TO RECEIVE NONDISCRIMINATORY TREATMENT.

(a) IN GENERAL.—The President may not recommend the continuation of a waiver in 1992 for a 12-month period under section 402(d) of the Trade Act of 1974 for the People's Republic of China unless the President reports in the document required to be submitted by such section that the government of that country—

(1) has, in regard to the events that led up to, and occurred during and after, the violent repression of dissent in Tiananmen Square on June 3, 1989—

(A) provided an accounting of citizens who were detained, accused, or sentenced as a result of the nonviolent expression of their political beliefs during those events; and

(B) released citizens who were imprisoned after such detention, accusation, or sentencing; and

(2) has made overall significant progress in achieving the objectives outlined in each of the categories of—

(A) human rights, as described in subsection (b);

(B) trade, as described in subsection (c); and

(C) weapons proliferation, as described in subsection (d).

(b) HUMAN RIGHTS.—The human rights objectives described in this subsection are—

(1) taking appropriate action to prevent gross violations of internationally recognized human rights in the People's Republic of China, including Tibet;

(2) preventing exports of products made by prisoners and detainees assigned to labor camps, prisons, detention centers, and other facilities holding detainees, and allowing United States officials and international humanitarian and intergovernmental organizations to inspect the places of detention suspected of producing export goods to ensure that appropriate steps have been taken and are in effect;

(3) terminating religious persecution in the People's Republic of China, including Tibet, and releasing leaders and members of all religious groups detained, incarcerated, or under house arrest as a result of the expression of their religious beliefs;

(4) removing restrictions in the People's Republic of China, including Tibet, on freedom of the press and on broadcasts by the Voice of America;

(5) terminating the acts of intimidation and harassment of Chinese citizens in the United States, including the return and renewal of passports confiscated by authorities as retribution for prodemocracy activities;

(6) ensuring access of international human rights monitoring or humanitarian groups to prisoners, trials, and places of detention;

(7) ensuring freedom from torture and from inhumane prison conditions;

(8) terminating prohibitions on peaceful assembly and demonstration imposed after June 3, 1989;

(9) fulfilling its commitment to engage in high-level discussions on human rights issues; and

(10) adhering to the Joint Declaration on Hong Kong that was entered into between the United Kingdom and the People's Republic of China.

(c) TRADE.—The trade objectives described in this subsection are—

(1) providing adequate protection of United States patents, copyrights, and other intellectual property rights;

(2) providing American exporters fair access to Chinese markets, including lowering tariffs, removing nontariff barriers, and increasing the purchase of United States goods and services; and

(3) ceasing unfair trade practices against the United States which are unreasonable and discriminatory and which burden or restrict United States commerce.

(d) WEAPONS PROLIFERATION.—The weapons proliferation objectives described in this subsection are—

(1) adopting a national policy which adheres to, and ceasing activities inconsistent with—

(A) the limitations and controls contained in the Missile Technology Control Regime;

(B) the standards and guidelines set by the Nuclear Suppliers Group; and

(C) the standards and guidelines set by the Australia Group on chemical and biological arms proliferation; and

(2) taking clear and unequivocal steps to assure that the People's Republic of China is not assisting and will not assist any nonnuclear weapons state, directly or indirectly, in acquiring nuclear explosive devices or the materials and components for such devices.

SEC. 4. SANCTIONS BY OTHER COUNTRIES.

If the President decides not to seek a continuation of a waiver in 1992 under section 402(d) of the Trade Act of 1974 for the People's Republic of China, he shall, during the 30-day period beginning on the date that the President would have recommended to the Congress that such waiver be continued, undertake efforts to ensure that members of the General Agreement on Tariffs and Trade take similar action with respect to the People's Republic of China.

SEC. 5. ENFORCEMENT OF PROHIBITION AGAINST IMPORTATION OF CONVICT-MADE GOODS.

Section 307 of the Tariff Act of 1930 (19 U.S.C. 1307) is amended—

(1) by striking "All goods" and inserting "(a) IN GENERAL.—All goods";

(2) by striking "'Forced Labor,'" and inserting "(b) FORCED LABOR.—'Forced Labor,'"; and

(3) by adding at the end thereof the following new subsection:

"(c) PENALTIES.—

"(1) IN GENERAL.—Any person who—

"(A) enters or imports, or attempts to enter or import, goods, wares, articles, or merchandise into the customs territory of the United States in violation of subsection (a); and

"(B) knew or should have known that such entry or importation, or attempted entry or importation, was in violation of such subsection, shall be liable to pay to the United States a civil penalty.

"(2) AMOUNT OF PENALTY.—Any civil penalty imposed under paragraph (1) shall be in an amount not to exceed—

"(A) $10,000 for one violation;

"(B) $100,000 in the case of a person previously subject to a penalty for one violation under this section; or

"(C) $1,000,000 in the case of a person previously subject to penalties for more than one violation under this section.

"(3) The Secretary of the Treasury shall by regulation prescribe procedures for imposing penalties under this section, including, but not limited to, prepenalty notice.

SEC. 6. REPORT BY THE PRESIDENT.

If the President recommends in 1992 that the waiver referred to in section 3 be continued with respect to the People's Republic of China, the President shall include in the document required to be submitted to the Congress by section 402(d) of the Trade Act of 1974 a report on the extent to which the Government of the People's Republic of China has, during the period covered by the report, complied with the provisions of section 3.

SEC. 7. DEFINITIONS.

For the purposes of this Act:

(1) ACTS OF INTIMIDATION AND HARASSMENT.—The term "acts of intimidation and harassment" in section 3(b)(5) means actions taken by the Government of the People's Republic of China that are intended to deter or interfere with, or to be in retaliation for, the nonviolent expression of political beliefs by Chinese citizens within the United States.

(2) DETAINED AND IMPRISONED.—The terms "detained" and "imprisoned" include, but are not limited to, incarceration in prisons, jails, labor reform camps, labor reeducation camps, and local police detention centers.

(3) FORCED LABOR.—The term "forced labor" has the meaning given to such term by section 307 of the Tariff Act of 1930 (19 U.S.C. 1307).

(4) GROSS VIOLATIONS OF INTERNATIONALLY RECOGNIZED HUMAN RIGHTS.—The term "gross violations of internationally recognized human rights" in section 3(b)(1) includes, but is not limited to, torture, cruel, inhuman, or degrading treatment or punishment, prolonged detention without charges and trial, causing the disappearance of persons by the abduction and clandestine detention of those persons, secret judicial proceedings, and other flagrant denial of the right to life, liberty, or the security of any person.

(5) MISSILE TECHNOLOGY CONTROL REGIME.—The term "Missile Technology Control Regime" means the agreement, as amended, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan, announced on April 16, 1987, to restrict sensitive missile-relevant transfers based on an annex of missile equipment and technology.

(6) SIGNIFICANT PROGRESS.—(A) The term "significant progress" in section 3(a)(2) means the implementation of measures that will meaningfully reduce, or lead to the termination of, the practices identified in that paragraph.

(B) With respect to section 3(d)(1), progress may not be determined to be "significant progress" if the President determines that, on or after November 26, 1991, the People's Republic of China has transferred to Syria or Iran—

(i) ballistic missiles or missile launchers for the weapons systems known as the M–9 or the M–11; or

(ii) material, equipment, or technology which would contribute significantly to the manufacture of a nuclear explosive device.

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

H.R. 2212, REGARDING THE EXTENSION OF MOST-FAVORED-NATION TREATMENT TO THE PRODUCTS OF THE PEOPLE'S REPUBLIC OF CHINA, AND FOR OTHER PURPOSES

1. Short Title (Section 1 of Senate Amendment; Section 1 of Conference Agreement)

Present law

No provision.

House bill

No provision.

Senate amendment

United States-China Act of 1991.

Conference agreement

House recedes.

2. Findings and Policy (Section 2 of Senate Amendment; Section 2 of Conference Agreement)

Present law

No provision.

House bill

No provision.

Senate amendment

Sets forth certain findings relating to the prodemocracy demonstrations of the Chinese people; the actions and policies of the Government of China, including its continuing violations of internationally-recognized human rights, the denial of free emigration to citizens supporting the prodemocracy movement, weapons proliferation, support for the Khmer Rouge, restrictive trade practices, and interference in Hong Kong; and the policies of the United States toward China. States the sense of the Congress that U.S. sanctions in the areas of technology exports and international monetary loans should be continued and strictly enforced and that the U.S. Government should consult with the U.S. business community regarding guidelines for corporate activity in China.

Conference agreement

House recedes with an amendment: (1) to make various conforming, clarifying, and technical changes; (2) to drop the finding relating to the Khmer Rouge, and the policy statement relating to guidelines for corporate activity; (3) to merge section 3 of the Senate amendment (relating to Presidential action) into the policy section, with conforming changes; and (4) to add to the policy section a provision that the President should submit the report required by Public Law 99-183 regarding China's nuclear nonproliferation policies.

3. Renewal of MFN Status—Additional Objectives (Section 1(a) of House Bill; Section 4 of Senate Amendment; Section 3 of Conference Agreement)

A. HUMAN RIGHTS OBJECTIVES

Present law

Section 402 of the Trade Act of 1974, as amended by the Customs and Trade Act of 1990, sets forth three objectives relating to freedom of emigration which must be met, or waived by the President, before a nonmarket economy country may be granted MFN status. A Presidential waiver must be renewed annually, in order for a country's MFN status to remain in effect.

Section 307 of the Tariff Act of 1930 prohibits the importation of goods made by convict or forced labor, and directs the Secretary of the Treasury to prescribe regulations for the enforcement of the prohibition.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President reports that the Chinese government—

(1) has provided an accounting of citizens detained, accused, or sentenced as a result of the nonviolent expression of their political beliefs during and after the June 1989 Tiananmen Square incident;

(2) has released citizens who were imprisoned after such detention, accusation, or sentencing;

(3) is adhering to the Joint Declaration on Hong Kong;

(4) does not support or administer any program of coercive abortion or involuntary sterilization; and

(5) has taken appropriate steps to prevent exports of products made by prisoners and detainees, and has allowed U.S. and international inspection of places of detention.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government—

(1) has accounted for those citizens detained, accused, or sentenced as a result of the nonviolent expression of their political beliefs;

(2) has released those citizens who were imprisoned after such detention, accusation or sentencing;

(3) is adhering to the Joint Declaration on Hong Kong;

(4) does not support or administer any program of coercive abortion or involuntary sterilization; and

(5) has ceased exporting to the United States products made by convict, forced, or indentured labor under penal sanctions.

Conference agreement

Senate recedes with an amendment: (1) dropping the objective relating to abortion; and (2) moving the objectives relating to prison labor exports and Hong Kong to the "significant progress" section, with conforming changes.

B. WEAPONS PROLIFERATION OBJECTIVES

Present law

The Missile Technology Control Act (Title VII of Public Law 101-510) establishes requirements for negotiations and controls on the proliferation of missiles and technology, with trade and foreign policy sanctions required for violations.

House bill

Provides that the President may not recommend the continuation of a wavier in June 1992 for a 12-month period for China, unless the President reports that the Chinese government has provided assurances that it—

(1) is not assisting and will not assist any nonnuclear state is acquiring nuclear explosive devices or the materials and components for such devices; and

(2) will not contribute to the proliferation of missiles and adheres to the Missile Technology Control Regime, at least with respect to countries in the Middle East and South Asia.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has ceased supplying arms and military assistance to the Khmer Rouge.

Conference agreement

The conferees agreed to merge the various provisions in the bill relating to weapons proliferation into one provision and to move that provision to the "significant progress" category. The provision sets forth two objectives relating to weapons proliferation and adds a definition which states that progress may not be determined to be "significant progress," if the President determines that, on or after November 26, 1991, the People's Republic of China has transferred to Syria or Iran certain missiles or nuclear technologies or devices.

Senate recedes on the Khmer Rouge objective.

C. TRADE OBJECTIVES

Present law

No provision.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President reports that the Chinese government has moderated its position on Taiwan's accession to the GATT.

Senate amendment

No provision.

Conference agreement

Senate recedes, with an amendment moving the provision to the "significant progress" section.

D. "SIGNIFICANT PROGRESS" OBJECTIVES

(i) Human rights

Present law

No provision.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President reports that the Chinese government has made overall significant progress in:

(1) taking appropriate action to prevent gross violations of internationally recognized human rights in China, including Tibet;

(2) ending religious persecution in China, including Tibet;

(3) removing restrictions in China, including Tibet, on press freedom and VOA broadcasts;

(4) terminating intimidation and harassment of China citizens in the United States;

(5) ensuring access of international human rights groups to prisoners, trials, and places of detention;

(6) ensuring freedom from torture and inhumane prison conditions; and

(7) terminating prohibitions on peaceful assembly and demonstration imposed after June 3, 1989.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has made significant progress in:

(1) taking appropriate action to prevent gross violations of internationally-recognized human rights and fundamental freedoms in China and Tibet, including ending religious persecution and restriction on press freedom and VOA broadcasts;

(2) terminating intimidation and harassment of Chinese citizens in the United States;

(3) ensuring access of international human rights groups to prisoners, trials, and places of detention;

(4) fulfilling its commitment to engage in high-level discussions on human rights;

Conference agreement

Senate recedes with an amendment adding an objective relating to high-level discussions on human rights.

(ii) Weapons proliferation

Present law

See description under item 3(b) above.

House bill

No provision

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has made significant progress in adopting a national policy which adheres to, and ceasing activities inconsistent with, the Missile Technology Control Regime and the standards and guidelines set by the Nuclear Suppliers group and the Australia Group on chemical and biological arms proliferation.

Conference agreement

See description under item 3(b).

(iii) Trade

Present law

Section 301 of the Trade Act of 1974 authorize the U.S. Trade Representative (USTR) to take action to enforce U.S. rights under trade agreements or eliminate foreign practices that violate trade agreements or are unjustifiable and burden or restrict U.S. commerce.

"Special" 301 authorizes the USTR to take action to achieve protection of U.S. intellectual property rights, and market access for U.S. persons that rely on intellectual property rights, in priority foreign countries.

House bill

No provision.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has made significant progress in—

(1) providing adequate protection of U.S. intellectual property rights;

(2) providing American exporters fair market access, including lowering tariffs, removing nontariff barriers, and increasing the purchase of U.S. goods and services; and

(3) ceasing unfair trade practices against the United States which are unreasonable and discriminatory and burdensome and restrict U.S. commerce through a variety of unfair trade practices.

Conference agreement

House recedes with an amendment dropping the detailed list of unfair trade practices (which is retained in the "Findings" section).

(iv) Other

Present law

Public Law 99-183, relating to nuclear cooperation between the U.S. and China, prohibits exports and transfers of U.S. nuclear material, facilities, or components to China unless the President certifies and reports to Congress that China has met certain requirements related to nuclear nonproliferation.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President has made the certification and submitted the report required by Public Law 99-183 on China's nuclear nonproliferation policies.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government is reducing assistance to Cuba, whether in the form of subsidized trade, management of trade balances, or in any other form.

Conference report

House recedes, with an amendment to add statement to policy section that the President should submit the report required by Public Law 99-183 regarding China's nuclear nonproliferation policies. See also description under item 3(b) with respect to weapons proliferation.

Senate recedes on objective relating to Cuba.

4. Presidential Action (Section 3 of Senate Amendment; Section 1(b) of Conference Agreement

Present law

No provision.

House bill

No provision.

Senate amendment

Directs the President to take the following actions:

(1) interact more forcefully with U.S. allies and multilateral lending institutions to restrict technology transfer to China;

(2) encourage members of the Missile Technology Control Regime to set up a working group to develop a common policy concerning China's missile transfers to other countries;

(3) direct the USTR to take appropriate action under section 301;

(4) encourage the UN Human Rights Commission to issue a report on human rights conditions in China, and encourage U.S. allies and the Soviet Union to encourage issuance of such a report; and

(5) take any other action the President deems advisable to achieve the purposes of the Act.

Conference agreement

House recedes with an amendment moving the provision to the "Policy" section, with conforming changes.

5. Termination of MFN Status (Section 5 of Senate Amendment)

Present law

Section 402(c)(3) of the Trade Act of 1974, states that the President may, at any time, terminate by Executive order any waiver granted under that subsection. (In addition, the President may choose not to extend the annual waiver of any country upon expiration of the waiver.)

House bill

No provision.

Senate amendment

Requires termination of China's MFN status no later than July 3, 1992, if the President determines after enactment of this Act that China has transferred to Syria or Iran (1) ballistic missiles or missile launchers for the M-9 or M-11 weapons systems or (2) material equipment, or technology which would contribute significantly to the manufacture of a nuclear explosive device.

Conference agreement

See description under item 3(c).

6. Sanctions by Other Countries (Section 6 of Senate Amendment; Section 4 of Conference Agreement)

Present law

No provision.

House bill

No provision.

Senate amendment

Delays effective date of any denial of China's MFN status pursuant to this Act for a 60-day period, during which time the President is required to undertake efforts to ensure that GATT members take similar action with respect to China.

Conference agreement

House recedes with an amendment, conforming the provision to the timetable in Title IV of the Trade Act of 1974 relating to the President's waiver notice (i.e., 30 days prior to the expiration of the previous waiver).

7. Enforcement of Ban on Imports of Convict-Made Goods (Section 7 of Senate Amendment; Section 5 of Conference Agreement)

Present law

Section 307 of the Tariff Act of 1930 prohibits the importation of goods made by convict or forced labor. Current regulations outline detailed procedures to be followed in enforcing the prohibition.

House bill

No provision.

Senate amendment

Establishes civil penalties for violations of the import prohibition under section 307 of the Tariff Act of 1930 and a procedure for parties to petition the Department of Commerce to enforce such prohibition.

Specifically, requires civil penalties of $10,000 for one violation; $100,000 for two violations; and $1,000,000 for three or more violations. Establishes detailed procedures for prepenalty notice and hearings; and for private petitions by "any public interest group, human rights organization, or entity representing an industry adversely affected by imports of convict-made goods." Provides that the Secretary of the Treasury may prescribe sanctions for abuse of discovery and abuse of process.

Conference agreement

House recedes on provision establishing civil penalties for violations of the import ban, with an amendment adding a "knowing" standard.

Senate recedes on the provision establishing private petition procedures. The conferees note that existing Customs regulations to enforce section 307 (19 CFR 12.42-12.62) establish detailed procedures for petitions from "any person" who has reason to believe that prohibited merchandise is being, or is likely to be, imported into the United States.

8. Report by the President (Section 2 of House Bill; Section 4 of Senate amendments; Section 6 of Conference Agreement)

Present law

Section 402(d) of the Trade Act of 1974 provides that if the President determines that further extension of the waiver authority will substantially promote the objectives of freedom of emigration, he may recommend extension of such authority for successive 12-month periods. Any such recommendation must be accompanied a document transmitted to Congress, setting forth his reasons for recommending extension of the waiver authority, and a statement setting forth his reasons for determining that extension of the waiver will substantially promote Title IV's objectives with respect to a particular country.

House bill

Provides that if the President recommends extension of China's waiver in 1992, he must submit as part of the document required in section 402(d) a report on the extent to which the government of China has implemented the measures listed in section 1(a).

Senate amendment

Similar provision.

Conference agreement

Senate recedes.

9. Definitions (Section 1(b) of House Bill; Section 8 of Senate Amendment; Section 7 of Conference Agreement)

Present law

No provision.

House bill

Provides definitions of a number of terms used in the bill, among which: "the term significant progress means the implementation of measures that will meaningfully reduce, or lead to the termination of, the repressive practices identified under item 3."

Senate amendment

Similar provision. However, it defines significant progress as "specific actions taken to achieve the objectives stated" under item 3.

Conference agreement

The conferees agree generally to merge the House and Senate definitions, with conforming amendments. However, the Senate recedes on the definition of "significant progress."

From the Committee on Ways and Means:
DAN ROSTENKOWSKI,
SAM GIBBONS,
ED JENKINS,
THOMAS J. DOWNEY,
DONALD J. PEASE,
From the Committee on Foreign Affairs:
DANTE B. FASCELL,
STEPHEN J. SOLARZ,
Managers on the Part of the House.

From the Committee on Finance:
LLOYD BENTSEN,
DANIEL PATRICK MOYNIHAN,
GEORGE J. MITCHELL,
BOB PACKWOOD,
Managers on the Part of the Senate.

Mr. ROSTENKOWSKI. Mr. Speaker, pursuant to House Resolution 307, I call up the conference report on the bill (H.R. 2212) regarding the extension of most-favored-nation to the products of the People's Republic of China, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to order of the House of today, Tuesday, November 26, 1991, the conference report is considered as having been read.

The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 30 minutes, and the gentleman from Illinois [Mr. CRANE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the conference report on H.R. 2212.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was not objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the conference report on H.R. 2212, relating to the extension of China's most-favored-nation [MFN] status, is the culmination of months of hard work and tireless effort on the part of a number of Members of Congress. However, I particularly want to commend Congresswoman NANCY PELOSI for the dedicated efforts that she has devoted to keeping the issue of human rights in China squarely before us. The fact that we are here today considering this conference report is due in large measure to her efforts.

H.R. 2212 passed the House on July 10, 1991, with a number of amendments relating to human rights and weapons proliferation. The Senate passed the bill on July 23, with additional amendments, relating not only to human rights and weapons proliferation, but also to trade and other matters.

The conference report on H.R. 2212, in general, merges the two bills, with amendments. It provides that the President may not recommend the continuation of a Jackson-Vanik waiver for China in 1992, unless he reports that China has met two objectives relating to the accounting for, and release of, citizens detained, accused, or sentenced after the June 1989 Tiananmen Square incident. It also provides that the waiver may not be extended unless the President reports that China has made overall significant progress in a number of objectives relating to human rights, trade, and weapons proliferation.

Mr. Speaker, although I had a number of reservations about the bill as it passed the House and Senate, I support the conference report today. The Chinese Government does not seem to have gotten the message which the United States Congress has been trying to send loud and clear—that the American people expect the Chinese leaders to live up to a much higher standard of behavior toward their own people and the security concerns of other countries than they have exhibited to date. Adoption of the conference report on H.R. 2212 should leave no doubt in the minds of China's leaders as to where the American people and their elected representatives stand. I urge my colleagues to join me in support of the conference report.

Mr. Speaker, I reserve the balance of my time.

Mr. CRANE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in opposition to the conference report on H.R. 2212. I would like at the outset, however, to pay tribute to our distinguished colleague from California [Ms. PELOSI] for what I deem intentions that are an expression of the sentiments of the overwhelming majority, probably 99.9 percent, of the American people. The gentlewoman is concerned, and properly so, about the condition human rights for minorities in China, she is concerned about issues of arms proliferation, and she would like to see a significant change in the move in direction that more truly reflects the values that we mutually share.

However, I must say that I have serious reservations as to whether doing it in this manner, where you dictate specific terms and in effect back the rulers of the People's Republic of China into a corner and expect them to make concessions, is a way to accomplish the goal.

The Chinese are very proud people. In fact, the Oriental nations are comprised of very proud people.

I remember one time when we were negotiating with some of the Japanese Government officials back in 1981, in terms of seeking to get concessions from them. We were tutored on the eve of each one of those meetings as to how to diplomatically put our proposals on the table, let them mull them over, sleep on it for a night, come back the next day, and move another inch or two in the direction of our goals. It took us the better part of a week before finally the representatives of the Japanese Government said they had listened to our arguments, they found them persuasive, and they accepted our positions.

Mr. Speaker, that was a diplomatic process that runs contrary to our tendency to just lock horns and wrestle across the table and insist that before sundown, or before the crack of dawn, we are going to get the concessions we would like to see.

Mr. Speaker, the administration has been maintaining multilevels of negotiations with the Chinese Government to effect reforms in areas other than trade, but trade is one of those where we are locked into a confrontation with them right now on intellectual property rights, and it does not look good.

□ 2000

We have the capacity under existing law to effect some kind of retaliatory action, and the administration is going to speak to this point tomorrow. But what I submit to my colleagues is that if these conditions are viewed as demands by the Chinese Government that they do not feel they are capable of capitulating to without losing face, where are we?

The fact of the matter is, we have other nations in this world, in fact, major trading partners of our own that are engaged in routine trade. They tender the equivalent of most-favored-nation treatment to China and simultaneously make no effort whatsoever to effect meaningful reforms in the areas that the gentlewoman from California [Ms. PELOSI] wants to address.

In other words, it is make a buck, get in, get out. We are, I think, the only Nation that has endeavored to try and effect these kinds of reforms. And the only way in which I take issue with the gentleman from California is whether what we are doing is designed to accomplish that objective. I fear quite the contrary, that if they view this as out of the question and slam the door in our faces, as a consequence of that, when we have had this escalating trade, and I think we are now, they are our 10th largest trading partner. And there is a lot of American investment going on in southern China. There is, in addition, by their probably worst enemy in their own perception, namely the Republic of China on Taiwan, they are investing finally and providing jobs and improvement of the economic condition in China.

What if the door is slammed in our face as a consequence of this? What have we accomplished? Did we help the students? Did we cause a deterrence from further commission of this sin that they perpetrated in Tiananmen Square? We enhanced our negotiating condition in terms of trying to get an end to nuclear arms proliferation?

I would argue that quite the contrary, we are putting these same people at risk because the rulers in that country have nothing to worry about. No one is in a position to overthrow them.

They control the guns. They control the Government. And so they go on and only the people suffer.

In addition to that, I would argue that there is a risk involved in this affecting Hong Kong. As we know, in 1997, Hong Kong will, under the agreement between Great Britain and China, be transferred back to the government of the mainland. And when we were over there on a trip that was referred to earlier this summer, there was suddenly a shift in outlook on the part of business people in Hong Kong who initially figured they are going to sell it off and throw it out and sink it or else they were going to incorporate Hong Kong into a slave state. And they concluded that is changing, that there are meaningful reforms that are taking place on the mainland that are positive.

As a result of that, they had a hopeful outlook. And they said this had occurred just within the last 12 months. And primarily because of the business ties and connections especially in southern China.

As the gentleman who spoke about that trip earlier mentioned, what we saw in Beijing, what we saw in Shanghai was mindboggling. We saw all kinds of billboards advertising products in English and Chinese. We saw happy, flourishing people. We saw all the young people in Western attire. We saw kids with English logos on all their T-shirts. We saw a distinct absence of any military presence except for an occasional guard at a government building.

In addition to that, in the middle of the week we visited the Great Wall of China. There were easily a quarter of a million people that we could see there, 99 percent of whom were Chinese, fathers, mothers, children. And we saw hucksters with their little temporary shops peddling goods and wares to the Chinese as well as to Americans.

We went to Shanghai and went down streets that would just boggle the mind where there was shop after shop after shop lining both sides of the street and considerable business activity going on in daylight hours, even a florist shop doing business. We do not find florist shops thriving in impoverished countries.

But this level of economic activity by entrepreneurs, not time clock punchers, these are people that had to make the distinction between gross and net income. These are people who had to understand marketing skills. People who had to understand servicing products. There people had an understanding of free enterprise.

And this Communist representative sitting next to me on the bus, I reminded her that they believe in a command autonomy in communism, and we are the champions of free enterprise in this world, right? I said we can afford to send some people over here and learn from your entrepreneurs on both sides of the street.

What I am saying is the situation is not hopeless but I am arguing is that with this well-intentioned effort on the part of the gentlewoman from California, we run the risk of cutting off our contacts. We run the risk of terminating forthwith the positive influence that we have exerted and we alone have exerted on mainland China.

To be sure, none of us will forget Tiananmen Square and to be sure come next December 7, none of us will forget Pearl Harbor. But on the other hand, there has been progress made, not as great as we would like to see by any manner of means, but I would suggest that we run the very real risk, if we adopt this measure, which the President has indicated he will veto for the same reasons I am advancing, if we terminate this contact, we run the risk of inflicting even greater injury on the very people we want to help.

For that reason, I urge my colleagues to vote no on H.R. 2212.

Mr. Speaker, I rise in strong opposition to the conference report on H.R. 2212. Let there be no mistake. These provisions would end U.S. economic ties to China and plunge this strategically important country into isolationism and economic stagnation. The President has vowed to veto it.

The United States would no longer be able to employ its influence to improve human rights and ensure political freedoms in China, and to preserve democracy and economic independence in Hong Kong. A normalized trade relationship, highlighted by MFN, is essential if we are to reform Chinese policies, both by example and by political and economic leverage. Trade must exist for this strategy to be successful.

This bill is replete with lofty goals and good intentions.

Congress understandably wants to end repression, guarantee human rights, resolve all trade problems and eliminate nuclear proliferation with the stroke of a pen. However, I think we all know how unrealistic this legislation is. We understand the President is right to want to stay engaged in dialog with the Chinese.

This very day, we are engaged in tough negotiations with China on specific trade problems.

So far China has not been responsive on intellectual property rights, and the United States will retaliate in a precise and effective way. The retaliation list will be announced tomorrow.

We should not throw everything out the window with a bill like H.R. 2212. No dialog means no solutions.

The actions of the current Chinese leadership against their own people are abhorrent and painful to contemplate.

The world is outraged at the notorious events in Tiananmen Square. However, these repressive policies will not be transformed by legislation that undermines our President and sacrifices American economic interests.

The President has demonstrated strength of will and purpose in dealing with the complicated foreign policy and economic interests of the United States in China.

For that, he is admired throughout the world. I believe Americans are proud of the leadership role of the United States in defending democracy and individual freedoms.

This bill will save no student from prison and no dissident from censure. Our disengagement will only make their fate more uncertain and shrouded in secrecy. Normalized trade relations are an essential tool for the President in crafting an effective China policy that will result in meaningful reforms.

Mr. Speaker, I urge my colleagues to vote "no" on the conference report to accompany H.R. 2212.

Mr. Speaker, I reserve the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 6 minutes to the gentlewoman from California [Ms. PELOSI], pointing out that the gentlewoman from California did a tremendous amount of work and, a great deal of credit for considering this legislation at this point in time is due to her efforts.

Ms. PELOSI. Mr. Speaker, I thank the chairman for making this opportunity possible for us to bring this legislation to the floor today. He is indeed generous with his remarks, but he is also indeed responsible for us having reached, to be able to reach this compromise.

Many people on the floor said to me today, I want a tougher bill, or I do not want any bill at all. But that is what this is, it is a compromise which I believe reflects the concerns of this body but achieves some doable clear and concise conditions of which China can easily understand in order to receive renewal of most-favored-nation status next year.

I want to also thank the gentleman from Florida [Mr. GIBBONS], the gentleman from New York [Mr. SOLARZ], the gentleman from Ohio [Mr. PEASE], who spoke during rule when the gentleman from Illinois [Mr. ROSTENKOWSKI], brought us all together to begin the forging of a compromise.

I want to thank the gentleman from New York [Mr. SOLOMON], and the gentleman from Massachusetts, [Mr. MOAKLEY], for helping us; the gentleman from Texas [Mr. FROST] for getting the rule to come to the floor so quickly and so many Members on both sides of the aisle who worked so hard, the gentleman from New York [Mr. GILMAN], many of the Members are present and will speak to this.

I would also like, before proceeding, to thank Rob Leonard, Joanna, Shelton, and George Wise of the committee and subcommittee staff and my own staff person, Craig Middleton, for all of their hard work because it has been indeed months that we have been working on this. So to the chairman and the ranking member, the committee and the subcommittee, the staff, I thank them all very much. By persevering with this and not letting this legislation be forgotten, we are sending a clear message that those prisoners who were arrested for peacefully demonstrating in Tiananmen Square are not forgotten by this body as well.

Others have mentioned some of the concerns that are addressed in this legislation. The conditions address three areas of concern: human rights, trade, and nuclear proliferation. Much has been written and said about the repressive policies of the Chinese regime in regard to freedom of speech, religion and press. We were stunned by the massacre in Tiananmen Square 2½ years ago and continue to deplore the ongoing arrest and detention because of the practice of religion, the violations of freedom of the press and jamming of Voice of America.

Americans have heard this over and over. It is well-documented by Asia Watch and Amnesty International and indeed included in the findings in this conference report. Many of us have addressed this issue on the floor before. Improvement of human rights and basic freedoms were the conditions for our original bill.

However, actions taken by the Chinese Government have caused Members of the House and Senate to insist that language regarding nuclear proliferation and violations of our trade relationship be included in this bill. I do not agree that there have been great improvements made as far as the Chinese Government is concerned.

So in addition to principle, there are some very practical reasons, Mr. Speaker, why we ask our colleagues to support conditional renewal.

□ 2010

As we develop working relations with China we must, I believe, insist that our relationship make the political situation there freer, the world safer, and the trade fairer to American workers. That is why this legislation is important to our constituents.

Since 1989, the Chinese Government has blatantly violated our trade relationship by refusing to remove barriers to our products in China. As a result we have a growing trade deficit—$6 billion in 1989, $9 billion in 1990, and a projected $15 billion for 1991—$30 billion since 1989, nearly all of it since Tiananmen Square.

In addition, American workers are placed at a disadvantage by having to compete costwise with prison labor. The use of transshipments also hurts American workers. This is the process by which fake labels are placed on products or put onto products to indicate that they come from someplace other than China in order to circumvent our import quotas.

This legislation, this conference report, also addresses violation of our copyright and intellectual property rights by the Chinese. We have just heard that the trade representative is going to take action because they have failed to address the situation adequately.

Mr. Speaker, in almost every way the Chinese have violated our trade relationship.

Next, I would like to move on, in the interest of time, to the issue of China's role in nuclear proliferation. In a year when we went to war because of Saddam Hussein's development of nuclear weapons, it is clear that this is an overriding concern to the American people. The conference report clarifies the nuclear proliferation condition by requiring that most-favored-nation status not be granted in 1992, if China sells missiles to Syria or Iran. China must also assure that it will not sell nuclear weapons to nonnuclear states, unsafeguarded states, and will abide by the missile technology control regime.

I commend the Chairman for forging this compromise, because I believe it has resulted in an excellent conference report that is clear, concise, focused—a true instrument for leverage. We do not want to break off the relationship with China or isolate China, so we do want to relate to them based on principle and the practical aspects of our fairness to American workers and making the world safer.

So I think that this bill is not only good for our relationship with China but will stand the scrutiny of being legislation that says in our bilateral relationships we should have terms that make the world safer by addressing nuclear proliferation, that makes trade fairer by being fairer to American workers, instead of clobbering them with the violations that the Chinese have, and by making the world freer by allowing a free discourse on issues in all countries in the world.

I am proud that we are taking up this issue today. I thank all the Members, Democrat and Republican alike, for their assistance in this.

Mrs. KENNELLY. Mr. Speaker, I yield 1 minute to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I voted against the original bill but I did so because of my concern over the sale of agricultural products to China. But over the past few months, particularly after talking with my colleague, the gentlewoman from California, [Ms. PELOSI], I have had some serious misgivings and reflections.

In the case of Iraq, it was my amendment to the farm bill a year ago that cut off agricultural sale because of their human rights violations. In the case of the USSR I fought against the renewal of Jackson-Vanik and MFN until their human rights policy changed. The same with El Salvador.

So would China, with an abysmal human rights policy and nuclear proliferation problems, be different? Should it be spared from a uniquely American effort to modify the way it treats its own citizens? I think not.

This conference report is better than the original bill on the merits and it is easier to support on that basis, but I support it because it is right and it may just increase the prospects for freedom in China.

Mr. CRANE. Mr. Speaker, I yield 3 minutes to our distinguished colleague the gentleman from Michigan [Mr. BROOMFIELD].

Mr. BROOMFIELD. Mr. Speaker, despite the efforts of the administration, China has continued to violate the norms of international behavior. Some progress has been made in restraining the actions of the Chinese Government, but China still threatens to become the world's largest outlaw state.

We have all seen what mischief can result when even a smaller country like Iraq flouts the principles of acceptable international behavior. Through its policies on human rights, exports of military technology, and trade China threatens the stability of the entire world order.

The world was shocked and stunned when the Chinese Government, in June 1989, turned the guns of the military against peaceful protesters. Since then we have watched in horror as repression continued. And we have been disappointed again and again by the failure of the Chinese to address the fundamental issues in United States-China relations.

We can never close our eyes to what the Chinese Government did at Tiananmen Square. Nor can we, however, afford to close the doors entirely to China.

Despite our repugnance for its government, we must continue if at all possible to engage the Chinese Government and try to aid the Chinese people. The best way to promote political change in China is to continue cooperating toward steady economic growth.

The conference report absolutely requires—for continued MFN trade status—only that the Chinese Government address the unresolved human rights issues associated with the Tiananmen Square massacre and its aftermath. On other major issues it requires only "overall significant progress." With respect to missile or nuclear proliferation the only absolute condition is that China not transfer such technology to Iran or Syria.

Mr. Speaker, the conditions set in this bill can easily be met by the Chinese Government. Indeed, they should be our bottom line in dealing with China.

I believe that this bill contains enough flexibility for the President to use in putting pressure on the Chinese Government to resolve human rights abuses and remedy other violations of generally accepted international norms. The administration, through Secretary Baker's recent trip and other actions, has already done much to address these issues.

Let us hope that our action today will help the administration work to change the policies of the Chinese Government.

Mr. KENNELLY. Mr. Speaker, I yield 1 minute to the gentleman from North Dakota, [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, I appreciate the gentlewoman yielding time to me.

Following on the heels of the discussion of my colleague, the gentleman from Kansas [Mr. GLICKMAN], let me say that this is not an issue of boycott. With respect to those of us who come from grain country, and we are concerned about selling grain around the world, this is not a boycott issue. We are not suggesting shutting off trade with the Chinese. The issue here is do we expect, for the extension of MFN, for the Chinese to meet certain acceptable standards, standards we expect them to meet in the course of human dignity.

□ 2020

The Chinese, frankly, have an enormous trade deficit with us. We have a deficit with them and it is growing radically. It seems to me we ought to expect the People's Republic of China to buy much more grain from us than they now buy.

I support the initiatives of the gentlewoman from California. I think we ought to stand up for something in the country and say that we expect a certain level of behavior coming from that country.

No, I do not want to shut off grain shipments. That is not what the issue is about. The issue is about trying to get the Chinese Government to conform to certain patterns of behavior in exchange for the extension of most-favored-nation status.

Mr. CRANE. Mr. Speaker, I yield 4 minutes to our distinguished colleague, the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. Mr. Speaker, I thank the gentleman for yielding me this time.

As I said before in the debate on the rule, I strongly support this conference report.

Mr. Speaker, at this late hour, and with the politics of the Presidential season now coming upon us, there are many issues that divide us as Democrats and Republicans. However, today there are many other issues that should unite us, and no such issue on which we can all unite is more important than the encouragement and protection of human rights—at home and abroad.

To that end, I believe the conference report on this bill, H.R. 2212, should make a very substantial contribution.

Chairman ROSTENKOWSKI is to be commended for his initiative in putting together a conference report which we can all support on both sides of the aisle. America is always most effective when it speaks with just voice on trade and foreign policy issues. This conference report will enable America's message of support for the suffering people of China to come through loudly and clearly.

And, of course, Mr. Speaker, whenever we consider the plight of the Chinese people, we really have to pay tribute to their champion in this House the gentlewoman from California [Ms. PELOSI], believe me.

Her tenacity in moving this bill forward, and in keeping our attention constantly focused on the needs of the Chinese people, in both the Senate and the House, is an inspiration to us all. It really is to me.

But Mr. Speaker, the Chinese leadership does not seem to get it—it does not seem to understand that membership in the community of nations confers responsibilities along with the privileges that they enjoy from us. The Chinese leadership is always enthused about the privileges, but accepting the responsibilities is another story altogether.

Beijing's continued defiance of every international standard concerning the proliferation of weapons of mass destruction, as well as its continued denial of basic human rights for the Chinese people demands a response from this congress, and we are getting that here today with this bill. The assurances that were supposedly given on these subjects to Secretary Baker 10 days ago just are not enough.

The Chinese leadership has given assurance repeatedly—oftentimes to members of this Chamber from both sides of the aisle. You heard members speak about being there last month, 2 months ago, 3 months ago and the Chinese gave all of us those assurances. But they just do not mean anything.

The Chinese record is filled with broken promises, abusive behavior, and yes, outright lies. But just mention privileges, and the Chinese leadership pushes to the head of the line.

Mr. Speaker, for this year—1991—the Chinese trade surplus against the United States will reach $13 billion, thanks to MFN. Mr. Speaker, we are running a trade deficit with China that is second only to the one we have with Japan. Just think of that.

Mr. Speaker, to run such a deficit with a Government which is undemocratic, which specializes in slave labor for export, and which thumbs its nose at every international norm, is as morally wrong as it is economically idiotic.

Mr. Speaker, many months ago this House passed my resolution to immediately cutoff MFN for China. It passed overwhelmingly, but never got through the other body.

I would have preferred that approach here tonight, but this legislation will send a strong message to the Chinese leadership: Treat people with human decency, or else you are not going to trade with us, with Americans.

Mr. Speaker, I urge unanimous support for the legislation of the gentlewoman from California [Ms. PELOSI]. Please vote for it.

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentleman from Oregon [Mr. AUCOIN].

Mr. AUCOIN. Mr. Speaker, I was deeply offended, as were the Oregonians that I represent, with the indifferent stonewalling treatment that the Chinese gave our Secretary of State when he recently visited China. He merely asked in the name of all Americans for attention to basic human rights, and to this day the Chinese rulers are resisting and are stonewalling.

So I rise in strong support of this conference agreement tonight because it puts the United States of America on the side of human rights, democracy and justice in China. Since the House passed this bill in July there has been no meaningful improvement in the Chinese Government's incarceration of political prisoners, its oppression in Tibet, or its denial of the most basic human rights for its citizens. Instead, we have seen more reports of China's irresponsible readiness to supply nuclear technology and weapons of mass destruction to Iran, to Iraq, to Algeria, and to other such regimes in unstable parts of the world. These actions by China pose a grave threat to world peace.

Now we are told that high-ranking Chinese officials have promised to behave more responsibly in the future.

Well, I say and Oregonians say, promises are not enough. That is why we must pass this conference agreement.

This bill would allow the President to renew most-favored-nation status for China only if China releases pro-democracy demonstrators imprisoned in China and Tibet, does not sell missiles to Syria or Iran, and makes significant progress in improving human rights, preventing nuclear proliferation, removing trade barriers to United States products and ending the export of prison-made goods. It is a good proposal and it deserves our support tonight.

Mrs. KENNELLY. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. ENGEL].

Mr. ENGEL. Mr. Speaker, I thank my friend for yielding me this time.

Mr. Speaker, I, too, was a part of the delegation back in August which visited China. I must say, first of all, that I rise in strong support of the conference report.

What frustrated all of us and my colleague, the gentleman from South Carolina [Mr. RAVENEL] explained it very genuinely on the floor, he and I held a press conference in Benjing expressing our frustration.

The Chinese officials were personally friendly to all of us. They were very gracious hosts and were very nice personally, but when it came to discussing human rights, they did not budge an inch. In fact, it was as if they had prerecorded their answers to us, anticipating what we would say and they could have just as well pushed a button and that would have been the pre-recorded answer; because we certainly did not get any satisfaction to any of the questions that were asked.

When we spoke about human rights, we were told that there were no human rights violations.

When we said we were very concerned about the actions in Tiananmen Square, we were told that they acted very cautiously and prudently in Tiananmen Square. They said that no other nation on this Earth would have allowed the demonstrations to continue and they said that they actually were very restrained in what they did.

It is almost an insult to one's intelligence to receive the kinds of answers we got from the Chinese officials.

When we spoke about Tibet, they told us that the Tibetan people welcomed them with open arms.

When we asked about sales of missiles to Syria, we were stonewalled.

When we asked the Secretary General, the head man in China, to allow us to see one of the prisoners who was jailed in the Tiananmen Square uprising, he told us that he did not have the power to allow us to see dissidents.

It was very, very frustrating. They tell us not to interfere with the internal affairs of China.

I would say that what is going on in China with the human rights abuses is not simply internal affairs, but it is a concern for all the world, certainly a concern for the United States of America.

Yes, it is important to have good relations with China and I would like to see nothing better than for Chinese-United States relations to improve, but not at the price of terrorism, not at the price of people not having freedom, not at the price to allow those brave young men and women who stood in Tiananmen Square and yearned for the same kinds of freedom that we in America yearn for and take for granted, not at the price of selling them out.

We have to stand up and say that we will never allow these human rights abuses to continue with business as usual. We will never allow the tyranny that goes on.

□ 2030

The insult to injury was when Secretary Baker came back last week and was really not given anything at all. It is time this Congress acted. I am pleased to enthusiastically support the conference report.

Mr. CRANE. Mr. Speaker, I yield 3 minutes to our distinguished colleague, the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of the Conference Report on H.R. 2212, legislation to condition renewal of most-favored-nation status to the People's Republic of China [PRC] and I commend the gentlewoman from California [Ms. PELOSI] for her dedicated efforts in support of this measure and Ways and Means Chairman, Mr. ROSTENKOWSKI, for putting together a reasonable compromise measure. The House Foreign Affairs Committee has conducted extensive hearings with regard to China's human rights violations.

Since the Tiananmen Square massacre in 1989, human rights conditions in the PRC have not improved. The PRC government continues to repress any form of prodemocracy sentiments, engages in continuing violations of internationally recognized human rights, uses forced labor on a vast scale to produce exports, and brutally occupies Tibet.

Some of my colleagues have argued that China is an extensively poor country and that we should help it progress by keeping the doors open. Economic progress, we are told, will eventually lead to political pluralism. It is not too difficult to recognize that they have been wrong and that unconditional MFN for China has only served to close the door to progress in both areas. If we truly want a sound economic environment that supports investment, then we should help nurture a democratic form of government in Beijing. By permitting the renewal of unconditional MFN we would be bankrolling the communist regime and perpetuating a fragile political and economic system.

Let me also add that the Communist government ruling the People's Republic of China sells nuclear technology and ballistic missiles to just about any middle eastern tyrant who wants them, nurtures the despicable Khmer Rouge, threatens the emerging democracies in Mongolia, Nepal and Taiwan, undercuts the President's efforts to mount an international campaign to persuade North Korea to halt its nuclear weapons program, and arms the authoritarian rulers of Burma who have placed the latest Nobel prize winner under house arrest and who have oppressed their people.

To understand why China seems so determined to sell arms indiscriminately to practically everyone without regard to the international destabilization it causes, it would help to know a little more about the level of corruption in China's ruling circles. My colleagues should be made aware that we are informed that Deng Xiaoping's son-in-law and the PRC's vice president's son are personally profiting from China's arms sales. They run a company by the name of Polytechnology which is China's leading exporter of arms. Costind, another Chinese arms exporter, is run by the children and spouse of China's military leaders.

If my colleagues really want to see both economic and political progress in China then we need to start pressuring the clans that run, own and enslave it. Accordingly, I urge my colleagues to support the Conference Report on H.R. 2212, which imposes significant conditions on any consideration of most-favored-nation status for the People's Republic of China.

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia [Mr. JONES].

Mr. JONES of Georgia. I thank the gentlewoman for yielding this time to me.

Mr. Speaker, I would also like to thank the gentlewoman from California [Ms. PELOSI] for her leadership on this issue. I have heard her speak in Washington quite eloquently and I have heard her speak in Beijing eloquently. And I think she speaks in the best tradition of the American spirit, but also she has displayed those Chinese traits of patience, perseverance, compassion that make the Chinese people such a great culture.

Mr. Speaker, about 2½ years ago, in June 1989, in Beijing, a young man stood in front of a long column of tanks, and he stopped them, if only momentarily, as the world watched, our imagination captured by his courage.

Tonight, as we deliberate here, in prisons throughout China are hundreds, perhaps thousands of young people who are sitting in prisons, who are looking to us for a sign. They were arrested for doing things that we take for granted, for assembling, for speaking, for speaking freely about their dreams of a democratic China.

The distinguished gentleman from Illinois has talked of face, that Oriental tradition of saving face. I would suggest that it is not just the Marxists, the brutal Marxist dictators who have the Chinese people under their heels that have face, but also the 1.1 billion Chinese people, such as those we speak of in those prisons, who have face and who want to save it.

We can do something about that. We can send a clear message tonight. If you believe that China should release those nonviolent prodemocracy demonstrators from Tiananmen Square and if you believe they should stop the practice of slave labor and prison labor, if you believe they should stop the practice of transshipments, stop the practice of shipping nuclear technology to Syria and Iran, then you should support this resolution.

Mr. CRANE. Mr. Speaker, I yield 2 minutes to our distinguished colleague, the gentleman from Indiana [Mr. BURTON].

I rise in support of the conference report which places conditions on the renewal of most-favored-nation status [MFN] for the People's Republic of China [PRC].

On November 17, 1991, Secretary of State James Baker returned from his 3-day visit to China, the first by a high-ranking United States official since the Tiananmen Square massacre in 1989. The visit brought back memories of President Nixon's trip in 1972. The purpose of each was founded in an effort to mend strained Sino-U.S. relations. The context of the two trips, though, could not have been more different. Efforts to cajole the Chinese into entering strategic partnerships to keep the Soviet Union off balance were not discussed, nor were attempts made to woo the Chinese into the American corner. Rather, the emergence of democracy around the world has placed the U.S. firmly in a position of strength in dealing with China. The content of the meetings last week reflected the shifts: the U.S. consistently demanded change. Meanwhile China is becoming increasingly isolated.

The results of Secretary Baker's trip verify what we already know to be true. One official present at the meetings described the Chinese officials as "recalcitrant"—obstinately defiant. Was there ever any doubt? The Chinese continue to export forced labor products, practice unfair trade policy, and recklessly sell nuclear technology to states such as Pakistan, Syria, Algeria, and now Iran. If this Congress were to step back and observe, I think we would quickly conclude that China is following a well-designed plan to ruin its chances of getting MFN. China remains obstinately defiant.

Today we are considering the conference report which would extend MFN status to China. We have an opportunity to strengthen our position with China, or weaken it. The conference report, if passed, would allow the President to renew MFN for China only if the Chinese Government agrees to a short list of fair and concise conditions.

We have before us an opportunity to help the Chinese people and I encourage my colleagues to send a strong message to China that the United States will no longer tolerate defiance to internationally recognized standards of fundamental human rights.

Mr. BURTON of Indiana. I thank the gentleman for yielding.

Mr. Speaker, 10 million people, 10 million people in prisons, gulags in China, 10 million.

Think about that. That is twice as many people, almost, as there are in the State of Indiana, which I represent. That is more people than there are in the Los Angeles County, one of the biggest counties in the United States. Ten million people suffering under the tyranny of the Communist slave system.

They are providing the slave labor which is making goods that we are buying in this country.

Mr. Speaker, we had a $13 billion trade deficit with them last year. That means we bought $13 billion more in goods then they bought from us. And we do not know about the underground staff that they were sending over here.

It is made by 10 million slave laborers. Now, I do not know how many people saw that "60 Minutes" piece that was on television not long ago, but I watched it twice. They had people going undercover, making deals with people who are in those prisons. Then they would flash over to the people running that government. The people running the governmet said, "No, we don't use any slave labor." Then they would cut back to the guy running the prison and the guy running the prison would say, "Well, yes, we can get you the goods you people want. Our people will make them." Any they said, "Well, what about the the quality? Now are we going to guarantee that?" And the guys running the prison said, "Well, if they don't produce quality goods, we will beat them, we will torture them," and they said that on national television here in the United States, and we saw it time and again.

And yet, we still do business with these guys.

It is my opinion if we really believe in democracy, freedom and human rights, we will send a message to the Communist Government of China that we are not going to do business with them if they continue this attitude and continue using people as slave laborers.

We saw the manifestations of their attitude when they ground those young people who wanted freedom and democracy in Tiananmen Square into dog meat with their tanks. Yet, we still do business with them.

I want to congratulate the gentlewoman from California [Ms. PELOSI]. She has done yeoman service for this body, for the country and for the people who are fighting for freedom and democracy in China.

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentlewoman from Washington [Mrs. UNSOELD].

Mrs. UNSOELD. Mr. Speaker, I commend the chairman, the committee and the very persistent gentlewoman from California [Ms. PELOSI].

This conference report sends the right message at the right time. It tells China, that America will not stand idly by while an isolated leadership tramples on human rights and peddles dangerous military technologies.

All of us applauded the recent release of hostages in Lebanon. But what about the hundreds of hostages languishing in Chinese prisons, facing deprivation, forced labor, and torture? The only crime these people committed was to demonstrate principle and courage. Are we going to remain silent in the face of their suffering?

The Chinese Government calculates that they can violate any internationally held norm of decency and the United States will do nothing. They believe they can sell missiles and nuclear technology to anyone who will pay—and the U.S. will do nothing. They believe they can keep their markets closed to most U.S. exports—(adding $15 billion to the U.S. trade deficit this year alone), and the U.S. will do nothing.

□ 2040

Mr. Speaker, our vote today will send a clear and simple message to Beijing: "Don't be so smug. Don't assume the United States will turn a blind eye while you trample upon rights which we hold sacred and upon which our Nation was founded." These are rights for which Chinese men and women and Tibetan men and women have gone to prison for and died for. It is time for all of us in Congress to stand up with them in their struggle for freedom.

Mr. Speaker, we can do so tonight with our vote.

Mr. CRANE. Mr. Speaker, I yield 3 minutes to our distinguished colleague from Virginia [Mr. WOLF].

Mr. WOLF. Mr. Speaker, I want to begin by paying tribute to the gentlewoman from California [Ms. PELOSI] for her efforts, and I know, as a result of this bill tonight, people will be released from prison.

The two points that I would like to cover is, first, when I was there several months ago with Congressman CHRIS SMITH, we visited Beijing Prison No. 1. There were 41 or 42 Tiananmen Square demonstrators who were in the prison for speaking out for democracy. It was a cold day, about 25 degrees and snowing, and the prison was absolutely freezing. They were working on manufacturing socks and plastic shoes called jelly shoes for export around the world in competition with textile manufacturers in South Carolina, and North Carolina, and New England and around this country.

For those men who are in prison tonight this passage of this bill by an overwhelming vote will be so important.

Second, Mr. Speaker, many Members, when we went to Beijing, signed a letter to Li Peng asking that they release those who are in prison for religious freedom. There are 70 priests, ministers, and bishops who are in prison, some up to 32 years, that have not been out of prison for 32 years. The passage of this legislation by an overwhelming vote I believe will open up the prison doors and allow those bishops, and priests and ministers to leave.

Thirdly, for those of my colleagues on my side who voted no the last time I say, "You can vote yes this time. This is a much more watered-down bill. It is a bill that perhaps can even be signed by the President. But your vote makes a difference tonight, and I want to tell you why."

As we met with the families of those people, they told us that, when the Congress acts, and Voice of America then records what happens in this body, it makes a difference. So, tomorrow night, when they are listening with their little crystal sets somewhere in Beijing, or wherever they are, and know that the United States Congress stood with the Chinese people, it will make a difference.

So, Mr. Speaker, I strongly urge those on my side who voted no before on the other bill to please vote yes on this bill to open up the prisons, to let the bishops, and the priests, and the rabbis out, to prohibit the export of slave-labor-made goods into the United States and send a message that we care.

I say to the gentlewoman from California, "Ms. PELOSI, I want to again take may hat off to you and what you're doing here tonight. I know it will make a tremendous difference in the lives of so many people."

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Speaker, I thank the gentlewoman from Connecticut [Mrs. KENNELLY] for yielding this time to me.

Mr. Speaker, I want to join my colleague on the Helsinki Commission, the gentleman from Virginia [Mr. WOLF], who is such a strong fighter for human rights, both within the Helsinki process and around the world. I also want to join him in congratulating the gentlewoman from California [Ms. PELOSI]. Rarely does a single Member make such an impact on an issue as she has done.

The Universal Declaration of Human Rights that the United Nations promulgated said that there was a certain standard that we would expect human beings to be treated by all nations. Subsequently, the United States, the Soviet Union, and 33 other nations signed the Helsinki Final Act, again reiterating a commitment to a certain level of standards for the treatment of human beings by governments. The United States was in the leadership of raising the issue time, after time, after time that the Soviet Union and the other Eastern European nations were not in fact, according to human beings, at that level to which they had agreed. They protested repeatedly year in and year out that those issues were the internal affairs of those nations. We rejected that premise. Instead the United States and most of the Western world adopted the premise that the well-being of any individual human being was the concern of the international community and that there were certain international standards which we would expect those with whom we did business, either politically, or socially, or culturally, in whatever way, would meet those standards. It was not, frankly, just until a few years ago that the Soviet Union, and with the freedom of the Eastern European nations, that the premise of international affairs justifying mistreatment and human abuse was banned.

Mr. Speaker, this bill says the United States will expect certain levels of performance from those with whom we do business. It is the right thing to do. It ought to be adopted unanimously. I urge my colleagues, each and every one, to strongly support this legislation.

Mr. CRANE. Mr. Speaker, I yield 2 minutes to our distinguished colleague from California [Mr. ROHRABACHER].

Mr. ROHRABACHER. Mr. Speaker, we are not asking that the Communist regime in China be perfect, but we do expect that any regime that has most-favored-nation status at least be evolving in the right direction. The Communist regime is not only tyrannical, not only does it have hands that are dripping with blood of those who are struggling for democracy, but it is not getting any better. It is not going in the right direction.

This administration begged us not to threaten China's most-favored-nation status. Now the boneheads at the State Department act surprised when the gangsters in Peking tell Secretary Jim Baker to shove off and to get our noses out of their business. Well, Mr. Speaker, the butchers of Tiananmen Square are thumbing their nose. They are laughing at us while profiting from a trade policy that should be reserved for free countries.

I believe in free trade. Our goal should be free trade between free people. It is an absolute abomination that products made by slave labor are making their way onto the shelves of America's markets.

Let us set conditions on giving most-favored-nation status to the Communist regime in China. They can still think of us as ugly Americans, but at least they will not think of us as dumb Americans. If we want to get their attention, let us start turning a smiling face toward Taiwan, where they have made great progress in democracy, but, most importantly, let us make it clear to the Communist regime and those struggling for freedom whose side America is on. If there is any question in anybody's mind whose side we are on, something is dreadfully wrong. The legislation of the gentlewoman from California [Ms. PELOSI] will help correct that and make it clear that America is still the land of the free and the home of the brave, the last and best hope for all of mankind.

Mrs. KENNELLY. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. SOLARZ].

Mr. SOLARZ. Mr. Speaker, when the President asked the Congress to renew most-favored-nation tariff status for China, the challenge we faced was to fashion a response which would make it clear both to the people and to the leaders of China that the United States was on the side of democracy rather than dictatorship, of reform rather than repression, but which was also designed to enhance, rather than diminish, the prospects for democracy and human rights in China.

□ 2050

Basically, we had three options. First, we could have unconditionally renewed MFN, as the President wanted us to do, on the theory that this would enable us to better persuade the leaders of China to make the kind of changes and reforms we sought. But I would suggest that a policy of constructive engagement vis-a-vis China is no more likely to succeed than was the policy of constructure engagement vis-a-vis South Africa.

Unless the Chinese leaders know that there is a price to be paid, in the absence of their willingness to address our concerns, there can be little hope for any real progress in the PRC.

The second option was to reject MFN for China entirely. But however emotionally satisfying such a response would have been, I suggest that it would have also been counterproductive. It would not have brought the gerontocracy which had seized power in Bejing to its knees. It would have more likely resulted in a decision on the part of the Chinese leaders to crack down than to open up, and this would have badly hurt Hong Kong, in whose economic vitality we have a significant national interest.

The third option was to make the renewal of MFN conditional, as we do in this conference report, on overall progress toward the achievement of our objectives in the area of human rights, economic relations, and the proliferation of weapons of mass destruction.

This conference report gives the President enormous flexibility. It does not require perfection, but it does require progress, and I think the gentlewoman from California [Ms. PELOSI], together with the chairman of the committee, the gentleman from Illinois [Mr. ROSTENKOWSKI], and the distinguished ranking minority member, all deserve enormous credit for fashioning a formula which is truly responsible. It encourages the Chinese leaders to move in the right direction. It gives the President ample flexibility in implementing the legislation.

Mr. Speaker, I not only urge its adoption by the House but I urge the President to sign it because I truly believe this is the best way to say to the people of China that we are on the side of democracy, while encouraging the Chinese leaders to move in that direction.

Mr. CRANE. Mr. Speaker, I yield two minutes to our distinguished colleague, the gentleman from New Jersey [Mr. SMITH].

Mr. SMITH of New Jersey. Mr. Speaker, I thank my friend, the gentleman from Illinois, for yielding time to me.

Mr. Speaker, I rise in support of the conference report conditioning MFN for the People's Republic of China.

Mr. Speaker, the legislation before us permits the President to renew MFN for the PRC provided the Chinese Government:

Releases nonviolent prodemocracy demonstrators imprisoned during and after the Tiananmen Square incident;

Does not sell missiles to Syria or Iran; and

Makes overall significant progress in each of the following three categories:

Human rights: Allowing human rights monitoring groups access to prisoners, ceasing the jamming of Voice of America, ending restrictions on freedom of religion, speech, press and assembly in China and Tibet.

Nuclear proliferation: Assuring that it will not sell nuclear weapons technology to non-nuclear states and will abide by guidelines of the Missile Technology Control Regime, MTCR.

Trade: Removing barriers to United States products entering Chinese markets, ending the export of prison-made goods, stopping violations of intellectual property rights, ending the use of transshipments to evade U.S. import quotas.

In late March, Mr. Speaker, Congressman FRANK WOLF and I spent the better part of a week in Beijing and Shanghai to promote human rights as part of an ongoing human rights effort.

We talked and argued with several government officials and visited Beijing Prison No. 1, a prison that unjustly incarcerates at least 40 political prisoners. We also met with Premier Li Peng and made a strong case—face to face—for human rights with the Chinese leader.

We told Li Peng that all Americans—including the President and Congress—continue to be outraged concerning the brutality by Chinese troops in Tiananmen Square. We urged the immediate release of all political prisoners.

The conference report I am pleased to point out appropriately uses our economic clout to encourage the release of these brave souls.

We raised the issue of convict labor and told Li Peng that products made by inmates—especially political prisoners—are absolutely unwelcomed on our shores and in our markets. The conference report includes language to address this concern.

We asked Li Peng to take steps to reverse the current crackdown on religious freedom. The evidence clearly suggests an all-out assault on people of faith is underway in China. Mr. WOLF presented Li Peng a list of 78 known prisoners of conscience—men and women who languish in gulags solely because of their religious beliefs. The conference report accommodates this concern for which I am grateful.

Finally, we expressed our outrage over the systematic exploitation of women and children—the family—who suffer terribly as a direct result of the PRC's brutal one child per couple policy with its heavy reliance on forced abortion and forced sterilization.

On two occasions this House has condemned this violation of women's rights and children's rights as "crimes against humanity." We have also withheld funds to the U.N. Population Fund for its support and comanagement of coercive abortion. But these modest steps need to be augmented by additional action. This conference report fails on that score.

Mr. Speaker, since 1979, it is estimated that over 120 million babies have been slaughtered by the state—approximately 90 percent of these abortions being the result of coercion. Forced abortion—coercive population control—is a horrible crime against women and babies.

Thus, while I support this compromise conference report, it deeply saddens the heart that the anti-coercion language adopted by this House when the bill was originally considered was dropped in conference.

Chinese women and children deserve better than that.

Mr. CRANE. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from Washington [Mr. MILLER].

Mr. MILLER of Washington. Mr. Speaker, I see so many of my colleagues here who have worked so hard on this issue, including the gentlewoman from California [Ms. PELOSI] and the gentleman from Georgia [Mr. JONES], with whom I traveled to China just a short time ago to discuss this subject of human rights.

People listening to this debate must be wondering, why are we so exorcised about this Chinese Government? Well, this is a government that sends missiles to make trouble in the Middle East. This is a government that sends prison-made goods into our country to compete with goods made by our own labor. This is a government that sends its own people to prison for worshiping God and for speaking out for political freedom.

Now we have a chance to send this Chinese Government a message, and the message is this: that access on favorable terms to the United States market depends in the future on the Chinese Government stopping this conduct and obeying the norms that civilized nations follow.

Mr. Speaker, I am from a trade-dependent area in Washington State. My constituents, however, understand that we cannot ignore what is going on in China. We understand, sure, that in the short run we may risk losing trade by this measure, but we understand that in the longrun there will be more trade and investment in a world where human rights are honored and not ignored.

Mr. Speaker, let us pass this conference report.

Mrs. KENNELLY. Mr. Speaker, I yield 1 minute to the gentleman from Connecticut [Mr. GEJDENSON].

Mr. GEJDENSON. Mr. Speaker, this is really the least that we can do. This is the world's leading democratic government. This is the country that set the standard for the world for human rights and civil liberties, and there should not be one standard for Europeans and one standard for the rest of the world.

The courage of those young people at Tiananmen Square crushed by the Chinese tanks ought not be forgotten. Whether they labor today in prisons to manufacture goods shipped to the United States or whether the entire society with its lack of freedom is the issue, this country's voice ought to be loud and clear, and it gives me great pride that on this issue there is a bipartisan effort within this House to condemn the actions of the Chinese Government and to take a far stronger stand than our own administration has been willing to take.

Mr. Speaker, I would particularly like to commend the gentlewoman from California [Ms. PELOSI] and all the others on both sides of the aisle, including the gentleman from Washington [Mr. MILLER] and the gentleman from Georgia [Mr. JONES], who have led this effort to make sure that America stands on the side of those who are oppressed and not on the side of the oppressors.

Mrs. KENNELLY. Mr. Speaker, I yield back the balance of my time.

Mr. CRANE. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I have heard that the Chinese are proud. The Asian-American is proud. He has helped to build this country. The families have stressed education in the home, and they teach that if you work hard, you can make it in this country.

These are the same Asian-Americans who have asked us to support conditional renewal of MFN. We need to send a strong message. We support a norm of international behavior that the Chinese will not adhere to. This is a message that life, liberty, and the pursuit of happiness is part of our new world order.

☐ 2100

Yes, if they call if face, if they call it arrogance and they spurn the United States' offer, so be it. There are many countries that want our trade.

Hal Lindsey in "The Lake Great Planet Earth" gives us an inside look at future China. Support conditional renewal of MFN for a safer world, for a better world, and thank the gentleman from Illinois [Mr. ROSTENKOWSKI] and the gentlewoman from California [Ms. PELOSI] for this legislation.

Mr. CRANE. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I rise in support of the conference report on H.R. 2212, most-favored-nations status for China.

Mr. Speaker, I will not repeat all that has been so eloquently stated by my colleagues about human rights abuses in China, slave labor, near genocide in Tibet and arms sales to terrorist nations.

I do want to add to the charges against the brutal Communist dictators of China one that is seldom mentioned—probably even little known. That is the cruel actions it has taken against the Mongolian people of Inner Mongolia.

The Mongolian people of what used to be called Inner Mongolia, just to the south of the Mongolian Republic have been deliberately subjected to extremely cruel treatment, and because of the sending of thousands of ethnic Chinese to the area, are now a minority in their own land.

Mr. Speaker, in August, as the Chairman of the National Republican Institute, I led a delegation to the Mongolian Republic, the second country in the world to become Communist, the first Communist country in Asia to throw out a Communist government, to see if we could be of assistance in the move toward democracy.

While we were there, we met dissidents who had escaped from imprisonment in Inner Mongolia and fled to Mongolia. Their crime? To say that they would like to have democracy as well.

Mr. Speaker, I want to join in commending Ms. PELOSI, who certainly has been the leader in this fight.

Mr. SCHULZE. Mr. Speaker, I rise in support of the conference report to H.R. 2212.

As I and many of my colleagues have noted during this and last year's debate on whether to extend most-favored-nation trading status to China, that country's emigration and human rights policies clearly have worsened since the brutal massacre at Tiananmen Square. Further, China is steadily adding to its nearly $15 billion trade surplus with the United States through the use of cheap prison labor.

No mystery are they, the worsening conditions within China have been confirmed by several organizations: Amnesty International, ASIA's Watch, the Library of Congress and, even our very own Department of State.

Given that China's emigration policy is not in compliance with title 4 of the Trade Act of 1974, I have argued strenuously that this Nation is not legally entitled to the preferential tariff rates accorded under the MFN program.

For this reason, I and some very committed colleagues—including Messrs. SOLOMON, MARKEY and ROSE—have led a 2-year effort to terminate China's MFN status. In fact, in 1980, I was just as vehement in my opposition to President Carter's recommendation that China be granted MFN treatment in the first place.

Regrettably, over the past decade, the State Department has argued just as strenuously that a policy of appeasement—as opposed to the more heavy-handed approach preferred by most of us—is the way to yield positive change in China. This policy failed in the 1980's, and it will continue to fail in the 1990's. Chinese leaders neither respect nor respond to the carrot approach. Indeed, they arrogantly chew up the carrots and spit them in the faces of those who naively offer them. It is time to wield a stick!

I regret being in the position in which I find myself today. Whether I vote for or against the legislation before us, China still receives most-favored-nation status—and that truly disgusts me!

However, I commend the gentlelady from California, Ms. PELOSI, for her tireless efforts in bringing this conference report to the floor. At this stage, H.R. 2212 represents the strongest message we can sent to the Chinese leaders, and it and its author deserve our strong support.

Mr. LANCASTER. I speak today in full support of the conference report on H.R. 2212, which would allow the President to renew MFN for China only if the Chinese Government does three things: Releases imprisoned pro-democracy demonstrators held in China and Tibet; stops selling missiles to Syria or Iran; and makes "significant progress" in improving human rights, stemming nuclear proliferation, and practicing equitable trade policy.

Each of those provisions is completely defensible in its own right. In combination they represent a package worthy of strong bipartisan support.

The Chinese Government battles words with tanks. The Chinese Government denies its citizens the most basic of human rights. The Chinese Government abides by its own rules as it contributes to nuclear proliferation while most civilized countries work to stem such activity. The Chinese Government enjoys a growing multibillion-dollar trade surplus with the United States as it denies entry of United States products into its own markets. And the Chinese Government remains confident that the United States will continue to extend MFN to China irrespective of its ignoble practices and policies.

It is time for the United States Congress to speak with a loud and unified voice in telling the Chinese Government they are very much mistaken. We will not reward their shameful ways with preferential trade treatment. We will instead pass into law this conference report. We will send the signal that we will do business with China on our terms, not on terms dictated by the Chinese Government—especially when those terms work to the disadvantage of American interests.

The conference report is clear, it makes sense, and it is simply the right thing to do. I urge my colleagues to support the conference report.

Mr. OWENS of Utah. Mr. Speaker, I rise in strong support of the conference report and to express my appreciation to the chairman [Mr. ROSTENKOWSKI] and the gentlelady from California [Ms. PELOSI] for their support and leadership.

Mr. Speaker, we are tired of the new China syndrome, where Chinese leaders promise to change, yet China continues to supply nuclear technology to pariah states and sophisticated missiles to terrorist countries. And while the blood of the Tienenmen Square massacre is still fresh, America rewarded China with a high level visit from Secretary Baker.

I do not doubt the President's commitment to human rights, fair trade, and restrictions on the proliferation of nuclear and missile technology. By passing this conference report with a two-thirds majority, we will help the President press these important principles with the

Government of the People's Republic of China.

Nearly 2 decades ago, I voted for the Jackson-Vanik Amendment. As my colleagues know, this amendment conditioned the extension of MFN to the Soviet Union on the Soviet's emigration policies.

Today, Mr. Speaker, we can point to a changed Soviet Union. It can no longer be viewed as the evil empire. It has changed its emigration policies, and while minorities still face an uncertain future, the historic Jackson-Vanik Amendment has been waived.

The Soviet Union has changed.

Sadly, the situation in China has deteriorated. Since the Tianenmen Square massacre, over 30,000 pro-democracy activists have been detained. Some, and we don't know exactly whom and how many, have been executed. More than 800 activists have been imprisoned and the Chinese secret police continues to investigate, harass, and persecute others thought to support the democracy movement.

This President, this Congress, this country, must not send a message of weakness. We must not disappoint those Chinese citizens who have sacrificed their lives and their futures for democracy.

As Jackson-Vanik helped lay the groundwork for the changes we are seeing today in the Soviet Union, conditioning MFN to China will set a similar standard for our relations with China and pose a vital, tangible symbol of hope and American commitment for democratic activists in China.

Mr. Speaker, this is not a partisan issue. An overwhelming bipartisan majority voted for the bill. And this is not a political issue. The President shares our goals.

Clearly, the issue here is one of tactics.

I was one who thought that Secretary Baker's trip was premature. That the Chinese had not given even a glint of hope of progress. But I was willing to give the administration the benefit of the doubt.

Secretary Baker was tough. He pressed the hardliners but there was no give. They even arrested two activists just prior to his arrival just to remind us who is boss.

I can imagine the thoughts of Chinese leaders. They are thinking that there will be no price to pay for their intransigence. They are thinking that their gross human rights violations will go without any real American response. That they can continue to provide nuclear and missile technology to terrorist states with impunity. That they can violate U.S. trade laws, export prison-made goods and stomp on the American worker without censure.

Now, after Secretary Baker returned form Beijing empty-handed, we have an obligation to put up or shut up.

I urge my colleagues to support this conference report, and I hope that the other body and the President are listening.

Mr. MARKEY. Mr. Speaker, I rise in reluctant support of the conference report on H.R. 2212, regarding the extension of most-favored nation status for the People's Republic of China.

There is much in the conference report which I strongly endorse, particularly provisions in the bill relating to human rights in China and the status of the pro-democracy protesters who have been imprisoned and mistreated since the Tiananmen Square massacre. At the same time, I must note that the nuclear non-proliferation requirements contained in the conference report are significantly weaker than the language of the House resolution.

Last June I testified in favor of tough nuclear non-proliferation conditions on MFN extension before the Ways and Means Committee last June and I worked with the gentleman from New York [Mr. DOWNEY] and my Republican colleague [Mr. SOLOMON] to craft the language which Mr. DOWNEY attached to H.R. 2212 in the Ways and Means Committee.

The House China MFN resolution would have conditioned extension of MFN status for the People's Republic of China on two factors:

First, the Chinese Government would have had to provide clear and unequivocal assurances to the United States that it is not assisting any non-weapons state—either directly or indirectly—to acquire nuclear explosive devices or the materials and components for such devices.

Second, the House resolution would have required that before MFN status could be extended, the President of the United States must certify to Congress that based on the assurances provided by the Chinese Government, as well as all other information available to the President, that the Chinese were in fact not assisting any state in acquiring nuclear explosives.

Specifically, under the House resolution, in order for MFN status to be extended for the People's Republic of China, the President would be required to submit the report and make the certifications required under the 1985 congressional resolution which approved the United States-People's Republic of China Nuclear Cooperation Agreement. The 1985 legislation conditioned United States-Chinese nuclear cooperation on the People's Republic of China Government providing the United States with additional information regarding its nuclear non-proliferation policies and practices.

Based on this information, the President was required to certify that China was not in violation of section 129 of the Atomic Energy Act. Section 129 of the act bars U.S. nuclear cooperation with any country which has "assisted, encouraged, or induced any non-nuclear-weapons state to engage in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices." Section 129 also bars such cooperation with nations which have transferred reprocessing equipment, materials, or technology to the sovereign control of a non-nuclear-weapons state. To date, neither the report or the certifications required under the 1985 resolution have been made, and administration officials have acknowledged that this failure is directly tied to Chinese continuing misbehavior on nuclear non-proliferation.

Unfortunately, the conference report has substantially weakened the nuclear non-proliferation requirements set forth in the original House and Senate resolutions.

Instead of a tough nuclear non-proliferation requirement that actually ties MFN extension to a requirement that China's reckless nuclear non-proliferation practices come to an end, the conference report requires only that China make "overall significant progress" in "adopting a national policy" which: First, adheres to, and ceasing activities inconsistent with the standards and guidelines set by the Nuclear Suppliers Group; and, second takes clear and unequivocal steps to assuring the PRC is not assisting any non-weapons state in acquiring nuclear explosives.

The conference report states that the "significant progress standard" would not be met if the President determined that on or after November 26, 1991, the People's Republic of China had transferred to Syria or Iran material, equipment, or technology which would contribute significantly to the manufacture of a nuclear explosive device. Interestingly, this requirement would not apply to any transfers of equipment or technology to Iran which occurred before today's date—such as the Chinese transfers of calutrons and reactor technology to Iran, which was reported on by the Washington Post earlier this year. It would also not apply to Chinese nuclear assistance to other potential proliferators—such as Algeria or Pakistan—despite substantial evidence that China has previously assisted these countries in acquiring nuclear weapons technologies.

The conference report also expresses the sense of the Congress that the President should submit the report required under the 1985 congressional resolution on United States-People's Republic of China nuclear cooperation.

While I would have preferred tougher nuclear non-proliferation requirements as a condition of MFN extension, I am reluctantly supporting the conference report today because I believe the final language, while less stringent than the house resolution, nonetheless represents an improvement over current law, which does not link MFN for China to nuclear non-proliferation.

Mr. CRANE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mrs. KENNELLY. Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore (Mr. MFUME). The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mrs. KENNELLY. Mr. Speaker, I object to the vote on the ground that a quorum is not present, and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 409, nays 21, answered "present" 1, not voting 3, as follows:

ANSWERED "PRESENT"—1

Murphy

NOT VOTING—3

Davis
LaRocco
Martinez

□ 2120

Mr. McCANDLESS, Mrs. VUCANOVICH, and Mr. LEWIS of Florida changed their vote from "yea" to "nay."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. MFUME). The Chair announces that pursuant to the provisions of clause 5, rule I, that he will postpone further proceedings today on each scheduled motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, and votes previously postponed, will be taken after the expiration of a recess.

CRANSTON-GONZALEZ NATIONAL AFFORDABLE HOUSING ACT AMENDMENTS

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3576) to amend the Cranston-Gonzalez National Affordable Housing Act to reserve assistance under the HOME Investment Partnership Act for certain insular areas, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Senate Amendment:

Strike out all after the enacting clause and insert:

SECTION 1. RESERVATION OF ASSISTANCE.

Section 217(a) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12747(a)) is amended—

(1) in the first sentence of paragraph (1), by inserting "and after reserving amounts for the insular areas under paragraph (3)" before the first comma; and

(2) by adding at the end the following new paragraph:

"(3) INSULAR AREAS.—

"(A) IN GENERAL.—For each fiscal year, of any amount approved in an appropriations Act to carry out this title, the Secretary shall reserve for grants to the insular areas an amount that reflects—

"(i) their share of the total population of eligible jurisdictions; and

"(ii) any adjustments that the Secretary determines are reasonable in light of available data that are related to factors set forth in subsection (b)(1)(B).

"(B) SPECIFIC CRITERIA.—The Secretary shall provide for the distribution of amounts reserved under this paragraph among the insular areas in accordance with specific criteria to be set forth in a regulation promulgated by the Secretary after notice and public comment.

"(C) TRANSITIONAL PROVISIONS.—For fiscal year 1992, the reservation for insular areas specified in subparagraph (A) shall be made from any funds which become available for reallocation in accordance with the provisions of section 216(6)(A).".

SEC. 2. DEFINITIONS.

Section 104 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12704) is amended—

(1) in paragraph (1), by striking "Guam" and all that follows through "the Marshall Islands" and inserting "the insular areas"; and

(2) by adding at the end the following new paragraph;

"(24) The term 'insular areas' means Guam, the Northern Mariana Islands, the United States Virgin Islands, and American Samoa."

SEC. 3. EXTENSION OF TIME TO SUBMIT CDBG STATEMENT.

Notwithstanding any other provision of law, the City of Petersburg, Virginia is authorized to submit not later than 10 days following the enactment of this Act, and the Secretary of Housing and Urban Development shall consider and accept, the final statement of community development objectives and projected use of funds required by section 104(a)(1) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(a)(1) in connection with a grant to the

City of Petersburg under title I of such Act for fiscal year 1991.

SEC. 4. LOW-INCOME HOUSING COVENANTS.

Section 515(p)(4) of the Housing Act of 1949 (42 U.S.C. 1485(p)(4)) is amended by adding at the end "The preceding sentence shall not be interpreted as authorizing the Secretary to—

"(A) limit the ability of a housing credit agency to require an owner of housing, in order to receive a low-income housing tax credit, to enter into a restrictive covenant, in such form and for such period as the housing credit agency deems appropriate, to maintain the occupancy characteristics of the project as prescribed in section 42(h)(6) of the Internal Revenue Code of 1986; or

"(B) deny or delay closing of financing under this section of the existence, or occupancy terms, of any such restrictive covenant.".

SEC. 5. FLOOD ELEVATION DETERMINATION.

Notwithstanding the time limit set forth in section 1363(c) of the National Flood Insurance Act of 1968 (42 U.S.C. 4104(c) and (d)), St. Charles Parish, Louisiana, may file an appeal with the Director of the Federal Emergency Management Agency with respect to certain flood elevation determinations for the area in and near the Ormond Country Club Estates located in St. Charles Parish, Louisiana, not later than June 1, 1992.

Mr. GONZALEZ (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Texas?

Mr. McCANDLESS. Mr. Speaker, reserving the right to object, I do so to ask my honorable chairman, the gentleman from Texas, Mr. GONZALEZ, if he would explain the basis for his request and the subject matter in the request.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. McCANDLESS. I yield to the gentleman from Texas.

Mr. GONZALEZ. Mr. Speaker, the House passed H.R 3576 as amended, which is what we are offering here, on October 21, and it passed it under suspension of the rules as a technical amendment to the HOME Program to correct a series of unintended problems which would have prevented the four U.S. territories from participating in the HOME Program.

On Saturday last the Senate passed an amendment to H.R. 3576 and has returned the bill to the House for a final consideration. One, in addition to providing funding to the territories under the HOME Program, the bill extends the deadline for filing a final statement under the CDBG Program for Petersburg, Virginia;

Two, it corrects a glitch in the law governing the FmHA section 515 Rural Rental Housing Program to enable loan closings for projects using the low-income housing tax credit, and it extends a time deadline for filing an appeal for floodplain determinations in St. Charles Parish, LA.

These additional provisions have been accepted by both sides of the aisle, and I urge the adoption of H.R. 3576.

Mr. McCANDLESS. Mr. Speaker, I thank the gentleman. It is my understanding that the ranking minority member of our committee has concurred in this.

Mr. RIGGS. Mr. Speaker, I rise today in support of this urgently needed legislation. Amidst all the partisan rhetoric and bitterness generated by our debate over an economic growth package, I ask for a moment of reason and careful consideration of the legislation before us. This body has an opportunity to rise above the petty politics and, by extending this package of productive tax credits, show the American people that the Congress is still looking out for their best interests.

I have heard it said that you can claim to be an advocate for the people all year, but it's your vote that counts. That statement is particularly germane today, while we consider whether we will provide housing for literally hundreds of thousands of people. I would argue that passing this bill does not go far enough and that Congress should make all of the credits contained in this package permanent provisions of the tax code.

My concern with the extension of these tax credits stems from my background as a small businessman in the real estate industry. I know from personal experience how effective incentives can be in driving policy, and how well the low income housing tax credit in particular has been received in the market. I would remind my colleagues that the low income housing tax credit is the last Federal tax incentive remaining which encourages private sector production of affordable housing stock.

I represent the First Congressional District of California, which happens to include 2 of the 10 least affordable housing markets in the entire United States. Based on my own personal experience and the outcry from my constituents, I must conclude that much of America is the victim of a serious social illness in the form of increasing homelessness and general poverty. These programs we are considering have developed an excellent track record of combatting such social problems since their enactment. Thus, unless we're philosophically opposed to the creation of affordable housing or we think that helping low-income families achieve the American dream of home ownership isn't a worthwhile goal, the House of Representatives has no excuse for failing to pass this bill.

As Members of Congress, it is our responsibility to act in a timely manner to extend these successful credits. I honestly do not believe I would be doing my job if I voted against this legislation. I urge my colleagues to affirm the American dream as well as the faith of the people in their leadership by doing what is right and voting for this bill. I am submitting for the RECORD an editorial which speaks eloquently on the need for action and was written by my constituent, Mr. Arnold Sternberg, Director of Burbank Housing Development Corp. of Sonoma County, California.

HOUSING AID VITAL TO SONOMA COUNTY—CLOSE TO HOME

(By Arnold Sternberg)

Ken Harney's syndicated column in Sunday's real estate supplement paints a bleak picture for the future of affordable housing across the nation. In his column, Harney reports that the two federal programs which are the backbone of the nation's affordable housing effort may disappear at the end of this year.

The two programs whose demise he predicts are the mortgage revenue bond program, which provides permanent financing at below market interest rates for the first-time home buyers, and the federal low-income housing tax credit program, which is designed to attract private investment to make low-rent apartment development possible.

To understand what these two programs mean to Sonoma County, one need look no further than the Burbank Housing Development Corporation's experience in utilizing these programs:

In Petaluma, two sweat-equity projects, the 32-unit Magnolia Hills and the 8-house Madison Manor as well as the just-completed 29-unit Cherry Hill home ownership opportunity and the soon-to-start Hillview Oaks (30 town homes in the Corona-Ely annexation area), all rely on mortgage revenue bonds for financing.

In Santa Rosa, the 40-house self-help Rancho Miguel and Gardner Construction's 62-house development—Parkside—now going up at Piner and Fulton, are also largely financed with the same mortgage revenue bond program.

On the rental side, Burbank developed the 23-unit Madrone Village in Petaluma and the 20 senior apartments, Mountain Terrace II, in Healdsburg, using the tax-credit program. Also slated for tax-credit financing is Burbank's 50-unit apartment development in Rohnert Park and the 24-bed Burbank-Community Support Network joint venture, for which ground was just broken on Aston Avenue in Santa Rosa, a development designed to house formerly homeless people with a history of mental illness and other disabilities.

Burbank also utilized mortgage revenue bond financing in developing the 60-unit Gravenstein Apartments in Sebastopol, the 40 apartments at West Avenue in Santa Rosa and the 7-unit Cubernet project for seniors in Sonoma.

Virtually none of these 208 home-ownership opportunities would have been available to first-home buyers without the mortgage revenue bond program and none of these 225 below market rent apartments could have been built without the federal low-income housing tax credit program and mortgage revenue bond financing.

Harney's column should be read, therefore, as a "call to arms" for all those interested in solving, at least in part, the affordable housing program in Sonoma County. Our elected representatives need to know what has been done by just one small nonprofit developer in this county using these two programs.

Harney's predictions notwithstanding, the two programs can be saved and extended if this community, beginning with the Chamber of Commerce's November 15, symposium on affordable housing, can put this effort at the top of its legislative "must" list.

In the House of Representatives the extension vehicle for tax credits is HR–413 and for the mortgage revenue bond bill, it is HR–1067. Congressman Riggs and Congresswoman Boxer, Senators Cranston and Seymour need to hear from you on this subject now.

Mr. McCANDLESS. Mr. Speaker, based upon that explanation, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Texas?

There was no objection.

A motion to reconsider was laid on the table.

IMPROVING OPERATIONAL EFFICIENCY OF JAMES MADISON MEMORIAL FELLOWSHIP FOUNDATION

Mrs. LOWEY of New York. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3932) to improve the operational efficiency of the James Madison Memorial Fellowship Foundation, and for other purposes.

The Clerk read as follows:

H.R. 3932

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENT OF JAMES MADISON MEMORIAL FELLOWSHIP ACT

The James Madison Memorial Fellowship Act (20 U.S.C. 4501 et seq.) is amended—

(1) in subsection (b) of section 803, by adding at the end the following new paragraph:

"(3) A member of the Board whose term has expired may continue to serve until the earlier of—

"(A) the date on which a successor has taken office; or

"(B) the date on which the Congress adjourns sine die to end the session of Congress that commences after the date on which the member's term expired."; and

(2) in subsection (a) of section 811—

(A) in paragraph (1)—

(i) by striking "an other" and inserting "and other"; and

(ii) by striking "(1)"; and

(B) by striking paragraph (2).

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from New York [Mrs. LOWEY] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. GOODLING] will be recognized for 20 minutes.

The Chair recognizes the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3932 is important legislation to allow the James Madison Memorial Fellowship Foundation to begin full operation of its scholarship program.

In general, we all recognize that our Nation urgently needs to expand Federal student aid programs. The James Madison Memorial Fellowship Program, which is aimed at strengthening the teaching of the principles and development of the United States Constitution, is a particularly worthy and important fellowship program.

The bill is very simple. When the Fellowship Foundation was created, it was endowed with a trust fund that has subsequently accrued interest. This bill permits the Madison Foundation to get down to the business of awarding fellowships by using the interest which has accrued on its endowment to fund its fellowship program, while protecting the trust fund itself.

It is important to point out that this legislation requires no Federal funding. It has received bipartisan support within the Committee on Education and Labor, from Chairman BILL FORD and ranking member BILL GOODLING, and it has been endorsed by the administration.

Mr. Speaker, this legislation will help us improve the quality of education in our Nation and will help broaden the understanding and appreciation of our Constitution and our democratic system of government. There are few objectives that are more worthy of our strong support.

I would urge all Members to support this bill, and at this point, I would yield to the gentleman from Virginia, who introduced this important legislation and has worked hard to see that it is enacted.

Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia [Mr. SISISKY] who has produced this important legislation and has worked hard to see that it is enacted.

Mr. SISISKY. Mr. Speaker, I rise today in support of legislation to allow the James Madison Memorial Fellowship Foundation to begin full operation of its fellowship program. It is only fitting that in the year we commemorate the bicentennial of the ratification of the Bill of Rights, we also grant to the foundation—named after the Bill of Right's principal author—the ability to perform its worthy mission assigned by Congress.

Mr. Speaker, the Madison Foundation is a living memorial to James Madison: Father of the Constitution, fourth President of the United States, and truly a great Virginian. It was established by Congress in 1986 as a part of the bicentennial commemoration of the U.S. Constitution. This program will award fellowships nationwide to outstanding graduate students preparing to become secondary school teachers in the fields of American history and government. This program will also award fellowships to experienced high school teachers seeking to strengthen their knowledge in the same area. Madison fellows will agree to teach full-time in secondary schools for at least 1 year for each year of assistance, and will emphasize the U.S. Constitution in their teaching.

The legislation we are considering today is actually very simple. In addition to two house-keeping provisions, this measure permits the Madison Foundation to embark on its mission of strengthening the teaching in our Nation's schools of the framing, principles, and development of the U.S. Constitution. It does so by allowing the Madison Foundation to use the interest which has accrued on its endowment to fund its fellowship program, while protecting the corpus of the Foundation's trust fund.

While enacting this important legislation will require no Federal funding, it will pay dividends for years to come. These dividends will be deeper understanding of American government, increased knowledge of the rights and responsibilities of citizens under the Constitution, and an enhanced spirit of civic participation in both teachers and students * * * the same spirit which inspired our Nation's Founding Fathers.

This bill has the support of the Education and Labor Committee Chairman, Mr. FORD, and the committee's ranking minority member, Mr. GOODLING. In addition, the measure is supported by Senators HATCH and KENNEDY in the other body. Furthermore, it has been scrutinized and endorsed by the Office of Management and Budget. I urge my colleagues to support this worthwhile legislation which promotes a program that emphasizes the Constitution and higher education. It is indeed deserving of our support.

□ 2130

Mr. GOODLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the program envisioned here is very laudable. We have a serious problem, however, in that when we put up the $20 million, the Foundation indicated putting up $10 million would be an easy kind of thing to do. Unfortunately, they have not done it.

I just want to make it very, very clear, that when they come back next year and ask to use the interest on the $20 million that the taxpayers put up, that I will do my very best to make sure that it is not granted, unless they have shown a very good faith effort to get their $10 million which they originally said would be easy to do.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. GOODLING. Yes, I am happy to yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, this is sounding a little like a shell game to me. The taxpayers put up $20 million with the idea that the foundation was going to put up $10 million, and now they have not gotten their $10 million, but they are going to come back and use the interest on the money originally put up by the taxpayers, is that right?

Mr. GOODLING. That is right, $4 million.

Mr. WALKER. Now, how much money has been raised by the Foundation so far?

Mr. GOODLING. I will yield to the gentleman from Virginia [Mr. [SISISKY] to anwer that.

Mr. SISISKY. Mr. Speaker, they are in the process of raising money.

Mr. WALKER. Have they raised half of it?

Mr. SISISKY. Mr. Speaker, if the gentleman will yield, I do not believe they have. I do not know the figure, but if the gentleman will let me explain. One of the projects was a coin bill which we are waiting to do in 1993 and this was the problem. We have not yet passed a coin bill for the James Madison Foundation to raise the money.

Mr. WALKER. But as I understand it, this is not a coin bill either. What this is doing is simply saying that we are going to now use the interest money, which is essentially money that the taxpayers have already forwarded.

Now, I am a little confused. How are we going to raise the $10 million that was a part of the $20 million guarantee?

Mr. SISISKY. Mr. Speaker, if the gentleman will yield further, we are in the process of raising the money from foundations and other things. We are having trouble, in all honesty, on the issue of raising the money.

Mr. WALKER. Well, does the figure of $50,000 sound right?

Mr. SISISKY. I think we raised more than $50,000. Is the gentleman saying $50,000?

Mr. WALKER. I have had it indicated to me that the total that has been raised so far out of the $10 million is $50,000.

Mr. SISISKY. I think we have raised more than $50,000, but I am really not sure of the figure, honestly, I am not.

Mr. WALKER. Well, I am concerned about the process that we are using here at the very last minute.

Mr. Speaker, I thank the gentleman for yielding to me.

Mr. WELDON. Mr. Speaker, will the gentleman yield?

Mr. GOODLING. I am happy to yield to the gentleman from Pennsylvania.

Mr. WELDON. Mr. Speaker, I thank my colleague for yielding to me.

I would just like to ask a question. I am not against this particular bill or the concept, but I understand there was an attempt made, or there has been a bill introduced to offer a coin that would generate approximately $10 million in funding, and now instead of that coin bill, we are offering a bill that will in fact allow the interest to be used, to which I am not objecting.

My question is do the sponsores plan to continue to move the coin bill forward to raise the additional amount of funds necessary to match the $20 million of public funding?

Mr. SISISKY. Mr. Speaker, if the gentleman will yield, we would like to move the coin bills forward.

Mr. WELDON. Well, the only thing I would say to my colleagues in the House, and once again not being against this, but the scenario of what happened here today was that there was going to be a package of four coin bills offered shortly that my colleagues are going to be asked to vote upon.

In the initial package of those coin bills the Madison coin bill was included in that package. It was only removed because there was an outcry nationally from the American Fire Service, the 3 million people who have been working for 2 years to pass a Ben Franklin coin in 1993, which the Madison bill would completely knock out.

Now we are finding that not only are we going to pass this bill, which is going to allow the interest to be used, the $4 million, but we are going to come back and pursue a 1993 coin bill to raise additional funds for the James Madison Foundation, and again jeopardize the number one priority of the National Fire Service, which is the Ben Franklin coin bill.

I really find this somewhat outrageous.

While I do not want to disagree with my friend and told him I did not want to stand up here and oppose it, what is happening is we are going to have the coin bill come back again that will raise the money for this, and I do not know where the Foundation is raising its money on its own.

As a matter of fact, my friend and colleague on the Republican side who is offering the bill with my good colleague and friend, the gentleman from Virginia, was not even aware what this bill was 5 minutes ago. He thought this was the coin bill, because the staff had not told him that they changed it from a coin bill that now allows the Foundation to use the interest on the money generated.

I find this offensive, especially in light of the fact that with the coin bill that was being proposed, there was no limitation on the administrative overhead, the funds to be used for salaries.

I just find this an outrageous way to try to fund what in fact is a very worthwhile project.

Mr. GOODLING. Taking back my time, Mr. Speaker, I again reiterate that I have no objection to the legislation tonight.

I will be very much in opposition to any attempt next year to use the interest, unless the foundation has made a very good-faith effort to raise their part of the money.

Mr. ALLARD. Mr. Speaker, will the gentleman yield?

Mr. GOODLING. I yield to the gentleman from Colorado.

Mr. ALLARD. Mr. Speaker, today I join with my distinguished colleague, Congressman NORMAN SISISKY, in supporting H.R. 3932, a bill which will improve the operational efficiency of the James Madison Memorial Fellowship Foundation. Since coming to Congress, I have been a strong supporter of the education programs of the Madison Foundation.

Under the direction of Adm. Paul A Yost, the former Commandant of the U.S. Coast Guard, the foundation is in its first year of full operation. However, Admiral Yost, and the trustees of the foundation have indicated that there are several provisions which need to be addressed in order to improve the operations of the foundation.

This legislation does three things: First, it allows existing members of the board of trustees of the foundation to continue serving at the end of their term until the President of the United States either reappoints that trustee or he appoints that trustee's successor. This will allow the foundation to continue its operations more efficiently because there will be a fully functioning board of trustees at all times to oversee the foundation's activities.

Second, a typographical error is corrected in the foundation's original legislation.

Third, the foundation will be relieved of its current mandate to raise an additional $10 million from private and other sources before fellowships can be awarded. Raising this large amount of funds has proven to be difficult, and there is a great need for the foundation to be in operation before potential donors are comfortable in funding the foundation's educational programs.

I want to assure the members of the House that this legislation does not allow the foundation to spend any of its original $20 million trust fund. The foundation will only be able to use the interest the trust fund has accrued. The foundation fully intends to continue to raise funds from private and other sources.

Finally, I would like to point out to my colleagues that the Office of Management and Budget has reviewed this legislation and has given its approval of its enactment.

I ask that my colleagues join me in supporting this important legislation which will help the Madison Foundation accomplish the mandate on educating our Nation's secondary school teachers.

Mr. GOODLING. Mr. Speaker, I want to make sure that the third gentleman from Pennsylvania just speaking was not speaking of this gentleman, the first gentleman from Pennsylvania, when he said that he did not know what was in the legislation. I know very well what is in the legislation.

Mr. Speaker, I yield back the balance of my time.

Mrs. LOWEY of New York. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentlewoman from New York [Mrs. LOWEY] that the House suspend the rules and pass the bill, H.R. 3932.

The question was taken; and on a division (demanded by Mr. WALKER) there were—yeas 14, nays 3.

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

□ 2140

GENERAL LEAVE

Mrs. LOWEY of New York. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 3932 the bill just considered.

The SPEAKER pro tempore (Mr. MFUME). Is there objection to the request of the gentlewoman from New York?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONOR OF H.R. 2797

Mr. HANCOCK. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2797.

The SPEAKER pro tempore Is there objection to the request of the gentleman from Missouri?

There was no objection.

COMMENDING PEOPLE OF GUAM AND HAWAII FOR SACRIFICES AND CONTRIBUTIONS MADE DURING WORLD WAR II

Mr. DE LUGO. Mr. Speaker, I move the House suspend the rules and pass the resolution (H. Res. 293) commending the people of Guam and Hawaii for the sacrifices and contributions they made during World War II.

The Clerk read as follows:

H. RES. 293

Whereas on December 8, 1941, the Imperial Japanese Forces attacked the territory of Guam;

Whereas such forces bombed the marine barracks of the United States in the village of Sumay, the Piti Navy Yard, the U.S.S. Penguin, and the U.S.S.R.L. Barnes;

Whereas on December 10, 1941, Guam became the only populated community of the United States to be invaded and forcibly occupied by such forces;

Whereas the residents of Guam, particularly the resident forces of the United States Navy and Marine Corps and the local force known as the Navy Insular Force, valiantly defended the territory in the face of overwhelming opposition;

Whereas the Navy Insular Force was singled out by its commander for its defense of the Governor's Palace at the Plaza de Espana;

Whereas Guam was occupied by the enemy for 32 months, until the armed forces of the United States liberated the territory in July 1944;

Whereas, throughout the occupation, individuals on Guam were beaten or executed for remaining loyal to the United States, for aiding and providing food to imprisoned members of the armed forces of the United States, and for hiding members of the armed forces of the United States from the enemy;

Whereas the people of Guam were denied basic civil liberties and were forced to construct airstrips, dig caves, install antilanding barriers, grow food, and raise livestock for the Imperial Japanese Forces;

Whereas the people of Guam were deprived of sufficient food, clothing, and medical care by such forces;

Whereas a number of Chamorro men were executed for refusing to reveal the whereabouts of a sailor from the United States who was hiding on Guam;

Whereas the people of Guam were forced to live in a concentration camp under inhuman conditions;

Whereas in Tinta on July 15, 1944, and again in Faha on July 16, 1944, 30 residents of Merizo, Guam were taken into a cave and executed by members of the Imperial Japanese Forces;

Whereas on December 7, 1941, military installations of the United States in the territory of Hawaii, including Pearl Harbor, were attacked by armed forces of Japan;

Whereas among the defenders of Hawaii were the 298th and 299th Infantry Regiments, which included large numbers of Hawaii National Guardsmen who had been mobilized previously and residents of Hawaii who had been drafted in 1940 and 1941;

Whereas the 2,403 Americans killed in that attack included 68 civilian residents of Hawaii;

Whereas residents of Hawaii employed in civilian jobs at Pearl Harbor and other military installations responded courageously by manning anti-aircraft guns, fighting fires, tending to the wounded, and performing rescue operations;

Whereas individuals at Pearl Harbor Naval Ship Yard performed heroic work in raising and repairing the ships of the Pacific Fleet of the United States which had sunk or sustained damage during the December 7th attack, which work resulted in the return to active service of 18 out of 21 such ships;

Whereas such individuals played a vital role in making the Pacific fleet fit to fight in subsequent battles of World War II;

Whereas the University of Hawaii Reserve Officers' Training Corps was mobilized to defend Hawaii against the threat of imminent enemy invasion, making such corps the only unit of the Reserve Officers' Training Corps to be mobilized for active duty;

Whereas the members of the such corps and other residents of Hawaii were activated into the Hawaii Territorial Guard for the purpose of defending the Hawaiian islands;

Whereas the loyalty of Americans of Japanese Ancestry came under unjustified suspicion in the aftermath of the attack on Pearl Harbor even though many of the residents of Hawaii who assisted courageously in the defense of Pearl Harbor and other military installations on December 7, 1941, as well as many of those uniform poised in defense of Hawaii, were Americans of Japanese Ancestry;

Whereas such unjustified suspicion resulted in the wrongful internment of some 110,000 Americans of Japanese Ancestry;

Whereas Hawaii was placed under martial law from 1941 to 1944 and its people were denied a number of fundamental constitutional rights, such as the right to petition for habeas corpus;

Whereas the imposition of martial law suspended the constitutional provisions which protected minorities, compounding the difficult situation of Americans of Japanese Ancestry;

Whereas Americans of Japanese Ancestry in the territory of Hawaii were unjustly discharged from the Hawaii Territorial Guard and removed from combat units;

Whereas such individuals, who resolved to demonstrate their loyalty, engaged in volunteer defense work by enlisting in the Varsity Victory Volunteers and similar organizations;

Whereas such individuals, when they were permitted to serve in combat units, demonstrated beyond question their loyalty by volunteering to serve in the armed forces of the United States in record numbers; and

Whereas such individuals compiled extraordinarily distinguished records in the 100th Infantry Battalion, the 442nd Regimental Combat Team, and the Military Intelligence Service: Now, therefore, be it

Resolved, That the House of Representatives commends—

(1) the people of Guam for their patriotism, bravery, loyalty to the United States, and many sacrifices during World War II, particularly during the invasion and occupation of the territory of Guam;

(2) the members of the Navy Insular Force and United States Navy and Marine Corps for the efforts and sacrifices they made in defense of the United States;

(3) the people of Hawaii for their sacrifices and contributions to the war effort of the United States, particularly during the attack on Pearl Harbor on December 7, 1941; and

(4) the members of the Hawaii Territorial Guard, the Varsity Victory Volunteers, the civilian workers at Pearl Harbor Naval Ship Yard and other military installations in Hawaii, the 100th Infantry Battalion, the Military Intelligence Service, and the 442nd Regimental Combat Team for their sacrifices and contributions to the war effort of the United States, particularly during the attack on Pearl Harbor on December 7, 1941.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Virgin Islands [Mr. DE LUGO] will be recognized for 20 minutes, and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

Mr. DE LUGO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as the title of the resolution states, House Resolution 293 would commend our fellow Americans in Guam and Hawaii for the sacrifices and contributions they made during World War II.

It recounts some of these sacrifices and contributions in great and—in some cases—painful, detail. And as dramatic and horrifying as some of these details may sound, they are not exaggerated.

In fact, there is even more that could be said if a complete description of the suffering of our fellow Americans in Guam and Hawaii were given.

The resolution, further, commends the people of Guam for their patriotism, bravery, loyalty, and sacrifices during the war; those who defended our Nation in what were then both territories; and the people of Hawaii for their sacrifices and contributions, particularly during the attack on Pearl Harbor.

We certainly cannot say too much in these areas.

The 50th anniversary of the attack on Pearl Harbor—and the 50th anniversary of the invasion of Guam—is, of course, an appropriate time for the House to remember the deeds of these Americans and thank them for what they did.

And we should do so with more than just a mere passing through.

One reason is that their sacrifices and contributions were so great and so important.

Another, though, is that while World War II may now be a distant memory for some Americans, the painful memories have not faded for many of the people who were in the front line in the Pacific.

In fact, some of the sadder legacies of World War II are the very real problems related to it that we still face in Guam. Indeed, they are such powerful issues that they affect consideration of the island's relationship to the rest of our country, a matter that is now being reconsidered.

Guam is the only present United States territory with a sizable population occupied by enemy forces during the war. The attack on lightly-fortified Guam—which occurred almost simultaneously with the attack on Pearl Harbor—was followed by the subjugation of the people to enemy military rule.

The hardships of this time were tremendous: Guamanian people were denied basic human rights in their own homeland; they were imprisoned, forced to labor, tortured, and murdered, often by beheading.

They were made to suffer precisely because of their patriotism.

Then, their island was virtually destroyed during its liberation by U.S. forces. And, later, their land was often unfairly taken by their liberators.

I first came to understand the emotion and importance attached to the issues dating to this period when I learned of them from our late colleague Antonio Won Pat, whose own brother was, I believe, executed by the enemy when it occupied the island. Of course, Tony served with distinction for many years in this House.

I have also come to understand this matter from Tony's successor, our colleague BEN BLAZ, who himself suffered hardships inflicted by the enemy during his youth.

The gentleman from Guam has pressed for action on two measures to respond to these issues. One would return land unfairly taken from his people by the U.S. military that is no longer needed by the military. The other would compensate his people for war suffering and losses, an issue on which we have also worked with Senator George Bamba of Guam.

The Subcommittee on Insular and International Affairs, which I am privileged to chair, has spent a lot of time—through oversight and legislation—on both of these matters as well as on the very important question of the future Guam-United States relationship, which they influence.

I know that I am joined by the gentleman from California [Mr. LAGOMARSINO] the ranking Republican of the subcommittee, as well as the gentleman from Guam, when I say that we very much hope that we will be able to reach agreement with all concerned on these matters.

So, I regard this resolution, in part, as a step that we can take now to demonstrate our sincere appreciation to the people of Guam along a path of concluding our responsibilities to them arising out of World War II.

Another step that we can certainly take next year is to provide the funds needed to acquire the land designated as the war in the Pacific National Park in 1978.

I hope that the park will be fully operational before the 50th anniversary of the liberation of Guam 2½ years from now. I also hope that the American Memorial Park in the nearby North Mariana Islands, which would also commemorate World War II suffering, will be fully funded by then.

While it is difficult to resolve many of these issues relating to World War II in our Pacific insular areas, the extent of the sacrifices and the fervor of the people compel us to continue to keep trying to do so.

So, it is with a deep sense of duty and appreciation that I urge the House to approve this resolution, recalling the immeasurable suffering of the people of Guam and Hawaii during that time of adversity and commending them for their bravery and loyalty. It should never be forgotten.

Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of House Resolution 293 introduced by my colleague BEN GILMAN, Which commends our fellow United States citizens in Guam and Hawaii for their courageous sacrifices and contributions made during World War II. Many of their individual efforts have become legendary particularly among those who joined the U.S. Armed Forces and served with great distinction. SENATOR DANIEL INOUYE of Hawaii is a great example of one who took up the call to arms in defense of our country and was decorated for his bravery on the battlefield.

My good friend from Guam, BEN BLAZ, also lived through the occupation of Guam seeing firsthand the terrors of war and the joys of liberation by the United States Armed Forces. He later joined the Marine Corps and rose through the ranks to become general. It has indeed been a pleasure and an honor to work with General Blaz and to serve with him on the Committee on Interior and Insular Affairs and the Committee on Foreign Affairs. Not only has he distinguished himself in his prior military career, he has made his mark here in the Congress as well. His handling of the very complicated California Desert Protection Act is a testament to the excellence of his work.

There are also many unsung heroes from Guam and Hawaii who gave their lives or parts of their lives as a result of their loyalty to the United States during the war. This became dramatically evident during hearings which were held by the Subcommittee of Insular and International Affairs on which I serve regarding World War II war reparations. Many of the survivors of the atrocities of World War II told horrific tales of torture and forced labor during the occupation of Guam. One woman showed the broad red scar stretching across the back of her neck where enemy forces had attempted a beheading and left her for dead among other victims. This U.S. citizen is only one of many who suffered the trials of World War II while remaining loyal to the United States and who deserve more than public recognition.

I have worked closely with the Chairman of the Subcommittee on Insular and International Affairs, RON DE LUGO, to develop Guam war reparations legislation which would be equitable to all and acceptable to the Senate and the administration. In spite of our efforts in the last Congress, opposition in Guam arose to the war reparations legislative compromise based on the false assumption that greater reparation levels could be obtained.

As we approach the 50th anniversary of the start of World War II, it is fully appropriate and necessary to remember the challenges endured by our fellow U.S. citizens in two great Pacific archipelagoes: the Marianas and Hawaii. I urge my colleagues to join in commending the people of Guam, the southernmost island of the Mariana Islands, and Hawaii for the sacrifices and contributions made during World War II. Perhaps one day restitution will be provided for those who suffered the tribulations of occupation in the same spirit which recognition is given through this resolution.

☐ 2150

Mr. Speaker, I reserve the balance of my time.

Mr. DE LUGO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I again want to urge my colleagues to approve this measure so that the people of Guam and Hawaii will know how much the House of Representatives appreciates their tremendous sacrifices and contributions made during World War II. Finally, I want to commend our colleagues, the gentleman from Guam [Mr. BLAZ], the gentleman from New York [Mr. GILMAN], the gentleman from Hawaii [Mr. ABERCROMBIE] and others for proposing this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN], the author of the resolution.

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of House Resolution 293 along with my colleagues, the gentleman from Guam [Mr. BLAZ], the gentleman from New York [Mr. SOLARZ], the gentleman from Hawaii [Mr. ABERCROMBIE], the gentleman from Iowa [Mr. LEACH], the gentleman from American Samoa [Mr. FALEOMAVAEGA], and the gentleman from California [Mr. LAGOMARSINO] who joined with me in sponsoring this legislation commending the people of Guam and Hawaii for their sacrifices and their contributions to the allied effort during World War II. I want particularly to commend my good friend, the gentleman from Guam [Mr. BLAZ], for his dedication and diligent work on behalf of his constituents and all the veterans, as well as the gentleman from Hawaii [Mr. ABERCROMBIE] on behalf of his constituents, and I thank the gentleman from the Virgin Islands [Mr. DE LUGO], the distinguished subcommittee chairman, and the distinguished ranking minority member of that committee, the gentleman from California [Mr. LAGOMARSINO].

Mr. Speaker, the date of December 7, 1941, is the day that will long live in infamy and will live forever in the minds of all Americans. Virtually every American recognizes the significance of that fateful day which brought the United States into the Second World War. However December 8 also represents a terrible day for Americans and freedom. On that day the Imperial Japanese forces attacked the Territory of Guam, bombing the village of Sumay, the Piti Navy Yard, the U.S.S. *Penguin* and the U.S.S. *R.L. Barnes*, and on December 10, 1941, Guam became the only populated community of the United States to be invaded and forcefully occupied by Japanese forces.

Mr. Speaker, one unfortunate result of these terrible attacks was the suspicion and internment of some 110,000 Americans of Japanese ancestry. This measure appropriately recognizes the partiotism and loyalty of many Americans of Japanese ancestry who served during World War II in the Armed Forces of the United States.

This resolution also specifically recognizes the outstanding contributions of individuals of the 100th Infantry Battalion, the 44th Regimental Combat Team and the Military Intelligence Service, all of whom served in World War II.

Finally, Mr. Speaker, this resolution recognizes the efforts of the Navy Insular Force, and the U.S. Navy and Marine Corps for their efforts and many sacrifices on behalf of our Nation in that part of the world.

Mr. Speaker, the original cosponsor of this resolution, the gentleman from Guam [Mr. BLAZ], regretted that an overseas mission prevented him from taking part in this discussion, and he has asked that his remarks be made part of the RECORD of this debate. The gentleman from Guam, in noting "America's Forgotten Patriots," stated:

> I'd like to remind my colleagues that the word "forgotten" is used bittersweetly, for all too often the people of Guam have had to ask, "How can we be forgotten when we were not remembered in the first place?"

Mr. Speaker, I thank my colleagues for their generous support for this measure, and I again commend the people of Guam and Hawaii for their extensive sacrifices.

Mr. LAGOMARSINO. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. ROHRABACHER].

Mr. ROHRABACHER. Mr. Speaker, I would just like to add my voice of support to this piece of legislation.

As we have heard this evening, the people of Guam were attacked simultaneously with the people of Hawaii and Pearl Harbor, the American sailors there at Pearl Harbor, and, as we also have noted tonight, there was a great deal of heroism that some of our fellow Americans have not remembered, that the people of Guam, they were probably some of the most heroic citizens of the war, and yet for so often now, as we are looking at this 50th anniversary, their heroism has been totally forgotten.

Mr. Speaker, that is why this legislation is so important. These were Americans. The Japanese who invaded those islands knew they were Americans, and they treated them like they were occupying American territory.

Now I will never forget as a kid my dad was a Marine lieutenant colonel, and we know a lot about the Marines and about what was going on in World War II, but one story that I heard about was some of the Marines and some of the military people there who survived the Japanese attack and went into the countryside in Guam, for years Guamanians went and took them at great personal risk. These people, if they would have been caught giving aid to these Americans hiding out from the Japanese; as a matter of fact, some of them were executed, and I think a couple of the Americans survived. I remember reading the story about one of these men, and Harry was telling me about brave Guamanians who would come and give them food. That was the only thing that helped them survive, and then of course, after the harsh years of occupation, what happened? The Americans came to liberate the island, and of course, as is true with a great military, we obliterated everything in our path, and these heroic people who loved this country; their heart just tingles when they see the American flag, and, after going through all this suffering from World War II, and then to have their island obliterated while it was being liberated, it is just something that we Americans cannot afford to forget at this 50th anniversary.

What always brings this to mind is of course that our colleague, this gentleman, but this brave man, this courageous man who serves with us, the gentleman from Guam [Mr. BLAZ], and he of course, as we know, he himself is an American hero, not necessarily for what he did in World War II because I am not sure what it was, and he has told us he did some things then, but we know what he did in Vietnam, we know what he did as a soldier, and we know what Guamanians have been doing these last 50 years to protect this country and to promote the cause of human freedom throughout the world.

Mr. Speaker, this is something we should all be grateful for. This resolution helps us express that in just one little way, just to say we are grateful to these people. We are grateful to the people of Hawaii, but, yes, we are grateful to these Americans, these Americans in Guam who have been such wonderful Americans, and done so much for our country and shown us what kind of people Americans are all about, and they are the people of Guam.

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of House Resolution 293, legislation I introduced along with my colleagues Mr. BLAZ, Mr. SOLARZ, Mr. ABERCROMBIE, Mr. LEACH, Mr. FALEOMAVAEGA, and Mr. LAGOMARSINO commending the people of Guam and Hawaii for their sacrifices and their contributions to the Allied effort during World War II, and I want to particularly commend my good friend, the gentleman from Guam [Mr. BLAZ] for his dedication and diligent work on behalf of his constituents and the gentleman from Hawaii, Mr. Mr. ABERCOMBIE, and all veterans and I thank the gentleman from the Virgin Islands, the distinguished Committee Chairman, Mr. DELUGO, and the distinguished ranking Minority member, the gentleman from California, Mr. LAGOMARSINO.

The day of December 7, 1941, is a day that will live in infamy forever in the minds of Americans. Virtually every American recognizes the significance of that fateful day which brought the United States into the Second World War. However, December 8, 1941, also represents a terrible day for Americans and freedom. On that day the Imperial Japanese forces attacked the Territory of Guam, bombing the village of Sumay, the Piti Navy Yard, the U.S.S. *Penguin*, and the U.S.S. *R.L. Barnes*. On December 10, 1941, Guam became the only populated community of the United States to be invaded and forcibly occupied by Japanese forces.

One unfortunate result of these terrible attacks was the suspicion and internment of some 110,000 Americans of Japanese ancestry. This measure appropriately recognizes the patriotism and loyalty of many Americans of Japanese ancestry who served during World War II in the Armed Forces of the United States. The resolution specifically recognizes the outstanding contributions of individuals of the 100th Infantry Battalion, the 44th Regimental Combat Team, and the Military Intelligence Service.

Finally, this resolution recognizes the efforts of the Navy Insular Force, and the United States Navy and Marine Corps for their efforts and sacrifices on behalf of the United States.

Mr. Speaker, the original cosponsor of this resolution, the gentleman from Guam, Mr. BLAZ, regreted that an overseas mission prevented him from taking part in this discussion and has asked that his remarks be made a part of the record of this debate. Mr. BLAZ, in noting "America's Forgotten Patriots," stated: I would like to remind my colleagues that the word forgotten is used bittersweetly, for all too often the people of Guam have to ask "How can we be forgotten when we were not remembered in the first place?"

Mr. Speaker, I thank my colleagues for their support for this measure and I again commend the people of Guam and Hawaii for their sacrifices.

Mr. BLAZ. Mr. Speaker, as we prepare to celebrate this Thanksgiving holiday, I am particularly humbled that the Congress is extending this accommodation and expression of gratitude to the people of Guam for their service to America. At this time, I would like to insert in the Record "America's Forgotten Patriots" remarks I delivered in the House on November 21, 1991. I would like to remind my colleagues, however, that the word forgotten is used bittersweetly, for all to often the people of Guam have to ask "How can we be forgotten, when we were not remembered in the first place?"

I am very grateful to the gentleman from New York, Mr. BENJAMIN GILMAN for extending this courtesy to the people of Guam. It is the most this Congress can give for them, and it is the least that they deserve.

AMERICA'S FORGOTTEN PATRIOTS

Mr. BLAZ. Mr. Speaker, as thousands gather in Hawaii on December 7 to commemorate the 50th anniversary of America's entry in World War II, hundreds of journalists and photographers will memorialize the event and broadcast it to the entire world. A million words will be spoken by the President of the United States and other dignitaries to honor the memories of the hundreds of soldiers, sailors, Marines and civilians who were killed and wounded on that infamous day 50 years ago at Pearl Harbor.

As tragic and as devastating as that assault on Pearl Harbor was 50 years ago, we have learned that little note has been made and even less has been remembered about the attack on that other harbor—Apra Harbor, on Guam. This other attack bears striking similarities to the one at Pearl Harbor: same time, same enemy, same American blood, same shattering of a peaceful island community.

Yet, for all these similarities, there is at least one major difference worth noting: Whereas Hawaii was attacked, Guam was attacked * * * and invaded * * * and captured * * * and occupied. For almost 3 years, our people quietly suffered the burden of hostile occupation by enemy forces. No other American territory has suffered the same fate.

As excruciating and as harrowing as this occupation would later prove to be, our people did not surrender without a fight and did not stop fighting after the surrender. In the face of an overwhelmingly larger enemy force, a handful of U.S. sailors and U.S. Marines stood their ground. Standing beside them, with equal valor and courage but with even greater pride and determination, were the members of the Navy Insular Force. For these men, native Chamorros all, the defense of Guam meant the defense of home, family and honor. Although they wore the same U.S. Navy uniforms, their pay was exactly 1/2 that of their stateside comrades. Although they fought under the same U.S. flag, they were considered only half-brothers in the patronizing, colonial society on Guam at that time. Yet, when it came time to shed blood against foreign invaders, the Chamorros of the Navy Insular Force demonstrated their loyalty to the U.S. in the same way they demonstrated their love for the U.S. principles of freedom and democracy: not half-heartedly, but totally and whole-heartedly.

Regrettably, this chapter of American history appears to have slowly faded into the recesses of our Nation's collective subconsciousness. While our country may not remember the lives that were lost, the families that were torn asunder and the homes that were destroyed on that tragic day 50 years ago, these sacrifices are no less real to us and will forever be burned into the psyches of our people.

As a 13-year-old boy who witnessed these events half a century ago, I am often asked by friends and acquaintances to share my memories of that momentous and pivotal period in our history. There are many horrible and appalling stories I could tell about the atrocities inflicted upon our people—about mysterious disappearances of friends, about discoveries of decapitated corpses tied to trees, about clearing jungles under the barrel of a gun and about the hunger and deprivation of concentration camps. While the sting of remembering these events is very real to those who lived through them and should never be forgotten, I have decided over the years to remember also the brighter sides of that dark period.

There were long hours sitting on a log with our parents sharing their thoughts and experiences with us much like the generations before them had done.

There were the groups of neighboring farmers who pooled their strength to push back the jungle so we could plant.

There were men echoing each other's folk song at twilight as they cut tuba.

There were devout men who emerged among our group as natural leaders to lead us in prayer during our most trying and fearful moments as we labored to finish the airfield under incredible duress.

There was the young Japanese officer who taught me Japanese in exchange for my father teaching him English and who, after getting to know us, innocently asked my father why we were at war.

There were the U.S. Marines who, after hopping island to island, eventually liberated one of their own and seemed almost as glad as we were that they came back to Guam.

Under the adverse conditions of that time, I learned things that no school could ever teach me. I learned to give freely, even when there was nothing to share. I learned to be tolerant, even when conditions were intolerable. I learned to be strong, even though my body was weak. I learned to speak volumes in the silence of eye contact. And I learned the sweetness that can be found in the saltiness of sweat.

Looking around me now, 50 years later, I wonder if those of us who lived and died through those trying times were really ever forgotten—how can we be forgotten if we were never really remembered in the first place?

And those who claim to remember us now, do not really know us: Like the U.S. Postal Commission that just issued in 1991 a set of commemorative stamps for World War II that trivializes and dishonors Guam by labeling it a mere "outpost." Like some of the leaders of our great Nation who will congregate at Pearl Harbor in memory of the brave men and women who died there, but whose continuing unawareness of the Guam chapter of this momentous period in our history prevents them from returning the salute extended by the brave men and women of Guam 50 years ago.

On this, the 50th anniversary of World War II, and for the fathers, mothers, brothers, sisters, sons and daughters of Guam who lived and died through that period, I offer these humble words in proud salute and in eternal gratitude to those patriots whom America may have forgotten but whom Guam shall always remember.

Mr. LAGOMARSINO. Mr. Speaker, I yield back the balance of my time.

Mr. DE LUGO. Mr. Speaker, I yield back the balance of my time.

□ 2200

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentleman from the Virgin Islands [Mr. DE LUGO] that the House suspend the rules and agree to the resolution, H. Res. 293.

The question was taken; and—two-thirds having voted in favor thereof—the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DE LUGO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from the Virgin Islands?

There was no objection.

RELEASE OF FUNDS FOR PROVIDING MEDICAL AND HUMANITARIAN ASSISTANCE TO IRAQI CITIZENS

Mr. DYMALLY. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 168) expressing the sense of the Congress that a portion of Iraq's frozen assets be released to UNICEF for the sole purpose of providing medical and humanitarian assistance to Iraqi citizens, as amended.

The Clerk read as follows:

H. CON. RES. 168

Whereas the suffering of Iraqi citizens, especially children, continues as verified by studies by the International Study Team led by representatives of Harvard University, by the United Nations, and by UNICEF in conjunction with representatives of Tufts University, and by reports of relief agencies working in Iraq;

Whereas infant and child mortality rates in Iraq reportedly have doubled since Iraq's invasion of Kuwait;

Whereas acute shortages of food and essential medicine, poor sanitation, and lack of clean drinking water have placed a substantial portion of Iraq's population of 18,000,000 at risk to water-borne diseases;

Whereas the Iraqi health care system is operating at a fraction of its former capacity;

Whereas the United States Government and the United Nations Security Council have established a mechanism to provide relief to Iraq through United Nations Security Council Resolutions 706 and 712;

Whereas Saddam Hussein is responsible for the continuing suffering of Iraqi citizens because of his continued intransigence in not cooperating with United Nations Security Council resolutions, his refusal to allow equitable distribution of food and medicines, and his obstruction of the delivery of humanitarian assistance by the United Nations and private relief agencies; and

Whereas the condition of Iraqi children is an international humanitarian concern that must be addressed immediately: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) condemns Saddam Hussein for refusing to comply with United Nations Security Council resolutions 706 and 712, preventing an equitable distribution of food and medicine to the Iraqi people, and blocking the delivery of humanitarian assistance by the United Nations and private relief agencies;

(2) commends the President and the United Nations Security Council for their efforts to address humanitarian concerns in Iraq through United Nations Security Council Resolutions 706 and 712 and supports their continued effort to gain Iraqi compliance with these resolutions; and

(3) urges the President, consistent with United Nations Security Council resolutions 706 and 712, to explore alternatives under the auspices of the United Nations to utilize and mobilize resources necessary to get an adequate supply of food and medicine to the vulnerable populations of Iraq, especially children.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. DYMALLY] will be recognized for 20 minutes, and the gentleman from Michigan [Mr. BROOMFIELD] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. DYMALLY].

Mr. DYMALLY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the resolution we have before us tonight should be examined very carefully because this resolution has nothing to do with praising or giving any credit to Iraq or Saddam Hussein. It is very specific, and it directs its attention to the vulnerable people of Iraq, especially the children, and directs that we provide some benefit through UNICEF to help these children of Iraq.

Mr. Speaker, I want to commend the gentleman from Minnesota [Mr. PENNY] for his commitment and his courage, because this is not a very popular issue to champion now, because once you mention the word "Iraq," people begin to have reverse reactions to the whole country. But these are children who are victims of man's inhumanity to man, and we are very pleased that the gentleman from Minnesota brought this to the attention of the Committee on Foreign Affairs, and we have today presented it to the Members of the House.

Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. PENNY].

Mr. PENNY. Mr. Speaker, this resolution has gone through a variety of changes in the last several days and hours, and I appreciate the work of the many, many Members who have participated in assisting in the development of this legislation.

Mr. Speaker, for 6 long months we have watched as the death toll among young children in Iraq mounts. For the children of Iraq are in peril—not from bombs or bullets but from the effects of malnutrition and disease. This Thanksgiving while thousands of American children are feasting on roast turkey and all the trimmings, one thousand Iraqi children will likely die from starvation or illness.

Since May, study teams from a variety of institutions have been to Iraq and have reported on the troubling situation there. Much credit for drawing attention to the problems of Iraqi children in the aftermath of the gulf crisis should be given to the original Harvard study team whose initial findings reported that 55,000 Iraqi children had already died from starvation and disease and that thousands more would continue to die if conditions did not improve. Nearly concurrent with the Harvard study, a group of Arab-American doctors of the Arab-American Medical Association visited Iraq and publicized their findings with a report and videotape that was shared with every Member of Congress. Dr. Afran J. Al-Hani, a cardiologist from Chicago, has been tireless in his efforts to get assistance to Iraqi children, and it was my personal contact with him that gave me added incentive to move forward with my original resolution in June.

It was already clear in June that the children of Iraq needed assistance from the world community in order to guarantee their survival. Since many of their country's resources, such as the ability to provide electrical power, basic sanitation and clean water had been destroyed and Iraq's assets remained frozen, Iraq's ability to respond to its own children was terribly limited. It seemed that the best way to meet these needs was to use Iraq's own funds, in the form of assets frozen by coalition governments, to pay for humanitarian assistance delivered under United Nations' supervision. The original version of H. Con. Res. 168 proposed that a portion of Iraq's frozen assets be released to UNICEF for the sole purpose of providing medical and humanitarian assistance to Iraqi citizens. This resolution has gained the support of 91 of our House colleagues and I am grateful for their concern.

Other studies—one done on behalf of UNICEF by representations of Tufts University and one done under United Nations' auspices and led by Prince Sadruddin Aga Khan—corroborated and expanded the earlier findings. On August first, the International Task Force of the Select Committee on Hunger held a hearing on the situation in Iraq. Witnesses from Tufts University, UNICEF and Catholic Relief Services—all of which had "on the ground" experience in Iraq—testified to uniformly desperate conditions there—children wading through raw sewage on the streets, the lack of basic medicine, the ever-growing shortage of food.

The United Nations finally addressed the humanitarian crisis in Iraq in August when the Security Council passed Resolution 706 allowing Iraq to sell $1.6 billion worth of oil to pay for relief materials. Even as the resolution was passed, it was already known that the $1.6 billion would fall far short of the true amount needed to finance a minimum humanitarian aid effort in Iraq. The U.S. own estimate of the amount needed was $2.265 billion. However, in order for the flow of oil to begin, the resolution required that Iraq accept U.N. monitoring of relief efforts and oil pumping and that Iraq pay its first installment of reparations to Kuwait. Claiming that the resolution violates its sovereignty, the Iraqi government has thus far refused to comply with terms of the resolution. As a result, the country's children continue to suffer and die.

From August 23 to September 5, the international study team on the gulf crisis comprehensively surveyed the impact of the gulf crisis on the health and welfare of the Iraqi population. The team consisted of 87 researchers from a wide variety of disciplines including agriculture, electrical engineering, environmental sciences, medicine, economics, child psychology, sociology, and public health. The team visited all areas of Iraq and prepared an in-depth report on conditions there. They found: "The economic and social disruption and destruction caused by the gulf crisis has had a direct impact on the health conditions of the children of Iraq. Iraq desperately needs not only food and medicine, but also spare parts to repair basic infrastructure in electrical power generation, water purification, and sewage treatment. Unless Iraq quickly obtains food, medicine and spare parts, millions of Iraqis will continue to experience malnutrition and disease. Children by the tens of thousands will remain in jeopardy. Thousands will die."

With yet another study before us confirming what we had already known

and with Saddam Hussein's continued intransigence in refusing to accept the U.N. mechanism that would bring help and health to the Iraqi people, it left me and others concerned with this situation still asking the question: What can we do?

In an effort to answer that question, on November 13, the Select Committee on Hunger held a second hearing with witnesses from the International Study Team, Catholic Relief Services and the Department of State. In addition, Representative JIM MCDERMOTT from the Seventh District of Washington, who is also a physician, told of his experiences in Iraq during the month of August. By whatever standards used, the situation has not improved since the initial visits by monitoring teams last spring.

Although House Concurrent Resolution 168 proposed the use of assets to provide assistance, I was most willing to go along with either oil sales under the U.N. resolution or with the release of assets as the means by which humanitarian aid gets to Iraq. Since the Iraqis were not accepting the mechanism for oil sales, it seemed that release of assets might again be a reasonable approach to follow. While U.N. Resolution 706 does permit the use of frozen assets for humanitarian purposes in Iraq, the Bush Administration remains opposed to this approach and has advised other governments not to release assets.

It appears that we are at a stalemate on this issue. All the while, time is running out for the children of Iraq. Hundreds more children are dying or having their futures put at risk by lack of proper nutrition and medical care during critical developmental stages in their lives.

The time has passed when we can continue to wait for oil sales to move forward. Therefore, I believe we should press for another creative solution to this situation. One thing is certain: Saddam has put politics ahead of children's lives and futures. In order to save these children it is time for the world community to marshal an international effort equal to the cooperative effort demonstrated during the gulf crisis.

Passage of House Concurrent Resolution 168 as amended makes it clear that we want to act now. The resolution condemns Saddam for refusing to comply with the U.N. resolutions and calls upon President Bush to explore other U.N. alternatives consistent with resolutions 706 and 712 to get an adequate supply of food and medicine to the vulnerable populations of Iraq, especially Iraq's children.

I am grateful for the support and help of many individuals in bringing this resolution to the floor today. My thanks to the Foreign Affairs Committee, particularly Chairman FASCELL and ranking member Mr. BROOMFIELD; and to Chairman HAMILTON and Mr. YATRON whose subcommittees held jurisdiction over the legislation and to their ranking members Mr. GILMAN and Mr. BEREUTER. These subcommittees also graciously allowed me to sit with them on two occasions and ask questions of U.N. Ambassador Pickering on this issue.

The continued activity of the Select Committee on Hunger, under the direction of Chairman HALL and ranking member EMERSON, and, especially the strong leadership demonstrated by International Task Force Chairman DORGAN, was vital to keeping the plight of the children before the Congress and the public. The personal interest of Representative JIM MCDERMOTT in making a private trip to Iraq speaks volumes of the depth of his commitment. Additionally, I gratefully acknowledge the staffs of the Foreign Affairs and Hunger Committees for their assistance and the courtesy shown to me and my staff.

As we act on this legislation today, we say to the children of Iraq: we hear you and we will find a way to help you.

I urge adoption of this resolution.

Mr. DYMALLY. Mr. Speaker, briefly, let me express my thanks to the gentleman from Michigan [Mr. BROOMFIELD] for his cooperation in this matter, as well as to the gentleman from Indiana [Mr. HAMILTON], the gentleman from New York [Mr. GILMAN], and the gentleman from Nebraska [Mr. BEREUTER].

Mr. Speaker, I reserve the balance of my time.

Mr. BROOMFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker as a cosponsor, I strongly support House Concurrent Resolution 168 as amended, and commend Congressman Penny for his perseverance in bringing this matter before the House. I also commend the subcommittees for their work under Chairmen HAMILTON, and YATRON and Congressmen GILMAN and BEREUTER. Finally, I wish to recognize Committee Chairman Fascell for his leadership on this important issue.

This resolution, in its current form, was drafted in close consultation with the administration. The administration has no objection.

Mr. Speaker, what we are witnessing now in Iraq is but the latest chapter in a long saga of contempt for human life by Saddam Hussein. Just when it seemed that the Iraqi dictator had committed every atrocity imaginable, he has manifested a new resourcefulness for inflicting human suffering.

Reports by the United Nations and other organizations indicate that in Iraq there are acute shortages of food and medicine, that there is inadequate sanitation, and that clean drinking water is increasingly scarce. As a result, malnutrition and disease are increasing substantially, particularly among women and children.

How did this catastrophe happen? Did the United Nations target the civilian population of Iraq? Did the United States seek to punish the people of Iraq, or stand in the way of humanitarian relief to vulnerable populations in Iraq? Of course not.

Mr. Speaker, the responsibility for this disaster—like the responsibility for the war which preceded it—lies squarely with the Tyrant from Tikrit, Saddam Hussein. The fact is that food and medicine are not included in the U.N. embargo of Iraq.

Moreover, U.N. Security Council Resolutions 706 and 712—which were adopted under the leadership of the United States—established a mechanism for the Iraqi government to alleviate the suffering that is taking place. These resolutions permit Iraq to sell up to $1.6 billion worth of oil in order to pay for urgently needed food, medicine, and other humanitarian items.

What has been Saddam Hussein's response? He has refused to comply with these Resolutions. Worse, he has thwarted the distribution of food and medicine to vulnerable populations inside Iraq. Instead, he has actually directed humanitarian assistance to his supporters.

This resolution condemns these deplorable actions, and it commends President Bush and the U.N. Security Council for their efforts to alleviate the suffering of the people of Iraq. It also urges the President, in coordination with the United Nations, to explore alternative ways of delivering humanitarian aid to Iraq.

Mr. Speaker, this is an important and timely resolution, and I urge its adoption.

□ 2210

Mr. Speaker, I reserve the balance of my time.

Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN], a member of the Committee on Foreign Affairs.

Mr. GILMAN. Mr. Speaker, I am pleased to rise to strongly endorse H. Con. Res. 168 and I commend the gentleman from Minnesota, Mr. PENNY, for introducing this resolution.

Saddam Hussein's barbarity toward the people of Kuwait is now being exceeded by the atrocities that he is inflicting on his own people. This brutal dictator is engaged in systematically depriving the Iraqi people of access to food, medicine, and other humanitarian supplies. Saddam Hussein continues to flout United Nations security council resolutions number 706 and number 712, diverting supplies to his supporters, and blocking the delivery of humanitarian relief by the United Nations and private relief organizations.

Mr. Speaker, I join in saluting President Bush and the U.N. Security Council for their diligence in establishing a special mechanism to facilitate humanitarian relief for Iraq, and in continuing to seek to obtain Iraq's compliance with security council resolutions number 706 and number 712.

I urge my colleagues to encourage the President, through the United Nations, to consider alternatives to bring timely relief to the people of Iraq as they continue to suffer under the deprivations of their despotic dictator.

Mr. BROOMFIELD. Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska [Mr. BEREUTER], a member who worked very hard on this resolution.

Mr. BEREUTER. Mr. Speaker, as ranking member of the Subcommittee on Human Rights and International Organizations, this member rises in strong support of House Concurrent Resolution 168.

Few things have been more heartbreaking, Mr. Speaker, than the suffering that the Iraqi people have experienced because of the leadership of Saddam Hussein since the end of the gulf war. Because of Saddam Hussein's continued flaunting of the cease-fire agreement and the subesequent U.N. Security Council resolutions, the country of Iraq faces a situation where hundreds of thousands of innocent civilians are at risk. And we know, Mr. Speaker, that countless thousands would have perished had not the United States and other nations come to the assistance of the Kurdish population in northern Iraq through "Operation Provide Comfort."

It is clear that Saddam Hussein is using the suffering of his people for his own perverse political gains. He refuses to use revenue to be generated by the sale of Iraqi oil under U.N. direction. Regions that did not unwaiveringly support Saddam's war effort are now paying the price. We know, for example, that Saddam has targeted specific communities where existing stocks of food and medicine have been seized. It is these communities, in turn, that Saddam Hussein has displayed to visiting media and dignitaries to reflect the suffering of his people. Such is the character of Saddam Hussein.

Moreover, Saddam Hussein has done his best to manipulate international relief efforts. He has diverted food supplied by the World Food Program [WFP], and given that food to the army and to party loyalists. His interference has been so serious that organizations such as the WFP and UNICEF refused to participate as long as Saddam Hussein continues to control the distribution of aid.

There is a U.N. mechanism to fund relief activities through the sale of Iraqi oil, but thus far Saddam Hussein is trying to wait out the international community. He is refusing to sell oil as long as the profits go to support U.N. humanitarian activities.

While we are all rightly outraged at the intolerable behavior of the Iraqi Government, we cannot ignore the starvation of the innocent civilians of that nation. The suffering and starvation are real. The disease and lack of medicine are real. House Concurrent Resolution 168 says that we do not quitely accept the barbarism of Saddam Hussein. It says that the United States should work with the U.N. to look for creative ways to assist the suffering people of Iraq.

Mr. Speaker, while House Cononcurrent Resolution 168 addresses the immediate problem of disease and malnutrition in Iraq, we should not delude ourselves. The problem will persist so long as the Iraq leadership has no regard for its own population. The Subcommittee on Human Rights and International Organizations, together with the Subcommittee on Europe and the Middle East, already have conducted a series of hearings on this very subject. This Member has no doubt that these hearings and appropriate pressure will continue as long as Saddam Hussein remains in power. Simply put, we will not let this issue fade away.

Mr. Speaker, this Member would take a moment to recognize the dedicated efforts of the author of this resolution, the distinguished gentleman from Minnesota [Mr. PENNY]. As a member of the Select Committee on Hunger, he has performed yeoman's work. He has effectively worked to make us all aware of the terrible suffering that is taking place in Iraq and to advance this resolution; this body is in his debt.

Mr. Speaker, this Member urges the adoption of House Concurrent Resolution 168.

Mr. HALL of Ohio. Mr. Speaker, I rise in support of the resolution offered by my colleague from Minnesota, TIM PENNY. I would also like to commend Mr. PENNY for all his fine work and leadership on the issue of humanitarian aid to Iraq. He has pursued this issue tirelessly and with great compassion since he first became aware of the growing humanitarian disaster in much of Iraq. I believe this resolution shows great flexibility in urging the President to assert greater leadership at the United Nations to find more resources to get food and medicine to the vulnerable populations of Iraq, especially children.

Mr. Speaker, this is a resolution that I believe deserves support from every Member of Congress. The United States has tried hard, through United Nations Security Council Resolutions 706 and 712, to get the Iraqi Government to allow more humanitarian aid in by using revenues from its oil sales. However, tragically, Iraq refuses to cooperate with even this measure to help their own people. But this does not mean we can give up trying—we cannot stand by and let the innocent women and children of Iraq continue to die. We have a moral obligation to try harder.

The International Task Force of the Select Committee on Hunger has held two hearings on the humanitarian situation in Iraq. The most recent one, on November 13, was even more depressing than the one last summer. Conditions have continued to deteriorate to the point where the infant and child mortality rates have at least doubled, if not tripled, since the gulf crisis. The International Study Team, a group of public health experts from Harvard and elsewhere, has just issued a second report on conditions in Iraq which paints a picture of a continuing downward spiral. There are widespread shortages of food, essential medicines, and safe water. A witness from the study team reported seeing raw sewage running through a hospital. Not surprising, these conditions have led to a public health disaster; water-borne diseases, such as cholera, are epidemic; and have increased by as much as one hundredfold in some areas.

Mr. Speaker, I know, from my constituents, that the American people don't want the children of Iraq to pay for Saddam Hussein's actions. I know that they strongly support providing humanitarian aid to the children and mothers of Iraq. This resolution urges the administration to do its utmost to provide that aid. I urge my colleagues to support the resolution.

Mr. MCDERMOTT. Mr. Speaker, I commend my colleague, Mr. PENNY for sponsoring House Concurrent Resolution 168 and for his efforts to find a way to provide humanitarian aid to the people of Iraq. Mr PENNY has worked for months on this issue. His original proposal to use Iraqi frozen assets to pay for humanitarian aid is worthwhile and I am one of the 92 Members of the House who cosponsored this legislation. However, it is clear this idea is unacceptable to the administration and so we must urge the administration to seek other solutions.

House Concurrent Resolution 168, as it is now written, will not solve the public health crisis in Iraq, but certainly this resolution will send a message to the State Department and the United Nations that Congress is becoming increasingly concerned about the disasterous conditions in Iraq and the United States' response to this situation.

I traveled to Iraq in August with a human rights group as a physician examining the state of its public health system. I saw the devastation of Iraq's infrastructure wrought by the strategic bombing of the Allied Forces. The most essential aspects of a society's public health system—water, electricity, and sewage systems—were destroyed by our military assault, and these systems have yet to be adequately reconstructed.

The health of the Iraqi people is spiraling downward. The hospitals are filled with malnourished children suffering from cholera and typhoid because there is no clean water. Women are dying in childbirth because there is no anesthesia to perform cesearean sections. Diabetics are in comas because there is no insulin, and people are suffering strokes because there is no high blood pressure medication. The health care situation was critical when I was there in August, and surely it is worse today. The recent report released by the Harvard School of Public Health investigative team confirms this.

A massive humanitarian aid effort is desperately needed in Iraq. This effort must be coordinated among the International Red Cross, the Red Crescent and the Iraqi distribution system. The relief organizations cannot deliver aid in a country of 18 million people without the use of its existing distribution system.

The administration apparently is hopeful that the U.N. resolution allowing Iraq to use proceeds from its oil sales to purchase food and medical supplies will alleviate the suffering of its people. However, the most recent negotiations between the U.N. and Saddam have failed. It is time to explore other options. The prospect that U.S. policy may well remain unchanged while negotiations on the oil sale option continue is distressing. For many innocent Iraqis, death will not wait.

The United States must find a way to move beyond its political agenda to help the people of Iraq. I urge our State Department to make this effort a priority. I realize that it is not our sole responsibility—Hussein must be willing to negotiate—but certainly the United States can increase its efforts to try to find some workable solution to the desperate situation in Iraq. We must do absolutely all that we can to achieve a solution to the food and medical crisis in Iraq.

I hope that House Concurrent Resolution 168 will send the much needed signal to the Bush administration that there is growing concern in the Congress for the health and welfare of the Iraqi people. It was not this country's policy to harm innocent Iraqis in the gulf war and it certainly should not be United States policy today.

I commend Mr. PENNY for his efforts and offer my full support to House Concurrent Resolution 168.

Mr. YATRON. Mr. Speaker, I rise in strong support of the resolution and commend the author, Mr. PENNY as well as Chairman FASCELL, Congressmen BROOMFIELD, HAMILTON, GILMAN, and BEREUTER for their leadership in bringing this legislation to the House floor.

Mr. Speaker, this resolution appropriately commends the President and the U.N. for seeking to address the humanitarian crisis in Iraq through the relevant Security Council resolutions.

The resolution calls for the President and the U.N. to explore alternatives, consistent with U.N. Resolutions 706 and 712, to bring much needed relief to hundreds of thousands of starving and sick people including children. But the resolution rightly places the blame for this tragedy squarely on the shoulders of Saddam Hussein.

Mr. Speaker, in the last year, the Subcommittee on Human Rights and International Orgranizations, which I chair, and the Europe and the Middle East Subcommittee, chaired by Congressman HAMILTON, conducted joint hearings on the U.N. role in the gulf.

Based on the testimony at these hearings, it is clear that Saddam is cynically manipulating the food supply to starve vulnerable populations centers while at the same time ensuring that his political cronies and military leaders are well fed. There are cases in which Saddam has either blocked or diverted U.N. food shipments destined for the suffering people of Iraq.

Saddam is starving the Iraqi people so as to generate anti-Americanism which he hopes will bolster his tenuous political position and he is starving his people to build a case for breaking the strict U.N. sanctions arrayed against his regime.

The current sanctions permit U.N.-administered humanitarian relief operations and the U.N. Security Council has adopted a resolution approving the sale of $1.6 billion of Bagdad's oil of which the bulk of the proceeds would be used for humanitarian assistance under strict U.N. supervision.

Saddam has rejected these arrangements because it prevents him from purchasing goods and technologies to rebuild his warmaking capacity.

The world community has justly maintained the sanctions against Saddam but it must be equally resolute in not allowing Saddam to starve hundreds of thousands of innocent people.

This resolution calls for a more assertive effort, under U.N. auspices, to remedy this ongoing tragedy. Our commitment to human rights and justice calls for no less and I urge the adoption of the resolution.

Mr. BROOMFIELD. Mr. Speaker, I yield back the balance of my time.

Mr. DYMALLY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentleman from California [Mr. DYMALLY] that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 168, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution, as amended, was agreed to.

The title of the concurrent resolution was amended so as to read:

"Concurrent Resolution condemning Saddam Hussein for refusing to comply with United Nations Security Council resolutions 706 and 712 and urging the President under the auspices of the United Nations to provide humanitarian assistance to the vulnerable populations of Iraq.".

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DYMALLY. Mr. Speaker, I ask unanimous consent that all Members may have five legislative days within which to revise and extend their remarks and include therein extraneous material on H. Con. Res. 168; the concurrent resolution just agreed to.

The SPEAKER, pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

1992 WHITE HOUSE COMMEMORATIVE COIN ACT

Mr. TORRES. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3337) to require the Secretary of the Treasury to mint a coin in commemoration of the 200th anniversary of the White House, as amended.

The Clerk read as follows:

H.R. 3337

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "1992 White House Commemorative Coin Act".

SEC. 2. COIN SPECIFICATIONS.

(a) ONE DOLLAR SILVER COINS.—

(1) ISSUANCE.—The Secretary shall issue not more than five hundred thousand (500,000) one dollar coins which shall weigh 26.73 grams, have a diameter of 1.500 inches, and shall contain 90 percent silver and 10 percent copper.

(2) DESIGN.—The design of such dollar coins shall be emblematic of the White House. On each such coin there shall be a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(b) LEGAL TENDER.—The coins issued under this Act shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 3. SOURCES OF BULLION.

The Secretary shall obtain silver for the coins minted under this Act from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 4. SELECTION OF DESIGN.

The design for each coin authorized by this Act shall be selected by the Secretary after consultation with the Curator of the White House, the Commission of Fine Arts, and the White House Historical Association.

SEC. 5 SALE OF COINS.

(a) SALE PRICE.—Notwithstanding any provision of law, the coins issued under this Act shall be sold by the Secretary at a price equal to the face value, plus the cost of designing and issuing such coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) BULK SALES.—The Secretary shall make bulk sales at a reasonable discount to reflect the lower costs of such sales.

(c) PREPAID ORDERS AT A DISCOUNT.—The Secretary shall accept prepaid orders for the coins prior to the issuance of such coins. Sales under this subsection shall be at a reasonable discount to reflect the benefit of prepayment.

(d) SURCHARGE REQUIRED.—All sales shall include a surcharge of $10 per coin.

SEC. 6. ISSUANCE OF THE COINS.

(a) TIME FOR ISSUANCE.—The coins authorized under this Act shall be issued beginning on May 1, 1992.

(b) PROOF AND UNCIRCULATED COINS.—The coins authorized under this Act shall be issued in uncirculated and proof qualities. Not more than one facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

SEC. 7. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

No provision of law governing procurement or public contracts shall be applicable to the procurement of goods or services necessary for carrying out the provisions of this Act. Nothing in this section shall relieve any person entering into a contract under the authority of this Act from complying with any law relating to equal employment opportunity.

SEC. 8. DISTRIBUTION OF SURCHARGES.

The total surcharges received by the Secretary from the sale of the coins issued under this Act shall be promptly paid by the Secretary to The White House Endowment Fund (The Fund) to assist The Fund's efforts to raise an endowment to be a permanent source of support for the White House Collection of fine art and historic furnishings, and for the maintenance of the historic public rooms of the White House.

SEC. 9. AUDITS.

The Comptroller General shall have the right to examine such books, records, documents, and other data of The Fund as may be related to the expenditure of amount paid under section 8.

SEC. 10. COINAGE PROFIT FUND.

Notwithstanding any provision of law—

(1) all amounts received from the sale of coins issued under this Act shall be deposited in the coinage profit fund;

(2) the Secretary shall pay the amounts authorized under this Act from the coinage profit fund to The White House Endowment Fund; and

(3) the Secretary shall charge the coinage profit fund with all expenditures under this Act.

SEC. 11. FINANCIAL ASSURANCES.

(a) The Secretary shall take such actions as may be necessary to ensure that the minting and issuance of the coins referred to in section 2 shall not result in any net cost to the Federal Government.

(b) No coin shall be issued under this Act unless the Secretary has received—

(1) full payment thereof;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

TITLE I—1992 WHITE HOUSE COMMEMORATIVE COINS

SEC. 101. SHORT TITLE.

This title may be cited as the "1992 White House Commemorative Coin Act".

SEC. 102. COIN SPECIFICATIONS.

(a) ONE DOLLAR SILVER COINS.—

(1) ISSUANCE.—The Secretary shall issue not more than five hundred thousand (500,000) one dollar coins which shall weigh 26.73 grams, have a diameter of 1,500 inches, and shall contain 90 percent silver and 10 percent copper.

(2) DESIGN.—The design of such dollar coins shall be emblematic of the White House. On each such coin there shall be a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(b) LEGAL TENDER.—The coins issued under this title shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 103. SOURCES OF BULLION.

The Secretary shall obtain silver for the coins minted under this title from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 104. SELECTION OF DESIGN.

The design for each coin authorized by this title shall be selected by the Secretary after consultation with the Curator of the White House, the Commission of Fine Arts, and the White House Historical Association.

SEC. 105. SALE OF COINS.

(a) SALE PRICE.—Notwithstanding any provision of law, the coins issued under this title shall be sold by the Secretary at a price equal to the face value, plus the cost of designing and issuing such coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) PREPAID ORDERS AT A DISCOUNT.—The Secretary shall accept prepaid orders for the coins prior to the issuance of such coins. Sales under this subsection shall be at a reasonable discount to reflect the benefit of prepayment.

(c) SURCHARGE REQUIRED.—All sales shall include a surcharge of $10 per coin.

SEC. 106. ISSUANCE OF THE COINS.

(a) PERIOD FOR ISSUANCE.—The coins authorized under this title shall be available for issue not later than May 1, 1992, but shall be issued only during the 1-year period beginning on such date.

(b) PROOF AND UNCIRCULATED COINS.—The coins authorized under this title shall be issued in uncirculated and proof qualities. Not more than one facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

SEC. 107. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

No provision of law governing procurement or public contracts shall be applicable to the procurement of goods or services necessary for carrying out the provisions of this title. Nothing in this section shall relieve any person entering into a contract under the authority of this title from complying with any law relating to equal employment opportunity.

SEC. 108. DISTRIBUTION OF SURCHARGES.

The total surcharges received by the Secretary from the sale of the coins issued under this title shall be promptly paid by the Secretary to The White House Endowment Fund (The Fund) to assist The Fund's efforts to raise an endowment to be a permanent source of support for the White House Collection of fine art and historic furnishings, and for the maintenance of the historic public rooms of the White House.

SEC. 109. AUDITS.

The Comptroller General shall have the right to examine such books, records, documents, and other data of The Fund as may be related to the expenditure of amount paid under section 108.

SEC. 110. COINAGE PROFIT FUND.

Notwithstanding any provision of law—

(1) all amounts received from the sale of coins issued under this title shall be deposited in the coinage profit fund;

(2) the Secretary shall pay the amounts authorized under this title from the coinage profit fund to The White House Endowment Fund; and

(3) the Secretary shall charge the coinage profit fund with all expenditures under this title.

SEC. 111. FINANCIAL ASSURANCES.

(a) The Secretary shall take such actions as may be necessary to ensure that the minting and issuance of the coins referred to in section 102 shall not result in any net cost to the Federal Government.

(b) No coin shall be issued under this title unless the Secretary has received—

(1) full payment for such coin;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

TITLE II—WORLD CUP USA 1994 COMMEMORATIVE COINS

SEC. 201. SHORT TITLE.

This title may be cited as the "World Cup USA 1994 Commemorative Coin Act".

SEC. 202. COIN SPECIFICATIONS.

(a) FIVE DOLLAR GOLD COINS.—The Secretary of the Treasury (hereafter in this title referred to as the "Secretary") shall issue not more than 750,000 five dollar coins which shall weigh 8.359 grams, have a diameter of 0.850 inches, and shall contain 90 percent gold and 10 percent alloy.

(b) ONE DOLLAR SILVER COINS.—The Secretary shall issue not more than 5,000,000 one dollar coins which shall weigh 26.73 grams, have a diameter of 1.500 inches, and shall contain 90 percent silver and 10 percent copper.

(c) HALF DOLLAR CLAD COINS.—The Secretary shall issue not more than 5,000,000 half dollar coins which shall be minted to the specifications for half dollar coins contained in section 5112(b) of title 31, United States Code.

(d) LEGAL TENDER.—The coins issued under this title shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 203. SOURCES OF BULLION.

(a) GOLD.—The Secretary shall obtain gold for the coins minted under this title pursuant to the authority of the Secretary under existing law.

(b) SILVER.—The Secretary shall obtain silver for the coins minted under this title from stockpiles established under the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 204. DESIGN.

(a) DESIGN REQUIREMENTS.—The design of each coin authorized hereunder shall include the official 1994 World Cup logo adopted by World Cup USA 1994, Inc., the organizing committee for the event (hereafter referred to as the "Organizing Committee") and shall reflect the unique appeal of soccer. On each coin authorized hereunder there shall be a designation of the value of the coin, and inscriptions of the words "United States of America", "E Pluribus Unum", "In God We Trust", "Liberty" and "World Cup USA 1994".

(b) DESIGN COMPETITION.—The Director of the United States Mint shall sponsor a nationwide open competition for the design of each coin authorized hereunder beginning not later than 3 months and concluding not later than 9 months after the date of the entitlement of this title. The Director of the United States Mint shall select 10 designs for each coin to be submitted to the Secretary, who shall select the final design for each such coin in consultation with the Organizing Committee.

SEC. 205. SALE OF COINS.

(a) SALE PRICE.—Notwithstanding any other provision of law, the coins issued under this title shall be sold by the Secretary at a price equal to the face value, plus the cost of designing and issuing such coins (including labor, materials, dies, use of machinery, overhead expenses, marketing and shipping).

(b) BULK SALES.—The Secretary shall make bulk sales at a reasonable discount.

(c) PREPAID ORDERS AT A DISCOUNT.—The Secretary shall accept prepaid orders for the coins prior to the issuance of such coins. Sales under this subsection shall be at a reasonable discount.

(d) SURCHARGE REQUIRED.—All sales shall include a surcharge of $35 per coin for the five dollar coins, $7 per coin for the one dollar coins, and $1 for the half dollar coins.

(e) WORLD CUP COMMUNITIES.—The Secretary shall use best efforts to market World Cup coins in the United States with particular focus on communities in which World Cup games are held.

(f) INTERNATIONAL SALES.—The Secretary, in cooperation with the Organizing Committee, shall develop an International Marketing Program to promote and sell coins outside the United States.

(g) REPORTS TO CONGRESS.—

(1) REQUIRED.—Not later than 15 days after the last day of each month which begins before January 1, 1996, the Secretary shall submit a report describing in detail the activities carried out under this title to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(2) CONTENTS OF REPORT.—Each report submitted pursuant to paragraph (1) shall include a review of all marketing activities under this section and a financial statement which details sources of funds, surcharges generated, and expenses incurred for manufacturing, materials, overhead, packaging, marketing, and shipping.

SEC. 206. ISSUANCE OF THE COINS.

(a) PERIOD FOR ISSUANCE.—The coins authorized under this title shall be minted and available for issue no later than January 3, 1994, but shall be issued only during 1994.

(b) PROOF AND UNCIRCULATED COINS.—The coins authorized under this title shall be issued in uncirculated and proof qualities.

(c) BUREAU OF THE MINT.—Not more than 1 facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

SEC. 207. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

(a) IN GENERAL.—Except as provided in subsection (b), no provision of law governing procurement or public contracts shall be applicable to the procurement of goods or services necessary for carrying out the provisions of this title.

(b) EQUAL EMPLOYMENT OPPORTUNITY.—Subsection (a) shall not relieve any person entering into a contract under the authority of this title from complying with any law relating to equal employment opportunity.

SEC. 208. DISTRIBUTION OF SURCHARGES.

(a) IN GENERAL.—All surcharges which are received by the Secretary from the sale of coins issued under this title shall be promptly paid by the Secretary to the Organizing Committee.

(b) USE OF PROCEEDS.—Amounts received under subsection (a) shall be used by the Organizing Committee for purposes of organizing and staging the 1994 World Cup, with 10 percent of such funds to be made available through the United States Soccer Federal Foundation, Inc., for distribution to institutions for scholastic scholarships to qualified students.

SEC. 209. AUDITS.

The Comptroller General shall have the right to examine such books, records, documents and other data of the Organizing Committee as may be related to the expenditure of amounts paid under section 208.

SEC. 210. COINAGE PROFIT FUND.

Notwithstanding any other provision of law—

(1) all amounts received from the sale of coins issued under this title shall be deposited in the coinage profit fund;

(2) the Secretary shall pay the amounts authorized under this title from the coinage profit fund to the Organizing Committee; and

(3) the Secretary shall charge the coinage profit fund with all expenditures under this title.

SEC. 211. FINANCIAL ASSURANCES.

(a) NO NET COST.—The Secretary shall take such actions as may be necessary to ensure that the minting and issuance of the coins referred to in section 202 shall not result in any net cost to the Federal Government.

(b) PAYMENT ASSURANCES.—No coin shall be issued under this title unless the Secretary has received—

(1) full payment for such coin;

(2) security satisfactory to the Secretary to indemnify the United States for full payment;

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

TITLE III—SILVER MEDALS FOR VETERANS OF THE PERSIAN GULF CONFLICT

SEC. 301. PURPOSE.

It is the purpose of this title to commemorate the sacrifices made and service rendered to the United States by members of the United States Armed Forces who serve in a combat zone in connection with the Persian Gulf conflict.

SEC. 302. SILVER CONGRESSIONAL COMMEMORATIVE MEDAL.

(a) IN GENERAL.—The Secretary of the Treasury shall design and strike a silver medal with suitable emblems, devices, and inscriptions to be determined by the Secretary in commemoration of the sacrifices made and service rendered to the United States by members of the United States Armed Forces referred to in section 303(a).

(b) SOURCE OF BULLION.—The Secretary of the Treasury shall obtain silver for minting coins under this title only from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.) and such silver shall be furnished to the Secretary at no cost by the custodian of the stockpile.

SEC. 303. ELIGIBILITY TO RECEIVE MEDAL.

(a) IN GENERAL.—Any member of the United States Armed Forces who serves in a combat zone in connection with the Persian Gulf conflict shall be eligible for a silver medal referred to in section 302.

(b) DETERMINATION.—Eligibility under subsection (a) shall be determined by the Secretary of Defense and such Secretary shall establish a list of the names of such eligible individuals before the end of the 120-day period beginning on the date of the entitlement of this title.

(c) NEXT OF KIN.—If any member referred to in subsection (a) is deceased, the next of kin of such member may receive the medal referred to in section 302.

(d) DELIVERY.—The medals struck pursuant to section 302(a) shall be delivered by the Secretary of the Treasury to the Secretary of Defense and the Secretary of Defense shall arrange for the distribution of the medals to the eligible individuals.

SEC. 304. NATIONAL MEDALS.

The medals struck pursuant to this title are national medals for purposes of chapter 51 of title 31, United States Code.

SEC. 305. DUPLICATE MEDALS.

(a) STRIKING AND SALE.—The Secretary of the Treasury may strike and sell duplicates in bronze of the silver medal described in section 302 under such regulations as the Secretary may prescribe, at a price sufficient to cover the cost of duplicates and the cost of designing and striking the medals under section 302, including labor, materials, dies, use of machinery, and overhead expenses.

(b) PROCEEDS IN EXCESS OF COST TO BE USED TO REDUCE THE NATIONAL DEBT.—Any amount received by the Secretary of the Treasury from the sale of duplicate medals under subsection (a) in excess of the costs described in such subsection shall be deposited in the general fund of the Treasury and shall be used for the sole purpose of reducing the national debt.

SEC. 306. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

(a) IN GENERAL.—Except as provided in subsection (b), no provision of law governing procurement or public contracts shall be applicable to the procurement of goods and services necessary for carrying out the provisions of this title.

(b) EQUAL EMPLOYMENT OPPORTUNITY.—Subsection (a) shall not relieve any person entering into a contract under the authority of this title from complying with any law relating to equal employment opportunity.

SEC. 307. FINANCIAL ASSURANCES.

(a) NO NET COST TO THE GOVERNMENT.—The Secretary shall take such actions as may be necessary to ensure that minting and issuing medals under this title will not result in any net cost to the United States Government.

(b) NO EXPENDITURES IN ADVANCE OF RECEIPT OF FUNDS.—The Secretary of the Treasury shall not strike, mint, or distribute the medals described in section 302 until such time as the Secretary certifies that sufficient funds have been received by the Secretary under section 305 or from donations from private persons to ensure that striking, minting, and issuing medals described in section 302 will not result in any net cost to the United States Government.

TITLE IV—CHRISTOPHER COLUMBUS QUINCENTENARY COINS AND FELLOWSHIP FOUNDATION

SUBTITLE A—CHRISTOPHER COLUMBUS QUINCENTENARY COINS

SEC. 401. SHORT TITLE.

This subtitle may be cited as the "Christopher Columbus Quincentenary Coin Act".

SEC. 402. SPECIFICATIONS OF COINS.

(a) FIVE DOLLAR GOLD COINS.—

(1) ISSUANCE.—The Secretary of the Treasury (hereinafter in this subtitle referred to as the "Secretary") shall mint and issue not more than 500,000 five dollar coins each of which shall—

(A) weigh 8.359 grams;

(B) have a diameter of .850 inches; and

(C) be composed of 90 percent gold and 10 percent alloy.

(2) DESIGN.—The design of the five dollar coins shall, in accordance with section 404, bear a likeness of Christopher Columbus. Each five dollar coin shall bear a designation of the value of the coin, an inscription of the

year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(b) One Dollar Silver Coins.—

(1) Issuance.—The Secretary shall mint and issue not more than 4,000,000 one dollar coins each of which shall—

(A) weigh 26.73 grams;

(B) have a diameter of 1.500 inches; and

(C) be composed of 90 percent silver and 10 percent copper.

(2) Design.—The design of the one dollar coins shall, in accordance with section 404, be emblematic of the quincentenary of the discovery of America. Each one dollar coin shall bear a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(c) Half Dollar Clad Coins.—

(1) Issuance.—The Secretary shall issue not more than 6,000,000 half dollar coins each of which shall—

(A) weigh 11.34 grams;

(B) have a diameter of 1.205 inches; and

(C) be minted to the specifications for half dollar coins contained in section 5112(b) of title 31, United States Code.

(2) Design.—The design of the half dollar coins shall, in accordance with section 404, be emblematic of the quincentenary of the discovery of America. Each half dollar coin shall bear a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(d) Legal Tender.—The coins minted under this subtitle shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 403. SOURCES OF BULLION.

(a) Gold.—The Secretary shall obtain gold for minting coins under this subtitle pursuant to the authority of the Secretary under existing law.

(b) Silver.—The Secretary shall obtain silver for minting coins under this subtitle only from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 404. DESIGN OF COINS.

The design for each coin authorized by this subtitle shall be selected by the Secretary after consultation with the Christopher Columbus Fellowship Foundation and the Commission of Fine Arts.

SEC. 405. ISSUANCE OF COINS.

(a) Five Dollar Coins.—The five dollar coins minted under this subtitle may be issued in uncirculated and proof qualities and shall be struck at the Untied State Mint at West Point, New York.

(b) One Dollar and Half Dollar Coins.—The one dollar and half dollar coins minted under this subtitle may be issued in uncirculated and proof qualities, except that not more than one facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

(c) Period of Issuance.—The Secretary may issue the coins minted under this subtitle during the period beginning on January 1, 1992, and ending on June 30, 1993.

SEC. 406. SALE OF COINS.

(a) In general.—Notwithstanding any other provision of law, the Secretary shall sell the coins minted under this subtitle at a price equal to the face value, plus the cost of designing and issuing the coins (including labor, materials, dies, use of machinery, and overhead expenses).

(b) Bulk Sales.—The Secretary shall make any bulk sales of the coins minted under this subtitle at a reasonable discount.

(c) Prepared Orders.—The Secretary shall accept prepaid orders for the coins minted under this subtitle prior to the issuance of each coins. Sale prices with respect to such prepaid orders shall be at a reasonable discount.

(d) Surcharges.—All sales of coins minted under this subtitle shall include a surcharge of $35 per coin for the five dollar coins, $7 per coin for the one dollar coins, and $1 per coin for the half dollar coins.

SEC. 407. FINANCIAL ASSURANCES.

(a) No Net Cost to the Government.—The Secretary shall take such actions as may be necessary to ensure that minting and issuing coins under this subtitle will not result in any net cost to the United States Government.

(b) Payment for Coins.—A coin shall not be issued under this subtitle unless the Secretary has received—

(1) full payment for the coin;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration Board.

SEC. 408. USE OF SURCHARGES.

(a) In General.—The surcharges that are received by the Secretary from the sale of coins minted under this subtitle shall be deposited in the Christopher Columbus Fellowship Fund and be available to the Christopher Columbus Fellowship Foundation.

(b) Audits.—The Comptroller General shall have the right to examine such books, records, documents, and other data of the Christopher Columbus Fellowship Foundation as may be related to the expenditure of amounts paid under subsection (a).

SEC. 409. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

(a) In General.—Except as provided in subsection (b), no provision of law governing procurement or public contracts shall be applicable to the procurement of goods and services necessary for carrying out the provisions of this subtitle.

(b) Equal Employment Opportunity.—Subsection (a) shall not relieve any person entering into a contract under the authority of this subtitle from complying with any law relating to equal employment opportunity.

SEC. 410. COINAGE PROFIT FUND.

(a) Deposits.—All amounts received from the sale of coins issued under this subtitle shall be deposited in the coinage profit fund.

(b) Payments.—The Secretary shall make the deposits of the amounts required under section 408(a) from the coinage profit fund.

(c) Expenditures.—The Secretary shall charge the coinage profit fund with all expenditures under this subtitle.

SEC. 411. REPORTS TO CONGRESS

(A) Required.—Not later than 15 days after the last day of each month which begins before July 1, 1993, the Secretary shall submit a report describing in detail the activities carried out under this subtitle to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(b) Contents of Report.—Each report submitted pursuant to subsection (a) shall include a review of all marketing activities under section 406 and a financial statement which details sources of funds, surcharges generated, and expenses incurred for manufacturing, materials, overhead, packaging, marketing, and shipping.

SUBTITLE B—CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION

SEC. 421. SHORT TITLE.

This subtitle may be cited as the "Christopher Columbus Fellowship Act".

SEC. 422. PURPOSE.

The purpose of this subtitle is to establish the Christopher Columbus Fellowship Program to encourage and support research, study, and labor designed to produce new discoveries in all fields of endeavor for the benefit of mankind.

SEC. 423. CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION.

(a) Establishment and Purposes.—There is established, as an independent establishment of the executive branch, the Christopher Columbus Fellowship Foundation (hereinafter in this subtitle referred to as the "Foundation").

(b) Membership.—The Foundation shall be subject to the supervision and direction of the Board of Trustees. The Board shall be composed of 13 members as follows:

(1) 2 members appointed by the President in consultation with the President pro tempore of the Senate.

(2) 2 members appointed by the President in consultation with the Minority Leader of the Senate.

(3) 2 members appointed by the President in consultation with the Speaker of the House of Representatives.

(4) 2 members appointed by the President in consultation with the Minority Leader of the House of Representatives.

(5) 5 members appointed by the President.

(c) Chairman and Vice chairman of the foundation.—The President shall designate a chairman and a Vice Chairman from among the members appointed by the President.

(d) Terms of Office; Vacancies.—Each member of the Board of Trustees appointed under subsection (b) shall serve for a term of 6 years from the expiration of the term of such member's predecessor, except that—

(1) any member appointed to fill a vacancy occurring prior to the expiration of the term for which such member's predecessor was appointed shall be appointed for the remainder of such term; and

(2) of the members first appointed—

(A) 4 shall be appointed for a term of 2 years;

(B) 5 shall be appointed for a term of 4 years; and

(C) 4 shall be appointed for a term of 6 years,

as designated by the President.

(e) Expenses; No Additional Compensation.—Members of the Board shall serve without pay, but shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of their duties as members of the Board.

SEC. 424. FELLOWSHIP RECIPIENTS.

(a) Award.—The Foundation is authorized to award fellowships to outstanding individuals to encourage new discoveries in all fields of endeavor for the benefit of mankind. Recipients shall be known as "Columbus Scholars".

(b) Term.—Fellowships shall be granted for such periods as the Foundation may prescribe but not to exceed 2 years.

(c) Selection.—The Foundation may provide, directly or by contract, for the conduct of a nationwide competition for the selection of fellowship recipients.

SEC. 425. STIPENDS.

Each person awarded a fellowship under this subtitle shall receive a stipend as determined by the Foundation.

SEC. 426. CHRISTOPHER COLUMBUS FELLOWSHIP FUND.

(a) IN GENERAL.—There is established in the Treasury a fund to be known as the Christopher Columbus Scholarship Fund (hereafter in this subtitle referred to as the "fund"), which shall consist of—

(1) amounts deposited under subsection (d);

(2) obligations obtained under subsection (c);

(3) amounts contributed to the Foundation; and

(4) all surcharges received by the Secretary of the Treasury from the sale of coins minted under the Christopher Columbus Quincentenary Coin Act.

(b) INVESTMENTS.—

(1) DUTY OF SECRETARY TO INVEST.—The Secretary of the Treasury shall invest in full any amount appropriated or contributed to the fund.

(2) AUTHORIZED INVESTMENTS.—Investments pursuant to paragraph (1) may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired—

(A) on original issue at the issue price; or

(B) by purchase of outstanding obligations at the market price.

(3) SPECIAL OBLIGATIONS.—The purposes for which obligations of the United States may be issued under chapter 31 of title 31, United States Code, are hereby extended to authorize the issuance at par of special obligations exclusively to the fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the public debt; except that, if such average rate is not a multiple of ⅛ of 1 percent, the rate of interest of such special obligations shall be the multiple of ⅛ of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary determines that the purchase of other obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States or original issue at the market price, is not in the public interest.

(c) SALE OF OBLIGATIONS.—Any obligations acquired by the fund (except special obligations issued exclusively to the fund in accordance with subsection (b)(3)) may be sold by the Secretary at the market price, and such special obligations may be redeemed at par plus accrued interest.

(d) INTEREST.—The interest on, and the proceeds from, the sale or redemption of any obligations held in the fund shall be credited to and form a part of the fund.

(e) AVAILABILITY OF FUND.—

(1) STIPENDS.—The fund shall be available to the Foundation for payment of stipends awarded under section 425.

(2) EXPENSES.—The Secretary of the Treasury is authorized to pay to the Foundation from the interest and earnings of the funds such sums as the Board determines are necessary and appropriate to enable the Foundation to carry out the provision of this subtitle.

(f) DISBURSEMENTS.—Disbursements from the fund shall be made on vouchers approved by the Foundation and signed by the Chairman.

SEC. 427. AUDITS.

The activities of the Foundation under this subtitle may be audited by the Comptroller General of the United States. The Comptroller General shall have access to all books, accounts, records, reports, and files and all other papers, things, or property belonging to or in use by the Foundation, pertaining to such activities and necessary to facilitate the audit.

SEC. 428. EXECUTIVE SECRETARY OF FOUNDATION.

(a) DUTIES.—There shall be an Executive Secretary of the Foundation who shall be appointed by the Board. The Executive Secretary shall be the chief executive officer of the Foundation and shall carry out the functions of the Foundation subject to the supervision and direction of the Board.

(b) COMPENSATION.—The Executive Secretary of the Foundation shall be compensated at an annual rate of basic pay not in excess of the amount payable for Executive Level V.

SEC. 429. ADMINISTRATIVE PROVISIONS.

(a) The Foundation may—

(1) appoint and fix the compensation of such personnel as may be necessary to carry out the provisions of this subtitle, except that in no case shall employees (other than the Executive Secretary) be compensated at a rate in excess of the rate of basic pay payable for GS–15 of the General Schedule;

(2) procure temporary and intermittent services of such experts and consultants as are necessary to the extend authorized by section 3109 of title 5, but at rates not in excess of the rate of basic pay payable for Executive Level V;

(3) prescribe such regulations as the Foundation may determine to be necessary governing the manner in which its functions shall be carried out;

(4) receive money and other property or restriction other than it be used for the purposes of the Foundation; and to use, sell, or otherwise dispose of such property for the purpose of carrying out its functions;

(5) accept and utilize the services of voluntary and uncompensated personnel and reimburse them for travel expenses, including per diem, as authorized by section 5703 of title 5, United States Code;

(6) enter into contracts, grants, or other arrangements, or modifications thereof, to carry out the provisions of this chapter, and such contracts or modifications thereof may, with the concurrence of two-thirds of the members of the Board, be entered into without performance or other bonds, and without regard to section 3709 of the Revised Statutes;

(7) make advances, progress, and other payments which the Board deems necessary under this chapter without regard to the provisions of section 529 of title 31, United States Code;

(8) rent office space;

(9) conduct programs in addition to or in conjunction with the Fellowship program which shall further the Foundation's purpose of encouraging new discoveries in all fields of endeavor for the benefit of making; and

(10) to make other necessary expenditures.

(b) ANNUAL REPORT.—The Foundation shall submit to the President and to the Congress an annual report of its operations under this subtitle.

Amend the title so as to read: "A Bill to require the Secretary of the Treasury to mint coins in commemoration of the 200th anniversary of the White House, and for other purposes.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. TORRES] will be recognized for 20 minutes, and the gentleman from California [Mr. MCCANDLESS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. TORRES].

Mr. TORRES. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as chairman of the Subcommittee on Consumer Affairs and Coinage of the Committee on Banking, Finance and Urban Affairs, I am calling for consideration of the White House Commemorative Coinage Act.

Mr. Speaker, I might also point out that this particular bill as amended would also involve the World Cup USA, which has passed both the House and the Senate, the Christopher Columbus coin, which has passed the House on three previous occasions, and, moreover, silver medals for veterans of Desert Storm, which has passed this House. It should be noted that the White House commemorative coin has passed the Senate.

Mr. Speaker, the three coins have all had public hearings and have been marked up by the Subcommittee on Consumer Affairs and Coinage. In this instance, the White House commemorative coin has the 40 cosponsors required in the U.S. Senate, and has the strong support of this House, including the sponsorship of the chairman and ranking minority members of the House Committee on Banking, Finance and Urban Affairs.

WORLD CUP USA 1994 COMMEMORATIVE COIN BILL DESCRIPTION OF PROVISIONS

SECTION 2

This section sets forth the specifications of the gold, silver and clad coins. The specifications are identical to previous programs which will allow the Mint a smooth transition into this program.

The mintage levels established in the bill have been questioned by some claiming the level is too low while others argue it is too high. It is impossible to predict with perfect accuracy exactly what the level of sales may be. The mintage level set in the bill is designed to strike a balance.

Since the World Cup is the largest single-sport spectacle in the world, the Committee believes the potential markets are much larger which will present the Mint with a unique opportunity for international sales. The Committee expects the Mint to work closely with the World Cup Organizing Committee in marketing the coins. The Mint's experience combined with the World Cup's international sports and marketing skills will provide an opportunity to reach the sales levels specified.

SECTION 4

This section requires the Mint to sponsor a nationwide open competition for the design of each coin. This section was added to comply with the Mint's view that the American public should be allowed to participate in the design of these coins.

SECTION 5

Subsection (b): The Mint has been criticized for not issuing bulk sale information to dealers until after the programs have begun.

In the case of the Korean Coin Program, the bulk purchase conditions were not released until the final quarter of the program. This does not provide adequate time for bulk dealers to plan marketing programs.

The Committee expects the Mint to consult with leading coin dealers and the respective trade associations in 1993 and to prepare suitable bulk sales terms and conditions. These terms and conditions should be released as soon as possible in 1993.

Subsection (c): The Committee expects the Mint to be very aggressive in marketing the coins. Since the World Cup tournament will not be held until 1994, it is very important that the Mint work closely with the World Cup to secure a substantial number of prepaid orders. The Committee directs the Mint to work closely with the World Cup Organizing Committee to take advantage of every opportunity for early sales.

The Committee expects the Mint to pay the surcharges from prepaid orders to the World Cup Organizing Committee within a reasonable time after they are received.

Subsection (e): The World Cup will be held in several cities across the nation. This affords excellent marketing opportunities for the Mint. The Committee expects the Mint to work with banks and retailers in those venue cities to establish distribution outlets. The Mint may designate these distributors as "Official U.S. Mint World Cup Coin Distributors." The Mint should include in their reports to Congress a report detailing their efforts to develop this distribution system.

Subsection (f): The World Cup is an international sporting event. The Committee believes there is an excellent opportunity for international marketing. The Committee expects the Mint to work with the World Cup Organizing Committee to establish international marketing and distribution systems. The Mint may designate international distributors as "Official U.S. Mint World Cup Coin Distributors" with concurrence of World Cup 1994.

Subsection (g): The Committee intends for the Mint to work in a cooperative fashion with the Congress and World Cup to provide timely information on the performance of the coin program.

The Committee would like to see a very successful program and believes that cooperative reporting will provide the information necessary to help the Mint and World Cup maximize the potential of this program.

Since coin programs are short-term (i.e. one year in duration), it is difficult to react quickly to any potential marketing opportunities unless there is an ongoing update of what is actually occurring with the program.

The Committee anticipates the format of the reports will follow the example provided by the Mint in the Mint Budget Authorization Report—H.R. 2631; July 15, 1987; Page 77. Furthermore, we acknowledge that the Mint was required to provide similar reports by the 1984 Olympic Coin Program (P.L. 97-220). This reporting amendment attempts to follow the earlier reporting requirements so as not to be unnecessarily disruptive to the Mint operations.

The Committee understands that it will be difficult for the Mint to provide actual numbers in the early days of the program. Therefore, we recognize that the Mint will have to estimate many of the early costs. However, the Committee expects the Mint to update their estimates with the actual costs when they become available. Even the estimates will be helpful to show early trends in the programs performance.

SECTION 6

The Committee's intent is to have coins available for sale January 3, 1994. The terms "issued" and "issuance" are to be interpreted broadly, not restrictively. The Committee understands that coins sold on December 31, 1994 cannot practically be delivered to customers until 1995. The Committee expects the Mint to push coin sales through the end of the calendar year even if some deliveries have to be made in 1995.

SECTION 8

Subsection (a): The Committee intends that the purpose of the World Cup 1994 Commemorative Coin Program is to raise surcharges for the World Cup USA 1994 Organizing Committee. However, it is also our intent that the program shall not result in any net cost to the Federal Government.

In prior coin programs, there has often been a residual operating profit at the conclusion of a program. This residual operating profit is the balance remaining from a specific program after the Federal Government has recovered all its costs to operate a program. The profit accrues because in order to comply with Section 11(a), the Mint must make sure it has raised sufficient funds from the sale of each coin to cover the costs associated with producing and marketing the coin. Since it is extremely difficult to predict exactly what those costs may be, the Mint must make sure their estimates are conservative so there is not a shortfall. In other words, this residual operating profit is the difference between the Mint's estimated costs and their actual costs.

While the Committee accepts this practice as a means to insure that a coin program results in no net cost to the Federal Government, the Committee feels strongly that the Mint should not use this practice to generate profits for the Mint. As stated earlier, the intent of the legislation is to generate surcharges for World Cup while incurring no net cost to the Federal Government. If the Committee finds that the Mint has used this practice to generate excessive profits for the Mint, the Committee will revisit this issue.

Subsection (b): Ten percent of the funds made available by subsection 8(a) will be available to the United States Soccer Federation Foundation, Inc. for distribution to institutions for scholastic scholarships to qualified students. The scholastic scholarships shall go to any groups for distribution to qualified students that meet the following criteria:

Definition of "Institutions"—In selecting institutions to provide scholastic scholarships to qualified students, the Committee expects that the United States Soccer Federation Foundation shall select no more than five recipients, provided that the institution:

Is a 501(c)(3) non-profit which includes as its mission increasing the representation of qualified students, as defined in the following section, in higher education by providing scholarship assistance to students pursuing college degrees;

Serves all of the geographic and ethnic subgroups of a target population consisting principally of qualified students; and

Provides educational services, scholastic scholarships and related services to qualified students.

The Committee does not intend that institutions of higher learning, trade associations, for-profit institutions, units of state or local government, or other organizations or entities providing scholastic scholarships that are generally available to persons other than qualified students be considered by the United States Soccer Federation Foundation for participation in the programs authorized by this section.

Definition of "qualified student"—The Committee intends that the term "qualified students" be interpreted narrowly by institutions providing scholastic scholarships. The Committee intends to limit scholarships under this section to the most under-educated persons and groups in American society. The Committee expects that "qualified students" shall be identified based on the following criteria:

Individuals who are "first-generation" college students, i.e., whose parents did not complete a course of study at an accredited institution of higher learning; and

Individuals who are "economically disadvantaged", i.e., who come from families with incomes at or below the median family income of the U.S. population, or who are members of communities with median incomes at or below 70% of the median family income of the U.S. population; and

Individuals who are "educationally disadvantaged," because of developmental disability, national origin, nativity or limited-English proficiency, or attended school districts with dropout rates at least twice as high as the national average; and

The scholastic scholarship fund will be targeted to minority student groups that have a high school completion rate of less than 60 percent.

Provided further,

That at least one such institution serves as an umbrella organization for at least 125 affiliated local community-based organizations. Such institution provides capacity-building assistance, public policy analysis and advocacy, public information efforts, and special catalytic efforts on behalf of economically and educationally disadvantaged persons. Such institution is governed by organizational by-laws that require a Board of Directors reflective of the geographic, gender and ethnic composition of a target population consisting principally of qualified students and their families, as defined in this section. Such institution includes a corporate board of advisors composed of at least twenty senior executives of major corporations.

That at least one such institution is a 501(c)(3) nonprofit organization whose sole mission is to provide scholarship assistance to qualified students in all fifty states and Puerto Rico. Scholarship recipients are selected on the basis of academic achievement and personal strengths, and represent hundreds of both public and private colleges and universities across the nation. Recipients are also reflective of the composition of five national regions. Such institution annually selects scholarship recipients using a process of regional review committees. In addition, such institution is governed by organizational bylaws which require a board of directors comprised of corporate and educational leaders.

That at least one such institution is a 501(c)(3) nonprofit organization with a national scope and a primary goal to provide post high school scholarship assistance to qualified students in all fifty states and the territories of the United States of America. Scholarship recipients are selected on the basis of academic achievement, community leadership and financial need. Such institution is governed by organizational by-laws that require officers, board of directors, and trustees who are business and community leaders throughout the nation and are dedicated to the educational advancement of a target population of qualified students as defined in this section.

Student eligibility: A qualified student who is in attendance or who has been accepted for admission, as a full-time undergraduate or graduate student at an accredited institution of higher education may apply.

The Committee recognizes that institutions must have some flexibility in the selection of scholarship recipients; however, we expect that, except in unusual or exceptional circumstances, each scholarship recipient shall meet three of the four broad criteria in addition to other criteria set forth by the institution.

SECTION 11

As mentioned earlier, the Committee expects the Mint to use best efforts to insure this program results in no net cost to the Federal Government.

Mr. TORRES. Mr. Speaker, I reserve the balance of my time.

□ 2220

Mr. MCCANDLESS. Mr. Speaker, I yield myself such time as I may consume.

First, I would like to compliment the subcommittee chairman and his staff for working with us on some areas in which we had some small disagreements and the consensus is a result of a bill that we are able to support entirely. I wanted to express my appreciation here in the House for the cooperation of the gentleman from California [Mr. TORRES] and his staff.

We have before us H.R. 3337, sponsored by the gentleman from Louisiana [Mr. BAKER], and we have essentially four titles to this. The first title is the White House Commemorative Coin, which is to be minted in 1992, given the successful conclusion of this bill. The beneficiary of this coin is the White House Endowment Fund, which has the responsibility of furnishing and preserving the public rooms of the White House.

I might add that no taxpayers' money is used for the preservation and refurbishing of public rooms at the White House. So this indeed is a necessary revenue to continue to perform that function.

Title II deals with the World Cup Commemorative Coin to be minted in 1994, and it is the basis for supporting the World Cup Games here in the United States and the funding necessary to bring that about, one of the first of its kind for the United States.

Title III deals with silver medals, which are to be issued for veterans of the Persian Gulf conflict. And I might add, in that particular case in title III, the funding will be entirely paid for by private donations and the sale of the bronze duplicates. No taxpayers' money or support is going to be involved.

Finally, Part 4, the Christopher Columbus coin, to be minted in 1992, has a beneficiary in the form of the Christopher Columbus Fellowship for scholarships for discoveries, which was passed by the House back in July on a vote of 408 to 2.

That pretty much covers it, Mr. Chairman, along with what our subcommittee chairman has said.

Mr. Speaker, I yield such time as he may consume to the gentleman from Louisiana [Mr. BAKER].

Mr. BAKER. Mr. Speaker, I certainly wish to express my appreciation to the gentleman as well as the chairman of the subcommittee, the gentleman from California [Mr. TORRES] for their cooperativeness in bringing this resolution to the floor this evening. Of course, it accomplishes a number of important purposes, but the primary concern to me is the White House Commemorative Coin which accomplishes two very important goals: the first being to recognize the laying of the cornerstone of the White House some 200 years ago, an important historical achievement for the City of Washington. And secondarily, to recognize an important responsibility of proceeds from the sale of this coin, and that is to provide the resources to perform an important refurbishment and remodeling of the White House which has not been done for many years.

For these two reasons I think the issuance of this claim is a very important purpose. I simply rise to commend the chairman and the ranking Member for their cooperativeness in providing this opportunity.

Mr. WELDON. Mr. Speaker, will the gentleman yield?

Mr. BAKER. I yield to the gentleman from Pennsylvania.

Mr. WELDON. Mr. Speaker, will the gentleman answer a question for me? There have been some rumors circulating that there is some involvement of Hallmark Cards in the issuance of this coin. Is the gentleman aware of any involvement of Hallmark Cards?

Mr. BAKER. Mr. Speaker, the only interest expressed to me so far has been a very nice letter from Barbara Bush explaining her interest in the matter and hoping that it is successful for the benefit of the White House Historical Society as well as for the White House staff.

Mr. WELDON. But there is no involvement of Hallmark Cards?

Mr. BAKER. Mr. Speaker, not to my knowledge.

Mr. MCCANDLESS. Mr. Speaker, I yield myself such time as I may consume.

I might add in response to the question of the gentleman, again, this money is used by the White House Endowment Fund for the sole purpose of furnishing and preserving the public rooms of the White House, which no taxpayers' money is used for or has been used for in the past.

Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. RIDGE].

Mr. RIDGE. Mr. Speaker, I thank the gentleman for yielding.

First of all, let me commend both my colleagues, having served on that subcommittee, most Members cannot appreciate the length of time that it takes normally for a Member of the House or a Member of the Senate to meet the criteria that the subcommittee sets up in order to get a resolution to the floor creating a commemorative coin. I know it takes a great deal of time because I served on that subcommittee and marshalled one through. It took over a period of 2 years to fruition. So I want to commend both gentlemen.

I think particularly the Persian Gulf coin, the World Cup coin and the Christopher Columbus coin were very much involved, my colleague and I, the gentleman from Ohio [TOM SAWYER] have been very much involved in this celebration, the quincentennary celebration, and that will go a long way in meeting some of the goals of that celebration that was identified by Congress in, I think it was 1984, to be enjoyed by this country next year.

I guess just one comment I want to make, and it is perhaps somewhat critical. As I scan the four coins, I certainly support titles II, III and IV. I understand the purpose of title I. I just wish rather than having been sent up a White House commemorative coin, they would have sent out an economic package. I think that is great that they are going to use some of this money to refurbish the White House, and I will question the alacrity with which it managed to get through the hoops and the loops that everybody is normally required to jump through, but I did want to thank my colleagues for their work and recognize publicly that it is normally a very difficult thing to get a commemorative coin to this floor.

I thank them for their efforts and clearly the sponsors of these coins certainly deserve to be congratulated.

Mr. MCCANDLESS. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. WELDON].

Mr. WELDON. Mr. Speaker, I, too, want to thank my colleague, the gentleman from Pennsylvania [Mr. RIDGE] for his cooperation on a number of issues that we have worked together on, one of which is a coin bill that is currently before the Subcommittee on Consumer Affairs and Coinage. I also want to thank the chairman of the Subcommittee on Consumer Affairs and Coinage, the gentleman from California [Mr. TORRES] and the ranking member, the gentleman from California [Mr. MCCANDLESS] for their straightforward dialogue with us as we have tried to push forward a coin that recognizes the Nation's Fire Service in the year 1993.

It is not part of this process. I am disappointed in that, but there is no coin yet designated for 1993, and that option is still open.

I am a cosponsor of the coin bills that are in this particular resolution with the exception of the White House coin bill, which I understand was just recently put together within the last month or so.

I applaud my colleagues who have brought forward the Christopher Columbus coin, the World Cup coin, the bill of the gentleman from California [Mr. TORRES] and the silver medal honoring the troops from Desert Storm. I think they are all very valuable and worthwhile functions.

I guess I could add the same thing on the White House coin with the exception that I am also disappointed, as my colleague, the gentleman from Pennsylvania [Mr. RIDGE] has mentioned, that it did not go through the full process of committee hearings and markup even though it is for a very valuable cause.

That disappoints me because we have been pressuring the White House for some 2 years to support the 1993 coin that honors the Nation's Fire Service, and I would hope that they would give the same full support and endorsement for that bill in the second half of this session of Congress as they have for the White House commemorative coin.

The Fire Service bill and coin has no overhead money and it would basically go to benefit the 1½ million direct fire fighters and the 3 million total dependents and family members who are part of the Fire Service family. It is the number one priority of the Fire Service Nationwide and currently has over 270 cosponsors.

It passed the Senate in the last session of Congress. Senators JOE BIDEN and BILL ROTH were the cosponsors of that bill this year.

So it is my hope that we can move that bill forward in the second half of this session. I will not oppose this bill, even though I have some concerns about the White House coin, because the other coins I have publicly cosponsored.

I would ask the committee, subcommittee chairman and the ranking member, to work with us next year for a markup process so that we can move forward with a 1993 coin.

Mr. McCANDLESS. Mr. Speaker, I yield myself such time as I may consume.

I think it would be of interest, with the permission of our subcommittee chairman, to maybe comment a little bit about the circumstances surrounding the White House commemorative coin. I include for the record at this point a copy of a letter addressed to Mrs. Earle Craig, Chairman of the White House Endowment Fund, from Mrs. Barbara Bush.

THE WHITE HOUSE
Washington, October 10, 1991.

Mrs. EARLE M. CRAIG, Jr.
Chairman, The White House Endowment Fund, Midland, TX.

DEAR DOTTIE, The 200th anniversary of the laying of the cornerstone of the White House this coming year—October 13, 1992—is a milestone we all look forward to celebrating. I am delighted both that plans for congressional authorization of a commemorative coin are undeway and that the proceeds from the sale of this coin will go to The White House Endowment Fund toward a permanent endowment for the furnishing and preservation of the public rooms of the White House. As we all know, no taxpayers' money is used for the preservation and refurbishing of the public rooms of the White House, and therefore the funds from the sale of this commemorative coin will be an important contribution to a White House endowment.

George and I are both grateful for the work of the White House Historical Association in seeking authorization of a commemorative coin, and we are grateful to all who are working on behalf of what we consider to be a wonderful opportunity to acknowledge an important date and to augment an endowment for the White House.

Warmly,

BARBARA.

□ 2230

Mr. McCANDLESS. Continuing, the White House commemorative coin is scheduled to be introduce at the 200th anniversary of the laying of the cornerstone. It is intended to be introduced in 1992 in conjunction with or in the same year, I should say, as the Christopher Columbus coin.

The coin collectors are very dubious about too many commemorative coins, and as a result encouraged the subcommittee to limit the number. I would point out that in this case we have an unusual situation, not because it is the White House commemorative but because there are only going to be 500,000 silver dollars issued based upon the successful conclusion of this legislation commemorating the 200th anniversary of the White House cornerstone laying, as opposed to the normal type, for example, the Christopher Columbus coin, which is scheduled to be introduced in 1992 and will have 500,000 $5 gold pieces, 4 million silver dollars, and 6 million half dollar class.

So we are not really sending up something special that is going to be in conflict, but what it is the subcommittee and the chairman have been attempting to accomplish, and that is to zero in on excellent subjects to give maximum benefit to the commemorative coin, which in turn produces the revenues that continue to support these kinds of projects.

Mr. Speaker, I reserve the balance of my time.

Mr. TORRES. Mr. Speaker, I thank the ranking minority member of the subcommittee for his comments. To be sure, this particular commemorative coin will raise the necessary funds for the endowment fund, which will be utilized, as is well pointed out, for those aspects of the White House, the furnishing, the refurbishing of the rooms, the buying of fine art, the restoration of pieces of furniture and the buying of pieces of antique furniture that are still in private collections.

This is a house for all Americans and I think this is an appropriate way for coins to be sold to the public at no expense to the taxpayers, the money to be used for these important aspects.

Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Ohio, [Mr. SAWYER].

Mr. SAWYER. Mr. Speaker, I thank the gentleman from California [Mr. TORRES], my friend, and welcome this opportunity to rise and join in support of this entire piece of legislation. I am particularly pleased to associate myself with the remarks of my friend and colleague on the Subcommittee on Census and Population, the gentleman from Erie, PA, Mr. RIDGE, in his comments about the importance of the whole range of these undertakings, but particularly with regard to the Christopher Columbus Quincentennary commemorative coin.

As some may know, this has been a difficult year in terms of trying to focus the work of that Commission and to provide appropriate funding for that work. Among the vehicles for that purpose has been the coining of this particular commemorative piece in recognition of the 500th anniversary of Columbus' voyages. That difficulty has received a considerable amount of publicity in recent weeks.

I rise on this particular occasion to recognize the substantial difference in the work that has gone before that may have been troubled at times, and to distinguish that from the work that goes ahead from this time forward as a result of the good work that is being done on the floor here today in providing a vehicle for the support of the Columbus scholarships and the continuing work of the Columbus Quincentennary Commission under the new leadership of its new chairman, Frank Donnatelli, whose efforts have been of the highest order and worthy of the kind of support we are giving him here today.

Mr. RIDGE. Mr. Speaker, will the gentleman yield?

Mr. SAWYER. I am happy to yield to the gentleman from Pennsylvania.

Mr. RIDGE. Mr. Speaker, as the ranking member on the subcommittee privileged to serve with my friend and colleague, the gentleman from Ohio, I just want to associate myself with his remarks. Mr. Donnatelli has steered this celebration, as the *Nina*, the *Pinta*, and the *Santa Maria*, back out of very difficult waters. It looks like the sailing is going to be a lot smoother, particularly with this effort that our colleagues here brought before the House. It gives them a funding vehicle to not only deal with the scholarship fund but I think it also elevates in a very positive way the kind of celebration we want to engage in this year as a country, and I want to associate myself with his remarks.

Mr. SAWYER. Mr. Speaker, I thank the gentleman for his comments.

Mr. GILMAN. Mr. Speaker, will the gentleman yield?

Mr. SAWYER. I yield to the gentleman from New York.

Mr. GILMAN. Mr. Speaker, I thank the gentleman for yielding.

I want to commend both the gentleman from Ohio [Mr. SAWYER] and the gentleman from Pennsylvania [Mr. RIDGE] for putting the quincentennary back on the right track. We have had extensive hearings and this coin will certainly help these great ceremonies that they are planning under the direction of Mr. Donnatelli, but it was these two gentleman, the gentleman from Ohio [Mr. SAWYER], and the gentleman from Pennsylvania [Mr. RIDGE], who have helped to bring back the Commission to where it belongs with the proper objectives, the proper resources, and the proper ethics. I thank the gentleman for their work.

Mr. SAWYER. I thank the gentleman for his comments.

Mr. ANNUNZIO. Mr. Speaker, I rise in support of this legislation. The Chairman of the Consumer Affairs and Coinage Subcommittee, Mr. TORRES, is to be congratulated for his work in the field of coinage. His leadership is what has enabled the House to consider this legislation this evening.

I want to address the title of this bill which authorizes the minting of coins in commemoration of the quincentenary of the discovery of America by Christopher Columbus in 1492.

I recognize that there is much debate over whether Columbus was actually the first to discover The New World. There may well have been others that got here first. The difference is that when Columbus discovered America, it stayed discovered.

The Columbus coin title not only provides for the minting of coins in commemoration of the Columbus Quincentenary, but it establishes a Columbus Fellowship program with the surcharges raised from the sale of the coins. These Fellowships would be awarded to scholars, inventors, and the like so that they can work toward discoveries for the benefit of mankind. The scholarships would be awarded by a non-partisan Board of Directors whose members would be appointed by the President after consultation with the leadership of both Bodies of Congress.

If all the coins under this bill were sold, over $50 million would be raised for the Columbus Foundation established under this bill. This money, along with donations which the Foundation could accept, would be used to establish an endowment for the award of the Fellowships.

Mr. Speaker, this bill will establish a lasting memorial to the greatest explorer in history. The time is short for beginning this coin and fellowship program. I urge the passage of the bill.

Mr. McCANDLESS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. TORRES. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentleman from California [Mr. TORRES] that the House suspend the rules and pass the bill, H.R. 3337, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. TORRES. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks in H.R. 3337, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

BICENTENNIAL OF THE DISTRICT OF COLUMBIA

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 356) designating December 1991 as "Bicentennial of the District of Columbia Month," and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. RIDGE. Mr. Speaker, reserving the right to object, I do so, first of all, to acknowledge the work of our colleague, the gentleman from Virginia [Mr. BLILEY] who is the chief sponsor of this joint resolution.

Mr. Speaker, further reserving the right to object, I yield to the gentlewoman from the District of Columbia [Ms. NORTON].

Ms. NORTON. Mr. Speaker, I want to thank my colleagues for the honor and recognition they give to the people of the District of Columbia in House Joint Resolution 356 honoring our bicentennial.

Mr. Speaker, this resolution acknowledges the Democratic majesty of the District of Columbia. As the Nation's city, it praises the creation of the District as an important act of self-government designed to strengthen and preserve the political institutions of a free people. We acknowledge with sincere appreciation the role the District of Columbia has been given to play in the development of the Nation's free institutions. We ask only that the act of self-governance inherent in our creation be extended to the 650,000 people who reside in the District.

Through greater home rule and ultimately statehood we seek to join the family of free and equal States that comprise the United States. We live for that day. Pending its sunrise, we are gratified and delighted with the bipartisan praise in this House for the District, its place in history, and the extraordinary dedication and energy of its people.

Mr. SAWYER. Mr. Speaker, will the gentleman yield?

Mr. RIDGE. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from Ohio.

Mr. SAWYER. Mr. Speaker, I thank my friend from Pennsylvania for yielding and I rise only to express the real gratitude we owe to the gentlewoman from the District of Columbia for the extraordinary effort that she has brought forth to bring this matter before us today. It may not be known to many who listen, the extraordinary effort that some Members have gone through to accomplish this. The gentleman from Richmond had the foresight to introduce the measure, but as much as anyone, it was the gentlewoman from the District of Columbia who today put together the signatures necessary to bring this before us tonight.

□ 2240

That is an extraordinary accomplishment and I wanted to take just a moment to recognize it.

Mr. RIDGE. Mr. Speaker, I want to join my friend in singing the praises of the gentlewoman. It was definitely through her energetic initiative throughout this day that we were able to bring this matter to the floor this evening.

H.J. RES. 356

Whereas the year 1991 is recognized as the 200th anniversary of the District of Columbia because many of the events important to the founding of the Nation's Capital occurred during that year;

Whereas on January 24, 1791, George Washington selected the site along the Potomac River as the district for the permanent seat of the Government of the United States where the vision of the infant nation dedicated to the principles of self-government could be realized;

Whereas in February 1791, Andrew Ellicott and Benjamin Banneker began to survey the new district, which would become the center of a continent and leader of the free world;

Whereas on September 9, 1791, the Commissioners charged with the founding of the city informed Major Pierre L'Enfant that the Federal district was to be called the Territory of Columbia and the Federal city the City of Washington;

Whereas on December 13, 1791, L'Enfant's grand plan for the development of the Nation's Capital, which included magnificent vistas, radiating avenues, beautiful parks and promenades, cascading fountains, and public spaces for national monuments, and which reflected the patriotic enthusiasm that the Federal city forever serve as a temple to liberty, was submitted to the Congress;

Whereas on December 19, 1791, the State of Maryland forever ceded and relinquished to the Congress and the Government of the United States the final land grant to form the new district;

Whereas the creation of the District of Columbia was an important act of self-government by the first Federal Congress designed to strengthen and preserve the political institutions of a free people, and the District itself is a time-honored symbol of the Republic;

Whereas the grandeur and beauty of the District of Columbia are acclaimed throughout the world;

Whereas the sacrifices of a people dedicated to freedom are forever remembered in the inspiring memorials located in the District of Columbia.

Whereas the people of the District of Columbia have made contributions to the arts, law, music, and culture that have been recognized throughout the Nation and the world;

Whereas the District of Columbia is a national treasure as the repository of much of our Nation's history; and

Whereas the District of Columbia is truly where the people of the United States, through our elected representatives, exercise the right of self-governance: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That December 1991 is designated as "Bicentennial of the District of Columbia Month", and the President is authorized and requested to issue a proclamation—

Whereas (1) honoring the 200th anniversary of the founding of the District of Columbia as the Nation's Capital; and

Whereas (2) calling upon the people of the United States to observe such month with appropriate ceremonies and activities.

Mr. RIDGE. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the joint resolution, as follows:

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1572

Mr. MACHTLEY. Mr. Speaker, I ask unanimous consent to remove my name as cosponsor of H.R. 1572.

The SPEAKER pro tempore. (Mr. MFUME). Is there objection to the request of the gentleman from Rhode Island?

There was no objection.

BASKETBALL CENTENNIAL DAY

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution, House Joint Resolution 372, designating December 21, 1991, as "Basketball Centennial Day" and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. RIDGE. Reserving the right to object, Mr. Speaker, I do simply to acknowledge the work of our colleague, the gentleman from Massachusetts [Mr. NEAL] who is the chief sponsor of this resolution.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the joint resolution, as follows:

Whereas basketball, the only major sport funded in America, was invented by Dr. James Naismith in 1891;

Whereas the first basketball game was played by Dr. James Naismith's gymnastics class, using nine players on each side, peach baskets nailed to the wall at both ends of the gym, and a soccer ball;

Whereas basketball was first played by women in 1893;

Whereas basketball, the American Game, grew in popularity over the next two years throughout the United States and several foreign countries, and by the turn of the century was being played in 20 nations;

Whereas basketball became an official Olympic sport in Berlin in 1936, and the United States defeated Canada to win the first Gold Medal;

Whereas basketball at every level of play has been enjoyed by millions of spectators;

Whereas our youth—the future of our Nation—have become involved in various basketball leagues that have contributed to the ideals of dedication, commitment, and teamwork; and

Whereas basketball, the American Game, is played and enjoyed by many people in America and in the rest of the world; Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That December 21, 1991, is designated as "Basketball Centennial Day". The President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

RECOGNIZING CONTRIBUTIONS OF FEDERAL CIVILIAN EMPLOYEES DURING ATTACK ON PEARL HARBOR AND DURING WORLD WAR II

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate Joint Resolution 198, to recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. RIDGE. Reserving the right to object, Mr. Speaker, I do so to identify and acknowledge the work of the sponsor of the resolution, our colleague, the gentleman from Hawaii [Mr. Abercrombie] and also to yield such time as he may consume to our colleague, the gentleman from New York [Mr. GILMAN], a member of the full committee.

Mr. GILMAN. Mr. Speaker I am pleased to rise in support of Senate Joint Resolution 198, a bill recognizing the contributions that Federal employees provided during World War II and specifically during the attack on Pearl Harbor. I would like to commend the gentleman from Hawaii, Mr. ABERCROMBIE for bringing this measure to the floor of the House at this appropriate time.

We all fully recall that infamous date, December 7, 1941 when the Imperial Japanese forces attacked Pearl Harbor, beginning our Nation's involvement in the Second World War. I am pleased to stand here today, nearly 50 years later, as the ranking member of the House Post Office and Civil Service Committee, to recognize the service and self-sacrifice given to our nation by our Federal employees.

The dedication, valor, and contributions made by our Federal employees during the Japanese attack on Pearl Harbor and subsequently throughout World War II exhibited the highest standards of professionalism and patriotism. The men and women employed by the Federal Government provided expertise, vital services to those in uniform, and to the civilian population.

Accordingly, Mr. Speaker, I urge my colleagues to join in supporting the resolution remembering the dedication of our Federal civilian employees.

Mr. ABERCROMBIE. Mr. Speaker, as we approach the 50th anniversary of Pearl Harbor, our thoughts naturally turn to the sacrifices and bravery shown by U.S. personnel on December 7, 1941.

Their heroism inspired the Nation to steel its resolve and settle for nothing less than total victory in World War II.

That ordeal has been seared into our national consciousness.

It is no exageration to say that Pearl Harbor was a defining moment in American history.

This month and next, Pearl Harbor military veterans throughout the Nation are standing tall as they receive the special Pearl Harbor Commemorative Medal authorized last year by Public Law 101-511.

These men and women richly deserve this belated recognition as their memories—and ours—travel a half-century back in time to the day their lives were changed forever in the shattering trauma of Pearl Harbor.

While we rightly commemorate the dedication of the soldiers, sailors and marines of December 7, we can not forget the forgotton heroes of Pearl Harbor.

I am speaking of the Federal civilian employees of the Pearl Harbor Naval Ship Yard, Hickam Field, and other military installations on the island of Oahu.

They, too, demonstrated heroism and suffered casualties in the defense of the United States.

While the attack raged, they fired antiaircraft guns, fought fires, rescued the drowning, rendered first aid and performed a thousand and one other tasks at peril to their lives.

They include—and I cite only a few of the thousands of examples of quiet bravery:

Mary Helen Stevens, the Pearl Harbor base librarian, who organized volunteers to tend the wounded * * *

Ponciano Bernardino, of the submarine base, who led a makeshift group of civilians to fight fires in Drydock One * * *

George Walters, a crane operator, who frustrated dive bombing attacks on the battleship Pennsylvania by moving his crane between the diving planes and the helpless ship * * *

On Tai Pang, of Pearl Harbor's Shop 02, who transported the wounded under fire * * *

And mechanic's helper Clifford Oliver of Hickam Field, who drove a truck into a burning building to remove precious aircraft engines.

As I said, Mr. Speaker, this is only a small sampling of the bravery shown by civilian Federal employees who demonstrated a devotion that went far above and beyond the call of duty for a librarian * * *

a shop worker * * *

a mechanic's helper * * *

a crane operator.

Other civilian employees paid with their lives for their dedication to duty:

August Akina * * *

Philip Eldred * * *

Benigno Cabaay * * *

Tai Ching Loo * * *

Daniel LaVerne.

House Joint Resolution 368 honors these splendid men and women by declaring December 4, 1991, to be Federal Civilian Employee Remembrance Day.

As we mark this turning point in history, I thank every member for their support of this resolution.

Especially the gentleman from Guam and the gentlelady from Hawaii for their help on this measure.

As we remember Pearl Harbor, let us salute its unsung heroes: the Federal civilian employees who rose to the occasion so magnificently.

Mr. RIDGE. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the joint resolution, as follows:

S.J. RES. 198

To recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II.

Whereas on Sunday morning, December 7, 1941, at 7:55 a.m., the first wave of dive and hight level bombers from the Imperial Japanese Combined Fleet attacked Hickam and Wheeler Airfields in the United States territory of Hawaii;

Whereas the first bombs fell on Ford Island at Pearl Harbor;

Whereas American fighter planes were strafed and destroyed on the ground at Pearl Harbor, Hickman Airfield, Kaneohe Naval Air Station, Bellow Airfield, Ewa Marine Corps Air Station, Schofield Barracks, and Wheeler Air field;

Whereas the United States Pacific Fleet was devastated, but its carriers were still afloat, and Pearl Harbor's shipyards, fuel storage area, and submarine base remarkably suffered very little damage;

Whereas Federal civilian employees responded magnificantly that fateful morning and met their country's call to duty with distinction and valor;

Whereas Federal civilian employees were instrumental in the remarkable salvage effort to raise and repair several of the naval vessels that were put back in action before the end of World War II;

Whereas of the 2,403 Americans killed in connection with the attack on Pearl Harbor, 68 were civilians, and of the 1,178 Americans wounded in connection with the attack, 35 were civilians;

Whereas Federal civilian employees exhibited the highest sense of patriotism and exemplary performance at Pearl Harbor and during World War II;

Whereas on December 4, 1991, ceremonies coordinated by the National Park Service will be held in the State of Hawaii to recognize the contributions of Federal civilian employees; and

Whereas we should honor these distinguished individuals during the commemoration of the fiftieth anniversary of the attack on Pearl Harbor: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That December 4, 1991, is designated as "Federal Civilian Employees Remembrance Day". The President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such day with appropriate ceremonies and activities recognizing the important contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II, and thanking such dedicated and committed individuals for their sacrifice and devotion to their country.

The Senate joint resolution was ordered to be read a third time, was read the third time and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the several resolutions just considered and passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

HEALTH CARE FOR COAL MINERS

(Mr. RAHALL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RAHALL. Mr. Speaker, I rise on behalf of the 35,000 retired coal miners and their families in West Virginia who depend on the UMWA health and retirement funds for health care benefits in support of the Coal Industry Retiree Health Benefit Act of 1991 being introduced today in the House of Representatives.

The pressing need to establish a sound and viable health care delivery system for miners and their families is second to none. Yet, today, the health funds are in deficit, threatening the continuity of benefits to both existing and future retirees.

Currently about 60 percent of all beneficiaries under the health funds are miners who retired from companies that have gone out of business. An additional 15 percent are retired from companies which have, simply put, walked away from their responsibilities to provide health care to their former employees. As such, 75 percent of the retirees served by the funds never worked for, or had any connection with, a currently contributing company.

This is not only causing a growing deficit in the funds, but means that the responsibility for providing these retirees with health care coverage is being shouldered by members of the Bituminous Coal Operators Association. The result: For every dollar current BCOA member companies contribute for their own retirees they pay $3 for other companies' retirees.

I would submit that this is an unjust situation.

It should be noted that the funds are unique, and what would normally be a matter solely for the private sector is not in this instance. There is a federal responsibility to these funds. The genesis for the funds dates back to 1946 in an agreement between then-UMW President John L. Lewis and the Federal Government to resolve a long-running labor dispute. At the time, President Truman had ordered the Interior Secretary to take possession of all bituminous coal mines in the country in an effort to break a United Mine Workers of America strike. Eventually, Lewis and Secretary Julius Krug reached an agreement that included an industrywide, miner controlled health plan.

The legislation being introduced today in the House is identical to the measure sponsored by the junior Senator from West Virginia, JAY ROCKEFELLER. The Senator explained the bill in great detail when he introduced it on November 19, 1991, and I would refer my colleagues to his remarks as to the particulars of this measure. I would, however, note that nobody is eager to place a new tax on the coal industry in this country. Nor, should this be viewed as a matter of union versus nonunion companies.

The bottom line is that we, as a Nation, must ensure that retired coal miners and their families are provided with health care coverage, now and in the future. I believe that the bill being introduced today represents our best chance to reach that goal.

RECESS

The SPEAKER pro tempore (Mr. MFUME). The Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 10 o'clock and 45 minutes p.m.), the House stood in recess subject to the call of the Chair.

☐ 0040

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore [Mr. BROWN] at 12 o'clock and 43 minutes a.m., on November 27, 1991 (Legislative day of November 26, 1991).

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 543. An Act to establish the Manzanar National Historic Site in the State of California, and for other purposes.

H.R. 2370. An Act to expand the boundaries of Stones River National Battlefield, Tennessee, and for other purposes.

H.R. 3049. An Act to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization.

H.R. 3508. An Act to amend the Public Health Service Act to revise and extend certain programs relating to the education of individuals as health professionals, and for other purposes.

The message also announced, That the Senate insists upon its amendment to the bill (H.R. 3508) "An Act to amend Public Health Service Act to revise and extend certain programs relating to the education of individuals as health professionals, and for other purposes" requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. KENNEDY, Mr. METZENBAUM, Mr. SIMON, Mr. HATCH, and Mrs. KASSEBAUM to be the conferees on the part of the Senate.

The message also announced, That the Senate agrees to the amendments of the House to bill (S. 1532) entitled "An Act to revise and extend the programs under the Abandoned Infants Assistance Act of 1988, and for other purposes" with an amendment.

The message also announced that the Senate had passed bills and a joint resolution of the following titles, in which the concurrence of the House is requested:

S. 367. An act to amend the Job Training Partnership Act to encourage a broader range of training and job placement for women, and for other purposes.

S. 447. An act to recognize the organization known as The Retired Enlisted Association, Incorporated.

S. 452. An act to authorize a transfer of administrative jurisdiction over certain land to the Secretary of the Interior, and for other purposes.

S. 606. An act to amend the Wild and Scenic Rivers Act by designating certain segments of the Allegheny River in the Commonwealth of Pennsylvania as a component of the National Wild and Scenic Rivers System, and for other purposes.

S. 1187. An act to amend the Stock Raising Homestead Act to provide certain procedures for entry onto Stock Raising Homestead Act lands, and for other purposes.

S. 1528. An act to establish the Mimbres Culture National Monument and to establish an archeological protection system for Mimbres sites in the State of New Mexico, and for other purposes.

S. 1577. An act to amend the Alzheimer's Disease and Related Dementias Services Research Act of 1986 to reauthorize the Act, and for other purposes.

S. 1707. An act to authorize the establishment of the Fort Totten National Historic Site.

S. 1743. An act to amend the Wild and Scenic Rivers Act by designating certain rivers in the State of Arkansas as components of the National Wild and Scenic River System, and for other purposes.

S. 1770. An act to convey certain surplus real property located in the Black Hills National Forest to the Black Hills Workshop and Training Center, and for other purposes.

S. 2098. An act to authorize the President to appoint Major General Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration.

S.J. Res 23. Joint resolution to consent to certain amendments enacted by the legislature of the State of Hawaii to the Hawaiian Homes Commission Act, 1920.

ELECTION OF MEMBER TO A STANDING COMMITTEE

Mr. HOYER. Mr. Speaker, by direction of the Democratic Caucus, I offer a privileged resolution (H. Res. 308), and I ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 308

Resolved, That the following named Member be, and is hereby elected to the following standing committee of the House of Representatives:

Committee on Public Works and Transportation: Lucien Blackwell, Pennsylvania.

The resolution was agreed to.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON H.J. RES. 157, DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS AND TRANSFERS FOR RELIEF FROM THE EFFECTS OF NATURAL DISASTERS, FOR OTHER URGENT NEEDS, AND FOR INCREMENTAL COST OF OPERATION DESERT SHIELD/DESERT STORM ACT OF 1992

Mr. WHITTEN submitted the following conference report and statement on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes:

CONFERENCE REPORT (H. REPORT. 102–394)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H.J. Res. 157) "making technical corrections and correcting enrollment errors in certain Acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the joint resolution, and agree to the same with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, to provide dire emergency supplemental appropriations for the fiscal year ending September 30, 1992, and for other purposes, namely:

SUPPLEMENTAL APPROPRIATIONS

DEPARTMENT OF DEFENSE—MILITARY PROCUREMENT

MISSILE PROCUREMENT, ARMY

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for "Missile procurement, Army", $78,000,000, to remain available for obligation until September 30, 1994, and in addition, $67,000,000 to be derived by transfer from "Missile procurement, Air Force, 1991/1993", to remain available for obligation until September 30, 1993.

SHIPBUILDING AND CONVERSION, NAVY

For an additional amount for "Shipbuilding and conversion, Navy", for LSD–41 dock landing ship, cargo variant program, advance procurement of engines and generators, $25,000,000, to remain available for obligation until September 30, 1996.

NATIONAL GUARD AND RESERVE EQUIPMENT

For an additional amount for "National Guard and Reserve equipment", $10,100,000, to remain available until September 30, 1994, for the purchase of one MH–60G helicopter.

TITLE I—EMERGENCY SUPPLEMENTAL APPROPRIATIONS

CHAPTER I

DEPARTMENT OF DEFENSE—MILITARY

OPERATION DESERT SHIELD/DESERT STORM

(TRANSFER OF ADDITIONAL FUNDS)

OPERATIONS AND MAINTENANCE

(TRANSFER OF FUNDS)

OPERATION AND MAINTENANCE, ARMY

For an additionl amount for "Operation and maintenance, Army", $227,300,000.

OPERATION AND MAINTENANCE, NAVY

For an additional amount for "Operation and maintenance, Navy", $270,000,000.

OPERATION AND MAINTENANCE, MARINE CORPS

For an additional amount for "Operation and maintenance, Marine Corps", $75,000,000.

OPERATION AND MAINTENANCE, ARMY RESERVE

For an additional amount for "Operation and maintenance, Army Reserve", $23,200,000.

OPERATION AND MAINTENANCE, NAVY RESERVE

For an additional amount for "Operation and maintenance, Navy Reserve", $28,300,000.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For an additional amount for "Operation and maintenance, Army National Guard", $41,900,000.

PROCUREMENT

(TRANSFER OF FUNDS)

AIRCRAFT PROCUREMENT, ARMY

For an additional amount for "Aircraft procurement, Army", $270,800,000, to remain available for obligation until September 30, 1994.

MISSILE PROCUREMENT, ARMY

For an additional amount for "Missile procurement, Army", $21,800,000, to remain available for obligation until September 30, 1994.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For an additional amount for "Procurement of weapons and tracked combat vehicles, Army", $63,000,000, to remain available for obligation until September 30, 1994.

OTHER PROCUREMENT, ARMY

For an additional amount for "Other procurement, Army", $80,500,000, to remain available for obligation until September 30, 1994.

AIRCRAFT PROCUREMENT, NAVY

For an additional amount for "Aircraft procurement, Navy", $521,000,000, to remain available for obligation until September 30, 1994.

WEAPONS PROCUREMENT, NAVY

For an additional amount for "Weapons procurement, Navy", $8,100,000, to remain available for obligation until September 30, 1994.

OTHER PROCUREMENT, NAVY

For an additional amount for "Other procurement, Navy", $112,700,000, to remain available for obligation until September 30, 1994.

PROCUREMENT, MARINE CORPS

For an additional amount for "Procurement, Marine Corps", $4,300,000, to remain available for obligation until September 30, 1994.

AIRCRAFT PROCUREMENT, AIR FORCE

For an additional amount for "Aircraft procurement, Air Force", $309,500,000, to remain available for obligation until September 30, 1994.

OTHER PROCUREMENT, AIR FORCE

For an additional amount for "Other procurement, Air Force", $560,000,000, to remain available for obligation until September 30, 1994.

PROCUREMENT, DEFENSE AGENCIES

For an additional amount for "Procurement, Defense Agencies", $76,900,000, to remain available for obligation until September 30, 1994.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

(TRANSFER OF FUNDS)

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For an additional amount for "Research, development, test and evaluation, Army", $47,800,000, to remain available for obligation until September 30, 1993.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For an additional amount for "Research, development, test and evaluation, Navy", $6,100,000, to remain available for obligation until September 30, 1993.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For an additional amount for "Research, development, test and evaluation, Air Force", $24,300,000, to remain available for obligation until September 30, 1993.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

For an additional amount for "Research, development, test and evaluation, Defense Agencies", $28,100,000, to remain available for obligation until September 30, 1993.

DEFENSE BUSINESS OPERATIONS FUND

(TRANSFER OF FUNDS)

For an additional amount for "Defense business operations fund", $1,140,000,000.

DEPARTMENT OF TRANSPORTATION

(TRANSFER OF FUNDS)

COAST GUARD

OPERATING EXPENSES

For an additional amount for "Operating expenses", $17,900,000, to remain available for obligation until expended.

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINISTRATION—MEDICAL CARE

(TRANSFER OF FUNDS)

For an additional amount for "Medical care", $10,000,000.

DEPARTMENT OF DEFENSE—MILITARY

(TRANSFER OF EXISTING FUNDS)

For the purpose of adjusting amounts which may be transferred pursuant to the "Operation Desert Shield/Desert Storm Supplemental Appropriations Act, 1991" (Public Law 102–28) and under the terms and conditions of that Act, during the fiscal year 1992, the Secretary of Defense may make adjustments to the amounts provided for transfer by such Act in amounts not to exceed $6,282,400,000 and provide for the transfer of such amounts to the following accounts in not to exceed the following amounts to be available to the Department of Defense during fiscal year 1992: Provided, That the Secretary of Defense shall provide prior notification to the Committees on Appropriations of the House of Representatives and the Senate indicating the accounts from which the funds will be derived for such transfers:

MILITARY PERSONNEL

(TRANSFER OF FUNDS)

MILITARY PERSONNEL, ARMY

To be derived by transfer, $685,000,000 for "Military personnel, Army".

MILITARY PERSONNEL, NAVY

To be derived by transfer, $70,000,000 for "Military personnel, Navy".

MILITARY PERSONNEL, MARINE CORPS

To be derived by transfer, $18,000,000 for "Military personnel, Marine Corps".

MILITARY PERSONNEL, AIR FORCE

To be derived by transfer, $81,000,000 for "Military personnel, Air Force".

RESERVE PERSONNEL, ARMY

To be derived by transfer, $80,000,000 for "Reserve personnel, Army".

RESERVE PERSONNEL, AIR FORCE

To be derived by transfer, $4,000,000 for "Reserve personnel, Air Force".

NATIONAL GUARD PERSONNEL, ARMY

To be derived by transfer, $10,000,000 for "National Guard personnel, Army".

NATIONAL GUARD PERSONNEL, AIR FORCE

To be derived by transfer, $3,000,000 for "National Guard personnel, Air Force".

OPERATION AND MAINTENANCE

(TRANSFER OF FUNDS)

OPERATION AND MAINTENANCE, ARMY

To be derived by transfer, $2,717,500,000 for "Operation and Maintenance, Army".

OPERATION AND MAINTENANCE, NAVY

To be derived by transfer, $1,080,000,000 for "Operation and maintenance, Navy".

OPERATION AND MAINTENANCE, MARINE CORPS

To be derived by transfer, $165,000,000 for "Operation and maintenance, Marine Corps".

OPERATION AND MAINTENANCE, AIR FORCE

To be derived by transfer, $1,241,400,000 for "Operation and maintenance, Air Force".

OPERATION AND MAINTENANCE, ARMY RESERVE

To be derived by transfer, $6,000,000 for "Operation and maintenance, Army Reserve".

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

To be derived by transfer, $59,200,000 for "Operation and maintenance, Air Force Reserve".

To be derived by transfer, $3,600,000 for "Operation and maintenance, Army National Guard".

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

To be derived by transfer, $58,700,000 for "Operation and maintenance, Air National Guard".

GENERAL PROVISIONS—CHAPTER I

SEC. 101. The prohibition in section 132(a)(2) of Public Law 101–189 (103 Stat. 1383) does not apply to the obligation of $70,200,000 provided in "Aircraft procurement, Army" of chapter I, title I for the procurement of AH–64 Apache attack helicopters.

SEC. 102. Of the funds provided in title III of Public Law 101–165 for "Other procurement, Air Force", not more than $80,000,000 shall be available, and may be obligated and expended, for costs arising from the cancellation of the Alaskan OTH–B radar program and powerplant lease: Provided, That such funds will be available for contract termination, site restoration, modification of facilities and other costs associated with the termination of the Alaskan OTH–B radar program and powerplant lease, or the transfer and modification of facilities and material located at or procured for the Alaskan OTH–B radar program or powerplant to any other Department of Defense activitiy or program at the OTH–B radar powerplant site.

KURDISH PROTECTION FORCE

(TRANSFER OF FUNDS)

SEC. 103. In addition to other transfer authority granted by this or any other Act, and under the terms and conditions of the "Operations Desert Shield/Desert Storm Supplemental Appropriations Act, 1991" (Public Law 102–28), the Secretary of Defense may transfer not to exceed $100,000,000 for costs incurred during fiscal years 1991 and 1992 from the Defense Cooperation Account, or as appropriate, the Persian Gulf Regional Defense Fund to appropriate Department of Defense appropriations for costs incurred through February 1992 in support of U.S. military forces in and around Iraq and Turkey known as the Kurdish Protection or Ready Reaction Force.

RESTRICTION OF ARMS SALES TO SAUDI ARABIA AND KUWAIT

SEC. 104. (a) No funds appropriated or otherwise made available by this or any other Act may be used in any fiscal year to conduct, support, or administer any sale of defense articles or defense services to Saudi Arabia or Kuwait until that country has paid in full, either in cash or in mutually agreed in-kind contributions, the following commitments made to the United States to support Operation Desert Shield/Desert Storm:

(1) In the case of Saudi Arabia, $16,839,000,000.

(2) In the case of Kuwait, $16,006,000,000.

(b) For purposes of this section, the term "any sale" means any sale with respect to which the President is required to submit a number certification to the Congress pursuant to the Arms Export Control Act on or after the effective date of this section.

(c) This section shall take effect 120 days after the date of enactment of this joint resolution.

(d) Any military equipment of the United States, including battle tanks, armored combat vehicles, and artillery, included within the Conventional Forces in Europe Treaty definition of "conventional armaments and equipment limited by the Treaty", which may be transferred to any other NATO country shall be subject to the notification procedures stated in section 523 of Public Law 101–513 and in section 634A of the Foreign Assistance Act of 1961.

MIDDLE EAST HUMANITARIAN RELIEF

Sec. 105. (a) Of the funds appropriated from the Defense Cooperation Account for the Kurdish Ready Reaction Force, up to $15,000,000 may be made available only for the prepositioning of relief supplies in the Middle East to meet emergency Kurdish and other Iraqi-related humanitarian needs and related transportation costs. (b) In addition, the Secretary of Defense may transfer up to $15,000,000 in additional funds from the Defense Cooperation Account to the appropriate appropriations accounts within the Department of Defense for these Kurdish and other Iraqi-related humanitarian purposes.

CLASSIFIED PROGRAM

SEC. 106. (a) In section 110 of the Classified Annex incorporated into the Department of Defense Appropriations Act, 1992, the matter beginning with "Notwithstanding" and ending with "Provided, That" shall have no force or effect.

(b) The funds described in section 110 of such Classified Annex may be obligated for the program described therein only in accordance with the Classified Annex incorporated into the National Defense Authorization Act for Fiscal Years 1992 and 1993.

SEC. 107. None of the funds available to the Department of Defense in fiscal year 1992 may be used by the Department of the Army to award a contract for the procurement of four-ton dolly jacks if such equipment is or would be manufactured outside the United States of America and would be procured under any contract, agreement, arrangement, compact or other such instrument for which any provisions including price differential provisions of the Buy American Act of 1933, as amended, or any other Federal buy national law was waived: Provided, That the Secretary of the Army may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.

(TRANSFER OF FUNDS)

SEC. 108. In addition to other transfer authority available to the Department of Defense, the Secretary of Defense may transfer from amounts appropriated to the Department of Defense for fiscal year 1992 for operation and maintenance or from balances in working capital accounts established under section 2208 of title 10, United States Code, not to exceed $400,000,000, to the appropriate accounts within the Department of Defense for reducing the Soviet nuclear threat and for the purposes set forth in the Soviet Nuclear Threat Reduction Act of 1991 contained in H.R. 3807, as passed the Senate on November 25, 1991, and under the terms and conditions of such Act: Provided, That the readiness of the United States Armed Forces shall not be diminished by such transfer of funds.

(TRANSFER OF FUNDS)

SEC. 109. In addition to other transfer authority available to the Department of Defense, the Secretary of Defense, upon the declaration of an emergency by the President under the terms of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, may transfer from amounts appropriated to the Department of Defense for fiscal year 1992 or from balances in working capital accounts established under section 2208 of title 10, United States Code, not to exceed $100,000,000, to the appropriate accounts within the Department of Defense, in order to transport by military or commercial means, food, medical supplies, and others types of humanitarian assistance to the Soviet Union, or its Republics, or localities therein—with the consent of the relevant Republic government or its independent successor—in order to address emergency conditions which may arise therein, and for the purposes set forth in section 301 of H.R. 3807, as passed the Senate on November 25, 1991, and under the terms and conditions of such section 301 of H.R. 3807: Provided, That the readiness of the United States Armed Forces shall not be diminished by such transfer of funds: Provided further, That the Committees on Appropriations be notified of transfers under this provision fifteen days in advance.

CHAPTER II

DEPARTMENT OF VETERANS AFFAIRS

ADMINISTRATIVE PROVISION

Section 518(a) of the "General Provisions" in H.R. 2519, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1992, is amended by striking out "Section 662A(c)" and inserting in lieu thereof "Section 1722A(c)".

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ADMINISTRATIVE PROVISION—HOME

Section 217(a) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12747(a)) is amended—

(1) in the first sentence of paragraph (1), by inserting "and after reserving amounts for the insular areas under paragraph (3)" before the first comma; and

(2) by adding at the end the following new paragraph:

"(3) INSULAR AREAS.—For each fiscal year, of any amounts approved in appropriations Acts to carry out this title, the Secretary shall reserve for grants to the insular areas the greater of (A) $750,000, or (B) 0.5 percent of the amounts appropriated under such Acts. The Secretary shall provide for the distribution of amounts reserved under this paragraph among the insular areas pursuant to specific criteria for such distribution. The criteria shall be contained in a regulation promulgated by the Secretary after notice and public comment.".

Section 104 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12704) is amended—

(1) in paragraph (1), by striking "Guam" and all that follows through "American Samoa,"; and

(2) by adding at the end the following new paragraph:

"(24) The term 'insular area' means any of the following: Guam, the Northern Mariana Islands, the Virgin Islands, and American Samoa.".

ADMINISTRATIVE PROVISION—STAFFING

The Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1992 (H.R. 2519), is amended—

(1) in the appropriation paragraph entitled "Personal Services and Travel, Office of Public and Indian Housing" by striking "$10,424,000" and inserting in lieu thereof "$12,788,000" each time it appears in the paragraph;

(2) in the appropriating paragraph entitled "Personal Services and Travel, Office of Policy Development and Research" by striking "$10,705,000" and inserting in lieu thereof "$8,717,000"' each time it appears in the paragraph; and

(3) in the appropriating paragraph entitled "Personal Services and Travel, Office of General Counsel" by striking "$14,985,000" and inserting in lieu thereof "$14,609,000" each time it appeard in the paragraph.

INDEPENDENT AGENCIES

COURT OF VETERANS APPEALS

SALARIES AND EXPENSES

Of the funds made available under this head in Public Law 102–139, not to exceed $950,000, to remain available until September 30, 1993, shall be available for the purpose of providing financial assistance (through grant or contract made, to the maximum extent feasible, not later than 150 days after enactment of this Act) to facilitate the furnishing of legal and other assistance, without charge, to veterans and other persons who are unable to afford the cost of legal representation in connection with decisions to which section 7252(a) of title 38, United States Code, may apply, or with other proceedings in the Court, through a program that furnishes case screening and referral, training and education for attorney and related personnel, and encouragement and facilitation of pro bono representation by members of the bar and law school clinical and other appropriate programs, such as veterans service organizations, and through defraying expenses incurred in providing representation to such persons: Provided, That such grants or contracts shall be made by the Legal Services Corporation pursuant to a reimbursable payment from the United States Court of Veterans Appeals for the purposes described herein: Provided further, That the Legal Services Corporation is authorized to receive a reimbursable payment from the United States Court of Veterans Appeals for the purpose of providing the financial assistance described herein: Provided further, That no funds made available herein shall be used for the payment of attorney fees: Provided further, That, not later than 180 days after the enactment of this Act, and, again, not later than one year after a grant or contract is made pursuant to the provisions of this paragraph, the Legal Services Corporation and the United States Court of Veterans Appeals shall report to the appropriate committees of the Congress regarding the implementation of the provisions of this paragraph.

ENVIRONMENTAL PROTECTION AGENCY

ADMINISTRATIVE PROVISION

Of the funds appropriated for the wastewater treatment facilities fund under title VI of the Federal Water Pollution Control Act, up to one-half of one per centum may be made available by the Administrator for direct grants to Indian tribes for construction of wastewater treatment facilities.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF

(INCLUDING TRANSFER OF FUNDS)

For emergency disaster assistance payments necessary to provide for expenses in presidentially-declared disasters under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, an additional amount for "Disaster relief", $943,000,000, to remain available until expended, of which $143,000,000 shall be available only after submission to the Congress of a formal budget request by the President designating the $143,000,000 as an emergency: Provided, That up to $1,250,000 of the funds made available under this heading may be transferred to, and merged with, amounts made available to the Federal Emergency Management Agency under the heading "Salaries and expenses" in the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies

Appropriations Act, 1992 (Public Law 102–139): Provided further, That hereafter, beginning in fiscal year 1993, and in each year thereafter, notwithstanding any other provision of law, all amounts appropriated for disaster assistance payments under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) that are in excess of either the historical annual average obligation of $320,000,000, or the amount submitted in the President's initial budget request, whichever is lower, shall be considered as "emergency requirements" pursuant to section 251(b)(2)(D) of the Balanced Budget and Emergency Deficit Control Act of 1985, and such amounts shall hereafter be so designated.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

RESEARCH AND DEVELOPMENT

The last proviso under this heading in the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations, 1990 (Public Law 101–144), is hereby deleted.

NATIONAL COMMISSION ON SEVERELY DISTRESSED PUBLIC HOUSING

SALARIES AND EXPENSES

(TRANSFER OF FUNDS)

For necessary expenses of the National Commission on Severely Distressed Public Housing, in carrying out its functions under title V of the Department of Housing and Urban Development Reform Act of 1989 (Public Law 101–235), $250,000, to remain available until expended, to be derived by transfer from amounts provided to the Department of Housing and Urban Development under the heading "Salaries and expenses" in Public Law 102–139.

CHAPTER III

DEPARTMENT OF AGRICULTURE

COMMODITY CREDIT CORPORATION

In view of the occurrence of recent natural disasters—similar to the volcano eruption of 1980, the earthquake of 1989, and the hurricane of 1989—droughts, floods, freezes, tornadoes, and other catastrophes which resulted in billions of dollars in damages, and in an effort to restore the economy and to alleviate the effects of the disasters, an additional $1,750,000,000, to remain available until expended, is hereby made available for losses associated with 1990 crops as authorized by P.L. 101–624, and for losses associated with 1991 and 1992 crops under the same terms and conditions: Provided, That $995,000,000 of this amount is available for payments to producers for losses on either 1990 or 1991 crops, at the producer's option: Provided further, That the remaining $755,000,000 shall be available only to the extent an official budget request, for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, is transmitted to the Congress: Provided further, That this $755,000,000 shall be available for crop losses for one of the years 1990, 1991 or 1992, at the producer's option, but shall not be for a year for which disaster payments were previously provided to the producer: Provided further, That $100,000,000 of the $755,000,000 is set aside for program crops planted in 1991 for harvest in 1992: Provided further, That, consistent with the amounts made available above, emergency loans made with respect to damage to an annual crop planted for harvest in 1991 under subtitle C of the Consolidated Farm and Rural Development Act shall be made available without regard to the purchase of crop insurance under the Federal Crop Insurance Act by the producer who requests such a loan.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

Notwithstanding any other provision of law, funds available to the Animal and Plant Health Inspection Service of the Department of Agriculture for fiscal year 1992 shall be made available as a grant in the amount of $530,000 to the State of Maine Department of Agriculture, Food and Rural Resources for potato disease detection, control, prevention, eradication and related activities including the payment of compensation to persons for economic losses associated with such efforts conducted or to be conducted in the State of Maine and any unobligated balances of funds previously appropriated or earmarked for potato disease efforts by the Secretary of Agriculture shall remain available until expended by the Secretary.

TITLE II–GENERAL PROVISIONS

SEC. 200. FINDING OF DIRE EMERGENCY CONDITIONS.—The Congress finds that—

(a) the President has designated and requested the Congress to designate over $1,140,000,000 in 1991 international assistance funds to meet emergency needs in foreign lands;

(b) natural disasters (including floods, droughts, tornadoes, hurricanes, earthquakes, freezes, and typhoons) have occurred in the United States and its territories causing loss of life, human suffering, loss of income, and property loss or damage with dire emergency financial situations;

(c) since October 1990, there have been 44 presidentially-declared disasters and 89 disasters declared by the Secretary of Agriculture affecting every area of the Nation in almost every State for which Federal funds are not available to meet emergency needs, resulting in calls for the National Guard and other assistance;

(d) as a consequence of these disasters, millions of acres of land are or were under water, millions of acres of farm land are not able to be planted, and highways, dams, roads, and bridges have not been repaired. Many of the people in communities, counties, States, and many private businesses have been dangerously affected, and the local authorities in many cases are unable to meet the financial costs; and

(e) the combination of the effects of these conditions and the current recession constitutes a dire emergency situation (8,582,000 people are unemployed, total employment has declined by over 1,400,000 jobs in the last year, over 7,500 businesses are failing each month, and foreign purchases of United States land and companies are increasing) which will, if not corrected by increased production, necessitate the need for a Job Creation Bill similar to what was enacted in 1983.

SEC. 201. No part of any appropriation contained in this joint resolution shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

CONGRESSIONAL DESIGNATION OF EMERGENCY

SEC. 202. Although the President has only designated portions of the funds in this joint resolution pertaining to the incremental costs of Desert Shield/Desert Storm and certain Federal Emergency Management Agency costs as "emergency requirements", the Congress believes that the same or higher priority should be given to helping American people recover from natural disaters and other emergency situations as has been given to foreign aid "emergency" needs. The Congress therefore designates all funds in Titles I and II of this joint resolution as "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

RESTRICTIONS ON ASSISTANCE FOR KENYA

SEC. 203. (a) Restrictions.—None of the funds appropriated by this joint resolution or any other provision of law under the heading "Economic Support Fund" or "Foreign Military Financing Program" may be made available for Kenya unless the President determines, and so certifies to the Congress, that the Government of Kenya—

(1) has released all political detainees and has ended the prosecution of individuals for the peaceful expression of their political beliefs;

(2) has ceased the physical abuse or mistreatment of prisoners;

(3) has restored judicial independence;

(4) has taken significant steps toward respecting human rights and fundamental freedoms, including the freedom of thought, conscience, belief, expression, and the freedom to advocate the establishment of political parties and organizations; and

(5) has implemented the principle of freedom of movement, including the right of all citizens of Kenya to leave and return to their country.

(b) PROHIBITION.—

(1) LIMITATION ON NEW PROJECT ASSISTANCE.—During fiscal year 1992, funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of part I of the Foreign Assistance Act of 1961 that are provided for assistance to the Government of Kenya for new projects shall be made available only for new projects—

(A) that promote basic human needs, directly address poverty, enhance employment generation, and address environmental concerns; or

(B) to improve the performance of democratic institutions, or otherwise promote the objectives being sought in the certification required by subsection (a).

(2) CONGRESSIONAL NOTIFICATION.—During fiscal year 1992, none of the funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of the Foreign Assistance Act of 1961 shall be obligated unless the Committees on Appropriations are notified at least 15 days in advance in accordance with the regular notification procedures of those Committees.

(3) APPLICABILITY.—The provisions of paragraphs (1), and (2) of this subsection shall cease to apply 30 days after the certification described in subsection (a) is made to the Congress.

(c) DATE OF AVAILABILITY OF FUNDS.—None of the funds appropriated by this joint resolution or any other provision of law under the heading "Economic Support Fund" or "Foreign Military Financing Program" may be obligated or expended for Kenya until 30 days after the certification described in subsection (a) is made to the Congress.

SENSE OF THE SENATE REGARDING UNITED STATES RECOGNITION OF UKRAINIAN INDEPENDENCE.

SEC. 204. (a) FINDINGS.—The Senate makes the following findings:

(1) On August 24, 1991, the democratically elected Ukrainian parliament declared Ukrainian independence and the creation of an independent, democratic state—Ukraine.

(2) That declaration reflects the desire of the people of Ukraine for freedom and independence following long years of communist oppression, collectivization, and centralization.

(3) On December 1, 1991, a republic-wide referendum will be held in Ukraine to confirm the August 24, 1991, declaration of independence.

(4) Ukraine is pursuing a peaceful and democratic path to independence and has pledged to comply with the Helsinki Final Act and other documents of the Conference on Security and Cooperation in Europe.

(5) Ukraine and Russia signed an agreement on August 29, 1991, recognizing each other's rights to state independence and affirming each other's territorial integrity.

(6) Ukraine, a nation of 52,000,000 people, with its own distinct linguistic, cultural, and religious traditions, is determined to take its place among the family of free and democratic nations of the world.

(7) The Congress has traditionally supported the rights of people to peaceful and democratic self-determination.

(8) As recognized in Article VIII of the Helsinki Final Act of the Conference on Security and Cooperation in Europe, "all peoples always have the right, in full freedom, to determine, when and as they wish, their internal and external political status, without external interference, and to pursue as they wish their political, economic, social and cultural development".

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the President—

(1) should recognize Ukraine's independence and undertake steps toward the establishment of full diplomatic relations with Ukraine should the December 1, 1991, referendum confirm Ukrainian parliament's independence declaration; and

(2) should use United States assistance, trade, and other programs to support the Government of Ukraine and encourage the further development of democracy and a free market in Ukraine.

SEC. 205. The appropriation entitled "Fishing Vessel Obligation Guarantees" in Public Law 102–140 is amended by striking the sum "$10,000,000" and inserting in lieu thereof the sum "$24,000,000".

SEC. 206. From the funds made available for Land Acquisition of the United States Fish and Wildlife Service in the fiscal year 1992 Department of the Interior and Related Agencies Appropriations Act (Public Law 102–154), $965,000 is hereby appropriated by transfer to the Resource Management account of the United States Fish and Wildlife Service.

SEC. 207. Notwithstanding any other provisions of law, amounts received by the United States for restitution and future restoration (including replacement or acquisition of equivalent natural resources) in settlement of United States v. Exxon Corporation and Exxon Shipping Company (Case No. A90–015–1CR and 2CR), hereinafter the Plea Agreement, United States v. Exxon Corporation et al. (Civil No. A91–082–CIV) and State of Alaska v. Exxon Corporation et al. (Civil No. A91–083–CIV), hereinafter referred to together as the Agreement and Consent Decree, as approved by the United States District Court for the District of Alaska on October 8, 1991, in fiscal year 1992 and thereafter shall be deposited into the Natural Resource Damage Assessment and Restoration Fund established by Public Law 102–154. Such amounts, and the interest accruing thereon, shall be available to the Federal Trustees identified in the Agreement and Consent Decree for necessary expenses for assessment and restoration of areas affected by the discharge of oil from the T/V EXXON VALDEZ on March 23–24, 1989, for fiscal year 1992 and thereafter in accordance with the Plea Agreement and the Agreement and Consent Decree: Provided, That such amounts (and accrued interest) shall remain available until expended: Provided further, That such amounts may be transferred to any account, as authorized by section 311(f)(5) of the Federal Water Pollution Control Act (33 U.S.C. 1321(f)(5)), to carry out the provisions of the Plea Agreement and the Agreement and Consent Decree: Provided further, That herein and hereafter any amounts deposited into the Natural Resource Damage Assessment and Restoration Fund shall be invested by the Secretary of the Treasury in interest bearing obligations of the United States to the extent such amounts are not, in his judgment, required to meet current withdrawals: Provided further, That interest earned by such investments shall be available for obligation without further appropriation: Provided further, That, for fiscal year 1992, the Federal Trustees shall provide written notification of the proposed transfer of such amounts to the Appropriations Committees of the House of Representatives and the Senate thirty days prior to the actual transfer of such amounts: Provided further, That, for fiscal year 1993 and thereafter, the Federal Trustees shall submit in the President's Budget for each fiscal year the proposed use of such amounts.

WAIVER OF CERTAIN RECOVERY REQUIREMENTS

SEC. 208. Section 2713(d) of the Public Health Service Act (42 U.S.C. 300aaa–12(d)) is amended by striking "(a)(2)" and inserting "(a)".

SEC. 209. (a) Section 307E of the Legislative Branch Appropriations Act, 1989 (40 U.S.C. 216c), is amended to read as follows:

"SEC. 307E. (a) The Architect of the Capitol, subject to the direction of the Joint Committee on the Library, is authorized to—

"(1) construct a National Garden demonstrating the diversity of plans, including the rose, our national flower, to be located between Maryland and Independence Avenues, S.W., and extending from the Botanic Garden Conservatory to Third Streets, S.W., in the District of Columbia; and

"(2) solicit, receive, accept, and hold gifts, including money, plant material, and other property, on behalf of the Botanic Garden, and to dispose of, utilize, obligate, expend, disburse, and administer such gifts for the benefit of the Botanic Garden, including among other things, the carrying out of any programs, duties or, functions of the Botanic Garden, and for constructing, equipping, and maintaining the National Garden referred to in paragraph (1).

"(b)(1) Gifts or bequests of money under subsection (a)(2) shall, when received by the Architect, be deposited with the Treasurer of the United States, who shall credit these deposits as offsetting collections to an account entitled "Botanic Garden, Gifts and Donations". The gifts or bequests described under subsection (a)(2) shall be accepted only in the total amount provided in appropriations acts.

"(2) Receipts, obligations, and expenditures of funds under this section shall be included in annual estimates submitted by the Architect for the operation and maintainance of the Botanic Garden and such funds shall be expended by the Architect, without regard to section 3709 of the Revised Statutes, for the purposes of this section after approval in appropriations Acts. All such sums shall remain available until expended, without fiscal year limitation.

"(c)(1) In carrying out this section and his duties, the Architect of the Capitol may accept personal services, including educationally related work assignments for students in nonpay status, if the service is to be rendered without compensation.

"(2) No person shall be permitted to donate his or her personal services under this section unless such person has first agreed, in writing, to waive any and all claims against the United States arising out of or in connection with such services, other than a claim under the provisions of chapter 81 of title 5, United States Code.

"(3) No person donating personal services under this section shall be considered an employee of the United States for any purpose other than for purposes of chapter 81 of title 5, United States Code.

"(4) In no case shall the acceptance of personal services under this section result in the reduction of pay or displacement of any employee of the Botanic Garden.

"(d) Any gift accepted by the Architect of the Capitol under this section shall be considered a gift to the United States for purposes of income, estate, and gift tax laws of the United States.".

(b) Pursuant to section 307E of the Legislative Branch Appropriations Act, 1989, not more than $2,000,000 shall be accepted and not more than $2,000,000 of the amounts accepted shall be available for obligation by the Architect for preparation of working drawings, specifications, and cost estimates for renovation of the Conservatory of the Botanic Garden.

SEC. 210. (a) The caption for section 713 of title 18, United States Code, is amended as follows:

"§713. Use of likenesses of the great seal of the United States, the seals of the President and Vice President, and the seal of the United States Senate."

(b) Subsection (a) of Section 713 of title 18, United States Code, is amended by inserting "or the seal of the United States Senate," after "Vice President of the United States,".

(c) Subsection (c) of section 713 of title 18, United States Code, is—

(1) amended to read as follows:

"A violation of the provisions of this section may be enjoined at the suit of the Attorney General,

(1) in the case of the great seal of the United States and the seals of the President and Vice President, upon complaint by any authorized representative of any department or agency of the United States; and

(2) in the case of the seal of the United States Senate, upon complaint by the Secretary of the Senate."; and

(3) redesignated as subsection (d).

(d) Section 713 of title 18, United States Code, is amended by inserting after subsection (b) the following new subsection:

"(c) Whoever, except as directed by the United States Senate, or the Secretary of the Senate on its behalf, knowingly uses, manufactures, reproduces, sells or purchases for resale, either separately or appended to any article manufactured or sold, any likeness of the seal of the United States Senate, or any substantial part thereof, except for manufacture or sale of the article for the official use of the Government of the United States, shall be fined not more than $250 or imprisoned not more than six months, or both.".

(e) The table of sections for chapter 33 of title 18, United States Code, is amended by striking the item for section 713 and inserting the following:

"713. Use of likenesses of the great seal of the United States, the seals of the President and Vice President, and the seal of the United States Senate.".

SEC. 211. Section 311(i) of the Legislative Branch Appropriations Act, 1991 (2 U.S.C. 59e(i)) is amended by striking out "with respect to sessions of Congress beginning with the second session of the One Hundred Second Congress," and inserting in lieu thereof "beginning on May 1, 1992,".

SEC. 212. The Secretary of Defense shall continue the construction of a composite medical replacement facility located at Nellis Air Force Base, Nevada, as authorized in the Military Construction Authorization Act for Fiscal Years 1990 and 1991 (division B of Public Law 101–189) and the Military Construction Authorization Act for Fiscal Year 1991 (division B of Public Law 101–510) and as provided for in the Military Construction Appropriations Act, 1990 (Public Law 101–148) and the Military Construction Appropriations Act, 1991 (Public Law 101–519).

SEC. 213. Unobligated funds in the amount of $990,000 authorized and appropriated under Public Law 102–143 for bridge safety repairs in Vermont shall be made available as follows—$350,000 to the City of Barre for the Granite Street Bridge, $350,000 to the City of Montpelier for the Bailey Avenue Bridge, $90,000 to the Town of Brandon for the replacement of the Dean Bridge, and $90,000 for the Town of Williston and $110,000 for the Town of Essex for the North Williston Road Bridge—without regard to whether or not such expenses are in-

curred in accordance with sections 101, 106, 110, and 120 of title 23 of the United States Code.

SEC. 214. Section 4001(a)(14) of the Employment Retirement Income Security Act of 1974 (29 U.S.C. 1301(a)(14)) is amended—

(1) by striking "and" at the end of subparagraph (A);

(2) by adding "and" at the end of subparagraph (B); and

(3) by adding at the end the following new subparagraph:

"(C)(i) notwithstanding any other provision of this title, during any period in which an individual possesses, directly or indirectly, the power to direct or cause the direction of the management and policies of an affected air carrier of which he was an accountable owner, whether through the ownership of voting securities, by contract, or otherwise, the affected air carrier shall be considered to be under common control not only with those persons described in subparagraph (B), but also with all related persons; and

"(ii) for purposes of this subparagraph, the term—

"(I) 'affected air carrier' means an air carrier, as defined in section 101(3) of the Federal Aviation Act of 1958, that holds a certificate of public convenience and necessity under section 401 of such Act for route number 147, as of November 12, 1991;

"(II) 'related person' means any person which was under common control (as determined under subparagraph (B)) with an affected air carrier on October 10, 1991, or any successor to such related person;

"(III) 'accountable owner' means any individual who on October 10, 1991, owned directly or indirectly through the application of section 318 of the Interanl Revenue Code of 1986 more than 50 percent of the total voting power of the stock of an affected air carrier;

"(IV) 'successor' means any person that acquires, directly or indirectly through the application of section 318 of the Internal Revenue Code of 186, more than 50 percent of the total voting power of the stock of a related person, more than 50 percent of the total value of the securities (as defined in section 3(20) of this Act) of the related person, more than 50 percent of the total value of the assets of the related person, or any person into which such related person shall be merged or consolidated; and

"(V) 'individual' means a living human being;".

This joint resolution may be cited as the "Dire Emergency Supplemental Appropriations and Transfers for Relief From the Effects of Natural Disasters, for Other Urgent Needs, and for Incremental Cost of 'Operations Desert Shield-Desert Storm' Act of 1992".

And the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the joint resolution and agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONGERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes to the two Houses on the amendment of the Senate to the joint resolution (H.J. Res. 157) making dire emergency supplemental appropriations and transfers for relief from the effects of natural disasters, for other urgent needs, and for incremental costs of "Operation Desert Shield/Desert Storm" for the fiscal year ending September 30, 1992, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

Report language included by the House in the report accompanying H.R. 3543 (H. Rept 102–255) which is not changed by the report of the Senate (S. Rept 102–216), and Senate report language which is not changed by the conference are approved by the committee of conference. The statement of the managers while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

The conference agreement deletes technical corrections and enrolling error corrections to four fiscal year 1991 appropriations acts that were proposed by the House and stricken by the Senate. These corrections have already been made in an earlier supplemental appropriations act, Public Law 102–27.

SUPPLEMENTAL APPROPRIATIONS

DEPARTMENT OF DEFENSE—MILITARY PROCURMENT

MISSILE PROCUREMENT, ARMY

(INCLUDING TRANSFER OF FUNDS)

PATRIOT

The conferees have provided $145,000,000, including $67,000,000 derived by transfer from contract savings on the Maverick missile, for the procurement of additional Patriot missiles. The Army is directed to procure as many new missiles as possible with the funding available.

SHIPBUILDING AND CONVERSION, NAVY

The conferees agree to provide $25,000,000 in advance procurement funding to finance long lead items, including engines and generators, for the LSD cargo variant.

NATIONAL GUARD AND RESERVE EQUIPMENT

The conferees agree to provide $10,100,000 for the purchase of one MH-60G helicopter for the Air National Guard.'

TITLE I–EMERGENCY SUPPLEMENTAL APPROPRIATIONS

Chapter I

DEPARTMENT OF DEFENSE—MILITARY

OPERATION DESERT SHIELD/DESERT STORM

(TRANSFER OF ADDITIONAL FUNDS)

The conferees agree to provide $3,968,500,000 for additional incremental costs of the Department of Defense, the Department of Veterans Affairs, and the Department of Transportation, as follows:

MILITARY PERSONNEL

(TRANSFER OF FUNDS)

The conferees agree not to provide an additional amount for National Guard Personnel, Army, as proposed by the Senate instead of $40,200,000 as proposed by the House in H.R. 3543.

OPERATION AND MAINTENANCE

(TRANSFER OF FUNDS)

The conference agreement on additional transfers for Operation and Maintenance is as follows:

Operation and Maintenance:	*Conference*
Army	$227,300,000
Navy	270,000,000
Marine Corps	75,000,000
Army Reserve	23,200,000
Navy Reserve	28,300,000
Army National Guard	41,900,000
Total	665,700,000

PROCUREMENT

The supplemental request proposed transfers from the Defense Cooperation Account or the Persian Gulf Regional Defense Fund to the procurement accounts in the amount of $1,472,900,000. The conference agreement includes transfers totalling $2,028,600,000 as follows:

Appropriation Account/Line Item	Quantity	Amount
Aircraft Procurement, Army:		
AH–64 Helicopter	6	$70,200,000
CH–47D Modification	2	27,000,000
OH–58D Modifications	12	90,200,000
UH–60 Helicopter	6	38,400,000
UH–60 Helicopter (Replaces UH–1)	7	45,000,000
Total		270,800,000
Missile Procurement, Army:		
TOW/STINGER Restockage		21,800,000
Total		21,800,000
Procurement of Weapons and Tracked Combat Vehicles, Army:.		
M1A1 Tanks	18	63,000,000
Total		63,000,000
Other Procurement, Army:		
HMMWV	155	4,800,000
HEMTT M977	42	6,600,000
HEMTT M978	161	27,300,000
5 Ton Truck FMTV	436	41,800,000
Total		80,500,000
Aircraft Procurement, Navy:		
SH–60B Helicopter	1	17,000,000
F/A–18 Aircraft	5	135,000,000
F/A–18 Aircraft (Replaces A–6)	4	108,000,000

Appropriation Account/Line Item	Quantity	Amount
AV–8B Aircraft	6	230,000,000
AH–1W Helicopter (Replaces AH–1J)	2	18,000,000
OV–10 Series Modifications		13,000,000
Total		521,000,000
Weapons Procurement, Navy:		
5–inch 54 Gun Mount	1	8,100,000
Total		8,100,000
Other Procurement, Navy:		
Civil Engineering Equipment		97,700,000
MK–103 Mine Clearing Sleds		2,100,000
Trucks		300,000
Medical Support Equipment		12,600,000
Total		112,700,000
Procurement, Marine Corps:		
Light Armored Vehicle	4	4,300,000
Total		4,300,000
Aircraft Procurement, Air Force:		
F–15E Aircraft	3	268,800,000
F–117A Aircraft		40,700,000
Total		309,500,000
Other Procurement, Air Force:		
Laser Guided Bomb Kits		460,000,000
Combined Effects Munitions		100,000,000
Total		560,000,000
Procurement, Defense Agencies:		
AC–130 Aircraft (Spec. Ops. Command)	1	71,400,000
UH–60L Helicopter (Spec. Ops. Command)	1	5,500,000
Total		76,900,000
Grand Total		2,028,600,000

AVAILABILITY OF FUNDS

The conference agreement retains Senate language in each of the procurement appropriations making the funds available for obligation until September 30, 1994.

AH–64 APACHE HELICOPTER

The conference agreement includes $70,200,000 for procurement of six AH-64 Apache helicopters, as proposed by the Senate. The conference agreement also retains Senate Section 101 which sets aside a provision of Public Law 101–189 to make this procurement possible.

AIR FORCE MUNITIONS

The Senate bill included a provision permitting the use of $100,000,000 of the $460,000,000 included for procurement of laser guided bomb kits for the procurement instead of combined effects munitions. The conference agreement deletes this provision and includes $460,000,000 for procurement of laser guided bomb kits and $100,000,000 for the procurement of combined effects munitions.

AC–130 GUNSHIP

The conferees agree with the House language in H.R. 3543 that an AC-130 "U" model shall be procured with funding provided under Procurement, Defense Agencies.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The supplemental request proposed transfers from the Defense Cooperation Acccount or the Persian Gulf Regional Defense Fund to the Research, Development, Test and Evaluation accounts in the amount of $108,500,000. The conference agreement includes transfers totalling $106,300,000 as follows:

	Conference
Research, Development, Test and Evaluation, Army:	
Chem-Bio Defense Equipment—Adv. Development	$7,500,000
Night Vision System—Eng. Development	8,000,000
Chemical/Smoke Equipment Defeating Technologies	1,300,000
Special Army Program	1,600,000
Combat Vehicle and Automotive Technology	1,100,000
Military Engineering Technology	1,100,000
TRACTOR HOLE	2,100,000
Materials and Structures Adv. Technology	0
Joint Surveillance and Target Attack Radar System	0
Logistics and Engineer Equipment—Eng. Development	2,100,000
Army Test Ranges	1,400,000
Exploitation of Foreign Items	6,200,000
Base Operations	0
Landmine War/Barrier Adv. Technology	1,700,000
Various Programs Under $1 million	13,700,00
Total, RDT&E, Army	47,800,000
Research, Development, Test and Evaluation, Navy:	
Tactical Command System	1,300,000
Mine Countermeasures	2,200,000
Various Programs Under $1 million	2,600,000
Total, RDT&E, Navy	6,100,000
Research, Development, Test and Evaluation, Air Force:	
Airborne Warning and Control System (AWACS)	7,300,000
C(3) Advanced Development	0
EW Development	1,800,000
Joint Surveillance System	3,300,000
Constant Source	3,800,000
Armament Ordnance Development	700,000

Total, RDT&E, Defense Agencies	28,100,000
Total, Research, Development, Test and Evaluation:	$106,300,000

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

MEDICAL RESEARCH

The conferees agree that within the funds appropriated in the Department of Defense Appropriations Act, 1992, for medical technology in Research, Development, Test and Evaluation, Army, $3,000,000 shall be made available for the PYROCAP B-136 project as described in the conference report of the National Defense

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

OVER THE HORIZON TARGETING

The conferees direct that of the $33,977,000 appropriated in fiscal year 1992 for the Tactical Command System (program element 0604231N), $2,974,000 is only for Over the Horizon Targeting which had been requested by the Navy in program element 0604707N. DD Form 1414 for fiscal year 1992 shall show the Over the Horizon Targeting funds as an item of special interest, a decrease to which requires prior Congressional approval.

155MM LIGHTWEIGHT HOWITZER

The report accompanying the National Defense Authorization Act for Fiscal Years 1992 and 1993 recommended the provision of $2,500,000 for the Marine Corps and Army Lightweight 155mm Howitzer program. The conferees on H.J. Res. 157 support that endorsement. The conferees direct that up to $2,500,000 of the funds appropriated in the Department of Defense Appropriations Act, 1992, for Research, Development, Test and Evaluation, Navy, shall be used only for necessary planning and preparation of the fiscal year 1993 Lightweight 155mm Howitzer competitive demonstration program.

DEFENSE BUSINESS OPERATIONS FUND

(TRANSFER OF FUNDS)

The conference agreement on additional transfers for the Defense Business Operations Fund is as follows:

	Conference
Defense Business Operations Fund:	
Army Supply Operations	$410,000,000
Navy Supply Operations	450,000,000
Air Force Supply Operations	280,000,000
Total	1,140,000,000

DEPARTMENT OF TRANSPORTATION

(TRANSFER OF FUNDS)

COAST GUARD

OPERATING EXPENSES

The conferees agree to provide $17,900,000 for an additional amount for operating expenses of the Coast Guard. The conferees further agree that these amounts shall be available until expended.

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINSTRATION

MEDICAL CARE

(TRANSFER OF FUNDS)

Transfers $10,000,000 from funds available for the costs of Operation Desert Shield/Desert Storm to medical care, instead of transferring $10,000,000 from the same source and earmarking the funds for marriage and family counseling services for veterans of the Persian Gulf War and their spouses and families, contingent upon authorizing legislation during this Congress, as proposed by the Senate. The conferees agree that the $10,000,000 should be available for a subsequently authorized program for marriage and family counseling services for veterans of the Persian Gulf War and their spouses and families (or for similar, currently authorized services if specific legislation is not enacted) and for other medical services for Persian Gulf veterans.

DEPARTMENT OF DEFENSE—MILITARY

(TRANSFER OF EXISTING FUNDS)

The conferees agree to provide authority to realign $6,282,400,000 of funds previously transferred pursuant to the "Operation Desert Shield/Desert Storm Supplemental Appropriations Act, 1991" (Public Law 102–28).

GENERAL PROVISIONS—CHAPTER I

AH-64 APACHE HELICOPTER

The conferees agree to the Senate general provision (Sec. 101) which enables obligation of funds for the AH-64 Apache helicopter.

OTH-B RADAR

The conferees agree to the Senate provisions (Sec. 102) regarding the Over-the-Horizon Backscatter Radar.

KURDISH PROTECTION FORCE

(TRANSFER OF FUNDS)

The conferees agree to provide $100,000,000 by transfer for expenses resulting from U.S. participation in the Kurdish Protection Force (KPF) (Sec. 103). The conferees direct that no later than March 1, 1992, the Secretary of Defense shall provide the Committees on Appropriations of the House and Senate with a report detailing (1) the full costs of the KPF operation, to include the amount paid by other allied participants; (2) the rules of engagement under which the KPF operates, and (3) the assistance being provided to the KPF by the Government of Turkey.

RESTRICTIONS AND ARMS SALES TO SAUDI ARABIA AND KUWAIT

The conferees have included language proposed by the Senate (Sec. 104), which takes effect 120 days after the date of enactment of this joint resolution, restricting the use of funds to conduct, support, or administer any sale of defense articles or defense services to Saudi Arabia or Kuwait until they have fully paid their mutually agreed commitments to the United States to support Operation Desert Shield/Desert Storm. The House bill contained no similar provision.

The conferees have included further language requiring the notification of United States military equipment transfers to other NATO countries under the provisions of the Conventional Forces in Europe Treaty.

PARKING TICKETS OWED BY DIPLOMATS OF SAUDI ARABIA AND KUWAIT

It has been brought to the attention of the conferees that diplomats of many countries have failed to pay parking fees and fines in both the District of Columbia and the City of New York. Special action was taken to notify foreign ambassadors of the obligation of diplomats to pay these fines in a letter from the Office of Foreign Missions of the Department of State in June, 1991.

Despite this letter, New York City records indicate that for 1989 and 1990 Saudi Arabian diplomats located at the Saudi Consulate and the Saudi Mission in New York City have 1,247 outstanding tickets valued at $41,151. Additionally, District of Columbia records indicate that 2,752 tickets owed by Saudi Arabian diplomats and valued at $121,250 are outstanding from the last three years

Diplomats of Kuwait, according to District of Columbia records, have 56 tickets valued at $2,465 still outstanding despite recent actions clearing up other overdue tickets.

The conferees are disturbed by this failure of foreign diplomats to live within simple domestic laws. The conferees warn that continued failure to pay parking fines by foreign diplomats will result in legislative consideration of measures both to restrict benefits granted to such countries and to restrict diplomatic privileges enjoyed by such countries.

MIDDLE EAST HUMANITARIAN ASSISTANCE

(TRANSFER OF FUNDS)

The conferees have modified language proposed by the Senate (Sec. 105) to give the Secretary of Defense discretionary authority to provide $15,000,000 from the "Defense Cooperation Account for the Kurdish Ready Reaction Force", and $15,000,000 from the "Defense Cooperation Account" for the prepositioning of humanitarian relief supplies in the Middle East. The conferees have included this provision in order to address needs that may occur related to Iraqi Kurds. The House had no similar language.

The conferees also agree that the Department of Defense is to thoroughly coordinate this program with the Office of Disaster Assistance within the Agency for International Development. Fiscal Year 1991 funds remain available for Middle East humanitarian support through the Agency for International Development, and the conferees want to make sure that the AID program and the DOD program are proceeding with proper coordination. The Committees on Appropriations are to be notified in advance on the use of the funds under this authority.

CLASSIFIED PROGRAM

The conferees agree to the Senate amendment (Sec. 106) modifying section 110 of the Classified Annex incorporated by reference into the "Department of Defense Appropriations Act, 1992". Additional guidance by the conferees is contained in a classified letter accompanying this statement of the managers.

FOUR-TON DOLLY JACKS

The conferees agree to include language (Sec. 107) which prohibits the use of fiscal year 1992 appropriated funds to procure four-ton dolly jacks outside the United States unless the Secretary of Defense determines such procurement is necessary in the interest of national security.

In February 1991, the Department awarded a contract to an overseas firm to procure 814 four-ton dolly jacks. Subsequently, this firm has failed to successfully complete first article testing on two occasions.

Therefore, the conferees direct the Department of Defense to terminate contract DAAA09–91–C–0353 if the contractor fails to complete first article testing.

SOVIET NUCLEAR WEAPONS CONTROL AND DESTRUCTION

The conferees agree to a general provision (Sec. 108) which would allow the Secretary of Defense to transfer up to $400,000,000 from fiscal year 1992 operation and maintenance funds and from cash balances in the working capital funds to other Department of Defense appropriation accounts to cover the costs of the United States Government in assisting the Soviet Union and/or emerging political structures on the territory of the former Soviet Union in dismantling nuclear weapons.

The conferees are adamant that any funds used for this purpose cannot come at the expense of the readiness of U.S. forces. In addition, the conferees agree that none of the funds for transfer may be derived from programs which were increased in the Department of Defense Appropriations Act for fiscal year 1992 above the amount requested. Further, no funds shall be transferred from environmental clean-up and natural and cultural resource management activities.

No funds may be transferred to provide U.S. assistance in destroying nuclear weapons unless the President first certifies to the Congress that the potential recipient is committed to making a substantial investment of its resources for dismantling or destroying such weapons; foregoing any military modernization that is designed to replace destroyed weapons of mass destruction; foregoing any use of fissionable and other components of destroyed nuclear weapons in new nuclear weapons; and taking adequate measures to prevent any transfer of nuclear weapons or their components to any third party.

The conferees further stipulate that the Secretary of Defense shall submit to the Committee on Appropriations for prior approval under established reprogramming procedures any proposed transfer authorized by this section.

EMERGENCY TRANSPORTATION

The conferees agree to a general provision (Sec. 109) authorizing the Secretary of Defense at the direction of the President to transfer funds from Department of Defense fiscal year 1992 funds and working capital accounts to the appropriate Department of Defense appropriations to allow the Department of Defense to transport by military or commercial means, food, medical supplies, and other types of humanitarian assistance to the Soviet Union, or its Republics, or localities therein, in order to address emergency conditions which may arise. The provision of humanitarian assistance shall be carried out under the terms and conditions established as authorized by section 301 of H.R. 3807 as passed the Senate on November 25, 1991.

The conferees are adamant that any funds used for the purposes provided herein cannot come at the expense of the readiness of the United States Armed Forces. Further, the conferees stipulate that none of the funds for transfer may be derived from programs which were increased by the Department of Defense Appropriations Act for fiscal year 1992 above the amount requested. Further, no funds shall be transferred from environmental clean-up and natural and cultural resource management activities.

Finally, the conferees agree that the Secretary of Defense shall submit to the Committees on Appropriations for prior approval under established reprogramming procedures any proposed transfer authorized by this section.

CHAPTER II

DEPARTMENT OF VETERANS AFFAIRS

ADMINISTRATIVE PROVISION

Inserts language reflecting a recodification in a general provision in the 1992 VA, HUD, and Independent Agencies Appropriations Act, as proposed by the Senate. An identical provision is contained in H.R. 3543.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ADMINISTRATIVE PROVISIONS

Includes language adjusting the amounts appropriated for three salaries and expenses appropriations in the Department of Housing and Urban Development as proposed by the Senate, amended to permit four U.S. territories to participate in the HOME program. Both of these provisions are in H.R. 3543.

Concern has been expressed regarding potential 1992 staffing restrictions in HUD. The Department has recently indicted that it does not anticipate the need for any furloughs. In the future, HUD needs to more accurately estimate personal service costs and to better monitor employment levels in housing to ensure they do not increase beyond levels that can be funded.

INDEPENDENT AGENCIES

COURT OF VETERANS APPEALS

SALARIES AND EXPENSES

Inserts language as proposed by the Senate authorizing that not to exceed $950,000 of 1992 Court of Veterans Appeals' funds be available through a reimbursable payment to the Legal Services Corporation for grants or contracts to organizations that provide legal assistance to veterans in *pro se* cases before the court. The conferees wish to make clear that these funds will provide for a *demonstration* program in fiscal years 1992 and 1993. Further funding of these types of services will depend upon an independent evaluation of the demonstration program and the availability of funds.

ENVIRONMENTAL PROTECTION AGENCY

ADMINISTRATIVE PROVISION

Inserts language proposed by the Senate providing that up to one half of one percent of funds appropriated may be available as direct grants to Indian tribes for the construction of wastewater treatment facilities.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF FUND

Appropriates $943,000,000 for the disaster relief fund, as proposed by the Senate in H.J. Res. 157 and the House in H.R. 3543. Of this amount, $800,000,000 has been designated as an emergency and therefore is not subject to the spending caps contained in the Budget Enforcement Act of 1990. The conferees have agreed that the remaining $143,000,000 will be available if the President submits a formal budget request and designates these funds as emergency in nature. This supplemental appropriation is urgently needed for disaster assistance to 38 states and territories. The Committees on Appropriations have been assured by both FEMA and OMB that this amount, when combined with unobligated balances, recoveries from prior years and the regular 1992 appropriation, will be sufficient to meet FEMA's costs for all outstanding prior year disasters, and a normal level of disaster activity for the remainder of the fiscal year.

In addition, language has been included that specifies that in future years, commencing with fiscal year 1993, only amounts in excess of either the historical average for disaster relief of $320,000,000, or the amount submitted in the President's initial budget request, whichever is lower, will be considered "emergency" in nature under the Balanced Budget and Emergency Deficit Control Act of 1985. The conference agreement provides an automatic designation as an emergency on the part of Congress and the President for any amounts that are signed into law in the future that exceed the specified threshold. The conferees and the Administration agree that this language assures that the Committees on Appropriations will not be scored in future years for providing less than the historical average of $320,000,000 for the disaster relief fund.

Language is also included permitting FEMA to transfer up to $1,250,000 to salaries and expenses appropriation, (which would also be designated as an emergency), from the disaster relief fund as proposed by the Senate. These funds will support an additional 25 FTE to meet disaster assistance workload requirements.

The conferees also note that many projects resulting from the Loma Prieta earthquake have not yet been funded. Of the funds allocated for Loma Prieta disaster assistance activities, the conferees urge FEMA to expedit projects, such as Loma Prieta damaged hospitals, where critical and compelling community needs such as health care are at stake.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

RESEARCH AND DEVELOPMENT

Inserts language as proposed by the Senate repealing the development cost "cap" on the Comet Rendezvous Asteroid Flyby/Cassini mission as contained in the fiscal year 1990 VA, HUD, and Independent Agencies Appropriations Act. In the recently enacted 1992 NASA appropriation, the conferees agreed to reduce the CRAF/Cassini mission by $117,300,000. This reduction will cause a delay of approximately one year in the mission. That will result in an increase in the $1,600,000,000 existing development "cap." This proviso would repeal that dollar cap which was included in the 1990 appropriation bill. The conferees direct that a new CRAF/Cassini development cost "cap" be transmitted with the 1992 NASA operating plan. The conferees also want to restate the further direction contained in the conference report accompanying the 1992 bill requiring that NASA submit in connection with the fiscal year 1992 operating plan, proposed "caps" for all development (and where applicable) operations activities covering all programs funded within the agency. The conferees believe that this action is essential in view of the anticipated extremely limited budget resources available in the coming fiscal year.

NATIONAL COMMISSION ON SEVERELY DISTRESSED PUBLIC HOUSING

SALARIES AND EXPENSES

The conferees have included $250,000 for the National Commission on Severely Distressed Public Housing, to be derived by transfer from the salaries and expenses account of the Department of Housing and Urban Development. These funds are necessary to permit the Commission to complete its work. The conferees expect the Commission to deliver its report to the Congress at the earliest possible date, but in no event later than June 1, 1992, to allow for consideration of its contents as part of the fiscal year 1993 appropriations bill.

CHAPTER III

DEPARTMENT OF AGRICULTURE

COMMODITY CREDIT CORPORATION

The conference agreement includes $1,750,000,000 for disaster payments to farmers and ranchers to compensate them for losses suffered from natural disasters during crop years 1990, 1991, and 1992. The agreement provides the same smount proposed by the House in H.R. 3543 and the same amount proposed by the Senate.

The conference agreement earmarks $995,000,000 for disaster payments authorized by Public Law 101-624 for crop year 1990 and for crop year 1991 under the same terms and conditions. Payments are available for losses which occurred in either 1990 or 1991, at the producer's option.

The conference agreement also provides $755,000,000 for crop years 1990, 1991, and 1992 under the same terms and conditions as authorized in P.L. 101-624 which shall be available only upon receipt of an official budget request or requests.

The conference agreement amends Senate language which provided that for purposes of this Act the term "1991 crop" shall include any program crop planted in 1991 for harvest in 1992. The conferees were unable to finance losses of crops planted in 1991 for harvest in 1992 as a dire emergency at this time. But, the conferees have set aside $100,000,000 of the $755,000,000 to meet such problems, subject to receipt of an official budget request or requests.

The conferees will expect that all payment limitations now in law be implemented carefully and all applications for assistance be considered on a case-by-case basis.

CROP INSURANCE WAIVER FOR EMERGENCY LOANS

The conference agreement amends Senate language that waives the requirement to have crop insurance in 1990 and 1991 to obtain emergency loans. H.R. 3543 contained no similar provision. The agreement waives the requirement for 1991 only, since the 1990 requirement was waived previously.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

The conference agreement earmarks $530,000 of existing funds for a grant to the State of Maine Department of Agriculture for potato disease efforts as proposed by the Senate. H.R. 3543 contained no similar provision.

SOIL CONSERVATION SERVICE

EMERGENCY WATERSHED PROTECTION

The conference agreement deletes the $50,000,000 for the Emergency Watershed Protection Program proposed by the House in H.R. 3543 and the $28,000,000 proposed by the Senate.

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

EMERGENCY CONSERVATION PROGRAM

The conference agreement deletes the $5,000,000 for the Emergency Conservation Program proposed by the House in H.R. 3543. The Senate resolution contained no similar provision.

FOOD AND NUTRITION SERVICE

SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The conference agreement deletes the $100,000,000 for the Special Supplemental Food Program for Women, Infants, and Children (WIC) proposed by both the House and the Senate. The fiscal year 1992 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act provided $2,600,000,000 for the WIC program, an increase of $250,000,000 or 10.6 percent over the fiscal year 1991 level. Since 1980 Congress has increased WIC funding by 253 percent, resulting in average monthly participation increasing from 1.9 million persons in 1980 to 4.9 million persons in 1991.

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The conference agreement deletes funding that was proposed by the Senate in H.J. Res. 157 for Flood Control, Mississippi River and Tributaries, Operation and Maintenance, General and Flood Control and Coastal Emergencies.

DEPARTMENT OF THE INTERIOR

BUREAU OF RECLAMATION

CONSTRUCTION PROGRAM

The conference agreement deletes language proposed by the Senate regarding the Buffalo Bill Dam Modification project in Wyoming.

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

H.J. Res. 157 that would have appropriated $5,000,000 to the State Department, notwithstanding Sec. 15 of the State Department Basic Authories Act, for rewards for information leading to the arrest, return to trail, and conviction of international terrorists. Neither the House version of H.J. Res. 157 nor the House Bill (H.R. 3453) contained such funds.

The Senate amendment has been deleted because this supplemental appropriation of $5,000,000 would not meet the definition of an emergency, and would result in additional spending and thereby cause a sequester of funds in fiscal year 1992.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH AND FACILITIES

The Conference agreement does not include the Senate amendment to H.J. Res. 157 which would have appropriated $300,000 for the Interjurisdictional Fisheries Program for the restoration of shellfishing beds in Rhode Island damaged by Hurricane Bob. Neither the House version of H.J. Res. 157 nor the House Bill (H.R. 3543) contained funds for this purpose.

In addition, the conference agreement does not include the provision in the House Bill (H.R. 3543) which would have appropriated $1,300,000 to restore lost computer and related telecommunications equipment destroyed by a fire at NOAA's Office of Administration in Suitland, Maryland. Neither the House version of H.J. Res. 157 nor the Senate amendment to H.J. Res. 157 included funds for this purpose.

The conference agreement does not include either the House or the Senate supplemental items for NOAA. The conferees now believe there are sufficient funds currently available to NOAA in fiscal year 1992, both from carryover balances and new appropriations, to handle these requirements.

U.S. INFORMATION AGENCY

SALARIES AND EXPENSES

(TRANSFER OF FUNDS)

The conference agreement does not include the Senate language in H.J. Res. 157 that would have provided for a transfer of $5,600,000 to USIA to allow for the continued participation of the United States in the 1992 Columbus Quincentennial Expositions in Seville, Spain, and Genoa, Italy. The transfer comes from funds provided to the Board for International Broadcasting for the Israel Relay Station project. Neither the House version of H.J. Res 157 nor the House Bill (H.R. 3543) contained such a transfer of funds.

The Senate language has been deleted because an identical provision has been included in the conference agreement on the Department of Defense Appropriations Act, 1992, which the House and Senate have already approved.

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES

Three provisions with respect to Interior and related agencies appropriations which were adopted by the House in H.R. 3543, Making Dire Emergency Supplemental Appropriations and Transfers for Relief from the Effects of Natural Disasters, for Other Urgent Needs, and for Incremental Costs of "Operation Desert Shield/Desert Storm" for the Fiscal Year Ending September 30, 1992, and for Other Purposes, were not included by the Senate in H.J. Res. 157. The conference agreements with respect to those provisions are as follows:

First, no funding is provided for emergency reclamation projects under the abandoned mine reclamation fund in the Office of Surface Mining Reclamation and Enforcement. The House had provided $10,300,000 in Title I, Chapter V of H.R. 3543 for emergency abandoned mine reclamation projects. The Congress has recently addressed this issue in Public Law 102–154.

Second, no funding is provided for U.S. Geological Survey emergency assistance to local and State governments to assess geologic and hydrologic effects and develop preparedness and response plans for disasters. The House had provided $5,000,000 in Title I, Chapter V of H.R. 3543 for this program.

Third, no funding is provided for the Forest Service in the Department of Agriculture to address critical health and safety projects included in its maintenance, repair and restoration backlog. The House had provided $25,000,000 in Title I, Chapter V of H.R. 3543 to address the maintenance backlog.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

CENTERS FOR DISEASE CONTROL

The conference agreement deletes appropriation of $90,000,000 for the childhood immunization program proposed by the Senate. The House version of H.J. Res. 157 contained no funds for this purpose. H.R. 3543 as passed by the House included $90,000,000 for the program. The 1992 Labor–HHS–ED Appropriations Bill includes $297,845,000 for this purpose, an increase of $80,314,000 over fiscal year 1991. The conferees have deleted supplemental funding because of budgetary constraints.

ADMINISTRATION FOR CHILDREN AND FAMILIES

HUMAN DEVELOPMENT SERVICES

The conference agreement deletes appropriation of $1,200,000,000 for the Head Start program proposed by the Senate. The House version of H.J. Res. 157 contained no funds for this purpose. H.R. 3543 as passed by the House included $1,200,000,000 for the program. The 1992 Labor–HHS–ED Appropriations Bill includes $2,201,800,000 for Head Start, an increase of $250,000,000 over fiscal year 1991. The conferees have deleted supplemental funding because of budgetary constraints.

It was recently brought to the conferees' attention that the White House Conference on Aging will run out of funds by December 31, 1991. While sufficient funds were provided in the fiscal year 1992 Labor, Health and Human Services and Education Appropriations Act for operations of the Conference, these funds were contingent upon enactment of authorizing legislation. This legislation will probably not be enacted until sometime next year. Therefore, the conferees would entertain a reprogramming request to continue current staff and mandatory costs for operation of the White House Conference until authorizing legislation is enacted. The conferees also expect, within thirty days of enactment of this legislation, to receive a full report on carryover balances and needs for the Conference for fiscal year 1992.

DEPARTMENT OF EDUCATION

FOREIGN LANGUAGE ASSISTANCE

It has been brought to the conferees' attention that final regulations regarding the use of fiscal year 1991 foreign language assistance funds have not yet been issued. The conferees feel that the Department has had more than sufficient time to issue these regulations and therefore direct the Department to issue final regulations within fifteen days of enactment of this legislation.

LEGISLATIVE BRANCH

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

The conference agreement provides no funds for "Salaries and expenses, House of Representatives" instead of $50,000 as provided in H.R. 3543.

TITLE II—GENERAL PROVISIONS

The conference agreement inserts a Finding of Dire Emergency Conditions. Such a finding was included in H.R. 3543. No findings was included in H.J. Res. 157, as amended by the Senate. The conferees agree that dire emergency conditions exist and have repeated this finding in the resolution.

The conference agreement includes a limitation on the obligations of all funds in the joint resolution beyond fiscal year 1992 except as expressly provided as proposed by the Senate. The House parallel bill H.R. 3543 contained a similar provision.

CONGRESSIONAL DESIGNATION OF EMERGENCY REQUIREMENTS

The conference agreement includes a Congressional "emergency requirement" designation at section 202 that designates all funds in Titles I and II of the joint resolution as "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. Under section 251(b)(2)(D) of that Act, amounts appropriated for discretionary accounts that are designated as emergency requirements by the President and by Congress shall constitute automatic adjustments to the appropriate Budget Enforcement Act discretionary spending limits.

The conference agreement deletes a provision proposed by the Senate that would have made available only those funds the President designated, prior to enactment, as emergency requirements. There was no similar provision included in H.R. 3543.

The conference agreement deletes language proposed by the Senate in sections 213 and 214 dealing with abortion.

RESTRICTIONS ON FOREIGN ASSISTANCE FOR KENYA

Section 203. The conferees have modified Senate language on prohibiting foreign assistance to Kenya. The new language clarifies that the Presidential determination for Kenya must indicate that the Government of Kenya has taken significant steps toward allowing for the freedom to advocate the establishment of political parties and organizations. The House bill included no language on Kenya.

RECOGNITION OF UKRAINIAN INDEPENDENCE

Section 204. The conferees have agreed to include Sense of the Senate language concerning the recognition of the Ukraine. The Senate had proposed the language as a Sense of Congress. The House had no similar language.

MONITORING OF FOREIGN GRAIN

The conference agreement deletes Senate language in section 218 and 219 that required monitoring of domestic uses made of certain foreign grain after importation; including certification and quarterly reporting, customs and civil penalties, and suspension or debarment for use of foreign grain in certain agricultural trade programs. H.R. 3543 contained no similar provision.

FIRE BLIGHT

The conference agreement deletes Senate language in section 225 which amended the Food, Agriculture, Conservation, and Trade Act of 1990 to provide that fire blight is included in the definition "damaging weather" for purposes of determining eligibility for disaster payments. Fire blight is a highly infectious bacterial disease of apples, pears, and other orchard crops. H.R. 3543 contained no similar provisions.

The conferees agree that fire blight may be a "related condition" for purposes of section 2251 of the Food, Agriculture, Conservation, and Trade Act of 1990 and losses should be eligible for disaster payments where the condition has been accelerated or exacerbated naturally as a result of damaging weather.

ORCHARD CROPS

The conference agreement deletes Senate language in section 226 which amended the Food, Agriculture, Conservation, and Trade Act of 1990 to expand disaster payments to provide for the rehabilitation or restoration of trees damaged rather than just the replanting of trees. The Senate amendment also increased the payment limitation for the losses from $25,000 to $75,000 per person. H.R. 3543 contained no similar provision.

EXTENSION OF CERTAIN FERC-ISSUED LICENSES

The conference agreement deletes language proposed by the Senate in Section 217 regarding extensions of certain FERC-issued licenses.

Section 205. The conference agreement changes, from $10,000,000 to $24,000,000, the limitation for the loan guarantee program level under "Fishing Vessel Obligations Guarantees" in P.L. 102–140, the Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriation Act, 1992. This change in the limitation for the loan program level is consistent with the current subsidy rate estimated by the Office of Management and Budget for that program.

The Senate amendment in Sec. 206 of H.J. Res. 157 would have eliminated the limitation of $10,000,000 on such loan guarantees contained in P.L. 102–140. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained any similar provision.

The conference agreement does not include the Senate provision in Sec. 211 of H.J. Res. 157 that would have added language amending Section 511(e) of the Controlled Substances Act to authorize the Attorney General to transfer forfeited real property to States for use as public areas for recreational or historic purposes. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained this language.

The Senate language was deleted because this policy issue should be addressed by the appropriate legislative committee of the Congress. In addition, this provision was deleted because it would have violated the Pay-As-You-Go (PAYGO) provisions of the Budget Enforcement Act.

The conference agreement does not include the Senate provision in Sec. 212 of H.J. Res. 157 that would have added language expressing the Sense of the Senate concerning the investigation, arrest and prosecution of individuals involved in the destruction of Pan Am Flight 103. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained this language.

The conferees agree that: (1) the President of the United States should pursue by any and all legal means the apprehension for trial of the individuals indicted for the destruction of Pan Am Flight 103; (2) the President should offer awards for information leading to the arrest and return of these individuals; and (3) the investigation of the bombing of Pan Am Flight 103 must continue until all individuals involved in the commission of this crime are brought to justice.

The conference agreement does not include the Senate provision in Sec. 222 of H.J. Res. 157 that would have added language amending subchapter IV of chapter 35, United States Code to allow the Secretary of State to waive, for up to three years, the current five-year employment limitation placed on individuals serving with the Intergovernmental Panel on Climate Change. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained this language.

The Senate provision was deleted since this is a policy matter which should be addressed by the appropriate legislative committee of the Congress.

U.S. FISH AND WILDLIFE SERVICE

Section 206. The conference agreement transfers $965,000 from U.S. Fish and Wildlife Service land acquisition to U.S. Fish and Wildlife Service resource management as proposed by the Senate. The $965,000 is derived from the $3,800,000 provided for water rights acquisition for Stillwater National Wildlife Refuge in Nevada and is to be used for various activities under the Truckee-Carson-Pyramid Lake Settlement Act such as NEPA compliance, endangered species protection, fishery technical assistance and ecological contaminant studies. This provision was included as section 205 in the Senate-passed bill. The House has no similar provision.

EXXON VALDEZ

Section 207. The conference agreement amends Senate proposed section 224 to deposit funds from the Exxon settlement with the United States and Alaska into the Natural Resource Damage Assessment and Restoration Fund in the Department of the Interior rather than in the Oil Spill Liability Trust Fund as proposed by the Senate. The House had no similar provision. The agreement also provides for the earning of interest on funds deposited and Congressional review of the use of the funds.

FIREFIGHTING

The conference agreement deletes section 215 proposed by the Senate which adds the words "emergency presuppression" to the Emergency Department of the Interior Firefighting Fund established in Public Law 102–154. The additional language is unnecessary because funding for emergency presuppression activities historically has been part of wildfire suppression activities already included in the account. It was the intent of the conferees on Public Law 102–124 that emergency presuppression continue to be charged to the emergency account along with wildfire suppression, as defined in the Department's fiscal year 1992 budget justification. The conferees on this bill also expect this practice to continue.

The conference agreement also deletes section 216 proposed by the Senate which adds the words "emergency presuppression" to the Emergency Forest Service Firefighting Fund established in Public Law 102–154. The additional language is unnecessary because funding for emergency presuppression activities historically has been part of the "Fighting Forest Fires" activity which was the basis for the new emergency fund. It was the intent of the conferees on Public Law 102–154 that emergency presuppression continue to be charged to the emergency account along with wildfire suppression, as described in the agency's fiscal year 1992 budget justification. The conferees on this bill also expect this practice to continue.

NATIONAL PARK SERVICE

The conference agreement deletes section 220 proposed by the Senate which directs the National Park Service to consult with the Bureau of Indian Affairs and the Crow Tribe of Montana to explore joint opportunities with the private sector for the purpose of implementing the General Management Plan for the Custer Battlefield National Monument. The House had no similar provision. The conferees agree that the National Park Service is to work with the Bureau of Indian Affairs and the Crow Tribe of Montana and the private sector to implement the Custer Battlefield National Monument general management plan.

Also, in response to language included in Senate Report 102–216, the conferees agree that the National Park Service may perform maintenance at the Bureau of Indian Affairs school in Phoenix Arizona to the extent authorized by law.

HEAL LOAN BORROWING

The conference agreement deletes language proposed by the Senate which would have permitted loan authority for Health Education Assistance Loans (HEAL) to be used for new, as well as continuing, borrowers. The conferees believe that the HEAL loan limitation for fiscal year 1992 contained in H.R. 3839, the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1992, provides sufficient legal authority for the Department of Health and Human Services to make HEAL loans to new borrowers. This provision was contained in section 209 of H.J. Res. 157. The House bill did not include a similar provision.

Section 208. Mental Health Facilities Cost Recovery: The conference agreement inserts language proposed by the Senate which amends the Public Health Service Act to permit the Secretary of the Department of Health and Human Services to waive recovery rights to Federal funds used for construction of community mental health facilities if the facility is sold or transferred. The Secretary already has authority to waive recovery if the facility is no longer used for its original purpose, but is retained by the original owners. The conferees agree that this authority will only be used when the proceeds of any sale or transfer are used for purposes which are compatible with the original grant award.

Section 209. The conference agreement provides that, for fiscal year 1992, not more than $2,000,000 of donated funds may be accepted or obligated for the preparation of working drawings, specifications, and cost estimates for renovation of the Botanic Garden conservatory, as was provided in the Senate bill, and amends the FY 1989 Legislative Branch Appropriations Act to authorize the Architect of the Capitol, subject to the direction of the Joint Committee on the Library, to construct a National Garden and to solicit and accept certain gifts on behalf of the United States Botanic Garden for the purpose of constructing the National Garden or for the general benefit of the Botanic Garden, to deposit such gift funds in the Treasury of the United States and, subject to approval in appropriations Acts, to expend such sums. The conference agreement authorizes the Architect of the Capitol to accept non-compensated personal services for these purposes, and any gift accepted shall be considered a gift to the United States for purposes of income, estate, and gift tax laws.

Section 210. The conference agreement amends the language of the Senate bill to establish protection and criminal penalties for the unauthorized use of any likeness of the seal of the United States Senate and sets a $250 fine and six month imprisonment for violations, and provides that violations may be enjoined by suit of the Attorney General upon complaint by the Secretary of the Senate. The conferees have deleted the inclusion of the seal of the House of Representatives, or changes in criminal penalties imposed on unauthorized use of the great seal of the United States or the seals of the President and Vice President, but urge the Committees on the Judiciary of the House and Senate to study the matter, including the appropriate penalties for unauthorized use of government seals.

Section 211. Upon request of the managers on the part of the Senate, the conference agreement includes a provision not included in either the House or Senate bills. The provision delays until May 1, 1992, the effective date specified in Sec. 311(i) for subsection (d) of the Legislative Branch Appropriations Act, 1991.

Section 212. The Senate amendment to H.J. Res. 157 included Section 203 of Title II, General Provisions, which directs the Secretary of Defense to continue construction of a composite medical replacement facility located at Nellis Air Force Base, Nevada. The conferees agree with the Senate provision to continue construction of the facility but have revised the Senate language to correct the citations. The conference agreement also changes the section number.

Section 213. The conference agreement includes a provision allocating $990,000 of previously appropriated funds to certain bridge safety repair projects in the State of Vermont as proposed by the Senate. The House bill (H.R. 3543) contained no similar provision.

Section 214. The conference agreement inserts a provision amending the Employment Retirement Income Security Act of 1974 to define the accountable owner of Trans World Airlines as any individual who on October 10, 1991, owned directly or indirectly through the application of section 318 of the Internal Revenue Code of 1986 more than 50 percent of the total voting power of the stock of Trans World Airlines.

The conference agreement does not include the House provision in Sec. 301 of H.R. 3543 that contained language making technical corrections to the Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriations Act, 1992. Neither the House version of H.J. Res. 157 nor the Senate amendment to H.J. Res. 157 contained this provision.

The House language was deleted since an identical provision has been included in the Department of Interior Appropriations Act, 1992.

The conference agreement amends the title of the joint resolution as proposed by the Senate. The original title, as passed the House, is no longer appropriate because this resolution is no longer a technical corrections and enrollment error corrections resolution. H.J. Res. 157, as amended by the Senate, and H.R. 3543 are parallel bills. The title to H.J. Res. 157, as amended by the Senate, and the title to H.R. 3543 are identical, and this same title has been agreed to by the conferees.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1992 recommended by the Committee of Conference, with comparisons to the fiscal year 1992 budget estimates, and the House and Senate bills for 1992 follow:

Budget estimates of new (obligational) authority, fiscal year 1992	[1] $3,641,700,000
House bill, fiscal year 1992	[1] $7,486,250,000
Senate bill, fiscal year 1992	[1] $7,980,500,000
Conference agreement, fiscal year 1992	[1] $6,889,600,000
Conference agreement compared with:	
Budget estimates of new (obligational) authority fiscal year 1992	[1] +3,247,900,000
House bill, fiscal year 1992	[1] −596,650,000
Senate bill, fiscal year 1992	[1] −1,090,900,000

[1] Includes Desert Shield/Desert Storm funds.

Managers on the Part of the Senate.

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 102–395) on the resolution (H. Res. 309) waiving all points of order against the conference report on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

Ms. SLAUGHTER of New York. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 309 and, pursuant to House Resolution 294, ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 309

Resolved, that upon adoption of this resolution it shall be in order to consider the conference report on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The gentlewoman from New York [Ms. SLAUGHTER] is recognized for 1 hour.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from California [Mr. DREIER], pending which I yield myself such time as I may consume.

During debate on this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 309 waives all points of order against the conference report on H.J. Res. 157 and against its consideration. The rule also provides that the conference report will be considered as having been read.

The dire emergency supplemental provides necessary funding for the incremental costs of Operation Desert Storm. Funds are appropriated from the Persian Gulf foreign contribution gift account.

Mr. Speaker, the conference report also provides $943 million for disaster assistance through the Federal Emergency Management Agency and provides $1.75 billion for the Commodity Credit Corporation to pay for crop losses caused by agricultural disasters.

There are now 44 Presidentially-declared disasters affecting 33 States. The Secretary of Agriculture has declared 89 agricultural disasters affecting 39 States. It is time, Mr. Speaker, to address American needs. This measure needs to be swiftly enacted.

Finally, Mr. Speaker, we have a bill providing for domestic needs which the President will sign. All funds are either agreed to as an emergency or will only be obligated if the President designates them to be an emergency or the funds are derived from existing funds. The supplemental appropriation act conforms to all budget requirements.

Mr. Speaker, this is the customary rule for conference reports. I urge my colleagues to adopt the rule and move this important legislation forward.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in opposition to this rule because it allows this conference report to move forward without a separate vote on a very controversial provision. The conferees inserted into it a transfer of $500 million from our defense budget to aid the Soviet Union. Of that amount, $400 million will be earmarked for the destruction of that country's nuclear arsenal, and the other $100 million to deliver private humanitarian aid.

I have no objection to the humanitarian aid funding and, in concept, I support the use of United States expertise and technology to help the Soviet Union dismantle its menacing nuclear capability. But what concerns me about the $400 million earmark is that it does not require that American personnel and know-how be utilized in the dismantling process. In addition, I am still concerned with reports that Soviet aid continues to flow to third world dictators in spite of assurance that it would end.

In addition to the Soviet giveaway, Mr. Speaker, the conference report goes beyond what is necessary for emergency spending, and it evades the pay-as-you-go requirements by requiring the President to come up with the funds when he submits his fiscal year 1993 budget proposal. Once again, we are shirking our responsibility in setting budget priorities by throwing our dirty laundry onto the lap of the only person in this Government who is willing to lead: President Bush.

Mr. Speaker, it may be late in this session of Congress, but it's not too late to produce responsible legislation. For this reason, I urge my colleagues to defeat this rule, and I reserve the balance of my time.

Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 5 minutes to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. Mr. Speaker, I thank the gentlewoman for yielding.

Let me explain exactly what we did. The Defense Subcommittee met in the last 4 or 5 days with Director Gates of the CIA, and also today we met with General Colin Powell and Secretary Dick Cheney. They all agree the Soviet Union is in disarray. They believe that a crisis is imminent. They believe that the biggest danger in the Soviet Union today is the possibility of nuclear proliferation.

The Senate started this idea, passed it overwhelmingly, and their proposal was to authorize $500 million for dismantling nuclear weapons and $200 million for humanitarian aid. The gentleman from Pennsylvania [Mr. MCDADE], and I did not agree with that. We argued vigorously against the way they had laid it out. We believed that it should be reduced to $400 million for dismantling the nuclear weapons. We believed it should be left to the discretion of the President if he wanted to use the aid. We believed that American personnel should be used in dismantling the equipment overseas.

Our biggest concern is that the independent countries who have talked to Secretary Cheney do not want these nuclear weapons moved back to Russia, they want them dismantled in the independent countries, Ukraine being a perfect example.

We believe it has to be done. We think in the long run it will substantially reduce our defense needs and the expense of defense in this country.

The humanitarian side of it, we did not appropriate any money for humanitarian aid. We appropriated money to transport voluntary aid that may be made available in the United States. We think this balance gives the President a legitimate tool to be able to respond to a crisis which may happen in the next couple of months. I am convinced listening to Secretary Cheney that the military is disintegrating, has disintegrated substantially. I believe that if we do not take action to allow the President to have available to him these tools in the next couple of months we will have a real crisis that he could not respond to because we would not be in session.

We also safeguard the process by insisting on observing reprogramming procedures. The money can come from O&M and there is nobody that protects O&M more carefully than the gentleman from Pennsylvania [Mr. MCDADE], and myself. We believe that is the heart of the defense structure of this country. But we also believe that this money will save money in the long run.

Everything we did in this bill was to make sure that Congress safeguards its rights by making sure that the Defense Department has to request reprogramming of the funds so we know exactly where they come from, and at the same time we allow the President the discretion to make the decision about whether he needs to use this aid, but it will be American military personnel trained to dismantle these weapons.

We think that in the long run it will be substantially safer in this country and reduce our defense expenditure if we give the Soviets this aid. The initial proposal was for $1 billion humanitarian aid. Chairman ASPIN brought this to our attention. We had a concern with that, because we were not sure how it will be distributed. We were not sure it would get to the people it needed to get to.

I think this is a legitimate compromise. I think it is necessary. I think the Soviet Union at this point is in a very dangerous situation. I think we would make a grave mistake if we did not make this money available to the President to use at his discretion.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, let me simply say I agree with everything said by the gentleman from Pennsylvania, and I would simply say that I wish every Member of this House could have shared the experience that a number of the Members of the House did have in August when we were in Budapest and had a very sober meeting with Boris Yeltsin's Foreign Minister. If the Members could have heard him describe their concerns about the availability of nuclear warheads in a variety of republics, the Members would understand why this is necessary. I think for anybody who participated in that conversation it was one of the most sobering experiences we have ever had.

It seems to me that this is the single most important thing we can do right now to stabilize that situation and to enable us to reach those weapons and assist in their destruction while we have a window of opportunity to do so.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to simply ask the distinguished chairman of the Subcommittee on Defense, I would like to say that I totally agree with everything that has been said, and it is very clear that every single one of us desperately wants to see an elimination of those 2,000 nuclear warheads that exist in the Ukraine and in the other republics. That is the goal that we have.

The concern that emanates from this side is that we may not be using the very best vehicle possible to assure that. Why is it that we could not see the Pentagon in fact move ahead and do that without this, what is perceived by some on this side as rather vague language which could potentially end up as being nothing but a foreign aid package which would go to the Soviet Union. This has been understandably frustrating for the American people and specifically many Members of this House?

Mr. MURTHA. Mr. Speaker, will the gentleman yield?

Mr. DREIER of California. I am happy to yield to my friend from Pennsylvania.

Mr. MURTHA. Mr. Speaker, let me say that we tried to be as specific as possible and yet give the President the flexibility he needed to be able to dismantle these nuclear weapons. The supplemental language relects what happened in the authorization bill, they have to stop production of their nuclear weapons or the President has to be assured that they have stopped production, because we do not want them building new weapons while we are, on the other hand, dismantling old weapons.

I do not think there is any other vehicle. Everything came together at once. Director Gates was just confirmed and Secretary Cheney and Colin Powell had focused on the problem, the

Soviets have deteriorated substantially in the last few months, and I really believe it would be a mistake for us not to allow the President to have this opportunity to respond to what I consider could be the major crisis of this century.

Mr. DREIER of California. Mr. Speaker, I know my friend can understand, and I appreciate that answer, the concern about the prospect of a foreign aid package going to the Soviet Union. That is the fear that many on this side have raised

Mr. MURTHA. I think you are absolutely right. For instance, I remember talking to a steelworker, a volunteer who drives me around back in the district, and I said, "Ozzie, what do you think of the idea of giving the Russians new humanitarian aid?" He said, "I never saw any skinny Russians on television."

I think that is the tone of the American people. This is an entirely different situation. We are talking here about making money available to the President to dismantle a real threat to this country, and I believe it is important, it is the right way to do it. It is not foreign aid, it is helping security of this country, in my estimation.

Mr. DREIER of California. Mr. Speaker, let me thank my very healthy and robust colleague for that very adequate response.

Mr. McDADE. Mr. Speaker, will the gentleman yield?

Mr. DREIER of California. I am happy to yield to the gentleman from Pennsylvania.

Mr. McDADE. Mr. Speaker, I thank my good friend for yielding.

I want to begin by apologizing to all our colleagues in the House in that this comes in at a very late hour, late in the session, and it is natural there should be concerns raised, indeed, on both sides of the aisle about how exactly this is structured, and where it came from. Let me say that I believe that the gentleman from Pennsylvania, Mr. MURTHA, completely described the process which we went through to arrive at his conclusion to make this money available to the President. I support it. I think it is in the national interest of this country to be in a posture to enable the President, should he decide to, and he must come back to us, may I say to my friend from California, should he decide to utilize the authorities that we have granted him in this legislation.

□ 0100

On Sunday next, as has been mentioned, the Ukraine will vote and in all likelihood they are going to vote for complete independence and become an independent nuclear power.

We had a meeting this morning, as my friend, the gentleman from Pennsylvania said, with the Secretary of Defense and with the Chairman of the Joint Chiefs of Staff, to see if we had the capability should we put this option on the President's list to be able to go into the Ukraine. They are not going to give those missiles back to the Soviet Union, not to Russia, or what was the Soviet Union.

Mr. DREIER of California. We want to assure that they will not.

Mr. McDADE. Well, everybody's opinion is that they will not. I agree with my friend, the gentleman from California.

The question was would we have the capability of using U.S. personnel to be able to go in and demobilize those weapons if the Ukrainians should invite us in and say to the President, "Send us help. We want to get rid of these weapons, but they are not going to go back to the Soviet Union."

The only dismantling plant of the Soviet Union for nuclear weapons is in Russia itself, not in the Ukraine or any of the other Republics.

So we thought it was in the national interest, may I say to my good friend, to make this authority available to the President after it goes through certifications, and he comes back to the Congress.

If he wishes to do it, may I say to my friend, we have given him the authority, but I want to assure my friend there is no pass-through of money to the Soviet Union in any foreign aid form, that this is money going to the President for his discretion.

Mr. DREIER of California. Mr. Speaker, I thank the extraordinarily distinguished ranking member of the subcommittee and the full committee for that excellent explanation.

Mr. Speaker, I yield 5 minutes to the gentleman from Pennsylvania [Mr. WALKER], the third Pennsylvanian to whom I will yield.

Mr. WALKER. Mr. Speaker, I thank the gentleman for returning to Pennsylvania.

I appreciate the discussion here on the $500 million of the money going to the Soviet Union.

There are a couple other issues in this bill, though, that I think need to be raised that bother me fairly significantly. I am concerned that we do not let it slip through here in the early morning hours.

For example, I understand there is a provision in this bill giving the Senate an additional 4 months to comply with the Ethics Code. Back when the Senate was getting its pay increase to $125,000, part of the reason for giving them the pay increase was that they were going to comply with the Ethics Code.

Now it turns out that the Senate has decided they are not going to live the same as we in the House, that indeed they want another 4 months in order to come into compliance with that code. I think that is a concern.

As a matter of fact, it has been represented to me that this is taking care of one U.S. Senator who would like to pay off some debts and therefore is requesting that we do not take care of this matter for another 4 months. I think that is a concern.

I think it is terribly wrong that the pay raise went forward and we are still going to have the Senate out of compliance with the Ethics Code that was supposed to accompany it.

Second, I think there is another serious matter that has been buried down in this bill which essentially amounts to a bill of attainder, or an ex-post facto law, whichever one you want, and this involves one executive or one owner of an airline who is being told that he has to assume full financial responsibility ex-post facto and who has indicated that if in fact this law is passed, he intends to shut down the airline, thereby putting 30,000 people out of work.

I think we saw the other day that we make mistakes when we do some of these kinds of things, as we did with the credit card. Here is another instance where we may well be responsible for putting 30,000 people on the streets.

At a time of economic problems, I doubt that it is a very good idea for Congress to take a step which apparently will result in 30,000 more people out of work. That also bothers me.

I do not quite understand why when we are dealing with very serious issues that are in this bill, we all of a sudden find buried down in the language in these many pages that are sitting before us these kinds of provisions, which I think a number of the Members may have some concerns about.

Mr. FAZIO. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I am glad to yield to the gentleman from California.

Mr. FAZIO. Mr. Speaker, I cannot speak to the TWA issue affecting Mr. Icahan and the airline employees, the second point the gentleman made.

I just want to point out to my colleagues that the first point was thoroughly discussed in the conference on at least two occasions and there was no effort to bury it down deep in the report.

I think we have given the other body 4 additional months to try to reconcile their procedures so that they can make a clean and clear distinction, as we have in this body, between official expenses and political and politically related expenses.

Mr. WALKER. How many months have they had so far?

Mr. FAZIO. They have had a year.

Mr. WALKER. They have had a year. It seems to me any reconciling that could have been done and should have been done could have taken place within that year.

Mr. FAZIO. Mr. Speaker, I tend to agree with the gentleman from Pennsylvania, but I did so to accommodate

Senator STEVENS and other Members of the other body, who felt that they needed additional time.

Now, we have offered the services of the House staff to help them reach some conclusions.

Mr. WALKER. For what reason? Could the gentleman explain to us, I mean, if there was a thorough discussion, for what reason do they need an additional 4 months over the 1 year that they have already had?

Mr. FAZIO. Mr. Speaker, if the gentleman will yield further, they seem to think they have been stymied on some very difficult questions about how they can extricate themselves from the situation they are in now, whereby they often comingle their political expenses and their official expenses.

Mr. WALKER. Were they not supposed to stop comingling these funds when they took the pay raise in the bill?

Mr. FAZIO. First of all, Mr. Speaker, if the gentleman will yield further, it has nothing to do with the pay raise. This agreement was reached in the context of reaching some sort of compromise on the franking issue. That is the context in which we then said to the Senate, "We will meet you halfway, but in order to make sure that we are playing on the same field, on a level playing field, we would like you to follow the same procedures the House has."

Mr. WALKER. It was directly related to the pay raise, because of course the pay raise when it passed here, we said we were going to comply with certain new ethical standards and so on.

Now, the Senate also having not taken the pay raise, did not agree to do that. When they took the pay raise, they made that agreement. That is where the tie-in is. That is a personal point here.

Mr. FAZIO. Mr. Speaker, if the gentleman will yield further, I do not really need to argue with the gentleman. We are both on the same side here. In fact, it was this subcommittee that I chair that forced the Senate to accept these changes.

Mr. WALKER. I agree with the gentleman.

Mr. FAZIO. So I am only pointing out to the gentleman that it was not done in the context of the pay raise. It was done in the context of another disagreement we had between the two bodies.

I can pledge to the gentleman and all my colleagues in both parties here tonight that this is the last extension the Senate is going to get.

Mr. WALKER. Mr. Speaker, I thank the gentleman.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 5 minutes to the gentleman from Wisconsin [Mr. ASPIN], the chairman of the Committee on Armed Services.

Mr. ASPIN. Mr. Speaker, I thank the gentlewoman for yielding this time to me.

Let me commend the Committee for the work they did on this issue of helping the Soviets to dismantle their nuclear weapons.

I think the compromises that the gentleman from Pennsylvania and the gentleman from Wisconsin worked out I think are tremendous.

I think the funding here is about as well as we can do under the circumstances, and I think that the effort here is really something that people will look back on from the future. They will look back and say this was an historic turn of events, that this was a very, very sensible policy, that this was not foreign aid. This was defense by another means.

I think that the gentleman from Pennsylvania [Mr. MURTHA], the gentleman from Wisconsin [Mr. OBEY] and all the Members of the Committee here should be commended for their work.

Mr. BURTON of Indiana. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. Yes, I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Speaker, I just have a couple questions.

As I understand it, the people from the Ukraine would rather have Americans in there dismantling these weapons than the Soviets?

Mr. ASPIN. Exactly so.

Mr. BURTON of Indiana. Now, what I do not understand, if we are going to have American personnel in there, American military personnel, why is the $400 million for this purpose going to the Soviets? Why is it not going to our Defense Department and the Defense Department will do it? Maybe I missed that point. Perhaps the gentleman could just explain it a little better.

Mr. ASPIN. The $400 million is not going to the Soviets, nor is the $400 million for American transports. Those will be going to Americans to help Americans in the case of the $400 million, and in the case of transportation, technical advisors and other things to get them to the Ukraine, to get them housed and fed and deployed on temporary duty to the Ukraine to help them establish them there so they can dismantle the weapons.

Similarly, for the $100 million, the $100 million does not go to the Soviet Union. It goes to augmenting the costs of transportation of the U.S. military, more fuel, more operating hours of the equipment, so that when they help move the equipment or move the food and medicine to the Soviet Union.

Mr. BURTON of Indiana. One final question, and I think I know the answer. But why did this not come out of the Defense budget instead of having it come out of this Supplemental?

Mr. ASPIN. We would love to have had it come out of the Defense budget. In fact, my original proposal was to take the $100 million out of the Defense budget, but we ran into a buzz saw here a few weeks ago on that issue.

I think as the proposition was reworked by the Appropriations Committee, and indeed the mood has changed slightly, plus the third thing that has happened is that there have been a lot more stories coming out of the Soviet Union about the state of disaster they are in, that therefore the best place they found to put it was on the supplemental.

□ 0110

But my original proposal was to take it out of the Defense budget and to divert the funds from the Defense budget. Now it is on the supplemental because, frankly, that is the only thing that is left.

Let me yield to the gentleman from Pennsylvania.

Mr. MURTHA. Let me add to the answer: Actually, most of this will be operation and maintenance money, and that is why we felt that is an area where it could come from. We resisted and tried to get some from foreign aid, but it really is an American military project; that is the way it looks to us.

Mr. BURTON of Indiana. If the gentleman would yield further, I was just talking to the other gentleman from Pennsylvania [Mr. MCDade] and he indicated it would come out of the Defense budget.

Mr. ASPIN. That is right. It was originally part of the DOD authorization conference report, but that was dropped out of that. It is now part of the supplemental. But the actual money for the funding for it comes out of the O&M account in the Department of Defense.

Mr. DREIER of California. Mr. Speaker, I yield 3 minutes to a very able member of the Committee on Armed Services, the gentleman from San Diego, our top gun, the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, are we are out of our minds? I heard Mr. SANTORUM this afternoon stand up, saying that we did not have enough money to carry over unemployment.

The Members on the other side of the aisle for the last month are saying we need money for unemployment, we need money here.

This money comes out of defense, out of O&M funds. Let me tell you, for the people who have never been in the military: What does that mean? O&M? That means the kids sitting at Miramar do not have enough fuel to fly and train or have parts. At Nellis Air Force Base, the same thing.

That money comes out of defense.

The original cost was supposed to be $1 billion. Remember, the Soviet Union was not supposed to be a threat anymore. That is why you are cutting defense by 25 percent.

I saw Members of the Democratic side sit up here and fight tooth, hook, and nail over base closures because it cost them jobs. You cut defense by 25 percent, and then you try to take out another $1 billion? That is ludicrous. You are costing Americans lives. You are costing Americans jobs, and I am damn tired of it.

O&M funds go for training people, fuel, parts for machines and aircraft.

We cannot do that. Do you have any idea how many jobs? I read today that McDonnell Douglas is sending some of their work for their airliners to Taiwan. I heard a Democratic Senator saying that the President is not doing enough.

Well, let us take half a billion dollars and maybe supplement our own defense work and maybe building those to help the unions. But a billion dollars or a half-a-billion-dollars to the Soviet Union? Not on my watch.

I sit and watch the Committee on Armed Services pork barrel. A Member of the other body wanted 117's built that the Air Force did not even want. Even if they had the money, they did not want it. But yet the pork barrel in the appropriations, that particular Member forced it through and cost this country F-14 upgrade.

That is pork-barrel spending. I would not send one penny to the Soviet Union, not one penny. Even in the foreign aid bill, we sent money and a message to take money out of Jordan. No, the conference put it back in. Not one penny to the Soviet Union, the Ukraine, or anybody else out of defense. You are costing American lives.

The same way they did in Vietnam, the liberals have cut defense by 25 percent.

Do you have any idea how many jobs? Hundreds of thousands of jobs have been cut; electricians, military—if you sell pizzas or cars or real estate, those jobs have been lost. And you still want to cut it more? Not on my watch.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate, I yield 2 additional minutes to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. I thank the gentlewoman for yielding again.

Let me emphasize this money is not going to the Soviet Union, this money is going to United States personnel to help dismantle weapons that threaten the United States. These independent countries do not want these weapons to go back to Russia.

The Ukraine, for instance, has a couple of thousand nuclear missiles and warheads they want to keep in the Ukraine. They are asking us to help them dismantle those weapons and in the end this will save us substantial amounts of money.

Our O&M budget is $80 billion. Now, there is nobody who protects this budget more than I do. I have offered amendment after amendment over the years to increase O&M. But I think this is a good expenditure of money, not to the Soviet Union but to help the independent countries around the Soviet Union to reduce the threat to this country.

I think it is a wise expenditure of funds in the long run which will allow the President to provide technical assistance if he decides that it is a threat. Listening to Director Gates and Secretary Cheney, they believe, as I believe, that there is a possibility of a real threat in the next couple of months and we need to have U.S. personnel helping them dismantle these weapons systems to reduce the threat to the United States.

Mr. CUNNINGHAM. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the gentleman from California.

Mr. CUNNINGHAM. I thank the gentleman for yielding.

Mr. Speaker, I sat on the Coral Sea with 20-year-old airplanes because I did not have enough parts and enough fuel to fly them. O&M, and you say you fight for it, is critical to training. We want to cut defense, but you say you want a smaller force, well equipped, well trained, just like the desert act, where they are taking away some of the training that we have now through the environmentalists. Now we are trying to take some of the same training regardless if it goes to personnel, military, it is still taking it away from O&M budget out of military training.

Mr. DREIER of California. Mr. Speaker, I yield such time as he may consume to the distinguished ranking member of the Committee on Rules, the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. I thank the gentleman for yielding this time to me.

Ladies and gentlemen, I was not going to speak on this appropriations bill. I was going to wait until we take up the next bill, which is the implementation legislation for the CFE Treaty. We really have the cart before the horse here because we are debating a supplemental appropriations bill concerning a bill we are going to take up in the next few minutes, which is the authorizing bill. And as I read the amendments concerning the provision of aid to the Soviet Union that are going to be adopted in the bill that we will be taking up in a few minutes, the language says, "The program under this section shall be limited to cooperation among the United States, the Soviet Union and its republics." It goes on to say in this amendment, "Such cooperation may also involve the funding of critical short-term requirements related to weapons destruction."

I am just having a very difficult time trying to figure out why we are taking money for this purpose out of the defense budget. If we are going to use this money for American troops and American vehicles, and those troops and vehicles are going to cross through Poland, Czechoslovakia, and Hungary into the Ukraine or into Russia or wherever they are going, why do we have to take the money out of the defense budget? There are funds right now to go in there and dismantle the nuclear weapons and bring them out back through Poland, Czechoslovakia, and Hungary and into our NATO countries.

So I just do not understand that provision. We really should have debated it, the bill itself, the authorizing bill, before we got into this supplemental.

Lastly, without taking too much time, when we had an emergency situation called Desert Storm, we all put our heads together and, over a period of time, we worked out a cumulative fund whereby Japan and Germany and all of the NATO countries pitched in and helped because Desert Storm was to their mutual benefit.

I heard my good friend, JOHN MURTHA, mention that it is in the best interests of the United States that we support this new provision and that we do it now; it is an emergency. Anything could happen.

Well, I think that same kind of emergency that we had in Desert Storm and that same kind of mutual benefit applies to this. I see my friend, PAT SCHROEDER, sitting over there. She and I have worked for years on burden sharing, trying to get our NATO allies to carry their fair share of the burden.

There needs to be a fair share of the burden in this Soviet aid provision. Why should we be committing $700 million? I give my good friends, JOHN MURTHA and JOE MCDADE, credit for saving us $200 million because they reduced the Senate's authorization down to $500 million, and that is great. But, that is still a lot of money we are talking about in this bill.

As my colleagues know, if this Soviet aid package had been subject to regular order and the Committee on Foreign Affairs had been working on it, and the Committee on Armed Services had been working on it, and the same thing was happening over in the Senate, we would not be taking this up in the middle of the night right now.

The gentleman from Florida [Mr. FASCELL] came up to the Committee on Rules a few minutes ago, and said, "Since receiving this legislation last night, we have worked hard." The gentleman from Wisconsin [Mr. ASPIN] and the gentleman from Florida [Mr. FASCELL] have worked hard. But, as my colleagues know, we are rushing into this thing.

Until hearings are held, until there is a demonstrated need, we should not be passing this aid package tonight. The emergency is not here tonight. We are voting on something about which we do not have any idea of what it is. The phrase I just read which says that we are going to cooperate with the Soviets.

Mr. Speaker, to me that means we are going to give the Soviet Union the money to help them dismantle these weapons. The program under this section shall be limited to cooperation among the United States, the Soviet Union and its republics, and then it goes on again to say, "Such cooperation may also involve the funding."

So, it is just so open-ended, there is no legislative intent written here, no hearings to go by.

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to the gentleman from Wisconsin.

Mr. ASPIN. Mr. Speaker, let me just point out to the gentleman from New York [Mr. SOLOMON] that there have been hearings. The House Committee on Armed Services held hearings on this issue way back at the beginning of September, so there have been hearings.

Second, on the issue of cooperation, indeed part of our hope is that the administration will take whatever is in this bill and this proviso and go out and leverage a bigger effort on behalf of the objectives in this bill by getting help from our allies. Indeed that was what we hoped they would do and encourage them in a lot of language in there that says we would like the President to take the initiative and organize an international effort along these lines, not just take the money that we are talking about here from the United States taxpayers, but actually go out and get it from the Japanese, and from the Germans, and from other NATO countries, from wherever we can to try and get this program.

Indeed part of the program is going to have to come from some of the others because of the humanitarian aid. The only thing we have got in humanitarian aid here is the transportation part, so it is going to have to be an international effort and a cooperation, and again the money is going to essentially Americans.

We are not going to hand over the dollars here. There is no handing over of cash. That is money down a rat hole with a country that has not straightened out its basic economic infrastructure and its basic pricing system and established a rule of law and private property. We cannot funnel economic aid into that country without losing a lot of it, and that is not what we are doing here.

This is essentially providing American expertise on nuclear weapons and American transportation to move food and medicine. That is what this bill is about.

Mr. SOLOMON. Mr. Speaker, I hope that the gentleman from Wisconsin [Mr. ASPIN] is right. And it seems to me that if the total cost here is going to be $500 million, our share of it compared to all of the NATO countries should be, let us say, 10 or 20 percent. Then we only would be putting up a hundred million. And let us pass the hat around and collect the other $400 million from our friends.

Mr. BURTON of Indiana. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Speaker, I thank the gentleman from New York [Mr. SOLOMON] for yielding. I just have one brief question.

Was there any consultation with our NATO allies about this beforehand, and, if so, did anybody raise the issue that the gentleman from New York has raised, and that is would they be willing to pay part of this $400 million cost for dismantling these weapons?

Mr. OBEY. Mr. Speaker, would the gentleman yield so I can answer?

Mr. SOLOMON. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, frankly I would be shocked if at this point the costs being incurred by Germany alone for a variety of assistance programs in the Soviet Union, if that cost alone did not exceed $10 billion.

Mr. SOLOMON. Excuse me, gentlemen. There is going to be a meeting in the Committee on Rules on the highway bill. Passing that bill will help us get out of here so that we can go home. And so I yield back the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield 3 additional minutes to the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr. Speaker, I am going to yield again to the gentleman from Indiana [Mr. BURTON] to make sure that he gets the answer to his question. Basically, let met try to explain.

We, meaning the Committee on Armed Services and people who have been interested in this proposal, have had a chance to explore it with people who have been coming through the country or coming through the Capitol here to see whether in fact they are interested in doing this, and we got generally a favorable response. We are not in a position to negotiate the deal. The President and the Secretary of State and the Secretary of Defense are really the people who are under the Constitution to negotiate this thing. We have explored it with various government leaders who have come through and found that there was a favorable response. That is basically as far as we could go.

Mr. BURTON of Indiana. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Speaker, I do not want to belabor the point, but I would like to just end by saying those weapons are much closer to Germany and the other countries over in NATO than they are to us, and it seems to me that they would be very anxious to participate in paying for this dismantlement.

Mr. ASPIN. No question, and that is why they are interested.

Mr. GREEN of New York. Mr. Speaker, will the gentleman yield to me on this point?

Mr. ASPIN. I yield to the gentleman from New York.

Mr. GREEN of New York. Mr. Speaker, I cannot believe that anyone in this House wants Germans to start playing with nuclear weapons.

Mr. ASPIN. Definitely we do not, but that is why the Germans are interested in having the United States and an international organization go into the Ukraine and help the Ukrainians dismantle their weapons.

I think there is an opportunity here, as the gentleman from Pennsylvania [Mr. MURTHA] talked about. We have an opportunity here that is open now, a window of opportunity that is opened here, while these countries, and particularly we are going to have a vote, as somebody pointed out, very shortly coming up on Ukrainian independence, and that is an opportunity for us to take advantage of the fact that the Ukrainians do not want to transship those nuclear weapons back to Russia and would welcome outside help in dismantling those weapons. It is an opportunity.

Mr. HENRY. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Michigan.

Mr. HENRY. With all due respect, Mr. Speaker, my concern on this, if the Ukrainians need assistance, the quickest thing that is going to stir up a countercoup in the Soviet Union itself or in the Russian republics is going to be unwanted American troops, American vehicles, American assistance dismantling what Russians regard as their armament in the Ukraine, and I think something of this magnitude needs a lot more consideration by this conference, and it concerns me very much.

Mr. MURTHA. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Pennsylvania.

Mr. MURTHA. Mr. Speaker, let me say that in talking to Secretary Cheney and to Mr. Gates, they both believe that these countries will welcome American troops into their country to dismantle nuclear weapons.

Mr. HENRY. Well, I raise the question because it is, as the gentleman from Pennsylvania [Mr. MURTHA] said, an historic decision being made on very short notice.

Mr. ASPIN. Absolutely historic.

Mr. NAGLE. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Iowa.

Mr. NAGLE. Mr. Speaker, I thank the gentleman from Wisconsin [Mr. ASPIN] for yielding.

I have spent some specific time on that Ukrainian situation the gentleman made reference to, but that is not the situation there. It is very important that we recognize that the current leadership of the Ukrainians are not necessarily consistent with our own interests or consistent with the problem that we have over there.

As a matter of fact, taking the weapons out from the Ukrainians and this current leadership is probably very, very important. They are not necessarily our friends, and I have not been impressed with this peaceful intention towards the Soviet Union itself, or Russia, and, therefore, I think the point of the gentleman from Wisconsin is very well taken.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this has been a fascinating debate on the authorization bill, H.R. 3807, the CFE authorization bill, and actually I should remind our colleagues that at this moment we are debating the rule for the supplemental appropriations bill.

Mr. Speaker, I yield 2 minutes to my very good friend, the gentleman from New York [Mr. GREEN], an able member of the Committee on Appropriations.

□ 0130

Mr. GREEN of New York. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I have long argued in this House that the major risk of nuclear holocaust that this country and the world faced was not a confrontation with the Soviet Union but the "N-nation" problem, the risk that nuclear weapons will proliferate and so many countries will have them that they will become uncontrollable. Suddenly, we have a situation, with the breakup of the Soviet Union, that that very breakup may create the "N-nation" problem, because so many of the Soviet republics may get their hands on nuclear weapons.

What this rule lets us bring to the floor is a bill which provides $400 million from funds previously appropriated so that, if the President chooses to use those funds, he can become a player in this situation and can help in trying to avoid proliferation of nuclear weapons among those new countries.

I do not see how anyone in this House can be fearful of such a provision. I do not see how anyone in this House can help but think that that is a useful tool to provide to the President of the United States. So I hope that my colleagues would put aside the confusion that seems to have been raised about this issue at this late hour.

Understand that all this bill is doing is giving the President of the United States some additional capacity in terms of dollars to deal with this problem.

Vote for the rule, and then vote for the supplemental appropriation.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 5 minutes to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I thank the gentlewoman for yielding me this time.

Mr. Speaker, I want to say that I rarely take the floor to engage in many debates, because I think too much talk goes on here, but I must tell you how very angry I am about this bill that is coming up.

We have just heard all the things we did moving heaven and Earth. Let me tell you what else happened.

Everything we put in there for children we took out, o-u-t, out. When we get to this dire, urgent supplemental, what we are saying is we are breaking our covenant with our children. We are not even making the first year's commitment.

Both the House and the Senate voted to at least meet the first-year commitment on immunizations, on the WIC program defeat, and on Head Start to keep it on track so that by the year 1996 it would be fully funded.

Now, I do not know about you, but I think 1996 is too long, but, OK, we accepted that. We accepted it as a challenge.

We had CEO's from America's major Fortune 500 companies here saying how important this was that every dollar we spent we saved all sorts of money. We have had testimony up to the wazoo, we have had hearings up to the wazoo. Everybody says they are for Head Start, WIC, and immunizations. The Surgeon General has talked about it, and yet when both the House and Senate passed it, nevertheless in conference it came out.

I must say that I find it shocking that everything else in the world is an important disaster that we have to deal with, but not our children.

One-third of the children under the age of 6 are in poverty in this country, and if we do not invest in them, we will never, never be able to compete, and we are really shooting ourselves in the foot when it comes to the future.

Mrs. BOXER. Mr. Speaker, will the gentlewoman yield?

Mrs. SCHROEDER. I am happy to yield to the gentlewoman from California.

Mrs. BOXER. Mr. Speaker, I want to say at this very late hour, or early hour, depending on how you look at it, I want to thank the gentlewoman for her clear voice.

I want to say to the gentlewoman that it is very difficult to come here at this hour and be a voice of discontent, and the fact that the gentlewoman is doing it, she is doing it not only as the gentlewoman from Colorado but as Chair of the Select Committee on Children, Youth and Families.

Our country is in trouble. Our children are in trouble, and if we do not move to make sure that those children are educated and fed and nourished and have health care, you know, we are talking about our allies here. Maybe the gentlemen over there ought to understand that our allies immunize 90 percent of their children, and in this country we immunize 50 percent of our children. I guess they are not particularly interested in it.

But, again, I just want to thank the gentlewoman and tell her that I am with her on this, and I think, you know, children do not write checks. Maybe that is why they do not have a voice. I am glad the gentlewoman is here, and I am glad she made her statement.

Mrs. SCHROEDER. I must say that I am very, very dismayed. We did everything we know how to do. We passed it on both sides, and yet the conference took it out.

There are all sorts of reasons, people can say, but it is interesting to me that continually we see everything else is a disaster but out children. It is also interesting to me that we have studies that would fill this Chamber showing that every dollar we spend in the Federal budget this year on a child, on those three programs, we will save anywhere from $3 to $10 next year in the Federal budget, so forget the children, forget anything, this is a phenomenal investment, and yet somehow they just do not count.

I do not know what we do to make them count. I do not know what we do to keep our covenant to America's children, but to think that we are writing off one-third of our youngest kids, to think that only 25 to 30 percent of the children eligible for Head Start are getting it in this country, when we talk about it, to think that 60 percent of the children in New York City have not had their shots and 50 percent of the children in the Nation's Capital have not, I am shocked. I think that is a disaster.

I am just very ashamed to be part of this body tonight and to see how we are treating our future.

Mr. EDWARDS of California. Mr. Speaker, will the gentlewoman yield?

Mrs. SCHROEDER. I am happy to yield to the gentleman from California.

Mr. EDWARDS of California. Mr. Speaker, I believe the conference also took out the Senate-passed amendment approved by the Senate the other night offered by Senator WIRTH that would have provided or allowed women in the service overseas to pay for their own abortions in military hospitals, and that was also removed by the conference.

Mrs. SCHROEDER. I am so pleased the gentleman from California pointed that out, too. Yes, women and children first.

The Russians got in. We have the Turks off budget. We have the Kurds off budget. Kurds, yes; kids, no. Turks, yes; kids, no.

When do we think about our kids, and when do we think about America's women?

This is a bill that basically is bailing out the final cost of the war, and other things got added to it.

Well, why do not the Kuwaitis help bail us out? They have got megabucks, and gigabucks, and all I can see the main purpose is we got the Emir back on his throne. We can be talking about a little burden-sharing there. He could be helping.

We could find all sorts of things that we could be doing.

But to see American women who went overseas to defend our rights being denied those same rights that they fought for overseas and to see children being treated this way, I think, is an outrage.

Mr. DREIER of California. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan [Mr. HENRY].

Mr. HENRY. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I would simply want to once again reflect on the comments I made very briefly in my exchange with the gentleman from Wisconsin [Mr. ASPIN].

This is, indeed, a very historic provision in this bill relative to giving the President funds and discretionary authority to assist in the dismantling of the Soviet Union's nuclear stockpile.

I do want to remind our Members, however, that there are three major actors in the process over there right now: the Soviet Union, what there is left of it; the Russian Republic; and the Ukrainian Republic.

The context of this discussion has taken place in terms of what if the Ukraine asserts its independence, what if the Ukraine then asks for assistance in defusing and dismantling these terrible devices? My question is only: What if, in fact, we give that assistance, and what does that do in terms of the potential for Russian reaction, or what is left of the Soviet Union, the Soviet Union's reaction?

I would simply say that the context of the discussion and the context of the legislation troubles me deeply, because this may very well be a two-edged sword in historicity of the moment maybe quite different than what most of us anticipate at this point in time.

☐ 0140

Mr. DREIER of California. Mr. Speaker, I yield 2 minutes to the gentleman from New Mexico [Mr. SCHIFF], who has some important questions to ask.

Mr. SCHIFF. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I would like to ask a question of the distinguished chairman of the Committee on Armed Services [Mr. ASPIN] or the chairman of the Subcommittee on Defense of the Committee on Appropriations [Mr. MURTHA], because I do not think I heard this question answered earlier.

If this aid is primarily for U.S. forces to help dismantle nuclear weapons inside the Soviet Union, why do we have to take this money out of the defense budget and separately identify it for that purpose? If it were to remain in the defense budget, would it not be available for the same purpose?

Mr. MURTHA. Mr. Speaker, will the gentleman yield?

Mr. SCHIFF. I yield to the gentleman from Pennsylvania.

Mr. MURTHA. Mr. Speaker, I think the President had to have authority, and we were very careful to give him specific authority, to allow him to go forward with a program if he saw fit. In international relations, right now I do not think anybody has any peer. I think he is a good one to make the judgments. But it is primarily for American personnel, for American military personnel or experts in dismantling this equipment. So he needed authority, and we are giving him that authority to send troops or experts in, using O&M money.

I think in the long run it will save us money.

Mr. SCHIFF. Mr. Speaker, reclaiming my time, we are taking $500 million out of the O&M budget.

Mr. MURTHA. Mr. Speaker, if the gentleman will yield further, we will actually save money down the road. It is the ultimate SDI. We are destroying these missiles on the ground, is actually what we are doing. We are being invited in by these independent countries.

Mr. SCHIFF. Mr. Speaker, I would again ask the respected subcommittee chairman this question: There is just one aspect of this that I still find not being answered, and that is simply this: Why in the appropriations process are we taking $500 million out of the Department of Defense budget for the President to be able to use Department of Defense, which is to say military, personnel, to accomplish a task? If the funds were to remain in the DOD budget, then, with the proper authority, is the money not there for the President to use if he sees fit now as Commander-in-Chief?

Mr. MURTHA. Mr. Speaker, if the gentleman will yield further, we think the President needs this appropriation in order to go forward. He had to make the judgment. We leave it up to him. We make the money available. If he thinks it is necessary in the next couple of months, it would be in the defense budget. But this specific authority to send troops or experts into the Soviet Union to dismantle weapons, there is a question. We try to eliminate that question.

Mr. DREIER of California. Mr. Speaker, I yield 30 seconds to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, I have a question for the gentleman from Pennsylvania [Mr. MURTHA]. Right now, as I understand it, there are over 30,000 nuclear warheads that we are looking at. Over 10,000 of those warheads as we are sitting here today are involved here. I am concerned about nuclear weapons. When we expend half a billion out of our training, it just concerns me that there is a delta there in which we lose the training versus what we actually get out of the Ukranian nuclear weapons.

The SPEAKER pro tempore [Mr. BROWN]. The time of the gentleman has expired. The Chair would announce that the gentleman from California [Mr. DREIER] has 30 seconds remaining.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. Mr. Speaker, would the gentleman from California [Mr. CUNNINGHAM] repeat his question?

Mr. CUNNINGHAM. Mr. Speaker, with us having 30,000 warheads that we are looking at, over 10,000 of those are looking at us right now, the small amount in the Ukraine is a pittance. I am concerned about nuclear weapons, but how would we ever pay to dismantle all of those? I agree, it is like SDI, getting rid of those missiles.

Mr. MURTHA. Mr. Speaker, I do not think any of us can predict how much it will cost. Nobody could give me an estimate from the Department of Defense or from the White House. We are just making money available in case the President feels he needs to help them if they request it. We hope that they do request it. We hope we can dismantle those weapons in the Ukraine or any of the other independent states surrounding the Soviet Union.

As far as reducing our capability in the United States, we say specifically if you use O&M money, you cannot reduce the readiness of U.S. forces. We think if we reduce the capability of the Russians to fire weapons at the United States, or any other country, we obviously need less defense in the United States.

So it kind of balances off in our estimation. We are going to spend over $4 billion this year for SDI, so this is one way to destroy those weapons on the ground.

Mr. MYERS of Indiana. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the gentleman from Indiana.

Mr. MYERS of Indiana. Mr. Speaker, section 108 provides money may come from O&M, but it also may come from surplus in the capital account. Section 108 gives discretion to the Department of Defense as well as to the President to use available funds. We suggest two areas. They do have to come back for reprogramming. That all has to be reprogrammed. The President has to come back and certify that the Soviet Union is doing their part, that none of the fissionable material might be used in building a new weapon.

There are a lot of things we put in here that they must do to get the technical assistance that this provides.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Vermont [Mr. SANDERS].

Mr. SANDERS. Mr. Speaker, I thank the gentlewoman for yielding.

Mr. Speaker, the fact of the matter is that since I have been here in Congress for the last 11 months, there has not been a whole lot of discussion on this floor that has impressed me terribly much. I did not come here to vote $80 billion for the savings and loan institutions. I did not come here to vote $70 billion for a bailout of the commercial banks, or $290 billion for an inflated military budget.

I did come here to try to do something to address the fact that 20 percent of our children are living in poverty. Several weeks ago the gentlewoman from Colorado [Mrs. SCHROEDER] came up with an intelligent and serious proposal that called for $1.4 billion to go to the Head Start Program, to go to the WIC Program, to go to children's immunization programs.

There was a good debate here, and the people on the floor, Members of Congress, voted that $1.4 billion.

Tonight, at a quarter to 2 in the morning, we have learned that out of nowhere the conference committee rejected that money for children in need.

Mr. Speaker, my proposal and thought is we should reject this rule, send it back to the Committee on Rules, and tell them we want a rule which will once again allow us to vote that $1.4 billion for the children of this country.

Mr. DREIER of California. Mr. Speaker, I yield 30 seconds to the gentleman from Lomita, CA, (Mr. ROHRABACHER).

Mr. ROHRABACHER. Mr. Speaker, maybe our colleague from Colorado, (Mrs. SCHROEDER) could answer this, too: Why, if it was so important, did it take until 2½ weeks ago for the gentlewoman to come up with this idea. How come for all this year, if it is so important as we are talking about it now, the gentlewoman waited until 2½ weeks ago? Why did the gentlewoman wait that long?

Ms. SLAUGHTER of New York. Mr. Speaker, I yield 1 minute to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I pointed out in my speech exactly why where we are is where we are. That is that we are at the end of the year where we have a shortfall. At the beginning of the year we made the commitment to attempt to fully fund these three core programs by 1996. So to get there, there is like a stair step of incremental increases.

The problem was while we made that commitment in January, here we are now taking Polaroid shots as to where we are, and some of that money we were to commit has gotten chipped away, plus more children have fallen into poverty. Even today's newspapers talk about how many more children have fallen into poverty, much faster than was projected. So it takes more money to get to that point.

So we are looking at the year-end, and the dire urgent supplemental was the only thing moving that you could then make that course correction to make sure you kept that covenant that you made to at least get to the first year.

□ 0150

My problem is, if we did this in the very first year, imagine where we are going to be by 1996. There is already talk from the administration and other places to forget it, and maybe we will try and do it by the year 2000.

My question is, How many generations of American kids do we let this happen to?

I really hope that the gentleman understands that.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. BROWN). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SANDERS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 242, nays 175, not voting 17, as follows:

Mr. MFUME, Mr. ROBERTS, Ms. PELOSI, and Mr. OWENS of New York changed their vote from "yea" to "nay."

Messrs. MRAZEK, OLVER, and CONDIT changed their vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 585

Mr. OLIN. Mr. Speaker, I ask unanimous consent that my name be removed as cosponsor of the bill, H.R. 585, the Biological Diversity Conservation and Environmental Research Act.

The SPEAKER pro tempore (Mr. BROWN of California). Is there objection to the request of the gentleman from Virginia?

There was no objection.

CONFERENCE REPORT ON H.J. 157, DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS AND TRANSFERS FOR RELIEF FROM THE EFFECTS OF NATURAL DISASTERS, FOR OTHER URGENT NEEDS, AND FOR INCREMENTAL COST OF OPERATION DESERT SHIELD/DESERT STORM ACT OF 1992

Mr. WHITTEN. Mr. Speaker, pursuant to the rule just adopted, I call up the conference report on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts, making appropriations for the fiscal year ending September 30, 1991, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Pursuant to House Resolution 309, the conference report is considered as read.

(For conference report and statement, see prior proceedings of the House of today.)

The gentleman from Mississippi [Mr. WHITTEN] will be recognized for 30 minutes, and the gentleman from Pennsylvania [Mr. MCDADE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Mississippi [Mr. WHITTEN].

GENERAL LEAVE

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report on the joint resolution (H.J. Res. 157) making dire emergency supplemental appropriations and transfers for relief from the effects of natural disasters, for other urgent needs, and for incremental costs of Operation Desert Shield/Desert Storm for the fiscal year ending September 30, 1992, and for other purposes, and that I may be allowed to include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

Mr. WHITTEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the debate we just heard is illustrative of what we have to deal with in the Committee on Appropriations.

I have said before and I have said it seriously that we are going to have to give our domestic programs a foreign address to get them taken care of.

We have heard the debate here about the WIC Program and others. Let me tell you what the facts are.

I was one, and I apologize for it, who recommended the Budget Act, and it has not worked at all like it was planned. We recommended the Budget Act because funding was going around the Committee on Appropriations and leading us into debt right and left.

We recommended that the Budget Committee be made up of five members from the Ways and Means Committee, five members from the Appropriations Committee and five members from the various legislative committees so that we might hold the spending of the Government in line with revenues and by enabling the Appropriations Committee to have the strong voice to hold it back.

We did not get that. We got a committee weighted in favor of the legislative committees.

May I say, since 1945 we have held the appropriation bills $180 billion below the recommendations of all the Presidents. However, just since 1980, our debt has gone from less than $1 to $4 trillion. With spending going around the Committee on Appropriations the Budget Act has not succeeded. It has not worked and that causes the situation that we saw tonight.

May I say again that in the conference we were faced with the fact that if we kept funding not only this WIC Program, but several others, we would have had sequestration and everything would be cut, and the certainty of that came from the other side of the Capitol.

We tried to hold the things in line that we had. They were sound, not only the programs referred to, but other items which were very sound.

I say again that if we are going to look after our own country, we are going to have to put first things first and see that we are held up, by Budget Act requirements as we were in our conference.

Now, I am not going to argue with my colleagues who spoke so eloquently about the needs of the youth of this country. We strongly recognize those needs, I will say that conditions are a little better than might be expected in that we have $2.6 billion in the WIC section of the fiscal year 1992 Appropriations Act. Not only that, but we provided $250 million above what we had last year. I do not say that complaining. I just say that we have done the best we could within the limits of what is possible, and I want to say this as we begin this debate.

Now, the other side of this, I am going to say I hope you will take time to read my full remarks in the RECORD, but listen to what I say now.

At this time, I call your attention to the fact that economically and financially as a nation we face a national emergency—a dire emergency. All this year I have been saying that anyone who reads a newspaper, watches television, or talks to neighbors is bound to realize we are in a deep recession and, judging by history, it will take a real effort if we are to avoid a long drawn out depression.

Despite the fact that our Committee on Appropriations has held the total of appropriations bills $180,800 million below the recommendations of our Presidents since 1945, today we owe a debt of $4 trillion and have outstanding loan and deposit guarantees of another $5 trillion. We can work our way out of this only by increasing production and regaining our domestic markets and our normal share of foreign markets. History will decide whose fault it is—and our domestic policy of placing foreign relations ahead of the domestic economy, where we are letting our real wealth deteriorate, will figure prominently in that.

On November 22, I pointed out how the trade deficit has grown by over $1.1 trillion since 1981 as follows:

[In billions of dollars]

	Amount
1981	$34.6
1982	38.4
1983	64.2
1984	122.4
1985	133.6
1986	155.1
1987	170.3
1988	137.1
1989	129.4
1990	123.4

In addition, conditions are terrible because of natural disasters—hurricanes, earthquakes, freezes, drought, floods, tornadoes, and more recently, wildfires—which have been declared disasters by the President and the Secretary of Agriculture which affect every State in the Union. These disasters have created a dire emergency which must be addressed to prevent a cutting back on vital ongoing programs.

Mr. Speaker, it will take time if we are to work out of the present problem. We need to get our country moving, to increase production, to again export more than we import—and we need to start now for we live in a competitive world.

The conference agreement provides agricultural disaster assistance for crop years 1990, 1991, and to some extent, 1992 in the amount of $1,750 million—$995 million now and $755 million when the President submits a budget request.

The agreement also includes $943 million for the Federal Emergency Management Agency—$800 million now and $143 million when the President submits a budget request.

In addition, the conferees agreed to provide $4,083,500,000 for the incremental costs of Operation Desert Shield/Desert Storm.

As a start, we must join together to adopt this Dire Emergency Disaster Assistance Bill.

The conditions resulting from the widespread disasters continue to get worse. There are now 44 Presidentially declared disasters which affect 33 States and an additional 89 disasters have been declared by the Secretary of Agriculture which affect 39 States. With reductions in employment, in production, and exports resulting from these disasters, when added to our mistaken policies, it is apparent that the Nation must take action. It has been over 6 months since we called attention to the problem, the facts of which are well known.

In the years 1990 and 1991, disaster declarations have been declared or are pending for 11 States in the East, 8 States in the Southeast, 8 South Central States, 11 North Central States, 6 States in the Northwest, and 6 States in the Southwest. Thus, in connection with this, the Congress and the President have declared these domestic needs to be dire emergencies so that other essential programs won't be reduced by sequestration as has been done to fiscal year 1991 programs which were reduced thirteen ten-thousandths of 1 percent by the Office of Management and Budget based on its own counting without the approval of the Congress.

To begin to meet these problems, this Dire Emergency Supplemental provides funds to meet the disasters which have hit the Nation since last October and to provide more funds for Hurricane Hugo damage and the 1989 California earthquake.

Recently, Hurricane Bob struck the Northeast coast. To date, estimated costs for the disasters declared due to this hurricane are approximately $52 million.

Farmers in Minnesota and Iowa were unable to plant their crops due to an unprecedented spring and summer rainfall. Furthermore, many crops which may have been planted were destroyed because of flooding.

Since early spring of this year, tremendous storms with accompanying torrential rain and winds have hit areas of the country. At one point, over 4 million acres of land in the Mississippi River Delta were inundated, destroying or damaging drainage ditches, bridges, roads, homes, and farms. Additionally, some of the worst drought conditions of the century have affected other parts of the country.

Since October 1990, there have been disasters which resulted in calls for the National Guard and other assistance. Mr. Chairman, in fiscal 1990 the Guard was called out 292 times in 38 States; in fiscal 1991, 337 times in 42 States. This need will continue and shows the tremendous peacetime mission the Guard has. Because they are local, they play a big part in support of the regular services.

Mr. Speaker, this is a good agreement, and I urge it be adopted.

□ 0220

I do not know whether any of you have noticed it, but each week whatever groceries you buy have increased in price. For the years 1990 and 1991 the agricultural related disaster declarations have been getting worse.

What we are trying to do in this bill, and what we have done, is to recommend funds for holding our country together.

May I say again that your committee is trying to save our country and restore it. And I point out again the policies that we have been following have contributed greatly to our decline. We have given away billions of dollars of our domestic markets, and we are the ones who set up the European Common Market, not they; we are the ones that financed the defense of Japan so that they could build up their economy, and then we get stuck.

May I say again that in voting for this bill tonight, we are trying to save our country. I want to say right now that just as sure as I am standing here, we are going to be faced with the need for a jobs bill. Since 1981, the 1981 Tax Act has lost over $2.4 trillion in income. In 1982 we had a disastrous year, a rescission of over $14 billion, and by late 1982 we had a recession.

During Easter 1983, at the request of my colleagues, I stayed here and worked out the jobs bill. We came up with a jobs bill which left it up to the local people so that you had something to show for it. In other words, investment spending. We bailed out the country.

At the local level throughout the United States, we tried to be sure we got our money's worth.

May I say again, so many people do not realize or seem to know that wealth and money are not the same thing. They are not. Wealth is solid, material things. We are going to have to try to look after our own country because all this foreign aid and military spending depends on your own country to finance and support it.

May I say again it is not the fault of this committee or this group of conferees that these items that have been complained about are not included. We were faced with sequestration, which means everything would have been cut. We had to bring back the best we could.

So, if you want to go after the real problem, go after that which holds back what we can do—the Budget Act. If you do not stay within the limits, then sequestration takes effect. That is what we have to work with.

That is where your problem is caused.

I repeat again, for what it is worth, for WIC we have $250 million increase over last year to take care of an additional 300,000 participants per month. I agree with you the need is there, and I agree we are right in trying to hold the country together. We are going to have to look after our own country because all the rest depends on our country.

The other thing I want to say to you is that we live in a competitive world. We tried to sell apples in foreign countries, and they turned us down because they have artificial coloring on them. We tried to sell breed stock cattle to England, and they would not let us sell it because of the hoof and mouth disease; they had it, and we did not.

So I say tonight, it is time we look at our situation, see where the cause is, and correct it.

But I would like for you to understand these other facts—we have to regain our foreign markets, maintain our present domestic markets, and get away from being told what we can do by the Office of Management and Budget, and get away from the sequestration.

Mr. Speaker, I urge adoption of this conference report and reserve the balance of my time.

Mr. MURTHA. Mr. Speaker, chapter 1 of the bill deals with the matters affecting the Department of Defense:

Approved $4 billion in new authority to finance the costs of Operation Desert Shield/Desert Storm.

These appropriations were requested to replace material lost or consumed during combat and to provide for the rehabilitation and repair of equipment resulting from heavy use during Desert Shield/Desert Storm.

In addition, authority is provided to transfer $6.3 billion among accounts in fiscal year 1991 to adjust funding previously provided in the initial Desert Shield/Desert Storm supplemental enacted last April.

The most recent cost estimate of the conflict is $61.1 billion.

After factoring out: cash contributions from foreign countries; in-kind assistance from various countries; and the fact that various equipment which was destroyed will not be replaced, the actual cost of the conflict not covered by foreign contributions is estimated to be approximately $4.4 billion.

Basically, we have approved the budget request with several exceptions:

We provided $145,000,000 in additional funds to buy Patriot missiles.

We provided $25,000,000 in additional funds for advance procurement of engines and generators for the LSD–41 dock landing ship.

We provided $10,100,000 for the purchase of one MH–60E helicopter for the National Guard and Reserve.

We provided authority to allow the transfer of not to exceed $400,000,000 of defense funds to aid in the destruction of nuclear and other weapons in the Soviet republics and the Soviet Union.

We provided authority to allow the transfer of not to exceed $100,000,000 of defense funds to provide transportation of food, medical supplies, and other humanitarian assistance to the Soviet Union and the Soviet republics.

The SPEAKER pro tempore (Mr. BROWN). The gentleman from Pennsylvania [Mr. MCDADE] is recognized for 30 minutes.

Mr. MCDADE. Mr. Speaker, let me say to my colleagues that I have the long speech and the short speech, and you are going to get the short one at 20 minutes past 2 in the morning

I want to say this is the first time, my friends, in the 5 months this bill has been pending that I have risen in support of this bill. It is not only me, but I want you to know that every member of the conference committee on both sides of the aisle has signed the conference report.

The President, I am authorized to tell you, is waiting, should we decide to send the bill down, to sign it.

It has three principal components in it:

The first component is the funding for the Desert Storm operation, roughly $4 billion, all of which is funded by foreign contributions and is outside of the budget caps.

The second portion of it consists of emergency money for agricultural disasters in the country. That sum is $995 million, and covers crop year 1990 or 1991, at the farmer's choice. There is an additional $755 million that becomes available if the President requests it and designates it as an emergency.

The third major component in the bill is for disaster assistance under the Federal Emergency Management Administrations which is in the bill at $800 million, and covers the backlog of every single natural disaster which has occurred around the country and for which a lot of your communities are sitting and waiting. There is an additional $143 million that becomes available if the President requests it and designates it as an emergency.

That is the essence of the bill.

I urge your approval of the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. WHITTEN. Mr. Speaker, I yield 2 minutes to my colleague, the gentleman from Arkansas [Mr. ALEXANDER].

Mr. ALEXANDER. Mr. Speaker, I commend the action of the conferees to correct the practice of the Defense Department of exporting American jobs to foreigners. Section 107 prevents the use of U.S. tax dollars to import 4-ton dolly jacks that are efficiently manufactured here at home. It is anti-American to export jobs to foreign countries when jobs are scarce in the United States. This practice must be stopped. I appreciate the committee for supporting my amendment. This section saves American jobs and keeps our people working so they can support their families.

Mr. Speaker, I would like to engage the chairman of the Subcommittee on Energy and Water, the gentleman from Alabama [Mr. BEVILL] in a short colloquy.

Mr. Speaker, when the Senate passed the fiscal year 1992 dire emergency supplemental appropriations bill, an amendment was adopted regarding an extension of certain FERC license deadlines for hydroelectric power projects which have or are soon to expire. That amendment, which was identical to S. 1283 as passed by the Senate, was dropped during conference consideration of the dire emergency supplemental appropriations measure.

I am aware that the House committee with jurisdiction over S. 1283, and a similar bill, H.R. 2677, which I introduced, plans to take action on these proposed extensions en bloc in the near future. I seek clarification from the chairman that the conferees's action to delete the amendment was in deference to the House authorization committee and in no way reflects on the merits of the proposed extensions.

Mr. Speaker, I ask the gentleman, is this correct?

Mr. BEVILL. Mr. Speaker, will the gentleman yield?

Mr. ALEXANDER. I yield to the chairman, the gentleman from Alabama [Mr. BEVILL].

Mr. BEVILL. I thank the gentleman for yielding.

Mr. Speaker, the gentleman is correct.

Mr. MCDADE. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from New York [Mr. GREEN] a member of our subcommittee.

Mr. GREEN of New York. I thank the distinguished ranking minority member of the Committee on Appropriations for yielding the time to me.

I take this time because I think Members should understand that, in addition to appropriating funds to clean up the FEMA backlog, we have established important new grounds rules for FEMA of which everyone should be aware.

The appropriations for FEMA involve a total of $943 million, of which $800 million is agreed to between the Administration and the Congress as emergency funds for 1990 Budget Act purposes. The balance of $143 million may be spent by the administration only if the administration determines that the purpose for which it seeks the funds qualifies as an emergency under the 1990 Budget Act and will not trigger a sequester. That is what we did for the current fiscal year.

□ 0230

But in addition to that, as I mentioned, we established some new ground rules, because the administration has been complaining that the shortfall in funds which we were facing this calendar year was the result of congressional failure to provide as much money to the disaster relief account as history had suggested it needed and as the administration had requested, and frankly the administration had a good case in making that claim. As a result, this bill provides that there will be a baseline established of $320 million for a fiscal year, which is agreed to as the recent historical average of emergency needs for the FEMA program, or such lesser amount as the administration may request in its budget recommendations for any fiscal year. That amount will be a baseline which must be met before amounts above that level, which are agreed to by the Congress and the administration, may be deemed to be emergencies.

So, Mr. Speaker, I think that this agreement will deal with the concerns of the administration that by underfunding this account in past years we created an artificial emergency. we shall now have a baseline by which to judge that every year.

Since the report of the managers is a little obscure in its language, let me make it clear that shortfalls below the baseline do not carry over from year to year. So, for example, if the administration requests $320 million, and we appropriate only $250 million, and only $250 million is needed in that fiscal year, then the $70 million shortfall does not carry over, and we start afresh in the next fiscal year. So there will be no carryover of gaps between the baseline and the amount appropriated if in fact the lower appropriation proves to be all that is needed in that fiscal year.

I apologize to my colleagues for discussing this at this hour of the night, but I think it is important to make clear in the RECORD and for my colleagues' understanding just what the ground rules are going to be as to when FEMA appropriations are going to be considered emergencies and when they are not.

Mr. WHITTEN. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. Fazio], a member of the committee.

Mr. FAZIO. Mr. speaker, I appreciate the gentleman from Mississippi [Mr. WHITTEN] yielding this time to me.

Mr. Speaker, I simply want to thank the chairman for help on three different disasters that have faced California in the last years. we are still finding $300 million in the Loma Prieta earthquake in this bill. There will be at least $300 million to deal with the freeze that beset the San Joaquin Valley and $100 million to take care of those people in the city of Oakland who suffered the loss of public facilities.

I know that the California delegation appreciates the committee's assistance in the context of this supplemental, and I am hopeful that a much larger percentage of them will support final passage than supported the rule.

Mr. Speaker, I rise in strong support of the conference report on the dire emergency appropriations bill for fiscal year 1992.

The measure is a good compromise. It will get some immediate relief to the victims of natural disasters throughout our country, affording them the same assistance that we have provided to the victims of natural disaster in other parts of the world.

Despite my strong support for the conference report, Mr. Speaker, I remain disappointed that the President would not agree to make the full $1.75 billion in crop loss disaster assistance and $943 million in FEMA aid, as proposed by the House, immediately available.

The House and Senate have both stated very emphatically the belief that there are emergency requirements outstanding that will reach at least the levels set in the original House and Senate bills. We know, for example, that eligible crop losses across the country may exceed $2 billion.

But the President was unwilling to make immediately available what we believe to be the required level of disaster assistance. Therefore, while under the measure we have made most of the funds immediately available, a portion of the moneys will be made available only if the President determines that an emergency exists and thereby releases the funds. No further action by Congress will be required, however.

Of the $1.75 billion in crop loss assistance, $995 million will be made available immediately and $755 million is provided, contingent upon a Presidential declaration that an emergency exists. Of the $943 million for FEMA, $800 million will be available immediately and $143 million could be made available by the President, if he exercises his emergency authority.

But the conference report appropriates what we believe will be required to meet our Federal disaster assistance obligations and gives the President the authority and flexibility to respond.

Mr. Speaker, for my own State of California this bill is particularly critical. My State has suffered from one major natural disaster after another. The bay area is still recovering from the Loma Prieta earthquake. The Oakland fire last month was among the worst natural disasters to hit our State. And, the farmers and farm communities throughout the State, particularly in the San Joaquin Valley, are still trying to recover from the devastating freeze which hit the State last December.

The measure will provide roughly $100 million to help rebuild fire damaged areas of Oakland, up to $425 million for farmers and farm communities hit by last December's freeze, and an estimated $300 million to clear up Federal obligations still outstanding from the 1989 Loma Prieta earthquake.

Mr. Speaker, all year long, the President has been handing out aid to the victims of disasters in foreign countries. And, while these are laudable causes, he has repeatedly turned his back on those in our own country who have suffered from similar emergencies. We have fought and fought for this aid, and, now, hopefully, the President will sign this bill and get the aid flowing to those in our own country who are entitled to this essential assistance.

I want to also explain another item which affects the legislative branch appropriation.

In section 209, we have provided authority to spend donated funds for construction drawings and specifications for the replacement of the Botanic Garden Conservatory.

All Members should realize that part of this historic building will be torn down within a few weeks. The middle portion—the Palm House—is in such a deteriorated and even dangerous condition that it must be razed.

The balance of the building—the Fern House, the Orangerie, the display halls—all require immediate structural and environmental repair.

The entire project will cost from $20 to $30 million. We did not even have the funds for the construction drawings.

So the good people who are raising donations for the National Garden—Lindy Boggs, the wives of Senator BENTSEN and Senator JOHNSON—came to us and said they would like to raise funds for the design. That will cost almost $2 million.

The Senate bill gave the Architect of the Capitol the authority to expend the $2 million—but subject to an authorization bill being passed.

We were informed that the authorizing committees—Senate Rules and House Administration—would probably not get to that matter this session.

So the conferees on the supplemental decided to insert the authorization also, so that this important design could go forward.

We had to make some adjustments in the authorization introduced by Senator PELL because of the scorekeeping rules. The OMB and CBO agreed those adjustments were necessary to prevent the bill from being scored and perhaps trigger a sequestration.

The conferees have provided authority to accept gifts or bequests of money in the amounts provided in appropriation acts in section 307E(b)(1). It is not the intent of the conferees that gifts or bequests of a nonmonetary nature be included in such limitations.

So all we are doing is trying to use other sources of funds—private donations—to keep our physical plant in repair. I think we owe that to the American people.

Mr. MCDADE. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Missouri [Mr. COLEMAN], the ranking member of the Committee on Agriculture.

Mr. COLEMAN of Missouri. Mr. Speaker, I rise to express my support of language included in this conference report that will protect the pension benefits of thousands of TWA employees. The amendment ensures that up to $1 billion of unfunded pension liability will not, by means of a slick legal maneuver, be transferred to the Pension Benefit Guaranty Corporation.

The owner of TWA, Carl Icahn, is currently negotiating with creditors to develop a prepackaged bankruptcy agreement. Under current law, Mr. Icahn, as the holder of more than 80 percent of the airline's common stock, is deemed in control of TWA. Furthermore, the law holds the other businesses he controls in common with TWA liable for the pension obligations.

Mr. Icahn proposes, as part of the agreement, to decrease his ownership below 80 percent, but to retain control of the TWA board and management. If accepted, this proposal would insulate Mr. Icahn and his financial empire from the liability for the unfunded pension obligations. Those obligations have been estimated to be from $150 to $900 million.

Mr. Speaker, this amendment has been very narrowly drawn, and applies only to the particular situation involving TWA. Without it, the Pension Benefit Guaranty Corporation, already dealing with an accumulated deficit of $1.8 billion, will be forced to pickup some $440 million in guaranteed benefits for TWA employees. And without it, TWA employees will lose an estimated $400 million in promised, but not PBGC guaranteed, pension benefits.

I urge my colleagues to accept this language.

Mr. WHITTEN. Mr. Speaker, I yield 3 minutes to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I thank the gentleman from Mississippi [Mr. WHITTEN] very much for yielding this time to me.

Mr. Speaker, I just wanted to say again that, as I read this bill, the congressional designations of emergency points out that, while the President had only designated portions of the funds dealing with Desert Shield and Desert Storm, the Congress believed others should have a higher priority, and that is what I had hoped children would get.

I must say that, as I read this bill, and I have not had time to get through all of it, but I see in here a $½ million to the State of Maine for potato disease. There is something in here I do not understand where we are increasing $14 million to something called fishing vessel obligation guarantees. Then the Kurdish protection forces, and, as my colleagues know, I can keep reading this about the Kuwaitis and the Saudis not paying their parking tickets to the tune of a lot of money, and on, and on, and on.

Mr. Speaker, I just, as I say, am very sad to stand here and take on the Committee on Appropriations, but, when I look at all of this, I certainly think America's children were entitled to the same kind of coverage, and it saddens me. I have to keep reiterating this over and over again, but the more I read, the more I am horrified at those who got a higher priority than kids, and that makes me very sad.

Mr. McDADE. Mr. Speaker, I yield 1 minute to my colleague, the gentleman from Pennsylvania [Mr. GEKAS].

Mr. GEKAS. Mr. Speaker, I thank the gentleman from Pennsylvania [Mr. McDADE] for yielding this time to me.

Mr. Speaker and Members of the House, in voting in favor of this resolution, I cast that vote to keep faith with the farmers who will benefit from the impact of this legislation, and with the FEMA personnel who also will benefit, and we who at large know what devastation the farms of our country have faced this past year during the drought.

Mr. WHITTEN. Mr. Speaker, I yield 1 minute to myself.

Mr. Speaker, I would like to point out, in view of statements that have been made earlier, the fiscal year 1992 appropriations bill, which was signed into law October 28, 1991, provides $2.6 billion for WIC—an increase of $250 million above the 1991 level. May I say that there were 4.9 million persons in fiscal year 1991 that were served, and, for the present year, 5.2 million persons—an increase of 300,000. Within the limits of the possible we have done the very best we could, and I think the RECORD should show it.

Mr McDADE. Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. Mr. Speaker, I thank the gentleman from Pennsylvania [Mr. McDADE] for yielding this time to me.

On page 158–200 of the report I come across an interesting item that sounds like a dire emergency to me.

> Notwithstanding any other provision of law, funds available to the Animal and Plant Health Inspection Service of the Department of Agriculture for fiscal year 1992 shall be made available as a grant in the amount of $530,000 to the State of Maine Department of Agriculture, Food and Rural Resources for potato disease detection, control, prevention, eradication and related activities including the payment of compensation to persons for economic losses associated with such efforts conducted or to be conducted in the State of Maine and any unobligated balances of funds previously appropriated or earmarked for potato disease efforts by the Secretary of Agriculture shall remain available until expended by the Secretary.

Mr. Speaker, is this a dire emergency that was requested by the President?

Mr McDADE. Mr. Speaker, I yield myself such time as I may consume.

May I say to my colleague that it was not in the budget submitted by the President, no.

Mr. WALKER. I thank the gentleman from Pennsylvania.

Mr. WHITTEN. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. CHAPMAN].

Mr. CHAPMAN. Mr. Speaker, I would like to take less than a minute to thank the gentleman from Mississippi [Mr. WHITTEN] for this legislation. I urge my colleagues to support it.

Contained in this bill, the disaster assistance is going to assist agriculture producers all across this country. A number of those are in my northeast Texas district where in May 1990 the Red River was 10 miles wide. Tens of thousands of acres of farmland were flooded. Those folks have had no funding for the authorized disaster programs that Congress has passed.

□ 0240

Tonight we will give them that needed funding, breathe life into those producers, and for that, Mr. Chairman, my constituents owe you a debt of gratitude, and so do I.

I urge my colleagues to support this legislation and help us rebuild the assets that have made this country great and give our agriculture producers around this country a chance to get back on their feet.

Mr. McDADE. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. EWING].

Mr. EWING. Mr. Speaker, I rise in strong support of the dire emergency supplemental legislation, which includes much-needed relief for those affected by natural disasters throughout the country, including this summer's Midwest drought.

The country has seen an unusually high level of natural disasters, including drought, flooding, freezing, and fires. In Illinois, many farmers had no rain at all during the critical growing season. Many are facing significant looses, some are facing total losses. Without this legislation, many will go out of business and join the ranks of the unemployed.

While national production may be average, this drought has been spotty, and those who have been hit have been hit very hard. This legislation is critically necessary to thousands of agricultural producers.

This drought comes on the heels of devastating droughts in 1980, 1983, and 1988 and is particularly devastating to many farmers who are still trying to recover financially from this long string of droughts.

Drought relief has been languishing in Congress for over 4 months. The time has come for us to act. I want to thank the President and congressional leaders for reaching this agreement. If we act tonight, we can deliver this much-needed assistance before Christmas.

Mr. Speaker, drought relief is very important for our economy and for thousands of farmers and others throughout the country. I urge my colleagues to support this legislation.

Mr. WHITTEN. Mr. Speaker, I yield 5 minutes to the gentleman from Illinois [Mr. HAYES].

Mr. HAYES of Illinois. Mr. Speaker, you are going to get some regular order. I was almost asleep until I saw this in here where they deleted certain provisions from this bill.

I want to ask if I can engage in a colloquy with the chairman of the committee.

What were the reasons for the deletion of the agreement not to include supplemental appropriations for $1.2 billion for Head Start; $100 million for women and children, the WIC Program; and the Nutrition Program; and $90 million for the Childhood Immunization Program?

I cannot go back to my poor kids in my community and not be able to explain why we do not have this kind of money.

Mr. NATCHER. Mr. Speaker, will the gentleman yield?

Mr. HAYES of Illinois. I am happy to yield to the gentleman from Kentucky.

Mr. NATCHER. Mr. Speaker, I want to say to my friend from Chicago that I do not know of a single Member in this House who is against Head Start, against the WIC Program, or against the Childhood Immunization Program.

The amendment offered by the gentlewoman from Colorado, as the gentleman knows, added $1.2 billion to the Head Start Program. The regular bill, I say to my friend from Chicago, had $2,202,000,000 for Head Start for fiscal year 1992. This is an increase of $250 million. This follows a $400 million increase in Fiscal Year 1991. As far as the Childhood Immunization Program is concerned, in the regular bill we have $298 million, and this is an $80 million increase over 1991.

Not a single dollar of the money added by the gentlelady would have been dropped by the conferees if it had not been for the two letters that the conferees received from OMB. One of them was directed to the Chairman of the Committee on Appropriations in the Senate, Mr. BYRD. The other was directed to my chairman, the gentleman from Mississippi [Mr. WHITTEN]. These letters informed the conferees that if these supplemental amounts remained in the bill, not qualifying under the emergency category, there would be a sequester. This sequester would be up to 2.7 percent across the entire domestic discretionary budget for fiscal year 1992. The gentleman from Illinois would not like it, and I would not like it. Think about it.

Let me say to the gentleman that this 2.7-percent reduction across the entire budget would cover all 10 domestic appropriation bills. Not $1 would have been removed if these amounts added by the gentlewoman from Colorado could have been classified under the emergency category. Every dollar would have remained in there. The gentleman and I are both for Head Start. We are both for the WIC Program. We are also for childhood immunization.

Mr. HAYES of Illinois. I am not sure OMB is, if I can reclaim my time.

Mr. NATCHER. No. I understand. But let me say this to the gentleman; I do not know of a Member in this House that is against any one of these three programs. They would have remained if there had not been the threat of this sequester.

Mr. HAYES of Illinois. I want it clearly understood that I am not blaming the gentleman, but I want it clearly understood, too, that our priorities are on the wrong end. We are not doing enough for poor kids who are tomorrow's leaders in this great Nation of ours. We tend to forget. We do not know where our priorities are. We look at some of the money we spent for bridges and other things within this bill, and when you really look at it, we are really behind the times of where we need to move.

Mr. McDADE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WHITTEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. BROWN). Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. DANNEMEYER. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 303, noes 114, not voting 17, as follows:

Messrs. CAMPBELL of Colorado, MFUME, and GREEN of Texas changed their vote from "aye" to "no."

Mr. WILLIAMS changed his vote from "no" to "aye."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON GOVERNMENT OPERATIONS TO FILE SUNDRY REPORTS

Mr. CONYERS. Mr. Speaker, I ask unanimous consent that the Committee on Government Operations have until 6 p.m. on Friday, December 20, 1991, to file sundry reports.

The SPEAKER pro tempore (Mr. BROWN). Is there objection to the request of the gentleman from Michigan?

There was no objection.

TAX EXTENSION ACT OF 1991

The SPEAKER pro tempore. The unfinished business is the question of suspending the rules and passing the bill, H.R. 3909, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI] that the House suspend the rules and pass the bill, H.R. 3909, on which the yeas and nays are ordered.

The motion was taken by electronic device, and there were—yeas 420, nays 0, not voting 14, as follows:

☐ 0326

Mr. HUTTO changed his vote from "nay" to "yea."

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. WEISS. Mr. Speaker, I was unavoidably absent on certain rollcall votes on November 6 and 7. I wish to have the RECORD indicate that had I been present, I would have voted "aye" on rollcall votes 283, 376, 385, and 386.

I would have voted "no" on rollcall votes 321, 322, and 363.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 585, THE NATIONAL BIOLOGICAL DIVERSITY CONSERVATION AND ENVIRONMENTAL RESEARCH ACT

Mr. SCHEUER. Mr. Speaker, I ask unanimous consent that the name of Hon. JAMES OLIN be removed from the list of cosponsors to H.R. 585, the National Biological Diversity Conservation and Environmental Research Act. His name was placed on the list due to a clerical error.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2824

Mr. LANCASTER. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2824.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF HOUSE CONCURRENT RESOLUTION 210

Mr. SMITH of Florida. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of House Concurrent Resolution 210.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

KONIAG LANDS CONVEYANCE AMENDMENTS OF 1991

The SPEAKER pro tempore. The unfinished business is the question of suspending the rules and passing the bill, H.R. 3638.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Yesterday the House vacated the ordering of the yeas and nays on Saturday, November 23, 1991, by unanimous consent.

The question is on the motion offered by the gentleman from North Carolina [Mr. JONES] that the House suspend the rules and pass the bill, H.R. 3638.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION PROVIDING FOR DISPOSITION OF SENATE AMENDMENTS TO H.R. 3807, CONVENTIONAL FORCES IN EUROPE TREATY IMPLEMENTATION ACT OF 1991

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 102–401) on the resolution (H. Res. 316) providing for disposition of the Senate amendments to the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 102–402) on the resolution (H. Res. 317) waiving all points of order against the conference report on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for the construction of highways, for highway safety programs, and for mass transit programs, and for other purposes, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

□ 0330

WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 317 and, pursuant to House Resolution 294, ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 317

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for the construction of highways, for highway safety programs, and for mass transit programs, and for other purposes. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore (Mr. HOYER). The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, I yield the customary 30 minutes to the gentleman from Ohio [Mr. McEWEN] pending which I yield myself such time as I may consume.

Mr. MOAKLEY. Mr. Speaker, during debate on House Resolution 317, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 317, is the rule providing for the consideration of the conference report on H.R. 2950, the Intermodel Surface Transportation Infrastructure Act of 1991. The rule waives all points of order against the conference report and against its consideration. The rule also provides that the conference report will be considered as read.

Mr. Speaker, H.R. 2950 provides a total of $151 billion for surface transportation over the next 6 years. The conference report authorizes $119 billion for highway construction and $32 billion for mass transit construction and expansion.

In addition, Mr. Speaker, the conference report authorizes $38 billion for a 155,000-mile National Highway System, $16 billion for a bridge replacement and rehabilitation program, $24 billion for the flexible surface transportation program, and increases from 85 to 90 percent the guaranteed minimum allocation for each State relative to its share of highway trust fund contributions.

Mr. Speaker, Chairman ROE and the ranking Republican member, Mr. HAMMERSCHMIDT, deserve our praise for their relentless efforts in bringing this most important measure to this phase of the legislative process. The gentleman from California, Mr. MINETA and the gentleman from Pennsylvania, Mr. SHUSTER also deserve our gratitude for the many long hours they have spent on this bill.

Mr. Speaker, this conference agreement strikes a reasonable balance and represents a consensus on this important legislation. The effort all the conferees deserves the appreciation of all Members of the House and I urge Members to support the rule and the conference report.

Mr. McEWEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I join the distinguished chairman of the Committee on Rules, the gentleman from Massachusetts [Mr. MOAKLEY] in the explanation of the conference report, House Resolution 317, the Intermodal Surface Transportation and Infrastructure Act of 1991.

As was stated by the chairman, the rule does waive points of order and brings before us the major provisions of this important legislation.

I join the chairman in expressing my appreciation to the chairman of the committee, the gentleman from New Jersey [Mr. ROE] and the ranking member of the full committee, the gentleman from Arkansas [Mr. HAMMERSCHMIDT], the chairman of the Subcommittee on Surface Transportation, the gentleman from California [Mr. MINETA], and his ranking member, the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. Speaker, only five provisions of the bill that were not mentioned by the chairman that I would make note of. Of the $119 billion for highway construction and repairs, $31.5 billion is for mass transit; a Federal-State match share of 80/20 for all programs except interstate highway projects, which will be 90/10; authorization of $7.2 billion for completion of the Interstate System as well as $16 billion for a rebuilding program for the Nation's bridges; a Corridor of National Significance Program; and a freeze to prevent expanded use of triple-trailer trucks.

Mr. Speaker, it is vitally important that this legislation, which is an authorization beginning October 1, recognizing this is the end of November, it is important for this legislation to be enacted.

Mr. Speaker, I urge the support of the House.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio [Mr. TRAFICANT].

Mr. TRAFICANT. I thank the gentleman for yielding.

Mr. Speaker, the Republicans want a growth package, the Democrats want a growth package, the American people are looking for an economic growth package. This is probably the best economic growth package that the Congress will vote on. This will set in motion high-speed rail, it will complete the intermodal system and our highway system, and this bill will create potentially 2 million jobs, 2 million jobs. This may be the most important economic growth package we will vote on in the next 8 years.

I encourage everybody to vote for the rule.

I appreciate the work done by the committee under the first big time of our committee chairman, the gentleman from New Jersey [Mr. ROE], the gentleman from Arkansas [Mr. HAMMERSCHMIDT], the gentleman from Pennsylvania [Mr. SHUSTER], and the gentleman from California [Mr. MINETA].

This is a good bill.

Mr. McEWEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

APPOINTMENT OF CONFEREES ON H.R. 3595, MEDICAID MORATORIUM AMENDMENTS OF 1991

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3595) to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the medicaid program and to maintain the treatment of intergovernmental transfers as such a source with a Senate amendment thereto, disagree to the Senate amendment, and request a conference with the Senate thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California? The Chair hears none and, without objection, appoints the following conferees: Messrs. DINGELL, WAXMAN, and LENT.

There was no objection.

JUDICIAL NATURALIZATION AMENDMENTS OF 1991

Mr. MAZZOLI. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3049) to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments as follows:

Senate amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—*This Act may be cited as the "Miscellaneous and Technical Immigration and Naturalization Amendments of 1991".*

(b) TABLE OF CONTENTS.—*The table of contents of this Act is as follows:*

Sec. 1. Short title; table of contents.

TITLE I—JUDICIAL NATURALIZATION CEREMONIES AMENDMENTS

Sec. 101. Short title of title.
Sec. 102. Court authority to administer oaths of allegiance for naturalization.

TITLE II—O AND P NONIMMIGRANT AMENDMENTS

Sec. 201. Short title of title.
Sec. 202. Repeal of numerical limitations on P-1 and P-3 nonimmigrants; GAO report.
Sec. 203. Standards for classification of P-1 nonimmigrants.
Sec. 204. Consultation requirement.
Sec. 205. Amendments relating to O nonimmigrants.
Sec. 206. Amendments relating to P nonimmigrants.
Sec. 207. Other amendments.
Sec. 208. Effective date.

TITLE III—MISCELLANEOUS AND TECHNICAL CORRECTIONS

Sec. 301. Short title of title; reference to the Immigration and Nationality Act.
Sec. 302. Corrections relating to title I of the Immigration Act of 1990.

Sec. 304. Corrections relating to title III of the Immigration Act of 1990.
Sec. 305. Corrections relating to title IV of the Immigration Act of 1990.
Sec. 306. Corrections relating to title V of the Immigration Act of 1990.
Sec. 307. Corrections relating to title VI of the Immigration Act of 1990.
Sec. 308. Corrections relating to title VII of the Immigration Act of 1990.
Sec. 309. Additional miscellaneous corrections.
Sec. 310. Effective dates.

TITLE I—JUDICIAL NATURALIZATION CEREMONIES AMENDMENTS

SEC. 101. SHORT TITLE OF TITLE.

This title may be cited as the "Judicial Naturalization Ceremonies Amendments of 1991".

SEC. 102. COURT AUTHORITY TO ADMINISTER OATHS OF ALLEGIANCE FOR NATURALIZATION.

(a) IN GENERAL.—*Subsection (b) of section 310 of the Immigration and Nationality Act (8 U.S.C. 1421), as amended by section 401(a) of the Immigration Act of 1990, is amended to read as follows:*

"(b) COURT AUTHORITY TO ADMINISTER OATHS.—

"(1) JURISDICTION.—*Subject to section 337(c)—*

"(A) GENERAL JURISDICTION.—*Except as provided in subparagraph (B), each applicant for naturalization may choose to have the oath of allegiance under section 337(a) administered by the Attorney General or by an eligible court described in paragraph (5). Each such eligible court shall have authority to administer such oath of allegiance to persons residing within the jurisdiction of the court.*

"(B) EXCLUSIVE AUTHORITY.—*An eligible court described in paragraph (5) that wishes to have exclusive authority to administer the oath of allegiance under section 337(a) to persons residing within the jurisdiction of the court during the period described in paragraph (3)(A)(i) shall notify the Attorney General of such wish and, subject to this subsection, shall have such exclusive authority with respect to such persons during such period.*

"(2) INFORMATION.—

"(A) GENERAL INFORMATION.—*In the case of a court exercising authority under paragraph (1), in accordance with procedures established by the Attorney General—*

"(i) the applicant for naturalization shall notify the Attorney General of the intent to be naturalized before the court, and

"(ii) the Attorney General—

"(I) shall forward to the court (not later than 10 days after the date of approval of an application for naturalization in the case of a court which has provided notice under paragraph (1)(B)) such information as may be necessary to administer the oath of allegiance under section 337(a), and

"(II) shall promptly forward to the court a certificate of naturalization (prepared by the Attorney General).

"(B) ASSIGNMENT OF INDIVIDUALS IN THE CASE OF EXCLUSIVE AUTHORITY.—*If an eligible court has provided notice under paragraph (1)(B), the Attorney General shall inform each person (residing within the jurisdiction of the court), at the time of the approval of the person's application for naturalization, of—*

"(i) the court's exclusive authority to administer the oath of allegiance under section 337(a) to such a person during the period specified in paragraph (3)(A)(i), and

"(ii) the date or dates (if any) under paragraph (3)(B) on which the court has scheduled oath administration ceremonies.

If more than one eligible court in an area has provided notice under paragraph (1)(B), the Attorney General shall permit the person, at the time of the approval, to choose the court to which the information will be forwarded for administration of the oath of allegiance under this section.

"(3) SCOPE OF EXCLUSIVE AUTHORITY.—

"(A) LIMITED PERIOD AND ADVANCE NOTICE REQUIRED.—*The exclusive authority of a court to administer the oath of allegiance under paragraph (1)(B) shall apply with respect to a person—*

"(i) only during the 45-day period beginning on the date on which the Attorney General certifies to the court that an applicant is eligible for naturalization, and

"(ii) only if the court has notified the Attorney General, prior to the date of certification of eligibility, of the day or days (during such 45-day period) on which the court has scheduled oath administration ceremonies.

"(B) AUTHORITY OF ATTORNEY GENERAL.—*Subject to subparagraph (C), the Attorney General shall not administer the oath of allegiance to a person under subsection (a) during the period in which exclusive authority to administer the oath of allegiance may be exercised by an eligible court under this subsection with respect to that person.*

"(C) WAIVER OF EXCLUSIVE AUTHORITY.—*Notwithstanding the previous provisions of this paragraph, a court may waive exclusive authority to administer the oath of allegiance under section 337(a) to a person under this subsection if the Attorney General has not provided the court with the certification described in subparagraph (A)(i) within a reasonable time before the date scheduled by the court for oath administration ceremonies. Upon notification of a court's waiver of jurisdiction, the Attorney General shall promptly notify the applicant.*

"(4) ISSUANCE OF CERTIFICATES.—*The Attorney General shall provide for the issuance of certificates of naturalization at the time of administration of the oath of allegiance.*

"(5) ELIGIBLE COURTS.—*For purposes of this section, the term 'eligible court' means—*

"(A) a District Court of the United States in any State, or

"(B) any court of record in any State having a seal, a clerk, and jurisdiction in actions in law or equity, or law and equity, in which the amount in controversy is unlimited.".

(b) CONFORMING AMENDMENTS.—

(1) FUNCTIONS OF CLERKS.—*Section 339(a) of such Act (8 U.S.C. 1450(a)) is amended —*

(A) by striking paragraph (1) and inserting the following:

"(1) deliver to each person administered the oath of allegiance by the court pursuant to section 337(a) the certificate of naturalization prepared by the Attorney General pursuant to section 310(b)(2)(A)(ii),",

(B) in paragraph (2), by inserting "a list of applicants actually taking the oath at each scheduled ceremony and" after "Attorney General",

(C) by striking paragraph (3),

(D) in paragraph (4), by striking the period at the end and inserting ", and" and by redesignating such paragraph as paragraph (3),

(E) by inserting after paragraph (3), as so redesignated, the following new paragraph:

"(4) be responsible for all blank certificates of naturalization received by them from time to time from the Attorney General and shall account to the Attorney General for them whenever required to do so.", and

(F) by adding at the end the following:

"No certificate of naturalization received by any clerk of court which may be defaced or injured in such manner as to prevent its use as herein provided shall in any case be destroyed,

but such certificates shall be returned to the Attorney General.".

(2) EXPEDITED ADMINISTRATION OF OATH.—Subsection (c) of section 337 of such Act (8 U.S.C. 1448) is amended to read as follows:

"(c) Notwithstanding section 310(b), an individual may be granted an expedited judicial oath administration ceremony or administrative naturalization by the Attorney General upon demonstrating sufficient cause. In determining whether to grant an expedited judicial oath administration ceremony, a court shall consider special circumstances (such as serious illness of the applicant or a member of the applicant's immediate family, permanent disability sufficiently incapacitating as to prevent the applicant's personal appearance at the scheduled ceremony, developmental disability or advanced age, or exigent circumstances relating to travel or employment). If an expedited judicial oath administration ceremony is impracticable, the court shall refer such individual to the Attorney General who may provide for immediate administrative naturalization.".

(3) FEES.—Section 344 of such Act (8 U.S.C. 1455) is amended by adding at the end the following new subsection:

"(f)(1) The Attorney General shall pay over to courts administering oaths of allegiance to persons under this title a specified percentage of all fees described in subsection (a)(1) collected by the Attorney General with respect to persons administered the oath of allegiance by the respective courts. The Attorney General, annually and in consultation with the courts, shall determine the specified percentage based on the proportion, of the total costs incurred by the Service and courts for essential services directly related to the naturalization process, which are incurred by courts.

"(2) The Attorney General shall provide on an annual basis to the Committees on the Judiciary of the House of Representatives and of the Senate a detailed report on the use of the fees described in paragraph (1) and shall consult with such Committees before increasing such fees.".

(c) EFFECTIVE DATE.—The amendments made by this title shall take effect 30 days after the date of the enactment of this Act.

TITLE II—O AND P NONIMMIGRANT AMENDMENTS

SEC. 201. SHORT TITLE OF TITLE.

This title may be cited as the "O and P Nonimmigrant Amendments of 1991".

SEC. 202. REPEAL OF NUMERICAL LIMITATIONS ON P-1 AND P-3 NONIMMIGRANTS; GAO REPORT.

(a) IN GENERAL.—Section 214(g)(1) of the Immigration and Nationality Act (8 U.S.C. 1184(g)(1)), as added by section 205(a) of the Immigration Act of 1990, is amended—

(1) by adding "or" at the end of subparagraph (A),

(2) by striking ", or" at the end of subparagraph (B) and inserting a period, and

(3) by striking subparagraph (C).

(b) REPORT.—(1) By not later than October 1, 1994, the Comptroller General of the United States shall submit to the Committees on the Judiciary of the Senate and of the House of Representatives a report containing information relating to the admission of artists, entertainers, athletes, and related support personnel as nonimmigrants under subparagraphs (O) and (P) of section 101(a)(15) of the Immigration and Nationality Act, and information on the laws, regulations, and practices in effect in other countries that affect United States citizens and permanent resident aliens in the arts, entertainment, and athletics, in order to evaluate the impact of such admissions, laws, regulations, and practices on such citizens and aliens.

(2) Not later than 30 days after the date the Committee of the Judiciary on the Senate receives the report under paragraph (1), the Chairman of the Committee shall make the report available to interested parties and shall hold a hearing respecting the report. No later than 90 days after the date of receipt of the report, such Committee shall report to the Senate its findings and any legislation it deems appropriate.

SEC. 203. STANDARDS FOR CLASSIFICATION OF P-1 NONIMMIGRANTS.

(a) SUBSTITUTION OF NEW STANDARDS.—Clause (i) of section 101(a)(15)(P) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended to read as follows:

"(i)(a) is described in section 214(c)(4)(A) (relating to athletes), or (b) is described in section 214(c)(4)(B) (relating to entertainment groups);".

(b) NEW STANDARDS.—Section 214(c)(4) of such Act, as added by section 207(b)(2)(B) of the Immigration Act of 1990, is amended by redesignating subparagraphs (A) through (C) as subparagraphs (C) through (E) and by inserting before subparagraph (C), as so redesignated, the following new subparagraphs:

"(A) For purposes of section 101(a)(15)(P)(i)(a), an alien is described in this subparagraph if the alien—

"(i) performs as an athlete, individually or as part of a group or team, at an internationally recognized level of performance, and

"(ii) seeks to enter the United States temporarily and solely for the purpose of performing as such an athlete with respect to a specific athletic competition.

"(B)(i) For purposes of section 101(a)(15)(P)(i)(b), an alien is described in this subparagraph if the alien—

"(I) performs with or is an integral and essential part of the performance of an entertainment group that has (except as provided in clause (ii)) been recognized internationally as being outstanding in the discipline for a sustained and substantial period of time,

"(II) in the case of a performer or entertainer, except as provided in clause (iii), has had a sustained and substantial relationship with that group (ordinarily for at least one year) and provides functions integral to the performance of the group, and

"(III) seeks to enter the United States temporarily and solely for the purpose of performing as such a performer or entertainer or as an integral and essential part of a performance.

"(ii) In the case of an entertainment group that is recognized nationally as being outstanding in its discipline for a sustained and substantial period of time, the Attorney General may, in consideration of special circumstances, waive the international recognition requirement of clause (i)(I).

"(iii)(I) The one-year relationship requirement of clause (i)(II) shall not apply to 25 percent of the performers and entertainers in a group.

"(II) The Attorney General may waive such one-year relationship requirement for an alien who because of illness or unanticipated and exigent circumstances replaces an essential member of the group and for an alien who augments the group by performing a critical role.

"(iv) The requirements of subclauses (I) and (II) of clause (i) shall not apply to alien circus personnel who perform as part of a circus or circus group or who constitute an integral and essential part of the performance of such circus or circus group, but only if such personnel are entering the United States to join a circus that has been recognized nationally as outstanding for a sustained and substantial period of time or as part of such a circus.".

SEC. 204. CONSULTATION REQUIREMENT.

Section 214(c) of the Immigration and Nationality Act, as amended by section 207(b)(2) of the Immigration Act of 1990, is amended—

(1) in paragraph (3)(A), by striking "after consultation with peer groups in the area of the alien's ability" and inserting "after consultation in accordance with paragraph (6)",

(2) in paragraph (3)(B), by striking "'after consultation with labor organizations with expertise in the skill area involved" and inserting "after consultation in accordance with paragraph (6) or, in the case of such an alien seeking entry for a motion picture or television production, after consultation with such a labor organization and a management organization in the area of the alien's ability",

(3) in paragraph (4)(C), as redesignated by section 203(b), by striking "clause (ii) of",

(4) in paragraph (4)(D), as redesignated by section 203(b), by striking "after consultation with labor organizations with expertise in the specific field of athletics or entertainment involved" and inserting "after consultation in accordance with paragraph (6)",

(5) by redesignating paragraph (6) as paragraph (7), and

(6) by inserting after paragraph (5) the following new paragraph:

"(6)(A)(i) To meet the consultation requirement of paragraph (3)(A) in the case of a petition for a nonimmigrant described in section 101(a)(15)(O)(i) (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a peer group (or other person or persons of its choosing, which may include a labor organization) with expertise in the specific field involved.

"(ii) To meet the consultation requirement of paragraph (3)(B) in the case of a petition for a nonimmigrant described in section 101(a)(15)(O)(ii) (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the skill area involved.

"(iii) To meet the consultation requirement of paragraph (4)(D) in the case of a petition for a nonimmigrant described in section 101(a)(15)(P)(i) or 101(a)(15)(P)(iii), the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the specific field of athletics or entertainment involved.

"(B) To meet the consultation requirements of subparagraph (A), unless the petitioner submits with the petition an advisory opinion from an appropriate labor organization, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization within 5 days of the date of receipt of the petition. If there is a collective bargaining representative of an employer's employees in the occupational classification for which the alien is being sought, that representative shall be the appropriate labor organization.

"(C) In those cases in which a petitioner described in subparagraph (A) establishes that an appropriate peer group (including a labor organization) does not exist, the Attorney General shall adjudicate the petition without requiring an advisory opinion.

"(D) Any person or organization receiving a copy of a petition described in subparagraph (A) and supporting documents shall have no more than 15 days following the date of receipt of such documents within which to submit a written advisory opinion or comment or to provide a letter of no objection. Once the 15-day period has expired and the petitioner has had an opportunity, where appropriate, to supply rebuttal evidence, the Attorney General shall adjudicate such petition in no more than 14 days. The Attorney General may shorten any specified time

period for emergency reasons if no unreasonable burden would be thus imposed on any participant in the process.

"(E)(i) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant artists or entertainers described in section 101(a)(15)(O) or 101(a)(15)(P) to accommodate the exigencies and scheduling of a given production or event.

"(ii) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant athletes described in section 101(a)(15)(O)(i) or 101(a)(15)(P)(i) in the case of emergency circumstances (including trades during a season).

"(F) No consultation required under this subsection by the Attorney General with a nongovernmental entity shall be construed as permitting the Attorney General to delegate any authority under this subsection to such an entity. The Attorney General shall give such weight to advisory opinions provided under this section as the Attorney General determines, in his sole discretion, to be appropriate.".

SEC. 205. AMENDMENTS RELATING TO O NONIMMIGRANTS.

(a) Definition of Extraordinary Ability in the Arts for O Nonimmigrants.—Section 101(a) of the Immigration and Nationality Act, as amended by sections 123 and 204(c) of the Immigration Act of 1990, is amended by adding at the end the following new paragraph:

"(46) The term 'extraordinary ability' means, for purposes of section 101(a)(15)(O)(i), in the case of the arts, distinction.".

(b) Eliminating Additional Paperwork Requirement for O–1's.—Section 101(a)(15)(O)(i) of the Immigration and Nationality Act, as amended by section 207(a)(3) of the Immigration Act of 1990, is amended by striking ", but only" and all that follows up to the semicolon at the end.

(c) Clarification of Significant Photography for O–2s.—Section 101(a)(15)(O)(ii)(III)(b) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by striking "significant principal photography" and inserting "significant production (including pre- and post-production work)".

(d) Clarification of Multiple Events for Visas for O Nonimmigrants.—Section 214(a)(2)(A) of the Immigration and Nationality Act, as added by section 207(b)(1) of the Immigration Act of 1990, is amended by inserting "(or events)" after "event".

(e) Consultation With Respect to Readmitted O–1 Nonimmigrants.—Section 214(c)(3) of the Immigration and Nationality Act, as added by section 207(b)(2)(B) of the Immigration Act of 1990, is amended by adding at the end the following: "The Attorney General shall provide by regulation for the waiver of the consultation requirement under subparagraph (A) in the case of aliens who have been admitted as nonimmigrants under section 101(a)(15)(O)(i) because of extraordinary ability in the arts and who seek readmission to perform similar services within 2 years after the date of a consultation under such subparagraph. Not later than 5 days after the date such a waiver is provided, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization.".

SEC. 206. AMENDMENTS RELATING TO P NONIMMIGRANTS.

(a) Eliminating 3-Month Out-of-Country Rule for P–2 and P–3 Nonimmigrants.—Section 214(a)(2)(B) of the Immigration and Nationality Act, as added by section 207(b)(1) of the Immigration Act of 1990, is amended—

(1) by striking "(B)(i)" and inserting "(B)", and

(2) by striking clause (ii).

(b) Treatment of Foreign Organizations for P–2 Nonimmigrants.—Section 101(a)(15)(P)(ii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by inserting "or organizations" after "and an organization".

(c) Treatment of P–2 Nonimmigrants.—(1) Section 101(a)(15)(P)(ii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by striking ", between the United States and the foreign states involved".

(2) Section 214(c)(4)(E) of the Immigration and Nationality Act, as added by 207(b)(2)(B) of the Immigration Act of 1990 and as redesignated by section 203(b) of this title, is amended by striking ", in order to assure reciprocity in fact with foreign states".

(d) Performance of Teaching and Coaching Functions by P–3 Nonimmigrants.—Section 101(a)(15)(P)(iii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended—

(1) by striking "for the purpose of performing" and inserting "to perform, teach, or coach", and

(2) by inserting "commercial or noncommercial" before "program".

SEC. 207. OTHER AMENDMENTS.

(a) Return Transportation Requirement for O and P Nonimmigrants.—Section 214(c)(5) of the Immigration and Nationality Act, as added by section 207(b)(2) of the Immigration Act of 1990, is amended by inserting "(A)" after "(5)" and by adding at the end the following new subparagraph:

"(B) In the case of an alien who enters the United States in nonimmigrant status under section 101(a)(15)(O) or 101(a)(15)(P) and whose employment terminates for reasons other than voluntary resignation, the employer whose offer of employment formed the basis of such nonimmigrant status and the petitioner are jointly and severally liable for the reasonable cost of return transportation of the alien abroad. The petitioner shall provide assurance satisfactory to the Attorney General that the reasonable cost of that transportation will be provided.".

(b) Entry of Fashion Models Under H–1B.—Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, as amended by section 205(c)(1) of the Immigration Act of 1990, is amended—

(1) by inserting "or as a fashion model" after "214(i)(1)", and

(2) by inserting "or, in the case of a fashion model, is of distinguished merit and ability" after "214(i)(2)".

(c) Annual Report.—

(1) In general.—Section 214(c) of the Immigration and Nationality Act (8 U.S.C. 1184(c)(3)), as amended by section 207(b)(2) of the Immigration Act of 1990 and by section 204 of this title, is amended by adding at the end the following new paragraph:

"(8) The Attorney General shall submit annually to the Committees on the Judiciary of the House of Representatives and of the Senate a report describing, with respect to petitions under each subcategory of subparagraphs (H), (O), (P), and (Q) of section 101(a)(15) the following:

"(A) The number of such petitions which have been filed.

"(B) The number of such petitions which have been approved and the number of workers (by occupation) included in such approved petitions.

"(C) The number of such petitions which have been denied and the number of workers (by occupation) requested in such denied petitions.

"(D) The number of such petitions which have been withdrawn.

"(E) The number of such petitions which are awaiting final action.".

(2) Deadline for first report.—The first report under section 214(c)(8) of the Immigration and Nationality Act shall be provided not later than April 1, 1993.

SEC. 208. EFFECTIVE DATE.

The provisions of, and amendments made by, this title shall take effect on April 1, 1992.

TITLE III—MISCELLANEOUS AND TECHNICAL CORRECTIONS

SEC. 301. SHORT TITLE OF TITLE; REFERENCE TO THE IMMIGRATION AND NATIONALITY ACT.

(a) This title may be cited as the "Immigration Technical Corrections Act of 1991".

(b) In this title, the term "INA" means the Immigration and Nationality Act.

SEC. 302. CORRECTIONS RELATING TO TITLE I OF THE IMMIGRATION ACT OF 1990.

(a)(1) Section 201 of the INA, as amended by section 101(a) of the Immigration Act of 1990, is amended—

(A) in subsection (c)(3), by striking "(3) The number computed under this paragraph for a fiscal year" and inserting the following:

"(3)(A) The number computed under this paragraph for fiscal year 1992 is zero.

"(B) The number computed under this paragraph for fiscal year 1993 is the difference (if any) between the worldwide level established under paragraph (1) for the previous fiscal year and the number of visas issued under section 203(a) during that fiscal year.

"(C) The number computed under this paragraph for a subsequent fiscal year"; and

(B) in subsection (d)(2), by striking "(2) The number computed under this paragraph for a fiscal year" and inserting the following:

"(2)(A) The number computed under this paragraph for fiscal year 1992 is zero.

"(B) The number computed under this paragraph for fiscal year 1993 is the difference (if any) between the worldwide level established under paragraph (1) for the previous fiscal year and the number of visas issued under section 203(b) during that fiscal year.

"(C) The number computed under this paragraph for a subsequent fiscal year".

(2) Section 101 of the Immigration Act of 1990 is amended by adding at the end the following new subsection:

"(c) Transition.—In applying the second sentence of section 201(b)(2)(A)(i) of the Immigration and Nationality Act (as amended by subsection (a)) in the case of a alien whose citizen spouse died before the date of the enactment of this Act, notwithstanding the deadline specified in such sentence the alien spouse may file the classification petition referred to in such sentence within 2 years after the date of the enactment of this Act.".

(3) Section 202(a)(4)(A) of the INA, as amended by section 102(1) of the Immigration Act of 1990, is amended by striking "MINIMUM".

(b)(1) Section 112 of the Immigration Act of 1990 is amended—

(A) in subsection (c), by striking "temporary or" before paragraph (1), and

(B) by adding at the end the following:

"(d) Definitions.—The definitions in the Immigration and Nationality Act shall apply in the administration of this section.".

(2) Section 203(b) of the INA, as inserted by section 121(a) of the Immigration Act of 1990, is amended—

(A) in paragraphs (1), (2), and (3), by striking "40,000" and inserting "28.6 percent of such worldwide level" each place it appears,

(B) in paragraph (1)(C), by striking "who seeks" and inserting "the alien seeks",

(C) in paragraphs (4) and (5), by striking "10,000" and inserting "7.1 percent of such worldwide level" each place it appears, and

(D) in paragraph (2)(B), by inserting "professions," after "arts,".

(3) Section 216A of the INA, as inserted by section 121(b)(1) of the Immigration Act of 1990, is amended—

(A) in subsection (c)(2)(A), by inserting "(and the alien's spouse and children if it was obtained on a conditional basis under this section or section 216)" after "status of the alien", and

(B) in subsections (c)(3)(B) and (d)(2)(A), by striking "obtaining the status of".

(4) Section 121(b)(2) of the Immigration Act of 1990 is amended by striking "exclusion" and inserting "deportation".

(5) Section 124(a) of the Immigration Act of 1990 is amended—

(A) in paragraph (1)—

(i) by inserting "(or paragraph (2) as the spouse or child of such an alien)" after "paragraph (3)", and

(ii) by adding at the end the following new sentence: "If the full number of such visas are not made available in fiscal year 1991 or 1992, the shortfall shall be added to the number of such visas to be made available under this section in the succeeding fiscal year."; and

(B) in paragraph (3)(A), by striking "(and has been so employed during the 12 previous, consecutive months)" and inserting "except for temporary absences at the request of the employer and has been employed in Hong Kong for at least 12 consecutive months".

(6) Section 132 of the Immigration Act of 1990 is amended—

(A) in subsection (a), by inserting "(or in subsection (d) as the spouse or child of such an alien)" after "subsection (b)";

(B) in subsection (a), by adding at the end the following new sentence: "If the full number of such visas are not made available in fiscal year 1992 or 1993, the shortfall shall be added to the number of such visas to be made available under this section in the succeeding fiscal year.";

(C) in subsection (b)(1), effective after fiscal year 1992, by striking "that is not contiguous to the United States and";

(D) in subsection (c)—

(i) effective beginning with fiscal year 1993, by striking "in the chronological order in which aliens apply for each fiscal year" and inserting "strictly in a random order among those who qualify during the application period for each fiscal year established by the Secretary of State",

(ii) by inserting before the period at the end the following: "and except that if more than one application is submitted for any fiscal year (beginning with fiscal year 1993) with respect to any alien all such applications submitted with respect to the alien and fiscal year shall be voided", and

(iii) by adding at the end the following: "If the minimum number of such visas are not made available in fiscal year 1992 or 1993 to such natives, the shortfall shall be added to the number of such visas to be made available under this section to such natives in the succeeding fiscal year. In applying this section, natives of Northern Ireland shall be deemed to be natives of Ireland."; and

(E) in subsection (e)—

(i) by striking "the grounds" and all that follows through "shall not apply, and",

(ii) by striking "of such section" and inserting "of section 212(a) of the Immigration and Nationality Act", and

(iii) by adding at the end the following: "In addition, the provisions of section 212(e) of such Act shall not apply so as to prevent an individual's application for a visa or admission under this section.".

(7) Section 134(a) of the Immigration Act of 1990 is amended by inserting "(or in subsection (d) as the spouse or child of such an alien)" after "subsection (b)".

(c)(1) Section 141 of the Immigration Act of 1990 is amended—

(A) in the heading, by striking "legal",

(B) in subsection (a), by striking "Legal",

(C) in subsection (a)(1)(B), by striking "of the Subcommittee" and all that follows through "International Law", and

(D) by adding at the end the following new subsection:

"(i) PRESIDENTIAL REPORT.—The President shall conduct a review and evaluation and provide for the transmittal of reports to the Congress in the same manner as the Commission is required to conduct a review and evaluation and to transmit reports under subsection (b).".

(2) The item in the table of contents of such Act relating to section 141 is amended to read as follows:

"Sec. 141. Commission on Immigration Reform.".

(d)(1) Section 152(b)(1)(A) of the Immigration Act of 1990 is amended by striking "who has performed faithful service" and inserting "and has performed faithful service as such an employee".

(2) Section 245 of the INA, as amended by section 2(c) of the Armed Forces Immigration Adjustment Act of 1991, is amended—

(A) in subsection (c)(2), by inserting "(J)," after "(I),", and

(B) by adding at the end the following new subsection:

"(h) In applying this section to a special immigrant described in section 101(a)(27)(J)—

"(1) such an immigrant shall be deemed, for purposes of subsection (a), to have been paroled into the United States; and

"(2) in determining the alien's admissibility as an immigrant—

"(A) paragraphs (4), (5)(A), and (7)(A) of section 212(a) shall not apply, and

"(B) the Attorney General may waive other paragraphs of section 212(a) (other than paragraphs (2)(A), (2)(B), (2)(C) (except for so much of such paragraph as related to a single offense of simple possession of 30 grams or less of marijuana), (3)(A), (3)(B), (3)(C), or (3)(E)) in the case of individual aliens for humanitarian purposes, family unity, or when it is otherwise in the public interest.

The relationship between an alien and the alien's natural parents or prior adoptive parents shall not be considered a factor in making a waiver under paragraph (2)(B). Nothing in this subsection or section 101(a)(27)(J) shall be construed as authorizing an alien to apply for admission or be admitted to the United States in order to obtain special immigrant status described in such section.".

(3) Section 241(h) of the INA, as amended by section 153(b) of the Immigration Act of 1990, is amended by striking the comma after "(3)(A)".

(4) Section 154 of the Immigration Act of 1990 is amended—

(A) in subsection (b)(1)(A), by inserting "or China" after "Hong Kong",

(B) in subsection (b)(1)(B)(i), by inserting "of" after "of section 203(a)", and

(C) by striking paragraph (3) of subsection (c).

(5) Section 155 of the Immigration Act of 1990 is amended—

(A) in subsection (a), by inserting "(or section 203(e), in the case of fiscal year 1992)" after "203(c)", and

(B) in subsection (b), by striking "or the child" and inserting "or who are the spouse or child".

(e)(1) Section 161(a) of the Immigration Act of 1990 is amended by striking "in this section," and inserting "in this title, this title and".

(2) Section 161(c)(1) of the Immigration Act of 1990 is amended—

(A) by inserting "or an application for labor certification before such date under section 212(a)(14)" after "before such date)",

(B) in subparagraph (A), by inserting "or application" after "such a petition",

(C) in subparagraph (A), by inserting ", or 60 days after the date of certification in the case of labor certifications filed in support of the petition under section 212(a)(14) of such Act before October 1, 1991, but not certified until after October 1, 1993" after "(by not later than October 1, 1993", and

(D) by adding at the end the following new sentence:

"In the case of a petition filed under section 204(a) of such Act before October 1, 1991, but which is not described in paragraph (4), and for which a filing fee was paid, any additional filing fee shall not exceed one-half of the fee for the filing of the new petition referred to in subparagraph (A).".

(3) Section 203(f) of the INA, as inserted by section 162(a) of the Immigration Act of 1990, is amended—

(A) by striking "PRESUMPTION.—" and all that follows through "so described." and inserting "AUTHORIZATION FOR ISSUANCE.—", and

(B) by striking "201(b)(1) or in subsection (a) or (b)" and inserting "201(b)(2) or in subsection (a), (b), or (c)".

(4) Section 204(a)(1) of the INA, as amended by section 162(b) of the Immigration Act of 1990, is amended—

(A) in subparagraph (A), by adding at the end the following: "An alien described in the second sentence of section 201(b)(2)(A)(i) also may file a petition with the Attorney General under this subparagraph for classification under such section.",

(B) in subparagraph (F), by striking "Secretary of State" and inserting "Attorney General", and

(C) in subparagraph (G)(iii), by striking "or registration".

(5) Section 204(e) of the INA, as amended by section 162(b)(3) of the Immigration Act of 1990, is amended by striking "a immigrant" and inserting "an immigrant".

(6) Paragraph (1) of section 162(e) of the Immigration Act of 1990 is repealed, and the provisions of law amended by such paragraph are restored as though such paragraph had not been enacted.

(7) Section 245(b) of the INA, as amended by section 162(e)(3) of the Immigration Act of 1990, is amended—

(A) by striking "201(a)" and inserting "202 and 203", and

(B) by striking "for the succeeding fiscal year" and inserting "for the fiscal year then current".

(8) Effective as if included in section 162(e) of the Immigration Act of 1990—

(A) clauses (ii)(II) and (iii)(II) of section 101(a)(27)(I) of the INA are amended by striking "applies for a visa or adjustment of status" and inserting "files a petition for status",

(B) section 216(g)(1) of the INA is amended by striking "203(a)(8)" and inserting "203(d)"; and

(C) section 221(a) of the INA is amended by striking "nonpreference,".

(9) Effective as if included in the Immigration Nursing Relief Act of 1989, section 212(m)(2)(A) of the INA is amended, by inserting after the first sentence following clause (vi) the following: "Notwithstanding the previous sentence, a facility that lays off a registered nurse other than a staff nurse still meets clause (i) if, in its attestation under this subparagraph, the facility has attested that it will not replace the nurse with a nonimmigrant described in section 101(a)(15)(H)(i)(a) (either through promotion or otherwise) for a period of 1 year after the date of the lay off.".

(10) Effective as if included in the Immigration Nursing Relief Act of 1989, as amended by section 162(f)(1)(B) of the Immigration Act of

1990, section 2(b) of the Immigration Nursing Relief Act of 1989 is amended by inserting after "registered nurse," the following: "who, as of September 1, 1989, is present in the United States and had been admitted to the United States in the status of nonimmigrant under section 101(a)(15)(H)(i) of such Act to perform services as a registered nurse but has failed to maintain that status due to the expiration of the time limitation with respect to such status,".

SEC. 303. CORRECTIONS RELATING TO TITLE II OF THE IMMIGRATION ACT OF 1990.

(a)(1) Section 217 of the INA, as amended by section 201(a) of the Immigration Act of 1990, is amended—

(A) in subsection (a)(4), by striking "BY SEA OR AIR" and inserting "INTO THE UNITED STATES", and

(B) in the heading of subsection (b), by striking "RIGHTS" and inserting "RIGHTS".

(2) Section 217(e)(1) of the INA, as redesignated by section 201(a)(7) of the Immigration Act of 1990, is amended by striking "(a)(4)(C)" and inserting "(a)(4)".

(3) The second sentence of section 251(d) of the INA, as inserted by section 203(b)(2) of the Immigration Act of 1990, is amended by striking "charterer" and inserting "consignee".

(4) Section 258(c)(2)(B) of the INA, as inserted by section 203(a)(1) of the Immigration Act of 1990, is amended by striking "each such list" and inserting "each list".

(5)(A) Section 101(a)(15)(H)(i)(b) of the INA, as amended by section 205(c)(1) of the Immigration Act of 1990, is amended by inserting "subject to section 212(j)(2)," after "(b)".

(B) Section 212(j) of the INA is amended by striking paragraph (2) and inserting the following:

"(2) An alien who is a graduate of a medical school and who is coming to the United States to perform services as a member of the medical profession may not be admitted as a nonimmigrant under section 101(a)(15)(H)(i)(b) unless—

"(A) the alien is coming pursuant to an invitation from a public or nonprofit private educational or research institution or agency in the United States to teach or conduct research, or both, at or for such institution or agency, or

"(B)(i) the alien has passed the Federation licensing examination (administered by the Federation of State Medical Boards of the United States) or an equivalent examination as determined by the Secretary of Health and Human Services, and

"(ii)(I) has competency in oral and written English or (II) is a graduate of a school of medicine which is accredited by a body or bodies approved for the purpose by the Secretary of Education (regardless of whether such school of medicine is in the United States).".

(6) Section 212(n)(1)(A)(ii) of the INA, as added by section 205(c)(3) of the Immigration Act of 1990, is amended by striking "for such aliens" and inserting "for such a nonimmigrant".

(7)(A) Section 101(a)(15)(H)(i) of the INA, as amended by section 205(c)(1) of the Immigration Act of 1990, is amended by striking ", and had approved by,".

(B) Section 212(n) of the INA, as added by section 205(c)(3) of the Immigration Act of 1990, is amended—

(i) in paragraph (1)(A)—

(I) by striking "and to other individuals employed in the occupational classification and in the area of employment" and inserting "admitted or provided status as a nonimmigrant described in section 101(a)(15)(H)(i)(b)",

(II) by amending subclause (I) to read as follows:

"(I) the actual wage level paid by the employer to all other individuals with similar experience and qualifications for the specific employment in question, or",

(III) after subclause (II), by striking "determined" and inserting "based on the best information available";

(ii) in paragraph (1)(D), by striking "(and accompanying documentation)" and inserting "(and such accompanying documents as are necessary)";

(iii) in paragraph (1), by moving the matter after the first sentence of subparagraph (D) flush with the left margin and by adding at the end the following:

"The Secretary of Labor shall review such an application only for completeness and obvious inaccuracies. Unless the Secretary finds that the application is incomplete or obviously inaccurate, the Secretary shall provide the certification described in section 101(a)(15)(H)(i)(b) within 7 days of the date of the filing of the application.";

(iv) in paragraph (2)(C), by striking "(or a substantial failure" and all that follows through "misrepresentation" and inserting "of paragraph (1)(B), a substantial failure to meet a condition of paragraphs (1)(C) or (1)(D), a willful failure to meet a condition of paragraph (1)(A), or a misrepresentation";

(v) in paragraph (2)(D), by striking "In addition to the sanctions provided under subparagraph (C), if" and inserting "If"; and

(vi) in paragraph (2)(D), by inserting before the period at the end the following: ", whether or not a penalty under subparagraph (C) has been imposed".

(8) The Secretary of Labor shall issue final or interim final regulations to implement the changes made by this section to section 101(a)(15)(H)(i)(b) and section 212(n) of the Immigration and Nationality Act no later than January 2, 1992.

(9) Section 206(a) of the Immigration Act of 1990 is amended by inserting "and section 124(a)(3)(A) of this Act" after "Immigration and Nationality Act".

(10) Section 214(c)(2) of the INA, as added by section 206(b)(2) of the Immigration Act of 1990, is amended—

(A) in subparagraph (A), by striking "individuals petitions" and inserting "individual petitions", and

(B) in subparagraph (D)(ii), by striking "involved" and inserting "involves".

(11) Section 214(a)(2)(A) of the INA, as added by section 207(b)(1) of the Immigration Act of 1990, is amended by striking "under section 101(a)(15)(O)" and inserting "described in section 101(a)(15)(O)".

(12) Section 214(c)(5) of the INA, as added by section 207(b)(2)(B) of the Immigration Act of 1990, is amended by striking "101(H)(ii)(b)" and inserting "101(a)(15)(H)(ii)(b)".

(13) Section 207(c) of the Immigration Act of 1990 is amended by inserting "of the Immigration and Nationality Act" after "101(a)(15)(H)(ii)(a)" each place it appears.

(14) Section 101(a)(15)(Q) of the INA, as added by section 208(3) of the Immigration Act of 1990, is amended by striking "designated" and inserting "approved".

(b)(1) Section 221(a) of the Immigration Act of 1990 is amended—

(A) in the matter before paragraph (1), by striking "in a position unrelated to the alien's field of study and", and

(B) in paragraph (1), by inserting "academic" before "year".

(2) Section 221(b) of the Immigration Act of 1990 is amended—

(A) by inserting "and the Secretary of Labor" after "the Commissioner of the Immigration and Naturalization", and

(B) by inserting "a report" after "to the Congress".

(3) Section 222(a) of the Immigration Act of 1990 is amended by striking "Subject to the succeeding provisions of this section" and inserting "Subject to subsection (b)".

(4) Section 223(a) of the Immigration Act of 1990 is amended—

(A) by striking the period at the end of paragraph (2) and inserting a comma, and

(B) by adding at the end the following:

"or who is the spouse or minor child of such an alien if accompanying or following to join the alien.".

SEC. 304. CORRECTIONS RELATING TO TITLE III OF THE IMMIGRATION ACT OF 1990.

(a) Section 302(c) of the Immigration Act of 1990 is amended by striking "AFFECT", "supercede", and "affect" and inserting "EFFECT", "supersede", and "effect", respectively.

(b) Section 244A of the INA, as inserted by section 302(a) of the Immigration Act of 1990, is amended—

(1) in subsection (a)(1), by inserting after "designated under subsection (b)" the following: "(or in the case of an alien having no nationality, is a person who last habitually resided in such designated state)",

(2) in paragraph (1)(B), by adding at the end the following: "In the case of aliens registered pursuant to a designation under this section made after July 17, 1991, the Attorney General may impose a separate, additional fee for providing an alien with documentation of work authorization. Notwithstanding section 3302 of title 31, United States Code, all fees collected under this subparagraph shall be credited to the appropriation to be used in carrying out this section.", and

(3) in subsection (c)(1)(A), by inserting after "designated under subsection (b)(1)" the following: "(or in the case of an alien having no nationality, is a person who last habitually resided in such designated state)".

(c)(1) In the case of an alien described in paragraph (2) whom the Attorney General authorizes to travel abroad temporarily and who returns to the United States in accordance with such authorization—

(A) the alien shall be inspected and admitted in the same immigration status the alien had at the time of departure if—

(i) in the case of an alien described in paragraph (2)(A), the alien is found not to be excludable on a ground of exclusion referred to in section 301(a)(1) of the Immigration Act of 1990, or

(ii) in the case of an alien described in paragraph (2)(B), the alien is found not to be excludable on a ground of exclusion referred to in section 244A(c)(2)(A)(iii) of the Immigration and Nationality Act; and

(B) the alien shall not be considered, by reason of such authorized departure, to have failed to maintain continuous physical presence in the United States for purposes of section 244(a) of the Immigration and Nationality Act if the absence meets the requirements of section 244(b)(2) of such Act.

(2) Aliens described in this paragraph are the following:

(A) Aliens provided benefits under section 301 of the Immigration Act of 1990 (relating to family unity).

(B) Aliens provided temporary protected status under section 244A of the Immigration and Nationality Act, including aliens provided such status under section 303 of the Immigration Act of 1990.

SEC. 305. CORRECTIONS RELATING TO TITLE IV OF THE IMMIGRATION ACT OF 1990.

(a) Section 310(b) of the INA, as amended by section 401(a) of the Immigration Act of 1990, is amended by striking "District Court" and inserting "district court".

(A) by indenting the paragraph (and its subparagraphs) 2 ems to the right;

(B) by striking "the Immigration and Naturalization Service (INS) pursuant to section 210(d) of the Immigration and Nationality Act (INA)" and inserting "Service pursuant to this subsection";

(C) in the matter before subparagraph (A), by striking "INS" each place it appears and inserting "Service";

(D) in subparagraph (A), by striking "as defined in section 210(a)(1)(A) of the INA the INS" and inserting "described in subsection (a)(1)(A) the Service";

(E) in subparagraph (A), by striking "in the INA" and inserting "in this Act";

(F) in subparagraph (B), by striking "as defined in section 210(a)(1)(B)(1)(B) of the INA" and inserting "described in subsection (a)(1)(A)"; and

(G) in subparagraph (B), by striking "section 210(b)(1)(A)" and inserting "subsection (b)(1)(A)".

(7) Section 212(j) of the INA is amended by striking "International Communication Agency" in paragraphs (1)(D) and (3) and inserting "United States Information Agency".

(8) Section 218(i)(1) of the INA is amended by striking "274A(g)" and inserting "274A(h)(3)".

(9) Section 242(h) of the INA is amended by inserting a comma after "Parole".

(10) Section 242A(a) of the INA is amended by striking "101(a)(43)" and inserting "101(a)(43))".

(11) Section 274A(b)(1)(D)(ii) of the INA is amended by striking "clause (ii)" and inserting "clause (i)".

(12) Section 286(e)(1)(D) of the INA is amended by striking "of this title".

(13) Section 313(a)(2) of the INA is amended by inserting "and" before "(F)" and by striking "; (G)" and all that follows through "of 1950" the second place it appears.

(14) Section 344(c) of the INA, as redesignated by section 407(d)(19)(F) of the Immigration Act of 1990, is amended by striking "of this subchapter" and inserting "of this title".

(15) The amendments made by section 8 of the Immigration Technical Corrections Act of 1988 shall be effective as if included in the enactment of the Immigration and Nationality Act Amendments of 1986 (Public Law 99–653).

SEC. 310. EFFECTIVE DATES.

Except as otherwise specifically provided, the amendments made by (and provisions of)—

(1) sections 302 through 308 shall take effect as if included in the enactment of the Immigration Act of 1990,

(2) section 309(a) shall be effective with respect to allotments for fiscal years beginning with fiscal year 1989, and

(3) section 309(c) shall take effect on the date of the enactment of this Act.

Amend the title to read as follows: "An Act to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, to revise provisions relating to O and P nonimmigrants, and to make certain technical corrections relating to the immigration laws.".

Mr. MAZZOLI (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Kentucky?

Mr. FISH. Mr. Speaker, reserving the right to object, I do so solely for the purpose of asking the chairman of the subcommittee if he would explain the measure.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. FISH. Mr. Speaker, I yield to the gentleman from Kentucky.

Mr. MAZZOLI. I thank the gentleman for yielding.

Mr. Speaker, the Senate amendment to H.R. 3049 is extremely meritorious and deserves the House's support.

The House passed H.R. 3049 by voice vote on November 12. The measure, as passed by the House, is quite simple: It restores to our Federal and State courts the authority to conduct naturalization ceremonies for new citizens.

The Senate amendment to H.R. 3049 incorporates the House-passed bill nearly verbatim. The Senate amendment differs only in that it tightens the language of the House bill to ensure that those courts that conduct naturalization ceremonies are fully reimbursed for their costs by the Immigration Service, but will not in fact make a profit. The Judicial Conference of the United States strongly supports this amendment.

The Senate amendment also includes a provision to ensure that if a court is unable to conduct a naturalization ceremony it has scheduled, notification will be given promptly to those applicants who would be affected.

Beyond that, the Senate amendment includes, without change, the text of H.R. 3048, a measure that passed yesterday. That measure relaxes the entry requirements for certain types of foreign artists, athletes, and entertainers.

In addition, the Senate amendment includes, with minor changes, the text of H.R. 3670, which is also a measure the House passed yesterday. That bill makes a series of technical amendments to the Immigration and Naturalization Act.

Mr. FISH. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. It there objection to the initial request of the gentleman from Kentucky?

There was no objection.

A motion to reconsider was laid on the table.

AUTHORIZING THE PRESIDENT TO APPOINT MAJ. GEN. JERRY RALPH CURRY TO OFFICE OF ADMINISTRATOR OF THE FEDERAL AVIATION ADMINISTRATION

Mr. OBERSTAR. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2098) to authorize the President to appoint Maj. Gen. Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

Mr. CLINGER. Mr. Speaker, reserving the right to object, and I will not object, I do so for the purpose of inquiring of the chairman of the subcommittee the purpose of this legislation.

Mr. OBERSTAR. Mr. Speaker, will the gentleman yield?

Mr. CLINGER. I yield to the gentleman from Minnesota.

Mr. OBERSTAR. I thank the gentleman for yielding.

Mr. Speaker, the legislation now before us would allow Maj. Gen. Jerry Ralph Curry to serve as Administrator of the Federal Aviation Administration while remaining on the retired list of the U.S. Army.

The legislation is necessary because of a provision in the 1958 law establishing the Federal Aviation Administration which requires that the FAA Administrator be a civilian and not on the active or retired list of the armed services. This law is important in the interests of establishing civilian primacy over the regulations of the Nation's airspace.

While it is important to retain generally this provision regarding the Office of FAA Administrator, I believe the requirement should be waived in this instance so that General Curry can be appointed and not lose any of the military retirement benefits he has earned. Without this bill, he would have to resign his commission and be removed from the retirement list of the Army in order to be appointed Administrator which would harm his pension benefits.

The Aviation Subcommittee held hearings on this legislation yesterday and received testimony from General Curry. General Curry is very much aware of the need for civilian control of the airspace, and I do not expect undue military influence to creep into his management of the airspace just because he is a retired officer.

The Congress has passed similar legislation on a number of previous occasions. It is important that we do so again today in order that General Curry can be confirmed and appointed so that there is little loss in the continuity of leadership at this important agency. The current Administrator, James B. Busey, has also been nominated by the President to become Deputy Secretary of Transportation. So without this legislation passing today, the FAA would be without an Administrator for a period of weeks, possibly months.

Finally, I would note that the Senate bill we are taking up is identical to a bill, H.R. 3902, which I introduced on Saturday along with ROBERT A. ROE, Chairman of the Public Works and Transportation Committee, JOHN PAUL HAMMERSCHMIDT, our full committee ranking Republican member, BILL CLINGER, our subcommittee ranking Republican member, and NORMAN MINETA, an active member of our committee on aviation matters.

□ 0340

The current Administrator, James B. Busey, has also been nominated by the President to become Deputy Secretary of Transportation. Unless we pass this legislation today, the FAA could be without an Administrator for a period of weeks, and maybe even months.

Mr. CLINGER. Mr. Speaker, further reserving the right to object, I yield to the ranking member, the gentleman from Arkansas [Mr. HAMMERSCHMIDT].

Mr. HAMMERSCHMIDT. Mr. Speaker, I support the request of the distinguished subcommittee chairman.

Mr. Speaker, I support this bill. Current law requires that the Administrator of the FAA be a civilian. This means that he cannot be on either the active or retired list of any military service.

This bill will allow Jerry Curry to become FAA Administrator despite his retired military status. If we do not pass this bill, General Curry would have to resign his commission and lose his pension benefits prior to serving as Administrator.

There is no reason that Jerry Curry should be required to make this sacrifice in order to serve at the FAA. At least four times in the past, we have enacted legislation to allow a military man to assume the top post at the FAA.

General Curry is well qualified for this post. He has served his country well in several capacities, most recently as Administrator of the National Highway Traffic Safety Administration. I am confident that he will make a fine FAA Administrator.

We should move quickly here so that the FAA will not be without a chief for too long. The Senate will soon approve the Curry nomination and pass its bill. I urge quick approval of S. 2098 so that Jerry Curry can move into his new position right away.

Mr. CLINGER. Mr. Speaker, further reserving the right to object, I join with the chairman in support of the unanimous consent request. It is a necessary technicality, but it will ensure that we will have Mr. Curry in the position at FAA promptly and not jeopardize his pension rights.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from Minnesota?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2098

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That notwithstanding the provisions of section 106 of title 49, United States Code, or any other provision of law, the President, acting by and with the advice and consent of the Senate, is authorized to appoint Major General Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration. Major General Curry's appointment to, acceptance of, and service in that Office shall in no way affect the status, rank, and grade which he shall hold as an officer on the retired list of the United States Army, or any emolument, perquisite, right, privilege, or benefit incident to or arising out of any such status, office, rank, or grade, except to the extent that subchapter IV of chapter 55 of title 5, United States Code, affects the amount of retired pay to which he is entitled by law during his service as Administrator. So long as he serves as Administrator, Major General Curry shall receive the compensation of that Office at the rate which would be applicable if he were not an officer on the retired list of the United States Army, shall retain the status, rank, and grade which he now holds as an officer on the retired list of the United States Army, shall retain all emoluments, perquisites, rights, privileges, and benefits incident to or arising out of such status, office, rank, or grade, and shall in addition continue to receive the retired pay to which he is entitled by law, subject to the provisions of subchapter IV of chapter 55 of title 5, United States Code.

SEC. 2. In the performance of his duties as Administrator of the Federal Aviation Administration, Major General Curry shall be subject to no supervision, control, restriction, or prohibition (military or otherwise) other than would be operative with respect to him if he were not an officer on the retired list of the United States Army.

SEC. 3. Nothing in this Act shall be construed as approval by the Congress of any future appointments of military persons to the Office of Administrator of the Federal Aviation Administration.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. OBERSTAR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 2098, the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

REQUEST TO START DEBATE ON CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. ROE. Mr. Speaker, for the benefit of the Members of the House, the printed copy is on its way over here, but in order for us not to delay the start of this debate, I ask unanimous consent that we be able to start the discussion on this proposal pending its getting here, which should be in a few minutes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. DINGELL. Mr. Speaker, reserving the right to object, I would observe that the papers are not here yet.

Mr. ROE. Mr. Speaker, will the gentleman yield?

Mr. DINGELL. I yield to the gentleman from New Jersey.

Mr. ROE. Mr. Speaker, they are on their way over here now.

Mr. DINGELL. Does that include the signatures of all the House conferees?

Mr. ROE. We do have the signatures, they tell me, for those who chose to sign the report.

Mr. DINGELL. Mr. Speaker, I would note there are portions of that in which the Committee on Energy and Commerce has equal conferees with regard to certain matters relative to rail transit. Are those papers in the hands of my friends?

Mr. ROE. Mr. Speaker, the signature sheets are coming over here with the rest of the papers.

Mr. Speaker, I withdraw my request. We will have to wait until the papers get here.

PROVIDING FOR DISPOSITION OF SENATE AMENDMENTS TO H.R. 3807, CONVENTIONAL FORCES IN EUROPE TREATY IMPLEMENTATION ACT OF 1991

Ms. SLAUGHTER of New York. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 316 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 316

Resolved, That upon adoption of this resolution it shall be in order to consider a nondivisible motion to take from the Speaker's table the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with the Treaty of Conventional Armed Forces in Europe, with the Senate amendments thereto, and to concur in the Senate amendments with amendments printed in the report of the Committee on Rules accompanying this resolution. The motion and the Senate amendments shall be considered as having been read. Debate on said motion shall continue not to exceed one hour, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Foreign Affairs. The previous question shall be considered as having been ordered on the motion to final adoption without intervening motion. All points of order against the motion are hereby waived.

The SPEAKER pro tempore. The question is, Will the House now consider House Resolution 316?

The question was taken; and (two-thirds having voted in favor thereof) the House agreed to consider House Resolution 316.

The SPEAKER pro tempore. The gentlewoman from New York [Ms. SLAUGHTER] is recognized for 1 hour.

□ 0350

Ms. SLAUGHTER of New York. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Ohio [Mr. McEWEN] pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, this House resolution makes in order a nondivisible motion to take H.R. 3807 from the Speaker's table, and agree to the Senate amendments with three House amendments. The House amendments are printed in the report to accompany the rule, and all points of order are waived against the motion. Finally, the rule provides 1 hour of debate on the motion.

Mr. Speaker, H.R. 3807 authorizes the President to transfer tanks, artillery, and armored combat vehicles to member countries in NATO to implement the transfer program associated with the Conventional Forces in Europe Treaty negotiated last November in Paris. The program will allow the alliance to modernize forces and become more efficient as the burden of providing an adequate defense shifts among allied countries in Europe.

During its deliberations last night the Senate added three amendments relating to nuclear weapons destruction and emergency humanitarian assistance for the Soviet Union. Members of the Foreign Affairs and Armed Services Committees have met with their counterparts in the Senate and devised language which is mutually agreeable to all parties and—as I understand it—will be agreed to by the Senate once we have returned the legislation to that body.

The compromise agreement is included in the text of House amendments to the Senate amendments to H.R. 3807.

The House amendments authorize $400 million to facilitate the destruction of nuclear, chemical, and other weapons in the Soviet Union and put in place safeguards against the proliferation of such weapons. The amendments authorize $100 million for humanitarian aid, including food and medical supplies, to be supplied by commercial or military means to the Soviet Union, its Republics or successor entities. The amendments also provide that the President encourage the repayment of such assistance through the provision of natural resources.

Finally, the amendments authorize the Arms Control and Disarmament Agency for 2 years and further clarify the congressional oversight activities of the onsite inspection agency.

Mr. Speaker, this rule will facilitate final action on this important legislation without the necessity of convening a conference in the waning hours of the session. I urge my colleagues to adopt this resolution so that we may proceed to the consideration of these important arms control policy initiatives.

Mr. Speaker, I reserve the balance of my time.

Mr. McEWEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentlewoman from New York has explained what this rule will provide; namely, a self-executing rule to adopt a number of Senate and House amendments, waive all points of order against the consideration of those amendments as a part of the Arms Control Export Act of 1991 as amended, and bring it quickly to the floor.

Because it is a self-executing rule, I cannot support it. Even at this late hour, we should not abandon proper procedures to enact amendments in one fell swoop, without the benefit of considering them here on the floor of the House. And there is much in this that many Members on this side of the aisle would wish to debate.

That wasn't true 1 week ago. This bill passed the House without controversy at that time, and was sent to the Senate. Now, this important bill comes back before the House after Senate amendments to the Conventional Forces in Europe Treaty implementation. Those amendments included funding for the destruction of nuclear weapons in the possession of the Soviet Union. Further, those amendments also provided for funding of humanitarian assistance to the Soviet Union or its Republics.

After passage of those amendments in the Senate last night, the leadership of the House Foreign Affairs Committee along with the leadership of the House Armed Services Committee have spent most of the day and night in consultation with their Senate counterparts trying to work out amendments to the Senate amendments that could be accepted by both Chambers. And the leadership of those committees deserve commendation for their hard work.

Mr. Speaker, this is an important task: First, authorizing some necessary transfers of arms to NATO members countries; second, dismantling some of the nearly 30,000 nuclear warheads in the Soviet arsenal and third, providing the humanitarian assistance mentioned earlier.

It is worth noting, Mr. Speaker, that while the Senate originally asked for $500 million for the Nuclear Weapon Destruction Program, this House-amended form lowers that level to $400 million. The Senate planned a $200 million authorization for transportation of aid to the Soviets, and that has been dropped to $100 million.

Mr. Speaker, I am a firm believer that all the money in all the wallets of all the taxpayers in America would never be enough to bail out a failed, centrally planned economy in the Soviet Union. Granted, this bill does not authorize direct aid—it only authorizes the President to exercise discretion in this area, up to a certain funding level. However, I would submit that most Americans will perceive this as aid to the Soviet Union at a time when many of them are looking for jobs here at home. We must not be perceived as simply giving handouts to the Soviet Union, or its republics. After all, this is a rich country: rich in gold reserves, rich in strategic metals, and incredibly rich in oil reserves.

So, I was pleased that the House included in its amendments to the Senate amendments the notion of compensation for this aid. The amendment will now read that the U.S. Government should be reimbursed by the recipient central or republic government to the extent that the President determines to be appropriate.

Mr. Speaker, I wish to express my appreciation to Representative BENNETT of Florida and make special mention for his insisting on this provision—a provision which I was proud to support.

However, we must accept the fact that we are playing at the margins. The massive, wrecked economy of the Soviet Union and its republics doesn't need aid half as much as they need free markets and investment incentives.

Much hard and important work has been done today on this bill, Mr. Speaker. However, we must ask why we have to rush this through now with a self-executing rule—when we have refused to rush through an economic aid package for America before going home. It doesn't make sense to me, and I think we should follow normal procedure in matters such as this.

For that reason, Mr. Speaker, I urge opposition to the rule even as I recognize the yeoman's duty performed by Mr. FASCELL of Florida and Mr. ASPIN of Wisconsin, the chairmen of the Foreign Affairs and Armed Services Committees, respectively.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WHEAT. Mr. Speaker, this is a fair rule on a good bill.

Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

MOTION OFFERED BY MR. FASCELL

Mr. FASCELL. Mr. Speaker, pursuant to House Resolution 316, I move to take from the Speaker's table the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe, with Senate amendments thereto, and concur in the Senate amendments with amendments.

The SPEAKER pro tempore. The Clerk will designate the motion and the House amendments.

The text of the motion and the text of the House amendments are as follows:

Mr. FASCELL moves to take from the Speaker's table the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe, with Senate amendments thereto, and concur in the Senate amendments with amendments, as follows:

Amendment to Senate amendment numbered 1:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

TITLE II—SOVIET WEAPONS DESTRUCTION

PART A—SHORT TITLE

SEC. 201. SHORT TITLE.

This title may be cited as the "Soviet Nuclear Threat Reduction Act of 1991".

PART B—FINDINGS AND PROGRAM AUTHORITY

SEC. 211. NATIONAL DEFENSE AND SOVIET WEAPONS DESTRUCTION.

(a) FINDINGS.—The Congress finds—

(1) that Soviet President Gorbachev has requested Western help in dismantling nuclear weapons, and President Bush has proposed United States cooperation on the storage, transportation, dismantling, and destruction of Soviet nuclear weapons;

(2) that the profound changes underway in the Soviet Union pose three types of danger to nuclear safety and stability, as follows: (A) ultimate disposition of nuclear weapons among the Soviet Union, its republics, and any successor entities that is not conducive to weapons safety or to international stability; (B) seizure, theft, sale, or use of nuclear weapons or components; and (C) transfers of weapons, weapons components, or weapons know-how outside of the territory of the Soviet Union, its republics, and any successor entities, that contribute to worldwide proliferation; and

(3) that it is in the national security interests of the United States (A) to facilitate on a priority basis the transportation, storage, safeguarding, and destruction of nuclear and other weapons in the Soviet Union, its republics, and any successor entities, and (B) to assist in the prevention of weapons proliferation.

(b) EXCLUSIONS.—United States assistance in destroying nuclear and other weapons under this title may not be provided to the Soviet Union, any of its republics, or any successor entity unless the President certifies to the Congress that the proposed recipient is committed to—

(1) making a substantial investment of its resources for dismantling or destroying such weapons;

(2) forgoing any military modernization program that exceeds legitimate defense requirements and forgoing the replacement of destroyed weapons of mass destruction;

(3) forgoing any use of fissionable and other components of destroyed nuclear weapons in new nuclear weapons;

(4) facilitating United States verification of weapons destruction carried out under section 212;

(5) complying with all relevant arms control agreements; and

(6) observing internationally recognized human rights, including the protection of minorities.

SEC. 212. AUTHORITY FOR PROGRAM TO FACILITATE SOVIET WEAPONS DESTRUCTION.

(a) IN GENERAL.—Notwithstanding any other provision of law, the President, consistent with the findings states in section 211, may establish a program as authorized in subsection (b) to assist Soviet weapons destruction. Funds for carrying out this program shall be provided as specified in part C.

(b) TYPE OF PROGRAM.—The program under this section shall be limited to cooperation among the United States, the Soviet Union, its republics, and any successor entities to (1) destroy nuclear weapons, chemical weapons, and other weapons, (2) transport, store, disable, and safeguard weapons in connection with their destruction, and (3) establish verifiable safeguards against the proliferation of such weapons. Such cooperation may involve assistance in planning and in resolving technical problems associated with weapons destruction and proliferation. Such cooperation may also involve the funding of critical short-term requirements related to weapons destruction and should, to the extent feasible, draw upon United States technology and United States technicians.

PART C—ADMINISTRATIVE AND FUNDING AUTHORITIES

SEC. 221. ADMINISTRATION OF NUCLEAR THREAT REDUCTION PROGRAMS.

(a) FUNDING.—

(1) TRANSFER AUTHORITY.—The President may, to the extent provided in an appropria-

tions Act or joint resolution, transfer to the appropriate defense accounts from amounts appropriated to the Department of Defense for fiscal year 1992 for operation and maintenance or from balances in working capital accounts established under section 2208 of title 10, United States code, not to exceed $400,000,000 for use in reducing the Soviet military threat under part B.

(2) Limitation.—Amounts for transfer under paragraph (1) may not be derived from amounts appropriated for any activity of the Department of Defense that the Secretary of Defense determines essential for the readiness of the Armed forces, including amounts for—

(A) training activities; and

(B) depot maintenance activities.

(b) Department of Defense.—The Department of Defense shall serve as the executive agent for any program established under part B.

(c) Reimbursement of Other Agencies.—The Secretary of Defense may reimburse other United States Government departments and agencies under this section for costs of participation, as directed by the President, only in a program established under part B.

(d) Charges Against Funds.—The value of any material from existing stocks and inventories of the Department of Defense, or any other United States Government department or agency, that is used providing assistance under part B to reduce the Soviet military threat may not be charged against funds available pursuant to subsection (a) to the extent that the material contributed is directed by the President to be contributed without subsequent replacement.

(e) Determination by Director of OMB.—No amount may be obligated for the program under part B unless expenditures for that program have been determined by the Director of the Office of Management and Budget to be counted against the defense category of the discretionary spending limits for fiscal year 1992 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

SEC. 222. REPAYMENT ARRANGEMENTS.

(a) Reimbursement Arrangements.—Assistance provided under part B to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(b) Natural Resources, Etc.—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this section that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

SEC. 223. DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS.

It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the President to transfer funds pursuant to this title.

Part D—Reporting Requirements

SEC. 231. PRIOR NOTICE OF OBLIGATIONS TO CONGRESS.

Not less than 15 days before obligating any funds for a program under part B, the President shall transmit to the Congress a report on the proposed obligation. Each such report shall specify—

(1) the account, budget activity, and particular program or programs for which the funds proposed to be obligated are to be derived and the amount of the proposed obligation; and

(2) the activities and forms of assistance under part B for which the President plans to obligate such funds.

SEC. 232. QUARTERLY REPORTS ON PROGRAM.

Not later than 30 days after the end of each quarter of fiscal years 1992 and 1993, the President shall transmit to the Congress a report on the activities to reduce the Soviet military threat carried out under part B. Each such report shall set forth, for the preceding quarter and cumulatively, the following:

(1) Amounts spent for such activities and the purposes for which they were spent.

(2) The sources of the funds obligated for such activities, stated specifically by program.

(3) A description of the participation of the Department of Defense, and the participation of any other United States Government department or agency, in such activities.

(4) A description of the activities carried out under part B and the forms of assistance provided under part B.

(5) Such other information as the President considers appropriate to fully inform the Congress concerning the operation of the program under part B.

Amendment to Senate amendment numbered 2:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

TITLE III—EMERGENCY AIRLIFT AND OTHER SUPPORT

SEC. 301. AUTHORITY TO TRANSFER CERTAIN FUNDS TO PROVIDE EMERGENCY AIRLIFT AND OTHER SUPPORT.

(a) Findings.—The Congress finds—

(1) that political and economic conditions within the Soviet Union and its republics are unstable and are likely to remain so for the foreseeable future;

(2) that these conditions could lead to the return of antidemocratic forces in the Soviet Union;

(3) that one of the most effective means of preventing such a situation is likely to be the immediate provision of humanitarian assistance; and

(4) that should this need arise, the United States should have funds readily available to provide for the transport of such assistance to the Soviet Union, its republics, and any successor entities.

(b) Authority To Transfer Certain Funds.—

(1) In general.—Notwithstanding any other provision of law, the Secretary of Defense, at the direction of the President, may during fiscal year 1992, to the extent provided in an appropriations Act or joint resolution, transfer to the appropriate defense accounts sufficient funds, not to exceed $100,000,000 from funds described in paragraph (3) in order to transport, by military or commercial means, food, medical supplies, and other types of humanitarian assistance to the Soviet Union, its republics, or any successor entities—with the consent of the relevant republic government or independent successor entity—in order to address emergency conditions which may arise in such republic or successor entity, as determined by the president. As used in this subsection, the term "humanitarian assistance" does not include construction equipment, including tractors, scrapers, loaders, graders, bulldozers, dumptrucks, generators, and compressors.

(2) Reports by the Secretary of State.—The Secretary of State shall promptly report to the President regarding any emergency conditions which may require such humanitarian assistance. The Secretary's report shall include an estimate of the extent of need for such assistance, discuss whether the consent of the relevant republic government or independent successor entity has been given for the delivery of such assistance, describe steps other nations and organizations are prepared to take in response to an emergency, and discuss the foreign policy implications, if any, of providing such assistance.

(3) Source of funds.—Any funds which are transferred pursuant to this subsection shall be drawn from amounts appropriated to the Department of Defense for fiscal year 1992 or from balances in working capital accounts established under section 2208 of title 10, United States Code.

(4) Emergency requirements.—The Congress designates all funds transferred pursuant to this section as "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985. Notwithstanding any other provision of law, funds shall be available for transfer pursuant to this section only if, not later than the date of enactment of the appropriations Act or joint resolution that makes funds available for transfer pursuant to this section, the President, in a single designation, designates the entire amount of funds made available for such transfer by that appropriations Act or joint resolution to be "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) Repayment Arrangements.—

(1) Reimbursement arrangements.—Assistance provided under subsection (b) to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(2) Natural resources, etc.—The President shall encourage the satisfaction of such reimbursement arrangements through the provisions of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this subsection that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

(d) Dire Emergency Supplemental Appropriations.—It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the Secretary of Defense to transfer funds pursuant to this title.

SEC. 302. REPORTING REQUIREMENTS.

(a) PRIOR NOTICE.—Before any funds are transferred for the purposes authorized in section 301(b), the President shall notify the Committees on Armed Services and the Committees on Appropriations of the Senate and the House of Representatives of the account, budget activity, and particular program or programs from which the transfer is planned to be made and the amount of the transfer.

(b) REPORTS TO THE CONGRESS.—Within ten days after directing the Secretary of Defense to transfer funds pursuant to section 301(b), the President shall provide a report to the Committees on Armed Services of the Senate and House of Representatives, the Committees on Appropriations of the Senate and House of Representatives, and the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives. This report shall at a minimum, set forth—

(1) the amount of funds transferred under this title, including the source of such funds;

(2) the conditions which prompted the use of this authority;

(3) the form and number of lift assets planned to be used to deliver assistance pursuant to this title;

(4) the types and purpose of the cargo planned to be delivered pursuant to this title; and

(5) the locations, organizations, and political institutions to which assistance is planned to be delivered pursuant to this title.

Amendment to Senate amendment numbered 3:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

TITLE IV—ARMS CONTROL AND DISARMAMENT ACT

SEC. 401. ARMS CONTROL AND DISARMAMENT AGENCY.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 49(a) of the Arms Control and Disarmament Act (22 U.S.C. 2589(a)) is amended—

(1) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2), respectively;

(2) in paragraph (1) as so redesignated, by striking out "$36,000,000 for the fiscal year 1990 and $37,316,000 for the fiscal year 1991" and inserting in lieu thereof "$44,527,000 for fiscal year 1992 and $45,862,810 for fiscal year 1993"; and

(3) in paragraph (2) as so redesignated, by striking out "fiscal years 1990 and 1991" and inserting in lieu thereof "each fiscal year for which an authorization of appropriations is provided in paragraph (1)".

(b) ADMINISTRATIVE AUTHORITIES REGARDING INVESTIGATIONS.—Section 41 of that Act (22 U.S.C. 2581) is amended—

(1) by redesignating paragraphs (h) and (i) as paragraphs (i) and (j), respectively; and

(2) by inserting after paragraph (g) the following new paragraph (h):

"(h) administer oaths and take sworn statements in the course of an investigation made pursuant to the Director's responsibilities under this Act;".

(c) ACDA REVITALIZATION.—Not later than December 15, 1992, the Inspector General of the Arms Control and Disarmament Agency (who serves also as the Inspector General of the Department of State) shall submit to the President, the Speaker of the House of Representatives, and the chairman of the Committee on Foreign Relations of the Senate a report with regard to the Agency's fulfillment of the primary functions described in section 2 of the Arms Control and Disarmament Act (22 U.S.C. 2551). Such report shall address the current ability and performance of the Agency in carrying out these functions and shall provide detailed recommendations for any changes in executive branch organization and direction needed to fulfill these primary functions. Within 60 days after submission of this report, the President shall submit the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate comments on any recommendations contained in the report dealing with executive branch organization and direction.

SEC. 402. ON-SITE INSPECTION AGENCY.

(A) RESPONSIBILITIES OF THE ON-SITE INSPECTION AGENCY.—

(1) ADDITIONAL RESPONSIBILITIES.—Section 61 of the Arms Control and Disarmament Act (22 U.S.C. 2595) is amended—

(A) by redesignating paragraphs (5) and (6) as paragraphs (6) and (7), respectively; and

(B) by inserting after paragraph (4) the following new paragraph:

"(5) the On-Site Inspection Agency has additional responsibilities to those specified in paragraph (4), including the monitoring of nuclear tests pursuant to the Threshold Test Ban Treaty and the Peaceful Nuclear Explosions Treaty and the monitoring of the inspection provisions of such additional arms control agreements as the President may direct;".

(2) CONFORMING AMENDMENTS TO DEFINITIONS.—Section 64 of that Act (22 U.S.C. 2595c) is amended—

(A) by striking out "and" at the end of paragraph (1);

(B) by striking out the period at the end of paragraph (2) and inserting in lieu thereof a semicolon; and

(C) by adding after paragraph (2) the following:

"(3) the term 'Peaceful Nuclear Explosions Treaty' means that Treaty Between the United States of America and the Union of Soviet Socialist Republic on Underground Nuclear Explosions for Peaceful Purposes (signed at Washington and Moscow, May 28, 1976); and

"(4) the term 'Threshold Test Ban Treaty' means the Treaty Between the United States of American and the Union of Soviet Socialist Republics on the Limitation of Underground Nuclear Weapons Tests (signed at Moscow, July 3, 1974).".

(b) IMPROVING CONGRESSIONAL OVERSIGHT OF ON-SITE INSPECTION ACTIVITIES.—Title V of that Act is amended—

(1) by redesignating section 64 as section 65; and

(2) by inserting after section 63 the following:

"SEC. 64. IMPROVING CONGRESSIONAL OVERSIGHT OF ON-SITE INSPECTION ACTIVITIES.

"(A) REPORT FROM THE PRESIDENT.—Concurrent with the submission to the Congress of the request for authorization of appropriations for OSIA for fiscal year 1993, the President shall submit a report on OSIA to the Committee on Foreign Affairs of the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on Armed Services of the House of Representatives and Senate. The report shall include a review of—

"(1) the history of OSIA, including how, when, and under what auspices it was established, including the applicable texts of the relevant executive orders;

"(2) the missions and tasks assigned to OSIA to date;

"(3) any additional missions and tasks likely to be assigned to OSIA during fiscal year 1993;

"(4) the budgetary history of OSIA; and

"(5) the extent to which OSIA plays a role in arms control policy formulation and operational implementation.

"(b) REVIEW OF CERTAIN REPROGRAMMING NOTIFICATIONS.—Any notification submitted to the Congress with respect to a proposed transfer, reprogramming, or reallocation of funds from or within the budget of OSIA shall also be submitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, and shall be subject to review by those committees.".

The SPEAKER pro tempore. The gentleman from Florida [Mr. FASCELL] will be recognized for 30 minutes, and the gentleman from Michigan [Mr. BROOMFIELD] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Florida [Mr. FASCELL].

Mr. FASCELL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3807, authorizing the President to transfer certain limited equipment pursuant to the CFE Treaty. In addition to provisions that implement the CFE Treaty, H.R. 3807 includes the authority for the United States to facilitate the dismantlement and destruction of Soviet nuclear, chemical, and other weapons of mass destruction.

H.R. 3807 also includes authority to transport by emergency airlift food, medical supplies, and other types of humanitarian assistance. This provision specifically prohibits the transfer to the Soviet Union, its republics or successor entities any construction-related equipment.

Finally, H.R. 3807 provides for the authorization of appropriations for the Arms Control and Disarmament Agency for fiscal years 1990 and 1991 and in that regard delineates the responsibility of the On-Site Inspection Agency.

One year ago, on November 19, 1990, 22 nations met at a summit of the Conference on Security and Cooperation in Europe in Paris and signed the Treaty on Conventional Armed Forces in Europe [CFE Treaty]. The CFE Treaty is an agreement that mandates reductions and limits on military equipment such as tanks, armored vehicles, artillery, combat aircraft, and helicopters in Europe from the Atlantic Ocean to the Ural Mountains. This treaty is another major arms control achievement of the post-cold-war era. It culminates a long, arduous process of negotiations between NATO and the Warsaw Pact on force reductions in Europe, which began in 1973 but didn't become a realistic opportunity until the Berlin Wall came down.

The CFE Treaty requires that each state which is a party to the treaty submit extensive data on its military forces, adhere to detailed provisions for the destruction or conversion of excess equipment, and open military installations to intrusive inspection. The CFE Treaty was formally submitted to the Senate on July 1, 1991, and the Senate considered and ratified the treaty on November 25, 1991.

The legislation that we are considering today is a key component of the CFE Treaty and is considered to be part of the implementation of that treaty. Specifically, the transfer program authorized by this legislation would enable the United States, Germany, and other allies to adjust their reduction liabilities by transferring treaty-limited equipment to other allies, allowing the alliance to achieve an effective overall defense capability at lower force levels.

I would like to also point out that this is a NATO program and not solely a U.S. program, with the U.S. portion representing only 30 percent of the overall program. Therefore, 70 percent of the costs associated with the program will not be incurred by the United States, and 70 percent of the actual equipment transfers will come from other NATO member countries.

Briefly, title I of the legislation:

Clarifies that the transfers are consistent with the obligations incurred by the United States and other allies in connection with the CFE Treaty;

Limits the articles eligible for transfer only to battle tanks, armored combat vehicles, or artillery included within the CFE Treaty's definition of conventional armaments and equipment limited by the treaty;

Clarifies that the United States will not incur any additional costs for such transfers;

Includes language concerning the military balance in the eastern Mediterranean; and

Stipulates congressional reporting requirements prior to any transfer.

This legislation does not include authority requested by the executive branch concerning follow-on support for the initial transfers. This language was deleted to reflect concerns raised by some of our colleagues and with the concurrence of the executive branch.

I would like to commend my colleagues on both sides of the aisle of the Foregn Affairs Committee and also on the Armed Services Committee for working with us to fashion this legislation, which now enjoys broad bipartisan support. I would also note that this legislation in its current form is fully supported by the executive branch.

I believe this treaty enhances stability and security in Europe and that this implementing legislation further complements the treaty objectives, and I urge my colleagues to support this measure.

Other important components of this bill include two provisions dealing with Soviet weapons destruction and emergency humanitarian assistance to the Soviet Union, it's republics and successor entities. Both of these provisions have strong, bipartisan support in the other body. Funding for them is already contained in the Dire Emergency Supplemental Appropriations Act for 1992. Both provisions are narrowly defined and pertain strictly to the dismantling of Soviet nulcear weapons and the provision of emergency humanitarian assistance. No other assistance, technical or otherwise, is contained in this bill.

Soviet President Gorbachev has requested Western help in dismantling Soviet nuclear weapons, and President Bush has proposed that the United States provide such assistance directed at the storage, transportation, dismantling, and destruction of nuclear weapons. It is clearly in the security interests of the United States and its allies to help the Soviets dispose of their nuclear weapons to prevent their possible seizure, theft, or transfer, not to mention use in the looming atmosphere of instability and chaos in the Soviet Union.

Title II of this legislation provides that the President may transfer up to $400 million in fiscal year 1992 from Department of Defense accounts for these purposes. Prior to the expenditures of any of these funds, the President will first certify to the Congress that potential recipients in the Soviet Union, by the republics or what is left of the central authorities, are committed to a series of constructive actions. These include making a substantial investment of their own for the destruction of such weapons, forgoing military modernization, as well as the use of fissionable or other components of the destroyed nuclear weapons, complying with all relevant arms control agreements and facilitating U.S. verification of the weapons' destruction.

Such a program of nuclear weapons destruction will increase U.S. security by:

Avoiding spending billions of dollars on arms production that perpetuates arms race;

Enhancing our country's nonproliferation and antiterrorism efforts;

Enhancing the prospects for a peaceful transition from authortarian to democratic rule in the Soviet Union;

Creating more business opportunities for U.S. disarmament contractors; and making arms disarmament, not just arms control, a reality in the post-cold war environment.

It is important that this program has both a "matched" and a "multilateral" aspect.

Matched—because we expect the Soviets to not only pay their share but to also make the political decisions to get weapons destruction programs moving and funded.

Multilateral—because we expect European countries have a special stake in seeing Soviet weapons destroyed and, therefore, they should also contribute funds and expertise to this mutual security effort.

U.S. leadership is important on efforts such as this and we, in Congress, can be proud of our efforts to initiate the process. Our constituents can be assured that this is not a Soviet aid giveaway program but rather a United States security and arms control enhancement program. Furthermore, the fund will be used to fund U.S. experts, technicians, planners, and contractors to enable them to play a crucial role in initiating these weapons destruction programs.

In short, this program is in our own self-interest. It will enhance United States security by assuring the destruction of Soviet weaponry and by cutting off opportunities that might allow these weapons to proliferate into the wrong hands to be used directly or indirectly against the United States.

Economic chaos in the Soviet Union is mounting and threatens the peaceful transformation of that country. Emergency humanitarian assistance in the form of necessary food stuffs and medical supplies can be helpful in averting potential disaster. Title III provides for up to $100 million to be transferred, at the direction of the President, from Department of Defense funds for the transport, by either military or commercial means of food, medical supplies, and other types of emergency humanitarian assistance to the Soviet Union, it's republics or any successor entities.

The Secretary of State will report to the President in prompt fashion regarding any emergency conditions which may require such assistance. Notification of the Senate and House Committee on Armed Services, Appropriations, Foreign Policy, and Foreign Affairs is required within 10 days of the transfer of these emergency humanitarian funds.

Mr. Speaker, the Soviet Union is at a crossroads in its history, and it needs our help and that of the rest of the developed world. This is not a problem we can simply throw some money or ideas at and think we have done our duty. We must recognize the limits but also the opportunities involved in our efforts to help the Soviets. This legislation carefully targets two areas of immediate concern to the stability and well-being of the Soviet Union, Europe, the United States, and the world: The destruction of Soviet nuclear weapons and the provision of emergency humanitarian assistance. These are straightforward, necessary, and narrow defined steps, and I urge my colleagues to support them.

Title IV of H.R. 3807 also authorizes funding for the Arms Control and Disarmament Agency [ACDA] for fiscal years 1992 and 1993 and addresses the congressional oversight of the activities of the On-Site Inspection Agency [OSIA].

The post-cold-war, the post-Gulf-war, and the post-Soviet-coup setting poses many new challenges and opportunities for both of these agencies in the field of arms control and disarmament. The activities and importance of these agencies will increase significantly in the coming years as we actively complete and implement some half dozen bilateral and multilateral arms control and disarmament agreements.

The authorization level for ACDA is set at $44.527 million for fiscal year 1992. This modest level is easily explained by ACDA's increased responsibilities related to several arms control negotiations and implementation of three arms control agreements, the INF Treaty and the two nuclear testing treaties—PNET and TTBT. It is our intention that this funding level will enable ACDA to provide for additional external research in support of the Agency's activities.

The other item related to ACDA in this legislation is a provision calling for a report by the inspector general of ACDA to examine ACDA's fulfillment of its primary functions and to review what recommendations he might make regarding ACDA's needs during this period of increasing responsibilities and activities.

The Arms Control and Disarmament Agency is the U.S. Government agency with primary responsibility for the development and implementation of U.S. arms control policies. ACDA is implementing three arms control agreements—the INF Treaty and the two nuclear testing treaties—and is working on as many as nine other arms control accords—START I and II, CFE I and II, two chemical weapons agreements, short-range nuclear forces, biological weapons, and nuclear nonproliferation. That is a very full agenda and that is why the Committee on Foreign Affairs supported modest increases in personnel and research for ACDA.

The On-Site Inspection Agency [OSIA] was established in February 1988 to implement the INF Treaty. OSIA Manages, directs, and implements all the on-site inspections for that treaty, which now total approximately 600 inspections Even though all the INF missiles have now been destroyed, the monitoring, verification, and inspecting under the INF Treaty will continue for the next 10 years. Now, OSIA will also be implementing, monitoring, and overseeing the two nuclear testing agreements, and it will also have several more treaties, such as CW, CFE, and START to work on.

The On-Site Inspection Agency implements arms control and disarmament agreements and it carries out those activities on foreign territory. The Committee on Foreign Affairs has oversight and legislative responsibility for matters involving arms control and for U.S. activities taking place on foreign territory. Therefore, the Committee on Foreign Affairs needs to receive from the administration adequate information on all OSIA activities in order to exercise its proper oversight and legislative responsibilities.

The provision of the House amendment which amends title V of the Arms Control and Disarmament Act regarding congressional oversight of On-Site Inspection Agency activities contains the following:

A requirement for the President to submit a report to the appropriate committees of the Congress concurrent with an authorization request which includes:

A description of how and when OSIA was established, including the applicable texts of the relevant executive orders;

A summary of the mission and tasks assigned to OSIA to date;

Any additional missions and tasks projected with respect to fiscal year 1993;

The budgetary history of the Agency to date, including budget requests, actual authorization and appropriation levels enacted and reprogrammings submitted to Congress; and

A discussion of the extent to which OSIA plays a role in arms control policy formulation and operational implementation.

A requirement that any notification submitted to the Congress with respect to a proposed transfer, reprogramming, or reallocation of funds from or within the budget of OSIA shall be submitted to the Committee on Foreign Affairs of the House and the Committee on Foreign Relations of the Senate shall be subject to review by those committees.

The intent of the provision regarding the reprogramming notification requirement is that the Committee on Armed Services and the Committees on Foreign Affairs and Foreign Relations have equal rights and responsibilities with respect to approval of any request to reallocate funds from or within OSIA. The committee expects that these rights and responsibilities will be conducted consistent with the current Armed Services procedures applicable to reprogrammings.

OSIA is playing a central role in implementing the INF Treaty and two nuclear testing treaties (PNET, TTBT), and it may be implementing six to nine more treaties. OSIA is part of our overall Government arms control community, which must now respond positively to the arms control opportunities before us and assure that these opportunities are turned into agreements in which our Government and people can have confidence and trust that the other side is fulfilling their end of the bargain.

Therefore, OSIA has a rightful claim and, indeed, a clear responsibility to make its arms control policy input into the total Government process. OSIA is not just a nuts and bolts operation, it is a key agency in the total picture of our Government's arms control and disarmament policy.

OSIA's organizational structure currently reflects the importance of the agency's policy component. The Arms Control and Disarmament Agency and the Department of State provide assistant directors to OSIA. Again, it is the Committee on Foreign Affairs which authorizes funds for both the Department of State and ACDA and therefore must oversee the structure and functioning of OSIA's directorate and the overall agency.

President Bush's September 27, 1991, arms control initiative sets in motion unilateral U.S. arms control measures. Congress should not only look to OSIA for its policy evaluation of such unilateral moves but also to OSIA for ways in which it can play some role in assuring that such unilateral moves are reciprocated by the Soviets if that is the understanding. New developments in arms control, such as the President's September 27 initiative, illustrate even more poignantly how important it is to have proper and adequate communication between the Foreign Affairs Committee and the OSIA.

By reflecting for just a minute on the adverse impact to the arms control process that was caused by Soviet violation and compliance questions during the last decade, it is quite easy to realize what an important role OSIA must play in the United States arms control policy process.

The Committee on Foreign Affairs' jurisdiction over U.S. Government activities on foreign soil gives it a special, specific, and significant responsibility regarding the establishment of guidelines for monitoring training inspectors, escorting and collection activities, and the general management of arms control inspections on foreign territory.

The legislation before us is designed to improve the arms control work of both ACDA and OSIA at the same time that it also seeks to improve congressional oversight and legislative activities relating to arms control and disarmament policies.

This legislation establishes the necessary administrative tools and financial support for the effective operation of our major arms control agencies—ACDA and OSIA—in the post-cold-war era.

With this explanation, I am confident these arms control agencies will continue to receive broad bipartisan support.

Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin [Mr. ASPIN], the chairman of the Committee on Armed Services, to explain whatever he wants to explain, and I take this opportunity to thank him and his staff for his valuable cooperation in making it possible to move this bill.

Mr. ASPIN. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, let me just say that I want to say how much we appreciate working with the gentleman from Florida and his staff, and we would like to commend them for their hard work in putting together this proposal and putting together this legislation.

I would like to also thank the gentleman from Florida [Mr. BENNETT], whose suggestion we incorporated in one of the amendments, and the gentleman from Ohio [Mr. McEWEN], whose suggestion we also incorporated in one of the amendments.

I would like to thank the gentleman from Florida—the two gentlemen from Florida—and the gentleman from Ohio.

Mr. Speaker, we have today a historic opportunity to reduce the threat Americans face from the Soviet Union. In the span of less than 2 years, we have seen the fall of the Berlin Wall, the collapse of the Warsaw Pact, the utter failure of Soviet communism, and now the disintegration of the Soviet Union itself.

Unlike the earlier developments, the collapse of the union presents Americans with real and tangible dangers as well as challenges and opportunities for a more peaceful world. I wish to address myself to those dangers and opportunities because they are the reason for the legislation before this House today.

We face the disintegration of a nuclear superpower. The former Soviet Union holds within its borders nearly 30,000 nuclear weapons and the bomb-making expertise to spawn new nuclear arsenals around the world. These facts represent real dangers to the United States and its allies.

The legislation before you would take steps to reduce these new threats posed to Americans by events in the Soviet Union.

First, it would help the Soviets make a start on dismantling this enormous and unnecessary nuclear arsenal by authorizing $400 million for a cooperative effort with the United States. For decades we have aimed our defense budgets at buying forces that would scare the Soviets out of using these weapons. Here is a chance to take them off the table for good. We cannot pass up this opportunity to help them reduce this arsenal.

Second, there is the prospect of social chaos this winter in the former Soviet Union due to severe shortages of medicine and food in critical areas. This prospect of social chaos presents us with two dangers.

Danger one: the nuclear danger. There is the possibility that the fabric of Soviet society will become so unraveled that even military discipline fails and nuclear weapons fall into the wrong hands. The prospect of nuclear weapons or fissile materials passing into unfriendly, perhaps undeterrable hands is a danger indeed. And the danger is not limited to materials. At some point, the deterioration of Soviet society will prompt a migration of nuclear expertise, and some of it will surely go to those who do not wish their neighbors or us well.

Danger two: the political danger. If this first winter of freedom in the Soviet Union is a disaster, we have to fear another coup attempt. The hardliners haven't left. They are very likely waiting for another chance. If they get one, they may succeed in ousting the democratic reformers. If democratic reformers are replaced by dictators, our hopes for even further reductions in U.S. defense spending could be dashed.

Therefore, we must defend ourselves against these two new dangers. The legislation before you responds to this urgent need. It is defense by different means, but it is defense, nevertheless. It would allow for urgent and direct action to defend our interests by avoiding social chaos in the Soviet Union this winter. It would authorize $100 million to allow the Department of Defense to airlift food, medicine, and other materials to areas of critical need in the Soviet Union as determined by President Bush. This would bypass the corrupt and collapsing Soviet transport system where so much is now lost or stolen.

Only one institution in the world has this capability. That institution is the U.S. military. The Soviet military could not accomplish it. The centrally directed Soviet transportation system is the problem, so it surely cannot be the solution. The only instrument we have capable of helping to avert social chaos this winter is the U.S. military. That is why this legislation enables President Bush—entirely at his discretion—to use Pentagon assets to transport food and medicine.

Once again, this is defense by other means but clearly defense.

There is a final element to this legislation. It would require that the President—to the extent he deems appropriate—seek reimbursement for any assistance from the recipient Soviet or other government in the former Soviet Union. It is an entirely appropriate addition.

Mr. BROOMFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I strongly support H.R. 3807 which authorized the President to transfer certain equipment to NATO allies pursuant to the implementation of the CFE Treaty.

The underlying bill was passed unanimously by the House last week. Yesterday the legislation was amended by the other body adding language regarding United States policy toward the Soviet Union. Today we consider specific amendments to that language.

It is important that the Congress complete consideration of this legislation. Delaying action until early next year will cost the U.S. taxpayer approximately $500,000 a month. In addition, any delay in sending this legislation to the President may prevent the U.S. from meeting its commitments required under the CFE Treaty.

There are additional reasons we should move this legislation forward. In my view, it is imperative that we seize the moment to take advantage of the opportunity to reduce the Soviet military threat at its source—within the Soviet Union itself.

I support the provisions in this bill regarding nuclear weapons destruction in the Soviet Union. The President should be provided with the authority to utilize, if he deems it necessary, appropriate funds to destroy and dismantle the nuclear and chemical weapons in the Soviet Union.

I urge support for the bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. FASCELL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion.

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida [Mr. FASCELL].

The motion was agreed to.

A motion to reconsider was laid on the table.

□ 0400

COMMENTS ON H.R. 3807, SOVIET NUCLEAR THREAT REDUCTION ACT OF 1991

(Mr. BENNETT asked and was given permission to address the House for 1 minute.)

Mr. BENNETT. Mr. Speaker, the bill we have just been considering was controversial when first suggested by the gentleman from Wisconsin [Mr. ASPIN]. A lot of people did not understand what he had in mind. As revised, with the amendments that worked out in the Committee on Armed Services and the Committee on Foreign Affairs, it provides that the countries that are going to be assisted, the Soviet empire, the independent countries, they are required to do some participation themselves in this. The President is authorized to do the best he can to work out arrangements with regard to things like oil, magnesium, and other assets that Russia has in large quantity. Russia and the Soviet empire are not poor in any respect. They have a lot of materials that we would like to buy. Along with the gentleman from Ohio [Mr. McEWEN], myself and others, we worked out some amendments which make it possible for us to have barter and other ways to keep the taxpayers of the United States from having to carry all of this burden.

Mr. McEWEN. Mr. Speaker, will the gentleman yield?

Mr. BENNETT. I yield to the gentleman from Ohio.

Mr. McEWEN. Mr. Speaker, I thank the gentleman from Florida [Mr. BENNETT] for yielding and wish to commend him for his leadership.

What happens on occasions like this, it seems like the generosity of the American people is so overwhelming we sometimes get our heart in front of our head. The truth of the matter is that much has to be done to rescue the Soviet Union from 70 years of socialism.

Mr. Speaker, you will, however, observe that the Japanese do not feel so obligated, the Germans do not feel so obligated, and the British do not feel so obligated, even though all of them would benefit from the actions taking place.

What the gentleman from Florida [Mr. BENNETT] has said is that this is going to cost the taxpayers some money, and it is going to cost the taxpayers of America some money. In the course of doing it, in the benefit of the global welfare of our planet, we should be able to have access to the abundant reserves that are there in the Soviet Union.

Mr. Speaker, the gentleman from Florida [Mr. BENNETT] has mentioned that perhaps the second largest oil reserves in the world are in the Soviet Union. The largest strategic metal reserves are in the Soviet Union. So as they have these capacities, we should be able to establish long-term contracts whereby the expenditures of the taxpayers of the people of America can be rewarded.

Mr. Speaker, if the gentleman would continue to yield, let me just share with you two paragraphs from Jane's Weekly of November 16, 1991, this past week, in which a discussion with the head of the Soviet Air Force was held, where he was asked whether the next generation of combat aircraft programs had fallen upon a cash hurdle due to their dilemmas.

General Laptev said, "Naturally, there are financial constraints, but so far, no, none has been stopped.

"Some of these programs are so advanced that it would be most damaging to stop them now," he added.

"In September Laptev said work for the Soviet Air Force was underway on improvements to existing MiG-29 Fulcrums and Su-27 Flankers, as well as development of new fighters comparable to NATO's next generation aircraft."

The gentleman from Florida [Mr. BENNETT] mentioned the discussion so well that we had, that we cannot pick up for the Soviet Union this burden if they are going to continue their modernization. Sixteen hundred tanks in the last 12 months, 4400 armored personnel carriers in the last 12 months, 575 jet fighters in the last 12 months, as well as they floated 11 new submarines and 40 new strategic bombers.

So in these negotiations what we are saying is as we help clean up the mess, the President of the United States should protect the American taxpayer by making sure we get paid in some kind in return from their natural resources.

Mr. Speaker, I thank the gentleman from Florida [Mr. BENNETT] for his leadership. He has done not only freedom a service, but America a service by demanding that this logical, common sense consideration be included in this bill.

Mr. BENNETT. Mr. Speaker, reclaiming my time, I thank the gentleman from Ohio [Mr. MCEWEN] for his leadership. It is very outstanding.

FUNDING OF NATIONAL INTERMODAL SURFACE TRANSPORTATION SYSTEM

Mr. Speaker, we are in a tight position with regard to allowing time on the transportation bill, so I would like to make some remarks about this.

The transportation bill, the idea of interstate highways, was born in the mind of Eisenhower when he was President, with the assistance of a Florida man, who brought it to his attention about this being an important thing to occur. So really the Eisenhower administration is known today as the father of the interstate system.

When it was started, it did not seem to be a bad thing to have States that were better off make donations in large amounts of money to the trust fund to provide for interstate highways in States where they could not raise that money. So for decades that has been the system.

But the formula under which that money was distributed was an archaic formula. It was based on such things as rural mail carrier routes.

So a few months ago, perhaps more than that, I read in the editorials of Florida about how Florida was getting such a bad drubbing under the existing law with regard to highways. So I wrote to these people that made those comments and I said, "What is the problem?" They explained to me about this antique system to provide for who got how much money under the highway program.

So I asked the heads of transportation in all 50 States to give me suggestions. They worked out a suggestion of a modern formula, things based on six-lane and eight-lane highways, based upon diesel utilization, the length of the roads, and things that make sense and make an entirely different formula, a formula which gives the donor States like California, Texas, Florida, and other growing States, a better chance to be financed in this type of activity.

Mr. Speaker, I took that to the Committee on Public Works and Transportation. They looked at it and they did the best they could with it. As a matter of fact, they did a pretty good job with it. They passed in the House of Representatives a bill which greatly improved that distribution of funds. They greatly improved it.

But now what do we have tonight? I regret to say I myself am going to vote against this bill because of the fact it is so unfair. It is even more unfair than the bill that passed in the Senate. The bill that passed in the Senate, for instance, gave Florida 83 cents on the dollar. This bill gives Florida 82 cents on the dollar. It is not much of an improvement.

Theoretically, and you will be told this by the committee when it gets before you, "Oh, BENNETT is wrong. You get 90 percent. Everybody gets 90 percent."

But that overlooks the fact that the 90 percent does not apply to all the money, it only applies to a portion of the money.

When you get all those other portions worked out, you find out that Florida just give 82 percent on the dollar.

Now, some States get 500 percent of what they pay in. Many States get a much larger amount of money than they pay in.

So it is very unfair in 1991 to have a system of taking care of our interstate highways which is based upon an archaic formula. It is very sad in the closing days of this 102d Congress, this session, that we are having to have a bill like this.

Mr. Speaker, I do not blame the House committee. It worked real hard. The gentleman from New Jersey [Mr. ROE] worked very, very hard, and so did the gentleman from Arkansas [Mr. HAMMERSCHMIDT].

□ 0410

The gentleman from Arkansas [Mr. HAMMERSCHMIDT] if Congress has a gentleman, it is the gentleman from Arkansas, JOHN PAUL HAMMERSCHMIDT. And also the gentleman from Kentucky, BILL NATCHER, on our side. He is a gentleman. I admire them tremendously.

I would say the Members that worked on both sides of the aisle tried to get out a good bill. They did get out a good bill. The House passed a good bill, but it went to conference.

I want to say something that I have observed about government here much more clearly than I ever observed before and that is, our constitution gives a terrible blow on some types of legislation. Here we have a Member of the U.S. Senate, representing only a small fraction of the population that I represent in the House of Representatives; and others in the Senate who are representing very few people, and they are able to vote down the vast majority of American citizens. So it is almost not democracy.

The majority of Members of Congress are from areas that are contributing to this situation very unfairly. The majority of Members of Congress are. But that is not true in the Senate.

So the Senate stood there adamantly and was able to achieve something unfair which I regret was achieved.

One other point about this. The Speaker in the House and the Presiding Officer in the Senate can help a little bit in a case like this. The way in which they should help is they should have put Members on the conference, even though they were not on the committee, who had something to do with the idea that we should be fairer with regard to the formulas.

I had asked both sides whether they would lend me any time on this bill, and they are pretty cramped for the time. So I am using this opportunity, but I am not mad about anything. Because the House committee worked hard to bring out what it did, and they tried to be fair about it to the very best of their ability.

I am not in any way running them down. I am saying it is a sad thing in 1991 that we are now passing a 6-year highway bill which has a formula that is tied to such things as rural mail carriers instead of 8-lane highways and the modern problems that we have with regard to highways. The modern formula was worked out, and it did do a good, fair thing to this situation and it did pass the House. But regrettably it died in the conference as a lot of good things do.

NONTRADITIONAL EMPLOYMENT FOR WOMEN ACT

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 367) to amend the Job Training Partnership Act to encourage a broader range of training and job placement for women, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from California?

Mr. GOODLING. Mr. Speaker, reserving the right to object, although I shall not object, I yield to the gentleman from California [Mr. MILLER] for the purpose of explaining what it is we are doing.

Mr. MILLER of California. Mr. Speaker, as the sponsor of H.R. 907, the Nontraditional Employment of Women Act, I urge my colleagues to support this legislation. H.R. 907 is identical to the NEW provisions in the Job Training Partnership [JTPA] Amendments of 1989, which was passed overwhelmingly in the House last year, and to S. 367.

This legislation is supported by the administration, the National Governors Association, the AFL-CIO, the Homebuilders Institute, and a number of women's organizations, including Wider Opportunities for Women, the National Tradeswomen Network, and the National Displaced Homemakers Network.

I want to thank my colleague from Maryland, Mrs. CONNIE MORELLA, who was the major cosponsor of this legislation, and the other numerous cosponsors from both sides of the aisle who strongly supported NEW.

The purpose of NEW is to increase nontraditional training and employment opportunities for women served by JTPA. Nontraditional occupations are those jobs in which 25 percent or less of the work force is female. Examples of nontraditional jobs are trades workers, electronic technicians, mechanics, and maintenance engineers.

Women in nontraditional jobs earn higher wages which enable them to become economically self-sufficient and support their families. In no way will NEW discriminate against men. They will continue to be eligible for training programs in all occupational areas.

NEW is needed because despite current JTPA language encouraging the elimination of occupational stereotyping, occupational segregation still exists in JTPA programs, and the gap in wages between women and men continues.

A 1991 GAO investigation of the Job Training Partnership Act found that JTPA, the only major source of employment training for the economically disadvantaged, dislocated workers, and others who face significant employment barriers, discriminates against blacks and women in the services it provides.

The GAO found that in one-third of the service delivery areas [SDA's], white participants were more likely to receive occupational training than black recipients; and in two-thirds of the SDA's, men were more likely to receive on-the-job training while women were more likely to receive classroom training for mostly lower wage jobs.

The GAO also found that the Department of Labor [DOL] and State JTPA agencies do not conduct sufficient monitoring activities to identify and address disparities; and when they are able to identify disparities, they do not take corrective actions. These disparities were attributed to the systemic problems in the way projects operate at the local level.

According to a 1989 GAO study, women graduates of JTPA programs earned an average of $4.65 an hour, 51 cents less than male graduates. The GAO found that less than 9 percent of women in JTPA supported classroom training were being trained in nontraditional occupations. These occupations pay an average of 30 percent higher wages than occupations which are traditionally female. Sixty-nine percent of the women who were placed in jobs after participation in JTPA were clustered in the two lowest paying occupational areas—clerical and sales, 43 percent, and service, 26 percent, of JTPA's nine occupational areas.

NEW requires services delivery areas and States to include goals in their annual job training plans for training and placing women in nontraditional employment. It creates a time-limited program out of existing funds, at a cost of $1.5 million annually, to foster the development and institutionalization of programs to train women for nontraditional employment.

NEW complements the Department of Labor's skilled trade initiative to help women gain access to the skilled trades by providing an incentive for JTPA funded training to prepare women for apprenticeships.

Over the last 6 months, three private industry councils have participated in a demonstration to implement the kind of goal setting which the NEW Act would require. These projects are in Hartford, CT, Milwaukee, WI, and Missoula, MT.

In all three service delivery areas, wide community support has already been generated to achieve the goals. It has proven neither costly nor a major administrative burden in any of these three communities to put in place the systems to make nontraditional training accessible to women.

This demonstration effort had been funded by the Ford Foundation, the Rockefeller Family Fund, the Aetna Foundation, and the Women's Bureau of the Department of Labor. The lessons learned in this project will make it easier to implement the NEW Act when it becomes law.

While NEW alone will not solve the inequities in JTPA training programs, it is a vital and important step to help ensure that women are trained in all occupational areas. I urge you to support this legislation.

Mr. GOODLING. Mr. Speaker, continuing my reservation of objection, I yield to the gentlewoman from Maryland [Mrs. MORELLA].

Mrs. MORELLA. Mr. Speaker, I thank the gentleman for yielding to me.

As the cosponsor of H.R. 907, the Nontraditional Employment for Women Act, I am pleased to join my colleague, Congressman GEORGE MILLER in urging passage of this critical bill.

I see this bill as an important elemental step toward achieving the kind of trained and prepared work force that will be needed over the next decades. It is a waste of our resources and human potential to continue the training of low income women in the narrow range of occupations that the Job Training Partnership Act programs have most frequently targeted for women. The concentration of women in training for clerical, sales, and low wage service jobs has had a negative effect on women's wages as well as a negative impact for employers making a good faith effort to find trained women for a broader spectrum of jobs. The NEW Act will address these issues in the Job Training Partnership Act.

The NEW Act is an appropriate strategy for this Congress to bring to the employment and training community at this time. We must be looking for strategies that will insure that economically disadvantaged women—especially those who are struggling to raise their children alone—are receiving services that promise a route out of poverty. Training for nontraditional employment—with its assurance of wages that are at least 30 percent higher in most occupations—is one of the most successful strategies toward this goal. All too often, we have been investing JTPA training dollars in training for jobs that keep women and their children in poverty.

I am pleased to support a bill that has the chance to improve the JTPA and its services to women without substantial new resources being required or burdensome overregulation. The NEW Act requires goal-setting and the development of data systems to measure progress. This is, I think, a good business strategy consistent with the overall direction of the Job Training Partnership Act.

I urge this House to support NEW and to join in moving toward a better trained, more flexible, and diverse work force.

THE NONTRADITIONAL EMPLOYMENT FOR WOMEN ACT: H.R. 906, S. 367

Status: Introduced in both the House and Senate on February 6, 1991. The Senate Labor and Human Resources Committee passed the bill unanimously on February 20, with no amendments. No action has been taken yet by the House Education and Labor Committee.

Summary: The bill is an amendment to the Job Training Partnership Act to increase nontraditional training and employment for women served by the JTPA. The bill:

Requires States and service delivery areas to set goals for training and placing women in traditionally male fields and to report on their results in meeting these goals;

Authorizes the State Job Training Coordinating Council to review the plans and outcomes of the service delivery areas and the governor, to make recommendations for future activities related to improving nontraditional training, and to disseminate successful approaches developed in the States;

Directs the governor and SJTCC to coordinate efforts for training and placing women in nontraditional employment under the JTPA and vocational education system;

Establishes a four year demonstration grants program to be awarded by the Secretary of Labor to no more than six States per year to expand/extend nontraditional training and employment programs throughout the State, utilizing $1.5 million annually from USDOL's national JTPA program monies; and

Directs the Secretary of Labor to report to Congress on the efforts made at the local, State, and national levels to train, place, and retain women in nontraditional occupations and to generate recommendations for legislative and administrative changes necessary to increase nontraditional opportunities for women under JTPA.

Rationale: As of 1988, only 9% of women workers were employed in nontraditional occupations—those in which 25% or less of the work force is female. These occupations pay an average of 30% higher wages than occupations which are traditionally female. Since 1983, however, the number of women in nontraditional jobs has remained relatively unchanged at 4% of the total workforce. In the Job Training Partnership Act, while more than 50% of those served are female, a study of 1986 enrollments showed that less than 9% of women in JTPA-supported classroom training were being trained in nontraditional occupations. In contrast, female participants were most often trained in clerical and caretaking occupations in which placements occurred less often and at lower wages. Given the low income and welfare status of many female JTPA participants training in nontraditional and higher skill occupations should be a priority.

While program models for training women in a wide variety of nontraditional occupations have been successfully implemented since the mid-1960s, these models have not been institutionalized throughout the JTPA system. A few programs, like those listed below, have demonstrated that nontraditional training can be successfully implemented;

T.R.E.E. (Training, Recruiting, Educating and Employing, Inc.) is a JTPA-funded nontraditional training program for women in Middlesex County, New Jersey. TREE provides eight weeks of hands on, pre-apprenticeship training in one of four fields: electrical, plumbing, drywall taping/finishing, and painting. TREE also provides women with support services, linkage to vocational-technical schools for literacy and basic skill training, and job placement assistance upon completion of the program.

STEP-UP of Women is a comprehensive nontraditional skills training program for women located in Vermont and New Hampshire. STEP-UP provides 13 weeks of training to 75 women each year, primarily in construction trades, such as carpentry, plumbing and welding. 80% of women completing the program are placed in jobs which provide further training through on-the-job training or apprenticeships. The program is funded by JTPA and Vocational Education funds.

Women Accessing Technology is a program of the Waukesha County Technical College in Wisconsin. The program assists women and high school girls to enter and complete technical training in fields such as Electronics and Telecommunications. WAT provides hands-on experience, as well as role model and employer contacts, career exploration and job shadowing.

Other examples of nontraditional employment skills training programs for women include: Bergen County Technical schools in Hackensack, NJ; ANEW in Renton, Washington; Nontraditional Employment for Women in New York City; Midwest Women's Center and Chicago Women in the Trades in Chicago; MiCasa in Denver; Women's Technical Institute in Boston; Prep, Inc. in Ohio; Women in the Skilled Trades (WIST) in Oakland, CA; and Women in Apprenticeship/Prep Inc. in San Francisco.

Major Supporting Organizations: The National Governors' Association, Wider Opportunities for Women, The National Tradeswomen's Network, the AFL/CIO, the Homebuilders Institute, the National Displaced Homemakers Network, the National Women's Law Center, Women Construction Owners and Executives, and the New York and Ohio State Employment Bureaus.

Mr. GOODLING. Mr. Speaker, continuing my reservation of objection, I would merely say that the new act is the same as the old act, which the gentleman from California [Mr. MILLER] explained, that was passed in our committee last year and in the House. Unfortunately, it did not make it to the Senate.

I should point out that the Department of Labor does not oppose the act. They do have two concerns. One concern being that it is earmarking some more money, we have already earmarked $8 million of their $35 million, that we earmark another million and a half. And their second concern, of course, is one that we may hear about sometime. They do have some concern about the increased reporting requirements and the administrative costs for the State and local government.

So in case we get that message when we get back home after this kicks in, do not act as if we do not know anything about it. We will just have to come back and fix it.

Mr. MILLER of California. Mr. Speaker, if the gentleman will continue to yield, I would like to recognize the work of our colleague, the gentleman from Kentucky [Mr. PERKINS] for all of the work and effort that he put into bringing this legislation to this point.

Mr. GOODLING. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 367

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Nontraditional Employment for Women Act".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) over 7,000,000 families in the United States live in poverty, and over half of those families are single parent households headed by women;

(2) women stand to improve their economic security and independence through the training and other services offered under the Job Training Partnership Act;

(3) women participating under the Job Training Partnership Act tend to be enrolled in programs for traditionally female occupations;

(4) many of the Job Training Partnership Act programs that have low female enrollment levels are in fields of work that are nontraditional for women;

(5) employment in traditionally male occupations leads to higher wages, improved job security, and better long-range opportunities than employment in traditionally female-dominated fields;

(6) the long-term economic security of women is served by increasing nontraditional employment opportunities for women; and

(7) older women reentering the work force may have special needs in obtaining training and placement in occupations providing economic security.

(b) STATEMENT OF PURPOSE.—The purposes of this Act are—

(1) to encourage efforts by the Federal, State, and local levels of government aimed at providing a wider range of opportunities for women under the Job Training Partnership Act;

(2) to provide incentives to establish programs that will train, place, and retain women in nontraditional fields; and

(3) to facilitate coordination between the Job Training Partnership Act and the Carl

D. Perkins Vocational and Applied Technology Education Act to maximize the effectiveness of resources available for training and placing women in nontraditional employment.

SEC. 3. DEFINITION.

Section 4 of the Job Training Partnership Act (hereinafter referred to as the "Act") is amended by adding at the end thereof the following new paragraph:

"(30) The term 'nontraditional employment' as applied to women refers to occupations or fields of work where women comprise less than 25 percent of the individuals employed in such occupation or field of work.".

SEC. 4. SERVICE DELIVERY AREA JOB TRAINING PLAN.

Section 104(b) of the Act is amended—

(1) by redesignating paragraphs (5), (6), (7), (8), (9), (10), and (11) as paragraphs (6), (7), (8), (9), (10), (11), and (12), respectively;

(2) by inserting after paragraph (4) the following new paragraph:

"(5) goals for—

"(A) the training of women in nontraditional employment; and

"(B) the training-related placement of women in nontraditional employment and apprenticeships;

and a description of efforts to be undertaken to accomplish such goals, including efforts to increase awareness of such training and placement opportunities;"; and

(3) in paragraph (12), as redesignated in paragraph (1) above, by—

(A) striking "and" at the end of subparagraph (B);

(B) striking the period at the end of subparagraph (C) and inserting in lieu thereof a semicolon; and

(C) adding after subparagraph (C) the following new subparagraphs:

"(D) the extent to which the service delivery area has met its goals for the training and training-related placement of women in nontraditional employment and apprenticeships; and

"(E) a statistical breakdown of women trained and placed in nontraditional occupations, including—

"(i) the type of training received, by occupation;

"(ii) whether the participant was placed in a job or apprenticeship, and, if so, the occupation and the wage at placement;

"(iii) the participant's age;

"(iv) the participant's race; and

"(v) information on retention of the participant in nontraditional employment.".

SEC. 5. GOVERNOR'S COORDINATION AND SPECIAL SERVICES PLAN.

(a) IN GENERAL.—Section 121(b) of the Act is amended by—

(1) redesignating paragraphs (3), (4), and (5) as paragraphs (4), (5), and (6), respectively; and

(2) by inserting after paragraph (2) the following new paragraph:

"(3) The plan shall include goals for—

"(A) the training of women in nontraditional employment through funds available under the Job Training Partnership Act, the Carl D. Perkins Vocational and Applied Technology Education Act, and other sources of Federal and State support;

"(B) the training-related placement of women in nontraditional employment and apprenticeships;

"(C) a description of efforts to be undertaken to accomplish such goals, including efforts to increase awareness of such training and placement opportunities; and

"(D) a description of efforts to coordinate activities provided pursuant to the Job Training Partnership Act and the Carl D. Perkins Vocational and Applied Technology Education Act to train and place women in nontraditional employment.".

(b) SPECIAL PROGRAMS.—Section 121(c) of the Act is amended by—

(1) redesignating paragraphs (9) and (10) as paragraphs (10) and (11), respectively; and

(2) inserting after paragraph (8) the following new paragraph:

"(9) providing programs and related services to encourage the recruitment of women for training, placement, and retention in nontraditional employment;".

SEC. 6. STATE JOB TRAINING COORDINATING COUNCIL.

Section 122(b) of the Act is amended by—

(1) redesignating paragraphs (5), (6), (7), and (8) as paragraphs (9), (10), (11), and (12), respectively; and

(2) inserting after paragraph (4) the following new paragraphs:

"(5) review the reports made pursuant to subparagraphs (D) and (E) of section 104(b)(12) and make recommendations for technical assistance and corrective action, based on the results of such reports;

"(6) prepare a summary of the reports made pursuant to subparagraphs (D) and (E) of section 104(b)(12) detailing promising service delivery approaches developed in each service delivery area for the training and placement of women in nontraditional occupations, and disseminate annually such summary to service delivery areas, service providers throughout the State, and the Secretary;

"(7) review the activities of the Governor to train, place, and retain women in nontraditional employment, including activities under section 123, prepare a summary of activities and an analysis of results, and disseminate annually such summary to service delivery areas, service providers throughout the State, and the Secretary;

"(8) consult with the sex equity coordinator established under section 111(b) of the Carl D. Perkins Vocational and Applied Technology Education Act, obtain from the sex equity coordinator a summary of activities and an analysis of results in training women in nontraditional employment under the Carl D. Perkins Vocational and Applied Technology Education Act, and disseminate annually such summary to service delivery areas, service providers throughout the State, and the Secretary;".

SEC. 7. STATE EDUCATION COORDINATION AND GRANTS.

(a) STATE EDUCATION COORDINATION AND GRANTS.—Section 123(a) of the Act is amended by—

(1) striking "and" at the end of paragraph (2);

(2) striking the period at the end of paragraph (3) and inserting in lieu thereof a semicolon and "and"; and

(3) inserting the following new paragraph at the end thereof:

"(4) to provide statewide coordinated approaches, including model programs, to train, place, and retain women in nontraditional employment.".

(b) USE OF FUNDS.—Section 123(c) is amended—

(1) in paragraph (2)(B) by striking "(1) and (3)" and inserting in lieu thereof "(1), (3), and (4)"; and

(2) in paragraph (3) by striking "(1) and (3)" and inserting in lieu thereof "(1), (3), and (4)".

SEC. 8. USE OF FUNDS.

Section 204 of the Act is amended by—

(1) redesignating paragraphs (27) and (28) as paragraphs (28) and (29), respectively; and

(2) inserting after paragraph (26) the following new paragraph:

"(27) outreach, to develop awareness of, and encourage participation in, education, training services, and work experience programs to assist women in obtaining nontraditional employment, and to facilitate the retention of women in nontraditional employment, including services at the site of training or employment,".

SEC. 9. DEMONSTRATION PROGRAMS.

Part D of title IV of the Act is amended by adding at the end thereof the following new section:

"DEMONSTRATION PROGRAMS

"SEC. 457. (a)(1) From funds available under this part for each of the fiscal years 1992, 1993, 1994, and 1995, the Secretary shall use $1,500,000 in each such fiscal year to make grants to States to develop demonstration and exemplary programs to train and place women in nontraditional employment.

"(2) The Secretary may award no more than 6 grants in each fiscal year.

"(b) In awarding grants pursuant to subsection (a), the Secretary shall consider—

"(1) the level of coordination between the Job Training Partnership Act and other resources available for training women in nontraditional employment;

"(2) the extent of private sector involvement in the development and implementation of training programs under the Job Training Partnership Act;

"(3) the extent to which the initiatives proposed by a State supplement or build upon existing efforts in a State to train and place women in nontraditional employment;

"(4) whether the proposed grant amount is sufficient to accomplish measurable goals;

"(5) the extent to which a State is prepared to disseminate information on its demonstration training programs; and

"(6) the extent to which a State is prepared to produce materials that allow for replication of such State's demonstration training programs.

"(c)(1) Each State receiving financial assistance pursuant to this section may use such funds to—

"(A) award grants to service providers in the State to train and otherwise prepare women for nontraditional employment;

"(B) award grants to service delivery areas that plan and demonstrate the ability to train, place, and retain women in nontraditional employment; and

"(C) award grants to service delivery areas on the basis of exceptional performance in training, placing, and retaining women in nontraditional employment.

"(2) Each State receiving financial assistance pursuant to subsection (c)(1)(A) may only award grants to—

"(A) community based organizations,

"(B) educational institutions, or

"(C) other service providers,

that have demonstrated success in occupational skills training.

"(3) Each State receiving financial assistance under this section shall ensure, to the extent possible, that grants are awarded for training, placing, and retaining women in growth occupations with increased wage potential.

"(4) Each State receiving financial assistance pursuant to subsection (c)(1)(B) or (c)(1)(C) may only award grants to service delivery areas that have demonstrated ability or exceptional performance in training, placing, and retaining women in nontraditional employment that is not attributable or related to the activities of any service provider awarded funds under subsection (c)(1)(A).

"(d) In any fiscal year in which a State receives a grant pursuant to this section such State may retain an amount not to exceed 10 percent of such grant to—

"(1) pay administrative costs,

"(2) facilitate the coordination of statewide approaches to training and placing women in nontraditional employment, or

"(3) provide technical assistance to service providers.

"(e) The Secretary shall provide for evaluation of the demonstration programs carried out pursuant to this section, including evaluation of the demonstration programs' effectiveness in—

"(1) preparing women for nontraditional employment, and

"(2) developing and replicating approaches to train and place women in nontraditional employment.".

SEC. 10. REPORT AND RECOMMENDATIONS.

(a) REPORT.—The Secretary of Labor shall report to the Congress within 5 years of the date of enactment of this Act on—

(1) the extent to which States and service delivery areas have succeeded in training, placing, and retaining women in nontraditional employment, together with a description of the efforts made and the results of such efforts; and

(2) the effectiveness of the demonstration programs established by section 457 of the Job Training Partnership Act in developing and replicating approaches to train and place women in nontraditional employment, including a summary of activities performed by grant recipients under the demonstration programs authorized by section 457 of the Job Training Partnership Act.

(b) RECOMMENDATIONS.—The report described in subsection (a) shall include recommendations on the need to continue, expand, or modify the demonstration programs established by section 457 of the Job Training Partnership Act, as well as recommendations for legislative and administrative changes necessary to increase nontraditional employment opportunities for women under the Job Training Partnership Act.

SEC. 11. DISCRIMINATION.

(a) For purposes of this legislation, nothing in this Act shall be construed to mean that Congress is taking a position on the issue of comparable worth.

(b) Nothing in this Act shall be construed to require, sanction or authorize discrimination in violation of title VII of the Civil Rights Act of 1964 or any other Federal law prohibiting discrimination on the basis of race, color, religion, sex, national origin, handicap, or age. No individual shall be excluded from participation in, denied the benefits of, subjected to discrimination under, or denied employment in any program under this Act because of race, color, religion, sex, national origin, age, handicap, political affiliation or belief. Failure to meet the goals in the Act shall not itself constitute a violation of title VII of the Civil Rights Act of 1964 or any other Federal law prohibiting discrimination on the basis of race, color, religion, sex, national origin, handicap, or age.

SEC. 12. EFFECTIVE DATE.

This Act and the amendments made by this Act shall take effect upon the date of enactment of this Act, except that the requirements imposed by sections 4, 5, and 6 of this Act shall apply to the plan or report filed or reviewed for program years beginning on or after July 1, 1992.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

□ 0420

ABANDONED INFANTS ASSISTANCE ACT AMENDMENTS OF 1991

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 1532) to revise and extend the programs under the Abandoned Infants Assistance Act of 1988, and for other purposes, with a Senate amendment to the House amendments thereto, and agree to the Senate amendment to the House amendments.

The Clerk read the title of the Senate bill.

The Clerk read the Senate amendment to the House amendments, as follows:

On page 13, after line 14, of the House amendment to the text of the bill, insert:

SEC. (9) Amend Section 105 of the Older Workers Benefit Protection Act (PL 101-433) by striking the semicolon at the end of paragraph (b)(1) and inserting thereafter the following: "; or that is a result of pattern collective bargaining in an industry where the agreement setting the pattern was ratified after September 20, 1990, but prior to the date of enactment, and the final agreement in the industry adhering to the pattern was ratified after the date of enactment, but not later than November 20, 1990;'".

Mr. MILLER of California (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment to the House amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from California?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 1532 the Senate bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California.

There was no objection.

CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. ROE. Mr. Speaker, the final details are now being completed, and the conference report with proper signatures will be here momentarily. I ask unanimous consent that we proceed with the debate on the conference report on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The SPEAKER pro tempore. The gentleman from New Jersey [Mr. ROE] will be recognized for 30 minutes, and the gentleman from Arkansas [Mr. HAMMERSCHMIDT] will be recognized for 30 minutes.

The Chair recognizes the gentleman from New Jersey [Mr. ROE].

Mr. ROE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank my colleagues for their indulgence in allowing us to proceed because it will save time in the long run.

Mr. Speaker, I wish to thank all of the conferees who literally worked around the clock for weeks, especially my colleagues on the Public Works and Transportation Committee. I do want to pay the highest regard and special tribute to their leadership, particularly the gentleman from Arkansas, Mr. JOHN PAUL HAMMERSCHMIDT, our ranking member; the gentleman from California, Mr. NORM MINETA, the subcommittee chairman; the gentleman from Pennsylvania, Mr. BUD SHUSTER, the ranking member.

I also want to take this time publicly to thank Senator DANIEL PATRICK MOYNIHAN of New York and the other Senate conferees for their tremendous cooperation and support. If ever the Members of the House owed a great deal of praise and regard for a staff that has worked on this bill in the last 3 weeks, day and night, Saturdays and Sundays, 18 hours a day, I would like to highly compliment the staff of the Public Works Committees of both the House and the Senate who have made it possible for us to arrive at this point.

Mr. Speaker, I am proud to present to the House, on behalf of the Committee on Public Works and Transportation and on behalf of the 92 conferees, the Intermodal Surface Transportation Efficiency Act of 1991, a bipartisan bill that will stand as the centerpiece of our domestic and economic agenda for years and decades.

Tonight on this floor we are marking the start of a new transportation era for America. We are bringing to this

House a surface transportation policy bill, an economic agenda, an environmental program and an energy conservation measure, that will touch the life of every American. We are starting to rebuild America.

I wish to thank all of the conferees who have literally worked around the clock for weeks, especially my colleagues on the Public Works and Transportation Committee. I want to pay special tribute to the other members of the committee leadership with whom I have worked so closely during the last few months: JOHN PAUL HAMMERSCHMIDT of Arkansas, NORMAN MINETA of California and BUD SHUSTER of Pennsylvania.

I also want to thank Senator DANIEL PATRICK MOYNIHAN of New York and the other Senate conferees for their tremendous cooperation and support.

All of us in the House owe a tremendous thanks to the staff of the Public Works and Transportation Committee. They have worked on this bill in a totally bipartisan manner for more than 2 years and virtualy continuously for 7 months to get this job done. This has been a humongous job and the staff has risen to the occasion.

Working together, we have produced a bill that will meet the vast and varied surface transportation needs of the entire Nation.

First and foremost, every State will receive back 90 cents on the dollar from the highway trust fund. We labored for 3 weeks over this issue because it is one of simple fairness and equity to all the States. We have worked to balance the interests of all the States: The donor States, the rural States, the urban States, the growth States.

With this bill we are rebuilding America. We will have an increased investment of 46 percent in our Nation's highways and bridges, and a virtual doubling of the Nation's transit commitment.

Never before has there been the enormous investment that this bill authorizes, directs and promotes. It will have a huge impact on the economic dynamics of the entire Nation. Our people need transportation, they need jobs, they need clean air. This bill will bring about a better transportation system through intermodalism, it will result in better coordination with environmental needs and it will improve the quality of life.

The overriding question is what kind of America will we have? How do our people get to their jobs, to their schools, to commercial areas, to airports and to ports? How do we invest in our infrastructure to develop a national intermodal transportation system for the future as we enter the 21st century? We must build on the successful efforts of the past but we must also move in bold and audacious new directions in transportation policy.

This bill is more than a highway bill, it is more even than a surface transportation bill. There is nothing more important today than the economic condition of the Nation. We are bringing before the House an economic program that will create 2 million real jobs for Americans. These are real jobs that are creating the new wealth of the Nation for the 21st century through investment in the transportation infrastructure.

This bill is an investment in the economic and environmental future of America. Everyone here should be aware that there is no more important legislation in this Congress for the quality of life of all Americans than this transportation policy bill.

This legislation will have a dynamic economic effect on America. We will be creating jobs—real jobs. We will be investing in our Nation and we will be preparing for competition in the global economy.

It is time our Nation made this major and significant commitment to upgrading our transportation infrastructure. Our foreign rivals, Germany, France, and Italy have all been engaged in major infrastructure investment programs that have led to significant productivity growth. Japan has embarked on a 10-year, $3.2 trillion infrastructure investment campaign, Taiwan on a 6-year, $300 billion campaign.

We are using the optimum resources of the highway trust fund to put trust back in the trust fund by spending down the balance. Durings the 6 years of the bill, the balance in the highway account will be reduced from $11.4 to $2.3 billion. Most importantly, we are using the American taxpayers' transportation funds for transportation purposes and not for shielding the public deficit. We are rebuilding America.

This bill meets the transportation needs of every part of our Nation: Urban, suburban, and rural. We have worked throughout the year on a bipartisan basis to emphasize flexibility, equity and balance. We ask the support of the Members of this House for this new transportation policy for the Nation, a policy that will provide the direction to lead our Nation into the 21st century.

A list of conferees follows:

PUBLIC WORKS AND TRANSPORTATION COMMITTEE CONFEREES

Mr. Roe, Mr. Anderson, Mr. Mineta, Mr. Oberstar, Mr. Nowak, Mr. Rahall, Mr. Applegate, Mr. de Lugo, Mr. Savage, Mr. Borski, Mr. Kolter, Mr. Hammerschmidt, Mr. Shuster, Mr. Clinger, Mr. Petri, Mr. Packard, Mr. Boehlert, and Mrs. Bentley.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield myself 4 minutes.

Mr. Speaker, I rise in strong support of the conference report to accompany H.R. 2950, the Intermodal Surface Transportation Efficiency Act of 1991.

I want to thank all of the 92 conferees from both bodies for their dedication, hard work, and determination to make certain that we reached agreement on a bill that would be acceptable to both Houses and could be sent to the President for his signature.

I especially want to commend my good friend, BOB ROE, chairman of the Public Works and Transportation Committee and chairman of the conference; Surface Transportation Subcommittee Chairman NORM MINETA; and the subcommittee's ranking member, BUD SHUSTER, for their tremendous leadership, perseverance, and cooperative effort in helping bring the conference to a highly successful conclusion. I also add my deepest appreciation to our very professional and dedicated staff.

Mr. Speaker, I am pleased that the conference agreement retains the strengths of the bill passed by the House on October 23. As we provided in the House bill, the conference agreement authorizes $151 billion over 6 years to move the Nation's vitally important Surface Transportation Program forward.

Mr. Speaker, in addition to that this is a jobs bill.

According to the Department of Transportation funding the program at these levels could create up to 4 million jobs. And it's going to happen at an opportune time in our Nation's economic slow down.

The conference agreement also provides for the creation of a 155,000-mile National Highway System, which will include the Interstate System and principal arterial routes, and it funds this new program at the more adequate levels proposed by the House.

This conference agreement also recognizes that many highway corridors were left off the interstate map when it was first drawn. Therefore, the National Highway System will include major transportation corridors that provide the highest level of service and carry the greatest amount of traffic.

As we invest in the Nation's surface transportation infrastructure through this agreement, we will also be spending down the balance in the highway trust fund to about $2.5 billion in fiscal year 1997.

The conference agreement goes to considerable lengths to provide greater equity in the apportionment of funds. It raises from 85 to 90 percent the return that States receive relative to what they contribute to the highway trust fund.

In addition, the agreement provides minimum allocation States with bonus minimum allocation funds, and it provides funds where necessary to ensure that such States receive at least a 90 percent return on their trust fund contributions. Hold harmless funds are also provided to assure that a State's fiscal year 1992 funding level does not fall below its fiscal year 1991 level.

Clearly, the conferees made every effort to provide equity in the distribution of trust fund dollars. And it is important that the Members of this body realize that while some States still may want more than they will be receiving under the agreement, the funding in the bill provides States with a 46-percent increase over the next 6 years relative to the funding they have received over the past 5 years.

This conference committee fully realized the pressing transportation infrastructure needs that exist all over the Nation. I believe that we have provided a strong response in H.R. 2950, and I urge my colleagues to support it.

Mr. Speaker, I would like to take this opportunity to clarify the provision in the bill authorizing high priority cooridors through several States. The table printed in the bill describing the corridor segments lists the States associated with the project. There has been some confusion as to whether this listing somehow prejudices the alignment of the corridor.

Let me give you an example. One of the corridors in the bill is the North-South corridor from Kansas City, MO, to Shreveport, LA. A segment of this corridor from Alma, AR, to the Louisiana border is designated for special funding. The chart lists Texas and Arkansas for this segment.

This does not mean, however, that the alignment must go through Texas to reach the Louisiana border. The corridor ultimately selected could be entirely in Arkansas. There is no requirement that the route go through Texas. The decision on the best alignment for the route is left to the States of Arkansas, Texas, and Louisiana, working cooperatively with the Department of Transportation.

A similar situation exists with respect to the avenue of the Saints. Even though the chart lists three States for this corridor project, this in no way precludes the selection of an alignment which traverses States not listed in the chart.

The listing of States in the charts accompanying the high priority corridors and other projects are not binding and do not prevent States from choosing the best alignments for the projects.

In any event, the corridor program is an important one. I am especially aware of what the upgrading of these corridors can mean to areas of the country undergoing tremendous growth and expansion.

Northwest Arkansas, for example, has experienced such rapid growth that the existing highway system is simply inadequate to meet the demand.

That is why the high priority corridor designation of the North-South Highway 71 corridor from Shreveport to Kansas City and the Highway 412 corridor from Tulsa to Nashville, through Arkansas, is so very important. As such, there 2 routes will be eligible for funding over and above Arkansas' normal apportionments and, thus, construction on them can be expedited.

The conference agreement also authorizes funding for other important Arkansas projects as well. These include a four-lane highway for Harrison to the Missouri line and the extension of Phoenix Avenue in Fort Smith.

An important study is authorized to examine alternate locations for traffic flow on and around Highway 71 in the Bella Vista area.

Funding is also provided for the Devalls Bluff Bridge replacement project over the White River and for the Mississippi Great River Bridge. Needed interchange work at Jonesboro will be able to go forward, as well as construction on the North Belt Freeway in Little Rock.

The conference agreement names the University of Arkansas at Fayetteville as the site of a new National Rural Transportation Study Center, where research and training will be conducted in the development and operation of rural intermodal transportation systems.

Funds will be made available to purchase a needed handicapped-accessible, electrically powered bus for the Eureka Springs Transit System.

The agreement also authorizes the Department of Transportation to test luminous all-weather safety markers, and it permits the State of Arkansas to train county, city and town traffic officials in the use of uniform traffic control devices.

Mr. Speaker, the conference report also includes provisions to modify certain stormwater permit application deadlines established pursuant to the Clean Water Act. This section focuses on municipally owned or operated stormwater discharges associated with industrial activity. It codifies various deadlines established by EPA in its most recent rulemaking for permit applications for industrial operations owned or operated by certain municipalities.

It also modifies certain regulatory requirements set out by EPA. For example, municipalities with populations of less than 100,000 would not be required to apply for permits for stormwater discharges associated with industrial activities except for power plants, uncontrolled sanitary landfills, and airports. The provision also establishes a new statutory deadline for part II group applications for stormwater discharges associated with industrial activities owned or operated by a municipality.

The conference report, however, does not address any permit requirements or deadlines for stormwater discharges associated with industrial activities not owned or operated by municipalities. In my view, this is unfortunate. At the very least, it requires some clarification.

First of all, our decision to focus on municipal discharges does not reflect a lack of concern about the regulatory impacts imposed upon privately owned industries. In fact, a large number of these non-municipal dischargers are small businesses that have limited resources and are relying heavily on group applications or general permits to achieve compliance. It is important that we not lose sight of the regulatory burdens industries will face under the stormwater permitting regime.

It is also important to note, Mr. Speaker, that nothing in the conference report affects most of the dates for submitting stormwater permit applications established in EPA's recent rulemaking published in the Federal Register on November 5, 1991. The rulemaking extended the application deadlines for industries owned or operated by municipalities and those privately owned industries discharging into municipal storm systems. The conference report, while silent on the deadlines for these privately owned industries, is not intended to override the dates established in EPA's rulemaking action.

Nor, Mr. Speaker, is anything in the legislation intended to prejudice or in any manner affect existing litigation, including *Natural Resources Defense Council* v. *U.S. EPA*, case No. 90-70671 and 91-70200 (9th Cir., 1990).

The conference report includes provisions from both the House- and Senate-passed bills relating to wetlands mitigation banks. The legislation authorizes the use of Federal transportation funds for wetlands conservation, restoration, and creation efforts—including the establishment and use of mitigation banks.

The legislation adds some important new authorities to strengthen wetlands protection efforts. For example, State and Federal transportation officials will now have greater opportunities to protect, conserve, and restore our Nation's existing wetlands base while meeting transportation needs.

The conference report will help to encourage further development and use of wetlands restoration and creation efforts. The science of wetlands creation is not without controversy. This legislation, however, will help to provide funds and authorities to explore more opportunities but without waiving any applicable Federal Laws or regulations.

The conference report does not include provisions from the Senate-passed bill relating to the protection of private property rights. From my perspective, this is regrettable; the provisions could have helped to ensure greater deference by Federal regulatory agencies to rights guaranteed by the fifth amendment—particularly in the arena of wetlands regulation under section 404 of the Clean Water Act.

It is important to note that many conferees agreed to delete the provisions primarily because of procedural obstacles or concerns in the final days of the first session. The conference on

H.R. 2950 simply was not the best forum to address, at least in a comprehensive manner, this emerging issue of critical importance.

Reauthorization of the Clean Water Act, which I would hope includes revisions to the section 404 wetlands regulatory program, may present a more appropriate context. I look forward to this opportunity next session, and I think a majority of Members in this body does as well.

I am also pleased to note that this conference report includes the Washington airports legislation in exactly the same form as it passed the House last week. This legislation revises the governing structure of the Metropolitan Washington airports authority to resolve constitutional concerns raised by the Supreme Court.

As revised, the airports board of review will become an advisory board that will monitor certain activity at the two airports and screen those actions that are worthy of further congressional consideration. Passage of this legislation now is important, since it will ensure that the capital improvement programs at National and Dulles Airports can move forward without interruption.

Mr. Speaker, this legislation, in its entirety, deserves the support of my colleagues, and I urge its approval.

☐ 0430

Mr. ROE. Mr. Speaker, I yield 5 minutes to the gentleman from California [Mr. MINETA], the Chairman of the Subcommittee on Surface Transportation of the Committee on Public Works and Transportation.

I might say to all our colleagues here, that he has done an extraordinarily good job on this bill over the last 2 years. I want to commend the gentleman for the great work he has done for our country.

Mr. MINETA. Mr. Speaker, as everyone well knows, the hour is early and we want to get on with the conference report.

I have got to say that there is nothing that I have been connected with than the Civil Liberties Act of 1988 that I can say I have had more pride in putting together and working with a very fine group, and that is the Intermodal Surface Transportation Infrastructure Act of 1991, working with the likes of the chairman, the gentleman from New Jersey [Mr. ROE], a dedicated, hard-driving person who looks into the details of the bill, with the very fine gentleman from Arkansas [Mr. HAMMERSCHMIDT], the ranking Republican on the full Committee on Public Works, and with the gentleman from Pennsylvania [Mr. SHUSTER], probably the most knowledgeable person in the House of Representatives when it comes to surface transportation law.

Two-and-one-half-years ago when the members of the Public Works and Transportation Committee elected me to chair the Subcommittee on Surface Transportation, I knew that we had two challenges. One was to arrest the decay of infrastructure in the United States, and the other was to get a bill together that would take us into the 21st century after the completion of the interstate era, so we have done that. For 2½ years we have held hearings across the country. We have listened to people about what they want in their transportation system and what they think they need in the transportation system.

Mr. Speaker, once again, I would like to commend you for your leadership on this issue.

Many of my committee colleagues have heard me say that the House and Senate surface transportation bills were, at one time, like two ships passing in the night.

They were indeed very different.

I do believe, however, that the House and Senate conferees have been able to construct a single 6-year vision for America that will in fact build an innovative and effective transportation network second to none in the world.

As chair of the Surface Transportation Subcommittee, I have spent much of the last 2½ years traveling throughout America, holding hearings, and listening to what the American people want and what their transportation needs are.

My conclusion:

The highways, bridges, and transit systems of the United States have fallen apart because the Federal Government has fallen down on the job and has tried to get States and localities to pick up the tab to fix the mess.

And the message to this Congress could not be more clear:

The cold war is over.

America and freedom won that war.

It is now time to build American roads and transit systems—not American bombers.

In the future, the security of this Nation will depend less on how fast an ICBM travels to the former Soviet Union and more on how fast commerce travels through our transportation network.

Our transportation network is an integral part of our economy and, therefore, our national security.

It is now absolutely essential that America do more than reverse the collapse of our annual transportation investment from 2.3 percent of our gross national product in the 1960's and 1970's to four-tenths of 1 percent from the 1980's to this very day.

That is why we must begin, today, here in this Congress, to build a new transportation age in America.

This conference report embodies a program to rebuild America not the way some faceless bureaucrats in Washington, DC, dictate it, but the way the American people are demanding that it be rebuilt—through us, the Congress.

That is the way it should be.

And that is the way it is in our 6-year, $151 billion plan for America.

This legislation is a genuine new transportation policy for America, and a tremendous investment in our future.

The flexibility designed into this law is unprecedented, and of particular importance to States like my home of California which will grow enormously in the balance of this century, and into the next.

Mr. Speaker, I am also pleased that we were able to include titles addressing our serious highway safety and motor carrier needs.

Studies call for transportation investments of up to $3 trillion during the next 20 years. We can differ about the final cost, but to me there are no more universal truths than these:

First, the transportation needs are there.

Second, how we spend the money we have is at least as important as how much money we spend.

Mr. Speaker, this conference report takes the best of the House and Senate bills and will get the job done.

The final legislation retains the integrity of the proposed National Highway System while enhancing the role of the local officials and metropolitan planning organizations.

Mr. Speaker, I must say at this point that I regret that the conference was unable to accept the state allocation formulas detailed in the House bill.

I believe that these formulas represented a fair return on the highway trust fund contributions of donor States.

However, the conference report does provide States with unprecedented funding levels and flexibility.

During the last 5 years, our Nation spent $86 billion on our National Highway Program.

During the next 6 years, our legislation provides more than $119 billion to make our roads and bridges ready for the 21st century.

As importantly, our legislation authorizes transit funding levels which doubles the wholly inadequate funding levels we have known in the past.

This is a tremendous victory in our efforts to meet the requirements of the Clean Air Act, relieve congestion, and encourage new energy alternatives.

And perhaps most important, Mr. Speaker, this legislation comes at a time when it is desperately needed—both in terms of our infrastructure, and for our Nation's economic health.

At a time when the White House continues to deny the effects of the economic recession, we have before us legislation that will create 2 million jobs over the next 6 years.

And while the people of 1600 Pennsylvania Avenue haven't seen or felt the effects of the recession, Mr. Speaker, you have only to ask the people of Bethlehem, PA, if there is a recession.

Or the people of Chicago.

Or the people of Lafayette, LA.

Or the people of San Jose, CA.

They will tell you that our economy is hurting.

They will tell you that America needs this legislation, and we need it now.

Mr. Speaker, this legislation will improve how Americans get from here to there, as well as the air we breathe, our quality of life, and the future of our economy.

Mr. Speaker, America deserves nothing less.

I urge my colleagues to support the conference report on H.R. 2950.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield 5 minutes to the gentleman from Pennsylvania [Mr. SHUSTER], the distinguished ranking member of the subcommittee.

Mr. SHUSTER. Mr. Speaker, just as the American people looked back to the creation of the Interstate System a half century ago and see it as the very foundation upon which our transportation system was built in this century, the American people in the 21st century will look back to what we do here today as the foundation upon which an integrated transportation system will be built for the next century.

In fact, today we here create a national highway system for America, building on the Interstate System, adding about 110,000 additional miles and integrating a transportation system not only with highways, but with transit as well.

□ 0440

Here today we have the opportunity to make a major investment in the future of America and, yes, most of the money comes out of the highway trust fund, which means we are not adding to the deficit in the general fund.

One of the few programs here in Washington that we can say is financed on a pay-as-you-go basis.

Mr. Speaker, I certainly should emphasize that this has been a bipartisan effort from the very beginning. Chairman ROE, Chairman MINETA, Congressman HAMMERSCHMIDT, we have all worked together. We have been full partners on both sides of the aisle to craft this legislation.

Mr. Speaker, this afternoon it was announced that the President of the United States does support this bill and he will sign this bill.

Beyond the transportation implications for our country, it is of enormous importance to note that a minimum of 2 million jobs will be created directly by this legislation and perhaps another 2 million on top of that. But if you just take the 2 million jobs and look at a very small State, say a State that gets only 1 percent of the fund from this bill, 1 percent of 2 million jobs is 20,000 jobs, in a small State. Certainly, if there were ever any time when we need this kind of a jobs program that is going to rebuild America and help get this economy moving, now is that time.

Mr. Speaker, I can tell you that the conferees fought very hard to preserve the projects in this bill, and we succeeded in doing that. We preserved the projects which are so important to the Members across America. While those projects represent only 3.3 percent of the dollars in the bill, I know for our colleagues across America those projects are significant, and indeed it is right and proper that the elected Representatives of the people should be able to have some say in what gets built back in their congressional districts.

The faceless, nameless bureaucrats will be making most of the decisions, but it is right that Members be able to say what is most important in their district. Your conferees have preserved that right.

Mr. Speaker, I do not agree with everything in this bill. If I were writing it myself, I would have done some things differently.

It is said that one of the colleagues of John Adams criticized him because they said he fret the extremities without ever focusing on the heart of the matter. I am sure virtually every one of us can fret about some of the provisions in this bill, but more important than fretting about the extremities, I hope we focus on the heart of the legislation, which is: building a fundamental transportation system for America and creating jobs.

Mr. Speaker, I would be derelict if I did not emphasize to the House tonight that our staff on both sides of the aisle performed absolutely magnificently. Led by Jack Doyle and Jack Schenendorf the entire staff worked night and day and weekends.

While we like to think we as conferees work hard, I can tell you they worked much, much harder than we did. So we bring to you today legislation that, indeed, is historic in nature, and we urge you to vigorously support this historic bill.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. ROYBAL].

Mr. ROYBAL. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, I rise in support of the conference agreement on the Surface Transportation Assistance Act. I would like to commend Chairman ROE, the ranking minority member, Congressman HAMMERSCHMIDT and all the conferees on their efforts in crafting an excellent final conference report. This report provides flexibility for State and local officials to transfer highway funds to mass transit in areas such as Los Angeles, where unfettered highway construction is clearly not the answer to congestion and gridlock.

I especially want to extend my support to the provisions which authorize the construction of the third segment of the Los Angeles Metro Rail Red Line project, and in particular, the east side extension. The eastern extension will bring metro rail into east Los Angeles for the first time and plan for improved rail transit services to the eastern communities of Los Angeles County as well. In addition, these provisions authorize extensions into the San Fernando Valley and provide for service into west Los Angeles without having to excavate through a methane gas risk zone. An overall amount of $1.2 billion will be divided among the three segments of the MOS–3 portion of the Los Angeles Metro Rail system. With an immediate amount of $695 million available and an additional $535 million in advance construction funds, this long-awaited project will bring metro rail to several communities by 2001.

This extension to east Los Angeles will truly provide a much-needed means of transportation to neighborhoods that have been vastly underserved in the past. With several studies already completed, the estimated ridership for the combined segments serving east and west Los Angeles is well over 360,000 passengers. In east Los Angeles, there is a dire need to upgrade transportation services. As part of a major travel corridor which crosses the city of Los Angeles and unincorporated portions of Los Angeles County, the "east side corridor" encompasses such important areas as the central business district on the west, I–10—the San Bernardino Freeway—on the north, Garfield Boulevard on the east and I–5—the Santa Ana Freeway—on the south. Since 1987, the population on the east side has increased by almost 9 percent, three times the regional growth rate. This creates an even higher demand for transit. At the present time, there are more than 56,000 daily east side bus trtansit boardings, far exceeding the Federal minimum of 15,000 riders required to demonstrate a need for rail transit. Individuals traveling to and from the east side must use heavily congested streets and freeways to reach their jobs and on their return home, further adding to the delay and gridlock of this massively overburdened transportation system. Additionally, the east side is already slated for improvements under the Southern California Association of Governments' Regional Mobility Plan.

Improved transit service will reduce travel times and thereby increase availability of regional connections and socio-economic opportunities for east Los Angeles residents. These benefits will include job, education, medical, shopping, and cultural opportunities. As a representative of a district that is very dependent on public mass transit systems, I feel that this legislation strongly addresses the specific transportation needs of all segments of the diverse communities that make up the Los Angeles area. In additon to the transportation benefits derived by our citizens, this legislation will play a vital role in relieving the problems of air quality and congestion that plague our area.

I am proud to have developed, along with my colleagues in surrounding districts, a unified effort to keep all portions of this interrelated project intact both in construction and funding, thus ensuring that east Los Angeles and other communities will share in the advantages that this system will bring. The invaluable input, concern, and assistance from community organizations and from the Los Angeles County Transportation Commission has helped to develop an excellent foundation for continued neighborhood participation in this profound public endeavor. I wholeheartedly extend my support and will continue to work for completion of this transportation initiative that is of such critical importance to both my constituents and all the residents of Los Angeles. I would also urge my colleagues to vote in favor of this conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. BORSKI].

Mr. BORSKI. Mr. Speaker, I rise in strong support of the conference report.

Mr. Speaker, I want to join my fellow conferees in strong support of the conference report on H.R. 2950, the Intermodal Surface Transportation Efficiency Act of 1991.

I want to commend Chairman BOB ROE and NORM MINETA, and the ranking Republicans JOHN HAMMERSCHMIDT and BUD SHUSTER, for their strong leadership in crafting this visionary legislation which will guide America's transportation future into the 21st Century.

What makes this legislation revolutionary is its dramatic shift toward public transit. Never before has Congress made such a strong commitment to transit.

The legislation authorizes $31.5 billion over a 6-year period for public transit, virtually doubling current levels of transit funding and reversing what has been a 10-year decline in transit spending.

But the commitment to public transit extends beyond dollars and cents to a fundamental change in the way we view transit and its relationship to the entire transportation system.

Earlier this year, when Transportation Secretary Skinner testified before the Public Works and Transportation Committee, I asked him why the Urban Mass Transit Administration [UMTA] was not identified as a Federal agency of national scope, as is the case for the Federal Aviation Administration, the Federal Highway Administration, and other agencies which regulate modes of transportation.

My point was simple. Strong public transit is critically important to an integrated national transportation system. Transit is not simply an urban or city transportation system which receives Federal dollars but a system of travel warranting as much Federal attention as highways, aviation, rail, and water navigation.

H.R. 2950 recognizes that fact.

It renames UMTA the Federal Transit Administration.

H.R. 2950 also adopts a bold, new flexible funding program, enabling State and local officials to transfer almost two-thirds of Federal highway funds to transit to meet clean air requirements, reduce congestion, and to provide transportation services for working people and senior citizens.

This legislation places highways and transit on a level playing field by equalizing their Federal matching shares. This will remove incentives for States to build highways over transit, which has always received a smaller Federal match.

Finally, H.R. 2950 contains important provisions strengthening the role of Metropolitan Planning Organizations [MPO's] in project selection.

This will be of great benefit to public transit. MPO's understand the needs of our congested metropolitan areas and they will now have greater say in determining how best to use Federal transportation dollars in urbanized areas.

Clearly, H.R. 2950 represents a new commitment to public transit and one I am proud to support this legislation as a member of the Public Works and Transportation Committee.

No longer is public transit the big loser to highways in surface transportation funding. No longer is transit the ugly stepchild of Federal transportation policy. Instead, transit has finally become an equal member of the transportation family. That will benefit us all.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia [Mr. PAYNE].

Mr. PAYNE of Virginia. Mr. Speaker, I too rise in strong support of the bill.

Mr. Speaker, I rise in support of the conference report and thank CHAIRMAN ROE, subcommittee chairman, NORM MINETA, and ranking minority members JOHN PAUL HAMMERSCHMIDT and BUD SHUSTER for their excellent work in this conference.

This legislation creates a comprehensive national transportation system that will move our Nation, our industries, and our people competitively into the 21st century.

It will help restore America's preeminence in the world economy.

In the long term, this important massive investment in our infrastructure will improve our productivity and make us tough competitors around the world in the next century.

In the short term, passage of this legislation will do more to stimulate the economy than any legislation we have considered in this session of Congress.

It will create nearly 2 million jobs—2 million badly needed jobs in today's tough economic times.

Mr. Speaker, this bill is a thoughtful and far-reaching blueprint for the Nation's transportation system.

And it is fair.

As a member of the committee from Virginia, a donor State, I can assure you that this bill will distribute funds more equitably than any previous transportation authorization.

My State, like other donor States, will receive a much greater portion of the money they have contributed to the highway trust fund.

The increased funding level and the fact that Virginia receives about 7 more cents back from each dollar it contributes to the trust fund means that Virginia, which has averaged $290 million per year, will receive about $425 million annually over the next 6 years.

This is good news for all Virginians and, indeed, for all Americans, since other States are being treated similarly.

This legislation will put Americans back to work immediately, and it will make America more competitive well into the future.

Mr. Speaker, this is a good bill for our State. It is a good bill for all Americans.

I urge my colleagues to support this important piece of legislation.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. NOWAK].

Mr. NOWAK. Mr. Speaker, I rise in strong support of the conference report on H.R. 2950, the Intermodal Surface Transportation Assistance Act of 1991.

This legislation provides a new, creative master plan that is balanced, to meet the transportation needs of the urban, suburban, and rural areas of our Nation.

This creative plan was the vision of the bipartisan leadership of our Committee on Public Works and Transportation—Chairman ROE, Subcommittee Chairman MINETA, the ranking minority members, Mr. HAMMERSCHMIDT and Mr. SHUSTER.

They are to be commended, not only for their dedication to this vision, but also for the limitless energy they displayed in forging this conference report during the last 15 days.

It was a herculean effort.

The result, however, is an epic piece of legislation that will enable our Nation to better meet its infrastructure needs.

This legislation certainly is a package aimed at better moving people and products across our Nation.

Certainly it is also a sorely needed job creating mechanism.

Most importantly, this legislation will enable our Nation to be more competitive in the new global marketplace.

This legislation will enable us to better meet the economic challenges that remain in this decade and that will confront us in the 21st century.

After long negotiations, the conferees achieved fairness for all States and flexibility for all States.

I urge my colleagues to support the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Speaker, I rise in strong support of the conference report.

Mr. Speaker, I rise in support of this conference report and want to thank the distinguished chairman of the Subcommittee on Surface Transportation, Mr. MINETA, and the chairman of the Public Works and Transportation Committee, Mr. ROE, for supporting my efforts to secure several provisions affecting indians in this bill.

The legislation authorizes that over $1.1 billion be made available for the Indian Reservation Roads [IRR] Program during the next 6 years. This is a tremendous and long overdue increase in funding.

Indian tribes will be allowed direct access to moneys for bridge replacement and rehabilitation for the first time under this bill. Previously, tribes had to convince a State to designate a bridge on Indian land a priority over a State bridge in order to receive funding. This process resulted in a backlog of dangerous Indian bridges needing repair.

The bill mandates that States fully consult with appropriate tribal governments when developing State transportation plans, and allows

States to give Indian preference in hiring for construction of roads near reservations. Since it is not unlikely for a reservation to be suffering from 70, 80 percent, or even 90 percent unemployment, I hope several states will take advantage of this willing work force through this provision.

Up to 2 percent of the funds available under the IRR Program will be made available through contracts for tribes to develop and plan their road system. This provision along with one which includes tribes in training programs will give tribal governments the ability to become more involved and more educated in the process of choosing tribal priorities for future road construction.

This legislation will also allow the Bureau of Indian Affairs [BIA] to use up to 15 percent of IRR funds for the purposes of road sealing, a very important process which greatly extends the life of a road. I want to point out, however, that these funds are only made available to BIA provided that BIA continues to retain responsibility, including annual funding request for road maintenance programs on Indian Reservation Roads. The BIA knows better then most the horrendous condition of existing Indian roads and the enormous need for new road construction. Funds made available from the highway trust fund is for construction purposes and not to be used for maintaining existing roads nor should that money be used by the administration as an excuse not to fund road maintenance in future budget requests as has been rumored.

The Secretary of Transportation is directed to conduct a study on inequities which exist between Indian Reservation Roads and other highway systems and report to Congress on recommendations to address those inequities. As part of the Federal trust responsibility toward Indian tribes, the Department of Transportation is in a perfect position to address past mistakes in the Indian Roads Program and I look forward to the submission of this report.

Mr. Speaker, these are just some of the provisions in this legislation which will affect Indian tribes and their lands. I believe that enactment of this legislation will afford tribes new opportunities to work with States in partnership agreements to build a safe and adequate transportation system so that Indian children can ride on safe roads over safe bridges to school. I look forward to the day when horror stories about elderly Indians stranded and starving are fed by helicopter drops because of impassable roads and of Indian hospitals and schools built with no road access to them are a thing of the past. This legislation is a step in that direction and I am glad to have been allowed to be a part of it.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Oregon [Mr. AuCoin].

Mr. AuCOIN. Mr. Speaker, I rise in strong support of the conference report on H.R. 2950, the surface transportation authorization bill.

I very much appreciate the hard work of Chairman Bob Roe of the Public Works Committee, Chairman Norm Mineta of the Surface Transportation Subcommittee, our colleagues on the conference committee, and the staff who have worked so hard on this historic measure.

I am very pleased that the conference agreement includes a provision of the House bill that authorizes $515 million in section 3 transit funds for Portland's Westside light rail project.

The highly successful MAX light rail system serves the eastern part of the Portland region.

It carries half a million riders per month; costs 30 percent less per passenger to operate than buses; and has influenced more than $1 billion in development along its route.

The Westside project will extend MAX from downtown into the western suburbs, providing similar benefits to Washington County, with the final terminus in Hillsboro.

Westside is Oregon's highest transportation priority because we want to solve the problems of congestion and air pollution in Portland.

We want to boost our economy by creating 17,000 job-years of employment. We want to protect the environment, save energy, and provide a sound basis for our future growth. MAX and other local success stories are the key to achieving national goals for a healthy economy, clean air, energy conservation, and an efficient transportation network.

I applaud the conference committee for its foresight in accepting the House bill's Westside language. While many other provisions of the conference agreement are worthy of mention, I would like to specifically thank the conferees for authorizing a National Scenic Byway Program. The Oregon State Department of Transportation has worked long and hard to develop this program.

We have an outstanding scenic byway candidate in the tristate Pacific Coast route, U.S. 101. It can be a model for the success of this program and a valuable support for our coastal areas. H.R. 2950 goes far toward meeting the challenges of the post-interstate era. With $151 billion in highway and transit funding, comprehensive planning requirements, and many innovative programs, this conference agreement provides the basis for an integrated transportation network that strengthens the economy, cleans up the air, saves energy, reduces gridlock, and provides mobility for all citizens.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. Poshard].

Mr. POSHARD. Mr. Speaker, I rise in strong support of the conference report.

Mr. Speaker, as a member of the Public Works and Transportation Committee, I rise in strong support of H.R. 2950 and encourage my colleagues to offer their support.

This is a highly valuable investment in the future of our Nation. Over the 6-year period covered by this bill, we will invest $151 billion in highways, bridges, and mass transit systems across this country.

In southern Illinois that means a study of the feasibility of a tollway linking my area and St. Louis. This project has tremendous local support and is a crucial element of continuing efforts to improve the economy of our area.

It means millions of dollars to improve Route 13, the primary East-West artery which connects communities in southern Illinois and holds tremendous commercial promise.

It means reconstruction of Feather Trail Road, something essential to the completion of the $800 million Olmsted Locks and Dam project.

It improves conditions on Route 1 in two rural counties in my district, provides funding for a bridge in the community of Du Quoin, and near the community of Sauget it connects a major highway with a developing business park and airport.

Mr. Speaker, just from a review of the economic implications for my district, one can easily determine this is a bill that is good for America. We are investing in the concrete and steel that allow the people of this country to work for a living. And at a time of economic hardship, this bill pumps money into the construction sector and creates millions of new jobs, while providing the economic base for sustained economic development in the future.

I thank all of the members of the Public Works and Transportation Committee who helped produce this final product, especially Chairman Roe and Chairman Mineta, with whom I have had the distinct pleasure of serving as a new member of the committee.

This is the kind of work people send us here to accomplish. This is certainly one of the high points of this or any other legislative session, and I look forward to the continued progress for America made possible by this excellent legislation.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. Geren].

Mr. GEREN of Texas. Mr. Speaker, I rise in strong support of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from the Virgin Islands [Mr. de Lugo].

Mr. de LUGO. Mr. Speaker, I rise in support of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. Lipinski].

Mr. LIPINSKI. Mr. Speaker, I rise in strong support of the bill.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. Flake].

Mr. FLAKE. Mr. Speaker, I rise in support of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Connecticut [Ms. DeLauro].

Ms. DeLAURO. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, we are here in the early morning hours working to complete the task of reauthorizing the Surface Transportation Act. I want to commend the dedication and effort shown by the members of the conference committee in bringing this legislation to the floor for a vote in a timely manner. I also want to commend Chairman Roe, Mr. Mineta, Mr.

HAMMERSCHMIDT, and Mr. SHUSTER for their leadership and commitment to taking the steps necessary to craft this vital piece of legislation.

Beyond sound transportation policy—and I believe this legislation gives us that—this bill is an essential part of our effort to pull our Nation out of recession and bring about a real economic recovery. It brings with it real hope for recovery because it brings with it the real jobs needed by so many of our citizens and businesses struggling to survive this recession.

Let me speak for a moment to what this bill could mean for the State of Connecticut—really to what it means for each State and for our country. These are perilous times for Connecticut and its citizens. In the last year alone, over 80,000 Connecticuters have lost their jobs. Five hundred and twenty-six Connecticut businesses have been forced into bankruptcy.

This bill—as it helps build a sound transportation system to carry us confidently into the new century—will infuse over $2.2 billion into the State of Connecticut. These badly needed transportation funds could bring as many as 100,000 new jobs to the State. Jobs that mean food on the table for families in need. Jobs that will give people the opportunity to work for a paycheck instead of having to wait in a line for an unemployment check or for no check at all.

Mr. Speaker, the Surface Transportation Reauthorization Act is a bill that the State of Connecticut needs, that New England needs, and that the Nation needs. The bill not only demonstrates this Congress' commitment to improving our Nation's transportation infrastructure, but also its commitment to taking the necessary steps to moving our Nation along the path to a real and lasting economic recovery.

Mr. Speaker, long regarded as the world's policeman, the United States has made the world safe for democracy, yet it has failed to makes it's streets safe for children and families.

Statistics, usually stale and lifeless, speak volumes about the indignities Americans suffer at the hands of criminals here every day. In 1990 alone nearly 35 million Americans—almost 14 percent of the total population—were the victims of crime in this country.

Today, however, we can take an important first step in reclaiming our streets and protecting our people. We have the opportunity to pass the Omnibus Control Act, one of the toughest anticrime measures in U.S. history.

This bill will send a powerful message to those who commit crimes, and an equally strong message to the people of America. Through 50 new crimes punishable by the death penalty, it lets criminals know that they will pay for their crimes.

By providing more cops on the beat and a waiting period on the purchase of handguns, it tells Americans and law enforcement officers that we will back them up, not just with angry rhetoric, but with real, powerful, anticrime measures.

Sadly, it does not ban assault weapons—something many of us fought hard for.

But today we can give people some hope. We can help them restore safety to their streets, security to their homes, and dignity to their lives.

Vote for the Omnibus Crime Control Act.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. KOLTER].

Mr. KOLTER. Mr. Speaker, I rise in strong support of the bill and ask for its passage.

Mr. ROE. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Missouri [Ms. HORN].

Ms. HORN. Mr. Speaker, I rise in strong support of this conference report, the Intermodal Surface Transportation Infrastructure Act of 1991.

The United States invests a smaller percentage of its gross national product on highways and bridges than any other major industrial nation, and this neglect has severely hampered our competitiveness by impeding the movement of people and goods. The conference report addresses this neglect by radically redirecting transportation spending for the coming century.

The situation which our cities face today is extremely bleak. Gridlock is an everyday occurrence in most cities, contributing to decreased productivity and increased air pollution and commuter stress; those able to flee to the surburbs do so, weakening the urban tax base and further slowing infrastructure investments which would reduce gridlock and perhaps stem the urban flight. H.R. 2950 seeks to address this problem by allocating $32 billion for transit projects nationwide, and by allowing the transfer of up to 25 percent of a State's national highway system funds to urban areas. This flexibility, combined with the creation of the National Highway System, is a vital step on the long road toward rebuilding America's infrastructure.

H.R. 2950 will also strengthen the authority of local metropolitan planning organizations [MPO's], giving local planners greater say in how State transportation dollars are spent. Currently, MPO's exist largely in an advisory capacity, their views on mass transit and urban planning often carrying little weight. Last year's Clean air Act imposes stringent pollution-control measures upon our urban areas, but if we expect our cities to enact expensive antipollution measures, we must also give our urban regions the funds they need to effect programs which will accomplish the goals of the Clean Air Act. St. Louis County is a moderate nonattainment region, and any new road construction in the region must conform to the tenants of the Clean Air Act. Empowering the MPO's will allow funds to be spent where and how they are most urgently needed.

According to the House Committee on Public Works, every dollar spent on infrastructure results in a $10 return to the local community through increased jobs, productivity, and efficiency. This $151 billion bill is going to create over 2 million jobs during the 6 years of the program. H.R. 2950 is not an extravagant spending bill; it is an investment in America, in our future, in ourselves. Mr. Speaker, the bill before us today is vital to restoring our large urban areas, and subsequently the rest of the Nation, to health. I urge the most immediate passage of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. SAVAGE].

Mr. SAVAGE. Mr. Speaker, I rise in strong support of this bill and commend the House leaders and the members of the conference for doing a tremendous job for our Nation.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia [Mr. RAY].

Mr. RAY. Mr. Speaker, I rise in opposition to the bill.

Mr. Speaker, I know that it is very late, and that my colleagues would like to pass a transportation bill before we recess, but in the name of fairness, I ask my colleagues to take a look at what this bill does to the donor States. Georgia gets back only 79 cents for every dollar. California gets back 81 cents, Florida, Michigan, Texas, all of the donor States lose millions and millions of dollars under this bill. Our National Highway System is complete, Mr. Speaker. Donor States have contributed more than their fair share to build a national highway system, instead of rewarding the donor States for their generosity by establishing equity in the funding formulas, this bill perpetuates the antiquated funding system of the past 40 years, and continues to rob the fast growing donor States.

The funding process of this bill can be likened to plugging the holes in a leaky dam. Whenever a State complains, the complaints are stopped with a few more dollars. But this is not a long-term solution. The donor States are still being taken for a ride, Mr. Speaker. This is not an equitable transportation bill. This is highway robbery. I urge my colleagues to send this bill back to conference, adopt the funding formulas the House overwhelmingly passed, and stop taking advantage of the donor States.

Mr. ROE. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. ANDERSON].

Mr. ANDERSON. Mr. Speaker, I rise in strong support of the conference report.

When crafting this conference report I assure my colleagues that the 92 conferees; representing 7 House committees and 5 Senate committees, kept all your interests firmly in mind. I did not check to see how many States these 92 conferees represented, but I would bet it was close to all 50.

As my colleagues before me have alluded, H.R. 2950 represents a turning point in American transportation history. Dwight D. Eisenhower's vision in 1954 of a national contiguous framework of roads has been recognized. Now, almost 40 years later, with the exception of a few remaining segments, not the least of which being portions of the Century Freeway in Los Angeles, the United States' Interstate System has been completed. H.R. 2950 builds upon President Eisenhower's vision and moves this country's transportation system forward to meet the needs of the 20th century.

Up to this point, the United States' Interstate System was billed as the largest public works project in U.S. history.

However, at $151 billion, you have before you the largest public works project in U.S. history. What's more, you have before you a $151 billion Christmas present for millions of unemployed Americans. This bill represents a 46-percent increase in the total amount of highway and transit dollars, and creation of 2 million jobs. Let me repeat that to some of my friends from the donor States, California being the leading donor State. This bill represents a 46-percent increase over previous transportation funding levels, and creation of an estimated 2 million jobs.

If there is one donor State that would have a reason to gripe about not getting its fair share of highway dollars, it would be California. Since the inception of the Interstate Program California has donated 7 billion in highway dollars to other States. I say to my colleagues from Los Angeles, Mayor Tom Bradley strongly supports the bill. To my colleagues from California * * * when I spoke to Governor Wilson this afternoon not only did he tell me that he supported the bill, he had already placed calls to his former colleagues in the Senate asking them to support the bill.

And finally, to my friends from donor States, I tell you that the largest donor State in the Nation, California, supports this compromise.

One final point I wish to make. In 1986, when I was Chairman of the Surface Transportation Subcommittee, I wrote, H.R. 2, the last Highway bill, along with then-Public Works Committee Chairman James Howard. Many of you may recall that President Reagan vetoed that bill in March of 1987, however, it was subsequently overridden. Times are different now, and so is this bill. Earlier today, President Bush spoke in favor of this particular compromise we are debating tonight, and urged the Congress to do the same.

In closing, let me just say that those of you that choose not to support this legislation, that is your prerogative. However, I ask you to think of your constituents that make their living in the transportation industry. These people are bleeding and need a Band-Aid. This compromise is not only the Band-Aid, it is the bandage, and it is the cure. I urge you to support it.

☐ 0450

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield 4 minutes to the gentleman from New York [Mr. BOEHLERT].

Mr. BOEHLERT. Mr. Speaker, this is the single, most important legislation we will pass in this session of Congress.

And not just for the obvious reasons. Its magnitude and reach are impressive. A 6 year, $151 billion program charting the course of the Nation's transportation policy for the balance of this century. It's impressive also for what it promises in the short term—a needed shot in the arm to an unhealthy economy. Translate that to mean tens of thousands of jobs in the construction and manufacturing sectors. And jobs is my favorite four letter word.

While some of our colleagues are engaged in meaningful and necessary tax cut debates which might lead to a couple hundred dollars tax benefit in the Spring of 1993, or to a couple of dollars of Federal tax reductions per week sooner, we are gaining approval for a plan which will reap immediate and substantial dividends for our entire economy.

We are told that within a few weeks of enactment, hundreds of millions of dollars in new contract authority will be on the streets. In the transit section alone, and that is the smaller of the two major sections, more than a billion dollars in contract authority will be awarded within 120 days.

That's the kind of action a stagnant economy demands. We are providing it.

And we are doing it the right way. The broad program focuses on flexibility. No longer is the mindset one which maintains we must pave America from coast to coast.

Quality roads and safe bridges are a must, particularly in that wide expanse between our major urban areas. After all, the goods and services produced there have to get to the people.

More than 60 percent of our roads and 40 percent of our bridges are structurally deficient. We're going to fix them.

But a transportation policy is more than quality roads and safe bridges. Economical, efficient, public transit systems benefit the people, particularly the young, the elderly, and the low income among us. Such systems are better for the environment and make us less dependent on foreign oil, two big pluses. The Intermodal Surface Transportation Infrastructure Act of 1991 is so much more than the highway bills of yesteryear, it is indeed a multidimensional intermodal measure—$32 billion of this package is dedicated to transit, the highest level of funding for this purpose ever to emerge from our Committee in its history.

The importance of this legislation is difficult to overstate. Its passage will be good for America.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield to the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, while the Senate language called for the establishment of a U.S. designed maglev technology, the conferees agreed on a national Maglev Design Program that recognizes that domestic companies may be able to develop a domestic maglev industry based on existing technology.

We recognize that there is a need to develop this technology expeditiously—hopefully before the expiration of this legislation. We further recognize that Federal involvement is necessary to encourage the development of this industry and have therefore committed significant Federal funding to maglev development.

The conferees agree in the statement of managers that no prototype should be developed if none of the phase II conceptual designs will yield a working prototype at a reasonable cost.

The conferees also agree that a minimum travel distance of 19 miles should be required and that no prototype should be developed that cannot operate safely and efficiently in all domestic climatic situations. The conferees also agree that maglev development should be intermodal in nature, connecting airports, ports, and other modes of transportation.

Mr. Speaker, our Nation will be well served by the development of a domestic maglev program.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin [Mr. PETRI].

Mr. PETRI. Mr. Speaker, I want to express my support for the conference report to accompany H.R. 2950. With the completion of the Interstate System now in sight, attention has focused on this reauthorization of our surface transportation program. In this legislation, we have attempted to grant more flexibility to the States through increased transferability among programs and to allow cities and States to address their clean air needs. A National Highway System is established which will consist of the Interstate and other major roads which bring together our Nation's commercial and population centers.

In addition, we will begin to spend-down the large balance currently sitting idle in the highway trust fund. These are gas tax dollars paid into the fund for the specific purpose of funding a national transportation network, and it is time that these funds were put to the intended use. As a representative of the donor State of Wisconsin, which has a historic return of 74 cents on the dollar, I would have preferred the more equitable formulas of the House bill. Nevertheless, my own State will see a substantial improvement to a 98 percent return over the next 6 years.

Funding is also provided for improvements to two highways in Wisconsin which have been identified as priorities by the Wisconsin Department of Transportation. Improvements will be made on segments of Highway 41, the road which connects Milwaukee and Green Bay. Congestion is growing rapidly in the Oshkosh area and these funds will provide needed relief and improvements on segments located from the Winnebago County line north to the Green Bay area. Funding is also provided to expand a segment of Highway 29 to a four-lane expressway. This is the most heavily traveled east-west route across central or northern Wisconsin.

H.R. 2950 also establishes a National Recreational Trails Trust Fund so that taxes from nonhighway recreational fuels taxes will be returned to States for the purposes of providing and maintaining recreational trails. Funding is assured for both motorized and nonmotorized trails and all who enjoy trails—whether on foot, bike, or horseback—will benefit from this program.

In conclusion, Mr. Speaker, let me commend the leadership of the Public Works Committee and our hardworking staff for the many hours they have put into this legislation over the course of the last several months.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. RITTER].

Mr. RITTER. Mr. Speaker, I rise in support of the conference report on this critically important transportation legislation.

I would like to thank the committee chairman, Mr. ROE, and the ranking member, Mr. HAMMERSCHMIDT. I also want to thank subcommittee chairman, Mr. MINETA, and ranking member, Mr. SCHUSTER. The gentleman from Pennsylvania [Mr. SHUSTER] has been extremely helpful to so many of us, as has been the chairman, Mr. MINETA.

There are three aspects of this monumental legislation that I would like to highlight.

The first deals with funding for two projects, Route 33 and 222, in my district.

The second boosts magnetic levitation and high-speed rail.

And the third accents an important study that may help stimulate the use of recycled materials in highway projects.

Mr. Speaker, let me say that I am extremely pleased that this year's highway bill includes $18.3 million in funding for the Lehigh Valley's Route 33 and 222 projects, the full amount proposed by the Public Works and Transportation Committee.

The funding for the two projects was approved as part of the 5-year Intermodal Surface Transportation Act. It provides $16.8 million for the extension of Route 33 from Route 22 in Bethlehem to Interstate 78. It also provides $1.5 million for the relocation of Route 222 from the area east of Route 309 to west of Route 100. The funds for Route 33 will be used for engineering work and land acquisition; the Route 222 funds will be used for engineering and environmental studies.

The Route 33 project consists of constructing a 3.5-mile extension that will connect Route 22 in Bethlehem to Interstate 78. This connection will complete the final leg of a four-lane limited access highway north to the Poconos and south to Philadelphia, linking interstates 78 and 80, two major east-west interstates in Pennsylvania.

Basically, this north/south interconnection makes the east-west Route 22, I–78 and I–80 far more valuable to all of eastern Pennsylvania.

The economic benefits will be significant and far reaching. An economic impact study funded by non-Federal sources has shown that this project could lead to more than 20,000 new jobs by the year 2010, based on projected increases in the demand for industrial land such as that located along the Route 33 corridor.

This area of Pennsylvania has a vibrant and growing economy, however, without improved infrastructure, it will not sustain the present rate of growth. By linking the growing corridors of Route 22 and Interstate 78, and Route 33 extension will prevent Lehigh and Northampton Counties from being strangled by their own growth. I might add that if the project is not built, the study estimates a loss of more than 20,000 jobs, and an economic loss of nearly $300 million per year, including more than $10 million in local tax revenues that would not be realized.

The Pennsylvania Department of Transportation [PennDOT] and the Federal Highway Administration consider the completion of Route 33 as priority. The project is in the first 4 years of PennDOT's 12-year plan and the FHWA has agreed to budget money for the completion of Route 33 in its interstate cost estimate.

This road also affects many New Jersey citizens who work in the Lehigh Valley, as well as my constitutents who work in New Jersey.

Another project in need of funding is Route 222, which follows the alignment of the Old Kings Highway—a road constructed in the 1750's and was designed for horse drawn vehicles. By 1880, most of the existing intersections along U.S. 222 had been established. Up until the 1950's, the area was predominantly rural, so the roadway was sufficient to carry the limited automobile traffic.

In the last 40 years, the population of the townships along Route 222 has more than quadrupled. The population of Lower Macungie has increased 184 percent in the last 20 years, while the population of Upper Macungie has doubled in this time.

In addition to the residential growth, Upper Macungie Township has evolved into a regional industrial center containing 5 of the 10 major industrial employers within Lehigh County.

Route 222 is choking from massive traffic congestion. This is a project that the Lehigh Valley desperately needs.

Looking across the U.S.A., congestion has become a way of life on the highways and at the airports.

We need to make intercity travel much more efficient and convenient for our citizens. We need to look boldly at new transportation modes that can help to relieve the burden on planes and automobiles. We need trains.

The magnetic-levitation and high-speed rail provisions in this bill could go a long way towards relieving intercity travel congestion, whether on the road or at the airport.

Regarding new modes of rail travel, this bill represents an important legislative achievement, made possible by the teamwork of the House committees (Public Works and Transportation; Science, Space, and Technology; and Energy and Commerce) and the Senate committees (Environment and Public Works; and Commerce).

I want to commend all of my fellow conferees for their constructive efforts to fashion a balanced legislative blueprint for the future of high-speed ground transportation. With respect to magnetic-levitation vehicles, or maglev, this bill sets an important precedent by making maglev research and prototype development eligible for direct assistance from the highway trust fund, amounting to about three-quarters of a billion dollars over 5 years.

This is a critical step toward design and actual operation of a U.S.-built maglev system. It is a field that is important to our industrial future, not only because efficient transportation helps make industry efficient, but also because maglev employs vast areas of technology and American industry including many critical areas of advanced technology. Superconductivity and advanced materials. Technologies with broad future applications well beyond transportation would be involved. After dropping the ball 15 years ago, when the United States terminated Federal support of U.S.-invented maglev technology, this bill will put us on track to regain technological leadership in this field.

While maglev is clearly the transportation wave of the future, many areas of the country could benefit from high-speed steel-wheel systems comparable to the French T.G.V., the German I.C.E., and the Japanese bullet train as a less costly near-term improvement in transportation infrastructure. The legislation addresses high-speed rail policy as well, primarily by including high-speed rail projects for the first time in the existing $1-billion loan guarantee program established under section 511 of the Railroad Revitalization and Regulatory Act—4–R Act—of 1976. This assures that as we develop a transportation system for the next century, neither maglev nor high-speed rail will be overlooked or neglected.

We know that highways are not the sole answer to our transportation needs. Construction of major interstate highways has virtually halted, and the Nation has not opened a new major airport since 1974. Congestion of both our roads and our airways is reaching record levels, and is exacting a huge toll in lost economic productivity.

Maglev and high-speed rail represent reliable, all-weather, environmentally benign alternatives to motor vehicle and air transportation. On the under-600-mile corridors where maglev and high-speed rail are most appropriate, huge amounts of existing airport capacity can be freed up by shifting short-haul traffic to mag-lev and rail corridors. A vivid example of this phenomenon is the recently reported shift in passenger traffic on the 290-mile Paris-to-Lyon rail route served by the T.G.V. high-speed train in France. In just 2 years of operation, the train captured 80 percent of the traffic in that corridor. Think what shifting even half of that amount of our short-haul air traffic could mean for airport capacity. It would be equivalent to receiving several new airports for free.

Finally, we cannot overlook the safety record of mag-lev and high-speed rail. In motor vehicles, the United States has already suffered more fatalities than in both World Wars, Korea, and Vietnam combined. But the Japanese bullet train, for example, has operated for 28 years without a single fatality. The French T.G.V. has a similarly impressive record. How can we not support a mode of transportation so vastly superior in safety for our citizens?

To physical safety, we also must add environmental safety. Maglev and high-speed rail are environmentally benign, in that they avoid the heavy emissions of internal-combustion engines, they use our own domestically fueled electrical generating capacity, and are vastly more energy-efficient than other modes of transportation.

We need a balanced national transportation strategy that recognizes legitimate roles for planes, trains, and automobiles. This legislaltion is a key step toward implementing such a strategy.

I wish to take a moment to focus on a small, but important provision on the utilization in highway projects of asphalt containing recycled rubber from scrap tires. Scrap tires are a major headache for cities and towns across the country. As ranking member of the Subcommittee on Transportation and Hazardous Materials, the subcommittee charged with reauthorizing the Resource Conservation and Recovery Act, or RCRA, I am well aware of the environmental problems caused by the 242 million scrap tires that are generated in this country every year. The rubberized asphalt provisions of the legislation before us today are an important part of our strategy to make good use of scrap tires. Thus complementing our efforts in RCRA reauthorization.

One of our major tasks in RCRA reauthorization is to refocus RCRA on recovering and conserving resources, by reducing barriers to recycling and creating incentives to use more materials that would otherwise be discarded. Our interest goes well beyond the use of scrap tires and includes developing markets and environmentally sound techniques to recycle and reuse all types of waste materials.

This legislation contains an important study that may help to stimulate the use of recycled materials in highway projects. The Senate version of the rubberized asphalt provision directed the Secretary of Transportation, in cooperation with the Administrator of EPA, to conduct a program of research on asphalt rubber pavement, its health and environmental risks, its performance and its recyclability. The House version directed the Secretary alone to conduct a more general study on possible uses of recycled materials in highway projects, including the use of asphalt containing reclaimed whole tire rubber.

The conferees have combined these two initiatives into a single, two-part study to be conducted jointly by the Secretary and the Administrator. The first part focuses specifically on asphalt pavement containing recycled rubber, its potential threats to human health and the environment, its performance and its recyclability. The expertise of the two agencies should be put to its best use by having the Secretary conduct that portion of the study relating to the technical performance of the pavement and the Administrator conduct the portion of the study relating to the potential health and environmental threats.

In the conference, the second part of the study was of particular interest and importance to me, particularly in view of my role as ranking member of the subcommittee reauthorizing RCRA. This second part is a broader examination of the economic savings, performance, potential threats to human health and the environment and potential environmental benefits of various uses and techniques for utilizing recycled materials, other than asphalt pavement containing recycled rubber, in highway projects, highway devices and appurtenances.

Some possible uses and techniques are listed in the statute, but this list is in no way intended to be exclusive. In addition to adding rubber to asphalt, the study should look at other additives such as glass and plastic. It should look at techniques for recycling asphalt removed from existing highways when the road is resurfaced. It should look at the use of recycled steel, paper and plastic in highway signs and other devices. It should look at the recycling of materials derived from industrial wastes such as coal ash, incinerator ash, cement kiln dust, construction debris and steel slag in roadbeds. I has to call them wastes because some of these materials, although by-products and residues from one process, are uniquely suited for highway construction projects.

Recovering values from materials otherwise destined for disposal is only one way to use recycle materials. Another important technique of using recycled materials in highway projects is to recover energy values from materials that might otherwise be thrown away. For example, in addition to recovering rubber from tires to actually be placed in or under asphalt, tires may also be recycled by using them as an energy source in an asphalt or cement plant.

An October 1991 EPA report, entitled "Markets for Scrap Tires", identifies several materials for the utilization of waste tires as a fuel. It specifically mentions the suitability of using waste tires to supply heat in the production of cement. While the definition of recycling within the context of the RCRA regulatory scheme remains ambiguous and subject to continuing discussion and controversy, the term as used in the study should not be read narrowly. Rather, in keeping with the broad scope of the second part of the study, the term should be read broadly to include energy recovery without prejudging its meaning in other statues.

Another example is fuel substitutes derived from spent solvents and waste oils that may or may not be hazardous. The study should examine the technical performance of materials made using these various recycling techniques and look at potential environmental impacts such as determining whether cement made with hazardous waste-derived or tire-derived fuel substitutes poses any greater risk than cement made with coal or other traditional fuels. The potential is great, and it is only limited by our technical imagination, as long as we insure that the materials are handled in an environmentally acceptable manner.

In conclusion, the second part of the study should be a broad examination of known and potential techniques of utilizing recycled materials in all aspects of highway construction projects.

I strongly support the approval of the conference report.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I, too, want to congratulate the conferees for doing an outstanding job and for providing a package that will help improve our Nation's economy.

Mr. Speaker, I rise today in support of the conference report on H.R. 2950 the Intermodal Transportation Infrastructure Act and I commend the distinguished chairman of the Public Works and Transportation Committee, the gentleman from New Jersey [Mr. ROE] and the ranking minority member, the gentleman from Arkansas [Mr. HAMMERSCHMIDT], and the gentleman from California [Mr. MINETA] and the gentleman from Pennsylvania [Mr. SHUSTER] for their tireless work on this measure.

Mr. Speaker, with our transportation system falling apart, this Congress is obligated to do something about it. Our cities are bursting and their infrastructure is not keeping apace of growing needs. Our suburbs are booming and mass transit system hasn't adjusted to reach far enough or carry enough passengers to accommodate our commuters.

Our country's Interstate Highway System is decaying at the same time that our industries are trucking greater loads. Our bridges are collapsing, literally collapsing around us.

In this era of budget deficits and pressing need for fiscal restraint, I believe this bill—with its demonstration projects—represents a practical, moderate plan to revamp our desperate intermodal system.

This transportation bill is a responsive answer to our growing population, energy, and environmental problems. H.R. 2950 would provide funding for many high occupancy vehicles—carpooling—and mass transit programs. These types of programs would not only cut volume on our crowded, gridlocked highways and streets, but they would also cut down on the pollutants emitted by cars and reduce our Nation's overall energy consumption.

Mr. Speaker, H.R. 2950 is a well-planned program to rehabilitate and expand our Nation's intermodal system. I cannot stress enough the inextricable link between a vibrant economy and efficient transportation infrastructure. This Nation simply cannot thrive economically with our existing system. In fact, transportation spending has been proven to be one of the most effective boosts to our domestic economy.

Therefore, this legislation is badly needed in these difficult times. We in the Congress would be abrogating our responsibilities if we did not pass this positive, pro-jobs measure.

Accordingly, I urge all my colleagues to support this conference report.

Mr. ROE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in order to get this matter back in sync now that the paperwork is all properly filed, I send to the desk the conference report to accompany H.R. 2950, the Intermodal Surface Transportation Infrastructure Act of 1991.

The Clerk read the title of the bill.

CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. ROE submitted the following conference report and statement on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes:

CONFERENCE REPORT (H. REPT. 102-404)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Intermodal Surface Transportation Efficiency Act of 1991".

SEC. 2. DECLARATION OF POLICY: INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT.

It is the policy of the United States to develop a National Intermodal Transportation System that is economically efficient and environmentally sound, provides the foundation for the Nation to compete in the global economy, and will move people and goods in an energy efficient manner.

The National Intermodal Transportation System shall consist of all forms of transportation in a unified, interconnected manner, including the transportation systems of the future, to reduce energy consumption and air pollution while promoting economic development and supporting the Nation's preeminent position in international commerce.

The National Intermodal Transportation System shall include a National Highway System which consists of the National System of Interstate and Defense Highways and those principal arterial roads which are essential for interstate and regional commerce and travel, national defense, intermodal transfer facilities, and international commerce and border crossings.

The National Intermodal Transportation System shall include significant improvements in public transportation necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly persons, persons with disabilities, and economically disadvantaged persons in urban and rural areas of the country.

The National Intermodal Transportation System shall provide improved access to ports and airports, the Nation's link to world commerce.

The National Intermodal Transportation System shall give special emphasis to the contributions of the transportation sectors to increased productivity growth. Social benefits must be considered with particular attention to the external benefits of reduced air pollution, reduced traffic congestion and other aspects of the quality of life in the United States.

The National Intermodal Transportation System must be operated and maintained with insistent attention to the concepts of innovation, competition, energy efficiency, productivity, growth, and accountability. Practices that resulted in the lengthy and overly costly construction of the Interstate and Defense Highway System must be confronted and ceased.

The National Intermodal Transportation System shall be adapted to "intelligent vehicles", "magnetic levitation systems", and other new technologies wherever feasible and economical, with benefit cost estimates given special emphasis concerning safety considerations and techniques for cost allocation.

The National Intermodal Transportation System, where appropriate, will be financed, as regards Federal apportionments and reimbursements, by the Highway Trust Fund. Financial assistance will be provided to State and local governments and their instrumentalities to help implement national goals relating to mobility for elderly persons, persons with disabilities, and economically disadvantaged persons.

The National Intermodal Transportation System must be the centerpiece of a national investment commitment to create the new wealth of the Nation for the 21st century.

The Secretary shall distribute copies of this Declaration of Policy to each employee of the Department of Transportation and shall ensure that such Declaration of Policy is posted in all offices of the Department of Transportation.

SEC. 3. SECRETARY DEFINED.

As used in this Act, the term "Secretary" means the Secretary of Transportation.

TITLE I—SURFACE TRANSPORTATION

Part A—Title 23 Programs

SEC. 1001. COMPLETION OF INTERSTATE SYSTEM.

(a) DECLARATION.—Congress declares that the authorizations of appropriations and apportionments for construction of the Dwight D. Eisenhower National System of Interstate and Defense Highways made by this section (including the amendments made by this section) are the final authorizations of appropriations and apportionments for completion of construction of such System.

(b) APPROVAL OF INTERSTATE COST ESTIMATE FOR FISCAL YEAR 1993.—The Secretary shall apportion for all States (other than Massachusetts) for fiscal year 1993 the sums authorized to be appropriated for such year by section 108(b) of the Federal-Aid Highway Act of 1956 for expenditure on the Dwight D. Eisenhower National System of Interstate and Defense Highways, using the apportionment factors contained in revised table 5 of the Committee Print Numbered 102–24 of the Committee on Public Works and Transportation of the House of Representatives.

(c) EXTENSION OF APPORTIONMENT.—Section 104(b)(5)(A) of title 23, United States Code, is amended by striking "1960 through 1990" each place it appears and inserting "1960 through 1996".

(d) EXTENSION OF ADMINISTRATIVE ADJUSTMENT OF ICE.—Section 104(b)(5)(A) of such title is amended by striking the next to the last sentence and inserting the following new sentence: "As soon as practicable after the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991 for fiscal year 1992, and on October 1 of each of fiscal years 1993, 1994, and 1995, the Secretary shall make the apportionment required by this subparagraph for all States (other than Massachusetts) using the Federal share of the last estimate submitted to Congress, adjusted to reflect (i) all previous credits, apportionments of interstate construction funds, and lapses of previous apportionments of interstate construction funds, (ii) previous withdrawals of interstate segments, (iii) previous allocations of interstate discretionary funds, and (iv) transfers of interstate construction funds.".

(e) ALLOCATION OF FUNDS TO MASSACHUSETTS.—Section 104(b)(5)(A) of title 23, United States Code, is amended by inserting before the last sentence the following new sentence: "Notwithstanding any other provision of this subparagraph or any cost estimate approved or adjusted pursuant to this subparagraph, subject to the deductions under this section, the amounts to be apportioned to the State of Massachusetts pursuant to this subparagraph for fiscal years 1993, 1994, 1995, and 1996 shall be as follows: $450,000,000 for fiscal year 1993, $800,000,000 for fiscal year 1994, $800,000,000 for fiscal year 1995, and $500,000,000 for fiscal year 1996.".

(f) AUTHORIZATION OF APPROPRIATIONS.—The first sentence of subsection (b) of section 108 of the Federal-Aid Highway Act of 1956 is amended by striking "and the additional sum of $1,400,000,000 for the fiscal year ending September 30, 1993." and inserting the following: "the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1993, the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1994, the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1995, and the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1996.".

(g) DECLARATION OF POLICY.—The second paragraph of section 101(b) of such title is amended—

(1) by striking "thirty-seven years'" and inserting "forty years'"; and

(2) by striking "1993" and inserting "1996".

(h) TERMINATION OF MINIMUM APPORTIONMENT.—Section 102(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (23 U.S.C. 104 note) is amended by inserting after "1987," the following: "and ending before October 1, 1991,".

SEC. 1002. OBLIGATION CEILING.

(a) GENERAL LIMITATION.—Notwithstanding any other provision of law (other than subsection (f) of this section), the total of all obligations for Federal-aid highways and highway safety construction programs shall not exceed—

(1) $16,800,000,000 for fiscal year 1992;

(2) $18,303,000,000 for fiscal year 1993;

(3) $18,362,000,000 for fiscal year 1994;

(4) $18,332,000,000 for fiscal year 1995;

(5) $18,357,000,000 for fiscal year 1996; and

(6) $18,338,000,000 for fiscal year 1997.

(b) EXCEPTIONS.—The limitations under subsection (a) shall not apply to obligations—

(1) under section 125 of title 23, United States Code;

(2) under section 157 of such title;

(3) under section 147 of the Surface Transportation Assistance Act of 1978;

(4) under section 9 of the Federal-Aid Highway Act of 1981;

(5) under sections 131(b) and 131(j) of the Surface Transportation Assistance Act of 1982;

(6) under section 404 of the Surface Transportation Assistance Act of 1982; and

(7) under sections 1103 through 1108 of this Act.

Such limitations shall also not apply to obligations of funds made available by subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987.

(c) DISTRIBUTION OF OBLIGATION AUTHORITY.—

(1) GENERAL RULE.—For each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, the Secretary shall distribute the limitation imposed by subsection (a) by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bears to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(2) SPECIAL RULE FOR MASSACHUSETTS.—For purposes of this section, funds apportioned to the State of Massachusetts pursuant to the next to the last sentence of section 104(b)(5)(A) of title 23, United States Code, shall be treated as if such funds were allocated to such State under such title. If, before October 1 of each of fiscal years 1992, 1993, 1994, and 1995, the State of Massachusetts indicates it will not obligate a portion of the amount which would be distributed to such State under the preceding sentence, the Secretary shall distribute such portion to the other States under paragraph (1).

(d) LIMITATION ON OBLIGATION AUTHORITY.—During the period October 1 through December 31 of each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, no State shall obligate more than 35 percent of the amount distributed to such State under subsection (c) for such fiscal year, and the total of all State obligations during such period shall not exceed 25 percent of the total amount distributed to all States under such subsection for such fiscal year.

(e) REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.—Notwithstanding subsections (c) and (d), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned or allocated to a State, except in those instances in which a State indicates its intention

to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1 of each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, revise a distribution of the funds made available under subsection (c) for such fiscal year if a State will not obligate the amount distributed during such fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during such fiscal year giving priority to those States having large unobligated balances of funds apportioned under sections 104 and 144 of title 23, United States Code; and

(3) not distribute amounts authorized for administrative expenses, Federal lands highways programs, and the national high speed ground transportation programs and amounts made available under section 149(d) of the Surface Transportation and Uniform Relocation Assistance Act of 1987.

(f) ADDITIONAL OBLIGATION AUTHORITY.—

(1) IN GENERAL.—Subject to paragraph (2), a State which after August 1 and on or before September 30 of fiscal year 1993, 1994, 1995, 1996, or 1997 obligates the amount distributed to such State in such fiscal year under subsections (c) and (e) may obligate for Federal-aid highways and highway safety construction on or before September 30 of such fiscal year an additional amount not to exceed 5 percent of the aggregate amount of funds apportioned or allocated to such State—

(A) under sections 104 and 144 of title 23, United States Code, and

(B) for highway assistance projects under section 103(e)(4) of such title,

which are not obligated on the date such State completes obligation of the amount so distributed.

(2) LIMITATION ON ADDITIONAL OBLIGATION AUTHORITY.—During the period August 2 through September 30 of each of fiscal years 1993, 1994, 1995, 1996, and 1997, the aggregate amount which may be obligated by all States pursuant to paragraph (1) shall not exceed 2.5 percent of the aggregate amount of funds apportioned or allocated to all States—

(A) under sections 104 and 144 of title 23, United States Code, and

(B) for highway assistance projects under section 103(e)(4) of such title,

which would not be obligated in such fiscal year if the total amount of obligational authority provided by subsection (a) for such fiscal year were utilized.

(3) LIMITATION ON APPLICABILITY.—Paragraph (1) shall not apply to any State which on or after August 1 of fiscal year 1993, 1994, 1995, 1996, or 1997, as the case may be, has the amount distributed to such State under subsection (c) for such fiscal year reduced under subsection (e)(2).

(g) OBLIGATION CEILING FOR HIGHWAY SAFETY PROGRAMS.—Notwithstanding any other provision of law, the total of all obligations for highway safety programs carried out by the Federal Highway Administration under section 402 of title 23, United States Code, shall not exceed $10,000,000 for fiscal year 1992 and $20,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(h) CONFORMING AMENDMENT.—Section 157(b) of title 23, United States Code, is amended by striking the period at the end of the last sentence and inserting "and section 1002(c) of the Intermodal Surface Transportation Efficiency Act of 1991.".

SEC. 1003. AUTHORIZATION OF APPROPRIATIONS.

(a) FROM THE HIGHWAY TRUST FUND.—For the purpose of carrying out the provisions of title 23, United States Code, the following sums are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) INTERSTATE MAINTENANCE PROGRAM.—For the Interstate maintenance program $2,431,000,000 for fiscal year 1992, $2,913,000,000 for fiscal year 1993, $2,914,000,000 for fiscal year 1994, $2,914,000,000 for fiscal year 1995, $2,914,000,000 for fiscal year 1996, and $2,914,000,000 for fiscal year 1997.

(2) NATIONAL HIGHWAY SYSTEM.—For the National Highway System $3,003,000,000 for fiscal year 1992, $3,599,000,000 for fiscal year 1993, $3,599,000,000 for fiscal year 1994, $3,599,000,000 for fiscal year 1995, $3,600,000,000 for fiscal year 1996, and $3,600,000,000 for fiscal year 1997.

(3) SURFACE TRANSPORTATION PROGRAM.—For the surface transportation program $3,418,000,000 for fiscal year 1992, $4,096,000,000 for fiscal year 1993, $4,096,000,000 for fiscal year 1994, $4,096,000,000 for fiscal year 1995, $4,097,000,000 for fiscal year 1996, and $4,097,000,000 for fiscal year 1997.

(4) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—For the congestion mitigation and air quality improvement program $858,000,000 for fiscal year 1992, $1,028,000,000 for fiscal year 1993, $1,028,000,000 for fiscal year 1994, $1,028,000,000 for fiscal year 1995, $1,029,000,000 for fiscal year 1996, and $1,029,000,000 for fiscal year 1997.

(5) BRIDGE PROGRAM.—For the bridge program $2,288,000,000 for fiscal year 1992, $2,762,000,000 for fiscal year 1993, $2,762,000,000 for fiscal year 1994, $2,762,000,000 for fiscal year 1995, $2,763,000,000 for fiscal year 1996, and $2,763,000,000 for fiscal year 1997.

(6) FEDERAL LANDS HIGHWAY PROGRAM.—

(A) INDIAN RESERVATION ROADS.—For Indian reservation roads $159,000,000 for fiscal year 1992 and $191,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(B) PUBLIC LANDS HIGHWAYS.—For public lands highways $143,000,000 for fiscal year 1992, $171,000,000 for each of fiscal years 1993, 1994, and 1995, and $172,000,000 for each of fiscal years 1996 and 1997.

(C) PARKWAYS AND PARK HIGHWAYS.—For parkways and park highways $69,000,000 for fiscal year 1992, $83,000,000 for each of fiscal years 1993, 1994, and 1995, and $84,000,000 for each of fiscal years 1996 and 1997.

(7) FHWA HIGHWAY SAFETY PROGRAMS.—For carrying out section 402 by the Federal Highway Administration $17,000,000 for fiscal year 1992 and $20,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(8) FHWA HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.—For carrying out section 403 by the Federal Highway Administration $10,000,000 for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997.

(b) DISADVANTAGED BUSINESS ENTERPRISES.—

(1) GENERAL RULE.—Except to the extent that the Secretary determines otherwise, not less than 10 percent of the amounts authorized to be appropriated under titles I (other than part B), III, V, and VI of this Act shall be expended with small business concerns owned and controlled by socially and economically disadvantaged individuals.

(2) DEFINITIONS.—For purposes of this subsection, the following definitions apply:

(A) SMALL BUSINESS CONCERN.—The term "small business concern" has the meaning such term has under section 3 of the Small Business Act (15 U.S.C. 632); except that such term shall not include any concern or group of concerns controlled by the same socially and economically disadvantaged individual or individuals which has average annual gross receipts over the preceding 3 fiscal years in excess of $15,370,000, as adjusted by the Secretary for inflation.

(B) SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.—The term "socially and economically disadvantaged individuals" has the meaning such term has under section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and relevant subcontracting regulations promulgated pursuant thereto; except that women shall be presumed to be socially and economically disadvantaged individuals for purposes of this subsection.

(3) ANNUAL LISTING OF DISADVANTAGED BUSINESS ENTERPRISES.—Each State shall annually survey and compile a list of the small business concerns referred to in paragraph (1) and the location of such concerns in the State and notify the Secretary, in writing, of the percentage of such concerns which are controlled by women, by socially and economically disadvantaged individuals (other than women), and by individuals who are women and are also otherwise socially and economically disadvantaged individuals.

(4) UNIFORM CERTIFICATION.—The Secretary shall establish minimum uniform criteria for State governments to use in certifying whether a concern qualifies for purposes of this subsection. Such minimum uniform criteria shall include but not be limited to on-site visits, personal interviews, licenses, analysis of stock ownership, listing of equipment, analysis of bonding capacity, listing of work completed, resume of principal owners, financial capacity, and type of work preferred.

(5) STUDY.—

(A) IN GENERAL.—The Comptroller General shall conduct a study of the disadvantaged business enterprise program of the Federal Highway Administration (hereinafter in this paragraph referred to as the "program").

(B) CONTENTS.—The study under this paragraph shall include the following:

(i) GRADUATION.—A determination of—

(I) the percentage of disadvantaged business enterprises which have enrolled in the program and graduated after a period of 3 years;

(II) the number of disadvantaged business enterprises which have enrolled in the program and not graduated after a period of 3 years;

(III) whether or not the graduation date of any of the disadvantaged business enterprises described in subclause (II) should have been accelerated;

(IV) since the program has no graduation time requirements, how many years would appear reasonable for disadvantaged business enterprises to participate in the program;

(V) the length of time the average small nondisadvantaged business enterprise takes to be successful in the highway construction field as compared to the average disadvantaged business enterprise; and

(VI) to what degree are disadvantaged business enterprises awarded contracts once they are no longer participating in the disadvantaged business program.

(ii) OUT-OF-STATE CONTRACTING.—A determination of which State transportation programs meet the requirement of the program for 10 percent participation by disadvantaged business enterprises by contracting with contractors located in another State and a determination to what degree prime contractors use out-of-State disadvantaged business enterprises even when disadvantaged business enterprises exist within the State to meet the 10 percent participation goal and reasons why this occurs.

(iii) PROGRAM ADJUSTMENTS.—A determination of whether or not adjustments in the program could be made with respect to Federal and State participation in training programs and with respect to meeting capital needs and bonding requirements.

(iv) SUCCESS RATE.—Recommendations concerning whether or not adjustments described in clause (iii) would continue to encourage minority participation in the program and improve the success rate of the disadvantaged business enterprises.

(v) PERFORMANCE AND FINANCIAL CAPABILITIES.—Recommendations for additions and revisions to criteria used to determine the performance and financial capabilities of disadvantaged business enterprises enrolled in the program.

(vi) ENFORCEMENT MECHANISMS.—A determination of whether the current enforcement mechanisms are sufficient to ensure compliance with the disadvantaged business enterprise participation requirements.

(vii) ADDITIONAL COSTS.—A determination of additional costs incurred by the Federal Highway Administration in meeting the requirement of the program for 10 percent participation by disadvantaged business enterprises as well as a determination of benefits of the program.

(viii) EFFECT ON INDUSTRY.—A determination of how the program is being implemented by the construction industry and the effects of the program on all segments of the industry.

(ix) CERTIFICATION.—An analysis of the certification process for Federal-aid highway and transit programs, including a determination as to whether the process should be uniform and permit State-to-State reciprocity and how certification criteria and procedures are being implemented by the States.

(x) GOALS.—A determination of how the Federal goal is being implemented by the States, including the waiver process, and the impact of the goal on those individuals presumed to be socially and economically disadvantaged.

(C) REPORT.—Not later than 12 months after the date of the enactment of this Act, the Comptroller General shall transmit to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report on the results of the study conducted under this paragraph.

(c) REDUCTION IN AUTHORIZATIONS FOR BUDGET COMPLIANCE.—If the total amount authorized by this Act out of the Highway Trust Fund (other than the Mass Transit Account) exceeds $17,042,000,000 for fiscal year 1992, or exceeds $98,642,000,000 for fiscal years 1992 through 1996, then each amount so authorized shall be reduced proportionately so that the total equals $17,042,000,000 for fiscal year 1992, or equals $98,642,000,000 for fiscal years 1992 through 1996, as the case may be.

SEC. 1004. BUDGET COMPLIANCE.

(a) IN GENERAL.—If obligations provided for programs pursuant to this Act for fiscal year 1992 will cause—

(1) the total outlays in any of the fiscal years 1992 through 1995 which result from this Act, to exceed

(2) the total outlays for such programs in any such fiscal year which result from appropriation Acts for fiscal year 1992 and are attributable to obligations for fiscal year 1992,

then the Secretary of Transportation shall reduce proportionately the obligations provided for each program pursuant to this Act for fiscal year 1992 to the extent required to avoid such excess outlays.

(b) COORDINATION WITH OTHER PROVISIONS.—The provisions of this section shall apply, notwithstanding any provision of this Act to the contrary.

SEC. 1005. DEFINITIONS.

(a) HIGHWAY SAFETY IMPROVEMENT PROJECT.—The undesignated paragraph of section 101(a) of title 23, United States Code, relating to highway safety improvement project is amended by inserting after "marking," the following: "installs priority control systems for emergency vehicles at signalized intersections,".

(b) URBANIZED AREA.—Such section is amended by striking the undesignated paragraph relating to urbanized area and inserting the following new undesignated paragraph:

"The term 'urbanized area' means an area with a population of 50,000 or more designated by the Bureau of the Census, within boundaries to be fixed by responsible State and local officials in cooperation with each other, subject to approval by the Secretary. Boundaries shall, at a minimum, encompass the entire urbanized area within a State as designated by the Bureau of the Census.".

(c) NATIONAL HIGHWAY SYSTEM.—Such section is further amended by striking the undesignated paragraph relating to the Federal-aid primary system and inserting the following new undesignated paragraph:

"The term 'National Highway System' means the Federal-aid highway system described in subsection (b) of section 103 of this title.".

(d) CONFORMING AMENDMENTS.—Such section is amended—

(1) by striking the undesignated paragraph relating to the Federal-aid secondary system;

(2) by striking the undesignated paragraph relating to the Federal-aid urban system;

(3) in the undesignated paragraph relating to Indian reservation roads by striking ", including roads on the Federal-aid systems,"; and

(4) in the undesignated paragraph relating to park road by inserting ", including a bridge built primarily for pedestrian use, but with capacity for use by emergency vehicles," before "that is located within".

(e) INTERSTATE SYSTEM.—The undesignated paragraph of such section relating to the Interstate System is amended by inserting "Dwight D. Eisenhower" before "National".

(f) OPERATIONAL IMPROVEMENT.—Such section is further amended by inserting after the undesignated paragraph relating to Interstate System the following new undesignated paragraph:

"The term 'operational improvement' means a capital improvement for installation of traffic surveillance and control equipment, computerized signal systems, motorist information systems, integrated traffic control systems, incident management programs, and transportation demand management facilities, strategies, and programs and such other capital improvements to public roads as the Secretary may designate, by regulation; except that such term does not include resurfacing, restoring, or rehabilitating improvements, construction of additional lanes, interchanges, and grade separations, and construction of a new facility on a new location.".

(g) STARTUP COSTS FOR TRAFFIC MANAGEMENT AND CONTROL; CARPOOL PROJECT; PUBLIC AUTHORITY; PUBLIC LANDS HIGHWAY; RECONSTRUCTION.—Such section is further amended by inserting after the undesignated paragraph relating to Interstate System the following new undesignated paragraphs:

"The term 'startup costs for traffic management and control' means initial costs (including labor costs, administration costs, cost of utilities, and rent) for integrated traffic control systems, incident management programs, and traffic control centers.

"The term 'carpool project' means any project to encourage the use of carpools and vanpools, including but not limited to provision of carpooling opportunities to the elderly and handicapped, systems for locating potential riders and informing them of carpool opportunities, acquiring vehicles for carpool use, designating existing highway lanes as preferential carpool highway lanes, providing related traffic control devices, and designating existing facilities for use for preferential parking for carpools.

"The term 'public authority' means a Federal, State, county, town, or township, Indian tribe, municipal or other local government or instrumentality with authority to finance, build, operate, or maintain toll or toll-free facilities.

"The term 'public lands highway' means a forest road under the jurisdiction of and maintained by a public authority and open to public travel or any highway through unappropriated or unreserved public lands, nontaxable Indian lands, or other Federal reservations under the jurisdiction of and maintained by a public authority and open to public travel.".

SEC. 1006. NATIONAL HIGHWAY SYSTEM.

(a) ESTABLISHMENT.—Section 103 of title 23, United States Code, is amended by striking subsections (a) and (b) and inserting the following new subsections:

"(a) IN GENERAL.—For purposes of this title, the Federal-aid systems are the Interstate System and the National Highway System.

"(b) NATIONAL HIGHWAY SYSTEM.—

"(1) PURPOSE.—The purpose of the National Highway System is to provide an interconnected system of principal arterial routes which will serve major population centers, international border crossings, ports, airports, public transportation facilities, and other intermodal transportation facilities and other major travel destinations; meet national defense requirements; and serve interstate and interregional travel.

"(2) COMPONENTS.—The National Highway System shall consist of the following:

"(A) Highways designated as part of the Interstate System under subsection (e) and section 139 of this title.

"(B) Other urban and rural principal arterials and highways (including toll facilities) which provide motor vehicle access between such an arterial and a major port, airport, public transportation facility, or other intermodal transportation facility. The States, in cooperation with local and regional officials, shall propose to the Secretary arterials and highways for designation to the National Highway System under this paragraph. In urbanized areas, the local officials shall act through the metropolitan planning organizations designated for such areas under section 134 of this title. The routes on the National Highway System, as shown on the map submitted by the Secretary to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate in 1991, illustrating the National Highway System, shall serve as the basis for the States in proposing arterials and highways for designation to such system. The Secretary may modify or revise such proposals and submit such modified or revised proposals to Congress for approval in accordance with paragraph (3).

"(C) A strategic highway network which is a network of highways which are important to the United States strategic defense policy and which provide defense access, continuity, and emergency capabilities for the movement of personnel, materiels, and equipment in both peace time and war time. Such highways may include highways on and off the Interstate System and shall be designated by the Secretary in consultation with appropriate Federal agencies and the States and be subject to approval by Congress in accordance with paragraph (3).

"(D) Major strategic highway network connectors which are highways that provide motor vehicle access between major military installations and highways which are part of the strategic highway network. Such highways shall be designated by the Secretary in consultation with appropriate Federal agencies and the States and subject to approval by Congress in accordance with paragraph (3).

"(3) APPROVAL OF DESIGNATIONS.—

"(A) PROPOSED DESIGNATIONS.—Not later than 2 years after the date of the enactment of this section, the Secretary shall submit for approval to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a proposed National Highway System with a list and description of highways proposed to be designated to the National Highway System under this subsection and a map *showing such proposed designations. In preparing the proposed system, the Secretary shall consult appropriate local officials and shall use the functional reclassification of roads and streets carried out under subsection (c) of section 1006 of the Intermodal Surface Transportation Efficiency Act of 1991.*

"(B) APPROVAL OF CONGRESS REQUIRED.—After September 30, 1995, no funds made available for carrying out this title may be apportioned for the National Highway System or the Interstate maintenance program under this title unless a law has been approved designating the National Highway System.

"(C) MAXIMUM MILEAGE.—For purposes of proposing highways for designation to the National Highway System, the mileage of highways on the National Highway System shall not exceed 155,000 miles; except that the Secretary may increase or decrease such maximum mileage by not to exceed 15 percent.

"(D) EQUITABLE ALLOCATIONS OF HIGHWAY MILEAGE.—In proposing highways for designation to the National Highway System, the Secretary shall provide for equitable allocation of highway mileage among the States.

"(4) INTERIM SYSTEM.—For fiscal years 1992, 1993, 1994, and 1995, highways classified as principal arterials by the States shall be treated as being on the National Highway System for purposes of this title.".

(b) CONFORMING AMENDMENTS TO SECTION 103.—

(1) REPEAL OF FEDERAL-AID SECONDARY AND URBAN SYSTEMS.—Subsections (c) and (d) of such section are repealed.

(2) APPROVAL.—Subsection (f) of such section is amended—

(A) by striking "the Federal-aid primary system, the Federal-aid secondary system, the Federal-aid urban system, and"; and

(B) by striking the last sentence.

(c) FUNCTIONAL RECLASSIFICATION OF HIGHWAYS.—

(1) STATE ACTION.—Each State shall functionally reclassify the roads and streets in such State in accordance with such guidelines and time schedule as the Secretary may establish in order to carry out the objectives of this section, including the amendments made by this section.

(2) APPROVAL AND SUBMISSION TO CONGRESS.—Not later than September 30, 1993, the Secretary shall approve the functional reclassification of roads and streets made by the States pursuant to this subsection and shall submit a report to Congress containing such reclassification.

(3) STATE DEFINED.—In this subsection, the term "State" has the meaning such term has under section 101 of title 23, United States Code, and shall include the Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Marianas.

(d) PROJECT ELIGIBILITY.—Section 103 of title 23, United States Code, is amended by adding at the end the following new subsection:

"(i) ELIGIBLE PROJECTS FOR NHS.—Subject to project approval by the Secretary, funds apportioned to a State under section 104(b)(1) for the National Highway System may be obligated for any of the following:

"(1) Construction, reconstruction, resurfacing, restoration, and rehabilitation of segments of such system.

"(2) Operational improvements for segments of such system.

"(3) Construction of, and operational improvements for, a Federal-aid highway not on the National Highway System and construction of a transit project eligible for assistance under the Federal Transit Act—

"(A) if such highway or transit project is in the same corridor as, and in proximity to, a fully access controlled highway designated to the National Highway System;

"(B) if the construction or improvements will improve the level of service on the fully access controlled highway and improve regional travel; and

"(C) if the construction or improvements are more cost effective than an improvement to the fully access controlled highway that has benefits comparable to the benefits which will be achieved by the construction of, or improvements to, the highway not on the National Highway System.

"(4) Highway safety improvements for segments of the National Highway System.

"(5) Transportation planning in accordance with sections 134 and 135.

"(6) Highway research and planning in accordance with section 307.

"(7) Highway-related technology transfer activities.

"(8) Startup costs for traffic management and control if such costs are limited to the time period necessary to achieve operable status but not to exceed 2 years following the date of project approval, if such funds are not used to replace existing funds.

"(9) Fringe and corridor parking facilities.

"(10) Carpool and vanpool projects.

"(11) Bicycle transportation and pedestrian walkways in accordance with section 217.

"(12) Development and establishment of management systems under section 303.

"(13) In accordance with all applicable Federal law and regulations, participation in wetlands mitigation efforts related to projects funded under this title, which may include participation in wetlands mitigation banks; contributions to statewide and regional efforts to conserve, restore, enhance and create wetlands; and development of statewide and regional wetlands conservation and mitigation plans, including any such banks, efforts, and plans authorized pursuant to the Water Resources Development Act of 1990 (including crediting provisions). Contributions to such mitigation efforts may take place concurrent with or in advance of project construction. Contributions toward these efforts may occur in advance of project construction only if such efforts are consistent with all applicable requirements of Federal law and regulations and State transportation planning processes.".

(e) APPORTIONMENTS.—Section 104(b)(1) of such title is amended to read as follows:

"(1) NATIONAL HIGHWAY SYSTEM.—For the National Highway System 1 percent to the Virgin Islands, Guam, American Samoa, and the Commonwealth of Northern Mariana Islands and the remaining 99 percent apportioned in the same ratio as funds are apportioned under paragraph (3).".

(f) TRANSFERABILITY.—Section 104 of such title is amended by striking subsection (c) and inserting the following new subsection:

"(c) TRANSFERABILITY OF NHS APPORTIONMENTS.—A State may transfer not to exceed 50 percent of the State's apportionment under subsection (b)(1) to the apportionment of the State under subsection (b)(3). A State may transfer not to exceed 100 percent of the State's apportionment under subsection (b)(1) to the apportionment of the State under subsection (b)(3) if the State requests to make such transfer and the Secretary approves such transfer as being in the public interest after providing notice and sufficient opportunity for public comment. Section 133(d) shall not apply to funds transferred under this subsection.".

(g) CONFORMING AMENDMENTS TO OTHER SECTIONS.—

(1) DEFINITIONS.—Section 101(a) of title 23, United States Code, is amended by striking the paragraph relating to Federal-aid highways and inserting the following new paragraph:

"The term 'Federal-aid highways' means highways eligible for assistance under this chapter other than highways classified as local roads or rural minor collectors.".

(2) PREVAILING RATE OF WAGE.—Section 113(a) of such title is amended by striking "systems, the primary and secondary, as well as their extension in urban areas, and the Interstate System," and inserting "highways".

(h) NATIONAL DEFENSE HIGHWAYS LOCATED OUTSIDE THE UNITED STATES.—

(1) RECONSTRUCTION PROJECTS.—If the Secretary determines, after consultation with the Secretary of Defense, that a highway, or portion of a highway, located outside the United States is important to the national defense, the Secretary may carry out a project for the reconstruction of such highway or portion of highway.

(2) FUNDING.—The Secretary may make available, from funds appropriated to construct the National System of Interstate and Defense Highways, not to exceed $20,000,000 per fiscal year for each of fiscal years 1993, 1994, 1995, and 1996 to carry out this subsection. Such sums shall remain available until expended.

SEC. 1007. SURFACE TRANSPORTATION PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—

(1) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by inserting after section 132 the following new section:

"§133. Surface transportation program

"(a) ESTABLISHMENT.—The Secretary shall establish a surface transportation program in accordance with this section.

"(b) ELIGIBLE PROJECTS.—A State may obligate funds apportioned to it under section 104(b)(3) for the surface transportation program only for the following:

"(1) Construction, reconstruction, rehabilitation, resurfacing, restoration, and operational improvements for highways (including Interstate highways) and bridges (including bridges on public roads of all functional classifications), including any such construction or reconstruction necessary to accommodate other transportation modes, and including the seismic retrofit and painting of and application of calcium magnesium acetate on bridges and approaches thereto and other elevated structures, mitigation of damage to wildlife, habitat, and ecosystems caused by a transportation project funded under this title.

"(2) Capital costs for transit projects eligible for assistance under the Federal Transit Act and publicly owned intracity or intercity bus terminals and facilities.

"(3) Carpool projects, fringe and corridor parking facilities and programs, and bicycle transportation and pedestrian walkways in accordance with section 217.

"(4) Highway and transit safety improvements and programs, hazard eliminations, projects to mitigate hazards caused by wildlife, and railway-highway grade crossings.

"(5) Highway and transit research and development and technology transfer programs.

"(6) Capital and operating costs for traffic monitoring, management, and control facilities and programs.

"(7) Surface transportation planning programs.

"(8) Transportation enhancement activities.

"(9) Transportation control measures listed in section 108(f)(1)(A) (other than clauses (xii) and (xvi)) of the Clean Air Act.

"(10) Development and establishment of management systems under section 303.

"(11) In accordance with all applicable Federal law and regulations, participation in wetlands mitigation efforts related to projects funded under this title, which may include participation in wetlands mitigation banks; contributions to statewide and regional efforts to conserve, restore, enhance and create wetlands; and devel-

opment of statewide and regional wetlands conservation and mitigation plans, including any such banks, efforts, and plans authorized pursuant to the Water Resources Development Act of 1990 (including crediting provisions). Contributions to such mitigation efforts may take place concurrent with or in advance of project construction. Contributions toward these efforts may occur in advance of project construction only if such efforts are consistent with all applicable requirements of Federal law and regulations and State transportation planning processes.

"(c) LOCATION OF PROJECTS.—Except as provided in subsection (b)(1), surface transportation program projects (other than those described in subsections (b)(3) and (4)) may not be undertaken on roads functionally classified as local or rural minor collectors, unless such roads are on a Federal-aid highway system on January 1, 1991, and except as approved by the Secretary.

"(d) ALLOCATIONS OF APPORTIONED FUNDS.—

"(1) FOR SAFETY PROGRAMS.—10 percent of the funds apportioned to a State under section 104(b)(3) for the surface transportation program for a fiscal year shall only be available for carrying out sections 130 and 152 of this title. Of the funds set aside under the preceding sentence, the State shall reserve in such fiscal year an amount of such funds for carrying out each such section which is not less than the amount of funds apportioned to the State in fiscal year 1991 under such section.

"(2) FOR TRANSPORTATION ENHANCEMENT ACTIVITIES.—10 percent of the funds apportioned to a State under section 104(b)(3) for a fiscal year shall only be available for transportation enhancement activities.

"(3) DIVISION BETWEEN URBANIZED AREAS OF OVER 200,000 POPULATION AND OTHER AREAS.—

"(A) GENERAL RULE.—Except as provided in subparagraphs (C) and (D), 62.5 percent of the remaining 80 percent of the funds apportioned to a State under section 104(b)(3) for a fiscal year shall be obligated under this section—

"(i) in urbanized areas of the State with an urbanized area population of over 200,000, and

"(ii) in other areas of the State,

in proportion to their relative share of the State's population. The remaining 37.5 percent may be obligated in any area of the State. Funds attributed to an urbanized area under clause (i) may be obligated in the metropolitan area established under section 134 which encompasses the urbanized area.

"(B) SPECIAL RULE FOR AREAS OF LESS THAN 5,000 POPULATION.—Of the amounts required to be obligated under subparagraph (A)(ii), the State shall obligate in areas of the State (other than urban areas with a population greater than 5,000) an amount which is not less than 110 percent of the amount of funds apportioned to the State for the Federal-aid secondary system for fiscal year 1991.

"(C) SPECIAL RULE FOR CERTAIN STATES.—In the case of a State in which—

"(i) greater than 80 percent of the population of the State is located in 1 or more metropolitan statistical areas, and

"(ii) greater than 80 percent of the land area of such State is owned by the United States,

the 62.5 percentage specified in the first sentence of subparagraph (A) shall be 35 percent and the percentage specified in the second sentence of subparagraph (A) shall be 65 percent.

"(D) NONCONTIGUOUS STATES EXEMPTION.—Subparagraph (A) shall not apply to any State which is noncontiguous with the continental United States.

"(E) DISTRIBUTION BETWEEN URBANIZED AREAS OF OVER 200,000 POPULATION.—The amount of funds which a State is required to obligate under subparagraph (A)(i) shall be obligated in urbanized areas described in subparagraph (A)(i) based on the relative population of such areas; except that the State may obligate such funds based on other factors if the State and the relevant metropolitan planning organizations jointly apply to the Secretary for the permission to do so and the Secretary grants the request.

"(4) APPLICABILITY OF PLANNING REQUIREMENTS.—Programming and expenditure of funds for projects under this section shall be consistent with the requirements of sections 134 and 135 of this title.

"(e) ADMINISTRATION.—

"(1) NONCOMPLIANCE.—If the Secretary determines that a State or local government has failed to comply substantially with any provision of this section, the Secretary shall notify the State that, if the State fails to take corrective action within 60 days from the date of receipt of the notification, the Secretary will withhold future apportionments under section 104(b)(3) until the Secretary is satisfied that appropriate corrective action has been taken.

"(2) CERTIFICATION.—The Governor of each State shall certify before the beginning of each quarter of a fiscal year that the State will meet all the requirements of this section and shall notify the Secretary of the amount of obligations expected to be incurred for surface transportation program projects during such quarter. A State may request adjustment to the obligation amounts later in each of such quarters. Acceptance of the notification and certification shall be deemed a contractual obligation of the United States for the payment of the surface transportation program funds expected to be obligated by the State in such quarter for projects not subject to review by the Secretary under this chapter.

"(3) PAYMENTS.—The Secretary shall make payments to a State of costs incurred by the State for the surface transportation program in accordance with procedures to be established by the Secretary. Payments shall not exceed the Federal share of costs incurred as of the date the State requests payments.

"(4) POPULATION DETERMINATIONS.—The Secretary shall use estimates prepared by the Secretary of Commerce when determining population figures for purposes of this section.

"(f) ALLOCATION OF OBLIGATION AUTHORITY.—A State which is required to obligate in an urbanized area with an urbanized area population of over 200,000 under subsection (d) funds apportioned to it under section 104(b)(3) shall allocate during the 6-fiscal year period 1992 through 1997 an amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction for use in such area determined by multiplying—

"(1) the aggregate amount of funds which the State is required to obligate in such area under subsection (d) during such period; by

"(2) the ratio of the aggregate amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction during such period to the total sums apportioned to the State for Federal-aid highways and highway safety construction (excluding sums not subject to an obligation limitation) during such period.".

(2) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by inserting after the item relating to section 132 the following:

"133. Surface transportation program.".

(b) APPORTIONMENT OF SURFACE TRANSPORTATION PROGRAM FUNDS.—

(1) IN GENERAL.—Section 104(b)(3) of title 23, United States Code, is amended to read as follows:

"(3) SURFACE TRANSPORTATION PROGRAM.—

"(A) GENERAL RULE.—For the surface transportation program in a manner so that a State's current percentage share of apportionments is equal to the State's 1987–1991 percentage share of apportionments. For purposes of this paragraph—

"(i) a State's current percentage share of apportionments is the State's percentage share of all funds apportioned for a fiscal year under paragraph (1) for the National Highway System, under section 144 for the bridge program, under paragraph (5)(B) for Interstate maintenance, and under this paragraph; and

"(ii) a State's 1987–1991 percentage share of apportionments is the State's percentage share of all apportionments and allocations under this title for fiscal years 1987, 1988, 1989, 1990, and 1991 (except apportionments and allocations for Interstate construction under sections 104(b)(5)(A) and 118, Interstate highway substitute under section 103(e)(4), Federal lands highways under section 202, and emergency relief under section 125, all allocations under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987, and the portion of allocations under section 157 (relating to minimum allocation) that would be attributable to apportionments made under Interstate construction and Interstate highway substitute programs under sections 104(b)(5)(A) and 103(e)(4), respectively, for such fiscal years if the minimum allocation percentage for such fiscal years had been 90 percent instead of 85 percent).

"(B) CALCULATION RULES.—In calculating a State's percentage share under this paragraph for the purpose of making apportionments for fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, each State shall be treated as having received ½ of 1 percent of all funds apportioned for the Interstate construction program under section 104(b)(5)(A) in fiscal years 1987, 1988, 1989, 1990, and 1991. Notwithstanding any other provision of this paragraph, in any fiscal year no State shall receive a percentage of total apportionments and allocations that is less than 70 percent of its percentage of total apportionments and allocations for fiscal years 1987, 1988, 1989, 1990, and 1991, except for those States that receive an apportionment for Interstate construction under paragraph (5)(A) of more than $50,000,000 for fiscal year 1992.".

(2) CONFORMING AMENDMENTS.—Section 104 of such title is further amended—

(A) in subsections (a) and (b) by striking "upon the Federal-aid systems" and inserting "on the surface transportation program, the congestion mitigation and air quality improvement program, the National Highway System, and the Interstate System";

(B) in subsection (b) by striking "paragraphs (4) and (5)" and inserting "paragraph (5)(A)"; and

(C) in subsection (b) by striking "and sections 118(c) and 307(d)" and inserting "and section 307".

(c) TRANSPORTATION ENHANCEMENT ACTIVITIES DEFINED.—Section 101(a) of title 23, United States Code, is amended by adding at the end the following new paragraph:

"The term 'transportation enhancement activities' means, with respect to any project or the area to be served by the project, provision of facilities for pedestrians and bicycles, acquisition of scenic easements and scenic or historic sites, scenic or historic highway programs, landscaping and other scenic beautification, historic preservation, rehabilitation and operation of historic transportation buildings, structures or facilities (including historic railroad facilities and canals), preservation of abandoned railway corridors (including the conversion and use thereof for pedestrian or bicycle trails), control and removal of outdoor advertising, archaeological planning and research, and mitigation of water pollution due to highway runoff.".

SEC. 1008. CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—Section 149 of title 23, United States Code, is amended to read as follows:

"§149. Congestion mitigation and air quality improvement program

"(a) ESTABLISHMENT.—The Secretary shall establish a congestion mitigation and air quality improvement program in accordance with this section.

"(b) ELIGIBLE PROJECTS.—Except as provided in subsection (c), a State may obligate funds apportioned to it under section 104(b)(2) for the congestion mitigation and air quality improvement program only for a transportation project or program—

"(1)(A) if the Secretary, after consultation with the Administrator of the Environmental Protection Agency, determines, on the basis of information published by the Environmental Protection Agency pursuant to section 108(f)(1)(A) of the Clean Air Act (other than clauses (xii) and (xvi) of such section), that the project or program is likely to contribute to the attainment of a national ambient air quality standard; or

"(B) in any case in which such information is not available, if the Secretary, after such consultation, determines that the project or program is part of a program, method, or strategy described in such section;

"(2) if the project or program is included in a State implementation plan that has been approved pursuant to the Clean Air Act and the project will have air quality benefits; or

"(3) the Secretary, after consultation with the Administrator of the Environmental Protection Agency, determines that the project or program is likely to contribute to the attainment of a national ambient air quality standard, whether through reductions in vehicle miles traveled, fuel consumption, or through other factors.

No funds may be provided under this section for a project which will result in the construction of new capacity available to single occupant vehicles unless the project consists of a high occupancy vehicle facility available to single occupant vehicles only at other than peak travel times.

"(c) STATES WITHOUT A NONATTAINMENT AREA.—If a State does not have a nonattainment area for ozone or carbon monoxide under the Clean Air Act located within its borders, the State may use funds apportioned to it under section 104(b)(2) for any project eligible for assistance under the surface transportation program.

"(d) APPLICABILITY OF PLANNING REQUIREMENTS.—Programming and expenditure of funds for projects under this section shall be consistent with the requirements of sections 134 and 135 of this title.".

(b) APPORTIONMENT.—Section 104(b)(2) of such title is amended to read as follows:

"(2) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—For the congestion mitigation and air quality improvement program, in the ratio which the weighted nonattainment area population of each State bears to the total weighted nonattainment area population of all States. The weighted nonattainment area population shall be calculated by multiplying the population of each area within any State that is a nonattainment area (as defined in the Clean Air Act) for ozone by a factor of—

"(A) 1.0 if the area is classified as a marginal ozone nonattainment area under subpart 2 of part D of title I of the Clean Air Act;

"(B) 1.1 if the area is classified as a moderate ozone nonattainment area under such subpart;

"(C) 1.2 if the area is classified as a serious ozone nonattainment area under such subpart;

"(D) 1.3 if the area is classified as a severe ozone nonattainment area under such subpart; or

"(E) 1.4 if the area is classified as an extreme ozone nonattainment area under such subpart. If the area is also classified under subpart 3 of part D of title I of such Act as a nonattainment area for carbon monoxide, for purposes of calculating the weighted nonattainment area population, the weighted nonattainment area population of the area, as determined under the preceding provisions of this paragraph, shall be further multiplied by a factor of 1.2. Notwithstanding any provision of this paragraph, in the case of States with a total 1990 census population of 15,000,000 or greater, the amount apportioned under this paragraph in a fiscal year to all of such States in the aggregate, shall be distributed among such States based on their relative populations; except that none of such States shall be distributed more than 42 percent of the aggregate amount so apportioned to all of such States. Notwithstanding any other provision of this paragraph, each State shall receive a minimum apportionment of ½ of 1 percent of the funds apportioned made under this paragraph. The Secretary shall use estimates prepared by the Secretary of Commerce when determining population figures.".

(c) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by striking

"149. Truck lanes."

and inserting

"149. Congestion mitigation and air quality improvement program.".

SEC. 1009. INTERSTATE MAINTENANCE PROGRAM.

(a) LIMITATION ON NEW CAPACITY.—Section 119 of title 23, United States Code, is amended by adding at the end the following new subsection:

"(g) LIMITATION ON NEW CAPACITY.—Notwithstanding any other provision of this title, the portion of the cost of any project undertaken pursuant to this section that is attributable to the expansion of the capacity of any Interstate highway or bridge, where such new capacity consists of one or more new travel lanes that are not high-occupancy vehicle lanes or auxiliary lanes, shall not be eligible for funding under this section.".

(b) ADEQUATE MAINTENANCE OF THE INTERSTATE SYSTEM.—Section 119(f) of such title is amended by inserting after "Interstate System routes and" the following: "the State is adequately maintaining the Interstate System and".

(c) GUIDANCE TO THE STATES.—The Secretary shall develop and make available to the States criteria for determining—

(1) what share of any project funded under section 119 of title 23, United States Code, is attributable to the expansion of the capacity of an Interstate highway or bridge; and

(2) what constitutes adequate maintenance of the Interstate System for the purposes of section 119(f)(1) of title 23, United States Code.

(d) NONCHARGEABLE SEGMENTS.—Section 104(b)(5)(B) of title 23, United States Code, is amended by inserting "and routes on the Interstate System designated under section 139(a) of this title before March 9, 1984," after "under sections 103 and 139(c) of this title" each place it appears.

(e) CONFORMING AMENDMENTS.—

(1) NEW HEADING.—The heading for section 119 of such title is amended to read as follows:

"§119. Interstate maintenance program".

(2) ANALYSIS.—The analysis for chapter 1 of such title is amended by striking

"119. Interstate System resurfacing."

and inserting

"119. Interstate maintenance program.".

(3) ELIGIBLE ACTIVITIES.—Section 119(c) of such title is amended to read as follows:

"(c) ELIGIBLE ACTIVITIES.—Activities authorized in subsection (a) may include the reconstruction of bridges, interchanges, and over crossings along existing Interstate routes, including the acquisition of right-of-way where necessary, but shall not include the construction of new travel lanes other than high occupancy vehicle lanes or auxiliary lanes.".

(4) PREVENTIVE MAINTENANCE.—Section 119(e) of such title is amended to read as follows:

"(e) PREVENTIVE MAINTENANCE.—Preventive maintenance activities shall be eligible under this section when a State can demonstrate, through its pavement management system, that such activities are a cost-effective means of extending Interstate pavement life.".

(5) MISCELLANEOUS.—Section 119 of such title is amended—

(A) in subsection (a) by striking ", rehabilitating, and reconstructing" and inserting "and rehabilitating";

(B) in subsection (a) by striking the last sentence;

(C) in the heading for subsection (f) by striking "PRIMARY SYSTEM" and inserting "SURFACE TRANSPORTATION PROGRAM";

(D) in subsection (f)(1) by striking "rehabilitating, or reconstructing" and inserting "or rehabilitating"; and

(E) in subsection (f) by striking "section 104(b)(1)" each place it appears and inserting "sections 104(b)(1) and 104(b)(3)".

SEC. 1010. OPERATION LIFESAVER; HIGH SPEED RAIL CORRIDORS.

Section 104(d) of title 23, United States Code, is amended to read as follows:

"(d) OPERATION LIFESAVER AND HIGH SPEED RAIL CORRIDORS.—

"(1) OPERATION LIFESAVER.—The Secretary shall expend from administrative funds deducted under subsection (a) $300,000 for each fiscal year for carrying out a public information and education program to help prevent and reduce motor vehicle accidents, injuries, and fatalities and to improve driver performance at railway-highway crossings.

"(2) RAILWAY-HIGHWAY CROSSING HAZARD ELIMINATION IN HIGH SPEED RAIL CORRIDORS.—

"(A). Before making an apportionment of funds under subsection (b)(3) for a fiscal year, the Secretary shall set aside $5,000,000 of the funds authorized to be appropriated for the surface transportation program for such fiscal year for elimination of hazards of railway-highway crossings in not to exceed 5 railway corridors selected by the Secretary in accordance with the criteria set forth in this paragraph.

"(B) A corridor selected by the Secretary under subparagraph (A) must include rail lines where railroad speeds of 90 miles per hour are occurring or can reasonably be expected to occur in the future.

"(C) In making the determination required by subparagraph (A), the Secretary shall consider projected rail ridership volumes in such corridors, the percentage of the corridor over which a train will be capable of operating at its maximum cruise speed taking into account such factors as topography and other traffic on the line, projected benefits to nonriders such as congestion relief on other modes of transportation serving the corridors (including congestion in heavily traveled air passenger corridors), the amount of State and local financial support that can reasonably be anticipated for the improvement of the line and related facilities, and the cooperation of the owner of the right-of-way that can reasonably be expected in the operation of high speed rail passenger service in such corridors.".

SEC. 1011. SUBSTITUTE PROGRAM.

(a) HIGHWAY PROJECTS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—Section 103(e)(4)(G) of title 23, United States Code, is amended—

(A) by striking "and" the next to the last place it appears;

(B) by inserting before the period at the end the following: ", $240,000,000 per fiscal year for each of fiscal years 1992, 1993, 1994, and 1995"; and

(C) by adding at the end the following: "Such sums may be obligated for transit substitute projects under this paragraph.".

(2) DISTRIBUTION.—Section 103(e)(4)(H) of such title is amended—

(A) by adding at the end of clause (i) the following new sentence: "For each of fiscal years 1992, 1993, 1994, and 1995, all funds made available by subparagraph (G) shall be apportioned in accordance with cost estimates adjusted by the Secretary.";

(B) in clause (iii), by striking "1988, 1989, 1990, AND 1991 APPORTIONMENTS" and inserting "1988–1995 APPORTIONMENTS"; and

(C) by striking "and 1991." and inserting "1991, 1992, 1993, 1994, and 1995.".

(b) TRANSIT PROJECTS.—Section 103(e)(4)(J) of such title is amended—

(1) in clause (i) by inserting after "1983," the following: "and ending before October 1, 1991";

(2) by adding at the end of clause (i) the following new sentence: "100 percent of funds appropriated for each of fiscal years 1992 and 1993 shall be apportioned in accordance with cost estimates adjusted by the Secretary.";

(3) in clause (iii) by striking "1988, 1989, 1990, AND 1991 APPORTIONMENTS" and inserting "1988–1993 APPORTIONMENTS"; and

(4) by striking "and 1991." and inserting "1991, 1992, and 1993.".

(c) PERIOD OF AVAILABILITY.—Section 103(e)(4)(E)(i) of such title is amended by adding at the end the following new sentence: "In the case of funds authorized to be appropriated for substitute transit projects under this paragraph for fiscal year 1993 and for substitute highway projects under this paragraph for fiscal year 1995, such funds shall remain available until expended.".

SEC. 1012. TOLL ROADS, BRIDGES, AND TUNNELS.

(a) NEW PROGRAM.—Section 129(a) of title 23, United States Code, is amended to read as follows:

"(a) BASIC PROGRAM.—

"(1) AUTHORIZATION FOR FEDERAL PARTICIPATION.—Notwithstanding section 301 of this title and subject to the provisions of this section, the Secretary shall permit Federal participation in—

"(A) initial construction of a toll highway, bridge, or tunnel (other than a highway, bridge, or tunnel on the Interstate System) or approach thereto;

"(B) reconstructing, resurfacing, restoring, and rehabilitating a toll highway, bridge, or tunnel (including a toll highway, bridge, or tunnel subject to an agreement entered into under this section or section 119(e) as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991) or approach thereto;

"(C) reconstruction or replacement of a toll-free bridge or tunnel and conversion of the bridge or tunnel to a toll facility;

"(D) reconstruction of a toll-free Federal-aid highway (other than a highway on the Interstate System) and conversion of the highway to a toll facility; and

"(E) preliminary studies to determine the feasibility of a toll facility for which Federal participation is authorized under subparagraph (A), (B), (C), or (D);

on the same basis and in the same manner as in the construction of free highways under this chapter.

"(2) OWNERSHIP.—Each highway, bridge, tunnel, or approach thereto constructed under this subsection must—

"(A) be publicly owned, or

"(B) be privately owned if the public authority having jurisdiction over the highway, bridge, tunnel, or approach has entered into a contract with a private person or persons to design, finance, construct, and operate the facility and the public authority will be responsible for complying with all applicable requirements of this title with respect to the facility.

"(3) LIMITATIONS ON USE OF REVENUES.—Before the Secretary may permit Federal participation under this subsection in construction of a highway, bridge, or tunnel located in a State, the public authority (including the State transportation department) having jurisdiction over the highway, bridge, or tunnel must enter into an agreement with the Secretary which provides that all toll revenues received from operation of the toll facility will be used first for debt service, for reasonable return on investment of any private person financing the project, and for the costs necessary for the proper operation and maintenance of the toll facility, including reconstruction, resurfacing, restoration, and rehabilitation. If the State certifies annually that the tolled facility is being adequately maintained, the State may use any toll revenues in excess of amounts required under the preceding sentence for any purpose for which Federal funds may be obligated by a State under this title.

"(4) SPECIAL RULE FOR FUNDING.—In the case of a toll highway, bridge, or tunnel under the jurisdiction of a public authority of a State (other than the State transportation department), upon request of the State transportation department and subject to such terms and conditions as such department and public authority may agree, the Secretary shall reimburse such public authority for the Federal share of the costs of construction of the project carried out on the toll facility under this subsection in the same manner and to the same extent as such department would be reimbursed if such project was being carried out by such department. The reimbursement of funds under this paragraph shall be from sums apportioned to the State under this chapter and available for obligations on projects on the Federal-aid system in such State on which the project is being carried out.

"(5) LIMITATION ON FEDERAL SHARE.—Except as otherwise provided in this paragraph, the Federal share payable for construction of a highway, bridge, tunnel, or approach thereto or conversion of a highway, bridge, or tunnel to a toll facility under this subsection shall be such percentage as the State determines but not to exceed 50 percent. The Federal share payable for construction of a new bridge, tunnel, or approach thereto or for reconstruction or replacement of a bridge, tunnel, or approach thereto shall be such percentage as the Secretary determines but not to exceed 80 percent. In the case of a toll facility subject to an agreement under section 119 or 129, the Federal share payable on any project for resurfacing, restoring, rehabilitating, or reconstructing such facility shall be 80 percent until the scheduled expiration of such agreement (as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991).

"(6) MODIFICATIONS.—If a public authority (including a State transportation department) having jurisdiction over a toll highway, bridge, or tunnel subject to an agreement under this section or section 119(e), as in effect on the day before the effective date of title I of the Intermodal Surface Transportation Efficiency Act of 1991, requests modification of such agreement, the Secretary shall modify such agreement to allow the continuation of tolls in accordance with paragraph (3) without repayment of Federal funds.

"(7) LOANS.—A State may loan all or part of the Federal share of a toll project under this section to a public or private agency constructing a toll facility. Such loan may be made only after all Federal environmental requirements have been complied with and permits obtained. The amount loaned shall be subordinated to other debt financing for the facility except for loans made by the State or any other public agency to the agency constructing the facility. Funds loaned pursuant to this section may be obligated for projects eligible under this section. The repayment of any such loan shall commence not more than 5 years after the facility has opened to traffic. Any such loan shall bear interest at the average rate the State's pooled investment fund earned in the 52 weeks preceding the start of repayment. The term of any such loan shall not exceed 30 years from the time the loan was obligated. Amounts repaid to a State from any loan made under this section may be obligated for any purpose for which the loaned funds were available. The Secretary shall establish procedures and guidelines for making such loans.

"(8) INITIAL CONSTRUCTION DEFINED.—For purposes of this subsection, the term 'initial construction' means the construction of a highway, bridge, or tunnel at any time before it is open to traffic and does not include any improvement to a highway, bridge, or tunnel after it is open to traffic.".

(b) CONGESTION PRICING PILOT PROGRAM.—(1) The Secretary shall solicit the participation of State and local governments and public authorities for one or more congestion pricing pilot projects. The Secretary may enter into cooperative agreements with as many as 5 such State or local governments or public authorities to establish, maintain, and monitor congestion pricing projects.

(2) Notwithstanding section 129 of title 23, United States Code, the Federal share payable for such programs shall be 80 percent. The Secretary shall fund all of the development and other start up costs of such projects, including salaries and expenses, for a period of at least 1 year, and thereafter until such time that sufficient revenues are being generated by the program to fund its operating costs without Federal participation, except that the Secretary may not fund any project for more than 3 years.

(3) Revenues generated by any pilot project under this subsection must be applied to projects eligible under such title.

(4) Notwithstanding sections 129 and 301 of title 23, United States Code, the Secretary shall allow the use of tolls on the Interstate System as part of a pilot program under this section, but not on more than 3 of such programs.

(5) The Secretary shall monitor the effect of such projects for a period of at least 10 years, and shall report to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives every 2 years on the effects such programs are having on driver behavior, traffic, volume, transit ridership, air quality, and availability of funds for transportation programs.

(6) Of the sums made available to the Secretary pursuant to section 104(a) of title 23, United States Code, not to exceed $25,000,000 shall be made available each fiscal year to carry out the requirements of this subsection. Not more than $15,000,000 of such amounts shall be made available to carry out each pilot project under this section.

(c) ELIMINATION OF PUBLIC OPERATION REQUIREMENT FOR TOLL FERRIES.—Section 129 of such title is amended—

(1) by striking subsections (b), (c), (d), (e), (h), (i), and (k);

(2) by redesignating subsections (f), (g), and (j) as subsections (b), (c), and (d), respectively;

(3) in subsection (c) as so redesignated by inserting "and ferry terminal facilities" after "boats";

(4) in subsection (c) as so redesignated by striking paragraph (3) and inserting the following:

"(3) Such ferry boat or ferry terminal facility shall be publicly owned."; and

(5) in subsection (c)(4) as so redesignated—

(A) by inserting "or other public entity" after "State"; and

(B) by inserting before the period at the end the following: ", debt service, negotiated management fees, and, in the case of a privately operated toll ferry, for a reasonable rate of return".

(d) CONTINUATION OF EXISTING AGREEMENTS.—Unless modified under section 129(a)(6) of such title, as amended by subsection (a) of this section, agreements entered into under section 119(e) or 129 of such title before the effective date of this title and in effect on the day before such effective date shall continue in effect on and after such effective date in accordance with the provisions of such agreement and such section 119(e) or 129.

(e) SPECIAL RULE FOR CERTAIN EXISTING TOLL FACILITY AGREEMENTS.—Notwithstanding sections 119 and 129 of title 23, United States Code, at the request of the non-Federal parties to a toll facility agreement reached before October 1, 1991, regarding the New York State Thruway or the Fort McHenry Tunnel under section 105 of the Federal-Aid Highway Act of 1978 or section 129 of title 23, United States Code (as in effect on the day before the date of the enactment of this Act), the Secretary shall allow for the continuance of tolls without repayment of Federal funds. Revenues collected from such tolls, after the date of such request, in excess of revenues needed for debt service and the actual costs of operation and maintenance shall be available for (1) any transportation project eligible for assistance under title 23, United States Code, or (2) costs associated with transportation facilities under the jurisdiction of such non-Federal party, including debt service and costs related to the construction, reconstruction, restoration, repair, operation and maintenance of such facilities.

(f) VOIDING OF CERTAIN AGREEMENTS FOR I-78 DELAWARE RIVER BRIDGE.—Upon the joint request of the State of Pennsylvania, the State of New Jersey, and the Delaware River Joint Toll Bridge Commission, and upon such parties entering into a new agreement with the Secretary regarding the bridge on Interstate Route 78 which crosses the Delaware River in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, the Secretary shall void any agreement entered into with such parties with respect to the bridge before the effective date of this subsection under section 129(a), 129(d), or 129(e) of title 23, United States Code. The new agreement referred to in the preceding sentence shall permit the continuation of tolls without repayment of Federal funds and shall provide that all toll revenues received from operation of the bridge will be used—

(1) first for repayment of the non-Federal cost of construction of the bridge (including debt service);

(2) second for the costs necessary for the proper operation and maintenance of the bridge, including resurfacing, restoration, and rehabilitation; and

(3) to the extent that toll revenues exceed the amount necessary for paragraphs (1) and (2), such excess may be used with respect to any other bridge under the jurisdiction of the Delaware River Joint Toll Bridge Commission.

(g) BRIDGE CONNECTING PENNSYLVANIA TURNPIKE SYSTEM AND NEW JERSEY TURNPIKE.—Section 3 of the Act of October 26, 1951 (65 Stat. 653), is amended by striking ": Provided," and all that follows before the period.

SEC. 1013. MINIMUM ALLOCATION.

(a) GENERAL RULE.—Section 157(a) of title 23, United States Code, is amended—

(1) in paragraph (3) by striking "THEREAFTER" and inserting "FISCAL YEARS 1989–1991";

(2) in paragraph (3) by striking "and each fiscal year thereafter," and inserting ", 1990, and 1991"; and

(3) by adding at the end the following new paragraph:

"(4) THEREAFTER.—In fiscal year 1992 and each fiscal year thereafter on October 1, or as soon as possible thereafter, the Secretary shall allocate among the States amounts sufficient to ensure that a State's percentage of the total apportionments in each such fiscal year and allocations for the prior fiscal year for Interstate construction, Interstate maintenance, Interstate highway substitute, National Highway System, surface transportation program, bridge program, scenic byways, and grants for safety belts and motorcycle helmets shall not be less than 90 percent of the percentage of estimated tax payments attributable to highway users in the State paid into the Highway Trust Fund, other than the Mass Transit Account, in the latest fiscal year for which data are available.".

(b) CONFORMING AMENDMENTS.—Section 157(b) of such title is amended—

(1) by striking "primary, secondary," and inserting "National Highway, surface transportation program,";

(2) by striking "urban," and inserting "congestion mitigation and air quality improvement program,";

(3) by striking "replacement and rehabilitation"; and

(4) by inserting after the first sentence the following: "½ of the amounts allocated pursuant to subsection (a) after September 30, 1991, shall be subject to section 133(d)(3) of this title.".

(c) DONOR STATE BONUS AMOUNTS.—

(1) FUNDING.—There are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for the payment of donor State bonus amounts the following amounts for the following fiscal years:

(A) For fiscal year 1992 $429,000,000.

(B) For fiscal year 1993 $514,000,000.

(C) For fiscal year 1994 $514,000,000.

(D) For fiscal year 1995 $514,000,000.

(E) For fiscal year 1996 $514,000,000.

(F) For fiscal year 1997 $515,000,000.

(2) APPORTIONMENT.—

(A) FORMULA.—The bonus apportionments which are provided under this subsection for a fiscal year shall be apportioned in such a way as to bring each successive State, or States, with the lowest dollar return on dollar projected to be contributed into the Highway Trust Fund for such fiscal year, up to the highest common return on contributed dollar that can be funded with the annual authorizations provided under this subsection.

(B) APPLICABILITY OF CHAPTER 1 OF TITLE 23.—Funds apportioned under this subsection shall be available for obligation in the same manner and for the same purposes as if such funds were apportioned for the surface transportation program under chapter 1 of title 23, United States Code, except that such funds shall remain available until expended. 1/2 of the amounts apportioned under this subsection shall be subject to section 133(d)(3) of title 23, United States Code, as added by this Act.

SEC. 1014. REIMBURSEMENT FOR SEGMENTS OF THE INTERSTATE SYSTEM CONSTRUCTED WITHOUT FEDERAL ASSISTANCE.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by adding at the end the following new section:

"§160. Reimbursement for segments of the Interstate System constructed without Federal assistance

"(a) GENERAL AUTHORITY.—The Secretary shall allocate to the States in each of fiscal years 1996 and 1997 amounts determined under subsection (b) for reimbursement of their original contributions to construction of segments of the Interstate System which were constructed without Federal financial assistance.

"(b) DETERMINATION OF REIMBURSEMENT AMOUNT.—The amount to be reimbursed to a State in each of fiscal years 1996 and 1997 under this section shall be determined by multiplying the amount made available for carrying out this section for such fiscal year by the reimbursement percentage set forth in the table contained in subsection (c).

"(c) REIMBURSEMENT TABLE.—For purposes of carrying out this section, the reimbursement percentage, the original cost for constructing the Interstate System, and the total reimbursable amount for each State is set forth in the following table:

States	Original cost in millions	Reimbursement percentage	Reimbursable amount in millions
Alabama	$9	0.50	$147
Alaska		.50	147
Arizona	20	.50	147
Arkansas	6	.50	147
California	298	5.42	1,591
Colorado	23	.50	147
Connecticut	314	5.71	1,676
Delaware	39	0.71	209
Florida	31	.56	164
Georgia	46	.84	246
Hawaii		.50	147
Idaho	5	.50	147
Illinois	475	8.62	2,533
Indiana	167	3.03	892
Iowa	5	.50	147
Kansas	101	1.84	540
Kentucky	32	.57	169
Louisiana	22	.50	147
Maine	38	.69	204
Maryland	154	2.79	820
Massachusetts	283	5.14	1,511
Michigan	228	4.14	1,218
Minnesota	16	.50	147
Mississippi	6	.50	147
Missouri	74	1.35	396
Montana	5	.50	147
Nebraska	1	.50	147
Nevada	2	.50	147
New Hampshire	8	.50	147
New Jersey	353	6.41	1,882
New Mexico	8	.50	147
New York	929	16.88	4,960
North Carolina	36	.65	191
North Dakota	3	.50	147
Ohio	257	4.68	1,374
Oklahoma	91	1.66	486
Oregon	78	1.42	417
Pennsylvania	354	6.43	1,888
Rhode Island	12	.50	147
South Carolina	4	.50	147
South Dakota	5	.50	147
Tennessee	7	.50	147
Texas	200	3.64	1,069
Utah	6	.50	147
Vermont	1	.50	147
Virginia	111	2.01	591
Washington	73	1.32	389
West Virginia	5	.50	147
Wisconsin	8	.50	147
Wyoming	9	.50	147
D.C.	9	.50	147
Totals	4,967	100.00	29,384

"(d) TRANSFER OF REIMBURSABLE AMOUNTS TO STP APPORTIONMENT.—Subject to subsection (e) of this section, the Secretary shall transfer amounts allocated to a State pursuant to this section to the apportionment of such State under section 104(b)(3) for the surface transportation program.

"(e) LIMITATION ON APPLICABILITY OF CERTAIN REQUIREMENTS OF STP PROGRAM.—The following provisions of section 133 of this title shall not apply to ½ of the amounts transferred under subsection (d) to the apportionment of the State for the surface transportation program:

"(1) Subsection (d)(1).

"(2) Subsection (d)(2).

"(3) Subsection (d)(3).

"(f) Authorization of Appropriations.—There is authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account), $2,000,000,000 per fiscal year for each of fiscal years 1996 and 1997 to carry out this section.".

(b) Conforming Amendment.—The analysis for chapter 1 of such title is amended by adding at the end the following new item:

"160. Reimbursement for segments of the Interstate System constructed without Federal assistance."

(c) Kansas Projects.—

(1) United States route 50.—The State of Kansas shall obligate in fiscal year 1996 $24,440,000 to construct the Hutchinson Bypass between United States Route 50 and Kansas Route 96 in the vicinity of Hutchinson, Kansas. Such funds shall be obligated from amounts allocated to the State of Kansas for fiscal year 1996 under section 160 of title 23, United States Code.

(2) United States route 91.—The State of Kansas shall obligate in fiscal years 1996 and 1997 such sums as may be necessary to widen United States Route 91 from Belleville, Kansas, to the Nebraska border. Such funds shall be obligated from amounts allocated to the State of Kansas for fiscal years 1996 and 1997 under such section.

(3) Nonapplicability of certain provisions.—Sections 160(d) and 133(d)(3) of title 23, United States Code, shall not apply to funds allocated to the State of Kansas for fiscal years 1996 and 1997.

SEC. 1015. APPORTIONMENT ADJUSTMENTS.

(a) Hold Harmless.—

(1) General rule.—The amount of funds which, but for this subsection, would be apportioned to a State for each of the fiscal years 1992 through 1997 under section 104(b)(3) of title 23, United States Code, for the surface transportation program shall be increased or decreased by an amount which, when added to or subtracted from the aggregate amount of funds apportioned to the State for such fiscal year and funds allocated to the State for the prior fiscal year under section 104(b) of such title, section 103(e)(4) for Interstate highway substitute, section 144 of such title, section 157 of such title, under section 202 of such title for the Federal lands highways program, section 160 of such title for the reimbursement program, and section 1013(c) of this Act for the donor State bonus program, will result in the percentage of amounts so apportioned and allocated to all States being equal to the percentage listed for such State in paragraph (2).

(2) State percentages.—For purposes of paragraph (1) the percentage of amounts apportioned and allocated which are referred to in paragraph (1) for each State and the District of Columbia shall be determined in accordance with the following table:

States:	Adjustment Percentage
Alabama	1.74
Alaska	1.28
Arizona	1.49
Arkansas	1.20
California	9.45
Colorado	1.35
Connecticut	1.78
Delaware	0.41
District of Columbia	0.53
Florida	4.14
Georgia	2.97
Hawaii	0.57
Idaho	0.69
Illinois	3.72
Indiana	2.20
Iowa	1.25
Kansas	1.14
Kentucky	1.52
Louisiana	1.55
Maine	0.50
Maryland	1.69
Massachusetts	4.36
Michigan	2.81
Minnesota	1.58
Mississippi	1.15
Missouri	2.23
Montana	0.97
Nebraska	0.83
Nevada	0.64
New Hampshire	0.48
New Jersey	2.87
New Mexico	1.08
New York	5.37
North Carolina	2.65
North Dakota	0.62
Ohio	3.73
Oklahoma	1.42
Oregon	1.26
Pennsylvania	4.38
Rhode Island	0.54

(b) 90 Percent of Payment Adjustments.—

(1) General rule.—For each of fiscal years 1992 through 1997, the Secretary shall allocate among the States amounts sufficient to ensure that a State's total apportionments for such fiscal year and allocations for the prior fiscal year under section 104(b) of such title, section 103(e)(4) for Interstate highway substitute, section 144 of such title, section 157 of such title, section 202 of such title for the Federal lands highways program, section 1013(c) of this Act for the donor State bonus program, section 160 of such title for the reimbursement program, and subsection (a) of this section for hold harmless is not less than 90 percent of the estimated tax payments attributable to highway users in the State paid into the Highway Trust Fund (other than Mass Transit Account) in the latest fiscal year in which data is available.

(2) Transfer of allocated amounts to STP apportionment.—Subject to subsection (d) of this section, the Secretary shall transfer amounts allocated to a State pursuant to paragraph (1) to the apportionment of such State under section 104(b)(3) for the surface transportation program.

(c) Additional Allocation.—Subject to subsection (d) of this section, the Secretary shall allocate to the State of Wisconsin $40,000,000 for fiscal year 1992 and $47,800,000 for each of fiscal years 1993 through 1997 and transfer such amounts to the apportionment of such State under section 104(b)(3) of title 23, United States Code, for the surface transportation program.

(d) Limitation on Applicability of Certain Requirements of STP Program.—The following provisions of section 133 of title 23, United States Code, shall not apply to ½ of the amounts added under subsection (a) to the apportionment of the State for the surface transportation program and of amounts transferred under subsections (b) and (c) to such apportionment:

(1) Subsection (d)(1).

(2) Subsection (d)(2).

(3) Subsection (d)(3).

(e) Authorization of Appropriations.—There are authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account), to carry out this section such sums as may be necessary for each of fiscal years 1992 through 1997.

SEC. 1016. PROGRAM EFFICIENCIES.

(a) HOV Passenger Requirements; Engineering Cost Reimbursement.—Section 102 of title 23, United States Code, is amended to read as follows:

"§102. Program efficiencies

"(a) HOV Passenger Requirements.—A State highway department shall establish the occupancy requirements of vehicles operating in high occupancy vehicle lanes; except that no fewer than 2 occupants per vehicle may be required and, subject to section 163 of the Surface Transportation Assistance Act of 1982, motorcycles and bicycles shall not be considered single occupant vehicles.

"(b) Engineering Cost Reimbursement.—If on-site construction of, or acquisition of right-of-way for, a highway project is not commenced within 10 years after the date on which Federal funds are first made available, out of the Highway Trust Fund (other than Mass Transit Account), for preliminary engineering of such project, the State shall pay an amount equal to the amount of Federal funds made available for such engineering. The Secretary shall deposit in such Fund all amounts paid to the Secretary under this section.".

(b) Project Approval.—Section 106 of such title is amended—

(1) in subsection (a) by inserting "this section and" before "section 117"; and

(2) by striking subsection (b) and inserting the following new subsection:

"(b) Special Rules.—

"(1) 3R projects on NHS.—Notwithstanding any other provision of this title, a State highway department may approve, on a project by project basis, plans, specifications, and estimates for projects to resurface, restore, and rehabilitate highways on the National Highway System if the State certifies that all work will meet or exceed the standards approved by the Secretary under section 109(c).

"(2) Non-NHS projects and low-cost NHS projects.—Any State may request that the Secretary no longer review and approve plans, specifications, and estimates for any project (including any highway project on the National Highway System with an estimated construction cost of less than $1,000,000 but excluding any other highway project on the National Highway System). After receiving any such notification, the Secretary shall undertake project review only as requested by the State.

"(3) Safety considerations.—Safety considerations for projects subject to this subsection may be met by phase construction consistent with an operative safety management system established in accordance with section 303.".

(c) Standards.—Section 109(c) of such title is amended to read as follows:

"(c) Design and Construction Standards for NHS.—Design and construction standards to be adopted for new construction on the National Highway System, for reconstruction on the National Highway System, and for resurfacing, restoring, and rehabilitating multilane limited access highways on the National Highway System shall be those approved by the Secretary in cooperation with the State highway departments. All eligible work for such projects shall meet or exceed such standards.".

(d) Compliance With State Laws for Non-NHS Projects.—Section 109 of such title is amended by adding at the end the following new subsection:

"(p) Compliance With State Laws for Non-NHS Projects.—Projects (other than highway projects on the National Highway System) shall be designed, constructed, operated, and main-

tained in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.".

(e) HISTORIC AND SCENIC VALUES.—Section 109 of such title is amended by adding at the end the following new subsection:

"(q) HISTORIC AND SCENIC VALUES.—If a proposed project under sections 103(e)(4), 133, or 144 involves a historic facility or is located in an area of historic or scenic value, the Secretary may approve such project notwithstanding the requirements of subsections (a) and (b) of this section and section 133(c) if such project is designed to standards that allow for the preservation of such historic or scenic value and such project is designed with mitigation measures to allow preservation of such value and ensure safe use of the facility.".

(f) CONFORMING AMENDMENTS.—

(1) STANDARDS.—Section 109 of such title is amended—

(A) in subsection (a) by striking "projects on any Federal-aid system" and inserting "highway projects under this chapter"; and

(B) in subsection (l)(1) by striking "Federal-aid system" and inserting "Federal-aid highway".

(2) CERTIFICATION ACCEPTANCE.—Section 117 of such title is amended—

(A) in subsection (a) by striking "on Federal-aid systems, except" and inserting "under this chapter, except projects on";

(B) in subsection (a) by inserting "or other transportation" before "construction,";

(C) by striking subsection (b) and inserting the following:

"(b) The Secretary may accept projects based on inspections of a type and frequency necessary to ensure the projects are completed in accordance with appropriate standards."; and

(D) in subsection (e) by inserting ", section 106(b), section 133, and section 149" after "in this section".

(3) CHAPTER ANALYSIS.—The analysis of chapter 1 of such title, is amended by striking

"102. Authorizations."
and inserting

"102. Program efficiencies.".

(g) LIMITATION ON CERTAIN EXPENDITURES.—No Federal funds may be expended for any highway project on any portion of the scenic highway known as "Ministerial Road" between route 138 and route 1 in the State of Rhode Island unless the Governor of such State and the town council of the town of South Kingstown, Rhode Island, first agree to the design.

SEC. 1017. ACQUISITION OF RIGHTS-OF-WAY.

(a) RIGHT-OF-WAY REVOLVING FUND.—Sections 108(a) and 108(c)(3) of title 23, United States Code, are each amended by striking "ten" and inserting "20".

(b) EARLY ACQUISITION OF RIGHTS-OF-WAY.—Section 108 of such title is further amended by adding at the end the following new subsection:

"(d) EARLY ACQUISITION OF RIGHTS-OF-WAY.—

"(1) GENERAL RULE.—Subject to paragraph (2), funds apportioned to a State under this title may be used to participate in the payment of—

"(A) costs incurred by the State for acquisition of rights-of-way, acquired in advance of any Federal approval or authorization, if the rights-of-way are subsequently incorporated into a project eligible for surface transportation program funds; and

"(B) costs incurred by the State for the acquisition of land necessary to preserve environmental and scenic values.

"(2) TERMS AND CONDITIONS.—The Federal share payable of the costs described in paragraph (1) shall be eligible for reimbursement out of funds apportioned to a State under this title when the rights-of-way acquired are incorporated into a project eligible for surface transportation program funds, if the State demonstrates to the Secretary and the Secretary finds that—

"(A) any land acquired, and relocation assistance provided, complied with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;

"(B) the requirements of title VI of the Civil Rights Act of 1964 have been complied with;

"(C) the State has a mandatory comprehensive and coordinated land use, environment, and transportation planning process under State law and the acquisition is certified by the Governor as consistent with the State plans before the acquisition;

"(D) the acquisition is determined in advance by the Governor to be consistent with the State transportation planning process pursuant to section 135 of this title;

"(E) the alternative for which the right-of-way is acquired is selected by the State pursuant to regulations to be issued by the Secretary which provide for the consideration of the environmental impacts of various alternatives;

"(F) before the time that the cost incurred by a State is approved for Federal participation, environmental compliance pursuant to the National Environmental Policy Act has been completed for the project for which the right-of-way was acquired by the State, and the acquisition has been approved by the Secretary under this Act, and in compliance with section 4(f) of the Department of Transportation Act, section 7 of the Endangered Species Act, and all other applicable environmental laws shall be identified by the Secretary in regulations; and

"(G) before the time that the cost incurred by a State is approved for Federal participation, both the Secretary and the Administrator of the Environmental Protection Agency have concurred that the property acquired in advance of Federal approval or authorization did not influence the environmental assessment of the project, the decision relative to the need to construct the project, or the selection of the project design or location.".

(c) PRESERVATION OF TRANSPORTATION CORRIDORS REPORT.—The Secretary, in consultation with the States, shall report to Congress within 2 years after the date of the enactment of this Act, a national list of the rights-of-way identified by the metropolitan planning organizations and the States (under sections 134 and 135 of title 23, United States Code), including the total mileage involved, an estimate of the total costs, and a strategy for preventing further loss of rights-of-way including the desirability of creating a transportation right-of-way land bank to preserve vital corridors.

SEC. 1018. PRECONSTRUCTION ACTIVITIES.

(a) LIMITATION ON ESTIMATES FOR CONSTRUCTION ENGINEERING.—Section 106(c) of title 23, United States Code, is amended to read as follows:

"(c) LIMITATION ON ESTIMATES FOR CONSTRUCTION ENGINEERING.—Items included in all such estimates for construction engineering for a State for a fiscal year shall not exceed, in the aggregate, 15 percent of the total estimated costs of all projects financed within the boundaries of the State with Federal-aid highway funds in such fiscal year, after excluding from such total estimate costs, the estimated costs of rights-of-way, preliminary engineering, and construction engineering.".

(b) CONFORMING AMENDMENTS.—Section 121(d) of such title is amended—

(1) by striking "120" and inserting "106(c), 120,"; and

(2) by striking the last sentence.

SEC. 1019. CONVICT PRODUCED MATERIALS.

Section 114(b)(2) of title 23, United States Code, is amended by inserting "after July 1, 1991," after "Materials produced".

SEC. 1020. PERIOD OF AVAILABILITY.

(a) DATE AND PERIOD OF AVAILABILITY; DISCRETIONARY PROJECTS.—Section 118 of title 23, United States Code, is amended by striking subsections (a) and (b) and inserting the following new subsections:

"(a) DATE AVAILABLE FOR OBLIGATION.—Except as otherwise specifically provided, authorizations from the Highway Trust Fund (other than the Mass Transit Account) to carry out this title shall be available for obligation on the date of their apportionment or allocation or on October 1 of the fiscal year for which they are authorized, whichever occurs first.

"(b) PERIOD OF AVAILABILITY; DISCRETIONARY PROJECTS.—

"(1) INTERSTATE CONSTRUCTION FUNDS.—Funds apportioned or allocated for Interstate construction in a State shall remain available for obligation in that State until the last day of the fiscal year in which they are apportioned or allocated. Sums not obligated by the last day of the fiscal year in which they are apportioned or allocated shall be allocated to other States, except Massachusetts, at the discretion of the Secretary. All sums apportioned or allocated on or after October 1, 1994, shall remain available in the State until expended. All sums apportioned or allocated to Massachusetts on or before October 1, 1989, shall remain available until expended.

"(2) OTHER FUNDS.—Except as otherwise specifically provided, funds apportioned or allocated pursuant to this title (other than for Interstate construction) in a State shall remain available for obligation in that State for a period of 3 years after the last day of the fiscal year for which the funds are authorized. Any amounts so apportioned or allocated that remain unobligated at the end of that period shall lapse.".

(b) SET ASIDE FOR DISCRETIONARY PROJECTS.—Section 118(c) of such title is amended—

(1) by striking "1983" and inserting "1992";

(2) by striking "$300,000,000" and inserting "$100,000,000"; and

(3) by striking paragraph (2) and inserting the following new paragraph:

"(2) SET ASIDE FOR 4R PROJECTS.—

"(A) IN GENERAL.—Before any apportionment is made under section 104(b)(1) of this title, the Secretary shall set aside $54,000,000 for fiscal year 1992, $64,000,000 for each fiscal years 1993, 1994, 1995, and 1996, and $65,000,000 for fiscal year 1997 for obligation by the Secretary for projects for resurfacing, restoring, rehabilitating, and reconstructing any route or portion thereof on the Interstate System (other than any highway designated as a part of the Interstate System under section 139 and any toll road on the Interstate System not subject to an agreement under section 119(e) of this title, as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991). Of the amounts set aside under the preceding sentence, the Secretary shall obligate $16,000,000 for fiscal year 1992 and $17,000,000 for each of fiscal years 1993 and 1994 for improvements on the Kennedy Expressway in Chicago, Illinois. The remainder of such funds shall be made available by the Secretary to any State applying for such funds, if the Secretary determines that—

"(i) the State has obligated or demonstrates that it will obligate in the fiscal year all of its apportionments under section 104(b)(1) other than an amount which, by itself, is insufficient to pay the Federal share of the cost of a project for resurfacing, restoring, rehabilitating, and reconstructing the Interstate System which has been submitted by the State to the Secretary for approval; and

"(ii) the applicant is willing and able to (I) obligate the funds within 1 year of the date the

funds are made available, (II) apply them to a ready-to-commence project, and (III) in the case of construction work, begin work within 90 days of obligation.

"(B) PRIORITY CONSIDERATION FOR CERTAIN PROJECTS.—In selecting projects to fund under subparagraph (A), the Secretary shall give priority consideration to any project the cost of which exceeds $10,000,000 on any high volume route in an urban area or a high truck-volume route in a rural area.

"(C) PERIOD OF AVAILABILITY OF DISCRETIONARY FUNDS.—Sums made available pursuant to this paragraph shall remain available until expended.".

(c) CONFORMING AMENDMENT.—Section 118(d) of such title is amended by striking "(b)(2)" and inserting "(b)(1)".

(d) ALASKA AND PUERTO RICO.—Section 118(f) of such title is amended by striking "on a Federal-aid system".

SEC. 1021. FEDERAL SHARE.

(a) IN GENERAL.—Section 120 of title 23, United States Code, is amended by striking subsections (a), (b), (c), and (d) and inserting the following new subsections:

"(a) INTERSTATE SYSTEM PROJECTS.—Except as otherwise provided in this chapter, the Federal share payable on account of any project on the Interstate System (including a project to add high occupancy vehicle lanes and a project to add auxiliary lanes but excluding a project to add any other lanes) shall be 90 percent of the total cost thereof, plus a percentage of the remaining 10 percent of such cost in any State containing unappropriated and unreserved public lands and nontaxable Indian lands, individual and tribal, exceeding 5 percent of the total area of all lands therein, equal to the percentage that the area of such lands in such State is of its total area; except that such Federal share payable on any project in any State shall not exceed 95 percent of the total cost of such project.

"(b) OTHER PROJECTS.—Except as otherwise provided in this title, the Federal share payable on account of any project or activity carried out under this title (other than a project subject to subsection (a)) shall be—

"(1) 80 percent of the cost thereof, except that in the case of any State containing nontaxable Indian lands, individual and tribal, and public domain lands (both reserved and unreserved) exclusive of national forests and national parks and monuments, exceeding 5 percent of the total area of all lands therein, the Federal share, for purposes of this chapter, shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State, is of its total area; or

"(2) 80 percent of the cost thereof, except that in the case of any State containing nontaxable Indian lands, individual and tribal, public domain lands (both reserved and unreserved), national forests, and national parks and monuments, the Federal share, for purposes of this chapter, shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State is of its total area;

except that the Federal share payable on any project in a State shall not exceed 95 percent of the total cost of any such project. In any case where a State elects to have the Federal share provided in paragraph (2) of this subsection, the State must enter into an agreement with the Secretary covering a period of not less than 1 year, requiring such State to use solely for purposes eligible for assistance under this title (other than paying its share of projects approved under this title) during the period covered by such agreement the difference between the State's share as provided in paragraph (2) and what its share would be if it elected to pay the share provided in paragraph (1) for all projects subject to such agreement.

"(c) INCREASED FEDERAL SHARE FOR CERTAIN SAFETY PROJECTS.—The Federal share payable on account of any project for traffic control signalization, pavement marking, commuter carpooling and vanpooling, or installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier endtreatments, breakaway utility poles, or priority control systems for emergency vehicles at signalized intersections may amount to 100 percent of the cost of construction of such projects; except that not more than 10 percent of all sums apportioned for all the Federal-aid systems for any fiscal year in accordance with section 104 of this title shall be used under this subsection.".

(b) CONFORMING AMENDMENTS.—Section 120 of such title is further amended—

(1) by striking subsections (j), (k), (l), and (m),

(2) by redesignating subsections (e), (f), (g), (h), (i), and (n) as subsections (d), (e), (f), (g), (h), and (i) respectively, and

(3) in subsection (d) as so redesignated by striking "and (c)" and inserting "and (b)".

(c) LIMITATION ON STATUTORY CONSTRUCTION.—The amendments made by this section shall not be construed to affect (1) the Federal share established by the Supplemental Appropriations Act, 1983 (97 Stat. 329) for construction of any highway on the Interstate System, and (2) the Federal share established by section 120(k) of such title, as in effect on the day before the date of the enactment of this Act, with respect to United States Highway 71 in Arkansas from the I-40 intersection to the Missouri-Arkansas State line.

(d) HIGHER FEDERAL SHARE.—If any highway project authorized to be carried out under section 1103 through 1108 of this Act is a project which would be eligible for assistance under section 204 of title 23, United States Code, or is a project on a federally owned bridge, the Federal share payable on account of such project shall be 100 percent for purposes of this Act.

SEC. 1022. EMERGENCY RELIEF.

(a) EXTENSION OF TIME PERIOD.—Section 120(d) of title 23, United States Code, as redesignated by section 1021(b) of this Act, is amended by striking "90 days" and inserting "180 days".

(b) DOLLAR LIMITATION FOR TERRITORIES.—Section 125(b)(2) of such title is amended by striking "$5,000,000" and inserting "$20,000,000".

(c) APPLICABILITY.—The amendments made by subsections (a) and (b) shall only apply to natural disasters and catastrophic failures occurring after the date of the enactment of this Act.

SEC. 1023. GROSS VEHICLE WEIGHT RESTRICTION.

(a) CONFORMING AMENDMENTS.—Section 127(a) of title 23, United States Code, is amended—

(1) by striking "funds authorized to be appropriated for any fiscal year under provisions of the Federal-Aid Highway Act of 1956 shall be apportioned" and inserting "funds shall be apportioned in any fiscal year under section 104(b)(1) of this title"; and

(2) in the fourth sentence by inserting after "thereof" the following: ", other than vehicles or combinations subject to subsection (d) of this section,".

(b) OPERATION OF LONGER COMBINATION VEHICLES.—Section 127 of such title is amended by adding at the end the following new subsection:

"(d) LONGER COMBINATION VEHICLES.—

"(1) PROHIBITION.—

"(A) GENERAL CONTINUATION RULE.—A longer combination vehicle may continue to operate only if the longer combination vehicle configuration type was authorized by State officials pursuant to State statute or regulation conforming to this section and in actual lawful operation on a regular or periodic basis (including seasonal operations) on or before June 1, 1991, or pursuant to section 335 of the Department of Transportation and Related Agencies Appropriations Act, 1991 (104 Stat. 2186).

"(B) APPLICABILITY OF STATE LAWS AND REGULATIONS.—All such operations shall continue to be subject to, at the minimum, all State statutes, regulations, limitations and conditions, including, but not limited to, routing-specific and configuration-specific designations and all other restrictions, in force on June 1, 1991; except that subject to such regulations as may be issued by the Secretary pursuant to paragraph (5) of this subsection, the State may make minor adjustments of a temporary and emergency nature to route designations and vehicle operating restrictions in effect on June 1, 1991, for specific safety purposes and road construction.

"(C) WYOMING.—In addition to those vehicles allowed under subparagraph (A), the State of Wyoming may allow the operation of additional vehicle configurations not in actual operation on June 1, 1991, but authorized by State law not later than November 3, 1992, if such vehicle configurations comply with the single axle, tandem axle, and bridge formula limits set forth in subsection (a) and do not exceed 117,000 pounds gross vehicle weight.

"(D) OHIO.—In addition to vehicles which the State of Ohio may continue to allow to be operated under subparagraph (A), such State may allow longer combination vehicles with 3 cargo carrying units of 28½ feet each (not including the truck tractor) not in actual operation on June 1, 1991, to be operated within its boundaries on the 1-mile segment of Ohio State Route 7 which begins at and is south of exit 16 of the Ohio Turnpike.

"(E) ALASKA.—In addition to vehicles which the State of Alaska may continue to allow to be operated under subparagraph (A), such State may allow the operation of longer combination vehicles which were not in actual operation on June 1, 1991, but which were in actual operation prior to July 5, 1991.

"(2) ADDITIONAL STATE RESTRICTIONS.—

"(A) IN GENERAL.—Nothing in this subsection shall prevent any State from further restricting in any manner or prohibiting the operation of longer combination vehicles otherwise authorized under this subsection; except that such restrictions or prohibitions shall be consistent with the requirements of sections 411, 412, and 416 of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2311, 2312, and 2316).

"(B) MINOR ADJUSTMENTS.—Any State further restricting or prohibiting the operations of longer combination vehicles or making minor adjustments of a temporary and emergency nature as may be allowed pursuant to regulations issued by the Secretary pursuant to paragraph (5) of this subsection, shall, within 30 days, advise the Secretary of such action, and the Secretary shall publish a notice of such action in the Federal Register.

"(3) PUBLICATION OF LIST.—

"(A) SUBMISSION TO SECRETARY.—Within 60 days of the date of the enactment of this subsection, each State (i) shall submit to the Secretary for publication in the Federal Register a complete list of (I) all operations of longer combination vehicles being conducted as of June 1, 1991, pursuant to State statutes and regulations; (II) all limitations and conditions, including, but not limited to, routing-specific and configuration-specific designations and all other restrictions, governing the operation of longer combination vehicles otherwise prohibited under this subsection; and (III) such statutes, regulations, limitations, and conditions; and (ii) shall submit to the Secretary copies of such statutes, regulations, limitations, and conditions.

"(B) INTERIM LIST.—Not later than 90 days after the date of the enactment of this sub-

section, the Secretary shall publish an interim list in the Federal Register, consisting of all information submitted pursuant to subparagraph (A). The Secretary shall review for accuracy all information submitted by the States pursuant to subparagraph (A) and shall solicit and consider public comment on the accuracy of all such information.

"(C) LIMITATION.—No statute or regulation shall be included on the list submitted by a State or published by the Secretary merely on the grounds that it authorized, or could have authorized, by permit or otherwise, the operation of longer combination vehicles, not in actual operation on a regular or periodic basis on or before June 1, 1991.

"(D) FINAL LIST.—Except as modified pursuant to paragraph (1)(C) of this subsection, the list shall be published as final in the Federal Register not later than 180 days after the date of the enactment of this subsection. In publishing the final list, the Secretary shall make any revisions necessary to correct inaccuracies identified under subparagraph (B). After publication of the final list, longer combination vehicles may not operate on the Interstate System except as provided in the list.

"(E) REVIEW AND CORRECTION PROCEDURE.—The Secretary, on his or her own motion or upon a request by any person (including a State), shall review the list issued by the Secretary pursuant to subparagraph (D). If the Secretary determines there is cause to believe that a mistake was made in the accuracy of the final list, the Secretary shall commence a proceeding to determine whether the list published pursuant to subparagraph (D) should be corrected. If the Secretary determines that there is a mistake in the accuracy of the list the Secretary shall correct the publication under subparagraph (D) to reflect the determination of the Secretary.

"(4) LONGER COMBINATION VEHICLE DEFINED.—For purposes of this section, the term 'longer combination vehicle' means any combination of a truck tractor and 2 or more trailers or semitrailers which operates on the Interstate System at a gross vehicle weight greater than 80,000 pounds.

"(5) REGULATIONS REGARDING MINOR ADJUSTMENTS.—Not later than 180 days after the date of the enactment of this subsection, the Secretary shall issue regulations establishing criteria for the States to follow in making minor adjustments under paragraph (1)(B).".

(c) STATE CERTIFICATION.—Section 141(b) of such title is amended by adding at the end the following new sentence: "Each State shall also certify that it is enforcing and complying with the provisions of section 127(d) of this title and section 411(j) of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2311(j)).".

(d) INTERSTATE ROUTE 68.—Section 127 of such title is amended by adding at the end the following new subsection:

"(e) OPERATION OF CERTAIN SPECIALIZED HAULING VEHICLES ON INTERSTATE ROUTE 68.—The single axle, tandem axle, and bridge formula limits set forth in subsection (a) shall not apply to the operation on Interstate Route 68 in Garrett and Allegany Counties, Maryland, of any specialized vehicle equipped with a steering axle and a tridem axle and used for hauling coal, logs, and pulpwood if such vehicle is of a type of vehicle as was operating in such counties on United States Route 40 or 48 for such purpose on August 1, 1991.".

(e) FIREFIGHTING VEHICLES.—

(1) TEMPORARY EXEMPTION.—The second sentence of section 127 of title 23, United States Code, relating to axle weight limitations and the bridge formula for vehicles using the National System of Interstate and Defense Highways, shall not apply, in the 2-year period beginning on the date of the enactment of this Act, to any existing vehicle which is used for the purpose of protecting persons and property from fires and other disasters that threaten public safety and which is in actual operation before such date of enactment and to any new vehicle to be used for such purpose while such vehicle is being delivered to a firefighting agency. The Secretary may extend such 2-year period for an additional year.

(2) STUDY.—The Secretary shall conduct a study—

(A) of State laws regulating the use on the National System of Interstate and Defense Highways of vehicles which are used for the purpose of protecting persons and property from fires and other disasters that threaten public safety and which are being delivered to or operated by a firefighting agency; and

(B) of the issuance of permits by States which exempt such vehicles from the requirements of the second sentence of section 127 of title 23, United States Code.

(3) PURPOSES.—The purposes of the study under this subsection are to determine whether or not such State laws and such section 127 need to be modified with regard to such vehicles and whether or not a permanent exemption should be made for such vehicles from the requirements of such laws and section 127 or whether or not the bridge formula set forth in such section should be modified as it applies to such vehicles.

(4) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Secretary shall submit to the Congress a report on the results of the study conducted under paragraph (2), together with recommendations.

(f) MONTANA-CANADA TRADE.—The Secretary shall not withhold funds from the State of Montana on the basis of actions taken by the State of Montana pursuant to a draft memorandum of understanding with the Province of Alberta, Canada, regarding truck transportation between Canada and Shelby, Montana; except that such actions do not include actions not permitted by the State of Montana on or before June 1, 1991.

(g) TRANSPORTERS OF WATER WELL DRILLING RIGS.—

(1) STUDY.—The Secretary shall conduct a study of State and Federal regulations pertaining to transporters of water well drilling rigs on public highways for the purpose of identifying requirements which place a burden on such transporters without enhancing safety or preservation of public highways.

(2) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under paragraph (1), together with any legislative and administrative recommendations of the Secretary.

SEC. 1024. METROPOLITAN PLANNING.

(a) IN GENERAL.—Section 134 of title 23, United States Code, is amended to read as follows:

"§134. Metropolitan planning

"(a) GENERAL REQUIREMENTS.—It is in the national interest to encourage and promote the development of transportation systems embracing various modes of transportation in a manner which will efficiently maximize mobility of people and goods within and through urbanized areas and minimize transportation-related fuel consumption and air pollution. To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the State, the metropolitan areas, and the Nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

"(b) DESIGNATION OF METROPOLITAN PLANNING ORGANIZATIONS.—

"(1) IN GENERAL.—To carry out the transportation planning process required by this section, a metropolitan planning organization shall be designated for each urbanized area of more than 50,000 population by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

"(2) MEMBERSHIP OF CERTAIN MPO'S.—In a metropolitan area designated as a transportation management area, the metropolitan planning organization designated for such area shall include local elected officials, officials of agencies which administer or operate major modes of transportation in the metropolitan area (including all transportation agencies included in the metropolitan planning organization on June 1, 1991) and appropriate State officials. This paragraph shall only apply to a metropolitan planning organization which is redesignated after the date of the enactment of this section.

"(3) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to interfere with the authority, under any State law in effect on the date of the enactment of this section, of a public agency with multimodal transportation responsibilities to—

"(A) develop plans and programs for adoption by a metropolitan planning organization; and

"(B) develop long-range capital plans, coordinate transit services and projects, and carry out other activities pursuant to State law.

"(4) CONTINUING DESIGNATION.—Designations of metropolitan planning organizations, whether made under this section or other provisions of law, shall remain in effect until redesignated under paragraph (5) or revoked by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population or as otherwise provided under State or local procedures.

"(5) REDESIGNATION.—

"(A) PROCEDURES.—A metropolitan planning organization may be redesignated by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) as appropriate to carry out this section.

"(B) CERTAIN REQUESTS TO REDESIGNATE.—A metropolitan planning organization shall be redesignated upon request of a unit or units of general purpose local government representing at least 25 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) in any urbanized area (i) whose population is more than 5,000,000 but less than 10,000,000, or (ii) which is an extreme nonattainment area for ozone or carbon monoxide as defined under the Clean Air Act. Such redesignation shall be accomplished using procedures established by subparagraph (A).

"(6) TREATMENT OF LARGE URBAN AREAS.—More than 1 metropolitan planning organization may be designated within an urbanized area as defined by the Bureau of the Census only if the Governor determines that the size and complexity of the urbanized area make designation of more than 1 metropolitan planning organization for such area appropriate.

"(c) METROPOLITAN AREA BOUNDARIES.—For the purposes of this section, the boundaries of a

metropolitan area shall be determined by agreement between the metropolitan planning organization and the Governor. Each metropolitan area shall cover at least the existing urbanized area and the contiguous area expected to become urbanized within the 20-year forecast period and may encompass the entire metropolitan statistical area or consolidated metropolitan statistical area, as defined by the Bureau of the Census. For areas designated as nonattainment areas for ozone or carbon monoxide under the Clean Air Act, the boundaries of the metropolitan area shall at least include the boundaries of the nonattainment area, except as otherwise provided by agreement between the metropolitan planning organization and the Governor.

"(d) COORDINATION IN MULTISTATE AREAS.—

"(1) IN GENERAL.—The Secretary shall establish such requirements as the Secretary considers appropriate to encourage Governors and metropolitan planning organizations with responsibility for a portion of a multi-State metropolitan area to provide coordinated transportation planning for the entire metropolitan area.

"(2) COMPACTS.—The consent of Congress is hereby given to any 2 or more States to enter into agreements or compacts, not in conflict with any law of the United States, for cooperative efforts and mutual assistance in support of activities authorized under this section as such activities pertain to interstate areas and localities within such States and to establish such agencies, joint or otherwise, as such States may deem desirable for making such agreements and compacts effective.

"(e) COORDINATION OF MPO'S.—If more than 1 metropolitan planning organization has authority within a metropolitan area or an area which is designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, each metropolitan planning organization shall consult with the other metropolitan planning organizations designated for such area and the State in the coordination of plans and programs required by this section.

"(f) FACTORS TO BE CONSIDERED.—In developing transportation plans and programs pursuant to this section, each metropolitan planning organization shall, at a minimum, consider the following:

"(1) Preservation of existing transportation facilities and, where practical, ways to meet transportation needs by using existing transportation facilities more efficiently.

"(2) The consistency of transportation planning with applicable Federal, State, and local energy conservation programs, goals, and objectives.

"(3) The need to relieve congestion and prevent congestion from occurring where it does not yet occur.

"(4) The likely effect of transportation policy decisions on land use and development and the consistency of transportation plans and programs with the provisions of all applicable short- and long-term land use and development plans.

"(5) The programming of expenditure on transportation enhancement activities as required in section 133.

"(6) The effects of all transportation projects to be undertaken within the metropolitan area, without regard to whether such projects are publicly funded.

"(7) International border crossings and access to ports, airports, intermodal transportation facilities, major freight distribution routes, national parks, recreation areas, monuments and historic sites, and military installations.

"(8) The need for connectivity of roads within the metropolitan area with roads outside the metropolitan area.

"(9) The transportation needs identified through use of the management systems required by section 303 of this title.

"(10) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors and identification of those corridors for which action is most needed to prevent destruction or loss.

"(11) Methods to enhance the efficient movement of freight.

"(12) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavement.

"(13) The overall social, economic, energy, and environmental effects of transportation decisions.

"(14) Methods to expand and enhance transit services and to increase the use of such services.

"(15) Capital investments that would result in increased security in transit systems.

"(g) DEVELOPMENT OF LONG RANGE PLAN.—

"(1) IN GENERAL.—Each metropolitan planning organization shall prepare, and update periodically, according to a schedule that the Secretary determines to be appropriate, a long range plan for its metropolitan area in accordance with the requirements of this subsection.

"(2) LONG RANGE PLAN.—A long range plan under this section shall be in a form that the Secretary determines to be appropriate and shall, at a minimum:

"(A) Identify transportation facilities (including but not necessarily limited to major roadways, transit, and multimodal and intermodal facilities) that should function as an integrated metropolitan transportation system, giving emphasis to those facilities that serve important national and regional transportation functions. In formulating the long range plan, the metropolitan planning organization shall consider factors described in subsection (f) as such factors relate to a 20-year forecast period.

"(B) Include a financial plan that demonstrates how the long-range plan can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including such techniques as value capture, tolls and congestion pricing.

"(C) Assess capital investment and other measures necessary to—

"(i) ensure the preservation of the existing metropolitan transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit facilities; and

"(ii) make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods.

"(D) Indicate as appropriate proposed transportation enhancement activities.

"(3) COORDINATION WITH CLEAN AIR ACT AGENCIES.—In metropolitan areas which are in nonattainment for ozone or carbon monoxide under the Clean Air Act, the metropolitan planning organization shall coordinate the development of a long range plan with the process for development of the transportation control measures of the State implementation plan required by the Clean Air Act.

"(4) PARTICIPATION BY INTERESTED PARTIES.—Before approving a long range plan, each metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the long range plan, in a manner that the Secretary deems appropriate.

"(5) PUBLICATION OF LONG RANGE PLAN.—Each long range plan prepared by a metropolitan planning organization shall be—

"(i) published or otherwise made readily available for public review; and

"(ii) submitted for information purposes to the Governor at such times and in such manner as the Secretary shall establish.

"(h) TRANSPORTATION IMPROVEMENT PROGRAM.—

"(1) DEVELOPMENT.—The metropolitan planning organization designated for a metropolitan area, in cooperation with the State and affected transit operators, shall develop a transportation improvement program for the area for which such organization is designated. In developing the program, the metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program. The program shall be updated at least once every 2 years and shall be approved by the metropolitan planning organization and the Governor.

"(2) PRIORITY OF PROJECTS.—The transportation improvement program shall include the following:

"(A) A priority list of projects and project segments to be carried out within each 3-year period after the initial adoption of the transportation improvement program.

"(B) A financial plan that demonstrates how the transportation improvement program can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including value capture, tolls, and congestion pricing.

"(3) SELECTION OF PROJECTS.—Except as otherwise provided in subsection (i)(4), project selection in metropolitan areas for projects involving Federal participation shall be carried out by the State in cooperation with the metropolitan planning organization and shall be in conformance with the transportation improvement program for the area.

"(4) MAJOR CAPITAL INVESTMENTS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall initiate a rulemaking proceeding to conform review requirements for transit projects under the National Environmental Policy Act of 1969 to comparable requirements under such Act applicable to highway projects. Nothing in this section shall be construed to affect the applicability of such Act to transit or highway projects.

"(5) INCLUDED PROJECTS.—A transportation improvement program for a metropolitan area developed under this subsection shall include projects within the area which are proposed for funding under this title and the Federal Transit Act which are consistent with the long range plan developed under subsection (g) for the area. The program shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.

"(6) NOTICE AND COMMENT.—Before approving a transportation improvement program, a metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with reasonable notice of and an opportunity to comment on the proposed program.

"(i) TRANSPORTATION MANAGEMENT AREAS.—

"(1) DESIGNATION.—The Secretary shall designate as transportation management areas all

urbanized areas over 200,000 population. The Secretary shall designate any additional area as a transportation management area upon the request of the Governor and the metropolitan planning organization designated for such area or the affected local officials. Such additional areas shall include upon such a request the Lake Tahoe Basin as defined by Public Law 96-551.

"(2) TRANSPORTATION PLANS AND PROGRAMS.—Within a transportation management area, transportation plans and programs shall be based on a continuing and comprehensive transportation planning process carried out by the metropolitan planning organization in cooperation with the State and transit operators.

"(3) CONGESTION MANAGEMENT SYSTEM.—Within a transportation management area, the transportation planning process under this section shall include a congestion management system that provides for effective management of new and existing transportation facilities eligible for funding under this title and the Federal Transit Act through the use of travel demand reduction and operational management strategies. The Secretary shall establish an appropriate phase-in schedule for compliance with the requirements of this section.

"(4) SELECTION OF PROJECTS.—All projects carried out within the boundaries of a transportation management area with Federal participation pursuant to this title (excluding projects undertaken on the National Highway System and pursuant to the bridge and Interstate maintenance programs) or pursuant to the Federal Transit Act shall be selected by the metropolitan planning organization designated for such area in consultation with the State and in conformance with the transportation improvement program for such area and priorities established therein. Projects undertaken within the boundaries of a transportation management area on the National Highway System or pursuant to the Bridge and Interstate Maintenance programs shall be selected by the State in cooperation with the metropolitan planning organization designated for such area and shall be in conformance with the transportation improvement program for such area.

"(5) CERTIFICATION.—The Secretary shall assure that each metropolitan planning organization in each transportation management area is carrying out its responsibilities under applicable provisions of Federal law, and shall so certify at least once every 3 years. The Secretary may make such certification only if (1) a metropolitan planning organization is complying with the requirements of this section and other applicable requirements of Federal law, and (2) there is a transportation improvement program for the area that has been approved by the metropolitan planning organization and the Governor. If after September 30, 1993, a metropolitan planning organization is not certified by the Secretary, the Secretary may withhold, in whole or in part, the apportionment under section 104(b)(3) attributed to the relevant metropolitan area pursuant to section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act. If a metropolitan planning organization remains uncertified for more than 2 consecutive years after September 30, 1994, 20 percent of the apportionment attributed to that metropolitan area under section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act shall be withheld. The withheld apportionments shall be restored to the metropolitan area at such time as the metropolitan planning organization is certified by the Secretary. The Secretary shall not withhold certification under this section based upon the policies and criteria established by a metropolitan planning organization or transit grant recipient for determining the feasibility of private enterprise participation in accordance with section 8(o) of the Federal Transit Act.

"(j) ABBREVIATED PLANS AND PROGRAMS FOR CERTAIN AREAS.—For metropolitan areas not designated as transportation management areas under this section, the Secretary may provide for the development of abbreviated metropolitan transportation plans and programs that the Secretary determines to be appropriate to achieve the purposes of this section, taking into account the complexity of transportation problems, including transportation related air quality problems, in such areas. In no event shall the Secretary provide abbreviated plans or programs for metropolitan areas which are in nonattainment for ozone or carbon monoxide under the Clean Air Act.

"(k) TRANSFER OF FUNDS.—Funds made available for a highway project under the Federal Transit Act shall be transferred to and administered by the Secretary in accordance with the requirements of this title. Funds made available for a transit project under the Federal-Aid Highway Act of 1991 shall be transferred to and administered by the Secretary in accordance with the requirements of the Federal Transit Act.

"(l) ADDITIONAL REQUIREMENTS FOR CERTAIN NONATTAINMENT AREAS.—Notwithstanding any other provisions of this title or the Federal Transit Act, for transportation management areas classified as nonattainment for ozone or carbon monoxide pursuant to the Clean Air Act, Federal funds may not be programmed in such area for any highway project that will result in a significant increase in carrying capacity for single occupant vehicles unless the project is part of an approved congestion management system.

"(m) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to confer on a metropolitan planning organization the authority to impose legal requirements on any transportation facility, provider, or project not eligible under this title or the Federal Transit Act.

"(n) REPROGRAMMING OF SET ASIDE FUNDS.—Any funds set aside pursuant to section 104(f) of this title that are not used for the purpose of carrying out this section may be made available by the metropolitan planning organization to the State for the purpose of funding activities under section 135.".

(b) AMENDMENTS TO SECTION 104.—Section 104(f) of title 23, United States Code, is amended—

(1) in paragraph (1) by striking "one-half per centum" and inserting "1 percent";

(2) in paragraph (1) by striking "the Federal-aid systems" and inserting "programs authorized under this title";

(3) in paragraph (1) by striking "except that" and all that follows before the period and inserting "except that the amount from which such set aside is made shall not include funds authorized to be appropriated for the Interstate construction and Interstate substitute programs";

(4) in paragraph (3) by striking "section 120" and inserting "section 120(j)";

(5) in paragraph (4) by striking "and metropolitan area transportation needs" and inserting "attainment of air quality standards, metropolitan area transportation needs, and other factors necessary to provide for an appropriate distribution of funds to carry out the requirements of section 134 and other applicable requirements of Federal law"; and

(6) by adding at the end the following new paragraph:

"(5) DETERMINATION OF POPULATION FIGURES.—For the purposes of determining population figures under this subsection, the Secretary shall use the most recent estimate published by the Secretary of Commerce.".

(c) CONFORMING AMENDMENTS.—

(1) The analysis of chapter 1 of title 23, United States Code, is amended by striking

"Sec. 134. Transportation planning in certain urban areas."

and inserting

"Sec. 134. Metropolitan planning.".

(2) Section 104(f)(3) of title 23, United States Code, is amended by striking "designated by the State as being".

SEC. 1025. STATEWIDE PLANNING.

(a) IN GENERAL.—Section 135 of title 23, United States Code, is amended to read as follows:

"§135. Statewide planning

"(a) GENERAL REQUIREMENTS.—It is in the national interest to encourage and promote the development of transportation systems embracing various modes of transportation in a manner that will serve all areas of the State efficiently and effectively. Subject to section 134 of this title, the State shall develop transportation plans and programs for all areas of the State. Such plans and programs shall provide for development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal State transportation system. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

"(b) COORDINATION WITH METROPOLITAN PLANNING; STATE IMPLEMENTATION PLAN.—In carrying out planning under this section, a State shall coordinate such planning with the transportation planning activities carried out under section 134 of this title for metropolitan areas of the State and shall carry out its responsibilities for the development of the transportation portion of the State implementation plan to the extent required by the Clean Air Act.

"(c) STATE PLANNING PROCESS.—Each State shall undertake a continuous transportation planning process which shall, at a minimum, consider the following:

"(1) The results of the management systems required pursuant to subsection (b).

"(2) Any Federal, State, or local energy use goals, objectives, programs, or requirements.

"(3) Strategies for incorporating bicycle transportation facilities and pedestrian walkways in projects where appropriate throughout the State.

"(4) International border crossings and access to ports, airports, intermodal transportation facilities, major freight distribution routes, national parks, recreation and scenic areas, monuments and historic sites, and military installations.

"(5) The transportation needs of nonmetropolitan areas through a process that includes consultation with local elected officials with jurisdiction over transportation.

"(6) Any metropolitan area plan developed pursuant to section 134.

"(7) Connectivity between metropolitan areas within the State and with metropolitan areas in other States.

"(8) Recreational travel and tourism.

"(9) Any State plan developed pursuant to the Federal Water Pollution Control Act.

"(10) Transportation system management and investment strategies designed to make the most efficient use of existing transportation facilities.

"(11) The overall social, economic, energy, and environmental effects of transportation decisions.

"(12) Methods to reduce traffic congestion and to prevent traffic congestion from developing in

areas where it does not yet occur, including methods which reduce motor vehicle travel, particularly single-occupant motor vehicle travel.

"(13) Methods to expand and enhance transit services and to increase the use of such services.

"(14) The effect of transportation decisions on land use and land development, including the need for consistency between transportation decisionmaking and the provisions of all applicable short-range and long-range land use and development plans.

"(15) The transportation needs identified through use of the management systems required by section 303 of this title.

"(16) Where appropriate, the use of innovative mechanisms for financing projects, including value capture pricing, tolls, and congestion pricing.

"(17) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors, and identify those corridors for which action is most needed to prevent destruction or loss.

"(18) Long-range needs of the State transportation system.

"(19) Methods to enhance the efficient movement of commercial motor vehicles.

"(20) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavement.

"(d) ADDITIONAL REQUIREMENTS.—Each State in carrying out planning under this section shall, at a minimum, consider the following:

"(1) The coordination of transportation plans and programs developed for metropolitan areas of the State under section 134 with the State transportation plans and programs developed under this section and the reconciliation of such plans and programs as necessary to ensure connectivity within transportation systems.

"(2) Investment strategies to improve adjoining State and local roads that support rural economic growth and tourism development, Federal agency renewable resources management, and multipurpose land management practices, including recreation development.

"(3) The concerns of Indian tribal governments having jurisdiction over lands within the boundaries of the State.

"(e) LONG-RANGE PLAN.—The State shall develop a long-range transportation plan for all areas of the State. With respect to metropolitan areas of the State, the plan shall be developed in cooperation with metropolitan planning organizations designated for metropolitan areas in the State under section 134. With respect to areas of the State under the jurisdiction of an Indian tribal government, the plan shall be developed in cooperation with such government and the Secretary of the Interior. In developing the plan, the State shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed plan. In addition, the State shall develop a long-range plan for bicycle transportation and pedestrian walkways for appropriate areas of the State which shall be incorporated into the long-range transportation plan.

"(f) TRANSPORTATION IMPROVEMENT PROGRAM.—

"(1) DEVELOPMENT.—The State shall develop a transportation improvement program for all areas of the State. With respect to metropolitan areas of the State, the program shall be developed in cooperation with metropolitan planning organizations designated for metropolitan areas in the State under section 134. In developing the program, the Governor shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program.

"(2) INCLUDED PROJECTS.—A transportation improvement program for a State developed under this subsection shall include projects within the boundaries of the State which are proposed for funding under this title and the Federal Transit Act, which are consistent with the long-range plan developed under this section for the State, which are consistent with the metropolitan transportation improvement program, and which in areas designated as nonattainment for ozone or carbon monoxide under the Clean Air Act conform with the applicable State implementation plan developed pursuant to the Clean Air Act. The program shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for such project within the time period contemplated for completion of the project. The program shall also reflect the priorities for programming and expenditures of funds, including transportation enhancements, required by this title.

"(3) PROJECT SELECTION FOR AREAS LESS THAN 50,000 POPULATION.—Projects undertaken in areas of less than 50,000 population (excluding projects undertaken on the National Highway System and pursuant to the bridge and Interstate maintenance programs) shall be selected by the State in cooperation with the affected local officials. Projects undertaken in such areas on the National Highway System or pursuant to the bridge and Interstate maintenance programs shall be selected by the State in consultation with the affected local officials.

"(4) BIENNIAL REVIEW AND APPROVAL.—A transportation improvement program developed under this subsection shall be reviewed and approved no less frequently than biennially by the Secretary.

"(g) FUNDING.—Funds set aside pursuant to section 307(c)(1) of title 23, United States Code, shall be available to carry out the requirements of this section.

"(h) TREATMENT OF CERTAIN STATE LAWS AS CONGESTION MANAGEMENT SYSTEMS.—For purposes of this section, section 134, and section 8 of the Federal Transit Act, State laws, rules or regulations pertaining to congestion management systems or programs may constitute the congestion management system under this Act if the Secretary finds that the State laws, rules or regulations are consistent with, and fulfill the intent of, the purposes of this section, section 134 or section 8 of such Act, as appropriate.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by striking the item relating to section 135 and inserting the following:

"135. Statewide planning.".

SEC. 1026. NONDISCRIMINATION.

(a) FUNDING OF HIGHWAY CONSTRUCTION TRAINING.—Subsection (b) of section 140 of title 23, United States Code, is amended by adding at the end the following new sentence: "Notwithstanding any other provision of law, not to exceed ¼ of 1 percent of funds apportioned to a State for the surface transportation program under section 104(b) and the bridge program under section 144 may be available to carry out this subsection upon request of the State highway department to the Secretary.".

(b) ELIGIBILITY FOR TRAINING PROGRAMS.—Subsections (b) and (c) of section 140 of such title are each amended by inserting "Indian tribal government," after "institution,".

(c) INDIAN EMPLOYMENT PREFERENCE.—Section 140(d) of such title is amended by inserting after the first sentence the following new sentence: "States may implement a preference for employment of Indians on projects carried out under this title near Indian reservations.".

SEC. 1027. PUBLIC TRANSPORTATION.

(a) IMPROVED ACCESS BETWEEN INTERCITY AND RURAL BUS SERVICE.—Section 142(a)(2) of title 23, United States Code, is amended—

(1) by striking ", beginning with the fiscal year ending June 30, 1975,";

(2) by striking "Federal-aid urban system," the first place it appears and inserting "the surface transportation program"; and

(3) by striking "104(b)(6)" the first place it appears and all that follows through the period at the end and inserting "104(b)(3) for carrying out any capital transit project eligible for assistance under the Federal Transit Act, capital improvement to provide access and coordination between intercity and rural bus service, and construction of facilities to provide connections between highway transportation and other modes of transportation.".

(b) ACCOMMODATION OF OTHER MODES.—Section 142(c) of such title is amended to read as follows:

"(c) ACCOMMODATION OF OTHER MODES OF TRANSPORTATION.—The Secretary may approve as a project on any Federal-aid system for payment from sums apportioned under section 104(b) (other than section 104(b)(5)(A)) modifications to existing highway facilities on such system necessary to accommodate other modes of transportation if such modifications will not adversely affect automotive safety.".

(c) METROPOLITAN PLANNING.—Section 142(d) of such title is amended to read as follows:

"(d) METROPOLITAN PLANNING.—Any project carried out under this section in an urbanized area shall be subject to the metropolitan planning requirements of section 134.".

(d) AVAILABILITY OF RIGHTS-OF-WAY.—Section 142(g) of such title is amended to read as follows:

"(g) AVAILABILITY OF RIGHTS-OF-WAY.—In any case where sufficient land or air space exits within the publicly acquired rights-of-way of any highway, constructed in whole or in part with Federal-aid highway funds, to accommodate needed passenger, commuter, or high speed rail, magnetic levitation systems, and highway and nonhighway public mass transit facilities, the Secretary shall authorize a State to make such lands, air space, and rights-of-way available with or without charge to a publicly or privately owned authority or company or any other person for such purposes if such accommodation will not adversely affect automotive safety.".

(e) CONFORMING AMENDMENTS TO SECTION 142.—Section 142 of such title is amended—

(1) in subsection (e)(2) by striking "Federal-aid urban system" and inserting "surface transportation program";

(2) by striking subsections (f) and (k);

(3) by redesignating subsections (g), (h), (i), and (j) as subsections (f), (g), (h), and (i), respectively;

(4) in subsection (g), as so redesignated, by striking "or subsection (c) of this section"; and

(5) in each of subsections (h) and (i), as so redesignated, by striking "and subsection (c)".

(f) CONFORMING AMENDMENT TO SECTION 156.—Section 156 of such title is amended by striking "States shall" and inserting "Subject to section 142(f), States shall".

SEC. 1028. BRIDGE PROGRAM.

(a) INVENTORY OF INDIAN RESERVATION AND PARK BRIDGES.—Section 144(c) of title 23, United States Code, is amended by adding at the end the following new paragraph:

"(3) INVENTORY OF INDIAN RESERVATION AND PARK BRIDGES.—As part of the activities carried out under paragraph (1), the Secretary, in consultation with the Secretary of the Interior, shall (A) inventory all those highway bridges on

Indian reservation roads and park roads which are bridges over waterways, other topographical barriers, other highways, and railroads, (B) classify them according to serviceability, safety, and essentiality for public use, (C) based on the classification, assign each a priority for replacement or rehabilitation, and (D) determine the cost of replacing each such bridge with a comparable facility or of rehabilitating such bridge.".

(b) Bridge Structure Painting and Acetate Application.—Section 144(d) of such title is amended—

(1) by inserting after the first sentence the following new sentence: "Whenever any State makes application to the Secretary for assistance in painting and seismic retrofit, or applying calcium magnesium acetate to, the structure of a highway bridge, the Secretary may approve Federal participation in the painting or seismic retrofit of, or application of such acetate to, such structure."; and

(2) by inserting after "projects" the first place it appears in the last sentence the following: "(other than projects for bridge structure painting or seismic retrofit or application of such acetate)".

(c) Federal Share.—Section 144(f) of such title is amended by striking "highway bridge replaced or rehabilitated" and inserting "project".

(d) Discretionary Bridge Program.—Section 144(g)(1) of such title is amended to read as follows:

"(1) Discretionary bridge program.—Of the amounts authorized for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 by section 103 of the Intermodal Surface Transportation Efficiency Act of 1991, all but $57,000,000 in the case of fiscal year 1992, $68,000,000 in the case of fiscal years 1993 and 1994, and $69,000,000 in the case of fiscal years 1995, 1996, and 1997 shall be apportioned as provided in subsection (e) of this section. $49,000,000 in the case of fiscal year 1992, $59,500,000 in the case of fiscal years 1993 and 1994, and $60,500,000 in the case of fiscal years 1995, 1996, and 1997 of the amount authorized for each of such fiscal years shall be available for obligation on the date of each such apportionment in the same manner and to the same extent as the sums apportioned on such date, except that the obligation of $49,000,000 in the case of fiscal year 1992, $59,500,000 in the case of fiscal years 1993 and 1994, and $60,500,000 in the case of fiscal years 1995, 1996, and 1997 shall be at the discretion of the Secretary, and $8,500,000 per fiscal year ($8,000,000 in the case of fiscal year 1992) of the amount authorized for each of such fiscal years shall be available in accordance with section 1039 of the Intermodal Surface Transportation Efficiency Act of 1991, relating to highway timber bridges.".

(e) Off-System Bridges.—

(1) Allocation of funds.—Section 144(g)(3) of such title is amended—

(A) by striking "and 1991" and inserting "1991, 1992, 1993, 1994, 1995, 1996, and 1997"; and

(B) by striking "or rehabilitate" and inserting ", rehabilitate, paint or seismic retrofit, or apply calcium magnesium acetate to".

(2) Applicability of state standards for projects.—Section 144 of such title is amended by redesignating subsection (p) as subsection (q) and by inserting after subsection (o) the following new subsection:

"(p) Applicability of State Standards for Projects.—A project on a Federal-aid highway not under this section shall be designed, constructed, operated, and maintained in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.".

(f) Set-Aside for Indian Reservation Bridges.—Section 144(g) of this title is amended by adding at the end the following new paragraph:

"(4) Indian reservation bridges.—Not less than 1 percent of the amount apportioned to each State which has an Indian reservation within its boundaries for each fiscal year shall be expended for projects to replace, rehabilitate, paint, or apply calcium magnesium acetate to highway bridges located on Indian reservation roads. Upon determining a State bridge apportionment and before transferring funds to the States, the Secretary shall transfer the Indian reservation bridge allocation under this paragraph to the Secretary of the Interior for expenditure pursuant to this paragraph. The Secretary, after consultation with State and Indian tribal government officials and with the concurrence of the Secretary of the Interior, may, with respect to such State, reduce the requirement for expenditure for bridges under this paragraph when the Secretary determines that there are inadequate needs to justify such expenditure. The non-Federal share payable on account of such a project may be provided from funds made available for Indian reservation roads under chapter 2 of this title.".

(g) Transferability of Bridge Apportionments.—Section 104(g) of such title is amended by inserting before the last sentence the following new sentence: "A State may transfer not to exceed 40 percent of the State's apportionment under section 144 in any fiscal year to the apportionment of such State under subsection (b)(1) or subsection (b)(3) of this section. Any transfer to subsection (b)(3) shall not be subject to section 133(d)."

SEC. 1029. NATIONAL MAXIMUM SPEED LIMIT COMPLIANCE PROGRAM.

(a) Permanent Extension of 65 MPH Speed Limit Demonstration Program.—Section 154(a) of title 23, United States Code, is amended by striking "Clause (3)" and inserting "Clause (4)" and by striking "or (3)" and inserting the following: "(3) a maximum speed limit in excess of 65 miles per hour on any highway within its jurisdiction located outside an urbanized area of 50,000 population or more (A) which is constructed to interstate standards in accordance with section 109(b) of this title and connected to a highway on the Interstate System, (B) which is a divided 4-lane fully controlled access highway designed or constructed to connect to a highway on the Interstate System posted at 65 miles per hour and constructed to design and construction standards as determined by the Secretary which provide a facility adequate for a speed limit of 65 miles per hour, or (C) which is constructed to the geometric and construction standards adequate for current and probable future traffic demands and for the needs of the locality and is designated by the Secretary as part of the Interstate System in accordance with section 139(c) of this title, or (4)".

(b) Collection of Data.—Section 154(e) of such title is amended—

(1) by striking "fifty-five miles per hour on public highways with speed limits posted at fifty-five miles per hour" and inserting "the speed limit on maximum speed limit highways"; and

(2) by adding at the end the following: "Such data shall include, but not be limited to, data on citations, travel speeds, and the posted speed limit and the design characteristics of roads from which such travel speed data are gathered. The Secretary shall issue regulations which ensure (1) that the monitoring programs conducted by the States to collect data for purposes of this subsection are uniform, (2) that devices and equipment under such programs are placed at locations on maximum speed limit highways on a scientifically random basis which takes into account the relative risk, as determined by the Secretary, of motor vehicle accidents occurring considering the classes of such highways and the speeds at which vehicles are traveling on such classes of highways, and (3) that the data submitted under this subsection will be in such form as the Secretary determines is necessary to carry out this section.".

(c) Enforcement.—

(1) Proposed rule.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall publish in the Federal Register a proposed rule to establish speed limit enforcement requirements which, at a minimum, shall—

(A) provide for the transfer of apportionments under section 104(b) of title 23, United States Code (other than paragraph (5)), if a State fails to enforce speed limits in accordance with this section and such rule; and

(B) include a formula for determining compliance with the requirements of this section and such rule which—

(i) assigns a greater weight for violations of such speed limits in proportion to the amount by which the speed of the motor vehicle exceeds the speed limit; and

(ii) differentiates between the type of road on which the violations occur.

(2) Factors to consider.—In developing the compliance formula in accordance with paragraph (1), the Secretary shall consider factors relating to the enforcement efforts made by the States and data concerning fatalities and serious injuries occurring on roads to which subsection (a) applies and any other factors relating to speed limit enforcement and speed-related highway safety trends which the Secretary determines appropriate.

(3) Final rule.—Not later than 60 days after the date of publication of the proposed rule under paragraph (1), the Secretary shall publish in the Federal Register a final rule which meets the requirements of paragraph (1) and which shall take effect no later than 12 months after the date of its publication in the Federal Register.

(d) Administration.—The Secretary shall carry out sections 154 and 141(a) of title 23, United States Code, through the National Highway Traffic Safety Administration and the Federal Highway Administration.

(e) Annual Report.—Section 154 of title 23, United States Code, is amended by adding at the end the following new subsection:

"(i) Annual Report.—The Secretary shall transmit to Congress an annual report on travel speeds of motor vehicles on roads subject to subsection (a), State enforcement efforts with respect to speeding violations on such roads, and speed-related highway safety statistics.".

(f) Enforcement Moratorium.—No State shall be subject under section 141 or 154 of title 23, United States Code, to withholding of apportionments for failure to comply in fiscal years 1990 and 1991 with section 154 of such title, as in effect on the day before the date of the enactment of this Act, or section 141(a) of such title.

(g) Repeal of Obsolete Enforcement Provisions.—On the 730th day following the date of the enactment of this Act, subsections (f), (g), and (h) of section 154 of title 23, United States Code, are repealed.

SEC. 1030. ROAD SEALING ON INDIAN RESERVATION ROADS.

Section 204(c) of title 23, United States Code, is amended by adding at the end the following new sentences: "Notwithstanding any other provision of this title, Indian reservation roads under the jurisdiction of the Bureau of Indian Affairs of the Department of the Interior shall be eligible to expend not more than 15 percent funds apportioned for Indian reservation roads from the Highway Trust Fund for the purpose of road sealing projects. The Bureau of Indian

Affairs shall continue to retain responsibility, including annual funding request responsibility, for road maintenance programs on Indian reservations.".

SEC. 1031. USE OF SAFETY BELTS AND MOTORCYCLE HELMETS.

(a) PROGRAM.—

(1) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by inserting after section 152 the following new section:

"§153. Use of safety belts and motorcycle helmets

"(a) AUTHORITY TO MAKE GRANTS.—The Secretary may make grants to a State in a fiscal year in accordance with this section if the State has in effect in such fiscal year—

"(1) a law which makes unlawful throughout the State the operation of a motorcycle if any individual on the motorcycle is not wearing a motorcycle helmet; and

"(2) a law which makes unlawful throughout the State the operation of a passenger vehicle whenever an individual in a front seat of the vehicle (other than a child who is secured in a child restraint system) does not have a safety belt properly fastened about the individual's body.

"(b) USE OF GRANTS.—A grant made to a State under this section shall be used to adopt and implement a traffic safety program to carry out the following purposes:

"(1) EDUCATION.—To educate the public about motorcycle and passenger vehicle safety and motorcycle helmet, safety belt, and child restraint system use and to involve public health education agencies and other related agencies in these efforts.

"(2) TRAINING.—To train law enforcement officers in the enforcement of State laws described in subsection (a).

"(3) MONITORING.—To monitor the rate of compliance with State laws described in subsection (a).

"(4) ENFORCEMENT.—To enforce State laws described in subsection (a).

"(c) MAINTENANCE OF EFFORT.—A grant may not be made to a State under this section in any fiscal year unless the State enters into such agreements with the Secretary as the Secretary may require to ensure that the State will maintain its aggregate expenditures from all other sources for any traffic safety program described in subsection (b) at or above the average level of such expenditures in the State's 2 fiscal years preceding the date of the enactment of this section.

"(d) FEDERAL SHARE.—A State may not receive a grant under this section in more than 3 fiscal years. The Federal share payable for a grant under this section shall not exceed—

"(1) in the first fiscal year the State receives a grant, 75 percent of the cost of implementing in such fiscal year a traffic safety program described in subsection (b);

"(2) in the second fiscal year the State receives a grant, 50 percent of the cost of implementing in such fiscal year such traffic safety program; and

"(3) in the third fiscal year the State receives a grant, 25 percent of the cost of implementing in such fiscal year such traffic safety program.

"(e) MAXIMUM AGGREGATE AMOUNT OF GRANTS.—The aggregate amount of grants made to a State under this section shall not exceed 90 percent of the amount apportioned to such State for fiscal year 1990 under section 402.

"(f) ELIGIBILITY FOR GRANTS.—

"(1) GENERAL RULE.—A State is eligible in a fiscal year for a grant under this section only if the State enters into such agreements with the Secretary as the Secretary may require to ensure that the State implements in such fiscal year a traffic safety program described in subsection (b).

"(2) SECOND-YEAR GRANTS.—A State is eligible for a grant under this section in a fiscal year succeeding the first fiscal year in which a State receives a grant under this section only if the State in the preceding fiscal year—

"(A) had in effect at all times a State law described in subsection (a)(1) and achieved a rate of compliance with such law of not less than 75 percent; and

"(B) had in effect at all times a State law described in subsection (a)(2) and achieved a rate of compliance with such law of not less than 50 percent.

"(3) THIRD-YEAR GRANTS.—A State is eligible for a grant under this section in a fiscal year succeeding the second fiscal year in which a State receives a grant under this section only if the State in the preceding fiscal year—

"(A) had in effect at all times a State law described in subsection (a)(1) and achieved a rate of compliance with such law of not less than 85 percent; and

"(B) had in effect at all times a State law described in subsection (a)(2) and achieved a rate of compliance with such law of not less than 70 percent.

"(g) MEASUREMENTS OF RATES OF COMPLIANCE.—For the purposes of subsections (f)(2) and (f)(3), a State shall measure compliance with State laws described in subsection (a) using methods which conform to guidelines issued by the Secretary ensuring that such measurements are accurate and representative.

"(h) PENALTY.—

"(1) FISCAL YEAR 1994.—If, at any time in fiscal year 1994, a State does not have in effect a law described in subsection (a)(1) and a law described in subsection (a)(2), the Secretary shall transfer 1½ percent of the funds apportioned to the State for fiscal year 1995 under each of subsections (b)(1), (b)(2), and (b)(3) of section 104 of this title to the apportionment of the State under section 402 of this title.

"(2) THEREAFTER.—If, at any time in a fiscal year beginning after September 30, 1994, a State does not have in effect a law described in subsection (a)(1) and a law described in subsection (a)(2), the Secretary shall transfer 3 percent of the funds apportioned to the State for the succeeding fiscal year under each of subsections (b)(1), (b)(2), and (b)(3) of section 104 of this title to the apportionment of the State under section 402 of this title.

"(3) FEDERAL SHARE.—The Federal share of the cost of any project carried out under section 402 with funds transferred to the apportionment of section 402 shall be 100 percent.

"(4) TRANSFER OF OBLIGATION AUTHORITY.—If the Secretary transfers under this subsection any funds to the apportionment of a State under section 402 for a fiscal year, the Secretary shall allocate an amount of obligation authority distributed for such fiscal year to the State for Federal-aid highways and highway safety construction programs for carrying out only projects under section 402 which is determined by multiplying—

"(A) the amount of funds transferred to the apportionment of section 402 of the State under section 402 for such fiscal year; by

"(B) the ratio of the amount of obligation authority distributed for such fiscal year to the State for Federal-aid highways and highway safety construction programs to the total of the sums apportioned to the State for Federal-aid highways and highway safety construction (excluding sums not subject to any obligation limitation) for such fiscal year.

"(5) LIMITATION ON APPLICABILITY OF HIGHWAY SAFETY OBLIGATIONS.—Notwithstanding any other provision of law, no limitation on the total of obligations for highway safety programs carried out by the Federal Highway Administration under section 402 shall apply to funds transferred under this subsection to the apportionment of section 402.

"(i) DEFINITIONS.—For the purposes of this section, the following definitions apply:

"(1) MOTORCYCLE.—The term 'motorcycle' means a motor vehicle which is designed to travel on not more than 3 wheels in contact with the surface.

"(2) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning such term has under section 154 of this title.

"(3) PASSENGER VEHICLE.—The term 'passenger vehicle' means a motor vehicle which is designed for transporting 10 individuals or less, including the driver, except that such term does not include a vehicle which is constructed on a truck chassis, a motorcycle, a trailer, or any motor vehicle which is not required on the date of the enactment of this section under a Federal motor vehicle safety standard to be equipped with a belt system.

"(4) SAFETY BELT.—The term 'safety belt' means—

"(A) with respect to open-body passenger vehicles, including convertibles, an occupant restraint system consisting of a lap belt or a lap belt and a detachable shoulder belt; and

"(B) with respect to other passenger vehicles, an occupant restraint system consisting of integrated lap shoulder belts.

"(j) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) to carry out this section $17,000,000 for fiscal year 1992. From sums made available to carry out section 402 of this title, the Secretary shall make available $17,000,000 for fiscal year 1992 and $24,000,000 for each of fiscal years 1993 and 1994 to carry out this section.

"(k) APPLICABILITY OF CHAPTER 1 PROVISIONS.—All provisions of this chapter that are applicable to National Highway System funds, other than provisions relating to the apportionment formula and provisions limiting the expenditures of such funds to Federal-aid systems, shall apply to funds authorized to be appropriated to carry out this section, except as determined by the Secretary to be inconsistent with this section and except that sums authorized by this section shall remain available until expended.".

(2) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by inserting after the item relating to section 152 the following new item:

"153. Use of safety belts and motorcycle helmets.".

(b) STUDY.—

(1) IN GENERAL.—The Secretary shall conduct a study or studies to determine the benefits of safety belt use and motorcycle helmet use for individuals involved in motor vehicle crashes and motorcycle crashes, collecting and analyzing data from regional trauma systems regarding differences in the following: the severity of injuries; acute, rehabilitative and long-term medical costs, including the sources of reimbursement and the extent to which these sources cover actual costs; government, employer, and other costs; and mortality and morbidity outcomes. The study shall cover a representative period after January 1, 1990.

(2) REPORT.—The Secretary shall make public a proposed report on the results of the study or studies conducted under this subsection, provide a period of 90 days for public comment on such report, consider such comments, and transmit to Congress a report on the results of such study or studies, together with a summary of such comments, not later than 40 months after the funds for such study are made available by the Secretary.

(3) FUNDING.—Of the amounts authorized to be appropriated for fiscal year 1992 or 1993 (or both) to carry out section 153 of title 23, United States Code, the Secretary shall make available $5,000,000 in the aggregate in such fiscal years to carry out this subsection. Such funds shall remain available until expended.

SEC. 1032. FEDERAL LANDS HIGHWAYS PROGRAM.

(a) ALLOCATIONS.—Section 202 of title 23, United States Code, is amended—

(1) by striking subsection (a);

(2) by redesignating subsections (b), (c), (d), and (e) as subsections (a), (b), (c), and (d), respectively;

(3) by inserting after "allocate" in subsection (b), as so redesignated, "34 percent of"; and

(4) by striking the period at the end of subsection (b), as so redesignated, and inserting the following: "which are proposed by a State which contains at least 3 percent of the total public lands in the Nation. The Secretary shall allocate 66 percent of the remainder of the authorization for public lands highways for each fiscal year as is provided in section 134 of the Federal-Aid Highway Act of 1987, and with respect to these allocations the Secretary shall give equal consideration to projects that provide access to and within the National Forest System, as identified by the Secretary of Agriculture through renewable resources and land use planning and the impact of such planning on existing transportation facilities.".

(b) PROJECTS.—Section 204 of such title is amended—

(1) in subsection (a) by striking "forest highways," and by adding at the end of such subsection the following new sentences: "The Secretary, in cooperation with the Secretary of Interior and the Secretary of Agriculture, shall develop appropriate transportation planning procedures and safety, bridge, and pavement management systems for roads funded under the Federal Lands Highway Program. Notwithstanding any other provision of this title, no public lands highway project may be undertaken in any State pursuant to this section unless the State concurs in the selection and planning of the project.";

(2) in subsection (b)—

(A) by striking "construction and improvements thereof" and inserting "planning, research, engineering and construction thereof";

(B) by striking "forest highways and"; and

(C) by adding at the end the following new sentence: "Funds available for each class of Federal lands highways shall be available for any kind of transportation project eligible for assistance under this title that is within or adjacent to or provides access to the areas served by the particular class of Federal lands highways.";

(3) in subsection (c) by striking "on a Federal aid system" and inserting "eligible for funds apportioned under section 104 or section 144 of this title"; and

(4) by striking subsection (h) and inserting the following new subsections:

"(h) ELIGIBLE PROJECTS.—Funds available for each class of Federal lands highways may be available for the following:

"(1) Transportation planning for tourism and recreational travel including the National Forest Scenic Byways Program, Bureau of Land Management Back Country Byways Program, National Trail System Program, and other similar Federal programs that benefit recreational development.

"(2) Adjacent vehicular parking areas.

"(3) Interpretive signage.

"(4) Acquisition of necessary scenic easements and scenic or historic sites.

"(5) Provision for pedestrians and bicycles.

"(6) Construction and reconstruction of roadside rest areas including sanitary and water facilities.

"(7) Other appropriate public road facilities such as visitor centers as determined by the Secretary.

"(i) TRANSFERS TO SECRETARY OF INTERIOR.—The Secretary shall transfer to the Secretary of Interior from the appropriation for public land highways amounts as may be needed to cover necessary administrative costs of the Bureau of Land Management in connection with public lands highways.

"(j) INDIAN RESERVATION ROADS PLANNING.—Up to 2 percent of funds made available for Indian reservation roads for each fiscal year shall be allocated to those Indian tribal governments applying for transportation planning pursuant to the provisions of the Indian Self-Determination and Education Assistance Act. The Indian tribal government, in cooperation with the Secretary of the Interior, and, as may be appropriate, with a State, local government, or metropolitan planning organization, shall develop a transportation improvement program, that includes all Indian reservation road projects proposed for funding. Projects shall be selected by the Indian tribal government from the transportation improvement program and shall be subject to the approval of the Secretary of the Interior and the Secretary.".

(c) FOREST DEVELOPMENT ROADS AND TRAILS.—Section 205(c) of such title is amended by striking "$15,000" each place it appears and inserting "$50,000".

(d) INDIAN RESERVATION ROADS.—Notwithstanding any other provision of law, funds allocated for Indian reservation roads may be used for the purpose of funding road projects on roads of tribally controlled postsecondary vocational institutions.

(e) REPORT.—The Secretary shall undertake a study to determine if the method for allocating funds authorized for Federal lands highways is adequate to meet the relative transportation needs of the Federal lands served. The report shall be submitted within 2 years of the date of the enactment of this Act.

(f) CONFORMING AMENDMENTS.—Section 203 of title 23, United States Code, is amended by striking "forest highways" each place it appears.

SEC. 1033. BICYCLE TRANSPORTATION AND PEDESTRIAN WALKWAYS.

Section 217 of title 23, United States Code, is amended to read as follows:

"§217. Bicycle transportation and pedestrian walkways

"(a) USE OF STP AND CONGESTION MITIGATION PROGRAM FUNDS.—Subject to project approval by the Secretary, a State may obligate funds apportioned to it under sections 104(b)(2) and 104(b)(3) of this title for construction of pedestrian walkways and bicycle transportation facilities and for carrying out nonconstruction projects related to safe bicycle use.

"(b) USE OF NATIONAL HIGHWAY SYSTEM FUNDS.—Subject to project approval by the Secretary, a State may obligate funds apportioned to it under section 104(b)(1) of this title for construction of bicycle transportation facilities on land adjacent to any highway on the National Highway System (other than the Interstate System).

"(c) USE OF FEDERAL LANDS HIGHWAY FUNDS.—Funds authorized for forest highways, forest development roads and trails, public lands development roads and trails, park roads, parkways, Indian reservation roads, and public lands highways shall be available, at the discretion of the department charged with the administration of such funds, for the construction of pedestrian walkways and bicycle transportation facilities in conjunction with such trails, roads, highways, and parkways.

"(d) STATE BICYCLE AND PEDESTRIAN COORDINATORS.—Each State receiving an apportionment under sections 104(b)(2) and 104(b)(3) of this title shall use such amount of the apportionment as may be necessary to fund in the State department of transportation a position of bicycle and pedestrian coordinator for promoting and facilitating the increased use of nonmotorized modes of transportation, including developing facilities for the use of pedestrians and bicyclists and public education, promotional, and safety programs for using such facilities.

"(e) BRIDGES.—In any case where a highway bridge deck being replaced or rehabilitated with Federal financial participation is located on a highway, other than a highway access to which is fully controlled, on which bicycles are permitted to operate at each end of such bridge, and the Secretary determines that the safe accommodation of bicycles can be provided at reasonable cost as part of such replacement or rehabilitation, then such bridge shall be so replaced or rehabilitated as to provide such safe accommodations.

"(f) FEDERAL SHARE.—For all purposes of this title, construction of a pedestrian walkway and a bicycle transportation facility shall be deemed to be a highway project and the Federal share payable on account of such construction shall be 80 percent.

"(g) PLANNING.—Pedestrian walkways and bicycle transportation facilities to be constructed under this section shall be located and designed pursuant to an overall plan to be developed by each metropolitan planning organization and State and incorporated into their comprehensive annual long-range plans in accordance with sections 134 and 135 of this title, respectively. Such plans shall provide due consideration for safety and contiguous routes.

"(h) USE OF MOTORIZED VEHICLES.—No motorized vehicles shall be permitted on trails and pedestrian walkways under this section, except for—

"(1) maintenance purposes;

"(2) when snow conditions and State or local regulations permit, snowmobiles;

"(3) when State and local regulations permit, motorized wheelchairs; and

"(4) such other circumstances as the Secretary deems appropriate.

"(i) TRANSPORTATION PURPOSE.—No bicycle project may be carried out under this section unless the Secretary has determined that such bicycle project will be principally for transportation, rather than recreation, purposes.

"(j) BICYCLE TRANSPORTATION FACILITY DEFINED.—For purposes of this section, a 'bicycle transportation facility' means new or improved lanes, paths, or shoulders for use by bicyclists, traffic control devices, shelters, and parking facilities for bicycles.".

SEC. 1034. MANAGEMENT SYSTEMS.

(a) IN GENERAL.—Chapter 3 of title 23, United States Code, is amended by inserting after section 302 the following new section:

"§303. Management systems

"(a) REGULATIONS.—Not later than 1 year after the date of the enactment of this section, the Secretary shall issue regulations for State development, establishment, and implementation of a system for managing each of the following:

"(1) Highway pavement of Federal-aid highways.

"(2) Bridges on and off Federal-aid highways.

"(3) Highway safety.

"(4) Traffic congestion.

"(5) Public transportation facilities and equipment.

"(6) Intermodal transportation facilities and systems.

In metropolitan areas, such systems shall be developed and implemented in cooperation with metropolitan planning organizations. Such regulations may include a compliance schedule for development, establishment, and implementation *of each such system and minimum standards for each such system.*

"(b) TRAFFIC MONITORING.—Not later than 1 year after the date of the enactment of this section, the Secretary shall issue guidelines and requirements for the State development, establishment, and implementation of a traffic monitoring system for highways and public transportation facilities and equipment.

"(c) STATE REQUIREMENTS.—The Secretary may withhold up to 10 percent of the funds apportioned under this title and under the Federal Transit Act for any fiscal year beginning after September 30, 1995, to any State and any recipient of assistance under such Act in the State unless, in the preceding fiscal year, the State was implementing each of the management systems described in subsection (a) and, before January 1 of the preceding fiscal year, the State certified, in writing, to the Secretary, that the State was implementing each of such management systems in the preceding fiscal year.

"(d) PROCEDURAL REQUIREMENTS.—In developing and implementing a management system under this section, each State shall cooperate with metropolitan planning organizations for urbanized areas of the State and affected agencies receiving assistance under the Federal Transit Act and shall consider the results of the management systems in making project selection decisions under this title and under such Act.

"(e) INTERMODAL REQUIREMENTS.—The management system required under this section for intermodal transportation facilities and systems shall provide for improvement and integration of all of a State's transportation systems and shall include methods of achieving the optimum yield from such systems, methods for increasing productivity in the State, methods for increasing use of advanced technologies, and methods to encourage the use of innovative marketing techniques, such as just-in-time deliveries.

"(f) ANNUAL REPORT.—Not later than January 1 of each calendar year beginning after December 31, 1992, the Secretary shall transmit to Congress a report on the progress being made by the Secretary and the States in carrying out this section.

"(g) FUNDING.—Subject to project approval by the Secretary, a State may obligate funds apportioned after September 30, 1991, under subsections (b)(1), (b)(2), and (b)(3) of section 104 of this title for developing and establishing management systems required by this section and funds apportioned under section 144 of this title for developing and establishing the bridge management system required by this section.

"(h) REVIEW OF REGULATIONS.—Not later than 10 days after the date of issuance of any regulation under this section, the Secretary shall transmit a copy of such regulation to Congress for review.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 3 of such title is amended by inserting after the item relating to section 302 the following new item:

"303. Management systems.".

SEC. 1035. LIMITATION ON DISCOVERY OF CERTAIN REPORTS AND SURVEYS.

(a) IN GENERAL.—Section 409 of title 23, United States Code, is amended—

(1) by striking the section heading and inserting the following:

"§409. Discovery and admission as evidence of certain reports and surveys"; and

(2) by striking "admitted into evidence in Federal or State court" and inserting "subject to discovery or admitted into evidence in a Federal or State court proceeding".

(b) CONFORMING AMENDMENT.—The analysis for chapter 4 of such title is amended by striking the item relating to section 409 and inserting the following:

"409. Discovery and admission as evidence of certain reports and surveys.".

SEC. 1036. NATIONAL HIGH-SPEED GROUND TRANSPORTATION PROGRAMS.

(a) DECLARATION OF POLICY.—Section 302 of title 49, United States Code, is amended by adding at the end the following new subsection:

"(d)(1) It is the policy of the United States to promote the construction and commercialization of high-speed ground transportation systems by—

"(A) conducting economic and technological research;

"(B) demonstrating advancements in high-speed ground transportation technologies;

"(C) establishing a comprehensive policy for the development of such systems and the effective integration of the various high-speed ground transportation technologies; and

"(D) minimizing the long-term risks of investors.

"(2) It is the policy of the United States to establish in the shortest time practicable a United States designed and constructed magnetic levitation transportation technology capable of operating along Federal-aid highway rights-of-way, as part of a national transportation system of the United States.".

(b) NATIONAL MAGNETIC LEVITATION PROTOTYPE DEVELOPMENT PROGRAM.—

(1) MANAGEMENT OF PROGRAM.—There is hereby established a national magnetic levitation prototype development program to be managed by a program director appointed jointly by the Secretary and the Assistant Secretary of the Army for Civil Works (hereinafter in this subsection referred to as the "Assistant Secretary"). To carry out such program, the Secretary and the Assistant Secretary shall establish a national maglev joint project office (hereinafter in this subsection referred to as the "Maglev Project Office"), which shall be headed by the program director, and shall enter into such arrangements as may be necessary for funding, staffing, office space, and other requirements that will allow the Maglev Project Office to carry out its functions. In carrying out such program, the program director shall consult with appropriate Federal officials, including the Secretary of Energy and the Administrator of the Environmental Protection Agency.

(2) PHASE ONE CONTRACTS.—

(A) REQUEST FOR PROPOSALS.—Not later than 12 months after the date of the enactment of this Act, the Maglev Project Office shall release a request for proposals for development of conceptual designs for a maglev system and for research to facilitate the development of such conceptual designs.

(B) AWARD OF CONTRACTS.—Not later than 15 months after the date of the enactment of this Act, the Secretary and the Assistant Secretary shall, based on the recommendations of the program director, award 1-year contracts for research and development to no fewer than 5 eligible applicants. If fewer than 5 complete applications have been received, contracts shall be awarded to as many eligible applicants as is practical.

(C) FACTORS AND CONDITIONS TO BE CONSIDERED.—The Secretary and the Assistant Secretary may approve contracts under subparagraph (B) only after consideration of factors relating to the construction and operation of a magnetic levitation system, including the cost-effectiveness, ease of maintenance, safety, limited environmental impact, ability to achieve sustained high speeds, ability to operate along the Interstate highway rights-of-way, the potential for the guideway design to be a national standard, the applicant's resources, capabilities, and history of successfully designing and developing systems of similar complexity, and the desirability of geographic diversity among contractors and only if the applicant agrees to submit a report to the Maglev Project Office detailing the results of the research and development and agrees to provide for matching of the phase one contract at a 90 percent Federal, 10 percent non-Federal, cost share.

(3) PHASE TWO CONTRACTS.—Within 3 months of receiving the final reports of contract activities under paragraph (2), and based only on such reports and the recommendations of the program director, the Secretary and the Assistant Secretary shall select not more than 3 eligible applicants from among the contract recipients submitting reports under paragraph (2) to receive 18-month contracts for research and development leading to a detailed design for a prototype maglev system. The Secretary and the Assistant Secretary may only award contracts under this paragraph if—

(A) they determine that the applicant has demonstrated technical merit for the conceptual design and the potential for further development of such design into an operational prototype as described in paragraph (4),

(B) the applicant agrees to submit the detailed design within such 18-month period to the Maglev Project Office and the selection committee described in paragraph (4), and

(C) the applicant agrees to provide for matching of the phase two contract at an 80 percent Federal, 20 percent non-Federal, cost share.

(4) PROTOTYPE.—

(A) SELECTION OF DESIGN.—Within 6 months of receiving the detailed designs developed under paragraph (3), the Secretary and the Assistant Secretary shall, based on the recommendations of the selection committee described in this subparagraph, select 1 design for development into a full-scale prototype, unless the Secretary and the Assistant Secretary determine jointly that no design shall be selected, based on an assessment of technical feasibility and projected cost of construction and operation of the prototype. A selection committee of 8 members, consisting of—

(i) 1 member to be appointed by the Secretary,

(ii) 1 member to be appointed by the Assistant Secretary,

(iii) 3 members to be appointed by the Senate majority and minority leaders, and

(iv) 3 members to be appointed by the Speaker of the House and the minority leader of the House,

shall be appointed not later than 1 year following the award of contracts under paragraph (3). The selection committee, within 3 months of receiving the detailed designs developed under paragraph (3), shall make a recommendation to the Secretary and the Assistant Secretary as to the best prototype design or the unsuitability of any design. The program director shall provide technical reviews of the phase two contract reports to the selection committee and otherwise provide any technical assistance that the committee requires to assist it in making a recommendation. In the event that the Secretary and the Assistant Secretary determine jointly not to select a design for development under this subsection, they shall report to Congress on the basis for such determination, together with recommendations for future action, including further research, development, or design, termination of the program, or such other action as may be appropriate.

(B) AWARD OF CONSTRUCTION GRANT OR CONTRACT.—Unless the Secretary and the Assistant Secretary determine not to proceed pursuant to subparagraph (A), they shall, not later than 3 months after selection of a design for development into a full-scale prototype, and based on the recommendations of the program director, award 1 construction grant or contract to the applicant whose detailed design was selected under subparagraph (A) for the purpose of con-

structing a prototype maglev system in accordance with the selected design. Not more than 75 percent of the cost of the project shall be borne by the United States.

(C) FACTORS TO BE CONSIDERED IN SELECTION.—Selection of the detailed design under this paragraph shall be based on consideration of the following factors, among others:

(i) The project shall be capable of utilizing Interstate highway rights-of-way along or above a significant portion of its route, and may also use railroad rights-of-way along or above any portion of the railroad route.

(ii) The total length of guideway shall be at least 19 miles and allow significant full-speed operations between stops.

(iii) The project shall be constructed and ready for operational testing within 3 years after the award of the contract or grant.

(iv) The project shall provide for the conversion of the prototype to commercial operation after testing and technical evaluation is completed.

(v) The project shall be located in an area that provides a potential ridership base for future commercial operation.

(vi) The project shall utilize a technology capable of being applied in commercial service in most parts of the contiguous United States.

(vii) The project shall have at least 1 switch.

(viii) The project shall be intermodal in nature connecting a major metropolitan area with an airport, port, passenger rail station, or other transportation mode.

(D) ADDITIONAL FACTORS FOR CONSIDERATION.—In awarding a grant or contract under this paragraph, the Secretary shall encourage the development of domestic manufacturing capabilities. In selecting among eligible applicants, the Secretary shall consider existing railroads and equipment manufacturers with excess production capacity, including railroads that have experience in advanced technologies (including self-propelled cars).

(5) LICENSING.—

(A) PROPRIETARY RIGHTS.—No trade secrets or commercial or financial information that is privileged or confidential, under the meaning of section 552(b)(4) of title 5, United States Code, which is obtained from a United States business, research, or education entity as a result of activities under this subsection shall be disclosed.

(B) COMMERCIAL INFORMATION.—The research, development, and use of any technology developed pursuant to an agreement reached pursuant to this subsection, including the terms under which any technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701-3714). In addition, the Secretary and the Assistant Secretary may require any grant or contract recipient to assure that research and development be performed substantially in the United States and that the products embodying the inventions made under any agreement pursuant to this subsection or produced through the use of such inventions be manufactured substantially in the United States.

(6) REPORTS.—The Secretary and the Assistant Secretary shall provide periodic reports to Congress on progress made under this subsection.

(7) ELIGIBLE APPLICANT DEFINED.—For purposes of this subsection, the term "eligible applicant" means a United States private business, United States public or private education and research organization, Federal laboratory, or a consortium of such businesses, organizations, and laboratories.

(c) TECHNOLOGY DEMONSTRATION PROGRAM; RESEARCH AND DEVELOPMENT PROGRAM.—

(1) IN GENERAL.—Subchapter I of chapter 3 of title 49, United States Code, is amended by adding at the end the following new section:

"§309. High-speed ground transportation

"(a) The Secretary of Transportation, in consultation with the Secretaries of Commerce, Energy, and Defense, the Administrator of the Environmental Protection Agency, the Assistant Secretary of the Army for Public Works, and the heads of other interested agencies, shall lead and coordinate Federal efforts in the research and development of high-speed ground transportation technologies in order to foster the implementation of magnetic levitation and high-speed steel wheel on rail transportation systems as alternatives to existing transportation systems.

"(b)(1) The Secretary may award contracts and grants for demonstrations to determine the contributions that high-speed ground transportation could make to more efficient, safe, and economical intercity transportation systems. Such demonstrations shall be designed to measure and evaluate such factors as the public response to new equipment, higher speeds, variations in fares, improved comfort and convenience, and more frequent service. In connection with grants and contracts for demonstrations under this section, the Secretary shall provide for financial participation by private industry to the maximum extent practicable.

"(2)(A) In connection with the authority provided under paragraph (1), there is established a national high-speed ground transportation technology demonstration program, which shall be separate from the national magnetic levitation prototype development program established under section 1036(b) of the Intermodal Surface Transportation Efficiency Act of 1991 and shall be managed by the Secretary of Transportation.

"(B)(i) Any eligible applicant may submit to the Secretary a proposal for demonstration of any advancement in a high-speed ground transportation technology or technologies to be incorporated as a component, subsystem, or system in any revenue service high-speed ground transportation project or system under construction or in operation at the time the application is made.

"(ii) Grants or contracts shall be awarded only to eligible applicants showing demonstrable benefit to the research and development, design, construction, or ultimate operation of any maglev technology or high-speed steel wheel on rail technology. Criteria to be considered in evaluating the suitability of a proposal under this paragraph shall include—

"(I) feasibility of guideway or track design and construction;

"(II) safety and reliability;

"(III) impact on the environment in comparison to other high-speed ground transportation technologies;

"(IV) minimization of land use;

"(V) effect on human factors related to high-speed ground transportation;

"(VI) energy and power consumption and cost;

"(VII) integration of high-speed ground transportation systems with other modes of transportation;

"(VIII) actual and projected ridership; and

"(IX) design of signaling, communications, and control systems.

"(C) For the purposes of this paragraph, the term 'eligible applicant' means any United States private business, State government, local government, organization of State or local government, or any combination thereof. The term does not include any business owned in whole or in part by the Federal Government.

"(D) The amount and distribution of grants or contracts made under this paragraph shall be determined by the Secretary. No grant or contract may be awarded under this paragraph to demonstrate a technology to be incorporated into a project or system located in a State that prohibits under State law the expenditure of non-Federal public funds or revenues on the construction or operation of such project or system.

"(E) Recipients of grants or contracts made pursuant to this paragraph shall agree to submit a report to the Secretary detailing the results and benefits of the technology demonstration proposed, as required by the Secretary.

"(c)(1) In carrying out the responsibilities of the Secretary under this section, the Secretary is authorized to enter into 1 or more cooperative research and development agreements (as defined by section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a)), and 1 or more funding agreements (as defined by section 201(b) of title 35, United States Code), with United States companies for the purpose of—

"(A) conducting research to overcome technical and other barriers to the development and construction of practicable high-speed ground transportation systems and to help advance the basic generic technologies needed for these systems; and

"(B) transferring the research and basic generic technologies described in subparagraph (A) to industry in order to help create a viable commercial high-speed ground transportation industry within the United States.

"(2) In a cooperative agreement or funding agreement under paragraph (1), the Secretary may agree to provide not more than 80 percent of the cost of any project under the agreement. Not less than 5 percent of the non-Federal entity's share of the cost of any such project shall be paid in cash.

"(3) The research, development, or utilization of any technology pursuant to a cooperative agreement under paragraph (1), including the terms under which such technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

"(4) The research, development, or utilization of any technology pursuant to a funding agreement under paragraph (1), including the determination of all licensing and ownership rights, shall be subject to the provisions of chapter 18 of title 35, United States Code.

"(5) At the conclusion of fiscal year 1993 and again at the conclusion of fiscal year 1996, the Secretary shall submit reports to Congress regarding research and technology transfer activities conducted pursuant to the authorization contained in paragraph (1).

"(d)(1) Not later than June 1, 1995, the Secretary shall complete and submit to Congress a study of the commercial feasibility of constructing 1 or more high-speed ground transportation systems in the United States. Such study shall consist of—

"(A) an economic and financial analysis;

"(B) a technical assessment; and

"(C) recommendations for model legislation for State and local governments to facilitate construction of high-speed ground transportation systems.

"(2) The economic and financial analysis referred to in paragraph (1)(A) shall include—

"(A) an examination of the potential market for a nationwide high-speed ground transportation network, including a national magnetic levitation ground transportation system;

"(B) an examination of the potential markets for short-haul high-speed ground transportation systems and for intercity and long-haul high-speed ground transportation systems, including an assessment of—

"(i) the current transportation practices and trends in each market; and

"(ii) the extent to which high-speed ground transportation systems would relieve the current or anticipated congestion on other modes of transportation;

"(C) projections of the costs of designing, constructing, and operating high-speed ground transportation systems, the extent to which such systems can recover their costs (including capital costs), and the alternative methods available for private and public financing;

"(D) the availability of rights-of-way to serve each market, including the extent to which average and maximum speeds would be limited by the curvature of existing rights-of-way and the prospect of increasing speeds through the acquisition of additional rights-of-way without significant relocation of residential, commercial, or industrial facilities;

"(E) a comparison of the projected costs of the various competing high-speed ground transportation technologies;

"(F) recommendations for funding mechanisms, tax incentives, liability provisions, and changes in statutes and regulations necessary to facilitate the development of individual high-speed ground transportation systems and the completion of a nationwide high-speed ground transportation network;

"(G) an examination of the effect of the construction and operation of high-speed ground transportation systems on regional employment and economic growth;

"(H) recommendations for the roles appropriate for local, regional, and State governments to facilitate construction of high-speed ground transportation systems, including the roles of regional economic development authorities;

"(I) an assessment of the potential for a high-speed ground transportation technology export market;

"(J) recommendations regarding the coordination and centralization of Federal efforts relating to high-speed ground transportation;

"(K) an examination of the role of the National Railroad Passenger Corporation in the development and operation of high-speed ground transportation systems; and

"(L) any other economic or financial analyses the Secretary considers important for carrying out this section.

"(3) The technical assessment referred to in paragraph (1)(B) shall include—

"(A) an examination of the various technologies developed for use in the transportation of passengers by high-speed ground transportation, including a comparison of the safety (including dangers associated with grade crossings), energy efficiency, operational efficiencies, and environmental impacts of each system;

"(B) an examination of the potential role of a United States designed maglev system, developed as a prototype under section 1036(b) of the Intermodal Surface Transportation Efficiency Act of 1991, in relation to the implementation of other high-speed ground transportation technologies and the national transportation system;

"(C) an examination of the work being done to establish safety standards for high-speed ground transportation as a result of the enactment of section 7 of the Rail Safety Improvement Act of 1988;

"(D) an examination of the need to establish appropriate technological, quality, and environmental standards for high-speed ground transportation systems;

"(E) an examination of the significant unresolved technical issues surrounding the design, engineering, construction, and operation of high-speed ground transportation systems, including the potential for the use of existing rights-of-way;

"(F) an examination of the effects on air quality, energy consumption, noise, land use, health, and safety as a result of the decreases in traffic volume on other modes of transportation that are expected to result from the full-scale development of high-speed ground transportation systems; and

"(G) any other technical assessments the Secretary considers important for carrying out this section.

"(e)(1) Within 12 months after the submission of the study required by subsection (d), the Secretary shall establish the national high-speed ground transportation policy (hereinafter in this section referred to as the 'Policy').

"(2) The Policy shall include—

"(A) provisions to promote the design, construction, and operation of high-speed ground transportation systems in the United States;

"(B) a determination whether the various competing high-speed ground transportation technologies can be effectively integrated into a national network and, if not, whether 1 or more such technologies should receive preferential encouragement from the Federal Government to enable the development of such a national network;

"(C) a strategy for prioritizing the markets and corridors in which the construction of high-speed ground transportation systems should be encouraged; and

"(D) provisions designed to promote American competitiveness in the market for high-speed ground transportation technologies.

"(3) The Secretary shall solicit comments from the public in the development of the Policy and may consult with other Federal agencies as appropriate in drafting the Policy.".

(2) CONFORMING AMENDMENT.—The analysis for chapter 3 of such title is amended by inserting after the item relating to section 308 the following:

"309. High-speed ground transportation.".

(d) FUNDING.—

(1) OUT OF HIGHWAY TRUST FUND.—There shall be available from the Highway Trust Fund (other than the Mass Transit Account) the following sums:

(A) NATIONAL MAGNETIC LEVITATION PROTOTYPE DEVELOPMENT PROGRAM.—For the national magnetic levitation prototype development program under this section $5,000,000 for fiscal year 1992, $45,000,000 for fiscal year 1993, $100,000,000 for fiscal year 1994, $100,000,000 for fiscal year 1995, $125,000,000 for fiscal year 1996, and $125,000,000 for fiscal year 1997.

(B) NATIONAL HIGH-SPEED GROUND TRANSPORTATION TECHNOLOGY DEMONSTRATION PROGRAM.—For the national high-speed ground transportation technology demonstration program under section 309 of title 49, United States Code, $5,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(2) OUT OF GENERAL FUND.—In addition to amounts made available by paragraph (1), there is authorized to be appropriated for fiscal years 1992, 1993, 1994, 1995, 1996, and 1997—

(A) $225,000,000 for the national magnetic levitation prototype development program under this section;

(B) $25,000,000 for the national high-speed ground transportation technology demonstration program under section 309 of title 49, United States Code; and

(C) $25,000,000 for national high-speed ground transportation research and development under section 309 of title 49, United States Code.

(3) PERIOD OF AVAILABILITY.—Funds made available by and under this section shall remain available until expended.

(4) CONTRACT AUTHORITY.—Notwithstanding any other provision of law, approval by the Secretary of a grant or contract with funds made available by paragraph (1) shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project.

(e) GUARANTEE OF OBLIGATIONS.—Section 511 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 831) is amended—

(1) in subsection (a)—

(A) by inserting "(1)" after "shall be or have been used";

(B) by striking "or" after "car management systems)," and inserting in lieu thereof "(2)"; and

(C) by inserting ", or (3) to acquire, rehabilitate, improve, develop, or establish high-speed rail facilities or equipment" after "new railroad facilities";

(2) in subsection (g)—

(A) by inserting "or high-speed rail services" after "rail services" both places it appears in paragraph (3);

(B) by inserting "or passengers" after "provide shippers" in paragraph (3);

(C) by striking "or improved" and inserting in lieu thereof "improved, developed, or established" in paragraph (4);

(D) by striking "improved, rehabilitated, or acquired" and inserting in lieu thereof "acquired, rehabilitated, improved, developed, or established" in paragraph (5);

(E) by striking "and" at the end of paragraph (5);

(F) by inserting "or high-speed rail carrier" after "affected railroad" in paragraph (6);

(G) by striking the period at the end of paragraph (6) and inserting in lieu thereof "; and"; and

(H) by adding at the end the following new paragraph:

"(7) in the case of high-speed rail facilities and equipment, at least 85 percent of such facilities and equipment are mined, produced, or manufactured in the United States, unless the Secretary finds in writing that—

"(A) such requirement would be inconsistent with the public interest;

"(B) such facilities and equipment could not be mined, produced, or manufactured in the United States in sufficient and reasonably available quantities of a satisfactory quality;

"(C) such a requirement would increase the cost of the facilities and equipment by more than 25 percent; or

"(D) such a requirement would result in a violation of obligations of the United States under international trade agreements.";

(3) in subsection (i)(1)—

(A) by amending subparagraph (B) to read as follows:

"(B)(i) will not use any funds or assets from railroad operations for nonrail purposes; and

"(ii) will not use any funds or assets from high-speed rail operations for purposes other than high-speed rail purposes,"; and

(B) by inserting "or high-speed rail services" after "provide rail services"; and

(4) by adding at the end the following new subsection:

"(n) DEFINITIONS.—As used in this section, the term 'high-speed rail' means all forms of nonhighway ground transportation that run on rails providing transportation service which is—

"(1) reasonably expected to reach sustained speeds of more than 125 miles per hour; and

"(2) made available to members of the general public as passengers.

Such term does not include rapid transit operations within an urban area that are not connected to the general rail system of transportation.".

(f) GENERAL ACCOUNTING OFFICE STUDY.—The Comptroller General, within 2 years after the date of the enactment of this Act, and annually thereafter, shall analyze the effectiveness of the application of section 511 of the Railroad Revitalization and Regulatory Reform Act of 1976 to high-speed rail facilities and equipment, and report the results of such analysis to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

SEC. 1037. RAILROAD RELOCATION DEMONSTRATION PROGRAM.

Section 163(p) of the Federal-Aid Highway Act of 1973 (23 U.S.C. 130 note) is amended by striking "and 1991," and inserting "1991, 1992, 1993, and 1994,".

SEC. 1038. USE OF RECYCLED PAVING MATERIAL.

(a) Asphalt Pavement Containing Recycled Rubber Demonstration Program.—Notwithstanding any other provision of title 23, United States Code, or regulation or policy of the Department of Transportation, the Secretary (or a State acting as the Department's agent) may not disapprove a highway project under chapter 1 of title 23, United States Code, on the ground that the project includes the use of asphalt pavement containing recycled rubber. Under this subsection, a patented application process for recycled rubber shall be eligible for approval under the same conditions that an unpatented process is eligible for approval.

(b) Studies.—

(1) In general.—The Secretary and the Administrator of the Environmental Protection Agency shall coordinate and conduct, in cooperation with the States, a study to determine—

(A) the threat to human health and the environment associated with the production and use of asphalt pavement containing recycled rubber;

(B) the degree to which asphalt pavement containing recycled rubber can be recycled; and

(C) the performance of the asphalt pavement containing recycled rubber under various climate and use conditions.

(2) Division of responsibilities.—The Administrator shall conduct the part of the study relating to paragraph (1)(A) and the Secretary shall conduct the part of the study relating to paragraph (1)(C). The Administrator and the Secretary shall jointly conduct the study relating to paragraph (1)(B).

(3) Additional study.—The Secretary and the Administrator, in cooperation with the States, shall jointly conduct a study to determine the economic savings, technical performance qualities, threats to human health and the environment, and environmental benefits of using recycled materials in highway devices and appurtenances and highway projects, including asphalt containing over 80 percent reclaimed asphalt, asphalt containing recycled glass, and asphalt containing recycled plastic.

(4) Additional elements.—In conducting the study under paragraph (3), the Secretary and the Administrator shall examine utilization of various technologies by States and shall examine the current practices of all States relating to the reuse and disposal of materials used in federally assisted highway projects.

(5) Report.—Not later than 18 months after the date of the enactment of this Act, the Secretary and the Administrator shall transmit to Congress a report on the results of the studies conducted under this subsection, including a detailed analysis of the economic savings and technical performance qualities of using such recycled materials in federally assisted highway projects and the environmental benefits of using such recycled materials in such highway projects in terms of reducing air emissions, conserving natural resources, and reducing disposal of the materials in landfills.

(c) DOT Guidance.—

(1) Information gathering and distribution.—The Secretary shall gather information and recommendations concerning the use of asphalt containing recycled rubber in highway projects from those States that have extensively evaluated and experimented with the use of such asphalt and implemented such projects and shall make available such information and recommendations on the use of such asphalt to those States which indicate an interest in the use of such asphalt.

(2) Encouragement of use.—The Secretary should encourage the use of recycled materials determined to be appropriate by the studies pursuant to subsection (b) in federally assisted highway projects. Procuring agencies shall comply with all applicable guidelines or regulations issued by the Administrator of the Environmental Protection Agency.

(d) Use of Asphalt Pavement Containing Recycled Rubber.—

(1) State certification.—Beginning on January 1, 1995, and annually thereafter, each State shall certify to the Secretary that such State has satisfied the minimum utilization requirement for asphalt pavement containing recycled rubber established by this section. The minimum utilization requirement for asphalt pavement containing recycled rubber as a percentage of the total tons of asphalt laid in such State and financed in whole or part by any assistance pursuant to title 23, United States Code, shall be—

(A) 5 percent for the year 1994;

(B) 10 percent for the year 1995;

(C) 15 percent for the year 1996; and

(D) 20 percent for the year 1997 and each year thereafter.

(2) Other materials.—Any recycled material or materials determined to be appropriate by the studies under subsection (b) may be substituted for recycled rubber under the minimum utilization requirement of paragraph (1) up to 5 percent.

(3) Increase.—The Secretary may increase the minimum utilization requirement of paragraph (1) for asphalt pavement containing recycled rubber to be used in federally assisted highway projects to the extent it is technologically and economically feasible to do so and if an increase is appropriate to assure markets for the reuse and recycling of scrap tires. The minimum utilization requirement for asphalt pavement containing recycled rubber may not be met by any use or technique found to be unsuitable for use in highway projects by the studies under subsection (b).

(4) Penalty.—The Secretary shall withhold from any State that fails to make a certification under paragraph (1) for any fiscal year, a percentage of the apportionments under section 104 (other than subsection (b)(5)(A)) of title 23, United States Code, that would otherwise be apportioned to such State for such fiscal year under such section equal to the percentage utilization requirement established by paragraph (1) for such fiscal year.

(5) Secretarial waiver.—The Secretary may set aside the provisions of this subsection for any 3-year period on a determination, made in concurrence with the Administrator of the Environmental Protection Agency with respect to subparagraphs (A) and (B) of this paragraph, that there is reliable evidence indicating—

(A) that manufacture, application, or use of asphalt pavement containing recycled rubber substantially increases the threat to human health or the environment as compared to the threats associated with conventional pavement;

(B) that asphalt pavement containing recycled rubber cannot be recycled to substantially the same degree as conventional pavement; or

(C) that asphalt pavement containing recycled rubber does not perform adequately as a material for the construction or surfacing of highways and roads.

The Secretary shall consider the results of the study under subsection (b)(1) in determining whether a 3-year set-aside is appropriate.

(6) Renewal of waiver.—Any determination made to set aside the requirements of this section may be renewed for an additional 3-year period by the Secretary, with the concurrence of the Administrator with respect to the determinations made under paragraphs (5)(A) and (5)(B). Any determination made with respect to paragraph (5)(C) may be made for specific States or regions considering climate, geography, and other factors that may be unique to the State or region and that would prevent the adequate performance of asphalt pavement containing recycled rubber.

(7) Individual state reduction.—The Secretary shall establish a minimum utilization requirement for asphalt pavement containing recycled rubber less than the minimum utilization requirement otherwise required by paragraph (1) in a particular State, upon the request of such State and if the Secretary, with the concurrence of the Administrator of the Environmental Protection Agency, determines that there is not a sufficient quantity of scrap tires available in the State prior to disposal to meet the minimum utilization requirement established under paragraph (1) as the result of recycling and processing uses (in that State or another State), including retreading or energy recovery.

(e) Definitions.—For purpose of this section—

(1) the term "asphalt pavement containing recycled rubber" means any hot mix or spray applied binder in asphalt paving mixture that contains rubber from whole scrap tires which is used for asphalt pavement base, surface course or interlayer, or other road and highway related uses and—

(A) is a mixture of not less than 20 pounds of recycled rubber per ton of hot mix or 300 pounds of recycled rubber per ton of spray applied binder; or

(B) is any mixture of asphalt pavement and recycled rubber that is certified by a State and is approved by the Secretary, provided that the total amount of recycled rubber from whole scrap tires utilized in any year in such State shall be not less than the amount that would be utilized if all asphalt pavement containing recycled rubber laid in such State met the specifications of subparagraph (A) and subsection (d)(1); and

(2) the term "recycled rubber" is any crumb rubber derived from processing whole scrap tires or shredded tire material taken from automobiles, trucks, or other equipment owned and operated in the United States.

SEC. 1039. HIGHWAY TIMBER BRIDGE RESEARCH AND DEMONSTRATION PROGRAM.

(a) Research Grants.—The Secretary may make grants to other Federal agencies, universities, private businesses, nonprofit organizations, and any research or engineering entity to carry out research on 1 or more of the following:

(1) Development of new, economical highway timber bridge systems.

(2) Development of engineering design criteria for structural wood products for use in highway bridges in order to improve methods for characterizing lumber design properties.

(3) Preservative systems for use in highway timber bridges which demonstrate new alternatives and current treatment processes and procedures and which are environmentally sound with respect to application, use, and disposal of treated wood.

(4) Alternative transportation system timber structures which demonstrate the development of applications for railing, sign, and lighting supports, sound barriers, culverts, and retaining walls in highway applications.

(5) Rehabilitation measures which demonstrate effective, safe, and reliable methods for rehabilitating existing highway timber structures.

(b) Technology and Information Transfer.—The Secretary shall take such action as may be necessary to ensure that the information and technology resulting from research conducted under subsection (a) is made available to State and local transportation departments and other interested persons.

(c) CONSTRUCTION GRANTS.—

(1) AUTHORITY.—The Secretary shall make grants to States for construction of highway timber bridges on rural Federal-aid highway.

(2) APPLICATIONS.—A State interested in receiving a grant under this subsection must submit an application therefor to the Secretary. Such application shall be in such form and contain such information as the Secretary may require by regulation.

(3) APPROVAL CRITERIA.—The Secretary shall select and approve applications for grants under this subsection based on the following criteria:

(A) Bridge designs which have both initial and long-term structural and environmental integrity.

(B) Bridge designs which utilize timber species native to the State or region.

(C) Innovative bridge designs which have the possibility of increasing knowledge, cost effectiveness, and future use of such designs.

(D) Environmental practices for preservative treated timber, and construction techniques which comply with all environmental regulations, will be utilized.

(d) FEDERAL SHARE.—The Federal share of the costs of research and construction projects carried out under this section shall be 80 percent.

(e) FUNDING.—From the funds reserved from apportionment under section 144(g)(1) of title 23, United States Code, for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997—

(1) $1,000,000 shall be available to the Secretary for carrying out subsections (a) and (b); and

(2) $7,500,000 ($7,000,000 in the case of fiscal year 1992) shall be available to the Secretary for carrying out subsection (c).

Such sums shall remain available until expended.

(f) STATE DEFINED.—For purposes of this section, the term "State" has the meaning such term has under section 101 of title 23, United States Code.

SEC. 1040. HIGHWAY USE TAX EVASION PROJECTS.

(a) IN GENERAL.—The Secretary shall use funds made available by subsection (e) to carry out highway use tax evasion projects in accordance with this section. Such funds may be allocated to the Internal Revenue Service and the States at the discretion of the Secretary. The Secretary shall not impose any condition on the use of funds allocated to the Internal Revenue Service under this section.

(b) LIMITATION ON USE OF FUNDS.—Funds made available to carry out this section shall be used only to expand efforts to enhance motor fuel tax enforcement, fund additional Internal Revenue Service staff but only to carry out functions described in this subsection, supplement motor fuel tax examinations and criminal investigations, develop automated data processing tools to monitor motor fuel production and sales, evaluate and implement registration and reporting requirements for motor fuel taxpayers, reimburse State expenses that supplement existing fuel tax compliance efforts, and analyze and implement programs to reduce tax evasion associated with other highway use taxes.

(c) MAINTENANCE OF EFFORT.—The Secretary may not make a grant to a State under this section in a fiscal year unless the State certifies that aggregate expenditure of funds of the State, exclusive of Federal funds, for motor fuel tax enforcement activities will be maintained at a level which does not fall below the average level of such expenditure for its last 2 fiscal years.

(d) REPORTS.—

(1) IN GENERAL.—On September 30 and March 31 of each year, the Secretary shall transmit to the Committee on Environment and Public Works and the Committee on Finance of the Senate and the Committee on Public Works and Transportation and the Committee on Ways and Means of the House of Representatives a report on motor fuel tax enforcement activities under this section and the expenditure of funds made available to carry out this section, including expenses for the hiring of additional staff by any Federal agency.

(2) USE OF REVENUES FOR ENFORCEMENT OF HIGHWAY TRUST FUND TAXES.—The Secretary of the Treasury shall, at least 60 days before the beginning of each fiscal year (after fiscal year 1992) for which funds are to be allocated to the Internal Revenue Service under this section, submit a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate detailing the increased enforcement activities to be financed with such funds with respect to taxes referred to in section 9503(b)(1) of the Internal Revenue Code of 1986.

(e) USE OF DYE AND MARKERS.—

(1) STUDY.—The Secretary, in consultation with the Internal Revenue Service, shall conduct a study to determine the feasibility and the desirability of using dye and markers to aid in motor fuel tax enforcement activities and other purposes.

(2) REPORT.—Not later than 1 year after the effective date of this section, the Secretary shall transmit to Congress a report on the results of the study conducted under this subsection.

(f) FUNDING.—

(1) HIGHWAY TRUST FUND.—There shall be available to the Secretary for carrying out this section, out of the Highway Trust Fund (other than the Mass Transit Account), $5,000,000 for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997. Such sums shall be available for obligation in the same manner and to the same extent as if such sums were apportioned under chapter 1 of title 23, United States Code; except that the Federal share for projects carried out under this section shall be 100 percent and the sums shall remain available until expended.

(2) GENERAL FUND.—There are authorized to be appropriated to carry out this section $2,500,000 per fiscal year for each of fiscal years 1992 through 1997. Such sums shall remain available until expended.

(g) STATE DEFINED.—For purposes of this section, the term "State" means the 50 States and the District of Columbia.

SEC. 1041. REGULATORY INTERPRETATIONS.

(a) INCLUSION OF COATING OF STEEL IN BUY AMERICA PROGRAM.—Section 635.410 of title 23 of the Code of Federal Regulations and any similar regulation, ruling, or decision shall be applied as if to include coating.

(b) FUNDING OF FUSEES AND FLARES.—Section 393.95 of title 49 of the Code of Federal Regulations shall be applied so that fusees and flares are given equal priority with regard to use as reflecting signs.

SEC. 1042. INDIAN RERVATION ROADS STUDY.

(a) STUDY.—The Secretary shall conduct a study on the funding needs for Indian reservation roads taking into account funding and other quality inequities between Indian reservation roads and other highway systems.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the results of the study conducted under this section, together with any legislative and administrative recommendations of the Secretary for correcting inequities identified under such study.

SEC. 1043. REPORT TO CONGRESS ON QUALITY IMPROVEMENT.

(a) REPORT TO CONGRESS ON QUALITY IMPROVEMENT.—The Comptroller General shall submit within 24 months following the date of the enactment of this title a report to Congress addressing means for improving the quality of highways constructed with Federal assistance. This report shall address Federal design standards, engineering and design services, and construction of Federal-aid highway projects.

(b) SCOPE OF THE REPORT TO CONGRESS.—In preparing such report, the Comptroller shall address, at a minimum, the following:

(1) Alternative modifications to current Federal and State minimum design standards, including but not limited to, the anticipated impacts these alternatives would have on the serviceability, maintenance, expected life, and costs (including engineering and design, construction maintenance, operation and replacement costs).

(2) Inclusion of guarantee and warranty clauses in contracts with designers, contractors, and State highway departments to address, at a minimum, potential costs and benefits of such clauses; any liability or insurance constraints or concerns; implications for small, minority, or disadvantaged businesses; currently existing options for States to require these clauses or other means with similar effect without additional Federal legislation, and the effect these or similar clauses may have on the availability of insurance and bonds for design professionals and contractors and the implication to the public of any change in such availability.

(3) Means of enhancing the maintenance of the Federal-aid Highway System to ensure the public investment in such system is protected.

SEC. 1044. CREDIT FOR NON-FEDERAL SHARE.

(a) ELIGIBILITY.—A State may use as a credit toward the non-Federal matching share requirement for all programs under this Act and title 23, United States Code, toll revenues that are generated and used by public, quasi-public and private agencies to build, improve, or maintain highways, bridges, or tunnels that serve the public purpose of interstate commerce. Such public, quasi-public or private agencies shall have built, improved, or maintained such facilities without Federal funds.

(b) MAINTENANCE OF EFFORT.—The credit for any non-Federal share shall not reduce nor replace State monies required to match Federal funds for any program pursuant to this Act or title 23, United States Code. In receiving a credit for non-Federal capital expenditures under this section, a State shall enter into such agreements as the Secretary may require to ensure that such State will maintain its non-Federal transportation capital expenditures at or above the average level of such expenditures for the preceding three fiscal years.

(c) TREATMENT.—Use of such credit for a non-Federal share shall not expose such agencies from which the credit is received to additional liability, additional regulation or additional administrative oversight. When credit is applied from chartered multi-State agencies, such credit shall be applied equally to all charter States. The public, quasi-public, and private agencies from which the credit for which the non-Federal share is calculated shall not be subject to any additional Federal design standards, laws or regulations as a result of providing non-Federal match other than those to which such agency is already subject.

SEC. 1045. SUBSTITUTE PROJECT.

(a) APPROVAL OF PROJECT.—Notwithstanding any other provision of law, upon the request of the Governor of the State of Wisconsin, submitted after consultation with appropriate local government officials, the Secretary may approve substitute highway, bus transit, and light rail transit projects, in lieu of construction of the I-94 East-West Transitway project in Milwaukee and Waukesha Counties, as identified in the 1991 Interstate Cost Estimate.

(b) ELIGIBILITY FOR FEDERAL ASSISTANCE.—Upon approval of any substitute highway or transit project or projects under subsection (a), *the costs of construction of the eligible transitway project for which such project or projects are substituted shall not be eligible for funds authorized under section 108(b) of the Federal-Aid Highway Act of 1956 and a sum equal to the Federal share of such costs, as included in the latest interstate cost estimate submitted to Congress, shall be available to the Secretary to incur obligations under section 103(e)(4) of title 23, United States Code, for the Federal share of the costs of such substitute project or projects.*

(c) LIMITATION ON ELIGIBILITY.—If, by October 1, 1993, or two years after the date of the enactment of this Act, whichever is later, the Governor of the State of Wisconsin has not submitted a request for a substitute project or projects in lieu of the I-94 East-West Transitway, the Secretary shall not approve such substitution. If, by October 1, 1995, or four years after the date of the enactment of this Act, whichever is later, such substitute project or projects are not under construction, or under contract for construction, no funds shall be appropriated under the authority of section 103(e)(4) of title 23, United States Code, for such project or projects. For the purposes of this subsection, the term "construction" has the same meaning as given to it in section 101, title 23, United States Code, and shall include activities such as preliminary engineering and right-of-way acquisition.

(d) ADMINISTRATIVE PROVISIONS.—

(1) STATUS OF SUBSTITUTE PROJECT OR PROJECTS.—Any substitute project approved under subsection (a) shall be deemed to be a substitute project for the purposes of section 103(e)(4) of title 23, United States Code (other than subparagraphs (C) and (O)).

(2) REDUCTION OF UNOBLIGATED INTERSTATE APPORTIONMENT.—Unobligated apportionments for the Interstate System in the State of Wisconsin shall, on the date of approval of any substitute project or projects under subsection (a), be applied toward the Federal share of the costs of such substitute project or projects.

(3) ADMINISTRATION THROUGH FHWA.—The Secretary shall administer this section through the Federal Highway Administration.

(4) FISCAL YEARS 1993 AND 1994 APPORTIONMENTS.—For the purpose of apportioning funds for fiscal years 1993 and 1994 under section 104(b)(5)(A), the Secretary shall consider Wisconsin as having no remaining eligible costs. For the purpose of apportioning funds under section 104(b)(5)(A) of title 23, United States Code, for fiscal year 1995 and subsequent fiscal years, Wisconsin's actual remaining eligible costs shall be used.

(e) TRANSFER OF APPORTIONMENTS.—Wisconsin may transfer Interstate construction apportionments to its National Highway System in amounts equal to or less than the costs for additional work on sections of the Interstate System that have been built with Interstate construction funds and that are open to traffic as shown in the 1991 Interstate Cost Estimate.

SEC. 1046. CONTROL OF OUTDOOR ADVERTISING.

(a) FUNDING.—Section 131(m) of title 23, United States Code, is amended by adding at the end the following new sentence: "Subject to approval by the Secretary in accordance with the program of projects approval process of section 105, a State may use any funds apportioned to it under section 104 of this title for removal of any sign, display, or device lawfully erected which does not conform to this section.".

(b) REMOVAL OF ILLEGAL SIGNS.—Section 131 of such title is amended by adding at the end the following new subsection:

"(r) REMOVAL OF ILLEGAL SIGNS.—

"(1) BY OWNERS.—Any sign, display, or device along the Interstate System or the Federal-aid primary system which was not lawfully erected, shall be removed by the owner of such sign, display, or device not later than the 90th day following the effective date of this subsection.

"(2) BY STATES.—If any owner does not remove a sign, display, or device in accordance with paragraph (1), the State within the borders of which the sign, display, or device is located shall remove the sign, display, or device. The owner of the removed sign, display, or device shall be liable to the State for the costs of such removal. Effective control under this section includes compliance with the first sentence of this paragraph.".

(c) SCENIC BYWAY PROHIBITION.—Such section is further amended by adding at the end the following new subsections:

"(s) SCENIC BYWAY PROHIBITION.—If a State has a scenic byway program, the State may not allow the erection along any highway on the Interstate System or Federal-aid primary system which before, on, or after the effective date of this subsection, is designated as a scenic byway under such program of any sign, display, or device which is not in conformance with subsection (c) of this section. Control of any sign, display, or device on such a highway shall be in accordance with this section.

"(t) PRIMARY SYSTEM DEFINED.—For purposes of this section, the terms 'primary system' and 'Federal-aid primary system' mean the Federal-aid primary system in existence on June 1, 1991, and any highway which is not on such system but which is on the National Highway System.".

(d) STATE COMPLIANCE LAWS.—The amendments made by this section shall not affect the status or validity of any existing compliance law or regulation adopted by a State pursuant to section 131 of title 23, United States Code.

SEC. 1047. SCENIC BYWAYS PROGRAM.

(a) SCENIC BYWAYS ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall establish in the Department of Transportation an advisory committee to assist the Secretary with respect to establishment of a national scenic byways program under title 23, United States Code.

(2) MEMBERSHIP.—The advisory committee established under this section shall be composed of 17 members as follows:

(A) The Administrator of the Federal Highway Administration or the designee of the Administrator who shall serve as chairman of the advisory committee.

(B) The Chief of the Forest Service of the Department of Agriculture or the designee of the Chief.

(C) The Director of the National Park Service of the Department of the Interior or the designee of the Director.

(D) The Director of the Bureau of Land Management of the Department of the Interior or the designee of the Director.

(E) The Under Secretary for Travel and Tourism of the Department of Commerce or the designee of the Under Secretary.

(F) The Assistant Secretary for Indian Affairs of the Department of the Interior or the designee of the Assistant Secretary.

(G) 1 individual appointed by the Secretary who is specially qualified to represent the interests of conservationists on the advisory committee.

(H) 1 individual appointed by the Secretary of Transportation who is specially qualified to represent the interests of recreational users of scenic byways on the advisory committee.

(I) 1 individual appointed by the Secretary who is specially qualified to represent the interests of the tourism industry on the advisory committee.

(J) 1 individual appointed by the Secretary who is specially qualified to represent the interests of historic preservationists on the advisory committee.

(K) 1 individual appointed by the Secretary who is specially qualified to represent the interests of highway users on the advisory committee.

(L) 1 individual appointed by the Secretary to represent State highway and transportation officials.

(M) 1 individual appointed by the Secretary to represent local highway and transportation officials.

(N) 1 individual appointed by the Secretary who is specially qualified to serve on the advisory committee as a planner.

(O) 1 individual appointed by the Secretary who is specially qualified to represent the motoring public.

(P) 1 individual appointed by the Secretary who is specially qualified to represent groups interested in scenic preservation.

(Q) 1 individual appointed by the Secretary who represents the outdoor advertising industry.

Individuals appointed as members of the advisory committee under subparagraphs (G) through (P) may be State and local government officials. Members shall serve without compensation other than for reasonable expenses incident to functions of the advisory committee.

(3) FUNCTIONS.—The advisory committee established under this subsection shall develop and make to the Secretary recommendations regarding minimum criteria for use by State and Federal agencies in designating highways as scenic byways and as all-American roads for purposes of a national scenic byways program to be established under title 23, United States Code. Such recommendations shall include recommendations on the following:

(A) Consideration of the scenic beauty and historic significance of highways proposed for designation as scenic byways and all-American roads and the areas surrounding such highways.

(B) Operation and management standards for highways designated as scenic byways and all-American roads, including strategies for maintaining or improving the qualities for which a highway is designated as a scenic byway or all-American road, for protecting and enhancing the landscape and view corridors surrounding such a highway, and for minimizing traffic congestion on such a highway.

(C)(i) Standards for scenic byway-related signs, including those which identify highways as scenic byways and all-American roads.

(ii) The advisability of uniform signs identifying highways as components of the scenic byway system.

(D) Standards for maintaining highway safety on the scenic byway system.

(E) Design review procedures for location of highway facilities, landscaping, and travelers' facilities on the scenic byway system.

(F) Procedures for reviewing and terminating the designation of a highway designated as a scenic byway.

(G) Such other matters as the advisory committee may deem appropriate.

(H) Such other matters for which the Secretary may request recommendations.

(4) REPORT.—Not later than 18 months after the date of the enactment of this Act, the advisory committee established under this section shall submit to the Secretary and Congress a report containing the recommendations described in paragraph (3).

(b) TECHNICAL AND FINANCIAL ASSISTANCE.—The Secretary shall provide technical assistance to the States (as such term is defined under section 101 of title 23, United States Code) and shall make grants to the States for the planning, design, and development of State scenic byway programs.

(c) FEDERAL SHARE.—The Federal share payable for the costs of planning, design, and devel-

opment of State scenic byway programs under this section shall be 80 percent.

(d) FUNDING.—There shall be available to the Secretary for carrying out this section (other than subsection (f)), out of the Highway Trust Fund (other than the Mass Transit Account), $1,000,000 for fiscal year 1992, $3,000,000 for fiscal year 1993, $4,000,000 for fiscal year 1994, and $14,000,000 for each of the fiscal years 1995, 1996, and 1997. Such sums shall remain available until expended.

(e) CONTRACT AUTHORITY.—Notwithstanding any other provision of law, approval by the Secretary of a grant under this section shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of activities for which the grant is being made.

(f) INTERIM SCENIC BYWAYS PROGRAM.—

(1) GRANT PROGRAM.—During fiscal years 1992, 1993, and 1994, the Secretary may make grants to any State which has a scenic highway program for carrying out eligible projects on highways which the State has designated as scenic byways.

(2) PRIORITY PROJECTS.—In making grants under paragraph (1), the Secretary shall give priority to—

(A) those eligible projects which are included in a corridor management plan for maintaining scenic, historic, recreational, cultural, and archeological characteristics of the corridor while providing for accommodation of increased tourism and development of related amenities;

(B) those eligible projects for which a strong local commitment is demonstrated for implementing the management plans and protecting the characteristics for which the highway is likely to be designated as a scenic byway;

(C) those eligible projects which are included in programs which can serve as models for other States to follow when establishing and designing scenic byways on an intrastate or interstate basis; and

(D) those eligible projects in multi-State corridors where the States submit joint applications.

(3) ELIGIBLE PROJECTS.—The following are projects which are eligible for Federal assistance under this subsection:

(A) Planning, design, and development of State scenic byway programs.

(B) Making safety improvements to a highway designated as a scenic byway under this subsection to the extent such improvements are necessary to accommodate increased traffic, and changes in the types of vehicles using the highway, due to such designation.

(C) Construction along the highway of facilities for the use of pedestrians and bicyclists, rest areas, turnouts, highway shoulder improvements, passing lanes, overlooks, and interpretive facilities.

(D) Improvements to the highway which will enhance access to an area for the purpose of recreation, including water-related recreation.

(E) Protecting historical and cultural resources in areas adjacent to the highway.

(F) Developing and providing tourist information to the public, including interpretive information about the scenic byway.

(4) FEDERAL SHARE.—The Federal share payable for the costs of carrying out projects and developing programs under this subsection with funds made available pursuant to this subsection shall be 80 percent.

(5) FUNDING.—There shall be available to the Secretary for carrying out this subsection, out of the Highway Trust Fund (other than the Mass Transit Account), $10,000,000 for fiscal year 1992, $10,000,000 for fiscal year 1993, and $10,000,000 for fiscal year 1994. Such sums shall remain available until expended.

(g) LIMITATION.—The Secretary shall not make a grant under this section for any project which would not protect the scenic, historic, recreational, cultural, natural, and archeological integrity of the highway and adjacent area. The Secretary may not use more than 10 percent of the funds authorized for each fiscal year under subsection (f)(5) for removal of any outdoor advertising sign, display, or device.

(h) TREATMENT OF SCENIC HIGHWAYS IN OREGON.—For purposes of this section, a highway designated as a scenic highway in the State of Oregon shall be treated as a scenic byway.

SEC. 1048. BUY AMERICA.

(a) INCLUSION OF IRON.—Section 165(a) of the Surface Transportation Assistance Act of 1982 (23 U.S.C. 101 note) is amended by inserting ", iron," after "steel".

(b) WAIVERS; INTENTIONAL VIOLATIONS.—Section 165 of such Act is amended by adding at the end the following new subsections:

"(e) REPORT ON WAIVERS.—By January 1, 1995, the Secretary shall submit to Congress a report on the purchases from foreign entities waived under subsection (b) in fiscal years 1992 and 1993, indicating the dollar value of items for which waivers were granted under subsection (b).

"(f) INTENTIONAL VIOLATIONS.—If it has been determined by a court or Federal agency that any person intentionally—

"(1) affixed a label bearing a 'Made in America' inscription, or any inscription with the same meaning, to any product used in projects to which this section applies, sold in or shipped to the United States that was not made in the United States; or

"(2) represented that any product used in projects to which this section applies, sold in or shipped to the United States that was not produced in the United States, was produced in the United States;

that person shall be ineligible to receive any contract or subcontract made with funds authorized under the Intermodal Surface Transportation Efficiency Act of 1991 pursuant to the debarment, suspension, and ineligibility procedures in subpart 9.4 of chapter 1 of title 48, Code of Federal Regulations.

"(g) LIMITATION ON APPLICABILITY OF WAIVERS TO PRODUCTS PRODUCED IN CERTAIN FOREIGN COUNTRIES.—If the Secretary, in consultation with the United States Trade Representative, determines that—

"(1) a foreign country is a party to an agreement with the United States and pursuant to that agreement the head of an agency of the United States has waived the requirements of this section, and

"(2) the foreign country has violated the terms of the agreement by discriminating against products covered by this section that are produced in the United States and are covered by the agreement,

the provisions of subsection (b) shall not apply to products produced in that foreign country.".

SEC. 1049. DESIGN STANDARDS.

(a) SURVEY.—The Secretary shall conduct a survey to identify current State standards relating to geometric design, traffic control devices, roadside safety, safety appurtenance design, uniform traffic control devices, and sign legibility and directional clarity for all Federal-aid highways. The purpose of the survey is to determine the necessity of upgrading such standards in order to enhance highway safety. In conducting the survey, the Secretary shall take into consideration posted speed limits as they relate to the design of the highway.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of the survey conducted under this section, and on the crashworthiness of traffic lights, traffic signs, guardrails, impact attenuators, concrete barrier treatments, and breakaway utility poles for bridges and roadways currently used by States, together with any recommendations of the Secretary relating to the purpose of the survey.

SEC. 1050. TRANSPORTATION IN PARKLANDS.

(a) IN GENERAL.—Not later than 12 months after the date of the enactment of this Act, the Secretary, in consultation with the Secretary of the Interior, shall conduct and transmit to Congress a study of alternative transportation modes for use in the National Park System. In conducting such study, the Secretary shall consider (1) the economic and technical feasibility, environmental effects, projected costs and benefits as compared to the costs and benefits of existing transportation systems, and general suitability of transportation modes that would provide efficient and environmentally sound ingress to and egress from National Park lands; and (2) methods to obtain private capital for the construction of such transportation modes and related infrastructure.

(b) FUNDING.—From sums authorized to be appropriated for park roads and parkways for fiscal year 1992, $300,000 shall be available to carry out this section.

SEC. 1051. WORK ZONE SAFETY.

The Secretary shall develop and implement a work zone safety program which will improve work zone safety at highway construction sites by enhancing the quality and effectiveness of traffic control devices, safety appurtenances, traffic control plans, and bidding practices for traffic control devices and services.

SEC. 1052. NEW HAMPSHIRE FEDERAL-AID PAYBACK.

(a) EFFECT OF REPAYMENT.—The amount of all Federal-aid highway funds paid on account of those completed sections of the Nashua-Hudson Circumferential in the State of New Hampshire referred to in subsection (c) of this section shall, prior to the collection of any tolls thereon, be repaid to the Treasurer of the United States before October 1, 1992. The amount so repaid shall be deposited to the credit of the appropriation for "Federal-Aid Highway (Trust Fund)". Such repayment shall be credited to the unprogrammed balance of funds apportioned to the State of New Hampshire in accordance with section 104(b)(1) of title 23, United States Code. The amount so credited shall be in addition to all other funds then apportioned to such State and shall remain available until expended.

(b) USE OF REPAID FUNDS.—Upon repayment of Federal-aid highway funds and the cancellation and withdrawal from the Federal-Aid highway program of the projects on the section in subsection (c) as provided in subsection (a) of this section, such section of this route shall become and be free of any and all restrictions contained in title 23, United States Code, as amended or supplemented, or in any regulation thereunder, with respect to the imposition and collection of tolls or other charges thereon or for the use thereof.

(c) PROJECT DESCRIPTION.—The provisions of this section shall apply to the section of the completed Nashua-Hudson Circumferential between the Daniel Webster Highway in the city of Nashua and New Hampshire Route 3A in the town of Hudson.

SEC. 1053. METRIC SYSTEM SIGNING.

Section 144 of the Federal-Aid Highway Act of 1978 (92 Stat. 2713; 23 U.S.C. 109 note) is repealed.

SEC. 1054. TEMPORARY MATCHING FUND WAIVER.

(a) WAIVER OF MATCHING SHARE.—Notwithstanding any other provision of law, the Federal share of any qualifying project approved by the Secretary under title 23, United States Code,

and of any qualifying project for which the United States becomes obligated to pay under title 23, United States Code, during the period beginning on October 1, 1991, and ending September 30, 1993, shall be the percentage of the construction cost as the State requests, up to and including 100 percent.

(b) REPAYMENT.—The total amount of increases in the Federal share made pursuant to subsection (a) for any State shall be repaid to the United States by the State on or before March 30, 1994. Payments shall be deposited in the Highway Trust Fund and repaid amounts shall be credited to the appropriate apportionment accounts of the State.

(c) DEDUCTION FROM APPORTIONMENTS.—If a State has not made the repayment as required by subsection (b), the Secretary shall deduct from funds apportioned to the State under title 23, United States Code, in each of the fiscal years 1995 and 1996, a pro rata share of each category of apportioned funds. The amount which shall be deducted in each fiscal year shall be equal to 50 percent of the amount needed for repayment. Any amount deducted under this subsection shall be reapportioned for fiscal years 1995 and 1996 in accordance with title 23, United States Code, to those States which have not received a higher Federal share under this section and to those States which have made the repayment required by subsection (b).

(d) QUALIFYING PROJECT DEFINED.—For purposes of this section, the term "qualifying project" means a project approved by the Secretary after the effective date of this title, or a project for which the United States becomes obligated to pay after such effective date, and for which the Governor of the State submitting the project has certified, in accordance with regulations established by the Secretary, that sufficient funds are not available to pay the cost of the non-Federal share of the project.

SEC. 1055. RELOCATION ASSISTANCE REGULATIONS RELATING TO THE RURAL ELECTRIFICATION ADMINISTRATION.

Section 213(c) of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4633(c)) is amended by inserting "and the Rural Electrification Administration" after "Tennessee Valley Authority".

SEC. 1056. USE OF HIGH OCCUPANCY VEHICLE LANES BY MOTORBIKES.

Section 163 of the Surface Transportation Assistance Act of 1982 (23 U.S.C. 146 note) is amended—

(1) by inserting before "and acceptance" the following: ", after notice in the Federal Register and an opportunity for public comment,"; and

(2) by adding at the end the following: "Any certification made before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991 shall not be recognized by the Secretary until the Secretary publishes notice of such certification in the Federal Register and provides an opportunity for public comment on such certification.".

SEC. 1057. EROSION CONTROL GUIDELINES.

(a) DEVELOPMENT.—The Secretary shall develop erosion control guidelines for States to follow in carrying out construction projects funded in whole or in part under this title.

(b) MORE STRINGENT STATE REQUIREMENTS.—Guidelines developed under subsection (a) shall not preempt any requirement made by or under State law if such requirement is more stringent than the guidelines.

(c) CONSISTENCY WITH OTHER PROGRAMS.—Guidelines developed under subsection (a) shall be consistent with nonpoint source management programs under section 319 of the Federal Water Pollution Control Act and coastal nonpoint pollution control guidance under section 6217(g) of the Omnibus Budget Reconciliation Act of 1990.

SEC. 1058. ROADSIDE BARRIER TECHNOLOGY.

(a) REQUIREMENT FOR INNOVATIVE BARRIERS.—Not less than 2½ percent of the mileage of new or replacement permanent median barriers included in awarded contracts along Federal-aid highways within the boundaries of a State in each calendar year shall be innovative safety barriers.

(b) CERTIFICATION.—Each State shall annually certify to the Secretary its compliance with the requirements of this section.

(c) DEFINITION OF INNOVATIVE SAFETY BARRIER.—For purposes of this section, the term "innovative safety barrier" means a median barrier, other than a guardrail, classified by the Federal Highway Administration as "experimental" or that was classified as "operational" after January 1, 1985.

SEC. 1059. USE OF TOURIST ORIENTED DIRECTIONAL SIGNS.

(a) IN GENERAL.—The Secretary shall encourage the States to provide for equitable participation in the use of tourist oriented directional signs or "logo" signs along the Interstate System and the Federal-aid primary system (as defined under section 131(t) of title 23, United States Code).

(b) STUDY.—Not later than 1 year after the effective date of this title, the Secretary shall conduct a study and report to Congress on the participation in the use of signs referred to in subsection (a) and the practices of the States with respect to the use of such signs.

SEC. 1060. PRIVATE SECTOR INVOLVEMENT PROGRAM.

(a) ESTABLISHMENT.—The Secretary shall establish a private sector involvement program to encourage States to contract with private firms for engineering and design services in carrying out Federal-aid highway projects when it would be cost effective.

(b) GRANTS TO STATES.—

(1) IN GENERAL.—In conducting the program under this section, the Secretary may make grants in each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 to not less than 3 States which the Secretary determines have implemented in the fiscal year preceding the fiscal year of the grant the most effective programs for increasing the percentage of funds expended for contracting with private firms (including small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals) for engineering and design services in carrying out Federal-aid highway projects.

(2) USE OF GRANTS.—A grant received by a State under this subsection may be used by the State only for awarding contracts for engineering and design services to carry out projects and activities for which Federal funds may be obligated under title 23, United States Code.

(3) FUNDING.—There are authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 1992 through 1997. Such sums shall remain available until expended.

(c) REPORT BY FHWA.—Not later than 120 days after the date of the enactment of this Act, the Administrator of the Federal Highway Administration shall submit to the Secretary a report on the amount of funds expended by each State in fiscal years 1980 through 1990 on contracts with private sector engineering and design firms in carrying out Federal-aid highway projects. The Secretary shall use information in the report to evaluate State engineering and design programs for the purpose of awarding grants under subsection (b).

(d) REPORT TO CONGRESS.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on implementation of the program established under this section.

(e) ENGINEERING AND DESIGN SERVICES DEFINED.—The term "engineering and design services" means any category of service described in section 112(b) of title 23, United States Code.

(f) REGULATIONS.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall issue regulations to carry out this section.

SEC. 1061. UNIFORM TRAFFIC CONTROL DEVICES.

(a) HIGHWAY PROJECT.—The Secretary shall carry out a highway project in the State of Arkansas to demonstrate the benefits of providing training to county and town traffic officials in the need for and application of uniform traffic control devices and to demonstrate the safety benefits of providing for adequate and safe warning and regulatory signs.

(b) AUTHORIZATION OF APPROPRIATIONS FROM HIGHWAY TRUST FUNDS.—There is authorized to be appropriated out of the Highway Trust Fund, other than the Mass Transit Account, for fiscal year 1992 to carry out this section—

(1) $200,000 for providing training; and

(2) $1,000,000 for providing warning and regulatory signs to counties, towns and cities.

Amounts provided under paragraph (2) shall be divided equally between counties with a total county population of 20,000 or less and counties with a total county population of more than 20,000. Such amounts shall be distributed fairly and equitably among counties, cities, and towns within those counties.

(c) APPLICABILITY OF TITLE 23.—Funds authorized by this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of the project under this section shall be 80 percent and such funds shall remain available until expended. Funds made available under this section shall not be subject to any obligation limitation.

(d) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit a report to Congress on the effectiveness of the project carried out under this section.

SEC. 1062. MOLLY ANN'S BROOK, NEW JERSEY.

The Secretary shall carry out a project to make modifications to bridges necessary for the Secretary of the Army to carry out a project for flood control, Molly Ann's Brook, New Jersey, authorized by section 401 of the Water Resources Development Act of 1986 (100 Stat. 4119). Any Federal expenditures under this part for such project shall be treated as part of the non-Federal share of the cost of such flood control project.

SEC. 1063. PRESIDENTIAL HIGHWAY, FULTON COUNTY, GEORGIA.

(a) GENERAL RULE.—Notwithstanding any other provision of law, the Secretary shall approve the construction of the Department of Transportation project MEACU-9152(2) in Fulton County, Georgia, as described in the legal settlement agreed to for the project by the Georgia Department of Transportation, the city of Atlanta, and CAUTION, Inc. Execution of the settlement agreement by those parties and approval of the settlement agreement by the DeKalb County, Georgia Superior Court shall be deemed to constitute full compliance with all Federal laws applicable to carrying out the project.

(b) LIMITATIONS ON FEDERAL FUNDING.—With the exception of Federal funds expended for construction of the project described in subsection (a) and with the exception of Federal funds appropriated or authorized for the acquisition, creation, or development of parks or battlefield sites, no further Federal funds, including funds from the Highway Trust Fund and funds appropriated for the Federal-aid highway systems, shall be authorized, appropriated, or expended for expanding the capacity of the project described in subsection (a) or for new

construction of a Federal-aid highway in any portion of rights-of-way previously acquired for Department of Transportation project MEACU-9152(2) which is not used for construction of such project as described in subsection (a) and in any portion of the rights-of-way previously acquired for Georgia project I-485-1(46) in Fulton County, Georgia; Georgia project U-061-1(14) in Fulton and DeKalb Counties, Georgia; and Georgia project F-056-1(12) in Fulton County, Georgia.

(c) LIMITATION ON EFFECT.—In the event that the settlement agreement referred to in subsection (a) is not executed by the parties or approved by the DeKalb County, Georgia Superior Court in Case No. 88-6429-3, this section shall have no force or effect.

SEC. 1064. CONSTRUCTION OF FERRY BOATS AND FERRY TERMINAL FACILITIES.

(a) IN GENERAL.—The Secretary shall carry out a program for construction of ferry boats and ferry terminal facilities in accordance with section 129(c) of title 23, United States Code.

(b) FEDERAL SHARE.—The Federal share payable for construction of ferry boats and ferry terminal facilities under this section shall be 80 percent of the cost thereof.

(c) FUNDING.—There shall be available, out of the Highway Trust Fund (other than the Mass Transit Account), to the Secretary for obligation at the discretion of the Secretary $14,000,000 for fiscal year 1992, $17,000,000 per fiscal year for each of fiscal years 1993, 1994, 1995, and 1996, and $18,000,000 for fiscal year 1997 in carrying out this section. Such sums shall remain available until expended.

(d) APPLICABILITY OF TITLE 23.—All provisions of chapter 1 of title 23, United States Code, that are applicable to the National Highway System, other than provisions relating to apportionment formula and Federal share, shall apply to funds made available to carry out this section, except as determined by the Secretary to be inconsistent with this section.

(e) TREATMENT OF CERTAIN ROADS.—For purposes of this section, North Carolina State Routes 12, 45, 306, 615, and 168 and United States Route 421 in the State of North Carolina shall be treated as principal arterials.

SEC. 1065. ORANGE COUNTY TOLL PILOT PROJECTS.

(a) EXEMPTION OF CERTAIN LANDS.—For the purposes of any approval by the Secretary of proposed highway improvements authorized by section 129(d)(3) of title 23, United States Code, in Orange County, California, pursuant to section 303 of title 49, United States Code, and section 138 of title 23, United States Code, those sections (collectively known as "section 4(f)") shall not be applicable to public park, recreation area, wildlife and waterfowl refuge (collectively referred to hereinafter in this section as "parkland")—

(1) that are acquired by a public entity after a governmental agency's approval of a State or Federal environmental document established the location of a highway adjacent to the parklands; or

(2) where the planning or acquisition documents for the parklands specifically referred to or reserved the specific location of the highway.

(b) APPLICABILITY.—Without limiting its prospective application, this section shall apply to any approval of the proposed highway improvements by the Secretary prior to the effective date of this section only if—

(1) the approximately 360 acres comprising the proposed Upper Peters Canyon Regional Park in Orange County, California, is conveyed to a public agency for use as public park and recreation land or a wildlife or waterfowl refuge, or both, within 90 days of such effective date;

(2) the approximately 100 acres of lands described as the Dedication Area in that certain Option Agreement dated April 16, 1991, by and between the city of Laguna Beach and the owner thereof is conveyed to a public agency for use as public park and recreation land for a wildlife or waterfowl refuge, or both, within 90 days of such effective date.

(c) PURPOSE.—This section is adopted in recognition of unique circumstances in Orange County, California, including a comprehensive land use planning process; the joint planning of thousands of acres of parklands with the locations of the proposed highway improvement; the provision of rights-of-way for high occupancy vehicle lanes and fixed rail transit in the 3 transportation corridors; the use of toll financing, which will discourage excessive automobile travel; and the inclusion of a county-wide growth management element and substantial local transit funding commitment in the county's voter-approved supplemental sales tax for transportation.

(d) LIMITATIONS ON STATUTORY CONSTRUCTION.—In no event shall this section be construed to apply to any other highway projects other than the proposed San Joaquin Hills, Foothill, and Eastern Transportation Corridor highways in Orange County, California. Nothing in this section is intended to waive any provision of law (including the National Environmental Policy Act, the Endangered Species Act, and the National Historic Preservation Act) other than the specific exemptions to section 303 of title 49 and section 138 of title 23, United States Code. Nothing in this section shall be construed to give effect to or approve regulations issued pursuant to section 4(f) and published in the Federal Register on April 1, 1991 (56 Federal Register 62).

SEC. 1066. RECODIFICATION.

The Secretary shall, by October 1, 1993, prepare a proposed recodification of title 23, United States Code, and related laws and submit the proposed recodification to Congress for consideration.

SEC. 1067. PRIOR DEMONSTRATION PROJECTS.

(a) TAMPA, FLORIDA.—The unobligated balance of funds provided under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 for carrying out subsection (a)(81) of such section shall be available to the Secretary for carrying out a highway project to widen, modernize, and make safety improvements to interstate route I-4 in Hillsborough County, Florida, from its intersection with I-275 in Tampa, Florida, to the Hillsborough-Polk County line.

(b) SANTA FE, NEW MEXICO.—The unobligated balance of funds provided under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 for carrying out subsection (a)(107) of such section shall be available to the Secretary for carrying out a highway project to construct a bypass for Santa Fe, New Mexico.

(c) LARKSPUR TO KORBEL, CALIFORNIA.—The unobligated balance of funds provided under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 for carrying out subsection (a)(41)(B) of such section shall be available to the Secretary for carrying out a highway project to construct a transportation corridor along a right-of-way which is parallel to Route 101 in California and connects Larkspur, California, and Korbel, California.

(d) PASSAIC AND BERGEN COUNTIES, NEW JERSEY.—The highway project authorized by section 149(a)(1) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (101 Stat. 181), shall include improvements to New Jersey State Route 21, the Crooks Avenue interchange between United States Route 46 and New Jersey State Route 20, and the United States Route 46 bridge over the Passaic River between Clifton and Elmwood Park, New Jersey. Notwithstanding any other provision of law, the Governor of the State of New Jersey shall carry out with respect to the construction of such highway project all of the responsibilities of the Secretary under title 23, United States Code, and all other provisions of law. To provide for expedited completion of the project, the Governor is authorized to waive any and all Federal requirements relating to the scheduling of activities associated with such highway project, including final design and right-of-way acquisition activities.

SEC. 1068. STORMWATER PERMIT REQUIREMENTS.

(a) GENERAL RULE.—Notwithstanding the requirements of sections 402(p)(2) (B), (C), and (D) of the Federal Water Pollution Control Act, permit application deadlines for stormwater discharges associated with industrial activities from facilities that are owned or operated by a municipality shall be established by the Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the "Administrator") pursuant to the requirements of this section.

(b) PERMIT APPLICATIONS.—

(1) INDIVIDUAL APPLICATIONS.—The Administrator shall require individual permit applications for discharges described in subsection (a) on or before October 1, 1992; except that any municipality that has participated in a timely part I group application for an industrial activity discharging stormwater that is denied such participation in a group application or for which a group application is denied shall not be required to submit an individual application until the 180th day following the date on which the denial is made.

(2) GROUP APPLICATIONS.—With respect to group applications for permits for discharges described in subsection (a), the Administrator shall require—

(A) part I applications on or before September 30, 1991, except that any municipality with a population of less than 250,000 shall not be required to submit a part I application before May 18, 1992; and

(B) part II applications on or before October 1, 1992, except that any municipality with a population of less than 250,000 shall not be required to submit a part II application before May 17, 1993.

(c) MUNICIPALITIES WITH LESS THAN 100,000 POPULATION.—The Administrator shall not require any municipality with a population of less than 100,000 to apply for or obtain a permit for any stormwater discharge associated with an industrial activity other than an airport, powerplant, or uncontrolled sanitary landfill owned or operated by such municipality before October 1, 1992, unless such permit is required by section 402(p)(2) (A) or (E) of the Federal Water Pollution Control Act.

(d) UNCONTROLLED SANITARY LANDFILL DEFINED.—For the purposes of this section, the term "uncontrolled sanitary landfill" means a landfill or open dump, whether in operation or closed, that does not meet the requirements for run-on and run-off controls established pursuant to subtitle D of the Solid Waste Disposal Act.

(e) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to affect any application or permit requirement, including any deadline, to apply for or obtain a permit for stormwater discharges subject to section 402(p)(2)(A) or (E) of the Federal Water Pollution Control Act.

(f) REGULATIONS.—The Administrator shall issue final regulations with respect to general permits for stormwater discharges associated with industrial activity on or before February 1, 1992.

SEC. 1069. MISCELLANEOUS HIGHWAY PROJECT AUTHORIZATIONS.

(a) BALTIMORE-WASHINGTON PARKWAY.—There is authorized to be appropriated $74,000,000 for renovation and reconstruction of the Baltimore-Washington Parkway in Prince Georges County, Maryland. The Federal share of the cost of such project shall be 100 percent.

(b) EXIT 26 BRIDGE.—There is authorized to be appropriated $22,400,000 for construction of the Exit 26 Bridge in Schenectady County, New York. The Federal share of the cost of such project shall be 80 percent.

(c) CUMBERLAND GAP TUNNEL.—There are authorized to be appropriated such sums as may be necessary to complete construction of the Cumberland Gap Tunnel, Kentucky, including associated approaches and other necessary road work. The Federal share of the cost of such project shall be 100 percent.

(d) RIVERSIDE EXPRESSWAY.—There is authorized to be appropriated $53,400,000 for construction of the Riverside Expressway, including bridges crossing the Monongahela River and Buffalo Creek, in the vicinity of Fairmont, West Virginia. The Federal share of the cost of such project shall be 80 percent.

(e) BUSWAY.—There is authorized to be appropriated $39,500,000 for design and construction of an exclusive busway linking Pittsburgh and Pittsburgh Airport. The Federal share of such project shall be 80 percent.

(f) EXTON BYPASS.—There is authorized to be appropriated $11,004,000 for construction of the Exton Bypass, in Exton, Pennsylvania. The Federal share of such project shall be 80 percent.

(g) PENNSYLVANIA ROUTE 33 EXTENSION.—There is authorized to be appropriated $5,400,000 for extension of Route 33 in Northampton County, Pennsylvania. The Federal share of such project shall be 80 percent.

(h) U.S. ROUTE 202.—There is authorized to be appropriated $4,500,000 for construction of U.S. Route 202. The Federal share of such project shall be 80 percent.

(i) WOODROW WILSON BRIDGE.—There is authorized to be appropriated $15,000,000 for rehabilitation of the Woodrow Wilson Bridge. The Federal share of such project shall be 100 percent.

(j) WARREN OUTERBELT IMPROVEMENT, WARREN, OHIO.—There is authorized to be appropriated $1,000,000 for design and construction of Warren Outerbelt improvements, Warren, Ohio. The Federal share of such project shall be 80 percent.

(k) OHIO STATE ROUTE 46 IMPROVEMENTS.—There is authorized to be appropriated $2,000,000 for design and construction of Ohio State Route 46 improvements. The Federal share of such project shall be 80 percent.

(l) OHIO STATE ROUTE 5 IMPROVEMENTS.—There is authorized to be appropriated $1,000,000 for design and construction of Ohio State Route 5 improvements. The Federal share of such project shall be 80 percent.

(m) U.S. ROUTE 62 IMPROVEMENTS, OHIO.—There is authorized to be appropriated $1,000,000 for design and construction of U.S. Route 62 improvements, Ohio. The Federal share of such project shall be 80 percent.

(n) OHIO STATE ROUTE 534 IMPROVEMENTS.—There is authorized to be appropriated $1,000,000 for design and construction of Ohio State Route 534 improvements. The Federal share of such project shall be 80 percent.

(o) OHIO STATE ROUTE 45 IMPROVEMENTS.—There is authorized to be appropriated $1,000,000 for design and construction of Ohio State Route 45 improvements. The Federal share of such project shall be 80 percent.

(p) ROUTE 120, LOCK HAVEN, PENNSYLVANIA.—There is authorized to be appropriated $4,000,000 for the widening of Route 120 and the removal of unstable rockfill area, Lock Haven, Pennsylvania. The Federal share of such project shall be 80 percent.

(q) TRUSS BRIDGE, TIOGA RIVER, LAWRENCEVILLE, PENNSYLVANIA.—There is authorized to be appropriated $3,200,000 to replace the existing Truss Bridge across the Tioga River, in Lawrenceville, Pennsylvania. The Federal share of such project shall be 80 percent.

(r) U.S. ROUTE 6, BRADFORD COUNTY, PENNSYLVANIA.—There is authorized to be appropriated $3,000,000 for the widening of U.S. Route 6 (Wysox Narrows Road), in Bradford County, Pennsylvania. The Federal share of such project shall be 80 percent.

(s) SEBRING/MANSFIELD BYPASS, PENNSYLVANIA.—There is authorized to be appropriated $4,800,000 for design and construction of the Sebring/Mansfield Bypass on U.S. 15, Pennsylvania. The Federal share of such project shall be 80 percent.

(t) I–5 IMPROVEMENTS.—The States of Oregon and Washington should give priority consideration to improvements on the I–5 Corridor. The Secretary shall give priority consideration to funding I–5 improvements in Oregon and Washington from section 118(c)(2) of title 23, United States Code, as amended by this Act. The Secretary shall give the highest priority to those Oregon projects identified in the State's transportation improvement plan.

(u) ROUTE 219.—The Secretary shall designate Route 219 from the Maryland line to Buffalo, New York, as part of the National Highway System.

(v) COALFIELDS EXPRESSWAY.—There is authorized to be appropriated such sums as may be necessary for design and construction of the project known as "Coalfields Expressway" from Beckley, West Virginia, to the West Virginia-Virginia State line, generally following the corridor defined by, but not necessarily limited to, Routes 54, 97, 10, 16, and 93. The Federal share of such project shall be 80 percent.

(w) UNITED STATES ROUTE 119.—There is authorized to be appropriated $70,000,000 for upgrading United States Route 119 to 4 lanes beginning west of Huddy, Kentucky. The Federal share of such project shall be 80 percent.

(x) CHAMBERSBURG, PENNSYLVANIA.—Not later than 30 days after the date of the enactment of this Act, in Chambersburg, Pennsylvania, at both the intersection of Lincoln Way and Sixth Street and the intersection of Lincoln Way and Coldbrook Avenue, the Pennsylvania Department of Transportation shall include an exclusive pedestrian phase in the existing lighting sequence between the hours of 8:00 and 8:30 a.m. and between the hours of 2:45 and 3:45 p.m. on weekdays.

(y) CONSTRUCTION OF AND IMPROVEMENTS TO THE APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM.—There is authorized to be appropriated such sums as may be necessary for projects involving construction of, and improvements to, corridors of the Appalachian Development Highway System.

(z) UNITED STATES ROUTE 52 IN WEST VIRGINIA.—(1) There is authorized to be appropriated such sums as may be necessary for projects for the construction, renovation, and reconstruction of United States Route 52 in West Virginia.

(2) The Federal share payable on account of any such project shall be 80 percent of the cost thereof.

(aa) ROUTE 219, NEW YORK.—(1) For the purpose of projects to improve and upgrade Route 219 in New York, from Springeville to the Pennsylvania border Route 219 shall be considered as eligible for funding under the Appalachian Development Highway System.

(2) For purposes of paragraph (1) there is authorized to be appropriated such sums as may be necessary. The Federal share payable on account of such project shall be 80 percent of the cost thereof.

(bb) ROUTES 5 AND 92 CONGESTION MANAGEMENT PROJECT.—There is authorized to be appropriated $20,000,000 to carry out a project to relieve congestion in the vicinity of the intersection of routes 5 and 92 in the Towns of Manlius, New York, and Dewitt, New York.

(cc) ROCHESTER ADVANCED TRAFFIC MANAGEMENT SYSTEM.—There is authorized to be appropriated $15,000,000 to implement an integrated advanced traffic management/advanced driver information system in the city of Rochester, New York.

(dd) RENSSELAER ACCESS PROJECT.—There is authorized to be appropriated $35,000,000 to construct a new interchange (Exit 8) on Interstate Route 90, which includes an access-controlled roadway, in Rensselaer County, New York.

(ee) GOWANUS EXPRESSWAY CORRIDOR IMPROVEMENTS.—There is authorized to be appropriated $200,000,000 to carry out improvements to the Gowanus Expressway Corridor in Brooklyn, New York.

(ff) I–287 CROSS WESTCHESTER EXPRESSWAY HIGH OCCUPANCY VEHICLE LANE PROJECT.—There is authorized to be appropriated $200,000,000 to construct High Occupancy Vehicle Lanes on the Cross Westchester Expressway in Westchester County, New York.

(gg) OAK POINT LINK FREIGHT ACCESS PROJECT.—There is authorized to be appropriated $150,000,000 to complete the construction of the Oak Point Link in the Harlem River in New York City, New York.

(hh) OPERATIONAL IMPROVEMENTS, FRANKLIN DELANO ROOSEVELT DRIVE.—There is authorized to be appropriated $50,000,000 to carry out operational and safety improvements to the Franklin Delano Roosevelt Drive in New York City, New York.

SEC. 1070. MODIFICATIONS OF NIAGARA FALLS BRIDGE COMMISSION CHARTER.

(a) PAYMENT OF COSTS.—

(1) IN GENERAL.—Section 4 of the joint resolution entitled "Joint resolution creating the Niagara Falls Bridge Commission and authorizing said Commission and its successors to construct, maintain, and operate a bridge across the Niagara River at or near the city of Niagara Falls, New York", approved June 16, 1938, as amended (hereinafter in this section referred to as the "Joint Resolution"), is amended to read as follows:

"SEC. 4. The Commission is authorized to issue its obligations to provide funds for the acquisition or construction of bridges (provided the same is authorized by Act or Joint Resolution of Congress of the United States), and the repair, renovation and expansion of the same, working capital and other expenditures and deposits convenient to carrying out the Commission's purposes. The terms of the obligations shall be determined by resolution of the Commission (subject to such agreements with bondholders as may then exist), including provisions regarding rates of interest (either fixed or variable), contracts for credit support, risk management, liquidity or other financial arrangements, security or provision for payment of the obligations and such contracts (including the general obligation of the Commission and the pledge of all or any particular revenues or proceeds of obligations of the Commission). The obligations shall be sold at public or private sale at such prices above or below par as the Commission shall determine. As used herein 'bridges' includes approaches thereto, land, easements and functionally related appurtenances.".

(2) EXISTING CONTRACTUAL RIGHTS.—The amendments made by paragraph (1) shall be subject to the contractual rights of the holders of any of the bonds of the Niagara Falls Bridge

Commission which are outstanding as of the date of the enactment of this section.

(b) Repayments.—Section 5 of the Joint Resolution is amended—

(1) in the first sentence—

(A) by striking "a fund" and "a sinking fund" each place such terms appear and inserting "funds",

(B) by striking "herein provided" and inserting "provided by resolution",

(C) by striking "bonds" and inserting "obligations,", and

(D) by striking "bridge" and inserting "bridges" each place such term appears, and

(2) by striking the second and third sentences and inserting: "After payment or provision for payment of the foregoing uses, the remainder of the tolls shall be applied, as and when the Commission determines, for purposes convenient to the accomplishment of its purposes.".

(c) Treatment of Commission.—The last sentence of section 6 of the Joint Resolution is amended to read as follows: "The Commission shall be deemed for purposes of all Federal law to be a public agency or public authority of the State of New York, notwithstanding any other provision of law.".

(d) Administrative Provisions.—Section 8 of the Joint Resolution is amended in the second sentence thereof by striking out "shall not be entitled to any compensation for their services but" and inserting "shall be entitled to reimbursement for actual expenses incurred in the performance of official duties and to a per diem allowance per member of $150 when rendering services as such member (but not exceeding $10,000 for any member in any fiscal year).".

SEC. 1071. PEACE BRIDGE TRUCK INSPECTION FACILITIES.

Notwithstanding any other provision of law, the Administrator of General Services shall lease truck inspection facilities for the Peace Bridge. Such facilities must be immediately adjacent to the intersection of Porter Avenue and the New York State Thruway in Buffalo, New York. Before leasing such facilities, the Administrator must be assured that the facilities will be offered at a fair market price and that the facilities chosen will be connected to the bridge by a secure access road. Provided that these conditions are met, the Administrator shall enter into the lease on or before April 30, 1992.

SEC. 1072. VEHICLE PROXIMITY ALERT SYSTEM.

The Secretary shall coordinate the field testing of the vehicle proximity alert system and comparable systems to determine their feasibility for use by priority vehicles as an effective railroad-highway grade crossing safety device. In the event the vehicle proximity alert or a comparable system proves to be technologically and economically feasible, the Secretary shall develop and implement appropriate programs under section 130 of title 23, United States Code, to provide for installation of such devices where appropriate.

SEC. 1073. ROADSIDE BARRIERS AND SAFETY APPURTENANCES.

(a) Initiation of Rulemaking Proceeding.—Not later than 30 days after the date of the enactment of this Act, the Secretary shall initiate a rulemaking proceeding to revise the guidelines and establish standards for installation of roadside barriers and other safety appurtenances, including longitudinal barriers, end terminals, and crash cushions. Such rulemaking shall reflect state-of-the-art designs, testing, and evaluation criteria contained in the National Cooperative Highway Research Program Report 230, relating to approval standards which provide an enhanced level of crashworthy performance to accommodate vans, mini-vans, pickup trucks, and 4-wheel drive vehicles.

(b) Final Rule.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall complete the rulemaking proceeding initiated under subsection (a), and issue a final rule regarding the implementation of revised guidelines and standards for acceptable roadside barriers and other safety appurtenances, including longitudinal barriers, end terminals, and crash cushions. Such revised guidelines and standards shall accommodate vans, mini-vans, pickup trucks, and 4-wheel drive vehicles and shall be applicable to the refurbishment and replacement of existing roadside barriers and safety appurtenances as well as to the installation of new roadside barriers and safety appurtenances.

SEC. 1074. DESIGNATION OF UNITED STATES ROUTE 69.

Notwithstanding any other provision of law, upon the request of the Oklahoma State highway agency, the Secretary shall designate the portion of United States Route 69 from the Oklahoma-Texas State line to Checotah in the State of Oklahoma as a part of the Interstate System pursuant to section 139 of title 23, United States Code.

SEC. 1075. SPECIAL PROVISIONS REGARDING CERTAIN HYDROELECTRIC PROJECTS.

(a) Brasfield Dam Project in Virginia.—(1) Notwithstanding section 13 of the Federal Power Act providing for the termination of a license issued by the Federal Energy Regulatory Commission (hereinafter in this subsection referred to as the "Commission") to the Appomattox River Water Authority (hereinafter in this subsection referred to as the "Authority") for the Brasfield Dam Hydroelectric Project (FERC Project No. 9840-001) on the Appomattox River in Chesterfield and Dinwiddie Counties, Virginia, and notwithstanding the prior surrender of such license by the Authority, the Commission shall reissue such license to the Authority, together with any amendments necessary and appropriate to carry out this subsection, and extend the period referred to in section 13 of that Act for a period ending 3 years after the enactment of this Act, subject to the requirements of this section and the provisions of Federal Power Act.

(2) During the 3-year period referred to in paragraph (1), the Commission shall issue an order, at the request of the Authority, permitting the Authority to transfer the license for such project to another person designated by the Authority for the purpose of protecting the Authority from challenge in connection with its agreement of trust with the Crestar Bank or under any provision of law of the State of Virginia. Any such transfer shall occur at a time specified in the order which shall not be after the expiration of the 3-year period referred to in paragraph (1).

(3) Any license transfer under this subsection shall require that the licensee shall be subject to, and comply with, the license and the provisions of the Federal Power Act, including the provisions of section 10 thereof (related to fish and wildlife) with respect to such project to the same extent and in the same manner as the Authority would be subject to such license and such Act in the absence of such transfer. Nothing in the transfer of such license shall affect the authority or power of the Commission under the license or under the Federal Power Act. Nothing in the Federal Power Act shall be construed as precluding a transfer of such license for the purposes specified in this section.

(4) Any license transfer under this subsection shall be subject to revocation, at the request of the Authority, to permit the Authority to surrender the license. No surrender of such license by the Authority (or by any other person) shall be effective until after—

(A) reasonable prior notice (as determined by the Commission),

(B) completion of project construction, including the installation of any facilities for the protection, mitigation, and enhancement of fish and wildlife required under the license (including facilities required by the State fish and wildlife agency); and

(C) delivery to the Commission of a statement certified by the Board of the Authority that the terms of any actual or proposed Commission order with respect to the Brasfield Dam Hydroelectric Project would cause the Authority to act in violation of its Charter or be inconsistent with its bond indentures.

The Commission shall accept the surrender of such license and establish conditions applicable to such license surrender which require the removal of hydroelectric power generation facilities, require that the licensee provide assurances satisfactory to the Commission that, following surrender of the license, the Brasfield Dam will be subject to State laws regarding fish and wildlife and dam safety and require that such surrender will not impose any duty, liability or obligation on the part of any department, agency, or instrumentality of the United States. Nothing in this section shall affect the application of the River and Harbor Act of 1894 (33 U.S.C. Sec. 1).

(b) Projects Nos. 3033, 3034, and 3246.—(1) Notwithstanding the time limitations of section 13 of the Federal Power Act (16 U.S.C. 806), the Federal Energy Regulatory Commission, upon the request of the licensees for Federal Energy Regulatory Commission Projects Nos. 3033, 3034, and 3246 (and after reasonable notice), is authorized, in accordance with the good faith, due diligence, and public interest requirements of such section and the Commission's procedures under such section, to extend—

(A) until August 10, 1994, the time required for the licensee to acquire the required real property and commence the construction of Project No. 3033, and until August 10, 1999, the time required for completion of construction of the project;

(B) until August 10, 1996, the time required for the licensee to acquire the required real property and commence the construction of Project No. 3034, and until August 10, 2001, the time required for completion of construction of the project; and

(C) until October 15, 1995, the time required for the licensee to acquire the required real property and commence the construction of Project No. 3246, and until October 15, 1999, the time required for completion of construction of the project.

(2) The authorization for issuing extensions under this subsection shall terminate 3 years after the date of enactment of this section.

(3) To facilitate requests under this subsection, the Commission may consolidate the requests.

(c) Union City, Michigan.—Notwithstanding section 23(b) or section 4(e) of the Federal Power Act, it shall not be unlawful for the municipality of Union City, Michigan, to operate, maintain, repair, reconstruct, replace, or modify—

(1) any dam which, as of the date of the enactment of this Act, is owned and operated by Union City, Michigan, and located across a segment of the St. Joseph River, in Branch County, Michigan, approximately 5 miles downstream from such municipality, or

(2) any water conduit, reservoir, power house, and other works incidental to such dam.

No license shall be required under part 1 of the Federal Power Act for the dam, water conduit, reservoir, power house, or other project works referred to in the preceding sentence and, subject to compliance with State laws, permission is hereby granted for such facilities to the same extent as in the case of facilities for which permission is granted under the last sentence of section 23(b) of that Act.

SEC. 1076. SHORELINE PROTECTION.

The project for shoreline protection, Atlantic Coast of New York City from Rockaway Inlet to

Norton Point, authorized by section 501(a) of the Water Resources Development Act of 1986 (Public Law 99–662; 100 Stat. 4135), is modified to authorize the Secretary to construct the project at a total first cost of $69,200,000, based on the New York District Engineer's draft General Design Memorandum dated April 1991, with an estimated first Federal cost of $39,800,000 and an estimated non-Federal cost of $29,400,000, and an average annual cost of $580,000 for periodic nourishment over the life of the project, with an estimated annual Federal cost of $377,000 and an estimated annual non-Federal cost of $203,000. The Secretary shall proceed with the storm damage reduction measures as the first construction feature. The project is further modified to authorize the Secretary to relocate existing comfort and lifeguard stations at full Federal expense, provided such relocations are desired by the non-Federal sponsor. Operation and maintenance of the facilities after relocation will be a non-Federal responsibility. The cost of these relocations shall not be treated as a project cost for purposes of either economic evaluation or project cost-sharing of the project.

SEC. 1077. REVISION OF MANUAL.

Not later than 90 days after the date of the enactment of this Act, the Secretary shall revise the Manual of Uniform Traffic Control Devices and such other regulations and agreements of the Federal Highway Administration as may be necessary to authorize States and local governments, at their discretion, to install stop or yield signs at any rail-highway grade crossing without automatic traffic control devices with 2 or more trains operating across the rail-highway grade crossing per day.

SEC. 1078. DECLARATION OF NONNAVIGABILITY OF PORTION OF HUDSON RIVER, NEW YORK.

(a) DECLARATION OF NONNAVIGABILITY.—Subject to subsections (c), (d), and (e), the area described in subsection (b) is declared to be nonnavigable waters of the United States.

(b) AREA SUBJECT TO DECLARATION.—The area described in this subsection is the portion of the Hudson River, New York, described as follows (according to coordinates and bearings in the system used on the Borough Survey, Borough President's Office, New York, New York):

Beginning at a point in the United States Bulkhead Line approved by the Secretary of War, July 31, 1941, having a coordinate of north 1918.003 west 9806.753.

Running thence easterly, on the arc of a circle curving to the left, whose radial line bears north 3°–44′–20″ east, having a radius of 390.00 feet and a central angle of 22°–05′–50″, 150.41 feet to a point of tangency.

Thence north 71°–38′–30″ east, 42.70 feet.

Thence south 11°–05′–40″ east, 33.46 feet.

Thence south 78°–54′–20″ west, 0.50 feet.

Thence south 11°–05′–40″ east, 2.50 feet.

Thence north 78°–54′–20″ east, 0.50 feet.

Thence south 11°05′40″ east, 42.40 feet to a point of curvature.

Thence southerly, on the arc of a circle curving to the right, having a radius of 220.00 feet and a central angle of 16°37′40″, 63.85 feet to a point of compound curvature.

Thence still southerly, on the arc of a circle curving to the right, having a radius of 150.00 feet and a central angle of 38°39′00″, 101.19 feet to another point of compound curvature.

Thence westerly, on the arc of a circle curving to the right, having a radius of 172.05 feet and a central angle of 32°32′03″, 97.69 feet to a point of curve intersection.

Thence south 13°16′57″ east, 50.86 feet to a point of curve intersection.

Thence westerly, on the arc of a circle curving to the left, whose radial bears north 13°16′57″ west, having a radius of 6.00 feet and a central angle of 180°32′31″, 18.91 feet to a point of curve intersection.

Thence southerly, on the arc of a circle curving to the left, whose radial line bears north 75°37′11″ east, having a radius of 313.40 feet and a central angle of 4°55′26″, 26.93 feet to a point of curve intersection.

Thence south 70°41′45″ west, 36.60 feet.

Thence north 13°45′00″ west, 42.87 feet.

Thence south 76°15′00″ west, 15.00 feet.

Thence south 13°45′00″ east, 44.33 feet.

Thence south 70°41′45″ west, 128.09 feet to a point in the United States Pierhead Line approved by the Secretary of War, 1936.

Thence north 63°08′48″ west, along the United States Pierhead Line approved by the Secretary of War, 1936, 114.45 feet to an angle point therein.

Thence north 61°08′00″ west, still along the United States Pierhead Line approved by the Secretary of War, 1936, 202.53 feet.

The following three courses being along the lines of George Soilan Park as shown on map prepared by The City of New York, adopted by the Board of Estimate, November 13, 1981, Acc. N° 30071 and lines of property leased to Battery Park City Authority and B. P. C. Development Corp.

Thence north 77°35′20″ east, 231.35 feet.

Thence north 12°24′40″ west, 33.92 feet.

Thence north 54°49′00″ east, 171.52 feet to a point in the United States Bulkhead Line approved by the Secretary of War, July 31, 1941.

Thence north 12°24′40″ west, along the United States Bulkhead Line approved by the Secretary of War, July 31, 1941, 62.26 feet to the point or place of beginning.

(c) DETERMINATION OF PUBLIC INTEREST.—The declaration made in subsection (a) shall not take effect if the Secretary of the Army (acting through the Chief of Engineers), using reasonable discretion, finds that the proposed project is not in the public interest—

(1) before the date which is 120 days after the date of the submission to the Secretary of appropriate plans for the proposed project; and

(2) after consultation with local and regional public officials (including local and regional public planning organizations).

(d) LIMITATION ON APPLICABILITY OF DECLARATION.—

(1) AFFECTED AREA.—The declaration made in subsection (a) shall apply only to those portions of the area described in subsection (b) which are or will be occupied by permanent structures (including docking facilities) comprising the proposed project.

(2) APPLICATION OF OTHER LAWS.—Notwithstanding subsection (a), all activities conducted in the area described in subsection (b) are subject to all Federal laws which apply to such activities, including—

(A) sections 9 and 10 of the Act of March 3, 1899 (33 U.S.C. 401, 403), commonly known as the River and Harbors Appropriation Act of 1899;

(B) section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1254); and

(C) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(e) EXPIRATION DATE.—The declaration made in subsection (a) shall expire—

(1) on the date which is 6 years after the date of the enactment of this Act if work on the proposed project to be performed in the area described in subsection (b) is not commenced before such date; or

(2) on the date which is 20 years after the date of the enactment of this Act for any portion of the area described in subsection (b) which on such date is not bulkheaded, filled, or occupied by a permanent structure (including docking facilities).

(f) PROPOSED PROJECT DEFINED.—For the purposes of this section, the term "proposed project" means any project for the rehabilitation and development of—

(1) the structure located in the area described in subsection (b), commonly referred to as Pier A; and

(2) the area surrounding such structure.

SEC. 1079. CLEVELAND HARBOR, OHIO.

(a) DEAUTHORIZATION OF PORTION OF PROJECT FOR HARBOR MODIFICATION.—That portion described in subsection (b) of the project for harbor modification, Cleveland Harbor, Ohio, authorized by section 202(a) of the Water Resources Development Act of 1986 (100 Stat. 4095), is not authorized after the date of the enactment of this Act.

(b) AREA SUBJECT TO DEAUTHORIZATION.—The portion of the project for harbor modification, Cleveland Harbor, Ohio, described in this subsection is that portion situated in the City of Cleveland, Cuyahoga County, and State of Ohio, T7N, R13W and being more fully described as follows:

Beginning at an iron pin monument at the intersection of the centerline of East 9th Street (99 feet wide) with the centerline of relocated Erieside Avenue N.E. (70 ft. wide).

Thence South 50°06′52″ West on the centerline of relocated Erieside Avenue N.E. a distance of 112.89 feet to a point.

Thence southwesterly continuing on the centerline of relocated Erieside Avenue N.E. along the arc of a curve to the left, with a radius of 300.00 feet and whose chord bears South 42°36′52″ West 140.07 feet, an arc distance of 141.37 feet to a point.

Thence North 60°53′08″ West a distance of 35.00 feet to a point on the northwesterly right-of-way line of relocated Erieside Avenue N.E.

Thence South 29°06′52″ West on the northwesterly right-of-way line of relocated Erieside Avenue N.E. a distance of 44.36 feet to a point.

Thence North 33°53′08″ West a distance of 158.35 feet to a point.

Thence South 56°06′52″ West a distance of 76.00 feet to a point.

Thence North 78°53′08″ West a distance of 18.39 feet to a point.

Thence North 33°53′08″ West a distance of 33.50 feet to a point, said point being the true place of beginning of the parcel herein described.

Thence South 56°06′52″ West a distance of 84.85 feet to a point.

Thence North 33°53′08″ West a distance of 137.28 feet to a point.

Thence North 11°06′52″ East a distance of 225.00 feet to a point.

Thence South 78°53′08″ East a distance of 160.00 feet to a point.

Thence South 11°06′52″ West a distance of 46.16 feet to a point.

Thence South 56°06′52″ West a distance of 28.28 feet to a point.

Thence South 11°06′52″ West a distance of 89.70 feet to a point.

Thence South 33°53′08″ East a distance of 28.28 feet to a point.

Thence South 11°06′52″ West a distance of 83.29 feet to a point.

Thence South 56°06′52″ West a distance of 4.14 feet to a true place of beginning containing 42,646 square feet more or less.

(c) REIMBURSEMENT NOT REQUIRED.—The Ohio Department of Natural Resources shall not be required to reimburse the Federal Government any portion of the credit received by the non-Federal project sponsor as provided for in Public Law 100–202 (101 Stat. 1329–108).

(d) AREA TO BE DECLARED NONNAVIGABLE; PUBLIC INTEREST.—Unless the Secretary of the Army finds, after consultation with local and regional public officials (including local and regional public planning organizations), that the proposed projects to be undertaken within the boundaries in the portions of Cleveland Harbor, Ohio, described below, are not in the public in-

terest then, subject to subsections (e) and (f) of this section, those portions of such Harbor, bounded and described as follows, are declared to be nonnavigable waters of the United States:

Situated in the City of Cleveland, Cuyahoga County and State of Ohio, T7N, R13W and being more fully described as follows:

Beginning at an iron pin monument at the intersection of the centerline of East 9th Street (99 feet wide) with the centerline of relocated Erieside Avenue, N.E., (70 feet wide) at Cleveland Regional Geodetic Survey Grid System, (CRGS) coordinates N92,679.734, E86,085.955;

Thence South 56°06'52" West on the centerline of relocated Erieside Avenue, N.E., a distance of 89.50 feet to a drill hole set;

Thence North 33°53'08" West a distance of 35.00 feet to a drill hole set on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., said point being the true place of beginning of the parcel herein described;

Thence South 56°06'52" West on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., a distance of 23.39 feet to a ⅝ inch re-bar set;

Thence southwesterly on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., along the arc of a curve to the left with a radius of 335.00 feet, and whose chord bears South 42°36'52" West 156.41 feet, an arc distance of 157.87 feet to a ⅝ inch re-bar set;

Thence South 29°06'52" West on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., a distance of 119.39 feet to a ⅝ inch re-bar set;

Thence southwesterly on the northwesterly right-of-way of relocated Erieside Avenue, N.E., along the arc of a curve to the right with a radius of 665.00 feet, and whose chord bears South 32°22'08" West 75.50 feet, an arc distance of 75.54 feet to a ⅝ inch re-bar set;

Thence North 33°53'08" West a distance of 279.31 feet to a drill hole set;

Thence South 56°06'52" West a distance of 37.89 feet to a drill hole set;

Thence North 33°53'08" West a distance of 127.28 feet to a point;

Thence North 11°06'52" East a distance of 225.00 feet to a point;

Thence South 78°53'08" East a distance of 150.00 feet to a drill hole set;

Thence North 11°06'52" East a distance of 32.99 feet to a drill hole set;

Thence North 33°53'08" East a distance of 46.96 feet to a drill hole set;

Thence North 56°06'52" East a distance of 140.36 feet to a drill hole set on the southwesterly right-of-way line of East 9th Street;

Thence South 33°53'08" East on the southwesterly right-of-way line of East 9th Street a distance of 368.79 feet to a drill hole set;

Thence southwesterly along the arc of a curve to the right with a radius of 40.00 feet, and whose chord bears South 11°06'52" West 56.57 feet, an arc distance of 62.83 feet to the true place of beginning containing 174,764 square feet (4.012 acres) more or less.

(e) LIMITS ON APPLICABILITY; REGULATORY REQUIREMENTS.—The declaration under subsection (d) shall apply only to those parts of the areas described in subsection (d) which are or will be bulkheaded and filled or otherwise occupied by permanent structures, including marina facilities. All such work is subject to all applicable Federal statutes and regulations, including sections 9 and 10 of the Act of March 3, 1899 (30 Stat. 1151; 33 U.S.C. 401 and 403), commonly known as the River and Harbors Appropriation Act of 1899, section 404 of the Federal Water Pollution Control Act, and the National Environmental Policy Act of 1969.

(f) EXPIRATION DATE.—If, 20 years from the date of the enactment of this Act, any area or part thereof described in subsection (d) is not bulkheaded or filled or occupied by permanent structures, including marina facilities, in accordance with the requirements set out in subsection (e) of this section, or if work in connection with any activity permitted in subsection (e) is not commenced within 5 years after issuance of such permit, then the declaration of nonnavigability for such area or part thereof shall expire.

SEC. 1080. DEAUTHORIZATION OF A PORTION OF THE CANAVERAL HARBOR, FLORIDA, PROJECT.

The following portion of the project for navigation, Canaveral Harbor, Florida, authorized by the River and Harbor Act of 1945, as modified by the River and Harbor Act of 1962 (Pub. L. 87-874), shall not be authorized after the date of the enactment of this Act:

Begin at the northwesterly corner of the west turning basin, Federal navigation project, Canaveral Harbor, Brevard County, Florida, having a northing of 1,483,798.695 and an easting of 619,159.191 (Florida east zone, State plane transverse mercator standard conical projections) and being depicted on the Department of the Army, Jacksonville District, Corps of Engineers 'Construction Dredging 31 Foot Project', D.O. File No. 11–34, 465 sheet 35, dated October 1984; thence S. 0°18'51" E., along said westerly boundary, a distance of 1320.00 feet; thence N. 89°41'09" E., a distance of 1095.00 feet; thence N. 62°35'15" W., a distance of 551.30 feet; thence N. 56°56'18" E., a distance of 552.87 feet; thence S. 89°41'09" W., a distance of 1072.00 feet to the point of beginning (containing 21.43 acres, more or less).

SEC. 1081. INFRASTRUCTURE INVESTMENT COMMISSION.

(a) ESTABLISHMENT OF COMMISSION.—There is established a commission to be known as the "Commission to Promote Investment in America's Infrastructure" (hereinafter in this section referred to as the "Commission").

(b) FUNCTION OF COMMISSION.—It shall be the function of the Commission to conduct a study on the feasibility and desirability of creating a type of infrastructure security to permit the investment of pension funds in funds used to design, plan, and construct infrastructure facilities in the United States. Such study may also include an examination of other methods of encouraging public and private investment in infrastructure facilities.

(c) MEMBERSHIP.—

(1) NUMBER AND APPOINTMENT.—The Commission shall be composed of 7 members appointed as follows:

(A) 2 members appointed by the majority leader of the Senate.

(B) 2 members appointed by the Speaker of the House of Representatives.

(C) 1 member appointed by the President.

(D) 1 member appointed by the minority leader of the Senate.

(E) 1 member appointed by the minority leader of the House of Representatives.

(2) QUALIFICATIONS.—Members of the Commission shall have appropriate backgrounds in finance, construction lending, actuarial disciplines, pensions, and infrastructure policy disciplines.

(3) CHAIRPERSON.—The Chairperson of the Commission shall be elected by the members.

(d) PAY AND TRAVEL EXPENSES.—Members shall serve without pay but shall be allowed travel expenses, including per diem in lieu of subsistence, while away from their homes or regular places of business in the performance of services for the Commission in the same manner as persons employed intermittently in the Government service are allowed under section 5703 of title 5, United States Code.

(e) STAFF.—Subject to such rules as may be prescribed by the Commission, the Chairperson may—

(1) appoint and fix the pay of an executive director, a general counsel, and such additional staff as the Chairperson considers necessary, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, except that the rate of pay for such staff members may not exceed the rate payable for level V of the Executive Schedule under section 5316 of title 5, United States Code; and

(2) procure temporary and intermittent services to the same extent as is authorized by section 3109(b) of title 5, United States Code, at rates for individuals which do not exceed the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of such title.

(f) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Commission shall transmit to the President and Congress a report containing its findings and recommendations.

(g) TERMINATION.—The Commission shall terminate on the 180th day following the date of the submission of its report under subsection (f).

SEC. 1082. DEAUTHORIZATION OF ACADEMY CREEK FEATURE OF THE BRUNSWICK HARBOR, GEORGIA, PROJECT.

The Academy Creek feature of the Brunswick Harbor, Georgia, project, authorized for construction by the River and Harbor Act of 1907 in accordance with House Document 407, 59th Congress, shall not be authorized after the date of the enactment of this Act.

SEC. 1083. NAMINGS.

(a) WILLIAM H. HARSHA BRIDGE.—The United States Route 68 bridge across the Ohio River between Aberdeen, Ohio, and Maysville, Kentucky, shall be known and designated as the "William H. Harsha Bridge".

(b) J. CLIFFORD NAUGLE BYPASS.—The highway bypass being constructed around the Borough of Ligonier in Westmoreland County, Pennsylvania, shall be known and designated as the "J. Clifford Naugle Bypass".

(c) LINDY CLAIBORNE BOGGS LOCK AND DAM.—

(1) DESIGNATION.—The lock and dam numbered 1 on the Red River Waterway in Louisiana shall be known and designated as the "Lindy Claiborne Boggs Lock and Dam".

(2) REFERENCE.—Any reference in any law, regulation, document, record, map, or other paper of the United States to the lock and dam referred to in paragraph (1) shall be deemed to be a reference to the "Lindy Boggs Lock and Dam".

(d) JOSEPH RALPH SASSER BOAT RAMP.—

(1) DESIGNATION.—The boat ramp constructed on the left bank of the Mississippi River at River Mile 752.5 at Shelby Forest in Shelby County, Tennessee, shall be known and designated as the "Joseph Ralph Sasser Boat Ramp".

(2) LEGAL REFERENCE.—A reference to any law, map, regulation, document, record, or other paper of the United States to such boat ramp shall be deemed to be a reference to the "Joseph Ralph Sasser Boat Ramp".

SEC. 1084. SIGNING OF UNITED STATES HIGHWAY 71.

The Arkansas State Highway and Transportation Department shall erect the signs along United States Highway 71 from the I–40 intersection to the Missouri-Arkansas State line which are required to be erected by the Arkansas State law designated as Act 6 of 1989.

SEC. 1085. CONTINUATION OF AUTHORIZATION FOR RHODE ISLAND NAVIGATION PROJECT.

(a) CONTINUATION OF AUTHORIZATION.—Notwithstanding section 1001(a) of the Water Re-

sources Development Act of 1986, the project for navigation, Providence, Rhode Island, authorized by section 1166(c) of the Water Resources Development Act of 1986, shall remain authorized to be carried out by the Secretary.

(b) TERMINATION DATE.—The project described in subsection (a) shall not be authorized for construction after the last day of the 5-year period that begins on the date of the enactment of this Act unless, during this period, funds have been obligated for construction, including planning and design, of the project.

SEC. 1086. PENSACOLA, FLORIDA.

(a) STUDY.—The Secretary shall conduct a study of the feasibility of constructing, in accordance with standards applicable to Interstate System highways, a 4-lane highway connecting Interstate Route 65 and Interstate Route 10 in the vicinity of Pensacola, Florida.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with recommendations for the location of a corridor in which to construct the highway described in subsection (a).

SEC. 1087. INCLUSION OF CALHOUN COUNTY, MISSISSIPPI, IN APPALACHIA.

Section 403 of the Appalachian Regional Development Act of 1965 (40 U.S.C. App. 403) is amended in the fifth undesignated paragraph of such section by inserting "Calhoun," after "Benton,".

SEC. 1088. HANDICAPPED PARKING SYSTEM.

(a) STUDY.—The Secretary shall conduct a study of the progress being made by the States in adopting and implementing the uniform system for handicapped parking established in regulations issued by the Secretary pursuant to Public Law 100-641 (102 Stat. 3335).

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit a report to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives on the results of the study conducted under this section.

SEC. 1089. FEASIBILITY OF INTERNATIONAL BORDER HIGHWAY INFRASTRUCTURE DISCRETIONARY PROGRAM.

(a) STUDY.—The Secretary shall conduct a study of the advisability and feasibility of establishing an international border highway infrastructure discretionary program. The purpose of such a program would be to enable States and Federal agencies to construct, replace, and rehabilitate highway infrastructure facilities at international borders when such States, agencies, and the Secretary find that an international bridge or a reasonable segment of a major highway providing access to such a bridge (1) is important; (2) is unsafe because of structural deficiencies, physical deterioration, or functional obsolescence; (3) poses a safety hazard to highway users; (4) by its construction, replacement, or rehabilitation, would minimize disruptions, delays, and costs to users; or (5) by its construction, replacement, or rehabilitation, would provide more efficient routes for international trade and commerce.

(b) REPORT.—Not later than September 30, 1993, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with any recommendations to the Secretary.

SEC. 1090. METHODS TO REDUCE TRAFFIC CONGESTION DURING CONSTRUCTION.

(a) SENSE OF CONGRESS.—It is the sense of Congress that many highway projects are carried out in a way which unnecessarily disrupts traffic flow during construction and that methods need to be adopted to eliminate or reduce these disruptions.

(b) STUDY.—The Secretary shall conduct a study on methods of enhancing traffic flow and minimizing traffic congestion during construction of Federal-aid highway projects and on costs associated with implementing such methods.

(c) CONSIDERATIONS.—In conducting the study under this section, the Secretary shall consider—

(1) the feasibility of carrying out construction of Federal-aid highway projects during off-peak periods and limiting closure of highway lanes on Federal-aid highways to portions of highways for which actual construction is in progress and for which safety concerns require closure; and

(2) the need for establishment and operation by each State of a toll-free telephone number to receive complaints and provide information regarding the status of construction on Federal-aid highways in the State.

(d) REPORT.—Not later than September 30, 1992, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with such recommendations as the Secretary considers appropriate.

SEC. 1091. STUDY OF VALUE ENGINEERING.

(a) STUDY.—The Secretary shall study the effectiveness and benefits of value engineering review programs applied to Federal-aid highway projects. Such study shall include an analysis of and the results of specialized techniques utilized in all facets of highway construction for the purpose of reduction of costs and improvement of the overall quality of Federal-aid highway projects.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall report to Congress on the results of the study under subsection (a), including recommendations on how value engineering could be utilized and improved in Federal-aid highway projects.

SEC. 1092. PILOT PROGRAM FOR UNIFORM AUDIT PROCEDURES.

(a) ESTABLISHMENT.—The Secretary shall establish a pilot program under which any contract or subcontract awarded in accordance with section 112(b)(2)(A) of title 23, United States Code, shall be performed and audited in compliance with cost principles contained in the Federal acquisition regulations of part 31 of title 48 of the Code of Federal regulations. The pilot program under this section shall include participation of not more than 10 States.

(b) INDIRECT COST RATES.—In lieu of performing their own audits, the States participating in the pilot program shall accept indirect cost rates established in accordance with the Federal acquisition regulations for 1-year applicable accounting periods by a cognizant government agency or audited by an independent certified public accountant, if such rates are not currently under dispute. Once a firm's indirect cost rates are accepted, all the recipients of such funds shall apply such rates for the purposes of contract estimation, negotiation, administration, reporting, and contract payment and shall not be limited by administrative or defacto ceilings in accordance with section 15.901(c) of such title 48. A recipient of such funds requesting or using the cost and rate data described in this subsection shall notify any affected firm before such request or use. Such data shall be confidential and shall not be accessible or provided, in whole or in part, to any other firm or to any government agency which is not part of the group of agencies sharing cost data under this subsection, except by written permission of the audited firm. If prohibited by law, such cost and rate data shall not be disclosed under any circumstances.

(c) REPORT.—Each State participating in the pilot program shall report to the Secretary not later than 3 years after the date of enactment of this Act on the results of the program.

SEC. 1093. RENTAL RATES.

Within 1 year after the date of the enactment of this Act, the Comptroller General shall complete a study on equipment rental rates for use in reimbursing contractors for extra work on Federal-aid projects. Such study shall include an analysis of the reasonableness of currently accepted equipment rental costs, adequacy of adjustments for regional or climactic differences, adequacy of consideration of mobilization costs, loss of time and productivity attendant to short-term usage of equipment, and approvals of rental rate costs by the Federal Highway Administration.

SEC. 1094. STUDY ON STATE COMPLIANCE WITH REQUIREMENTS FOR REVOCATION AND SUSPENSION OF DRIVERS' LICENSES.

(a) STUDY.—The Secretary shall conduct a study of State efforts to comply with the provisions of section 333 of the Department of Transportation and Related Agencies Appropriation Acts, 1991, 1992, relating to revocation and suspension of drivers' licenses.

(b) REPORT.—Not later than December 31, 1992, the Secretary shall transmit to Congress a report on the results of the study conducted under this section.

SEC. 1095. BROOKLYN COURTHOUSE.

The Administrator of the General Services Administration is authorized to enter into a lease with the United States Postal Service for space to house the Federal Courts and related Federal agencies in Brooklyn, New York. The Administrator is further authorized—

(1) to advance the amount provided in the fiscal year 1992 Treasury, Postal Service, and General Government Appropriation Act to the Postal Service to expedite the start of construction; and

(2) to transfer the present Emanuel Celler Federal Building and Courthouse in Brooklyn to the Postal Service.

SEC. 1096. BORDER STATION INTERNATIONAL FALLS, MINNESOTA.

The Administrator of the General Services Administration is authorized to provide for the construction of a 9,000 occupiable square foot border station at International Falls, Minnesota, at a total estimated cost of $2,480,000, in accordance with an amended prospectus submitted by the General Services Administration to the Senate Committee on Environment and Public Works on June 19, 1991.

SEC. 1097. MILLER HIGHWAY.

The Secretary shall deem the independent proposals to construct a new highway facility in the Route 9A corridor between the Battery and 59th Street, and to relocate the existing Miller Highway facility, between 59th Street and 72nd Street, on the west side of Manhattan, New York, New York, to be separate and distinct projects for the purposes of compliance with any applicable Federal laws.

SEC. 1098. ALLOCATION FORMULA STUDY.

(a) The General Accounting Office in conjunction with the Bureau of Transportation Statistics created pursuant to title VI of this Act, shall conduct a thorough study and recommend to the Congress within 2 years after the date of the enactment of this Act a fair and equitable apportionment formula for the allocation of Federal-aid highway funds that best directs highway funds to the places of greatest need for highway maintenance and enhancement based on the extent of these highway systems, their present use, and increases in their use.

(b) The results of this study shall be presented to the Senate Committee on Environment and Public Works and the House Committee on Public Works and Transportation on or before January 1, 1994, and shall be considered by these committees as they reauthorize the surface transportation program in 1996.

SEC. 1099. ESTABLISHMENT OF INTERSTATE STUDY COMMISSION.

For the National Capital Region, comprised of the Washington, D.C., Metropolitan Statistical Area, a commission is established to recommend new mechanisms, authority, and/or agreements to fund, develop, and manage the transportation system of the National Capital Region, and primarily focusing on interstate highway and bridge systems. The commission shall develop its recommendations consistent with the transportation planning requirements for metropolitan areas as contained elsewhere in this bill. The study commission shall report to the Congress, the Department of Transportation, the Governors of Maryland and Virginia, the Mayor of the District of Columbia, and the National Capital Region Transportation Planning Board, the designated Metropolitan Planning Organization (MPO) for the Washington metropolitan area, no later than 12 months from the date of passage of this legislation. Representatives on the commission shall include a Member of Congress from each of Maryland, Virginia, and the District of Columbia; the Governors of Maryland and Virginia and the Mayor of the District of Columbia; 1 local elected official from each State and the District of Columbia appointed by the National Capital Region Transportation Planning Board; 3 private sector representatives appointed by the Governors and the Mayor; and the commission chairman to be appointed by the Secretary of Transportation. There is authorized to be appropriated for the purposes of carrying out this section such sums as may be necessary for the commission to carry out its functions.

SEC. 1100. EFFECTIVE DATE; APPLICABILITY; CERTAIN UNOBLIGATED BALANCES.

(a) GENERAL RULE.—This title, including the amendments made by this title, shall take effect on the date of the enactment of this Act.

(b) APPLICABILITY.—The amendments made by this title shall apply to funds authorized to be appropriated or made available after September 30, 1991, and, except as otherwise provided in subsection (c), shall not apply to funds appropriated or made available on or before September 30, 1991.

(c) UNOBLIGATED BALANCES.—

(1) IN GENERAL.—Unobligated balances of funds apportioned to a State under sections 104(b)(1), 104(b)(2), 104(b)(5)(B), and 104(b)(6) of title 23, United States Code, before October 1, 1991, shall be available for obligation in that State under the law, regulations, policies and procedures relating to the obligation and expenditure of those funds in effect on September 30, 1991.

(2) TRANSFERABILITY.—

(A) PRIMARY SYSTEM.—A State may transfer unobligated balances of funds apportioned to the State for the Federal-aid primary system before October 1, 1991, to the apportionment to such State under section 104(b)(1) or 104(b)(3) of title 23, United States Code, or both.

(B) SECONDARY AND URBAN SYSTEM.—A State may transfer unobligated balances of funds apportioned to the State for the Federal-aid secondary system or the Federal-aid urban system before October 1, 1991, to the apportionment to such State under section 104(b)(3) of such title.

(C) APPLICABILITY OF CERTAIN LAWS, REGULATIONS, POLICIES, AND PROCEDURES.—Funds transferred under this paragraph shall be subject to the laws, regulations, policies, and procedures relating to the apportionment to which they are transferred.

SEC. 1101–1102. STUDY ON IMPACT OF CLIMATIC CONDITIONS.

(a) STUDY.—The Secretary shall conduct a study of the effects of climatic conditions on the costs of highway construction and maintenance. The study shall take into account such climatic conditions as freezing, thawing, and precipitation and the impact of climatic conditions on increased highway design costs and decreased highway service life in the various regions of the United States.

(b) REPORT.—Not later than September 30, 1993, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with such recommendations as the Secretary considers appropriate. The report shall include a description of the implications of the differing costs on the allocation of highway funds to the States.

SEC. 1103. HIGH COST BRIDGE PROJECTS.

(a) PURPOSE.—The purpose of this section is to provide funds to accelerate construction of high cost bridge projects.

(b) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out the high cost of bridge projects described in this subsection. Subject to subsection (c), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	High cost bridges	Amount in millions
1.	Delaware, Oklahoma	Construction of a replacement bridge on U.S. Rt. 59 over Grand Lake in Delaware, Oklahoma	9.7
2.	Eugene, Oregon	Construction of the Ferry Street Bridge	23.7
3.	Beaver County, Pennsylvania	Construction of Aliquippa Ambridge Bridge of Beaver County, Pennsylvania	25.0
4.	Arkansas	For an expanded study of environmental impact and geo technical information for Arkansas-Mississippi Great River Bridge	0.8
5.	Gloucester Point, Virginia	Provide for additional crossing capacity of the York River	11.8
6.	San Francisco, California	For preliminary work associated with the seismic upgrading of the Golden Gate Bridge in San Francisco, California	5.9
7.	Cape May & Atlantic Counties, New Jersey	Replace critically important bridge between Ocean City and Longport, New Jersey	18.4
8.	Ohio	Conduct environmental and feasibility studies for the construction of a bridge or tunnel across the Maumee River in the vicinity of an existing left span bridge	1.0
9.	Maine	Donald B. Carter Memorial Bridge	32.1
10.	Shakopee, Minnesota	Bloomington Ferry Bridge replacement, Shakopee, Minnesota	22.0
11.	Charleston, South Carolina	Highway 17 Bridge replacement projects: Cooper River, Charleston, South Carolina	14.2
12.	Ft. Lauderdale, Florida	17th Street Causeway Tunnel/Bridge replacement, Ft. Lauderdale, Florida	13.6
13.	Maryland	Woodrow Wilson Bridge rehabilitation	29.6
14.	New York	Macomb Dam Bridge, Manhattan Bridge Rehabilitation Project, Queensboro Bridge—Rehabilitation of Main Span, Williamsburg Bridge Rehabilitation Project, Brooklyn Bridge Rehabilitation	74.0
15.	Miami, Florida	Complete construction of Dodge Island Bridge	3.4

(c) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (b) for each project authorized by subsection (b) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(d) FEDERAL SHARE.—The Federal share payable on account of any project under this section shall be 80 percent of the cost thereof.

(e) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this section to the State in which such project or projects are located upon request of such State.

(f) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this section—

(1) has obligated all funds allocated under this section for construction of such project; and

(2) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this section.

(g) APPLICABILITY OF TITLE 23.—Funds authorized by this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be determined in accordance with this section and such funds shall remain available until expended. Funds authorized by this section shall not be subject to any obligation limitation.

SEC. 1104. CONGESTION RELIEF PROJECTS.

(a) PURPOSE.—The purpose of this section is to improve methods of congestion relief.

(b) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out the congestion relief projects described in this subsection. Subject to subsection (c), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal *years 1992 through 1997 to carry out each such project the amount listed for each such project:*

	City/State	Congestion relief	Amount in millions
1.	Long Beach, California	Construction of HOV Lanes on I–710	7.4
2.	Philadelphia, Pennsylvania	Project to Construct Bridge-Pratt Terminal as part of an I-95 reconstruction mitigation project	34.5
3.	Davidson-Williamson County, Tennessee	Study and construction of the Davidson-Williamson Bike Path	1.0
4.	East St. Louis, Illinois to St. Louis, Missouri	To conduct a study to determine the feasibility of a bridge between East St. Louis, Illinois and St. Louis, Missouri	1.4
5.	St. Louis, Missouri	Relocation of Lindbergh Boulevard and Interstate 70 at St. Louis Lambert Airport	14.8
6.	District of Columbia	Primary Intermodal System, Washington, D.C.	6.8
7.	Buffalo, New York	Construction of Peace Bridge truck inspection facility	19.5
8.	Nashua, New Hampshire	Nashua River Bridge, Nashua, New Hampshire—Construction of second bridge	1.2
9.	Las Vegas, Nevada	Reconstruct and upgrade I–15/U.S. 95 (Spaghetti Bowl)	45.0
10.	San Diego, California	Construct 1 block of Cut and Cover Tunnel on Rt. 15 in downtown San Diego, California	5.0
11.	Los Angeles, California	To extend I–110 North from its current terminus at I–10 into downtown Los Angeles via Central City West Area in Los Angeles, California	10.1
12.	North Dakota	Design and construct 7.5 mile bypass around Lincoln State Park	1.1
13.	Babylon, New York	Construct turning lanes, sign upgrades, traffic signal interconnections and road repair and resurfacing	2.1
14.	Dixon, California	To improve 3 grade crossings in Dixon, California	1.8
15.	Fairfield, California	To construct 2 park & ride facilities, an information center and transfer hub for I–80 express and local bus service	7.7
16.	St. Louis, Missouri	Feasibility study for interchange improvements for I–255 at Rt. 231, St. Louis, Missouri	0.1
17.	Murfreesbro, Tennessee	Conduct a feasibility study of constructing a bicycle system as an alternative form of commuter transportation, air pollution reduction, and enhance recreation	0.4
18.	Long Island, New York	To make improvements on the Van Wyck Expressway to improve traffic flow, Long Island, New York	3.6
19.	Fox River Valley, Illinois	Study, plan and construct up to 8 bridges across the Fox River	8.3
20.	Prince George's County, Maryland	To rehabilitate the Baltimore-Washington Parkway in Prince George's County, Maryland	16.3
21.	Toledo, Ohio	Conduct study of possible safety and traffic delay improvement benefits in 6 corridors	0.24
22.	Boston, Massachusetts	To plan and construct a bicycle and pedestrian path connecting Arlington, Cambridge and Boston, Massachusetts	1.2
23.	Tucson, Arizona	To make interchange improvements at Oracle and Orange Grove Roads in Tucson, Arizona	3.9
24.	Victorville, California	Construct interchange 1 mile north of Palmdale Road on I–15	2.7
25.	Palm Beach, Florida	Acquire right-of-way and construct and widen to 4 lanes 19 mile segment of U.S. 27	5.5
26.	Pennsylvania	Improve River Street, Towanda Borough and North Towanda Township to form highway bypass	8.8
27.	Maine	Topsham-Brunswick Bypass	10.5
28.	Rankin County, Mississippi	East-Metro Center Access Road	4.6
29.	Kansas	West Leavenworth Trafficway Project, Leavenworth, Kansas	8.6
30.	Broward County, Florida	Hallandale Bridge Project, Broward County, Florida	8.5
31.	Idaho	Any of the Federal-aid projects eligible for funding under title 23, United States Code, located in Bannock or Caribou County, shall be eligible for funding	10.1
32.	Michigan	I–75/M57 Interchange improvement in the vicinity of Vienna Township, Michigan	8.9
33.	Prince William County, Virginia	I–95 HOV lane extension	13.5
34.	St. Thomas, Virgin Islands	Construction of Raphune Hill Bypass, St. Thomas, Virgin Islands	18.4
35.	Merrillville, Indiana	Construction of four lane road and overpass	1.8
36.	Milwaukee and Waukesha Counties, Wisconsin	I–794 Bicycle Transportation Project in Milwaukee and Waukesha Counties, Wisconsin	1.5
37.	Richmond, California	I–80 Richmond Parkway Interchange	1.8
38.	New York, New York	Construction of Williamsburg to Holland Tunnel Bypass	3.6
39.	Louisville, Kentucky	Waterfront Development Roadway Improvements	4.7
40.	Sunnyvale, California	HOV lane improvements on Lawrence Expressway	10.1

	City/State	*Congestion relief*	*Amount in millions*
41.	*Ohio*	*Construction of a bicycle/pedestrian facility from Greene County, Ohio, to Dayton, Ohio*	*3.0*
42.	*Jefferson County and Berkeley County, West Virginia*	*Improvements of State Highway 9 from Martinsburg, West Virginia to Virginia State line*	*110.0*
43.	*West Virginia*	*Construction of the Coal Fields Expressway from Beckley, West Virginia to Virginia State line*	*50.0*
44.	*Maine*	*Improvements to the Carlton Bridge in Bath-Woolwich*	*10.0*

(c) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (b) for each project authorized by subsection (b) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(d) FEDERAL SHARE.—The Federal share payable on account of any project under this section shall be 80 percent of the cost thereof.

(e) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this section to the State in which such project or projects are located upon request of such State.

(f) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this section—

(1) has obligated all funds allocated under this section for construction of such project; and

(2) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this section.

(g) APPLICABILITY OF TITLE 23.—Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by this section shall not be subject to any obligation limitation.

SEC. 1105. HIGH PRIORITY CORRIDORS ON NATIONAL HIGHWAY SYSTEM.

(a) FINDINGS.—The Congress finds that—

(1) the construction of the Interstate Highway System connected the major population centers of the Nation and greatly enhanced economic growth in the United States;

(2) many regions of the Nation are not now adequately served by the Interstate System or comparable highways and require further highway development in order to serve the travel and economic development needs of the region; and

(3) the development of transportation corridors is the most efficient and effective way of integrating regions and improving efficiency and safety of commerce and travel and further promoting economic development.

(b) PURPOSE.—It is the purpose of this section to identify highway corridors of national significance; to include those corridors on the National Highway System; to allow the Secretary, in cooperation with the States, to prepare long-range plans and feasibility studies for these corridors; to allow the States to give priority to funding the construction of these corridors; and to provide increased funding for segments of these corridors that have been identified for construction.

(c) IDENTIFICATION OF HIGH PRIORITY CORRIDORS ON NATIONAL HIGHWAY SYSTEM.—The following are high priority corridors on the National Highway System:

(1) North-South Corridor from Kansas City, Missouri, to Shreveport, Louisiana.

(2) Avenue of the Saints Corridor from St. Louis, Missouri, to St. Paul, Minnesota.

(3) East-West Transamerica Corridor.

(4) Hoosier Heartland Industrial Corridor from Lafayette, Indiana, to Toledo, Ohio.

(5) I-73/74 North-South Corridor from Charleston, South Carolina, through Winston-Salem, North Carolina, to Portsmouth, Ohio, to Cincinnati, Ohio, and Detroit, Michigan.

(6) United States Route 80 Corridor from Meridian, Mississippi, to Savannah, Georgia.

(7) East-West Corridor from Memphis, Tennessee, through Huntsville, Alabama, to Atlanta, Georgia, and Chattanooga, Tennessee.

(8) Highway 412 East-West Corridor from Tulsa, Oklahoma, through Arkansas along United States Route 62/63/65 to Nashville, Tennessee.

(9) United States Route 220 and the Appalachian Thruway Corridor from Business 220 in Bedford, Pennsylvania, to the vicinity of Corning, New York.

(10) Appalachian Regional Corridor X.

(11) Appalachian Regional Corridor V.

(12) United States Route 25E Corridor from Corbin, Kentucky, to Morristown, Tennessee, via Cumberland Gap, to include that portion of Route 58 in Virginia which lies within the Cumberland Gap Historical Park.

(13) Raleigh-Norfolk Corridor, Raleigh, North Carolina, to Norfolk, Virginia.

(14) Heartland Expressway from Denver, Colorado, through Scottsbluff, Nebraska, to Rapid City, South Dakota.

(15) Urban Highway Corridor along M-59 in Michigan.

(16) Economic Lifeline Corridor along I-15 and I-40 in California, Arizona, and Nevada.

(17) Route 29 Corridor from Greensboro, North Carolina, to the District of Columbia.

(18) Corridor from Indianapolis, Indiana, to Memphis, Tennessee, via Evansville, Indiana.

(19) United States Route 395 Corridor from the United States-Canadian border to Reno, Nevada.

(20) United States Route 59 Corridor from Laredo, Texas, through Houston, Texas, to the vicinity of Texarkana, Texas.

(21) United States Route 219 Corridor from Buffalo, New York, to the intersection of United States Route 17 in the vicinity of Salamanca, New York.

(d) INCLUSION ON NHS.—The Secretary shall include all corridors identified in subsection (c) on the proposed National Highway System submitted to Congress under section 103(b)(3) of title 23, United States Code.

(e) PROVISIONS APPLICABLE TO CORRIDORS.—

(1) LONG-RANGE PLAN.—The Secretary, in cooperation with the affected State or States, may prepare a long-range plan for the upgrading of each corridor to the appropriate standard for highways on the National Highway System. Each such plan may include a plan for developing the corridor and a plan for financing the development.

(2) FEASIBILITY STUDIES.—The Secretary, in cooperation with the affected State or States, may prepare feasibility and design studies, as necessary, for those corridors for which such studies have not been prepared. A feasibility study may be conducted under this subsection with respect to the corridor described in subsection (c)(2), relating to Avenue of the Saints, to determine the feasibility of an adjunct to the Avenue of the Saints serving the southern St. Louis metropolitan area and connecting with I-55 in the vicinity of Route A in Jefferson County, Missouri.

(3) CERTIFICATION ACCEPTANCE.—The Secretary may discharge any of his responsibilities under title 23, United States Code, relative to projects on a corridor identified under subsection (c), upon the request of a State, by accepting a certification by the State in accordance with section 117 of such title.

(4) ACCELERATION OF PROJECTS.—To the maximum extent feasible, the Secretary may use procedures for acceleration of projects in carrying out projects on corridors identified in subsection (c).

(f) HIGH PRIORITY SEGMENTS.—Highway segments of the corridors referred to in subsection (c) which are described in this subsection are high priority segments eligible for assistance under this section. Subject to subsection (g)(2), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out a project on each such segment the amount listed for each such segment:

	City/State	*High priority corridors*	*Amount in millions*
1.	*Pennsylvania*	*For upgrading U.S. 220 High Priority and the Appalachian Thruway Corridor between State College and I-80*	*50.7*
2.	*Alabama, Georgia, Mississippi, Tennessee*	*Upgrading of the East-West Corridor along Rt. 72*	*25.4*
3.	*Missouri*	*Improvement of North-South Corridor along Highway 71, Southwestern, MO*	*3.6*
4.	*Arkansas*	*For construction of highway 412 from Siloam Springs to Springdale, Arkansas as part of Highway 412 East-West Corridor*	*34.0*
5.	*Arkansas*	*For construction of Highway 412 from Harrison to Springdale, Arkansas as part of the Highway 412 East-West Corridor*	*56.0*
6.	*Pennsylvania*	*To improve U.S. 220 to a 4-lane limited access highway from Bald Eagle northward to the intersection of U.S. 220 and U.S. 322*	*148.0*

	City/State	High priority corridors	Amount in millions
7.	S. Dakota/Nebraska	*Conduct a feasibility study of expressway from Rapid City, S. Dakota to Scotts Bluff, Nebraska*	0.64
8.	Alabama	*Construction of Appalachian Highway Corridor X from Corridor V near Fulton, Mississippi to U.S. 31 at Birmingham, Alabama as part of Appalachian Highway X Corridor Project*	59.2
9.	Alabama	*For construction of a portion of Appalachian Development Corridor V from Mississippi State Line near Red Bay, Alabama to the Tennessee State Line north of Bridgeport, Alabama*	25.4
10.	West Virginia	*Construction of Shawnee Project from 3-Corner Junction to I–77 as part of I–73/74 Corridor project*	4.5
11.	West Virginia	*Widening U.S. Rt. 52 from Huntington to Williamson, W. Virginia as part of the I–73/74 Corridor project*	100.0
12.	West Virginia	*Replacement of U.S. Rt. 52 from Williamson, W. Virginia to I–77 as part of the I–73/74 Corridor project*	14.0
13.	North Carolina/Virginia	*For Upgrading I–64 and Route 17 Virginia and constructing a new highway from Rocky Mount to Elizabeth City, North Carolina as part of the Raleigh-Norfolk High Priority Corridor Improvements*	17.8
14.	Arkansas	*Construction of Highway 71 between Fayetteville and Alma, Arkansas as part of the North-South High Priority Corridor*	100.0
15.	Arkansas/Texas	*For construction of Highway 71 from Alma, Arkansas to Louisiana border*	70.0
16.	Michigan	*To widen a 60 mile portion of highway M–59 from MacComb County to I–96 in Howell County, Michigan*	29.6
17.	South Dakota, Colorado, Nebraska	*To improve the Heartland Expressway from Rapid City, South Dakota to Scotts Bluff, Nebraska*	29.6
18.	Indiana	*To construct a 4-Lane highway from Lafayette to Ft. Wayne, Indiana, following existing Indiana 25 and U.S. 24*	9.5
19.	Ohio/Indiana	*Conduct feasibility and economic study to widen Rt. 24 from Ft. Wayne, Indiana to Toledo, Ohio as part of the Lafayette to Toledo Corridor*	0.32
20.	California, Nevada, Arizona	*For improvements on I–15 and I–40 in California, Nevada and Arizona ($10,500,000 of which shall be expended on the Nevada portion of the corridor, including the I–15/U.S. 95 interchange)*	59.2
21.	Louisiana	*To improve the North-South Corridor from Louisiana border to Shreveport, Louisiana*	29.6
22.	Missouri, Iowa, Minnesota	*For improvements for Avenue of the Saints from St. Paul, Minnesota to St. Louis, Missouri*	118.0
24.	Various States	*I–66 Transamerica Highway Feasibility study*	1.0
25.	Kentucky, Tennessee, Virginia	*To improve Cumberland Gap Tunnel and for various associated improvements as part of U.S. 25E Corridor, except that the allocation percentages under section 1105(g)(2) of this section shall not apply to this project after fiscal year 1992*	72.4
26.	Indiana, Kentucky, Tennessee	*To improve the Bloomington, Indiana, to Newberry, Indiana, segment of the Indianapolis, Indiana, to Memphis, Tennessee, high priority corridor*	23.7
27.	Washington	*For improvements on the Washington State portion of the U.S. 395 corridor from the U.S.-Canadian border to Reno, Nevada*	54.5
28.	Virginia	*Construction of a bypass of Danville, Virginia, on Route 29 Corridor*	17.0
29.	Arkansas	*Highway 412 from Harrison to Mt. Home*	20.0
30.	New York	*Improvements on Route 219 between Springville to Ellicottville in New York State*	9.5

(g) PROVISIONS RELATING TO HIGH PRIORITY SEGMENTS.—

(1) DETAILED PLANS.—Each State in which a priority segment identified under subsection (f) is located may prepare a detailed plan for completion of construction of such segment and for financing such construction.

(2) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (f) for each high priority segment authorized by subsection (f) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(3) FEDERAL SHARE.—The Federal share payable on account of any project under subsection (f) shall be 80 percent of the cost thereof.

(4) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary may delegate responsibility for construction of a project or projects under subsection (f) to the State in which such project or projects are located upon request of such State.

(5) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this subsection—

(A) has obligated all funds allocated under this subsection for construction of such project; and

(B) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this subsection.

(6) APPLICABILITY OF TITLE 23.—Funds authorized by subsection (f) and subsection (h) shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under subsection (f) shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by subsection (f) shall not be subject to any obligation limitation.

(7) STATE PRIORITY FOR HIGH PRIORITY SEGMENTS.—Section 105 of title 23, United States Code, as amended by this Act, is further amended by adding at the end the following new subsection:

"(k) PRIORITY FOR HIGH PRIORITY SEGMENTS OF CORRIDORS OF NATIONAL SIGNIFICANCE.—In selecting projects for inclusion in a program of

projects under this section, the State may give priority to high priority segments of corridors identified under section 1105(f) of the Intermodal Surface Transportation Efficiency Act of 1991. In approving programs of projects under this section, the Secretary may give priority of approval to, and expedite construction of, projects to complete construction of such segments.".

(8) SPECIAL RULE.—Amounts allocated by subsection (f) to the State of California for improvements on I–15 and I–40 shall not be subject to any State or local law relating to apportionment of funds available for the construction or improvement of highways.

(h) AUTHORIZATION FOR FEASIBILITY STUDIES.—There is authorized to be appropriated to the Secretary out of the Highway Trust Fund (other than the Mass Transit Account) $8,000,000 per fiscal year for each of the fiscal years 1992 through 1997 to carry out feasibility and design studies under subsection (e)(2).

(i) REVOLVING LOAN FUND.—

(1) ESTABLISHMENT.—The Secretary may establish a Priority Corridor Revolving Loan Fund.

(2) ADVANCES.—The Secretary shall make available as repayable advances amounts from the Revolving Loan Fund to States for planning and construction of corridors listed in subsection (c). In making such amounts available, the Secretary shall give priority to segments identified in subsection (f).

(3) REPAYMENT OF ADVANCES.—The amount of an advance to a State in a fiscal year under paragraph (2) may not exceed the amount of a State's estimated apportionments for the National Highway System for the 2 succeeding fiscal years. Advances shall be repaid (A) by reducing the State's National Highway System apportionment in each of the succeeding 3 fiscal years by ⅓ of the amount of the advance, or (B) by direct repayment. Repayments shall be credited to the Priority Corridor Revolving Loan Fund.

(4) AUTHORIZATION.—There is authorized to be appropriated to the Secretary, out of the Highway Trust Fund (other than the Mass Transit Account), $40,000,000 per fiscal year for each of fiscal years 1993 through 1997 to carry out this subsection.

SEC. 1106. RURAL AND URBAN ACCESS PROJECTS.

(a) RURAL ACCESS PROJECTS.—

(1) PURPOSE.—The purpose of this subsection is to provide funds for projects that ensure better rural access and that promote economic development in rural areas.

(2) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out rural access projects described in this paragraph. Subject to paragraph (3), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Rural access	Amount in millions
1.	Cadiz, Ohio	Improvements of Short Creek Highway from Cadiz, Ohio to Rayland, Ohio	2.5
2.	Boger City, North Carolina	Construction of 4-lane divided highway along Highway 321 to Boger City, NC to NC 127 South	14.2
3.	Utica, New York	Improvement of the Utica North/South Arterial	9.9
4.	Oneida County, New York	Upgrade a highway to 4 lanes in Oneida County, New York	8.0
5.	Southern, Oklahoma	Widening of U.S. 70	0.24
6.	Southern, Oklahoma	Construction of a bridge and approaches at Pennington Creek, OK	1.0
7.	Johnsonburg, Pennsylvania	Relocation of a 2-lane highway from Center Street to PA Rt. 255 along U.S. 219, Johnsonburg Bypass	14.0
8.	Pennsylvania	Construction of truck driving lanes and safety improvements on U.S. 219 between I–80 and the NY State Line	26.0
9.	East St. Louis, Illinois	Feasibility study for 4-lane Access Road to Jefferson Memorial Park	0.24
10.	Illinois	To conduct an Environmental Impact Study & Design Study on a 58-mile stretch of U.S. 67 corridor from Alton, IL to Jacksonville, IL	2.5
11.	Venice, Illinois	For rehabilitation of McKinley Bridge near Venice, IL	5.9
12.	Decatur, Alabama	Project for replacement of Keller Memorial Bridge, Decatur, AL	12.7

117.	Robinson Township, Pennsylvania	Design Work in Town Center	5.0
118.	West Virginia	Chelyan Bridge Replacement	8.5

(3) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by paragraph (2) for each project authorized by paragraph (2) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(4) FEDERAL SHARE.—The Federal share payable on account of any project under this subsection shall be 80 percent of the cost thereof.

(5) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this subsection to the State in which such project or projects are located upon request of such State.

(6) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this subsection—

(A) has obligated all funds allocated under this subsection for construction of such project; and

(B) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this subsection.

(7) APPLICABILITY OF TITLE 23.—Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this subsection shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by this subsection shall not be subject to any obligation limitation.

(b) URBAN ACCESS AND URBAN MOBILITY PROJECTS.—

(1) PURPOSE.—The purpose of this subsection is to provide funds for projects that enhance urban access and urban mobility.

(2) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out urban access and urban mobility projects described in this paragraph. Subject to paragraph (3), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Urban access & mobility	Amount in millions
1.	Santa Ana, California	Bristol Street Project	4.1
2.	Illinois/Missouri	Metro East/St. Louis, Missouri Bridge Feasibility Study	1.0
3.	Beaver/Butler Counties, Pennsylvania	Construction of Crow's Run Expressway from I–79 to PA Rt. 60, Beaver/Butler Counties, PA	3.5
4.	Atlanta, Georgia	Improvement of Martin Luther King Drive	0.8
5.	Chicago, Illinois	Handicapped Accessibility Projects on various Chicago Streets	2.4

	City/State	Urban access & mobility	Amount in millions
6.	Chicago, Illinois	Feasibility study for a road between existing Lake Shore Drive and Indiana Road	0.16
7.	San Jose, California	Improvement of Interchange at Highway 85/ Highway 17	35.0
8.	Gilroy, California	For safety improvements on Highway 152 in vicinity of Gilroy, CA	5.9
9.	New York, New York	Improvements on Miller Highway in New York City, NY	15.6
10.	District of Columbia	Construction of missing segments of Eastern and Southern Avenues (Boundary Street Safety Initiative)	6.8
11.	Buffalo, New York	Scajaquada Expressway Classification study	0.24
12.	Buffalo, New York	NY State Thruway relocation study, Buffalo (Niagara), NY	0.24
13.	Joliet, Illinois	For rehabilitation of Houbolt Road from Jefferson Street to Joliet Jr. College and construction and interchange at Houbolt Road and I–80	1.0
14.	Chicago, Illinois	WPA street improvements bounded on the north by 103rd, the east by Stoney Island, the west by Ashland, and the south by the city limits	3.7
15.	Burnham, Illinois	To improve Dolton Avenue between Torrence Avenue and Indiana State Line, Burnham, IL	1.9
16.	Calumet Park, Illinois	Ashland Avenue Bridge replacement	2.1
17.	Harvey, Illinois	Illinois 1 Interchange improvement from U.S. 6 to I–80	2.5
18.	Markham, Illinois	Sibley Boulevard traffic flow improvement from Dixie Highway	3.5
19.	Chicago, Illinois	Illinois 1 intersection improvement, Harvey, IL (intersection at 155th Street)	1.4
20.	Youngstown, Ohio	Center Street Bridge replacement, Youngstown, OH, including Poland Avenue—Shirley Road connector and ramps at I-680	12.2
21.	Lake Porter and LaPort Counties, Indiana and Illinois	Study linkage roads to connect Lake Shore Drive and surrounding facilities	1.0
22.	Indiana	Acquisition of West Lake Corridor Right-of-Way between Munster, IN and Hammond , IN	1.0
23.	Portage, Indiana	Widen Willow Creek Road to 4 lanes	1.5
24.	Hobart, Lake Station and New Chicago, Indiana	Various improvements to Ridge Road to relieve congestion	4.3
25.	Passaic County, New Jersey	To complete construction of Rt. 21 in Passaic County, New Jersey	98.8
26.	Northeastern, New Jersey	To raise 14 bridges over Molly Ann's Brook Northeastern, New Jersey	9.5
27.	Chambersburg, Pennsylvania	To improve the Wayne Avenue—I–81 Interchange and to widen Wayne Avenue to 5 lanes from Kriner Road to Coldbrook Avenue in the vicinity of Chambersburg, Pennsylvania	1.84
28.	Newark, New Jersey	To construct ramps to provide access to I–78	7.2
29.	Newark, New Jersey	To construct a parking facility as part of a multi-modal transportation facility in the vicinity of United Hospitals Medical Center, Newark, New Jersey	4.9
30.	Lawrence, Massachusetts	Study, design, and construct new road service; road and ramps and widen I–495	4.7
31.	Baltimore, Maryland	To improve various roads as part of project "Project Vision" in Baltimore, Maryland	5.0
32.	Bellevue, Washington	Conduct Phase I design study for I–405 interchange at Northeast 8th Street	5.0
33.	Springfield, Illinois	To extend 11th Street from Stevenson Drive to Toronto Road in the vicinity of Springfield, Illinois	8.3
34.	Middlesex, New Jersey	Route 1 widening in Middlesex County, New Jersey from Raritan River to Rahway River	7.4
35.	Perth Amboy & Woodbridge Township, New Jersey	Study whether additional river crossings may be necessary based on condition of 3 existing crossings	2.5
36.	Compton, California	For a grade separation project at W. Alameda Street and the Mealy St. Corridor	6.6
37.	Parsippany, Troy Hills, New Jersey	Construct interchange and ramp improvements for east and west bound traffic on I–280	3.1
38.	Queens, New York	To rehabilitate 39th Street Bridge over rail tracks at the Sunnside Rail Yard in Queens, New York	10.4
39.	Omaha, Nebraska	For improvements to US Highway 6 (W. Dodge Road) from 86th Street to 118th including the intersection with I–680 in Omaha, Nebraska	5.2
40.	Suffolk County/ Long Island, New York	Construct various roadway improvements on 7.1 miles of New York Rt. 112, including, resurfacing, widening, adding turning and parking lanes and improving traffic signals	3.4
41.	San Diego, California	To conduct environmental study on feasibility of constructing 4-lane highway from State Rt. 805 to International border near Otay Mesa	1.0

	City/State	Urban access & mobility	Amount in millions
42.	Sarasota, Florida	To construct a bridge interchange at US 301 and University Parkway in the vicinity of Sarasota, Florida	2.4
43.	Hartford, Connecticut	To rehabilitate Connecticut Rt. 99 South of Hartford, Connecticut	5.0
44.	Hartford, Connecticut	For improved access to the Connecticut River as in I–91 Mitigation Project, Hartford, Connecticut	2.3
45.	Chattanooga, Tennessee	Construct an urban diamond interchange to improve capacity and a connector road	3.1
46.	Commerce, California	To relocate a portion of Atlantic Blvd. in the vicinity of Telegraph Rd. as part of a grade separation project	4.7
47.	Scranton, Pennsylvania	Realign 3,000 feet of N. Scranton Expressway to connect with Mulberry Street	7.2
48.	Long Island, New York	Southern State Parkway Improvement	4.6
49.	New York	Exit 26 Ridge Project Schenectady, New York	5.7
50.	Capital Beltway, Springfield, Virginia	Upgrade interchanges on I–495, including Virginia Mixing Bowl Improvements	7.5
51.	Utah	Expansion of State Rd. 5600 West	3.3
52.	Chicago, Illinois	Right-of-way preservation projects (Eisenhower & Stevenson Connector)	4.8
53.	Chicago, Illinois	Museum of Science & Industry: Various intermodal facilities, Chicago, Illinois	35.0

69.	Camden, New Jersey	Renovation of South Jersey Port Corporation's Beckett Street Terminal	8.3
70.	Washington, D.C.	Design and construction of noise barriers along Southeast/ Southwest Freeway and Anacostia Freeway in D.C.	4.7
71.	Anaheim, California	Construction of public HOV facilities to provide public access to I–5 in the vicinity of the Anaheim Regional Transportation Intermodal Complex	14.8
72.	Atlanta, Georgia	Construction of I–20 interchange at Lithonia Industrial Boulevard	11.2
73.	Buffalo, New York	The Southtowns Connector Buffalo, New York	8.5
74.	Tucson, Arizona	Veterans Memorial Interchange/ Palo Verde Overpass Bridge Replacement	2.4
75.	Providence, Rhode Island	Memorial Boulevard Pedestrian/ Traffic Improvements	5.0
76.	Renton, Washington	Houser Way Relocation Expansion	3.0

(3) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by paragraph (2) for each project authorized by paragraph (2) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(4) FEDERAL SHARE.—The Federal share payable on account of any project under this subsection shall be 80 percent of the cost thereof.

(5) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this subsection to the State in which such project or projects are located upon request of such State.

(6) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this subsection—

(A) has obligated all funds allocated under this subsection for construction of such project; and

(B) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this subsection.

(7) APPLICABILITY OF TITLE 23.—Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this subsection shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by this subsection shall not be subject to any obligation limitation.

SEC. 1107. INNOVATIVE PROJECTS.

(a) IN GENERAL.—The purpose of this section is to provide assistance for highway projects demonstrating innovative techniques of highway construction and finance. Each State in which 1 of the projects authorized by subsection (b) is located shall select and use, in carrying out such project, innovative techniques in highway construction or finance. Such techniques may include state-of-the-art technology for pavement, safety, or other aspects of highway construction; innovative financing techniques; or accelerated procedures for construction.

(b) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out the innovative projects described in this subsection. Subject to subsection (c), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Innovative projects	Amount in millions
1.	Cadiz, Ohio	Construction of 4-lane Limited Access Highway from Cadiz, OH to Interstate 70 Interchange at St. Clairsville, OH along U.S. Rt. 250	20.0
2.	Maryland	Construction of Durham Road Bridge #75 in Harford County, MD	0.5
3.	Maryland	Construction of a replacement bridge at Furnace Road Bridge #74, Harford County, MD	0.6
4.	Maryland	Construction of a replacement bridge at South Hampton Road Bridge #47, Harford County, MD	1.0
5.	Maryland	Construction of a replacement bridge at Wheel Road Bridge #9, Harford County, MD	1.0
6.	Maryland	Construction of a replacement bridge at Watervale Bridge #63, Harford, MD	1.1
7.	Baltimore County, Maryland	Replacement of Papermill Road Bridge #123 in Cockeysville Area of Baltimore, MD	5.3
8.	Southern, Oklahoma	Testing of effectiveness of recyclable materials on a resurfacing project on U.S. 70 in Southern, OK	2.1
9.	Tulsa, Oklahoma	Upgrade U.S. 75 to Expressway standards, Tulsa, OK	14.0
10.	Atlanta, Georgia	For various transportation improvements in connection with the 1996 Olympics, including the city of Atlanta advanced traffic management system (IVHS)	58.1
11.	Chicago, Illinois	Computerized infrastructure management systems, Chicago, IL	4.3
12.	Oceanside, California	Construction of A, B, and C segments of State Route 76	14.4
13.	Carlsbad, California	Improvements to the interchange at Palomar Airport Road and Interstate 5	3.4
14.	Danville, Virginia	To replace bridges on Main and Worsham Streets in Danville, VA	10.0
15.	Mokena, Illinois	For construction of Wolf Road to an area between LaPort Road and U.S. Rt. 30 in Mokena, IL	1.4
16.	Frankfort, Illinois	Village of Frankfort Roadway improvement projects	1.3
17.	Plainfield, Illinois	Replacement of E J & E Viaduct over IL Rt. 59 and Dupage River Tributary	1.0
18.	Romeoville, Illinois	Replacement of 135th Street Bridge, Romeoville, IL	5.9
19.	Water Street, Pennsylvania	Construction of a 2 lane bypass around the Borough of Water Street on U.S. 22 of Pennsylvania	8.0
20.	Holidaysburg, Pennsylvania	To relocate U.S. 22 around the Borough of Holidaysburg, Pennsylvania	52.0
21.	Lewistown, Pennsylvania	For safety improvements on the Narrows to eliminate potential problems brought on by rock slides	1.6
22.	Pennsylvania	To relocate U.S. Rt. 22 North of Lewistown, Pennsylvania	58.3
23.	Reedsville, Pennsylvania	For construction of a 4 lane highway between Reedsville and Seven Mountains, Pennsylvania	35.1
24.	Pennsylvania	To relocate section of railroad tracks between Hagerstown, Maryland and Shippensburg, Pennsylvania to eliminate 23 at-grade crossings and to make connection to an existing railroad line	14.4
25.	Roaring Spring, Pennsylvania	To upgrade to 3 lanes by adding a center turning lane to a section of Pennsylvania 36 from New U.S. 220 to the intersection at Roaring Spring, Pennsylvania	8.8
26.	Altoona, Pennsylvania	To widen and extend Chestnut Avenue from Altoona to Juniata, Pennsylvania	7.12
27.	Bedford County, Pennsylvania	To widen Rt. 30 from the Narrows in Bedford to Mt. Dallas, Pennsylvania	48.0
28.	Brevard County, Florida	Design, acquire right-of-way and construct a widened bridge on State Road 3 over the Barge Canal	6.9
29.	Blacksburg, Montgomery County, Virginia	Construction of 6 mile 4 lane highway to demonstrate intelligent/vehicle highway systems	5.9
30.	Mobile, Alabama	For reconstruction of the West Tunnel Plaza Interchange on I–10 from Virginia Street to Mobile River Tunnel, Mobile, Alabama	15.0
31.	Pennsylvania	To widen U.S. Rt. 202 from King of Prussia to Montgomeryville, Pennsylvania	8.9
32.	Galina, Illinois	To conduct environmental, preliminary engineering and design studies to widen a 47 mile stretch of U.S. 20 to 4 lanes	2.0
33.	Areneck County, Michigan	To improve a 12-mile stretch of U.S. 23 between Rt. 13 and Rt. 65, Michigan	4.7
34.	Brooks, Jim Wells, and Live Oak Counties, Texas	To improve, upgrade and widen U.S. 281 to the Mexican Border	27.6
35.	Alabama	To construct a 4-lane access controlled highway to bypass Montgomery, Alabama and connect I–65 and I–85	11.8
36.	North Dakota	To design computerized system to inventory and manage off system bridge repairs or replacement statewide; begin repair activities	8.9
37.	Los Angeles, California	For preliminary work on a project to enhance the capacity of I–5 in Los Angeles and Orange County from the downtown area to the State Rt. 91 interchange in Buena Park	6.7
38.	Mendon, Illinois	To construct 14.8 miles of Highway 336 from Illinois Rt. 61 near Mendon, Illinois to West Point Road	5.0
39.	Bryden, Washington	Construct 3 miles of new and improved highways connecting Clarkston, Washington with Lewiston, Idaho	3.9
40.	Missouri	To widen I–55 between Rt. M and Rt. 67 in Jefferson County, Missouri	5.1
41.	Jefferson County, Missouri	To upgrade 7.9 miles of Missouri Highway 21 in Jefferson County, Missouri	5.1
42.	St. Louis, Missouri	To construct a 4-Lane outer beltway connecting I–55 and I–44 in St. Louis and Jefferson County, Missouri	7.6
43.	Hillsborough, Florida	Widen and enhance safety and drainage features of I–4 from Tampa to the Hillsborough County Line	24.5

	City/State	*Innovative projects*	*Amount in millions*
44.	*Wichita, Kansas*	*To construct a 6 lane access controlled highway and interchange at Oliver Street*	*6.6*
45.	*Brigham City, Utah*	*To construct an interchange on I–15 at Forest St. in Brigham City, Utah*	*3.6*
46.	*Utah*	*For the upgrading of U.S. 89 in Davis and Weber Counties, Utah*	*3.0*
47.	*Grand Rapids, Michigan*	*For construction of a bypass around Grand Rapids, Michigan connecting I–96 and I–196*	*6.9*
48.	*Suffolk County/Long Island, New York*	*Avoid erecting costly areas through selective black topping through high noise road segments*	*2.0*
49.	*Suffolk County, New York*	*Evaluate suitability of composting and recycling for use on Federal-aid highway medians and perimeters*	*0.4*
50.	*Springfield, South Dakota*	*Plan, engineer and construct a bridge across the Missouri River to connect South Dakota Rt. 37 to Nebraska Highway 12*	*4.7*
51.	*Vermillion, South Dakota*	*Engineer and construct bridge across the Missouri River in the vicinity of Vermillion, South Dakota*	*3.6*
52.	*Pennsylvania*	*Design, engineer and construct 2 exits off Interstate 81 at Wilkes-Barre and Mountaintop, Pennsylvania*	*16.7*
53.	*Genesse, Michigan*	*Widen and improve pavement in Mundy Township, from Baldwin Rd. to Cook Rd.*	*0.16*
54.	*Flint, Michigan*	*Engineer, design and construct improved and widened 5-lane road*	*0.5*
55.	*Flint, Michigan*	*Engineer, design and construct 1.02 miles of 5-lane roadway*	*0.9*
56.	*Flint, Michigan*	*Right-of-way acquisition, relocation and construction of Bristol Road*	*3.1*
57.	*Salem, Oregon*	*To construct the Salem Bypass around Salem, Oregon*	*6.0*
58.	*Montgomeryville, Pennsylvania*	*To improve U.S. 202 from Montgomeryville to Doylestown, Pennsylvania*	*10.8*
59.	*Amherst/Erie County, New York*	*Widen 2 miles of Rt. 263 from 2 lanes to 4 lanes and rehabilitate a 4 mile stretch of Rt. 78*	*7.6*
60.	*Idaho*	*To improve the Bryden Canyon Rd. in Lewiston, Idaho*	*5.3*
61.	*Mojave, California*	*Widen and reconstruct bridge to CALTRANS height standards*	*1.8*
62.	*Freemont, Iowa*	*For construction of Iowa highway #2 from Sidney, Iowa to I–29 in Freemont County, Iowa*	*8.7*
63.	*Council Bluffs, Iowa*	*For a variety of improvements to the Valley View Corridor in Council Bluffs, Iowa*	*1.0*
64.	*Indiana*	*Construct extension of Interstate 69 to link Evansville and Indianapolis, Indiana*	*3.8*
65.	*Aberdeen, Ohio*	*U.S. 62 Ohio River Bridge*	*15.5*
66.	*Jacksonville, Illinois*	*U.S. 67 Jacksonville Bypass*	*15.8*
67.	*Snohomish, Washington*	*Snohomish County, Washington HOV Lanes*	*6.5*
68.	*Portland/S. Portland, Maine*	*Portland-S. Portland Bridge*	*134.5*
69.	*Iowa*	*Highway 63 Improvements, Waterloo to New Hampton, Iowa*	*15.1*
70.	*Brook Park, Ohio*	*Aerospace Technology Park Access Rd., Brook Park, Ohio*	*14.2*
71.	*California*	*Rt. 156 Hollister Bypass, San Benito, California*	*0.9*
72.	*Monterey, California*	*Rt. 101, Prunedale, California*	*4.2*
73.	*New Jersey*	*Rt. 21 Viaduct, Newark, New Jersey, City of Newark's Project*	*14.8*
74.	*New Jersey*	*Rt. 21 widening, Newark, New Jersey, City of Newark's Project*	*13.9*
75.	*North Carolina*	*U.S. 64 widening in Chatham and Wake Counties, North Carolina*	*5.3*
76.	*Tennessee*	*I–81/Industrial Park South Interchange, Sullivan County, Tennessee*	*5.8*
77.	*Tennessee*	*Foothills Parkway: Pittman Center to Cosby, Tennessee*	*11.2*
78.	*Ohio*	*Kelly Avenue extension, Akron, Ohio*	*9.5*
79.	*Exton, Pennsylvania*	*Exton Bypass, Exton, Pennsylvania*	*26.8*
80.	*Alabama*	*Black Warrier River Bridge, Tuscaloosa County, Alabama*	*6.4*
81.	*Brooklyn Park, Minnesota*	*Highway 610 crosstown project, Brooklyn Park, Minnesota*	*36.0*
82.	*California*	*I–880/Alvarado-Niles Road Interchange, Union City, California*	*9.5*
83.	*Merrysville, Washington*	*Interstate 5 Interchange improvement: 88th Street, Merrysville, Washington*	*1.9*
84.	*Myrtle Beach, South Carolina*	*Carolina Bays Parkway, Myrtle Beach, South Carolina*	*5.9*
85.	*Mississippi*	*U.S. 90 improvements including 6 lane bridge and approaches, Pascagoula, Mississippi*	*4.3*
86.	*Bakersfield, California*	*Rt. 58 Improvements, Bakersfield, California*	*4.7*
87.	*Santa Fe Springs, California*	*Norwalk Blvd. grade separation, Santa Fe Springs*	*4.7*
88.	*Hoquiam, Washington*	*Gray's Harbor Industrial Corridor Bridge, Hoquiam, Washington*	*4.7*
89.	*Traverse City, Michigan*	*Traverse City Bypass, Traverse City, Michigan*	*4.5*

111.	Chicago, Illinois	Landscaping, resurfacing, repair and replacement of curbs and gutters, bridge cleaning and repair of lights and redesigning and installation of new signs historic 28 mile Boulevard, Chicago, Illinois	5.4
112.	Cadillac, Michigan	Improvements to highway U.S. 131, north of Cadillac	4.2
113.	Durham County, North Carolina	Accelerated construction of a four-lane divided freeway on Route 147	38.3
114.	Corpus Christi to Angleton, Texas	Construct new multi-lane freeway	41.7
115.	Fort Worth, Texas	Construction of an overpass and frontage road at the Fort Worth Hillwood/I–35 interchange	12.7
116.	West Sacramento, California	Construction of Industrial Boulevard Bridge over Sacramento River Barge Canal in West Sacramento, California	8.3
117.	Baltimore County, Maryland	I–695 Improvements in Baltimore County, Maryland	23.9
118.	Hampton Roads, Virginia	I–64 Crossing of Hampton Roads	5.9
119.	Calumet City, Illinois	Reconstruction of 156th Street and 156th Place from Burkham Avenue to State line	1.3
120.	Frankfort Township, Illinois	Improvements of streets in Frankfort Township	1.0
121.	Matteson, Illinois	I–57 Bridge Improvements	3.6
122.	Illinois	Road Improvement, U.S. 150/Ill. 1 from Belguim to South of Westville	3.8
123.	Illinois	Road Improvement, U.S. 45 from Savoy to Tolono	5.6
124.	Alabama	Patton Island Bridge Project	4.7
125.	Borough of Paulsboro, New Jersey	Construction of a new bridge to improve safety	2.7
126.	Minnesota	Completion of Cross-Range Expressway (Trunk Highway 169)	13.0
127.	Hinckley, Minnesota	Safety and capacity improvements to Trunk Highway 48 and relocation of County Road 134	2.0
128.	Minnesota	Trunk Highway 53, Twig to Trunk Highway 37	9.5
129.	Minnesota	Trunk Highway 169, Grand Rapids to High City	9.0
130.	Minnesota	Trunk Highway 61, Schroeder to Grand Marais	18.0
131.	Wisconsin	Improvements to Highway 41, Oshkosh to Green Bay	41.7
132.	Wisconsin	Improvements to Highway 29, Chippewa Falls to State Trunk Hwy. 73	28.3
133.	Minnesota	Trunk Highway 37 and Hughes Rd	0.5
134.	Pennsylvania	Route 120 widening in vicinity of Lock Haven	4.0
135.	Pennsylvania	Replace U.S. 15 bridge across Tioga River	3.2
136.	Pennsylvania	Wysox Narrows Rd. (U.S. 6)	3.0
137.	Chicago, Illinois	Improvements on Kennedy Expressway, except that the allocation percentages under this section shall not apply to this project and, in lieu thereof, 1/3 of the funds for such projects shall be available for obligation in each of fiscal years 1992, 1993, and 1994	175.0
138.	South Carolina	Southern Connector Highway improvements in Greenville County; Highway 17 Bridge Replacement Projects over Cooper River, Charleston; Carolina Bays Parkway improvements, Myrtle Beach (funds to be equitably divided among these facilities)	11.0
139.	South Carolina	Rail Corridor Revitalization in Columbia, South Carolina	4.0
140.	Rhode Island	For design and construction of a stormdrain retrofit on I–95 and other highway runoff programs to protect Narragansett Bay	13.0
141.	South Kingstown, Rhode Island	For historic renovation and development of an intermodal center at the Kingston Railroad Station	2.0
142.	Lincoln and Cumberland, Rhode Island	For historic rehabilitation of the Albion Bridge and Albion Trench Bridge	2.0
143.	Newport, Rhode Island	To develop the marine mode of the intermodal Gateway Transportation Center	6.0
144.	Bristol, Rhode Island	For road improvements in Bristol, Rhode Island	2.0
145.	Pennsylvania	An applied technology demonstration in advanced technology demonstrations in advanced driver information systems, with a special emphasis on display instrumentation and information communications technology, to be carried out in cooperation with the Center for Advanced Design and Communication Arts Technology at the University of the Arts	2.0
146.	Vermont	Construction of a highway from U.S. 7, North of Bennington, Vermont southwest to NY 7 in Hoosick, NY	20.0
147.	Woonsocket, Rhode Island	For construction of Route 99 Extension	1.96
148.	Woonsocket, Rhode Island	For repaving streets in Woonsocket	1.40
149.	Woonsocket, Rhode Island	For improvements to 3 bridges crossing the Blackstone River	0.35

	City/State	Innovative projects	Amount in millions
150.	Cranston, Rhode Island	For reconstruction and repaving of Park Avenue, Sockanossett Crossroads, Olney Arnold Road, South Comstock Parkway, Wildflower Drive, Aqueduct Road and Mapleton Street	5.7
151.	Rhode Island	For operating expenses of the Rhode Island Public Transit Authority	18.0
152.	New Hampshire	To study corridor protection for New Hampshire Route 16	2.0
153.	North Conway, New Hampshire	To provide congestion relief on U.S. 302 and New Hampshire Route 16	6.3
154.	Kansas	To widen U.S. 81 7–15 miles Belleville to Concordia	7.0
155.	Kansas	To construct Hutchinson Bypass between U.S. 50 and K–96 Hutchinson, Kansas	24.4
156.	Wyoming	For reconstruction of county roads not on the State Highway System by the Wyoming State Department of Transportation	20.0
157.	Virginia	For the rehabilitation, renovation, reconstruction, resurfacing, safety improvements and modernization on the existing 1,069 mile Interstate system in Virginia to be distributed by the Commonwealth Transportation Board, to the maximum extent possible, on an equitable regional basis	63.5
158.	Minnesota	Hennepin County, Minnesota Bloomington Ferry Bridge/C.S.A.H. 18 Replacement Project Bloomington, MN	18.0
159.	Minnesota	Nicollet County, Minnesota C.S.A.H. 41 for roadway stabilization and rockfall control North Mankato, MN	3.0
160.	Minnesota	St. Cloud, Minnesota T.H. 15 bridge across Mississippi River and Interchange with T.H. 10	3.24
161.	Minnesota	Minnesota Safety Initiative Program ($2 million to demonstrate the safety benefits of retroreflective pavement markings and signs, especially for nighttime and older drivers; $1 million to demonstrate the safety and environmental benefits of elastomer modified asphalt in cold weather climates)	3.0
162.	New York, New York	Hell Gate Viaduct: upgrade, repair & paint	55.0
163.	New York, New York	Ferry Landing, Battery Park: Reconstruction of ferry landing within Battery Park	2.0
164.	New York, New York	Foley Square Plaza: Transportation improvements & construction activities for Foley Square Plaza development	5.25
165.	New York, NY	Franklin Delano Roosevelt Drive: To reconstruct & improve several sections of Franklin Delano Roosevelt Drive	10.0
166.	Corning, NY	Corning Bypass Improvements	11.0
167.	Nelson County, North Dakota	Grading & surfacing: from U.S. Highway 2 at Michigan southerly to ND Highway 15 at McVille; and of FAS 3220 from ND 1 to ND 32	8.5
168.	Stutsman County, North Dakota	Surfacing from I–94 north & east through Spiritwood, then north to ND Highway 9	4.0
169.	Steele/Griggs County, North Dakota	Grading & surfacing of FAS 4612 & FAS 2012 from ND 32 to ND 45	2.9
